JOHN W. FRANCIS REPORTS FOR SERVICE UNDER ACT

Fair Directors Present Him With Purse. He Has Worked Hard For Association.

At the close of the directors meeting last Monday afternoon, the members of the Agricultural Society presented John W. Francis with a small sum of money as a token of their appreciation of his efforts while acting as secretary of the association. Mr. Francis has reported for service under the Military Service Act, and did not apply for exemption, although as a farmer and producer he was entitled to this privilege. Mr. Francis came to this country with his parents at the early age of three from Wardsville, Ont., and they settled in Assiniboia. In July, 1890, his parents moved to Beaverhills Lake. In his work as director of the Fair Association others saw possibilities, and he was appointed secretary, which post he has filled very ably for three years. In fact any impetus that the Fall Fair has received, has been received through his hustling. He is a member of the Methodist Church, and an active member of the church board of management. As a farmer he is well known in the community and his many friends wished him Godspeed last Tuesday, as he departed for Calgary, where he expects to train.

CLARENCE SIMMONS IN KHAKI

Clarence Simmons, our local "lightning slinger," has been ordered to report for duty under the Military Service Act. When the act came into effect, Mr. Simmons did not avail himself of the clause giving to apply for exemption, but reported at once for duty. Being a "Class A" man Clarence was caught in the first draft, and left for Calgary last Tuesday.

Mr. Simmons has been connected with the G.T.P. in this town for the last two years, and is well known as a willing worker, a good mixer and a very industrious young man. He will be sadly missed here by a host of friends, who wish him all kinds of good luck and a safe return. Take good care of yourself, Clarence.

Good Night Rheumaticks.

Like Farnelious of old who went [illegible] for the "Elixir of life," Tom Rowe trimmed his whiskers, dressed in his Sunday best, boarded the choo choo and set sail for the coast cities last week. Tom is in search of a cure for his "rheumaticks." He wants to shake those never ending pains that torture a mans joints and leave him full of suffering and curswords. "I expect to be as sound as a two-year-old when I get back," posth Thomas.

Good Show.

The retreat of the Germans from Arras and the Canadians at Vimy received its full quota of support at the Variety last Saturday. Walter Bellamy put the move in movies when he secured this film. He ran a matinee on Saturday afternoon, and two shows at night. The fans didn't turn out to the afternoon performance, but responded in the evening. An excellent show is being provided next Saturday evening. Special features every Wednesday evening.

Hockey Game.

A pick up hockey game between the boys Tuesday evening resulted in a 4-2 win by the "Pine Tigers." A. Hingley acted as arbitrator. The way the boys dig in and pursue the disc shows that we may have a pretty nifty junior team here this year. Other towns along the line might take careful notice of this, especially if they imagine they have any hockey material in their corporate limits.

Card Party.

The home of Mr. and Mrs. Lew Short was the scene of a merry party last night. A nice household gathered to pass the evening at progressive whist. Miss Mattie Stuart won the ladies prize and R. W. Fincott was highest among the men. Miss Mary Bethel had the least number of games and was awarded the booby prize. After a delightful lunch served by the hostess the floor was cleared for dancing.

Visit Home.

Miss Jessie Hoggard and Miss Bernice Grismod arrived from Camrose Friday evening for a visit with home folks.

Agricultural Society Arrange For Two Institute Meetings

R. W. Fincott Appointed as Delegate to Attend Fairs Convention at Edmonton.

A rousing meeting of the directors of the Tofield Agricultural Society was held in the Town Hall on Monday. Plans were discussed for two Institute meetings and it was decided after a hot discussion that several features might be added to this branch of the society in order to arouse more interest. Messrs. R. W. Fincott, Jos. Rogers and C. W. Barnes were appointed a committee to arrange for a rousing institute meeting to be held in the Variety Theatre some time in the early part of February. Outside speakers will be invited to attend and a good programme will be planned, the proceeds to be handed to the Red Cross. Farmers who are interested in this work should assist the committee in every way possible. R. W. Fincott was appointed to attend the Fairs Convention at Edmonton on February 9-21. Mr. Fincott will make a report at an institute meeting to be held some time in March. A committee consisting of Messrs. John McGinnitie, J. W. Warner and Abernathy will arrange the programme of this meeting.

Considerable time was spent in discussing correspondence from W. F. Stevens and others regarding hog culture. It is estimated that the enormous shortage in hogs will affect the prices still more, and it will be the duty of every farmer to get in on the ground floor and raise porkers.

The date for the annual fall fair has not been decided on as yet, but the directors have asked for Thursday, September 12, with a second choice of September 13. Monday and Saturday will be taboood this year, as those two days seem to affect the attendance.

After the meeting the directors presented John Francis with a small sum of money made up between them as a token of their regard for his efficient work as secretary. Mr. Francis has resorted for duty under the Military Service Act, and left on Tuesday for the city, where he will be sent to camp to train.

W. H. Wood, President of the U. F. A. on Food Producton

When addressing an audience of farmers and townfolk at Rosebear, Mr. Wood said:

"I have two sons. Both are of military age. Both have been exempted because they are farmers, and their services are needed as producers. Our land is better suited to cattle raising than to the production of wheat. We purpose continuing in the cattle raising business, but we also intend to grow as much wheat as we can although wheat is an uncertain crop with us. We also intend to raise as many or more hogs than we have been growing. We will do this because we are told, on what we think is good authority, that our army and our allies are in urgent need of these commodities, namely, bread and bacon.

"It may be that the returns will not prove so certain or so great as they would be from the growing of those things to which our land is best suited, but we believe that we will be able to derive a fair return from them, and we are glad to be permitted to serve in this cause at home on our own farm.

"Having been exempted from service because they are farmers we soon feel that there is a special duty resting on them to produce to the limit of their ability those things that will contribute most to the cause for which our soldiers are fighting, and for which they would have to fight had they not been exempted.

"In view of the high price of labor and of those commodities which the farmers have to buy raising hogs at around 16 cents per pound may not seem so attractive as selling coarse grains at present prices, but nevertheless on the whole it is highly remunerative and, as compared with serving in the trenches at a dollar and ten cents per day, it looks mighty good to us.

"This service is just as essential to the cause as that being given in the trenches. The question is: Are we going to give the best service we can?

"I know enough about the spirit of the Alberta farmers to know that, as soon as they understand the necessities of the case and see clearly their duty, they will make good."

Big Red Cross Dance Thursday, Feb'y 14

Masquerade Ball Was a Howling Succes. Park's Orchestra Provide Some Excellent Music

Several Good Costumes Win Valuable Prizes. Dance Broke Up at 3 A.M.

WITH THE CURLERS.

The McCauley Cup competition is over with skip Somers in possession of the jewelry. Rev. Stewart and J. W. Somers saw-sawed thro' the whole competition and ended up with six wins apiece. Last Monday evening was the time set for the final game. Somers won quite easily, the score was 10-4 in the fifth end and the fracas ended with Somers 18, Stewart 8. The last end really clinched the affair when Somers had six counters in the house. Following is the personnel of the winning rink: A. C. Dodds, R. Murray, Bill Lee and J. W. Somers, skip.

STANDING OF RINKS

Rink	Won	Lost
Somers	7	2
Stewart	6	3
Lee	5	3
McCauley	4	4
McLaughlin	4	4
Rowe	3	4
Jiggins	3	5
Rogers	3	5
Swift	1	6

The Ladies Trophy competition started Tuesday evening. McCauley took Jiggins into camp on No. 1 ice, and Lee won from Rowe in the last end on No. 2 ice. Following is the draw:

All games positively start at 7:30.

Jan	18	1	Rowe vs Jiggins
		2	McLaughlin vs Stewart
"	19	1	Somers vs Lee
		2	McCauley vs Stewart
"	21	1	Stewart vs Somers

		2	McLaughlin - McCauley
Feb	1	1	McCauley vs Rogers
		2	Jiggins vs Lee
"	2	1	Swift vs Stewart

Married.

At the manse of Robertson Presbyterian church, on Tuesday, January 15th, at 2 30 o'clock, the marriage took place of C. W. Barnes, of Tofield, to Annie Eastman, daughter of Mrs. Frank Eastman, of Ryley. Mr. and Mrs. Barnes will reside in Tofield. Rev. R. G. Stewart performed the ceremony.—Edmonton Bulletin

One of the best masquerade dances ever pulled off in Tofield was staged by the theatre management last Friday night. Although the thermometer took a sudden notion to drop during the day, the enthusiasm of the dancers in town and district did not seem to be affected. Park's orchestra provided the music. They came highly touted from Edmonton and certainly lived up to advance notices. Old timers stepped out in glittering costumes, and showed a light heel to the best of them. J. D. Hannan as "John Bull" took first prize for being the best dressed gentleman. Miss Lily Lane was awarded first prize, she dressed as a Gipsy girl. Shorty Carter drew the first prize for comic dress, and Mrs. Guy Billington as the "Spinner" won in ladies' comic dress. The prize waltz was keenly contested, and the final awarding went to C. W. Barnes as the "Zulu man" and lady. When the lady unmasked it proved to be Artie Hingley dressed as a "Spanish dancer." Supper was served by Chas. Mah Watt from 11.30 till 1 o'clock. The dance broke up at 3.00 a.m., and everyone turned their reluctant feet in the homeward way

Rink Started.

The kids took on a few extra smile wrinkles, and even some of the older folks shook out a few kinks when the rink formally opened for skating last Saturday afternoon. The ice was in good shape, and it is to be hoped that sufficient interest will be taken to warrant the town council spending the money to keep it in order. The hockey enthusiasts, are arranging to practise hockey, and we will likely have two teams flourishing here this winter in spite of the cramped quarters. T. Knox has been engaged to look after the rink this winter, and he will provide good ice. The fees are not very large, and everyone should avail themselves of the chance to put in a few weeks' good skating at a low cost. The council are not in shape to maintain the rink if it should run at a loss. If you want to skate, buy a ticket and get busy. Following is a scale of prices:

Bachelor Feed.

R. W. Fincott acted as host last Sunday evening to a delightful bachelor supper. A few friends gathered around the festive board to partake of the tempting viands so skilfully prepared by Mr. Fincott.

Belgian Army Is a Real Force

The Division Strong, Well Organized and Impassive to Fight

Two divisions strong, the Belgian army is ready to take its part in the defense of the Allies' cause. Although the Belgian army was overwhelmed by numbers in the first days of the war, it was never defeated. Its resistance was magnificent, and from the beginning of the conflict to the end of the retreat to the Yser it was impossible to break it. Then it was strong enough to take the offensive with the French army, and it helped to win the victory of the Marne. Since then it has been holding the line from Nieuport to Dixmude, and it has never yielded an inch of ground.

The Belgian army is a real force. It is composed of men who have been trained to the use of arms. Every able-bodied man in Belgium has had to serve in the army. Before the war the army was divided into two classes. The first class was composed of men who were called to the colors for a period of eight months. The second class was composed of men who were called to the colors for a period of fifteen days. Every year the men of the first class were called out, and every year the men of the second class were called out. Thus the army was always ready for action. It was always strong. It was always well trained.

Belgium is a small country, and it has a small population. Its army is small. But it is a real force. It is a force that has proved its worth. It is a force that has shown its mettle. It is a force that has made a record for itself that will live forever in the annals of history.

Uruguay's City of Roses

From "Through South America's Southland," by Dr. J. A. Zahm

But the gardens! And the flowers! Never have I seen in any part of the world such marvelous exhibitions of flowering plants and shrubs, native and exotic, as are found about the residences of the Montevideans. Of course, they surpass in richness and luxuriance of bloom those that are found in the same latitude in the United States, for they are in the midst of the tropical vegetation, but they surpass in variety and in the skill displayed in their arrangement those that are found in any other city of which I have knowledge. Montevideo is a city of flowers. Its streets are lined with trees and shrubs, and its parks and gardens are filled with them. Every house is surrounded by a garden, and every garden is filled with flowers. Even the poorest of the people have a little plot of ground in front of their humble dwellings, and they make the most of it. Along the cross lines of the tramways, which run from the center of the city to the suburbs, there are long stretches of the most beautiful flowers, and the effect is indescribably fine.

What Germany is Eating

Horrible Concoctions Now Take the Place of Food

Chunks of dried sea lion meat were shipped into the country in the guise of jerked beef. Soaked for a few days in water, the meat was then said to have made tender steak with onions. Some people thickened the soup and served it with spices. German dumpling made up of bread, flour, oats, or rye as is the case. After one or two attacks of indigestion, the dumpling is left severely alone. It fills a vacuum, and that is something when one's head is full from a stiff lighter diet. The "national soup" and called cabbage. French peas sold, and served in the shells, as if made a pretty. It was very good imitation of corned beef and cabbage, but it smelled and tasted as well as bread. As the poor, undernourished, tax bread when it has been doled out on allowance basis, it is with compressed air. It is as much compressed as it can be, and still be eaten. Then it is sent out to the consumer.

Two Women Of France

Relief French Woman Who Was not Afraid of Germans

One of the stories of the war that will be told to future generations of French children is that of Mme. Pelleguer and the village of Gueuse, north of the Oise. When war broke out Mme. Pelleguer was schoolmistress of the village school. She had been long schoolmaster at Maucourt. He left for the front. On August 19 the Germans entered Gueuse. They soon disappeared. Mme. Pelleguer took his place. On October 1, when school was resumed, she combined the infant classes of Maucourt with those at Gueuse. Between the lessons she conducted the affairs of the village, she distributed rations to the refugees and to the poor, she looked after the sick, and, above all, she was a comforting angel to the inhabitants.

Her energy admired and respected her, for she was not afraid of the Germans. She refused to bend to their will. Her courage was man-mad. Among the officers most German Secretary, acting the major on the walls of the school, pointed out that Alsace-Lorraine were de-Germanized. "We will soon make them from the empire!" he added, with a threatening gesture. He replied stoutly.

Then the enemy left. A French instructor entered the village school. He was welcomed by the people, and he called a child the office, "that good."

Maucourt then will long be associated with the name of a woman—the woman who, when the Germans came, had the to adopt a silence," she said to the invaders, and who, when they left, had the courage to speak.

BATHGATE ITEAS

We are pleased to learn that Basil Campbell's condition is greatly improved and that he is returning home soon.

Mrs. Clevedon and daughters, of Viking, spent last week visiting at the homes of her brothers, E. G. and H. L. Fobes.

Eleven registered Aberdeen Angus bulls were sold last week from the F. W. Bayes farm.

Mrs. Chas. Young is with her sister Mrs. J. L. Hay of Ryley, while the latters husband is visiting the old home in the East.

E. Combs and H. L. Fobes attended the stock sale in Edmonton the first half of the week.

The Bathgate Ladies Club of fifteen members have raised $80.00 for the Red Cross fund, for 1917. This sum was made from the $1 per member investment plan. This appears to be a good way, as most all the members are also members of the W. C. T. U. and the Womans Institute of Ryley and among other things, are doing Red Cross work in both of these societies.

But a great work that is being sadly neglected by villages and rural districts is the Y. M. C. A. Too much cannot be said of what the Y. M. C. A. is doing for the comfort of our boys at the front.

Chas. Young marketed two loads of hogs Wednesday of last week.

NOTICE OF APPLICATION FOR DIVORCE

NOTICE is hereby given that Martin Hafner of Tofield in the Province of Alberta, Farmer, will apply to the Parliament of Canada at the next session thereof, for a Bill of Divorce from his wife, Florence Hafner, now residing at Uncas in the Province of Alberta, on the ground of adultery and desertion.

DATED at the City of Edmonton, Province of Alberta, this 15th day of November, 1917.

WILLIAM REA,
Solicitor for applicant.

Wheat.

Marquis is now the variety of wheat grown by the great majority of the farmers of Manitoba. It has reached this pre-eminence in comparatively few years and has done so on its merits. It outyields any other variety tried at Brandon Experimental Farm, has excellent milling quality, has strong straw, is hard to shell, is considerably earlier than Red Fife and more rust resistant. It is the best variety to grow in practically all parts of Manitoba.

Red Fife is the old standard variety which held the first place before the introduction of Marquis. It was the variety that made the reputation for quality which Manitoba wheat holds. On very dry light sandy soil it may still be preferable to Marquis, as it produces a heavier growth of straw under these conditions.

Kitchener is a new variety of great similarity to Marquis. It has a more compact head, particularly at the tip, and the grain is slightly longer than that of Marquis. It has not been tested sufficiently long at Brandon for a pronouncement to be made as to its comparative value.

Prelude is an extremely early variety, and for that reason may be of some value in extending the growth of wheat into regions where the season is too short and precarious for any other variety wherever Marquis can be grown with even fair immunity from rust, Prelude is not desirable, as it is much less productive than Marquis, has poorer straw, shells easily, is bearded and does not equal Marquis in color of flour.

Eye Specialist Coming.

Dr. M. Mecklesburg the highly qualified optician will be at the Royal Alexandra Hotel, Tofield on Monday, February 4. He is not only one visiting this town who has an office in Edmonton. He has been here 13 years and you take no chances when you consult him about your eyes.

The Ford is Now Considered a necessity for Large-Scale Farming

WHETHER you are doing work on a large scale, or a small scale, you endeavor to reduce the delays of your farm machinery to a minimum and save time. A Ford will assist you in doing these two things.

If your tractor runs short of gasoline, the Ford will bring a few cans right to the spot and greatly shorten the delay. Or if you need a repair, or some new plow points, you can "run" the errand to town and back in one-third the time it would take with a horse and rig.

With a Ford you can supervise the work on your ranch much more thoroughly. You can get your mail and supplies oftener, and take more enjoyment out of prairie life. A Ford will do all these things and many more, and at the same time save you money.

The strength and endurance of the Ford has been proved the world over. It is equal to the western roads and the distances.

The Ford is the car for the Western Farmer.

The Great Need Is More Swine, Says Mr. Hanna

Europe Short 12,000,000 Hogs and It Is Duty of Canada and U. S. to Make Up Shortage

[illegible] Hanna, [illegible] Food Controller for Canada, in a speech in Toronto on Saturday night, said that there was a great need for more pork products in Europe, and that the duty of Canada and the United States was to make up the shortage. Mr. Hanna, who has just returned from a visit to Europe, said that the shortage of hogs in Europe was about 12,000,000, and that the duty of Canada and the United States was to make up this shortage. He said that the people of Canada had been living on half rations, and that the duty of the people was to increase the production of hogs. He said that the people of Canada had been living on half rations, and that the duty of the people was to increase the production of hogs.

MAKING USE OF STRAW

Livestock, if Given Access to Straw-pile, Will Eat Large Amount

[illegible] that there is a very great waste of valuable material in the straw-pile. There is no doubt about the fact that the straw-pile is a very valuable material, and that it is a great waste to allow it to go to waste. The straw-pile is a very valuable material, and that it is a great waste to allow it to go to waste. The straw-pile is a very valuable material, and that it is a great waste to allow it to go to waste.

EVERYBODY'S WAR

Fighting in Defence of the Cow Shed as Well as the Hall

The following notes and extracts [illegible] and of France, and [illegible] of the war, are taken from a [illegible] which has been published [illegible] in connection with the [illegible] of the war. The following notes and extracts [illegible] and of France, and [illegible] of the war, are taken from a [illegible] which has been published [illegible] in connection with the [illegible] of the war.

GUARDING THE HOARD

Extraordinary Precautions Taken at Bank of England

The Bank of England is quite the most carefully guarded building in the world. No jeweller or bank thief has ever succeeded in making an entry with a view. The great outer doors are [illegible] and the first one, after the passing a bank under its arch [illegible] shut them in the face of anyone making a dash for the street. They cannot be opened except by special machinery. In [illegible] and the doors are hidden from [illegible] who, without being seen themselves, watch all visitors through mirrors.

Special and costly precautions are taken to guard the bullion during [illegible] when the gold is stored. [illegible] Each shovel that is [illegible] pertinent is subjected to a [illegible] water for analysis. The same [illegible] would be [illegible] to attempt [illegible] it is [illegible] to dirt the place [illegible] with.

New Yorkers have decided twenty [illegible] of interest in the British [illegible]

BOYS OF THE DOMINION

Conditions are Enthusiastic Soldiers—Says Lord Northcliffe

Lord Northcliffe in the London Daily Mail says: Just a word as to the conditions of the Canadian troops. The earliest contingents are naturally composed of a considerable proportion of emigrants from the old country. Latterly, native-born Canadians have predominated. In fact, on my second day with the Canadian troops I encountered neither Englishmen, both French and Englishspeaking. The French-Canadians have so far not enlisted in numbers in accordance with the proportion of the great French province. But those who are in France are enthusiastic soldiers. Their enthusiasm is largely due to the fact that they have been [illegible] from their friends. The French, also, could be explained to Quebec by some of the brave French priests from the trenches. French Canada's sinews would be more useful there. To meet them marching through a sodden mass of mud [illegible] directed exactly like the Tommies, but speaking French, is one of the thousand confusions that abound at the front. Captain Paudeen told me that these Canadian French-men have brought back to France the old folk songs taken away by their ancestors between two and three centuries ago. Sometimes on they pass through the French villages singing their songs the old inhabitants come out in bed-[illegible] that have almost ceased from their memory.

Germany's Lost Colonies

Will Be a Perplexing Problem for the Peace Conference

The Colonial Country which is loudly related to the German government, frankly assumes that after [illegible] per cent war Germany must prepare for the next one by establishing military power on even stronger foundations. It declares that Germany must take over the colonies of Great Britain, France, Belgium, and Portugal in Africa, that she may "have a strong colonial empire to strengthen her position and as a [illegible] than that of her enemies, who must never again be allowed to bring colored troops into Europe." Commenting on this revelation of the [illegible] toward the rest of the world, The New York Times says:

"The fact that Germany will not be able to carry out her plans does not lessen the [illegible] menace in her view of colonies as simply outposts in the endless series of wars which her ambitions involve. Even to negotiate with such a state of mind it is necessary to discuss it on its own terms. The way to do that is to take away from her the colonies she thinks of only as weapons in her hand of the world and put them in the hands of nations whose will tends of them as keeping places of civilization and peace."

The disposition of the colonies taken from Germany will be one of the most perplexing problems for the peace conference which will sit some day. To hand them back to an unregenerated German would be [illegible] To restore to her hands with their [illegible] would be [illegible] to the [illegible] of Australia and South Africa, which stood under the menace of German domination, will be reconciled to her mother country, lest it is not likely that Great Britain will expose herself to the reproach of waging war for selfish motives by keeping all the German territory now in her hands. Probably some of it will be placed under the joint control of the powers—a condominium—in order to prevent international [illegible] and create [illegible] interests for all countries. Whether Germany would be [illegible] would depend upon her behavior.

Danger in Boasting

American Soldiers in France Must Be Modest

[illegible] the warning that our men in France should not boast too much of their achievements when [illegible] is not altogether needless. [illegible] the Americans are the best soldiers in the world, and that the French are [illegible] and were [illegible] [illegible] which seemed to ignore all that the French and British have done in three years. There is no use in [illegible] that we are going to do a whole lot more than [illegible] [illegible] [illegible]

AAISK NEWS.

A. Erickson spent several days in the capital city last week.

Mr. and Mrs. P. Molina and children who have been spending the holiday season in Calgary and Spokane, are expected home this week.

Mrs. Lloyd Watt and children arrived from Aspyn, B. C. on Tuesday for a visit with her parents, Mr. and Mrs. I. H. Olson.

Franklin Tinmath and Art Young took in the bal masque at Tofield last Friday evening and report a fine time.

The Ladies Aid met at the home of Mrs. Paul Flanton on Wednesday when the annual election of officers was held, resulting as follows: President, Mrs. E. A. Moen, vice-president, Mrs. I. H. Olson, secretary-treasurer, Mrs. F. Flanton. The next meeting will be held the first Wednesday in February at the home of Mrs. E. A. Moen.

Rural Route no. 3 gave their faithful carrier, Thos. Herndon, an outshower for a holiday remembrance. A number of the patrons took their quota of oats and left them at John Lee's implement house so that Mr. Herndon could call for them at his convenience. Others met him at their gate with an offering, on one of his regular trips. The bride of today, with their miscellaneous showers of one kind and another, have nothing on the carrier of Route Three.

Miss Agnes Bruha, who has been working in Edmonton for the past three months, is at home again for an extended stay.

Mrs. M. Stutzman is at home again after undergoing an operation in an Edmonton hospital, improving rapidly.

J. C. Olson went to the big stock sale in Edmonton Monday night.

Frank Bruha left last week for his old home in Nebraska to be gone for several months.

Local and District News

Gathered by Our Correspondents

ANGLICAN CHURCH

Anglican services, January 27th. Sunday school 11.00 a. m. Evening service 7.30 p. m.

There will be afternoon service at Logan school at 3 o'clock.

Holy Trinity Ladies Aid will serve a 15c tea and sale of home cookery in the Masonic Hall, over John's store, on Saturday, February 2nd. Business mens lunch served from 5.30; price 35c.

At the annual meeting of the parishioners of Holy Trinity church held last Sunday evening. Messrs J. Secord and J. Robinson were elected church-wardens and Messrs G. Bloor, W. C. Swift, R. Parsliffe, F. Pruden, and R. Bruce as vestrymen for the ensuing year. W. C. Swift was elected a lay-delegate to the Anglican Synod, which takes place in Edmonton on February 5th.

The Annual Basket Social and dance in aid of Logan church funds will be held at the home of W. Lemaie, 2 miles north-east of Logan school, on Thursday evening January 24th.

B. H. Nugent-Wilson
Incumbent.

H. B. HARE C. A.
Auctioneer

All classes of sales called. Sums for terms. Also commissioner, accountant, conveyancer, and auditor.

RYLEY, - - ALTA

Miss May Tofield was the guest of friends in Edmonton this week.

Mr. and Mrs. E. Larson of Camrose are guests at the Chas. Ellis home this week.

Mrs. A. Sinclair of Wainwright was the guest of her sister Mrs. R. Paradis last week.

H. C. Thunell, of the Viking News, paid us a fraternal call last Friday, and also took in the masque ball.

Miss Nola Hannan came down from Edmonton, where she is attending business college, to attend the dance Friday evening.

Miss Ila Murray and father Jas. Murray returned Wednesday morning from Lamont where they visited friends.

Pte. Harry Olbert was invalided home on Saturday morning. He is a brother of Mrs. J. Bailey of Ross Creek district.

Stuart Hall is the latest member of the "push the button" crowd. He has purchased a new Delco system and will light his house and barn with it.

Our sister town of Ryley was pretty well represented at the masked ball last Friday evening. Denial Doc McPherson and wife, Mr. and Mrs. Theo. Bendiksen, Messrs. E. Kjosness and J. Thorley were among those present.

Fire completely destroyed the O. L. Hagen residence south of town last Thursday. The fire started upstairs and the dwelling was burned to the ground in a short time, despite the frantic efforts of neighbors to save it. It was partly covered with insurance.

There will be a big old time dance in the Variety, Thursday, January 31. The Spilsted orchestra will provide the music and "Shorty" Carter will run the dance. This promises to be a good time for everybody. The small sum of 50c will be the admission price to the big time.

NOTICE OF APPLICATION FOR DIVORCE

NOTICE is hereby given that Martin Hafner of Tofield in the Province of Alberta, Farmer, will apply to the Parliament of Canada, at the next session thereof, for a Bill of Divorce from his wife, Florence Hafner, now residing at Uncas in the Province of Alberta, on the ground of adultery and desertion.

DATED at the City of Edmonton, Province of Alberta, this 15th day of November, 1917.

WILLIAM REA,
Solicitor for applicant.

Eye Specialist Coming.

Dr. M. Mecklenburg the highly qualified optician will be at the Royal Alexandra Hotel, Tofield on Monday, February 4. He is the only one visiting this town who has an office in Edmonton. He has been here 15 years and you take no chances when you consult him about your eyes.

"Jeffs" Thoroughly Masticated in Lackadaisical Broomball Game

"Shorts" Lose Their Wind, Dignity and Last But Not Least, the Game.

(By "Slug Tiger")

It was an unlucky thing for "Bud" Fisher that he was born "down south" instead of at Tofield, Alberta. He has a great name as a cartoonist as it is, but to make that name he had to create characters, "Mutt and Jeff," but—

If "Bud" had been born at Tofield his name would be upon all lips in all quarters of the world; his cartoons would have appeared in all civilized and uncivilized lands; they would also have been translated into all tongues. There's a reason, and it is thus:

There's no one thing which holds the attention of humanity to such an extent as does that of ORIGINALITY. Of course "Bud" was original in his conception of "Mutt and Jeff," but Tofield is the home of the ORIGINAL Mutts and Jeffs, and we have them in bunches and great muchness.

They were very much in evidence on Tuesday evening at the skating rink, and it was all that "Bud" Somers could do to hold those Mutts and Jeffs in check while they were attempting to give an exhibition of a "broom ball" game.

And those Mutts — they outmatted the Mutt of the Fisher cartoons and slammed the little Jeffs here, there, and everywhere—up against the boards, on the ice, and etc., and oft. And "Bud" Somers went those Mutts one better and tried to make "Jeff" Hingley jump over a barrel right forninst all those on-lookers for some trivial offence, but little Jeff would have none of it, and he just wouldn't, and he didn't.

But the Jeffs—they wouldn't stay quit in any part of the game, but always came back for more, a train of character which belies such as they.

The tussle between those long, lean and lanky ones, and the short, stout and chubby ones, resulted in a win for the former—3 to 1.

The sum of $14.00 was garnered from the spectators—half going to the rink management, and half to the Red Cross Society.

The two squads lined up as follows:

The Mutts—
Mutt Kirk, goal.
Mutt McMullen, point.
Mutt Bowen, cover.
Mutt Barnes (C.W.), cover
Mutt Shenne, centre.
Mutt Turner, left wing.
Mutt Barnes (J.), right wing.

The Jeffs—
Jeff Carter, goal.
Jeff Ferguson, point.
Jeff Warner, cover.
Jeff Dodds, rover.
Jeff Webb, right wing.
Jeff Hammond, center.
Jeff Hingley, left wing.

Cartoonist, Bud Somers.

A FEW SCROSS

Who said I pulled a "stone"-head play?—The Mutt cover.

The "summer's" the time for that kind of a game.—"Bud"

Let me me give you a "warner"—we'll bust you again at base-ball; see if we don't.—The Jeff cover.

Some-one said I couldn't hit a barn let alone a foot ball. I believe it now; there were two "barnes" there, and I never hit either one.—Jeff Carter.

Did you see me play "guard"; I was the "chief" one on our side. They "fired" shot after shot, but everyone "now" a "guard" when they see one.—The Jeff point.

Modest Hen Fruit Pretty Well Stored Up

And now, eggs are scarce. What's the matter with the Food Controller releasing a few of the millions of dozens held in cold storage warehouses? What was at first intended as a blessing to humanity has turned out to be a curse. The cold storage came into use so that when there was overproduction the surplus could be conserved until a scarcity existed, and then released, and in this way the price be kept normal. But how the original intention has been taken advantage of by the profiteer is well known by our readers. In conclusion—when will our legislators take a tumble and look after the interests of the people instead of that of the few profiteers?

McLAUGHLIN WINS.

Three of our local rinks took a trip to Camrose on Monday to curl. Geo. McLaughlin had his ben pell rink along, and won his game. M. C. Hammond and John Lee dropped one game apiece.

ANGLICAN CHURCH

Anglican Services, February 3rd. Sunday School, 11 a. m.
Evening Service, 7 30 p.m.
Afternoon service at Logan, 3 p. m.

Holy Trinity Ladies Aid will serve a 15-cent tea and sale of home made cookery in the Masonic Hall (over John's store) on Saturday, Feb. 2d.

Business men's lunch served from 5.30 p.m. Price, 25 cents.

The annual basket social and dance in aid of Logan Church funds, held at the home of Mr. Wm. Lennie last Thursday, was a huge success, both financially and from the standpoint of enjoyment. About 100 were present, which included several from Chipman and parts 15 miles distant, although the weather was rather severe. There were over 30 baskets, the highest being sold to A. Lennie for $8.75. Total proceeds amounted to $90, which almost ranks as a record. Mr. Frank Sauer was auctioneer and Mr. Wm. Lennie recorder and cashier. Everybody considered the affair one of the most enjoyable and successful held at Logan, and thanks are hereby tendered to Mr. Lennie and others who helped to make it so.

E. H. Nugent-Wilson

The Farmer of Today Will Have to Figure on a Beef Type for European Trade

Serious Question of Supplying Beef For Export Trade Will Start Producer Worrying.

The general idea that the farmer spends most of his time there cold days sitting around the hot stove poring over mail-order catalogues, or warming up his Ford car, hasn't much foundation.

If you will go among the farmers of the Tofield and Ryley districts any time of the day, and often late at night, you will find them busy caring for the stock and feeding it tons of "chop" that they put up last summer.

In this day of 40 below zero weather stock requires a lot of care. Any spare time that the former has on his hands he spends it figuring out how he can increase his stock.

Wartime conditions play an important part in the live stock industry, and it is now one of the most serious questions of the present times.

The herds in Europe are being seriously depleted, and sooner or later this country will be called upon to supply the fresh meat resources of Canada. A general policy in regard to the shipping of Canadian beef to England will be framed up in the near future.

As far as Alberta is concerned export business of this kind does not seem profitable, although every year is bringing that point very much nearer. W. F. Stevens, live stock commissioner for the province, states that the grade of beef cattle required by the English trade has not yet been raised in Alberta to a sufficiently large extent to make the business profitable. As the farmer grasps the opportunity and raises the proper beef strain new possibilities in this direction must open up, and when the war is over the Alberta farmer will be able to compete in the world market.

Special attention to the live stock industry has been given for two years past by Hon. Martin Burrell, federal minister of agriculture, whose department has made careful investigations into markets and general trade propaganda. The results of this work are now becoming apparent. The weed-grading operations during 1916 have involved the handling of over half a million dollars' worth of produce. The promotion of co-operative work in the marketing of eggs this year resulted in a turn-over of three quarters of a million dollars. The encouragement of methods of sale by quality of eggs consigned to the British market has had marked results, and Canadian eggs have steadily commanded a premium over the American product. Recently the minister initiated a policy of assistance in the return to the farms from the central markets of young feeding and breeding cattle which ordinarily would find their way to the south or to the slaughter house. More than 2,000 head were thus returned to Canadian farms from the western market in October and the movement had the cordial support of the banks, railways, and other public bodies.

One of the vital factors in the successful development of the export trade is undoubtedly the standardization of such products as fresh meats, bacon, eggs, etc. Unless the various commodities could be placed on those markets conforming to standards such as can be relied upon by the overseas purchasers it is useless to expect permanence in the trade.

It is important that we have some man representing Canadian interests in these matters in Great Britain now—France, someone who is thoroughly conversant with conditions here and who can keep in an absolute close touch with market conditions there.

In addition to this there is under consideration the enactment of legislation providing for the grading and standardization of such products as eggs, bacon and poultry. Within Canada itself we intend to extend our work in the promotion of co-operative marketing, and it is deeply gratifying to observe the interest which farmers have exhibited in this new development, which means so much to the successful extension of their business.

Following what has already been done, we shall continue our efforts to secure the preservation of female cattle, to decrease the killing of calves, and generally to extend cattle production. We expect to enter on a comprehensive movement to stimulate hog production with a view of securing a permanent bacon trade. Similarly with eggs and poultry, particularly in Western Canada, where there now appears to be a special prospect of greatly extending this industry.

The full and successful development of both production and export trade can only come, and the government recognizes this, by organizing in such a fashion that railways, financial institutions, and other industries in Canada shall cooperate with agriculture in a common programme to place the nation's business in a secure position upon the world's market as against the competition of other countries whose organization to the same end we must be fully prepared to meet.

LECTURE ON NATIVES OF SOUTH AFRICA — FOR MEN ONLY

THURSDAY, FEB. 7th, IN LODGE HALL (Over Job & Co's. Store) 8.30 p.m.

R. W. PINCOTT will give a talk on the subject of the peculiar and domestic life of the African native; his ideas of right and wrong living; a war covered by a woman; his strict adherence to his moral code; his belief that the white man's morals are inferior to his, impure and inconsistent; and many other very interesting subjects.

Men Over 21 Years Only Admitted. Entire Proceeds to Red Cross. Admission 50c.

WALLACE HERNDON GETS A SEND-OFF

Hastings Lake people are having some good times this winter. Dancing is the chief mode of enjoyment. On Thursday, January 17, a goodly number of the young folks from Tofield and surrounding district gathered at the Hastings Lake schoolhouse to give Wallace Herndon a send-off. Wallace is a "Class A" man, and subject to draft. Being a mail-carrier, he was allowed until February 3rd to arrange his affairs. Box-holders along Route 2 presented him with a purse and a handsome wrist watch as a token of their appreciation of the very efficient service he has rendered. Wallace expects to leave for Calgary on Saturday, where he will train for service overseas.

THANKS.

Wallace Herndon wishes to thank all those on Rural Route No. 2 who gave him the wrist watch and purse.

VARIETY NEWS

Are you missing the beautiful Bluebird photo-plays on Wednesday evening at the Variety theatre?

A young lady named Hare
Said she didn't care
To go to a show
Without a beau
To take her there.
—Take the girls, boys.

The big attraction at this popular play-house on Saturday evening next, February 2nd, is "Mr. Dolan of New York." Jack Mulhall, a leading star in motion pictures, will be seen in the title role. We have never seen this picture, but by the appearance of the advance paper sent it is sure a good'un. There is a good sprinkling of comedy throughout the five parts. It's a Red Feather production.

Another guaranteed attraction is to shown at the Variety on Wednesday evening next, Feb. 6th. It is a Bluebird, "The Girl in the Checkered Coat." featuring that charming screen star, Dorothy Phillips. Miss Phillips will be supported by Lon Chaney and Wm. Stowell. This attraction is an amazing combination of artistry and photographic trickery. Reads queer —but it's a fact, that Dorothy Phillips will meet herself face to face, converse with herself, drag herself from one room to another, and, finally, leans over the back of a chair in which she is herself seated and gives herself a "lasting out" for the misdeeds of her old self. The writer has seen this picture, and his advice to you is, "See it."

Tofield In a Whirl of Social Activities

SURPRISE PARTIES, ENTERTAINMENTS, ETC.

High Old Time.

When interviewed about the party held at his place last Friday evening, A. C. Dodd's stated that "We all had a high old time. A large crowd gathered early in the evening to enjoy the hospitality of the Dodd's farm and to spend the evening in dancing and other forms of amusement. A big lunch was served at midnight, and dancing was resumed until the party broke up in the early hours.

Miss R Leller Entertains

Miss Ruris Leller entertained the high school students and Mr. and Mrs. Geo. Sheane at the home her mother, Mrs. J. Leller, southeast of town on Friday evening. About fifteen of the young folks spent an enjoyable hour at music and singing. Parlor games were indulged in until lunch was served by the hostess. The party broke up at 1.30 a.m.

Unpleasth Birthday

Our charming "bachelorette," Miss Mary Bethel, was surprised by a number of girl friends last Thursday evening, the delightful event being the celebration of her "unpleasth" birthday (never do to tell her age). Miss Bethel was presented with a number of useful gifts.

Editor Got His

Talking of bombardments on the west front—if they are any worse than that which took place at our domicile over the print shop on Friday evening last, we don't believe we care to go "over there." We have heard of stillness being so still that you could actually hear your hair grow, but the deafening thump thump of those gasoline tanks was so great that we couldn't hear what we had to say about it—and possibly it's just as well we couldn't! The editor and his wife were chivareed (or however you spell it) on that occasion.

Red Cross 'Spell.

The curlers are planning a 'spell in aid of the Red Cross this season, one that the ladies can take part in. The one difficulty with this is that the ladies 'spiel is pulled off so late in the season that the ice is too heavy for good curling. The ladies are enthusiastic curlers, and "scoop 'er up," in a way that would make the parlor carpet shine if the same pressure was applied on it. But when the ice is soft, and the rocks won't go over the bog line, some of the fun is taken out of the game. The Edmonton Bonspiel usually attracts a bunch of our local enthusiasts each year and the "roaring game" languishes here as a result. Why not use those few days and let the ladies curl? The ice would be in good shape, and enough rocks could be scared up to run one sheet of ice.

Tricks of Fighting Planes

Man on Antenna on Western Front Saves His Life by Playing Possum and Escapes in Safety

It is not only the smart dog that knows how to "play dead and roll over." Bombing-plane pilots do it every day, both British and German. It frequently happens that it is only by playing dead that they keep alive.

When planes are fighting high in the air and one suddenly finds himself in a tight corner, he has to do something quick. He has to shoot accurately or his opponent will get him. He has to maneuver so that the enemy's guns will not be brought to bear on him. And he has to do all this in a hurry, for the chances are that the other fellow is trying to do the same thing to him.

Suppose, for example, that a British plane is flying over the German lines. Suddenly a German machine comes up behind it and opens fire. The British pilot knows that he is in a tight corner. He has to do something quick. He cannot turn and fight, for the German machine is behind him. He cannot dive, for the German machine will follow him down. He cannot climb, for the German machine will climb with him. He cannot fly straight ahead, for the German machine will overtake him.

What he does is to put his machine into a steep dive, and then, when the German machine is following him down, he suddenly pulls his machine out of the dive and starts to climb. The German machine, which is following him down, cannot pull out of the dive so quickly, and it shoots past the British machine.

Then the British machine turns and dives, and the German machine climbs. The British machine shoots past the German machine, and the fight goes on.

Sometimes, however, the German machine is too close behind the British machine to allow the latter to get away by diving. Then the British pilot has to do something else. He has to do something that will make the German machine overshoot him. He does this by suddenly throttling down his engine. The German machine, which is following him, shoots past him, and the British machine is behind the German machine

THURSDAY, JANUARY 31st, 1917

RYLEY NEWS

(Intended for last week)

An enjoyable evening was spent in Society Hall on January 15th last in honor of Elvin Kjonsvea, who left for the South. At the opening a host of games were played, tables and equipment being supplied for the purpose. The orchestra then began to tune up, and the crowd was soon tripping the light fantastic on the floor. Supper was served at midnight, and these present soon afterwards departed for their homes, each being well satisfied with the evening spent. A purse of $25 was presented to Mr. Kjonsvea, for the last three year s Elvin Kjonsvea has occupied a prominent position in the Quebec district. He will be succeeded by Alexander McPherson.

A moving picture show was held in the Standard school-house on Thursday last. Miss Kjonsvea and Miss McPherson sang songs, and Messrs. G. Brooke and E. Peterson played a violin duett. Lefrus H. Goodall gave a reading. There was a large gathering, and a very good time was had after the show. The receipts went towards payment of the machine.

An interesting debate will take place in the Presbyterian Church on Tuesday evening, February 13th, under the auspices of the W.C.T.U. The subject to be debated is "Resolved that women suffrage would be a benefit to society." The speakers- Mrs. Alf. Thorley, Miss Annie Goodall; negative speakers—Mrs Blackburn, Mrs. J. L. McPherson.

Mr M Killian and Miss Anna Knudsland, both of Ryley, were united in marriage at the First Presbyterian Church, Edmonton, by Rev Dr McQueen. Miss K Knudsland, sister of the bride, acted as bridesmaid, and Mr O Osland acted as best man. The happy couple returned on Sunday morning.

Revival services were held in the Lutheran Church from Sunday to Wednesday. Rev. Herreston was assisted by Rev Bostvold and Rev Ostrom, of Camrose.

A basket social and dance was held in Society Hall on Friday evening, January 18th. The music was furnished by the Ryley Orchestra. The proceeds were handed over to the Ryley Athletic Association.

Mah Joe, of the Ryley Restaurant, got his face badly burned some time ago by lifting the torch, with which he was going to light the lamp, fall on his face.

Messrs. H Fobes, M Solberg, R Patterson, and J Manderson left Sunday evening, Jan. 20th, as delegates to the U F A convention, which is being held in Calgary.

A motion-picture show was held in the Society Hall under the auspices of the Ryley School on Friday evening, Jan. 19th. The show took place before the basket social and dance.

E. Ferguson has purchased another Clydesdale stallion from Alex. Galbreth of Edmonton.

Mrs H Kjonsvea and Miss Myrtle Thorsley were visitors in Edmonton the first part of last week, returning home on Friday morning.

From Men Who Respond to Greater Production

The following extracts are from communications received by the Live Stock Commissioner from men who respond when needed and who help to make a country.

From the secretary of the Falsgrove Local U F A comes this report:

Most of our members are planning to increase their hog production. Personally, I may say that before the campaign for increased bacon production started I had ten sows that I was preparing to sell. I am now breeding all of them. Please inform me where I can secure a supply of screenings.

V W Messenger.

From Consett comes the following:

With reference to increased bacon production in our district, I would say 75 per cent. of the farmers are keeping an increased number of breeding sows. From a financial and patriotic point of view I think our settlement is going to turn out at least five hogs next year for every one we raised this year."

T F Castle, Secretary.

From Vulcan there comes the following:

Fully 30 per cent. of our farmers are adding from one to five brood sows to their herds.

Rev. A R Schrag.

Remarks—When it's remembered that Vulcan is in the heart of the short-growing district, an addition of from one to five animals to a man's breeding herd, it is a matter of no little credit and importance.

S'more Ryley News.

The local U. F. A. are going to get a carload of wire in the Spring.

Mrs E W Broom returned from Ponoka last week after spending the Xmas and New Year holidays there.

Dr J L McPherson and M Lane returned from Edmonton on Friday morning.

Congratulations to the editor upon his recent achievement.

Miss E Houghestol went to Camrose last week to attend the funeral of her sister.

Miss Myrtle Thorsley has resigned her position as post-mistress at B. cson's store.

Mrs C W Barnes is visiting at Ryley this week.

Mr J L Hay returned Thursday from Little Current, Manitoulin Island, Ont., where he has been visiting his old home.

Mr P Reil and daughter, Mrs E Solberg, returned Friday evening from Nebraska, where they have been visiting relatives and friends.

DELCO-LIGHT

Keeps the Boys and Girls Contented on the Farm---

INCREASES FARM EFFICIENCY

The present scarcity of farm helpers is due largely to the fact that most boys and girls have been leaving the farm at an early age. Their attention has been diverted to the city by the well-lighted, cheerful homes, and the many other desirable city conveniences.

This is a condition which must be corrected, and DELCO-LIGHT will help to do it by bringing to the farm home all of the modern benefits.

DELCO-LIGHT MAKES IT WORTH WHILE FOR THE BOYS AND GIRLS TO STAY ON THE FARM. INCREASES FARM EFFICIENCY

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

All Share In Imperialism

In Germany Well-to-do Not Peculiar to Junkers

Equal Sacrifices Are Called for in Great Britain, Says Writer

Every man, woman and child must be brought to the realization that the most conscious in a serious one and that every man must do his part in the work toward winning the war."

So said Arthur Willmott, head of the administration for New York, in an address before the members of the association.

"The problem," he said, "is not one of today or of tomorrow, or even of next year. It is for the duration of the war and for some time after, because of the exhaustion and disorganization of European countries. And the people of America must be willing to undergo sacrifices as have the people of England, who for two years have been willing to fill the ranks, men and money and abundant economies. Many of these economies have been forced on thrifty people by the high prices of food products would otherwise not have practiced.

"The task of the food administration is not a one-sided one. First, in the regulation of prices it must see to it that the farmer is benefited as well as the consumer in food products. Second, it must help to increase the supply of foods that even though they have not been produced in large quantities in the past. Food is now precious to the world, and we must learn to use substitutes for all foods, about which we are in New York City in a very fortunate position, as we have many substitutes at hand.

Mr. Willmott closed as an example of what can be done in New York City by telling how the people in the three hotels had saved 3,000 pounds of wheat flour in a single month.

"It will probably be twice as long before the people of the United States will see the bread which is now in the New York today—one of the most delicious in America, and the cheapest.

"Two meatless days a week and two wheatless days a week are urged by the food administration. This is to be submitted one day and poultry on another basis. In connection with this Mr. Willmott said it will be the duty of the people to see that the milk and cream went first to the sick and babies.

Mr. Willmott paid a high tribute to the women of the country in their food campaign. "Without their assistance," he said, "the food campaign would be a failure."

Better Farm Homes

Manitoba Rendering a Valuable Service to Farming Community

It is a good thing for the province of Western Canada that an increasing number of farmers are building substantial homes equipped with the modern conveniences. Not only is this making of better homes in accordance with the development of that province, though its engineering has progressed to a remarkable extent, but it is also a valuable service to the farming community. In securing a better farm home a great menace has been adopted. Many of the farmers in the past have come to the province for the best of reasons, but they have not in all cases done for less than a shifting character. Not when a poor crop ended, or a high ground, as if for cattle, to farm, turned on to new lands. It is also a valuable encouragement to the settlement of the better class of citizens and value, as the high prices ensure, is the best kind of the parasites which damage and destroy crops and are not to be found in ordinary way. Anyone can try the experiment at the cost of a few pounds. The sample sent was sown and on a common farm. Two bricks might be the best farm for a farmer, but this is a good deal of the first the province has intended, for the interest, and list of names of seed is not strictly registered in the farmers interest else from the sample you would, I have no doubt, keep for hundreds and provided that it was always kept distinct from other seed. Any one who has grown potatoes on the same piece of land knows how much trouble and expense is caused by the presence of a few small potatoes left in the soil from the previous crop, and if one could be sure that the seed was pure and free from admixture, the saving of labor would be a good deal more than the price of the seed.

Made 10,000 Shark Hooks

A Government Order Was Filled by a Connecticut Blacksmith

The government is going to fish for sharks, but not for the table, however. It is going after this species for the purpose of getting its liver, from which oil is derived and used as a substitute for leather.

The experiment was made some week and the man who has given Uncle Sam the benefit of his skill is one J. W. Fordham, a New London (Conn.) blacksmith who always has the vicinity of picturesque Block Island, as the result of the order for ten thousand shark hooks were made, in his shop on the Thames river, for the government.

Mr. Fordham signed the contract September 24 and was allowed thirty days in which to fill the order. But by keeping his force working day and night, especially Sundays, the job has been completed.

The hooks Mr. Fordham made are the highest German political and military institution, with whom Von Tirpitz has been an unofficial terror since the beginning of the war.

What Germany Has Done

Germany has completed her fleet to make military successes of those others. The expedition to Italy is an answer to the German successes of three years ago, as well as to the Austro-German drive of today. As the French blue and the British khaki once the former allied combined rises in the ability of the armies of democracy to win in the long struggle against militarism. — Boston Globe.

"They say men of brains live long as their others."

"Don't worry about that, dear boy; you may be one of the exceptions to the rule."—Baltimore American.

"Talk is cheap."

"Yes, nobody is trying to conserve it."—Louisville Courier-Journal.

Everyone Must Eat Less for Some Years

Plenty of Meat for the Allies, But Food Supply Is Not Abundant

Extracts from address delivered by Mr. Herbert C. Hoover, U.S. Food Administrator for New York, in opening the campaign for the conservation of foodstuffs.

"The problem," he said, "is not one of today or of tomorrow, or even of next year. It is for the duration of the war and for some time after, because of the exhaustion and disorganization of European countries. And the people of America must be willing to undergo sacrifices as have the people of England, who for two years have been willing to fill the ranks, men and money and abundant economies. Many of these economies have been forced on thrifty people by the high prices of food products would otherwise not have practiced.

"The task of the food administration is not a one-sided one. First, in the regulation of prices it must see to it that the farmer is benefited as well as the consumer in food products. Second, it must help to increase the supply of foods that even though they have not been produced in large quantities in the past. Food is now precious to the world, and we must learn to use substitutes for all foods, about which we are in New York City in a very fortunate position, as we have many substitutes at hand.

"Two meatless days a week and two wheatless days a week are urged by the food administration. This is to be submitted one day and poultry on another basis. In connection with this Mr. Willmott said it will be the duty of the people to see that the milk and cream went first to the sick and babies.

Mr. Willmott paid a high tribute to the women of the country in their food campaign. "Without their assistance," he said, "the food campaign would be a failure."

Es'timos Publish Own Newspaper

People of Northland Become Excited When Their Paper Arrives

Eskimos who range the Alaskan coast for thousands of miles, recently celebrating the first anniversary of their paper, the Eskimo, published in Nome by Walter C. Shields, superintendent of the northwest district, with the approval of Dr. P. C. Claxton, United States commissioner of education. It is said to be the "farthest north" newspaper in the world.

Reported largely by Eskimo subscriptions, it reaches every village in Alaska's thousand seaboard. For hundreds of miles on the shore have settled in Nome, say that this journal—the only printed means of communication in the Eskimo language—is prized so highly that the copies are folded away for safe keeping in igloo Bibles.

Hunting, fishing and reindeer news is seen in by the parka clad constituents in a manner that is startling. Running back from the search for whales, walrus or reindeer herds, Eskimos are added to

Red Cross Dance
Thursday, February 14th
VALENTINE DANCE
Good Music Good Floor

LOCAL NEWS

Only 344 days more until Christmas. Have you paid your dog-tax?

Auctioneer Carter made a trip to Mundare the first of the week.

Mrs. J. W. Carter is visiting her folks near Edmonton this week.

The Red Cross wish to thank Mr. Bellamy for the use of the Variety for Mr. Bowen's lecture on Monday evening, January 21.

Born—To Mr. and Mrs. R. W. Pincott, on Monday, January 28th, at Edmonton, a son.

Born—To Mr. and Mrs. C. W. Graves, of Kilkenzie, on Saturday, January 26, at Tofield, a son.

R. W. Pincott returned from the city on Tuesday morning. We'll take a guess.

SQUIRREL FOOD

We're getting weather in bunches these days.

Oh, for "the good old summer-time" once more.

Funny, but most every fat girl reports the information that she is just plump.

R. I. Posey was telling us this week about the resolutions at the Methodist with much gusto. Just he's been hired to wear a model T Ford while driving his new car next spring.

With all the latest devices for pure food and sanitary conditions will someone deliver us from the woman who puts Bab's milk bottle in the water cooler?

Wanted—Some new jokes for this column. Even a Ford joke would be alright.

All right, Mr. Editor, here's one. She tried to play base-ball
I'm a blister,
Sold my sister;
We met in the hall
Then I kissed her;
Then I mester
After the ball.
—ROSLEY

If you are determined to play practical jokes, it's a good plan to pick out somebody you can lick.

The first thing after our arrival upon this mundane sphere is to advertise most strenuously; we cry lustily for something to eat, and it is supplied. Thus you see our first advertisement was a WANT AD.

Some people never get over the habit acquired so young. If they want help they drop into the nearest dispenser of knowledge and talk it over with him. The result is that ye editor advises a small want ad placed in a prominent position. The small sum of one dollar changes hands, and the editor buys a new suit of clothes, a side of bacon, etc., and gives the change to little Willie to put into his tin bank.

The want ad brings results. The wise man is besieged with applications, and another ad has to be inserted telling the public he has a man.

Nature was surely kind when she constructed a man so that he couldn't kick himself.

Don't snore in church; it is not right to make so much noise that you disturb the other sleepers.

This frosty weather is hard on cattle. As I was driving through the country a few days ago I saw a cow slip up the hill. I go out, and after a long tedious climb I reached it. It was growing alongside a "sour-grapes" vine.

ROGERS BROS., Proprietors

Several members of the Presbyterian Ladies Aid met at the home of Mrs. E. S. Colp last Friday. The usual business meeting was held, and the ladies planned a delightful tea to be held at the home of Mrs. A. J. H. McCauley on Thursday, February 7th. In connection with this tea the ladies will have a sale of home cooking and serve ice cream. Everyone is cordially invited.

Tofield Girls Win From Varsity Team

Boys Take Short End of 4-2 Score At Camrose.

The largest crowd since the days of the "Silver Seven" filled the rink last night to watch the Edmonton Varsity girls go down before the Tofield opponts in a fast game that was crowded with thrills. In the first period Edith Herndon of the local stars shot the lone tally of the game. After that it was merely a one-new affair, with all the playing around the Varsity goal. Alice Bristed appeared on the line-up and bolstered up the forward line, and Mary Bethel dropped back to cover point, replacing Thelma Hosier. Otherwise the line-up remained unchanged from the Camrose game.

Tofield was swep off shooting on the score might have been fifteen instead of one. Only twice in the entire game was the Tofield goal really threatened and then Mrs. Neil was right on the job. The Varsity girls didn't play up to expectations, and Tofield certainly have an easy time repeating the performance in a return match.

BOYS LOSE.

About fifty strong, they went forth to conquer and returned conquered, though not a bit down in the mouth. Camrose took our boys team into camp on the Camrose ice in a smashing game Saturday afternoon to the tune of 4 to 2. The game was rough and needed the combined efforts of two officials to keep it from resembling the ancient and memorable Donnybrook Fair. With a ton of extra beef in their favor, a sheet of ice some larger than ours, and looking very much like a duck pond, as there was a healthy thaw in progress, and our boys suffering from stage fright, the Camrose team played Tofield to a standstill. However, 4-2 isn't bad and a win apiece makes a third game necessary to decide the honors. The extra game should be played in Tofield as they land in sterling. But wherever the game is played Camrose may rest assured they will have a job on their hands.

GIRLS TIE.

The Tofield Wanderers, our young ladies of hockey fame, cranked sticks with the Camrose ladies last Saturday afternoon at Camrose. The game was uproarious and owing to the condition of the ice locked the usual punch that you get at a hockey match. The going was so heavy that it was almost impossible to pass the puck. However a good time was had by all, and maybe the next time they will do better.

Following is a line up of the Tofield team:

Goal—Mrs S A Hall
Point—Gertie Emery
Cover—Phelma Hosier
Rover—Velma Kirk
Centre—Florence Martin
R Wing—Edith Herndon
L Wing—Mary Bethel

Institute Meeting Will Be Held in Variety Hall Tuesday, February 19th

SOME LIGHT.

R W Pincott has installed a 400 candle-power gasoline lantern outside his office which throws a light for about 500 feet. It is the latest patent in gasoline lanterns, and certainly shoots out the glim. Interviewed by our special correspondent Mr Pincott said that in testing out this lamp he found it to cost less than a cent an hour and that in view of most favourable and satisfactory business conditions, he felt that he could at least afford to show his appreciation to his many clients (ladies especially) by showing them the way home, not to speak of the great saving it would mean to Accident Insurance Companies.

Mostly Snake.

That idea I stole, the kind you can cut with a knife, awoke the editor from his dreams early this morning. Slipping on our wheelcumaccalleens, we descended the stairs to find that a small blaze was rapidly eating up our overfull powerplant. A few buckets of water very judiciously placed, served to dampen its ardor and we have a hole in the floor as a memento.

No Jewelry.

The Tofield rinks were among those present at the Edmonton bonspiel but not among those in the jewelry class, although they came very near it in several competitions. Geo. McLaughlin, veteran skip of several "spells, won the most of his games, but managed to get knocked out when he was in sight of the hardware. The weather was ideal and the curlers had a week brimfull of good curling. Next year they may have better luck.

ANGLICAN CHURCH

Anglican services Feb. 17 1918.

Sunday school 10 00 a. m.

Holy Communion 11.00 a. m

Evening service 7.30 p. m.

There will be afternoon service and Holy Communion at Lagun school at 3 00 o'clock Bishop Gray of Edmonton will preach at both services here and Lagun

Interesting service for the war next Wednesday evening at 8.00 p. m. followed by a choir practice.

At the Anglican Synod held in Edmonton last week it was decided to allow ladies who were qualified, to be equally eligible with gentlemen to hold office as members of the Vestry.

B H Nugent-Wilson
Incumbent.

PROMINENT SPEAKERS WILL ADDRESS MEETING

The Tofield Agricultural Society are planning for one of the biggest Institute Meetings ever held in the history of the society. There has been some good ones held here too. Special speakers have been invited from Edmonton to attend and talk on poultry, noxious weeds, hogs, cattle and other subjects dear to the heart of a farmer.

Institute meetings play a very important part in the farmers life as he is able to mingle with his brother tillers of the soil and hear subjects discussed, subjects that he may talk on freely and give opinions or ask questions as he desires. It is a great pity that more enthusiasm isn't worked up among the farmers, in regard to these meetings. Special speakers who know their subject are wary birds and scarce as hen's teeth. It costs money to get them on the job. When they do appear, a crowd should turn out to listen to them.

Tofield is to-day fortunate to secure the services of Mr. Benson, of Edmonton. He is connected with the Agricultural Department, and has kindly consented to come here on Tuesday, February 19th, and lecture on the "Production and Marketing of Poultry". This is one of the big questions of the day, especially if you have to buy them. Mr. Benson will take the 9.20 train home and as a result the meeting will start early. Those who come late will be the losers.

Other speakers of renown are being engaged to talk on noxious weeds, how to eradicate hens, as well as a few simple methods to prevent them. Hogs, another great topic will probably be taken up. These are topics that you should come and help discuss. In connection with this, the local Red Cross branch are arranging an elaborate program of music, readings and vocal numbers. Nearly three hours of interesting events is promised you. A silver collection will be taken up for the Red Cross. Be there, and come early.

Annual Meeting.

The annual Congregational meeting of St Andrews church was held on Tuesday evening, with a good attendance. The various reports submitted were of a most encouraging character. The amount of money raised during 1917 was over $1700 which was $500 in excess of preceding year The Sunday school which has an enrollment of 100 scholars raised $115 A portion of this went to missions, $10 to organ fund, $14 to Armenian fund and $3 80 to Northern Messenger Ambulance fund. The Ladies Aid had a most successful year, having raised over $200.

The Women's Missionary Society reported an increase of membership and the raising of $17 70 in money, in addition to a contribution of clothing with value $26.70. Mention was made in the report of the loss sustained by the Society in the removal of the president Mrs R Whitlam

Messrs J W Cookson, McCauley and Geo Cookson were re-elected to the Board of management for the term of three years Mr Chrouch was elected to complete the two years of Mr Newbigging's term. J W Cookson was chosen superintendent of the Sunday School and Mr McCauley assistant.

At the close of the business meeting the ladies served refreshments.

A dance, box social and concert will be held in the Lake-shore school house, four and a half miles north of town on Friday, February 22nd. The proceeds of the event will go to the Red Cross fund Everybody welcome.

In the knockout curling competition held at the curlers were at Edmonton, the final game was won by Ralph Davidson.

Shorty Carter held a successful sale at the Angus Campbell farm yesterday. Today he is at Ryley crying a sale for Anton Parovich.

ROOTERS.

Among those who attended the hockey games at Camrose we note Lod, Mr and Mrs Bob Martin, Mr and Mrs Geo Shaune, Mrs Chas Hammond, Mrs S A Hall, Mrs N J Kirk, Mrs Geo Rix, Thelma Hosier, Mary Bethel, Alice Martin, Gertie Emery, Louise Francis, Mabel Weed, Dorothy Black, Helen Jones, Katherine Secord, Rurie Lefler, Mildred Grismold, Velma Kirk, Olga Kask, Jean Secord, Florence Martin, Thelma Hosier, Vera McDonald, Paul McMaster, Howard Carlisle, Bud Hartis, Frank Wade, Alan Lewis, Willie Smith and Ralph Bowen.

We Giggled.

Under the heading, "It is to Laugh," the official mug of the Wayne basket to the east of us, gave full vent to his Rollicking and hilarious abilities this week in connection with slight—ahem, protest of his. He evidently smoked a few [illegible] got started to [illegible] a few old gags that our old grandsire [illegible] on the Agricultural [illegible] South [illegible] that "Stampede" [illegible] days [illegible] appeal [illegible] way's [illegible] a take effect [illegible] manufactured a smile, which you may [illegible] ments of a lately [illegible] ered any Friday afternoon [illegible] local fish dispensary. CHAPTER XXVI
The Desperate Answer

Retiring From the Farm

Fullest Concessions Does Not Always Result From Change of Environment

The prospect of retiring from the farm is one dearly loved by many of those actively engaged under the present conditions of labor scarcity. A few are actually discouraged and ready to turn their backs on the old home for unpleasant or insecure surroundings in town. In many instances a few months of solitude and a few words of advice from the wife, says the writer, bring the person rebellious to a more normal frame of mind.

Making Rural Life More Attractive

Analysis of the Problem of Keeping Farmers on the Land

To keep the farmers on the land is one they get there has become a country problem than that of how to get them to the land. They are not to be leaving the land in their hands at the present time, and the fact is that millions of acres of land could be brought under cultivation if there were enough farmers to do the work. In the state of Maine, which has had perhaps the most thorough and long-continued forest growth, with regard to the presence of trees, a closed season has been asked, and that the proposition

THURSDAY, FEBRUARY 14th, 1918

RAISE A HOG, RAISE TWO HOGS.

Keep a pig; keep a sheep; keep a hennery; keep rabbits; raise more beef; produce more grain; save foodstuffs for the boys overseas; advise the food controller. All these are questions which affect very much the agricultural section in this district. Farmers only have an opportunity to read at intervals of what measures are being taken in other communities and what measures are being taken to live up to the Food Controller's advice. The local agricultural society having arranged for an institute meeting to be held in the Variety on Tuesday, February 19th, will have speakers on hand to deal with those questions, or at least a part of them. You will be advised how to run a hennery up-to-date, or how to get rid of noxious weeds, and etc.

The farmers while intensely interested in all this, don't as a rule get very enthusiastic over an institute meeting. Some very good ones have been held here and no doubt better ones will be held in future. What we would like to point out to our farmer friends is the importance of attending this one in full force. You may read on another page, more dope about this meeting, and at the same time remember—we expect to meet you there.

RED CROSS FINANCIAL STATEMENT.

Herewith is rendered financial statement of Tofield Red Cross Aux. (501) from November 1st, 1917, to date.

RECEIPTS

Cash on hand November 1st,	$ 11 95

Total expenditure,	$464 19
Balance on hand, $41.88.	

In submitting the above report, thanks is especially due Mrs. S. A. Hall for the donation of a steer which made $122; and to Mr. Beamish who drew the lucky number and turned the steer in to be auctioned off, making another $46. Mr. W. Bellamy has also been very good to the society in granting the use of the theatre. Mr. Warner's turkey shoot netted the society about $70. The Tofield school children did well in making up $9.30 in 10c. pieces. Thanks also is due Rev. T. A. Bowen and R. W. Pincott for lecture proceeds, and all others who have given donations in any way. The society solicits a larger membership and cordially invites all to help in this worthy cause.

Mrs. J. W. COUGHLIN, TREASURER.

Typhoo the Will to Win

Prince Has Called Her Strong Man, Clemenceau, to the Helm

At 76 Clemenceau is still the undisputed if youthful alertness of mind and as burning. But that he is strong Nero goaded by hard pressure of war into a prime minister is a long story to be regarded as certain and material matters.

Clemenceau has a wonderful vitality and he has had opportunity of the finest kind to strengthen it. Nothing and Nay For Years Clemenceau's many years in dealing with men and matters in the Assembly at Versailles is said to be like lightning and he to a nic. He typifies as much as any one man can the spirit of France's will to win he is very confident of will power

Clemenceau has a wonderful physique nerves and components, all those inefficiency and weakness which are the bane of modern existence, and many who are much younger in years than he are denounced in the corner of a long career, and added to that he is a country in with him.

Added to this indomitable will and

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Catarrh being greatly influenced by constitutional conditions, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c.

Observer Day's Work After the War

English Ladies, After Taste of Better Conditions, Will Not Recede

Lord Leverhulme, head of a great English soap industry, the capital of which is 200 million dollars, has very pronounced views as to the effect of the great war on the future position of the nation's workers. Lord Leverhulme is himself a model employer, having provided for his work people a model town in which they have every delightful social convenience, including provision for the education of the children.

"It may, I think, be taken for granted," he says, "that when peace is restored workers will not be willing to return to the old conditions of wage and living. I am convinced that we will never consent to go back to them.

"The war has altered many things; it has broadened our outlook; it has taught us to be practical and to be alert. It has introduced a spirit of unity into our industrial and commercial systems that will last long after the war has been fought and enjoyed the sweets of peace, the full fruits of labour, the higher

they will either be reasons why that they will never consent to return to their old conditions of wage and living.

Lord Leverhulme was an interviewer on the subject of the future of labour and the British Empire.

Canadian Better Than Beauty Doctors

For clearing, purifying and beautifying the complexion, hands and hair, Cuticura soap is supreme, especially when assisted by touches of Cuticura Ointment to soothe and heal the first signs of skin troubles. 25c. Free sample "Cuticura, Dept. B, Boston, U.S.A." Sold by dealers throughout the world.

German Artillery Losses

Secret Report of Enemy General Staff Found by French Army

The London Daily Chronicle correspondent with the French armies states that a secret report issued on May 4, 1915, by the chief of the German general staff and signed by Lieutenant-General Ismael, shows alarming losses in the German artillery. The report says that during the ground operations, the average number of guns put out of action by a single German army in a single month either by wear and tear or enemy fire, is, in field guns, sixty pieces. Still, in other words the output of the workshops is not adequate to make good the losses to the extent of three quarters of the whole artillery establishment, merely in order to maintain existing

A Prime Dressing for Wounds

In some factories and workshops where cuts, bruises, and other forms of irritating wounds and sore continually occur, it is the practice to have on hand a bottle of Dr. Thomas's Eclectric Oil, which is found to be a useful and safe remedy for all such accidents.

Morale of Allies is Splendid

Col. E. M. Home Says British and French Determined to Win

Col. E. M. Home, who has been in England on leave, returned to the front last week. He is a brother of Lieut. Home, who was killed in the early days of the war, and is himself a veteran of the South African campaign.

Col. Home is confident that the morale of the British and French armies is splendid—the best it has been since the beginning of the war. He is also confident that the United States is pro-Ally to the core. The feeling in the trenches is splendid—the best it has been since the beginning of the war.

Britton and Hun

Germans Averse to Coming to Close Quarters

The difference between the British and German methods in the matter of hand-to-hand fighting is clearly illustrated in the Belgian Britton's account of the fighting at Neuve Chapelle. He says:

"It's not a case of blessing our own souls when the high order, 'No prisoners,' is given. It's just a case of every man for himself, and the devil take the hindmost. The Germans don't like it any more than we do, but there's no way. The fact is that it's all a matter of temperament. Some men like to look their foe in the face before they kill him. Others prefer to creep up behind and do it when he's not looking. That's the way with the Germans. They don't like to look you in the face before they kill you, but they don't mind creeping up behind and doing it when you're not looking. I don't like it myself, but I've got to do it, or they'll get me. I've seen quite a few Germans who've been killed in the back, and I've seen quite a few who've been killed in the front, and I've seen them both ways. Personally, I prefer to look my foe in the face before I kill him, but I've got to do it the way he wants it done, or he'll do it to me."

Minard's Liniment Cures Colds, etc.

No Bran or Shorts Allowed to Be Exported

Farmers' Food Supply Will Be Provided For

In order to conserve the supplies for the use of Canada and the Allies, the Food Control Commission of Canada has issued an order prohibiting the exportation of bran, shorts and middlings from Canada, except under license. The order will be effective on and after May 15th, 1915.

Minard's Liniment Cures Garget in Cows.

What Will It Do For Me?

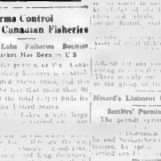
YOU have heard of the great good this food cure is accomplishing for others. You have come to realize that nervous diseases do not right themselves, and therefore feel the necessity of some treatment to help you back to health and strength.

Now comes the all-important question as to what Dr. Chase's Nerve Food will do for you.

Barring our answer on a knowledge of the restorative value of these well-known and tried ingredients contained in this food, and on the experience of those who have proven its curative powers under the most trying conditions, we want to tell you that—

It will make your blood rich and red.

It will nourish the starved nerve cells back to health and vigor.



Mrs. C. Frech, 184 Lansdowne street, Peterboro, Ont., writes: "I was all run down and could not sleep. I was very nervous and irritable. I had no appetite and could not eat. Any sudden noise or a door slamming would make me jump. Your testimonials in regard to Dr. Chase's Nerve Food gave me confidence to try it, and I am glad to say it has done me a world of good. I can now sleep well, eat heartily, and am not nervous. I have also used Dr. Chase's Ointment for eczema, and find it a splendid remedy."

It will cure nervous headaches by removing the cause.

It will strengthen the action of the heart.

It will correct the weakness and inactivity of the digestive organs.

It will restore energy, ambition and confidence.

It will prevent the development of nervous prostration, paralysis and locomotor ataxia.

Why not put Dr. Chase's Nerve Food to the test? We know that the formula is right. We have proven to you by thousands of reports from cured ones that this treatment positively effects cure, even in the most complicated cases.

We cannot do more. It remains for you to make the test. You have everything to gain by using this building-up treatment, for it cannot fail to be of at least some benefit to you.

Dr. Chase's Nerve Food

50 cents a box, a full treatment of 6 boxes for $2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

PACIFIST TALK IS ENDANGERING GREATLY THE CAUSE OF THE ALLIES

THE FATE OF DEMOCRACY IS IN THE BALANCE

Winston Spencer Churchill, British Minister of Munitions, Says

There has Never Been a Moment During the War when There was Less Reason for being Misled on Issues

Speaking at Bedford recently on the subject of the allies' war aims, Winston Spencer Churchill, minister of munitions, said that the situation was more serious than it had been reasonable three months ago to expect. The country and the allied arms, Colonel Churchill added, were endangered. The future of the British empire and of democratic civilization was hanging in the balance and could continue to hang there for a considerable period.

There are people who wish to bring about a premature peace. They are hurrying to the agitation and danger to counsel of certain politicians. People who say: Be quiet—peace will come, really mean to make peace with the Germans or Huns.

"The British do not mean to put up anything but the legitimate and righteous aim with which we entered the war, and we will not cease as this were seriously raised. It could be divided only by the sword. For my reason are that there is the slightest degree of sympathetic feeling here to be free decision of be wholesome.

"President Wilson's statement we may allow to speak for itself. We mean to win the war, however long it may last. It does not seem to follow out of the ranks, the United States has fallen in and is rushing to our aid. The longer terms Britain and America are fighting the more they will be driven together. They will be driven together. They will make towards for what we are now suffering.

After frankly dealing with the present war, Mr. Churchill said that this was entirely due to the fact that Britain had been thoroughly beaten by German intrigue and gold, and by German arms.

"Our enemies have not been able

INSTITUTE NOTES

One thing to remember is the date

The next thing to do is to be there, and come early.

The main speaker of the evening will take the 9.15 train back to the city. If you are not there on time you lose. Remember, we warned you.

If you come, bring your family. Bring a friend. Bring two friends. Bring a sleigh-load.

But, be sure and bring your wife and daughters. The main event of the evening will be a talk on poultry.

The Red Cross are arranging a dandy programme.

Make this Institute the best one ever held in the history of Tofield.

SQUIRREL FOOD

Ha, ha! the Food Controller controls, and the city grocer loses his money on the flour in the basket where he puts the eggs in the sale.

It has been hinted that the Food Controller will take drastic action soon.

Eggs are bringing as 50 cents per dozen, and the ultimate consumer looks on over before he decides to start consuming.

That 13,000,000 dozen locked up in cold storage would be a welcome sight if they were turned loose in this age of meatless days.

Eggless days! Nothing to it if you can't get em to eat.

Easter is in sight and eggs are going—up.

One egg-dealer tells us that he can sell his product in the city for 65c. per dozen.

Only 330 days more until Christmas—have you got your marriage license?

CATTLE FOR SALE—1 3-year-old heifer, (dry). 1 cow milking, 2 last season's calves.—Apply R. W. Pincott.

BARN FOR SALE—Good frame-sided, 16x32, for sale at less than half the cost.—Appy R. W. Pincott.

GRADUATED WAR TAX ON YOUR INCOME

Those Enjoying Highest Incomes Will Pay the Largest Amount.

If the income war tax law, about to be applied, did nothing more than cause a national stock-taking, it would serve a most useful purpose.

The taking of an inventory of one's resources invariably induces a desire to save and a desire to save when translated, as it very frequently is, into a determination to save, means getting on with the war, as well as happiness all around. This process; first an inventory of one's resources, then a desire to save, applied to every unmarried person, or widow and widower without dependent children, receiving an income of $1,500 and over, and to all other person receiving an income of $3,000 and over, will unquestionably result in a large proportion of economy, as a determination to save. And that means more general prosperity and renewed national strength.

But a national stock-taking is only incidental, of course, to the chief purpose of the income war tax which is to provide revenue for the prosecution of the war in as equitable a manner as possible. The tax is to be graduated, according to one's ability to pay. Those who are in receipt of only a living wage or salary will not be called upon to pay; those enjoying the highest incomes will be called upon to pay the greatest amounts, and the great body of income receivers between, will be called upon to pay in their due proportion.

Moreover, the purpose of the act is to distribute the burden equitably among all classes. By way of illustration the farmer will be required to add to the value of his actual income, the value of the home-grown products which his own family consumes. Thus places the farmer on a plane with the salaried man who value of whose service is wholly represented in the income received and against which he must charge all his living expenses.

Canada has established a war record that is the envy of the World. It is certain that the Canadian people will run true to form in answer to this latest call of their war government.

BOSSY IS WORTH A FEW YEN NOW

You may croak about the bottom dropping out of the hide market and the price of oats going up and eggs being worth fifty cents a dozen. But did you ever notice what a homely old family cow will bring at an auction sale these days? Anywhere from $95 to $120 while good cows with a calf at side are being knocked down at $135.00 Who wouldn't sell off a few, and realize at the present prices?

Ryley News.

Mr. Russell, school inspector, visited the local schools here on March 5th and 6th.

Ryley was pretty well represented at the Womens Institute convention last week. Mesdames C. F. Nicholls, B Nicholls, Chas. Kaiser, F. W. Boyles and H. L. Fobes attended from here.

Mrs. L. H. Archer of Edmonton, was busy renewing acquaintances on Friday.

The picture show and dance at the Standard schoolhouse attracted a number of our young people last Thursday evening. The long drive didn't seem to make any difference as everybody had a good time.

The Presbyterian ladies aid met at the home of Mrs. J. L. McPherson on Friday, March 8th

C. McLennan has forsaken the confines of our village for the more invigorating environment of the grain fields Hereafter he will attend strictly to following a plow.

The Lutheran ladies aid had a supper and sale in the Lutheran church last Thursday A good crowd was in attendance and the sum of $41.85 was realized for the Red Cross fund.

Sam Nicholls has accepted a position on the Royal Bank staff, succeeding Miss Ella Solberg, who left on Monday for Lethbridge.

The Ryley public school moving picture show is flourishing these days The machine will soon be paid for at the rate the shekels are coming in. Quite a nice sum was taken at the door Friday night at the Society ball.

Chas. Williams and Shorty Anderson were in Tofield Saturday in the interests of the Belgian contest. The subscriptions thus raised are turned over to G. Brooke who in turn applies them to the school fund. Anyone subscribing or renewing their subscription to the Bulletin will please bear this in mind.

C. P. Nicholls and family moved into town last week.

A big masquerade dance, picture shots and prize drama in Society Hall, Friday, March 22nd. Watch for posters.

Thursday, April 25th

Robert Logan has recently removed from his daughter's, Mrs. Paradis into the old Ed King residence.

The local Womens Institute are planning something big for the Red Cross. Watch this column for particulars.

Bob Bowick and family are home again after a delightful trip to the coast of Washington.

Ed Kallal is likely to be one of the "frail and sore and gaunter ones" crowd this year.

E A Leighton has purchased the Charlie Blake farm, but will not take possession till the spring of 1919.

J C Cooper loaded up his car of stock and effects and pulled out last week for Onoway (west of Edmonton) where he has rented a farm belonging to R M Myers.

Thos. E. Ingram has received his [illegible] from the town of Tofield, and stops "strafing" long enough to acknowledge it.

Mr and Mrs Geo Dixon left for Calgary Tuesday morning to spend a few days. Mr Dixon will attend a meeting of the Grand Orange Lodge.

News also comes to hand that John Morton, Arthur McMullen, Jos. Brace and Johnny Lee are on short furlough just now and are taking in the sights in Paris.

Charlie Fry, who has for some time past been suffering from rheumatism recently took a trip to Banff for treatment. He is back feeling better, and says it is "great dope."

Dan Young, who is also suffering from that same rheumatism has felt much worse since talking to Charlie and thinks that Banff would be just about the right spot, anyway for a start.

Miss Annie Hopgood has accepted a position as stenographer with P F Ingram. Miss Hopgood has recently graduated from the Alberta school of Super board artists with high honors.

METHODIST NOTES.

Rev. W J Westman of Calgary addressed a meeting in the Methodist church on Monday evening, on the interests of the Provincial Sunday School Convention in Calgary April 4 and the Girls Convention in Edmonton.

Rev. T C Buchanan Superintendent of Missions will preach in Ross Creek 11 a m and at Lakeshore 3.30 on Sunday next.

Rev. De Thomas, principal of Alberta College, South will preach in the Methodist church on Sunday evening next at 7.30.

CURLING AND HOCKEY WIND UP THE SEASON

Edmonton Give Local Boys a Drubbing. Excitement in the Curling Finals.

The Tofield hockey team wound up the season by losing the last game to the McDougall high school at the south side rink, Edmonton. The boys went up to the city Friday night determined to hold their 3 goal lead over Edmonton and cinch the honors for this line.

After fifty minutes of play the score was Edmonton 6, Tofield 1. This left the score for the home and home games 5-3. The two teams decided to battle to a finish, and after five minutes of the hardest kind of playing, the McDougalls notched the winning tally.

The McDougall high school are leading the Junior division in the Edmonton high school league and have won every game the winter except the one played here two weeks ago. They are without a doubt the best Junior team in this part of the Province.

As Tofield had defeated Cameron in home and home games and the different country teams they came up against it leaves them undisputed champs of this large section. Cameron had a chance to prove that they were superior as [illegible] but they dodged the chance and gave thanks.

The local boys can hang up their sticks with satisfaction and go after the big honors next winter. They certainly played good, fast, clean hockey on the ice and gave the onlooker a good run for his two-bits.

Soft weather and signs of spring doesn't seem to daunt friend curler at all. Each night the roaring game flourishes and four games are played on the two sheets. The last draw seems to have aroused more interest than usual. Possibly it is because the ladies are taking part. The ice has proved themselves such good curlers that they will [illegible] to form a club of their own next year

John Lee and his rink seem to be the favorites in the "Odds", while W. Loughlin and Stewart are fighting it out in the "Evens". The winners in these two competitions will play off for first place.

We wish to express our deep gratitude and sincere thanks to the kind friends who assisted us during the illness and death of our loved one.

S. D. Ackley and sons

Pte John Loyd, better known as "Taff", formerly employed at the Dobell mine, until he enlisted with the 66th Batt. three years ago, is now spending a few days in Tofield. Pte Loyd has been with the Canadian boys at Vimy Ridge and the Somme, and is suffering from wounds received from shrapnell. He can tell many thrilling experiences about the troubles the boys had "strafing the Kaiser."

PRETTY WEDDING AT PEACE RIVER

A very pretty home wedding took place last Tuesday, March 5th at the home of Mr. and Mrs. R. M. Williams, Peace River, Alta., when Miss Phyllis Turner, daughter of Mr. and Mrs. John Turner, Tofield, and Mr. Donald Cameron late of the R N W M P were united in the bonds of Holy matrimony by Rev. Frank H. Adams, pastor of United Presbyterian church, Peace River.

The bride looked lovely in pale pink silk with over dress of cream lace, trimmed with pearls, and wedding veil of embroidered silk net and orange blossoms She was assisted by Miss Isabel Williams, who was dressed in cream embroidered voile. The groom was supported by Corp. Anderson RNWM P.

After the ceremony, at which only a few friends were present, a dainty buffet luncheon was served.

The many and beautiful gifts received testified to the esteem in which the young couple are held. Mr. and Mrs. Cameron left on the train on Tuesday for Tofield where Mrs. Cameron expects to reside, while Mr. Cameron is on duty over seas.

If You Have the Price.

Tractor farming seems to be getting a foothold in our community. We don't know a gas tractor from a breaking plow, as we never were [illegible] much on that subject. From [illegible] we learn [illegible] several on Tofield [illegible] tractor farming in a few months. There is two dealers in that branch of business in this town and they [illegible] different makes so intending farmers can rest assured that if he has a tractor bug in his bonnet he can get one any time he has the coin to splash out.

Pool Game.

The pool tournament advertised for last Saturday has been postponed till next Monday. The game will start promptly at 9.30 p. m. The proceeds of the event will be turned over to the Red Cross. Tickets may be obtained at the pool hall.

The Viking pool team have arranged to come, rain or shine so be there and see the fun.

Bob Davidson has purchased the Trent livery barn and will open up a first class livery barn, feed and sale stable, for the benefit of the public. In the spring Bob hopes to add a pinney to his outfit.

HOW ABOUT A BASEBALL LEAGUE?

With the coming of spring and the end of winter sports, summer games are being talked of. Tofield doesn't need to put a big league team to the south sea isles every March to enable us to know that spring is coming and that we play baseball.

Speaking of baseball, reminds us that we had a few good games in this neck of the woods last year. On July 2nd, we celebrated the Jubilee of Confederation with five games. The farmer boys contributed nearly all the talent. Shortly after that great day, the Merchants team of Tofield, came forth in nice new uniforms and flourished for a space, [illegible] account of lack of interest and little or no [illegible] them. It wasn't the best team in the [illegible] but it helped to remind us that summer was in our midst.

Bardo, Shanty, Ross Creek and Tofield might make a pretty nifty league for this coming summer. Most of the boys who played last year are still around, and some of the [illegible] are big enough to play the game. It might be a good scheme for the gang to get together and hold a hot stove running bee and find out if a league of this nature couldn't be formed. If anything is to be done about it, a meeting should be held at once. There is no use waiting till mid-summer when the rush of farm work starts. Some might say that all are too busy tractor farming to think of baseball. Just leave it to the boys and see if they won't find time to get out and throw the pill around. We would like to hear from others on this league question. This column is open for discussion pro and con.

FARM FUND.

A provincial Committee for Alberta has recently been formed for the purpose of co-operating with similar committees formed in the other provinces of Canada in [illegible] an appeal to every farmer in the province to help [illegible] the restoration of agriculture on the farms in the [illegible] devastated regions of France, Belgium, Serbia and Roumania. [illegible] object of the fund is to help in reinstating the [illegible] farmers in the invaded countries of our Allies, who have lost practically everything, and have neither live stock, implements nor seed with which to make a fresh start.

PERU WILL DO.

The Edmonton Bulletin rather scathingly suggests that Mr. Hanna might have taken the food control department along to Peru for all the good it is doing in the matter of lowering the high cost of living. Outside of adding grey hairs to the grocer's head and subtracting many useful years from his life, we look in vain for something accomplished.

If You Please.

[illegible] Shipments must be handled [illegible] not later than Mon- [illegible] a chance [illegible] [illegible] [illegible]

Brave Girl of France

Sent to a German Prison for Aiding British Soldiers

A brave French girl, named Mlle Genevieve Chevalier, who lived with her family in a little village near Lille, in the Aisne department, has been released by France after two years' captivity in German prisons.

It was October 28 1914, that the region of Guise was invaded. In Mlle Chevalier's household, composed of the girl, Genevieve, 15 years old, and her mother, Mme Pauline Ford, had remained as child and mother. On that morning while Mme. Ford and Mlle Chevalier suddenly saw a British soldier run out from behind a hedge and approach him followed a moment afterwards by two others. Then the Chevaliers had just themselves when there had been a French soldier here and had come asking for food in the country.

Mlle Chevalier ran to the house and returned with a loaf of bread and her mother brought some cheese. They hurried to the three soldiers, who were in rags and had been living on roots for days.

"Look for them!" implored the girl. The Germans know the region and they will search there."

The three soldiers were grateful. They ate the bread and cheese and then disappeared in the direction of the forest.

Two days after the soldiers were captured by the Germans and brought to Guise. Mlle Chevalier was arrested when the news of the capture reached the village. She was charged with having given food to the soldiers and with having hidden them in the house. She herself denied the charge, but was sentenced to three years in prison.

RECORDS OF CANADIAN VALOR ON THE WESTERN BATTLE FRONT

EXPLOITS OF ARTILLERY HAVE BEEN SPLENDID

Correspondent Takes a Trip Through the Battle-Stricken Country And Everywhere Finds Some Record or Bit of History in Which Dominion Troops have Played Important Part

Everywhere one goes in this battle-stricken country there seems to be some record of Canadian valor. The village in the north from Amiens to the extreme east recognized the Canadian badge and greets it in friendly terms. For one does not wear these—and with reason. The slavery to the colors has changed the Canadian since ever, there is perhaps the most striking sign that that many more [illegible] Canadians today, is not well to be found.

Never can we, in any of the days and hours of the western war, forget the stately [illegible] when the Canadians marched into the [illegible] to occupy the [illegible] to three years in prison.

The Germans knew the region and they will search there."

The three soldiers were grateful. They ate the bread and cheese and then disappeared in the direction of the forest.

Two days after the soldiers were captured by the Germans and brought to Guise. Mlle Chevalier was arrested when the news of the capture reached the village. She was charged with having given food to the soldiers and with having hidden them in the house. She herself denied the charge, but was sentenced to three years in prison.

U. S. Stripping Of Fat

Less Adipose Tissue to Bodies and Pluses

A health expert out on the Pacific coast furnishes the interesting estimate that the American people eat 6,000,000 pounds of oleomargarine annually—with them more than 200,000,000 pounds of unnecessary adipose tissue.

But a remarkable change has come since we entered the war. The American people have been getting rid of their fat. They have been stripping themselves for action. They have been thanking harder than ever. They have been slimming their point of view, their habits of life, their estimate of values, to the new task which they have undertaken.

That readjustment in one of the importance is in no one national line. It will constitute an important chapter in the history of the world. Our nation people have been getting rid of body, made the attribute of belonging to the army of the nation, and the nation is now in the process of readjusting itself, using them on the battle-fields of France.—New York Evening Post.

High Grade Butter

High Standard of Dairy Products Shown at Western Fair

Visitors to the exhibitions in Western Canada have been struck by the remarkably high and uniform standard of butter made in the three provinces. At Calgary, Alberta, the dairy products exhibit caused much favorable comment, the excellent display having been made. The exhibits at Edmonton, Alberta, and Saskatoon, Saskatchewan, were equally as good, but in the latter centres the competition in the interprovincial competition, in which butter from Alberta, Saskatchewan and Manitoba creameries competed. The amazing uniformity of the butter produced in these three prairie provinces was especially noticeable here, the judge having a difficult problem to solve in making the award. Of the eight prize winning samples, only one point separated the score of the first from that of the last. The judge is said to have remarked that after eliminating the first ten samples, another could be made of the second ten, and all of them would have ranked as first-class commercial butter.

The uniform grade which has been reached in the butter produced in Alberta, Saskatchewan and Manitoba is the result of the efficient system of co-operative dairying which exists, under the supervision of the provincial departments of agriculture. The object of these is to encourage the establishment of cow-testing associations and cream gathering depots, co-operative making and general country dairy cattle. No one under the entire 12 hours of which are candy cream testing as it is, and to encourage dairying in the

Tribute to Railway Troops

Canadian Railway Troops Can Fight as Well as Build Railways

Singular testimony how Canadian railway troops can fight as well as build railways, is shown in the story regarding the conferment of a bar of the Distinguished Service Order on Lt.-Col. Frederick Fitzsimons Clarke of Toronto.

In an attack lasting four days he organized sixteen Lewis gun teams from his battalion, making all arrangements for the ammunition to be brought up over hostile fire. The Gazette. This unit was entirely self-supporting. "The supplies and ammunition with which they responded to the emergency, the speed and manner in which the drivers was organized, and the coolness and resourcefulness displayed by all rank were largely due to the splendid supporting example and fine leadership of their commanding officer."

Fruit Should Be Put Up Early This Year

There seems to be considerable difference of opinion on the question as to the duration of the fresh fruit season, as applies to the prairie provinces, particularly Alberta. Last year it appears the height of the season for canning came about the end of September, but this year, according to officials, who profess to know the canning season thru out this section of the country is scheduled about the same time as September at which it started in 1913.

J. A. Grant, prairie market commissioner for the British Columbia government, in a signed statement says:

"Fruit growers should bear in mind that within the next two weeks peaches, plums, crab-apples and pears will be at their lowest ... [illegible] ... rolling in ... [illegible] ... canners and ... [illegible] ... cent slow demand in ... [illegible] ... hately, growers will ... [illegible] ... to send their products ... factories. There will be ... very cheap fruit this year for ... good reasons, chief of which ... that United States and British ... Columbia points from where our supplies come have their factories ... running to get sufficient fruit to ... fill their arms contracts. The prairie trade will have to pay ... enough in excess of factory prices ... to warrant the extra cost of freight ... or express age, plus boxes and extra ... labor needed in selecting and shipping. It is just as necessary to lay ... over winter fruit now, as it is ... [illegible] ... end, of the warning, given are not heeded, blame ... [illegible] ... and your customers ... [illegible] ...

My Auto 'Tis of Thee

My auto 'tis of thee,
Short cut to poverty,
Of thee I chant,
I burn a pile of dough
Each time I go to go,
A wreck I rant.

For thee old rattle box,
I came many bumps and knocks,
From thee I get sore,
Badly thy top is torn,
Frayed are thy seats and worn,
Whooping cough has thy horn,
I do believe.

I scrounge town and countryside,
You were my hope and pride,
A happy day,
I loved thy gaudy hue,
You once white tires so new,
But down and out are you,
In every way.

Thy perfumes scent the breeze,
While good folks choke and sneeze,
As we pass by,
I pass up gas a price,
'Twould but a mansion raise,
Non everybody's ailing 'thee'
I wonder why.

Thy motor has the grippe,
Thy spark plugs have the pip,
And woe is thine,
In fact, have suffered chills,
Ague and kindred ills,
Trying to pay my bills,
Since thou went mine.

Gone is my bank roll now,
No more 'twould choke a cow,
As once before,
Yes, if I had the mon',
So help me John, Amen,
I'd buy a car again,
And speed along.

—Edmonton Bulletin

Car Turns Turtle in Ditch

Mr. and Mrs. Carter Have Wonderful Escape

A serious automobile accident, with a miraculous escape for the occupants, occurred on Sunday about five miles south from Mr. and Mrs. J. W. Carter were in the car, Mrs. Carter driving.

Everything was running smoothly when Mrs. Carter pulled out to the side of the road, and the next thing the occupants were aware of was that the car had turned turtle with them underneath. Fortunately they were uninjured and the car only slightly damaged.

WEDNESDAY, AUGUST 20, 1913

W. WORTON, PUBLISHER

Greeting

It is somewhat customary, when a new newspaper is published for the first time for the editor to say something relative to the policy of the journal, express his hopes, and finally wind up with a grand exhortation to every one to subscribe.

In order that the custom in this respect shall not be broken, in this first issue of The Tofield Mercury, we will briefly state why we are here and what for, using nothing but the simplest of language so it cannot be misunderstood.

The Tofield Mercury is in existence owing to the editor as well as a number of business men of the community believing that the Tofield community is large enough and wealthy enough to make the publishing of a newspaper at Tofield worth while. There is a sufficiently large population from which to draw a goodly subscription list and enough business houses to advertise their wares. There you have the explanation in a nut shell.

Why has the editor started this paper? Because in addition to the reasons above given he likes the industries of this district (mixed farming,) he likes the climate of this district, and the people of this district. Will he stay? Why of course. For the past ten years he has been in charge of and working upon papers in the west and although he has been in a number of good districts, he has seen none better than this. Moreover, after travelling around the country he figures it is high time that he settled down to some real task and the one choosen is to put the newspaper of Tofield in the front rank of the rural newspapers of the province.

While good business, enterprize and energy will all have a bearing upon the success of the paper, the business men and residents of the community must do their part. It can be said that a newspaper stands on three legs, viz: subscriptions, news and advertising, any one of which if removed will cause its ultimate downfall. Therefore of the people of the community we ask, don't hold back from subscribing to your local paper, but let us put it on a foundation that cannot be shaken. We would like here to thank the merchants and others for their generous advertising patronage.

As each week rolls round, the Mercury will be its own advertisement, but we think it worth while to say that we fully realize the importance of country news, and we will use all possible means to procure country correspondents for the Mercury. As soon as this issue is circulated and the fact that a paper is being published known, we will endeavor to get into touch with correspondents throughout the district.

Mr. Blueface and Mr. Chero

Plant and Discovers a Wonderful New Treatment

Mr. Blueface came walking down on the shady side of Main street the other day.

Mr. Chero came walking down the same street, the same day, but on the sunny side.

They met at the bank corner and being both old timers, stopped to have a chat and discuss current events. And this is partly what they said.

How do you do Mr. Blueface?
How do you do Mr. Chero?
Oh, I feel just fine, Mr. Blueface.
My goodness I'm nearly dead Mr. Chero.

Wellness that is sad. But what's the matter trouble Blueface?

Oh I feel rotten Chero, I've got an awful attack of tonsitus. Its awful. Say, isn't this a hell place to ——— say, what the devil are you laughing at Chero?

Why I've got creosymus which is the antonym of Tonsitus. Sure cure for tonsitus all right. Want to take the treatment, Blueface?

Well, well, let's see, what does it co

Oh cut that out, Blueface, you're simply got to take this cure, its going to be hot one of these days all the way. Creamjitus is a sure cure for ten tus, and this is how you take the treatment. Next Saturday you must get down town good and early. Then you visit Mr. Letsurem, the Edmonton City Dairy man I know. After a while you will see the farmers bringing in cans of cream. You have got to be standing Mr. Letsurem by. Then he will weigh the cream, then he will test it, and then he will write the check. Then you must go to Walter Bellamy's and see him cashing the same and the last course is to see Ralph Dawson's where you will see him writing cheques also. Do this time you should have cream tus and look like me.

Very good Chero, I'll sure take the cure, as this is an AWFUL disease.

A week later Mr. Blueface called with Mr. Chero on the sunny side of the street, and after recognition took place, he shouts, I've got it! I've got it!!

Got what Mr. Blueface?

Creamjitus. It's a sure cure for tonsitus.

You can take this as indicative of the absent mindedness of some men or the unfailing courte ... post office maiden.

The other morning, shortly after the train came in, a gentleman friend of ours walked to the post office for his mail. Taking the morning paper from the box and putting it in his hip pocket, he turned to address a fair comer. Then looking in his box and finding no paper, patiently waited for one to be put in. After some time he asked if the papers had come and getting an affirmative reply stated that he had received none. Another one was given him and it was not until he arrived at the office did he discover his mistake.

Too bad to tell it Ralph, but we did not, Ernie Cole would.

BABY'S GREAT DANGER DURING HOT WEATHER

More little ones die during the hot weather months than during any other year. Diarrhoea, dysentery, cholera-infantum and kindred troubles come without warning, and when a child is stricken every hour is precious—the short delay too frequently proves fatal. Mother Graves' tried and tested friend is Baby's Own Tablets. They have been used by mothers in every part of this country for over twenty years, and for years of age. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE TOFIELD MERCURY

VOL. 1 NO 2 — TOFIELD, ALBERTA WEDNESDAY, SEPTEMBER 4, 1918 — SUBSCRIPTION IN CANADA $1.50 U.S. 2.00

The Turn of the Tide of Battle

The battle which began on July 18th with the launching of the successful France-American offensive against the westerly front of the Marne salient has continued for six of the bloodiest weeks that the world ever saw. Never before were such vast numbers of men locked in death struggle along so many hundreds of miles of battle line. Never before was there employed such an accumulation, variety and efficiency of weapons for human destruction. The outstanding feature of the struggle has been that the German legions have been forced backwards on all fronts. The result is that the double threat against Paris and Calais has been dissolved, at least until another summer, and, as far as present indications go, for ever. The Allied policy of defence has been reversed and a policy of attack has taken its place. What the German army has lost in prestige as a fighting force during these weeks can never be regained, and that prestige was tremendous, greatest asset by far. Not that Germany is finally beaten or that German soldiers have ceased to fight. But the superstition that German machine power was inexhaustible and therefore invincible has been proven to be a myth. Every foot of ground gained by the Allies has been fought for. But the more stubborn the German defence the greater the victory of the Allies in overcoming it. The events of these terrible weeks have not beaten Germany, but they have shown that she can be beaten, as she must be if the world is to have peace and liberty.

There is no doubt that unity of plan, purpose and command under the great Frenchman, Foch, has had much to do with the success achieved. But the greatest general cannot fight without an army. It is plain that the army is worthy of the general as the general is of the army. It is a notable fact that the entry of the United States troops into the field in force is coincident with the change in the fortunes of war. There is no doubt that the men of this army, who eighteen months before had in large part been engaged in civil occupations, fought as well and suffered and died as gloriously as did their companions in arms of France, Britain or the Dominions. Coupled with the actual hammer effect of the United States forces in the fighting line was the inspiration of their presence and the knowledge that there were millions more behind them. The strategic attack was practicable when there was knowledge that if the attacking force did not prove strong enough today it would be reinforced by the overwhelming Allies. The Hindenburg line held during 1917 because the Germans retired to it with their prestige but

Entire Subscription Campaign Turned Over To Tofield Red Cross Society

Red Cross Workers Enthusiastically Take Up Work on a 50c. per Subscription Basis

The entire subscription campaign of the Tofield Mercury has been handed over to the Tofield Branch of the Canadain Red Cross. This means that instead of the publisher employing one or more persons to solicit subscriptions for this paper the local branch of the Red Cross will take up the work.

The price of the Tofield Mercury for one year is one dollar and fifty cents, of which amount fifty cents goes to the funds of the Red Cross Society and one dollar to the publisher. No matter where you subscribe, whether at this office, one of the stores, post office, bank or outside point, fifty cents of your subscription will go to the Red Cross.

The executive of the local branch have taken up this work with enthusiasm characteristic of them and big things are looked for.

It is almost needless for us to emphasize the importance of Red Cross work. Every one should do their utmost to see that this work is kept on the up grade, and now is an opportunity to give valuable aid to the society without any additional expense from the individual.

As a resident of this community you owe it to yourself to be a regular subscriber to the home paper As it comes out weekly to your home it is worth many times the price asked for it. Remember the home paper carries news and advertisements (equally interesting) that cannot be procured else where. Be patriotic nationally and locally.

Local and General News of Interest

At a recent meeting of the Tofield Town Council a number of applicants for the position of secretary-treasurer were read ... salaries asked for ranged from $125 per month to $130 per month. After considerable discussion, the present secretary J. W. McMullen was prevailed upon to continue his secretarial duties for the town at a salary of $125 per month. This came as a surprise to his many friends as Jesse had sold his house and made plans to move to Calgary.

We believe the town is fortunate to be able to procure the further services of Mr McMullen as he now has a knowledge of past business that is invaluable to the successful filling of the position.

Mr. McMullen has been with the Tofield town council for some number of years and although the ... some of secretarial work has steadily increased has given universal satisfaction.

Last day will also be a Red Cross ... tag day, and Mrs. Pincott has ... charge of the tags, and will give two cash prizes for the two girls or boys who sells the most tags during the day. The first prize will be one dollar, the second fifty cents.

All the girls and boys should help in this ... as we have ... boys who are fighting. Mrs. Pincott will supply tags both at her home and on the grounds.

Every good farmer knows the value of accounting in the successful conduct to his business. It is essential if one is to have an accurate ... at the end of the year as to profit and loss. It is a hard matter for any farmer to sit down and wrestle with a mass of figures. He is too busy for one thing, and without system he never gets any where. The Merchants Bank has recognized the need for a ... among farmers. Their ... are ... and they are ... to ... Their ... are ... and they are ... to ... Their ... are ... and they are ... to ...

Hunger Sickness Taken Toll

Claims Thousands of Victims Through Lack of Proper Food

The Amsterdam Telegraaf is informed by returned Dutch workmen from Germany that influenza, [illegible] called "hunger sickness" is claiming thousands of victims, especially in the industrial districts of the country, because of a scarcity and exhaustion due to lack of proper food in the industrial centres of Westphalia and the Rhine provinces some are many deaths daily. The hospitals are full to overcrowding. Food rations are being constantly decreased. Late can no longer be had, even by labourers who do heavy work.

The Berlin correspondent of the Frankfurter Zeitung says that in addition to meatless weeks, the present ration of 250 grams (8.75 ounces) will be reduced to 200 grams (7 ounces) a week in all towns having more than 100,000 inhabitants. New potatoes have arrived in Berlin and it is hoped to boost them up to the rate of three pounds a week to each person.

How to Tell a Gentleman

If He Has Tassels on His Umbrella His Son's, Says Butler

At one of the new British ministries there is an attendant who has been a butler in Grosvenor Square and prides himself upon a certain treatment for distinguishing him blows from the other varieties. Some ladies of the department were driving him on the subject.

"Now, there's Mr. Jones," said one "Surely Mr. Jones is a gentleman." "Oh, very well you may be correct, ma'am," he admitted, "but he actually walked in the door the day with tassels on his umbrellas."

Pearl Fisheries Need Government Aid

Must Insure Owners Reasonable Margin and Limit Export

A scientist of the world's output of pearl shell comes from Australian waters, but the war has hit the industry hard, and the Government has had to come to its assistance.

Most of the pearling fleet has been tied up and the few boats that are at work at Thursday and Broome Islands in the South Pacific, are in danger of being sold for debts incurred. Before the war shelters in Broome and on the West Australian coast and therefore on the Indian Ocean, were in a position to purchase as much pearl shell as they could get, but since the war price has dropped to £60. This portrays of no profit on the deal. Baby's Own Tablets should always be kept on hand by those who have young children. There is no other medicine so good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE TOFIELD MERCURY

VOL. I NO 5 | TOFIELD, ALBERTA WEDNESDAY SEPTEMBER 11, 1918 | SUBSCRIPTION IN CANADA $1.50 U.S. 2.00

Last Invitation to the Fair

Make Your Entries Early

Ere another issue of the Tofield Mercury is circulated through the district the annual fall fair of the Tofield Agricultural Society will be a thing of the past. Therefore we take it upon ourselves to extend a cordial invitation to all, both far and near to be present on Wednesday, September 18th. Entries are coming in plentifully at the present time, though it is well known that the majority of entries for a fair always come in during the last few days. In this respect we cannot attach too much importance in urging you to make your entries early. Rule two states that entres must be in the hands of the secretary, Mrs. Peter Lee, not later than six p.m., Monday, September 16th. This rule will be rigidly enforced as it is a physical impossibility for the secretary to intelligently deal with a mass of entries at the last moment. Be sure and come to the fair: and exhibitors, be sure and make your entries early.

Petty Thieving Rife

No less than three reports of petty thieving have been received during the past week or two, some time ago, R. Dennon, after cleaning a mud, hung it out on the line to dry at the back of his tailoring establishment. Upon going for the suit some time later he discovered that the coat had been taken away and up to the present time a search has not been recovered. It is also reported that during the latter part of last week someone entered the second hand store and took a revolver from the show case there. This was also the scene of the third robbery reported. On Monday morning while J. Forbes was down at the station with the mail some one entered the back door of the second hand store, and took away

If You are in Need of a **PUMP**

would like you to call in and see our line of iron and wooden pumps, we will fit them up to fit your well.

And as for a little engine to do your pumping and light work on the farm we have a 1½ h.p. with pump jack combined. do not need a belt for pumping. Come in and see it working at our pump. We have larger engines in stock. **Grain Grinders, Wood Saws, Water Tanks** give us a call before you buy we can save you money

Tofield Boys Bring Home The Bacon

Go To Fort Saskatchewan and Bring Home Prize Money

On Thursday last the Tofield baseball team went to Fort Saskatchewan to take part in a base ball tournament there. It was Fort Saskatchewan's annual fair, and a big crowd was present to watch the game.

The local boys travelled by car starting from home early in the morning. The program called for a game between Lamont and Tofield, the winner to play Fort Saskatchewan. Owing to the non-appearance of Lamont, Tofield won by default. The second game was not so easily won however, the Fort putting up a strenuous battle, but were unable to hold their own against the superior playing of the local aggregation. At the end of the game the score read 9-0 in favor of Tofield.

The Tofield players were: R. Marcel I Ball, G Agnew, Dennis Barrett, Agnew Dodds, M. Frazer, D Morrison, W. Herman, F Woods and J. Langlois, manager

District Meeting of Methodist Church

The Fall District meeting of the Wainright District of the Methodist Church was held in the Tofield Church on Tuesday Sept 10th at 10 a.m. T. C. Buchan superintendent of Missions presided with the district on the missionary problem, and Dr. Thomas, principal of Alberta College took up the subject of education. Rev. N. I. Rumley, a returned soldier, spoke of the relation of the church to the returned soldiers.

The following ministers attended: Rev. N. F. Rumly, Wainright, G. H. Suchon, Edgerton; C. J. Hockin, Irma; H. Bailey, Jarrow, T. J. Lund, Viking, P. Buttil, Holden; and David Simpson, Tofield, the chairman of district.

Bathgate News

Rev. Nugent Wilson preached to a large congregation at the school on Sunday afternoon.

Miss Cole of Vegreville entered upon her duties as school teacher at Bathgate on Monday. She is going to reside in the school shack with her aunt.

Mrs. Honeyball of Riley is visiting with her father Mr. Reeves, east Beaver-lake.

M. Chivers and family motored to Tofield on Saturday.

Mr. Williams and family, also Mr. Brooks, school principal of Ryley motored to Bathgate school for service on Sunday.

Mr. Umphries of Ryley returned on Monday after a months holiday in Edmonton.

Mr. Lee of Edmonton is visiting Mr. and Mrs. Wild of Bathgate for a few days.

Red Cross to Serve Lunch Fair Day

The ladies of the local branch of the Tofield Red Cross will serve dinner on the fair grounds on fair day. Dinner will be served cafeteria style. We would go into raptures or tell you of the good things to eat, at the better plan is to let you read the menu. Here it is:

Jellied Chicken
Chicken Salad
Ham
Boston Baked Beans
Potato Salad
Cabbage Salad
Tomato Salad
Cucumber Salad
Bread and Butter
Pies
Pumpkin
Custard
Lemon
Loganberry
Tea and Coffee

Subscribe to Your Local Paper

and Help the Red Cross

As announced last week, the Tofield Branch of the Canadian Red Cross Society have taken over the entire subscription campaign of the Tofield Mercury. Therefore we take this opportunity of soliciting your subscription to this paper at this time. The work of the Red Cross is so well known and being universally acknowledged, it is not necessary for us to dwell upon it or attempt to describe it here. Suffice to say that too much cannot be done for the society either in work or donations. By subscribing to the Tofield Mercury at this time you have an opportunity of helping the Red Cross, with no additional expense to you. The price of the Mercury was never intended to be less than $1.50, in fact that is the price of the majority of local papers in the west today, but the fifty cents is given to the Red Cross for the procuring of subscriptions, just as many papers pay travelling agents. Praise should be given to the ladies undertaking the task as they are performing work that is usually done by individuals on a commission basis.

WOMEN ARE NEEDED
TO HELP IN WAR

Women can be usefully employed in running the woodland, in carrying on the soldiers' kit, and a thousand other ways. Many Canadian women are ready, able or coming from women's club. For young girl just entering womanhood; for women at the critical time; nursing mothers and every woman who is "run down," tired, over-worked—Doctor Pierce's Favorite Prescription is a special, safe and certain help. It can now be had in tablet form, permeable at any good drug store, or send 50c. (stamps) to Dr. Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., it comes for trial pack age. Brandt Allen, Bridgeburg, Ont.

St. Catharines, Ont.—"I have taken Dr. Pierce's Favorite Prescription when I felt myself ready to lose my health and it has helped me greatly. I always take plenty of it in connection with 'Prescription' Pellets. This medicine I know is the best for women." Mrs. J. H. Fowler, 9 Ontario St.

Stratford, Ont.—"I do think Dr. Pierce's Favorite Prescription is the best medicine I have ever known for the ailments of women. I had for years a long I see best all run down, weak and nervous. I doctored, but nothing seemed to give me relief until I began to use Favorite Prescription. This medicine gave me such wonderful relief that I am glad to recommend it to others."—Mrs. A. Thomas, 60 Brant St.

Suicides on Decline

War Shows Marked Effect Upon the People Taking Their Own Lives

The British Medical Journal finds that the war has caused a marked decline in the proportion of suicides to the population. Among males the rate per million living in 1913 is the forty-seven in the years 1901-10 to thirty-eight in 1914, and to thirty-eight in 1915. The greatest reduction among men was at the new of forty-five to sixty-five, whereas for women of later middle age the rate has not fallen at once. The reasons for this, according to the journal, is the increased employment opened up by the war. Fresh hopes and diversions have given the mind a new outlook on life.

U.S. To Go Dry as a War Measure

Manufacture of Beer to be Discontinued After December 1st.

Washington, Dec. 6.—Manufacturing of beer in the United States will be prohibited after December 1 next as a war measure. This announcement was made tonight by the food administration, which said the decision had been reached at a conference between Pres. Wilson and representatives of the fuel administration and the war industries board.

In Washington, Sept. 6. The twelve billion dollar emergency agricultural appropriation bill with its rider for national prohibition from next July 1 until the American armies are demobilized after the end of the war, was passed tonight by the senate without a roll call. Earlier final passage of the measure by the senate voted 45 to 6 to retain the prohibition rider. A final effort to postpone the effective date of the "dry" legislation to December 30, 1919, was defeated.

The bill now goes to the house, and because of the many amendments inserted by the senate, it will undoubtedly be sent to conference. Prohibition leaders, however, expect the house to agree to the "dry" rider, so that there will be no possibility of changes being made by the senate and the house managers.

Dissatisfaction Rife Among German Troops

Sparks of Revolution Flying Thick

British Headquarters in France, Sept 6.—Sparks of revolution seem to be flying even thicker in certain parts of the German army.

Numerous prisoners taken by the British mention the distribution of pacifist and revolutionary pamphlets among the troops.

One prisoner, who recently had returned from leave, said that when in the company of a large number of Bavarians, he was shown revolutionary pamphlets, which he was told were being circulated freely. All the pamphlets, he added, were violently anti-Prussian, and appealed to the men to refuse to fight.

It was asserted that during the recent fighting the commanding officer of the 137th Pioneer battalion of the 52 division was shot by his men when he attempted to stop a panic-stricken rush from the trenches.

A battalion surgeon captured said all the regimental officers he knew believed that General Ludendorff would fight delaying actions until the allied offensives had died out, at the same time saving his "elite divisions" for a counter-stroke.

If the allies ever reach the Rhine said the doctor, Germany would make peace, no matter at what price.

The doctor seemed considerably perturbed that the Rhine might be attacked.

America Now Leading in Shipbuilding

Washington, Sept. 6.—America is now leading the world in ship production. Comparison of figures on deliveries announced by the shipping board with unofficial figures on the output of yards in the United States show that plants in this country have delivered 1,630,403 dead weight tons since January 1, while British ship yards have turned out 1,541,826 tons.

Edmonton, Sept 8.—The license of Tarradain and Britter, grocers on White avenue, Edmonton South, has been suspended by the food board for 15 days because they sold flour without the required substitutes.

Look not mournfully into the past; it returns no more; wisely improve the present, and go forth into the shadowy future without fear and with a manly heart.—Longfellow.

W. WORTON, PUBLISHER

The Cream Town

To quite a number it is known that this is not the editor's first acquaintance with Tofield and district, he having lived here for a period of two and a half years some three years ago. Dropping into the universal editorial "we," it can be said that though things are pretty much the same as when we left, in other respects we can see great changes.

To be sure, there are a large number of the old faces still around. The same trim C. H. Rowe occupies the nest in the front office at the bank, while Rogers' Bros., McLaughlin, McCauley, Pincott, Ingram, Hannan, and a number of others seem to be doing the same business in the same way. We notice that the boys have grown much bigger and the girls prettier.

The big change however is in the amount of dairy produce seen being brought to town. While three and a half years ago there was but one creamery in town, now there are three. More than this, and this is very significant, the first creamery in town are now buying as much cream as ever they did. The importance of this to the district is very great. It does not mean that they are buying all the cream that is sold, but it means that in as many years the volume of cream has increased threefold.

This to our way of thinking, is progress of the very best sort. That this district can produce herds of dairy cattle, can upon its luxuriant and succulent grasses, sustain them to a high pitch of productivity is something to be glad of. However, it is figures that count, and it will be with interest that the following statement will be read:

During the months of July and August approximately $13,000.00 was paid out in cream checks in Tofield alone.

This does not take into account the cream that was shipped direct, nor the butter made for private use or sold. This amount was actually paid out in cash to those who sold cream. If the land of Canaan was a land flowing with milk and honey, this part of Alberta is a land flowing with cream. It may not be generally known that many of our farmers receive from their cows as much in some months as a good machine earns. And remember to a good many, the dairying end of the farm is only treated as a side line. There is still the grain, livestock and poultry products to take into account. Getting back to the subject of cream we will say that we like the sound of the word in our ears equally as well as the taste of it in our coffee and that is saying a great deal. To a district less fortunate than this, the July frost would have proven disastrous, to this district it was a reverse that can be easily overcome.

Therefore upon returning after a three years absence, the increased volume of cream coming into the town was particularly noticeable. And on casting the question over in our minds, providing no other farm in these parts has got in before us, we will call Tofield "The Cream Town."

How To Can Tomatoes

Select fresh, ripe, firm tomatoes. Grade for size, ripeness and quality. They will cook better if the same degree of ripeness and quality, and will look better. Wash, scald one-half to one and one-half minutes or until the skins loosen, but do not brush. Scald season to immerse in boiling water. Cold dip, but do not allow them to remain in the cold water. Cut out the stem end, taking care not to cut into the seed cells or the seed and pulp will later be scattered through the liquid. Remove the skins.

Pack the tomatoes whole in the jars, doing one jar from the beginning to placing in sterilizer, before starting on another. Shake down well, hitting the base of jar with palm of hand, and also press with a tablespoon, but avoid crushing.

Do not add water. Hot tomato pulp may be added, otherwise add no liquid whatever. Tomatoes are an exception to the general rule of hot water or hot syrup for fruits. A large part of the tomato is water. It is not necessary to add anything but one level teaspoonful of salt to each quart, and if liked, one-half table-spoonful of sugar. The tomato pulp for home canning, made from large and broken tomatoes, cooked and strained, should have one teaspoonful of salt to each quart and should be poured hot into the filled jars, allowing it to enter the spaces.

Put on rubber and top, adjust top ball a screw top on with thumb and little finger. Sterilize 22 minutes in hot water bath, or 16 minutes under five or ten pounds steam pressure. Remove, tighten, seal and cool. — Conservation

Adhesiveness is a great element of success. Genius has glue on his feet, and will take hold of a marble slab.—Wilson.

Jonathon Edwards, when a boy, wrote in his journal: "Resolved to live with all my might while I do live."

What is eloquence but truth in earnest? the mind's best words spoken in the mind's best moments. —Thos. Cuyler.

New Homestead Map Prepared

There has been in preparation for some time in the Office of the Natural Resources Intelligence Branch, Department of the Interior, Ottawa, a new edition of a map much sought after by prospective settlers in Western Canada, namely the Northern Alberta Homestead Map, on a scale of 12½ miles to one inch.

The new issue is most complete, even the information contained. By an elaborate colour [illegible] is readily ascertained as to whether a section is available for homestead entry, or has already been allotted, and the disposition of [illegible] The various colours represented. Lands entered for but not patented; Forest Reserve; Timber Berths; Grazing Leases; Dominion Parks and Indian Reserves, also the boundaries of Dominion Land Agencies and the location of the Land Offices. In addition [illegible] general direction of [illegible] help of tar sands, [illegible] are indicated.

The various features included in the map, it being published are [illegible] widths of the [illegible] spaces in light buff, [illegible] while those reserved for settlement by returned soldiers. All those lands which are red hatched line which may become available for entry as a result of cancellation or abandonment are also reserved for the same purpose.

Persons desiring copies of the map should make application to the Superintendent of the Natural Resources Intelligence Branch, Department of the Interior, Ottawa.

Monday, October 6th, Thanksgiving Day

OTAWA, Sept. 6.-Thanksgiving Day this year has been fixed by the government for Monday, October 14. In selecting Monday [illegible] has followed the recent practice adopted in [illegible] years. Formerly Thanksgiving Day usually fell on November 1st, the October date having been selected for a Monday in order to increase the opportunities for family reunions during the season of Thanksgiving. This year there has been added to the holiday fixed for Thursday, and it has also been suggested that the Canadian holiday should conform to that of the United States, which occurs November

Cow Bill Campaign

A force of field representatives of the department of agriculture now at work on the cow bill campaign, which is to be carried on during the coming season on an enlarged scale. The department has [illegible] which can be used on the way of loans to farmers for the purchase of female live stock, and the applications already made under the terms of the act indicate that the privilege is likely to be widely taken advantage of.

Some Business Rules

1. In business hours attend only to business matters.
2. Confine social calls to social circles.
3. Stone your business in few words without loss of time.
4. Let dealings with a stranger be carefully considered, and let old friendship be duly appreciated.
5. A frown act soon recalls, and a man of honor will be esteemed.
6. Treat all with respect, confide [illegible] wrong no man.
7. Never be afraid to say NO, and always be prompt to acknowledge and rectify a wrong.
8. Leave nothing for tomorrow that should be done today.

Remember from home, do not think home so valueless.

Have a place for everything and everything in its place.

10. To preserve long friendship [illegible] upon short credit.

WEDNESDAY, SEPTEMBER 18, 1918

W. WORTON, PUBLISHER

Exit Fritz

The news coming from the western front these days is distinctly encouraging. With the performances of the past few weeks fresh in our minds it seems hardly possible that during April, we were, figuratively speaking, holding our breath, hoping against hope, that the Germans would be foiled in their attempt to reach Paris or the channel ports. Just how much military strategy and how much was forced retirement on the part of the British and French during the German spring offensive will not be known until peace once again reigns. However we do know that they were momentous days, fraught with dire consequences. Now the scene is changed, instead of the attention of the world being given to the German army, it is now following with great interest the progress of the victorious allied armies. The winner is always the centre of attraction and with the fighting of the last two or three weeks Germany loses her prestige and a great deal of the interest shown by natral and other populations. Figuratively speaking Germany now is a back number. In other words, the allies now hold the centre of the stage.

This does not mean however, that her spirit and fighting force is altogether vanquished, and that the allies can now be so sure of victory as to slacken their efforts. On the contrary, it means that to put a speedy end to this carnival of bloodshed, the allies must put forth and continue to put forth their utmost efforts. That the American armies arriving in France have been of immense assistance to the allied cause, is gladly acknowledged from all sources. Even the Germans now will soon have to realize (if they have not already done so) that what they first considered a negligble quantity, is of more than passing interest to them. One would gather that with the arrival of the American forces, the allies were strengthened sufficiently to force a victorious offensive. In other words the Americans were able to supply the last push that in all great undertakings, is of so much importance.

Perpetual Motion—Has It Been Discovered?

What does it mean? If true the purport of a letter found in the council chamber and handed over to the city clerk, signifies that the problem which has perplexed the scientists of all ages has been overcome, and that by an Edmonton man, who would like a little credit for his discovery.

Here is the story: A letter addressed to the city council was found in the council chamber by one of the janitors, and by him duly handed over to the commissioners' department, whence it found its way to the city clerk and will go before council on Tuesday.

It reads: "11715 96th street, Edmonton. To the Edmonton City Council: Dear Sirs,—

"Perpetual motion with almost unlimited power is solved—by harnessing the air; and the city can have the honor of this wonderful machine being developed as a product of Edmonton to go down on the pages of history as well as a half interest in the proceeds derived from the machine, while I want the honor of being the original inventor. I also must oversee its construction and retain one-half interest in the invention. If you act, do it quickly, as this offer will not remain open long as there is no time to lose. Would be glad to have a talk with one or more at any time. Can be at home any evening I am yours truly,— T. J. Shepherd."

Viking to Have Community Church

Mass Meeting Held and Constitution Adopted

On Friday evening last the members and adherents of the various protestant denominations represented in Viking held a mass meeting in the United Christian church to discuss the formation of a community church. After some discussion it was moved and seconded and carried unanimously to proceed with organization. The joint board of the Methodist and United Christian churches have been working on the matter for some considerable time and had at hand copies of a constitution which they had received from towns in Alberta and Saskatchewan where community churches have been in operation. The secretary, Mr. C. G. Partee read the constitution and it was afterwards taken up section by section and with a few alterations accepted. After the acceptance of the constitution came the consideration of the membership roll of the amalgamated church and the election of the various boards.

The new constitution has a Board of Elders, Board of Trustees, Board of Stewards, these together forming a joint or General Board.—Viking News.

Northern Miners Want More Wages

Edmonton, Sept 19.-Miners in the employ of the Sturgeon Consolidated Collieries, operating the Bell mine at Nimayo, went on strike Wednesday. About 40 men are included in the striker's list, and their demand is for an increase in wages of .50 a ton. The strike is regarded as part of a movement for higher wages for miners throughout the Edmonton district, in which the Humberstone, Bush, Clover Bar, Twin City, McPaul and Dawson mines are already involved. A beginning having been made with a notice to the Humberstone Company that its employes want a raise figuring out to 133 per cent over their present rates, it is anticipated that similar action will be taken in the case of other mines in the district, and the strike is taken as indicating what is likely to become a general demand in the Edmonton coal district.

Mennonites from States to Get No Special Favors

Those Now Coming In Are U.S. Citizens and are Still Subject to U.S. Draft

Regina, Sept. 19.-"No subterfuge of any kind will avail anyone anything so far as the military service act is concerned," no subterfuge will exclude anyone from its provision, this was the positive emphatic statement of Hon. James A. Calder minister of immigration yesterday. Mr. Calder had been discussing the Yorkton fair, relative to the Doukhobors and made this remark directly applicable to them.

With reference to the Mennonite matter, Mr. Calder outlined the situation as follows:

Exemptions were granted to Mennonites under the agreement of 1873. By special provision, these Mennonites in Canada at that time or those directly affected by the agreement of 1873 were granted special exemption. It had been further generally recognized that the exemption applies to their descendants in Canada. All other

W. BOSTON, PUBLISHER

The Fair

The fair of 1918 will go down into history as a successful undertaking. This is very gratifying in view of the fact that several agricultural associations in the province cancelled their fairs this year. In fact this very question came up for consideration at one of the spring meetings of the Tofield society. That the directors took the wisest course, no one will deny. Although many obstacles, not present in other years, had to be overcome, the dropping of the annual fair, would in our opinion have been a mistake. We will not try to pretend that in every respect the fair was equal to other years, but farmers and others this year, have been confronted with problems, due to the nature of the season and the requirements of the empire, that caused the showing made to be even more creditable. Therefore it can truthfully be said that the 1918 fair was a successful undertaking.

A War Time Measure

A war time measure that could with profit be made permanent, was the appointment of Mrs. Peter Lee as secretary of the Tofield Agricultural Society. Really, the war may not have been responsible, but we understand that this was the first year this office has been filled by a lady. That it is an arduous office and was ably filled is well known.

Coal In Abundance

"The best coal there is," was the way one Tofielder answered the query put to him as to what the Tofield coal was like. Seeing the blank look on the questioner's face, he stated further "because there is lots of it and it is cheap."

The mining of coal in this part of Alberta has become such a well known thing, that we take it as a matter of course that all we have to do when the coal bin is empty is to phone one of the dealers or teamsters and in a few hours see the bin replenished. The ordering of coal, and the receiving of it is so common that one hardly ever gives it a second thought or realize just what benefit the coal mines are to the district.

This year, more than ever, the district is to be congratulated on having a coal supply at its very door. Throughout the prairie provinces, the fuel question in the winter is always serious one and this year especially so.

With labor at a premium, the mines are hard put to it to find enough men to work at full capacity, while on the other hand as soon as threshing starts, all the available cars will be used to haul wheat in order to provide the allies with food.

However, apart from the abnormal conditions now prevailing, the fuel question in some parts of the west is serious. It is only a few years ago when in southern Saskatchewan farmers had to burn whatever they could lay their hands on to keep warm. It is more or less common to hear of families living together owing to the shortage of fuel, or of houses where the fires have all been let out with the exception of one.

The causes do not particularly interest us, suffice to say, that what fuel they get, have to be hauled from some distant point.

Stoves and Ranges

Now is the time to consider purchasing one of these most necessary articles. You reap the full benefit of the comfort and convenience they give, the first season. We have a good stock, chosen from among the best makes. Come in and inspect them.

McLaughlin Hardware Co.

Distances Worth Knowing

A civil engineer travelling from Edmonton stopped at Collier's garage Monday and gave these figures of distances that his speedometer registered between the various towns from Edmonton to Viking, and his figures can be taken as being quite accurate:

Edmonton to Tofield	47 miles
Tofield to Ryley	13.3
Ryley to Holden	13
Holden to Bruce	11.5
Bruce to Viking	15.9
Total	100.4 miles

—Viking News.

More Mennonites to Settle Here?

Representatives of the Mennonite sect from Kansas and Oklahoma are visiting in the Peace River and Grand Prairie districts, and may purchase land on which to establish a colony of members of the faith, if the outlook appears to be satisfactory. There would be from 150 to 200 Mennonite families in the colony. If the land is not secured there they may settle in the Tofield district.

Natural Substitute for Absorbant Cotton

This excellent substitute for absorbent cotton in making dressings for our wounded men on the battle fields of Europe, grows profusely on the hills about Prince Rupert, B.C.

At the request of the Red Cross authorities in Toronto, the citizens of Prince Rupert recently devoted a day to the collection of Sphagnum moss, with the result that a full car load was obtained and forwarded by the Grand Trunk Pacific Railway.

The value of Sphagnum Moss as a dressing for wounds was learned from the Indians of the north country, who for centuries have made various kinds of dressing from this moss. Sphagnum mosses are found almost anywhere between Owen Sound and near the Arctic Circle in Canada.

Very Chilly

Tofield has had three newspapers in as many years, the latest being called The Mercury. We venture to say that it will be a chilly day for Tofield if they let the Mercury go down.—Ryley Times.

It was some years ago that Mr Ed. Thompson remarked, "You can't beat Alberta out of her crop." He was right. This year we had drouth and frost, and were well nigh without hope, but let the wheat and the oats have produced a second growth and, from this almost miraculous development, many fields will yet yield magnificent crops of grain and there will be more green feed than can be used. It is truly a wonderful country.—Exchange.

An exchange says that some of the men who are always talking about the "Patronize Home Industry" slogan are the same fellows who marry girls from other towns.

Mennonites from States to get no Special Favors

(Continued from four)

Mennonites are classed "with the other conscientious objectors such as the Quakers, Tunkers, Christadelphians, etc.

The military service act exempts them, but only from combatant service. Further they must be in good standing and live up to the tenets of their faith.

Mennonites coming to Canada from the United States are United States citizens and cannot become Canadian citizens until they have lived in the country for a period of five years.

These do not come under the military service act and are not granted any exemption by the government. Just as soon as they come into Canada they immediately become liable under the provisions of the United States military conscription regulations as published in order-in-council August 31 and are subject to draft under the convention. They cannot evade service in Canada they will have to enlist or enroll in the United States forces.

Hon. Mr. Calder added the situation was sufficiently clear as to need no further explanation. The position was simply this:

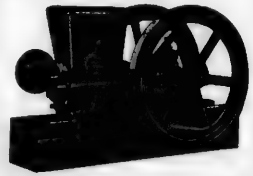
In Canada everybody has to serve under the M.S.A., and in the United States everybody has to serve under the draft regulations.

By the recent regulations aimed at trying to evade service in Canada by crossing the border comes under the regulations requiring service there, and United States citizens crossing into Canada to avoid service in the United States come under the regulations there requiring service, these regulations are those of the Military Service Act.

In speaking of the cards which have been spread broadcast in Saskatchewan according to reports, and of which Mr. Calder had heard nothing, he stated that cards by the thousand might be circulated and individuals be made to pay $5 for them, but this would not make a Doukhobor of the individual.

There is no law against circulating harmless cards of any kind, but there is a law compelling service in Canada and that, after all, is the important question.

Let a Gasoline Engine Do It



The OXFORD ENGINE is the result of many years experience in the Gas Engine Business. All the good points of previous designs have been adopted, and new features have been added where beneficial, eliminating everything that tends to impair perfect operation. This invites an engine simple in construction, as near trouble proof as can be had, and especially adapted for farm use.

Just think of the pleasure of starting your engine before breakfast and having your water trough full when you are through eating.

You can also hitch it on to the washing machine and your housekeeper will be able to give you all the war news while you are eating your dinner

Collection of fancy work—1, Mrs. Peter Lee. 2, Mrs. Abbott.
Bungalow apron by girls under 14 years—1, Madeline McClintin; 2, Marjorie Lee.

Two visiting baseball teams were present on fair day, Lamont and Fort Saskatchewan, the local team playing against both. The first game was between Lamont and Tofield and resulted in a win for the home town by a score of 9-0. The score at one time stood at 17 18 in favor of Tofield but owing to a dispute and the visiting team refusing to play further the umpire gave the game to Tofield with the first mentioned score.

The second game was played between Fort Saskatchewan and Tofield and resulted in a win by the Fort by a score of 10 - 3. Playing two games in one afternoon evidently took the pep out of the home bunch. During the games not less than three persons were hit in the face by the ball, Mr. Baptiste, also a lady and a lad whose names we were unable to get.

The amount taken in on Fair day for Red Cross tags was $19.10, and Mrs. Pincott wishes to thank all the girls who helped to make this so successful. The two selling the most number were Marion Carter and Clara Abbott; Marion turning in $25.00 and Clara $24 05, and each received a first prize of one dollar, while Audrif Adams received second prize having turned in $4.50. The other girls who helped are named in order of the largest amounts turned in: Eva Laton, Dorothy Hay, Nora Ellis, Elsie Roland, Margaret Proden.

Rev. Nugent Wilson preached at four different points around Viking this week, returning on Saturday night's train for duty here and Logan on Sunday.

Anniversary Services will be held in St. Andrews church on Sunday Oct 20th. Rev. Mr. Dowlge, of Camrose will conduct the services.

Mrs. Spilsted and Miss A. Spilsted visited Edmonton to see Mr. Spilsted who is undergoing medical treatment there We understand Mr. Spilsted's condition is unchanged.

At time of going to press the condition of Dr. Tofield was very critical, serious doubts being entertained for his recovery.

FIRE DOPE

Who wants to work for from $8.00 to $12.00 per year? This is about what you would earn if you had a fire and had a thousand or two dollars worth of goods burned —in other words from $8.00 to $12.00 per year is all it costs the ordinary farmer or townsman to insure his house and household goods against fire. If they burned it would probably take a year's hard work to replace the loss so that your salary for that year would be what your premium would have been had you insured. Its no good saying "Oh we are very careful" Thousands of very careful men have been ruined by fire loss. It may have taken years for you to get together that home, but it just takes the same number of minutes to lose it. Your fire insurance would probably cost you from two to four cents per day, and your night's sleep would be worth at least ten cents more to you.

RAYMOND W. PINCOTT.

Mrs. C. Bowick entrained for Edmonton Monday night where she will undergo medical treatment in the hospital.

Mrs. Mc Mullen sr. was taken ill while in Calgary, having to enter a hospital there. Mr. and Mrs. J. W Mc Mullen are at present in that city.

Rally day will be observed next Sunday 11 a. m. and 7.30 p. m. in St. Andrews church.

Minnikin News

On Friday evening Sept. 20th, the children of Minnikin S. D. 1796, held their first School Fair. The platform had an excellent display of vegetables and flowers grown by the scholars, also a good array of house plants, sewing and art work. The prize winners are as follows:—

CLASSIFIED Advertising

GIRLS WANTED.—We want at once sixty girls to learn the useful art of making mens' overalls, shirts and pants. We pay you $7.50 per week while learning. We employ 300 girls, many of whom are making $16.00 to $24 00 per week and you can do likewise. The work is light, hours are short, working conditions the very best and you are learning a useful trade. Come in or write.

The Great Western Garment Co. Ltd., Edmonton.

FOUND—A ladies raincoat, on the fair grounds on Wednesday. Owner can have same by identifying property and paying for this ad. Apply at Mercury Office.

FOR SALE—A number of first class cedar fence posts for sale, at 15c. each to clear. Apply F. H Griswold, Tofield

FOR SALE—Two 2 year old steers; one 5 year old cow. Wanted a good strong buggy or democrat. Apply to J. Easton, Tofield.

THREE FARMS for sale at low prices, $12 50 $15.00 and $20.00 per acre on easy terms. All are fenced and have buildings; suitable for dairy, hog or stock farm; lots of range adjoining; 160 acres each; all within 7 miles or Tofield. A. J. H. McCauley Tofield. 1-6c.

FOUND.—About the middle of August, near the G. T. P. station, a lap robe.—Owner can have same by identifying property and paying for this ad.

Best garden plot, Hertha Heitmann; Best house plot, John Seabey; Potatoes, Henry Heitmann; Turnips and Cabbage, Annie Atkinson; Red Carrots, John Seabey; Onions, Katherine McSporran; Beets, Mary Heitmann; Parsnips, Glenn Wilson; White Carrots, Bertha Heitmann; Sugar Beet, Helena Heitmann; Best collection of vegetables, Margaret McSporran. Writing, Grade 1 and 2, Leslie Bill; Hemming, Annie Atkinson; Button-holes, Margaret McSporran; Spring chickens, John Seabey.

Messrs Barons and Lennon acted as Judges. Mesdames A. McSporran and Lennon donated vegetables for sale by auction. The auctioneer was Mr. Williams. The house-plants were also sold and proceeds given to the scholars. A short concert contributed to by the children and local talent was much enjoyed. The chair was taken by Rev. Nugent-Wilson of Tofield Miss Merrick the school teacher deserves great praise for the excellent way the children's program was rendered also for the interest taken in preparation for the enjoyable evening spent by all. Refreshments were afterwards served, followed by dancing. A collection was taken for the Red Cross, which, together with a sale of a few vegetables realized 25 dollars, The residents hope this sort of thing may be arranged for next year as it is so encouraging for all concerned.

Mr. Stanley George and family who have lived here for several years are selling off everything on Thursday and moving to B. C. where they intend to reside.

Mr. and Mrs. Gilbert McSporran are also leaving for Vancouver this week.

Mrs. Bill and family are closing their summer cottage at White Sand Beach and returning to the city for the winter.

The Kaiser's Peace Offensive

The German peace offensive that has been forecast by the leading British and American papers for the past month has been finally launched on no less authority than that of the German Emperor in an address to the German army and navy. No doubt the recent change in the German chancellorship and ministry had this peace drive in view. The effort is to induce divisions amongst the Allies by inspiring the belief that the war is already won. It was by this means that Frederick the Great finally won the seven years war against France, Austria and Russia. When he had been utterly beaten and his country in large measure destroyed, the allies lost the unity of purpose that had brought them victory in jealousies of each other, and through their contending purposes Frederick emerged triumphant.

The military collapse of Turkey and the surrender of Bulgaria has placed far beyond present reach the Kaiser's dream of a great Mohammedan empire in the east. Austria's position is embarrassing and uncertain, both to her allies and herself. Under pressure of justice to enslaved races the Kaiser might agree to the dismemberment of Austria. The evacuation of France and Belgium must, of course, be understood. But if Germany, stripped of all entangling alliances and giving up all territorial gains on the west front, is permitted to exercise and perpetuate the dominance which she has achieved in Russia, with its tens of millions of people, its vast extent and its boundless resources, she is winner—a winner in actual material advantage far beyond the Kaiser's wildest dream at the beginning of the war, and the Allies have lost the cause for which they fought.

When the war began the Kaiser's chief hope was to secure the exploitation of Poland and the Turkish empire. Poland is fertile, populous and close by. Certainly a prize worth while. Turkey is vast, but largely desert and nowhere intensely productive, with people utterly alien and antagonistic to German methods in commerce, industry or government. But it was a field that Germany could exploit. Russia was a hundred empire—kindred in autocracy. To continue the peaceful commercial exploitation of Russia was a satisfying ambition in that direction at that time. But now Russia throughout her vast extent and with her many millions of people lies wide open to complete political and economic control by Germany. Give Germany five, ten, or at most twenty years of such control and with either the Kaiser or the Crown Prince on the German throne, and the battle for free civilization would have to be fought over again and under far less hopeful circumstances than at present. The Allied combination is now strong enough to defeat Germany and to re-establish Russia as a united country (or as several countries) independent of Germany and of German influence forming part of the great confederacy of nations worshiping justice and liberty, and able as well as willing to protect both against a recovered and re-organized Germany. Russia is now the Germans prize of war. If the Allies give Germany peace with dominance in Russia they have defeated themselves and the cause for which their sons have died.—Bulletin

Get Ready For Winter

Have your stove pipes and furnace pipes overhauled before cold weather sets in. If you need new pipes get them at **Hammond's Tin Shop** and get the home made pipe made of good heavy iron.

We will overhaul your furnace and clean it out for you, just call up No. 11 and leave your order, and have this job done right, and you will save coal and get more heat, and be safe from fire.

Annual Meeting Tofield Red Cross

The annual meeting of the Tofield Branch of the Red Cross Society will be held on Tuesday, Oct. 15th at 8 p.m. in the Variety Theatre We wish everyone to be present at this meeting. Reports of the work done since our organization as a branch will be read and officers elected for the coming year.

As the Red Cross year begins Oct. 1st, every house in Tofield will be visited during this week for membership fees by Red Cross ladies. By becoming a member ($2.00) you have the privilege of electing the officers for next year which privilege an associate ($1.00) does not have. If you are a member, renew your membership fee and if not a member become one and enter into the spirit of our work. By paying $25 Twenty-five dollars you confer a life membership.

A resolution embodying a unanimous vote of thanks to Mr and Mrs Hall for their dance was passed.

Be sure and attend Geo. Wheatlake's time sale on October 18th, on Section 26-51-20. Carter cries the sale.

Holy Trinity Ladies Aid will resume their meetings at Mrs. Tofields on Wednesday, November 6th.

Tofield School Board in Regular Session

Minutes of regular meeting of School Board held on Tuesday Oct. 1st 1918 at 8.30 p. m. at the office of the Sec.-Treas

Present Trustees Smith, Cookson, and McCauley.

Minutes of regular monthly meeting September 3rd, 1918, were read and approved

The Principal's report for month of September, showing an enrollment of 153 was read.

A letter from Mr, D. Francis asking that school hours be changed to the old time was read.

Moved by Mr. Cookson: That the secretary write Mr. Francis stating that the board could not accede to his request.

Moved by Mr. Cookson: That the following accounts be paid.

Roger Bros.	$6
Kash and Walters	$6.50
William Hay	4.40
J. W Somers	90
R. S. Davidson	ET'H

The secretary was instructed to pay the debenture coupon outstanding at the Standard Bank of Canada

Moved by Mr. McCauley: That the fire insurance expiring during the month be renewed for another year.

The chairman reported that some of the windows were broken. These were ordered to be repaired.

The meeting then adjourned.

Don't forget the cash auction sale at E. J. Rabbitsh's on October 15th. Section 22-50-20. Carter is the auctioneer.

We are glad to learn that both Mrs. Wenzlake and Mr. Spilsted who have recently undergone serious operations in the Hospital in Edmonton are progressing favourably.

Dr. Backus left this week to take up military duty at Montreal. Mrs. Backus left some time ago.

Thrifting, Are You?

(By Edmond Vance Cook)

We think we are thrifting,
But maybe we're drifting,
And the coin that we clink is not saving but shifting
For seemingly spending
Goes on without ending
And heedlessness still is the tend of our trending.
In gleaning my meaning
You'll find gasolining
Is still used for dusting instead of for cleaning;
And most of us butter
On fine fare and fatten,
While robing our noteness in purple and satin,
Oh, maybe you're guilty and maybe you're not,
But ask: "Have I thrifted as much as I ought?"
Our thrifting is fickle,
It runs in a trickle,
We pickle a nickle to give on a tickle,
Then ride on the trolleys
To go to the Follies
And hand ourselves thanks and a couple of jollies
Man still goes on puffing,
Imbibing, and stuffing,
And holding enough yet without "Hold! enough! ing
While women still poses
And shows us her bones,
All sikes and sheer to excuse her discloses,
At the end of the day, if you're feeling too good,
Ask this; "Have I thrifted as much as I should?"

(Copyright 1918 N.E.A.)

: Local and General :

Mr. Little, who has been looking after the interests of the Alberta Lumber Company here, left on Monday, with his wife and son, for Vancouver where they intend to reside.

Mr. Ward arrived from southern Alberta on Friday, to follow Mr. Little as Manager of the Alberta Lumber Co. His wife and child will come later.

Mr. and Mrs. Cox, sen'. visited with Mr. and Mrs. R. Davidson on Sunday.

While out for a walk on Sunday, the editor saw Rev. Simpson in his buggy, accompanied by three of his children. You know David is intensely patriotic, or at least that is what we imagined judging by the speed one of the wee ones, who was driving, was getting from the horse. They were saving gas alright!

Be sure and attend the dance billed to take place at S. A. Hall's Store on Friday night of this week. Lynch's orchestra which is well known as an excellent musical company will furnish the music. The entire proceeds will be given to the Red Cross.

R. O. Bird, a Tofield old timer visited Tofield this week, returning on Tuesday evening.

We desire to express our heartfelt thanks to our many friends for their many kindnesses and expressions of sympathy in our sad bereavement.

Mrs. (Dr.) Tofield and Family.

The Harvest Festival will be at Holy Trinity Church on Sunday week, Oct. 20

Miss Elva McDonald returned on Monday from a vacation spent in Innisfail, Alta.

PIKE DEPT

THE SPUD QUESTION IS THE TALK. Several want us to ship a car in, and we are getting busy. The price appears to be tall, but we are asking for several quotations with a view to getting to rock bottom If you want to get in on a carload price, right off car without having to pay a much higher price which would naturally be the case if these are unloaded, put in a cellar, and then fished up and doped out to you in small quantities, IT IS VERY IMPORTANT that you NOTIFY US IMMEDIATELY of the quantity that you require DON'T DELAY THEREFORE A SINGLE DAY.

We are holding a SALE on Saturday 19th inst. This is not our big Fall sale, but it is especially interesting to Carpenters, Blacksmiths, Mechanics and farmers, and we are told that there are two very large boxes of very fine and almost new tools of various description, There is also a stump puller and cable.

Fall is coming, things will be getting interesting very shortly.

RAYMOND W. PINCOTT.

An Open Letter to all Tofield and District

With all our doctors having left us, my store is the only place left to which you can go in time of sickness.

We want to stay in Tofield and aim to do so, providing you stay with us.

We cannot stay however, if our citizens patronize Mail Order Houses, Pedlers, and every Grafter that comes along.

Citizens of any district, as nations, must at this time as never before, pull together for the good of all.

We try to be deserving of your patronage—we are not getting it.

And just to remind you of Your Responsibilities to the town in and aronnd which you live—kindly remember we Need and Ask for All Your Business.

J. W. SOMERS

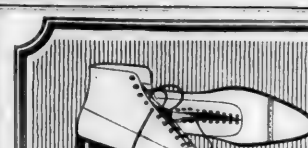
Style—Plus Service at a Fair Price



Closed style worn by well dressed young men as at Eaglehart. Last heel—medium narrow on edge for low, medium for high, or quarter cut. Price, $7.00 to $10.00.

THE style illustrated above is one that is largely preferred by Canadian business men—especially young men. It has the medium long vamp and narrow, somewhat pointed toe which gives the foot a slim and "dressy" appearance, without being extreme in style. Those who like this type of shoe will find it thoroughly satisfactory in fitting qualities and a comfortable easy shoe to walk in.

This style can be obtained in several grades of black and tan. The price range—$7 to $10—considering the present leather market, is extremely moderate.

Next spring a shoe of the same wearing qualities will cost from ten to twenty per cent more. It would cost more now except for the fact that the resources of this company enable us to cover our needs well in advance.

A.H.M. War-Time Substitutes offer special Summer Value in Shoes, Oxfords and Sandals. Ask your dealer for them.

Ketchamut Red Cross Society Meet

Other Ketchamut Items

The Ketchamut Red Cross met on Oct. 2nd with Mrs. Ben Wilkinson, and we proud to say we had a fine bunch of goods and willing workers.

The meeting was opened by a repeating of the prayer "Used by our King, and our soldiers and sailors wherever they may be in the service of Victory."

Work was planned for the next three months, and the meeting closed with a song "God save our Men."

The next meeting will be with Mrs. S. J. Carlisle on Monday Oct. [illegible]

Joe Sutter and Mitchell threshed grain and started threshing last Thursday.

S. J. Carlisle had a horse fall in the Pembina river and caused badly he had to kill it.

There was a social round gathering at Carl's Hall some evening last week for a dance, they donated the proceeds of $10 to the Ketchamut Red Cross. We hope there will be more to follow, for it was very welcome.

Mrs. L. McKenzie and P. Lee are both improving their farms by building real machine sheds with shingle roofs.

Thrift Hallmarks a Nation

Saving the almighty dollar in order to gratify one's desires in the matter of personal purchases has been a working force in society for a lifetime. Because for the sake of hoarding the golden discs a certain economy that has affected the masses of all time. To save in order to make another stronger is the highest form of thrift known. And in exercising this virtue of saving as the extra dollars from current expenses for the better living of society when times may not be so generous, we carry on in the marks of the true Canadian patriot.

He who loves his country is no waster. He knows his savings from the capital that makes business go. The dollar now denied itself and total savings of thrifty people mark out the nation as a really great one. Love of our Canada in these land demands that every resident from the Yukon to Cape Breton, shall be save his surplus dollars against a rainy day. The thrift-man is one of Canada's big patriots.

Farmerettes Taking Courses at Agricultural Schools

To Fill Places of Men Called to the Colors, Young Ladies Take Course In Agriculture

In view of the fact that so many young men have been called to the colors, there is a growing tendency among farmers daughters to take up the profession of agriculture. Last year some thirty or forty of these young Farmerettes attended the Guelph Agricultural College in Ontario. In Alberta too there is the same tendency among patriotic young women to step into the position made vacant by reason of the fact that brothers have gone to the front. For the past two years young ladies have been taking the straight Agricultural Course at the Provincial School of Agriculture, Olds, Alberta. In most instances the heavier work such as blacksmithing etc., has not been taken by the young ladies. In one case however, a young lady, Miss Erma Foster, (Now Mrs. Nelson Chase) took the complete course. Under ordinary circumstances it is not necessary for young ladies to take the heavier class of work, but there is no reason whatever, why young ladies who have to live on the farm should not be as interested in the stock and in fact every phase of the farm work, as are the men. The veterinary course appeals to many young girls who have a liking for stock, and in many instances the girl makes a far better nurse in the case of sick animals on the farm than does the man. Many farmers daughters have a decided liking for the live stock, and in fact for all out door work on the farm. A course at a Provincial School of Agriculture is the very thing that many young ladies are looking forward to and it is gratifying to know that a considerable number are applying for agricultural work during the coming winter.

WEDNESDAY, OCTOBER 9, 1918

E. BRITTA, PUBLISHER

Thanksgiving

Monday next has been proclaimed by the Dominion government as Thanksgiving Day. On Sunday and Monday the people of Canada will express special thanks to their creator for the bountiful blessings bestowed upon them. Nevertheless, among the population are a great number who see nothing but a festival day in the proclamation. A holiday, during which one can relax from the usual strain of business and generally have a good time. It is not intended that to properly observe the day one should sit around as if in mourning, but a full realization of the cause of the day of leisure is necessary before the maximum amount of pleasure can be derived from it.

To be sure, we in this favored country, do we not often call it God's country, have a great deal to be thankful for. While misery want and starvation have claimed millions, this country on the whole is decidedly prosperous. In the industrial centres there is lots of employment at good wages, while products of the soil are bringing unheard of prices. It is true that with practically everything doubled in price, the producer does not get the full benefit of the increased prices, but as far as Canada is concerned, industrially and agriculturally, times are good. We have not lost sight of the fact that this is an off year.

Moreover in addition to prosperity at home the people of Canada have especial cause to be thankful for the success that are being won by the Canadian boys at the front. Flushed with success and crowned with victory the Canadian Forces in company with allied arms are now battling for the right, and winning. And if for nothing else we should express our thanks for this

Mennonites To Go To The Argentine Now?

Mennonite residents of Canada held a convention at Hague, Saskatchewan, recently, when they reached two decisions of general interest. One was that a delegation be sent to the Argentine Republic to interview the Government there as to whether they would be granted satisfactory concessions if the Mennonite colonies in Canada remove thither. The other decision was that Mennonite children are not to be allowed to attend public schools.

The second resolution takes away the sting of the first. Canada needs industrious and thrifty settlers—such as the Mennonites are, but it does not need them if they are not prepared to obey the law of the land and to become Canadian citizens. If the Argentine wants them on those terms it is welcome to them.—Edmonton Bulletin

OTTAWA, Oct. 2. — It is announced that conservation measures and voluntary saving in the homes have reduced consumption of flour from 800,000 to 600,000 barrels per month, as compared with pre-war consumption. This means a saving of 2,400,000 barrels per year, or counting the savings by lengthened extraction of milling, of 2,640,000 barrels per year. This is equivalent to a saving of nearly 12,000,000 bushels of wheat.

THE FORDSON TRACTOR

Is not the creation of a few months but the product of many years of experiment on the part of Henry Ford. The result is a low priced, light and efficient farm tractor. Moreover, before placing this tractor on the market, every detail has been thoroughly tried out under actual working conditions in various parts of this country and abroad.

This tried product is, therefore, placed in your hands with confidence that it will prove to be that long-desired farm implement which will supply power for all reasonable farm purposes, efficiently and at a low cost—and be as applicable to small farms as to large ones.

McLaughlin
Hardware Co.

Has Pigweed Any Feeding Value

There is a considerable difference of opinion among farmers in regard to whether pigweed seed i. e. the seeds of the common weed known as pigweed or lambsquarter, have any appreciative value for feeding live stock. On many farms these seeds were used for feed last year and good returns claimed. Elevator companies bought these seeds from $10.00 per ton up, and reported them, presumably for feeding purposes. To get some accurate data on the subject, an experiment was undertaken at Brandon Experimental Farm during the winter of 1917. Three lots of pigs weighing about 120 to 175 pounds were fed, 1st, on barley and feed flour 3 to 1, 2nd, barley and boiled pigweed seeds, 3 to 1 and 3rd, barley, boiled pigweed seed and feed flour 1-1, to 1 by 1. That is taking barley and feed flour as a standard pig fattening ration. Pigweed was tried as a substitute for all the feed flour and as a substitute for half barley. A fourth lot of pigs was fed for part of the time pigweed seeds alone. The barley was charged at $1.20 per bushel and the feed flour at $30.00 per ton, the actual cost in each case. No charge was made for the pigweed seed itself, but $10.00 per ton was charged for fuel and time it used in boiling the feed.

The lot of pigs (No 1) fed on barley and feed flour gained 1.4 lbs. per day at a cost of $13.40 per hundred pounds of gain. The lot fed on barley and pigweed (No 2) gained .85 lb per day at a cost of $14.02 per hundred pounds of gain. The lot fed on barley, feed flour and pigweed (No 3) gained .8 lb per day at a cost of $18.50 per hundred pounds of gain.

The lot fed pure pigweed did not gain at all and had to be put on to different feed after about ten days or they would soon have died.

Now, a casual observer would say that Lots 2 and 3 without comparing them with Lot 1, would say that they were eating the pigweed and in healthy condition and appearing fairly well, and would perhaps jump to the conclusion that the pigweed was proving a satisfactory food. But when these lots were compared with the first lot we find that the pigweed reduced greatly the daily gain as compared to that made on a good ration and that it increased the cost of producing the pork. In other words, there would have been more money made out of the pig feeding operations as a whole if the pigweed seeds had been left to rot in the field.

The lot fed on these seeds alone more clearly demonstrated their worthlessness, as they were unable to get more nourishment than pulses enough to keep up their original weight. The conclusion is therefore reached that pigweed seeds are not worth feeding to pigs. While apparently satisfactory results are obtained, the pigs must be making their gains entirely on other feeds such as grains of wheat, in the pigweed, or other feeds which are given in addition to the weed seeds.

Potato Seed Selection

(Experimental Farms Note)

Like begets like in potato fields as elsewhere, but judging by the quantity of inferior tubers used for seed purposes, the importance of this law is not appreciated by many.

The use of small potatoes taken from the bulk of the crop, year after year, and used for seed will eventually lead to inferior potatoes.

At potato digging time the greatest opportunity for seed selection is offered. With the product of each plant spread on the soil it is an easy matter to select out those plants that have given the largest yield of the most desirable type of tuber and are free from disease. Tubers from such plants should be gathered and saved for seed. The following year every hill from the saving of seed will be grown, and the product of each plant will be examined by the members of the potato judging team to make an annual selection of the best hills. These will be harvested by themselves, and the product exhibited at various agricultural fairs, and finally distributed for seed purposes. Much attention is also supposed to be paid to the cooking qualities of the various exhibits taken, and sent each year for reproduction. Further more, the results of the best selections are also published in the press. Nothing is charged to this scheme.

It is felt that this will go a long way towards letting the people of Canada avail themselves of the knowledge which the Experimental Farms have gained by experimenting and practical farming, and the extent to which the system may be developed depends largely upon future interest and assistance which farmers will render.

Are We Downhearted

In order to correct the impression which seems to prevail through Canada, that the crops of Northern Alberta have been completely cut out this year, the Edmonton Board of Trade Association [illegible] a show [illegible] and 24th in connection with the annual seed potato exhibition. Prizes will be awarded for the best [illegible] every locality, as well as for the best [illegible] grown in the province. Special prizes are also offered for the best [illegible] exhibits of garden vegetables, grain, [illegible] and fruit grown in the province. The attention of all is called to the fact that from the public point of view the [illegible] exhibits warrants it, to have photographs of the various exhibits taken, and sent each for reproduction in the press. No charge will be made for photographs of exhibits, but a charge will be made for [illegible] prints.

It is to be hoped that the [illegible] will be a large one, and that the Edmonton Board of Trade will receive such support from the farmers of Northern Alberta as to encourage it to [illegible] annually. The interest and saved apart from the [illegible] the money may be [illegible] the [illegible] future.

School Act To Be Rigidly Enforced

No Schools Other Than English Allowed

An investigation into a rumor started by the Calgary Eyeopener, to the effect that a German school was in operation a few miles south of Raymond, is to be investigated at once by the provincial department of education. No previous information about the existence of this school had come to the attention of the government authorities but it is now claimed that German text books are used exclusively and that the whole running system is essentially the non-English type.

Nothing of this kind will be allowed in Alberta, declared Hon. George P. Smith, minister of education, when asked about the Calgary allegation. If the department investigation shows the facts to be as stated, steps will at once be taken to apply the law in accordance with the provincial school act. The establishment of German or other foreign speaking schools will not be prevented Mr Smith points out but their continued operation can and will be prevented and as rapidly as such conditions are found to exist they will be adjusted. The minister's previous statement in connection with the Mennonite problem to the effect that only schools conforming to the Alberta school laws, English textbooks, and teaching the English language will be allowed in this province, still stands, he says, and will be rigidly and strictly adhered to.—Edmonton Journal.

President Wilson's Fourteen Proposals

1. Days of private international understanding are gone and covenants of peace must be reached in the open.
2. Freedom of the seas in peace or war.
3. Removal of economic barriers among nations associating themselves to maintain peace
4. Guarantees of the reduction of armaments.
5. Impartial adjustments of colonial claims, based on popular rights
6. Evacuation of and opportunity for Russia.
7. Evacuation of Belgium.
8. Evacuation of French territory, and righting of the Alsace-Lorraine wrong.
9. Readjustment of Italy's frontiers along lines of nationality.
10. Free opportunity for autonomous development of the people of Austria-Hungary.
11. Evacuation of Roumania, Serbia and Montenegro, and guarantees for all the Balkan states.
12. Sovereignty for Turkey's portion of the Ottoman Empire and autonomy for other nationalities.
13. An independent Poland with access to the sea.
14. General association of nations for mutual guaranties to independence and territorial integrity to large and small states alike.

All records since the big season of 1911 have been lowered by the whaler "Kil" this year. Since the beginning of the 1918 season 970 whales have been taken by the combined fleets controlled by the Consolidated Whaling Corporation Limited. The operations will continue until the later part of the present month and a catch of more than 1,000 is anticipated.

Teachers' Convention

The twenty-second annual convention of the Northern Alberta Teachers' association will be held in Edmonton on Thursday and Friday, November 7 and 8. The two chief speakers this year will be the the new minister of education, Hon. Geo. P. Smith, and Prof. W. F. Osborne, of Manitoba University. The executive feel that they have been very fortunate in obtaining these two speakers, since each is regarded as amongst the most brilliant orators in their respective provinces. Prof. Osborne will deliver two lectures, one of which will be before the teachers only, and the other at the open meeting which is always held in connection with these conventions.—Edmonton Journal.

Carelessness and indifference are sinless destroyers cankers that eating at the vitals of many a nations. They waste time and treasure, they destroy confidence, they [illegible] against them are sure to doom [illegible] of the business men of Germany are beginning to fear the ruin which now seems almost certain. Germany knew when she entered that war with her insane battlecry "World power or Downfall," that she was taking a gambler's chance but she took it, and lost, and now she must face the bitter consequence of her madness. Germany has been Germany's worst enemy Christian Guardian.

Germany's Business Future

When Germany made war with France over forty years ago she made a goodly profit out of her undertaking and when the Kaiser proposed the present war Germany's business men backed him, mostly to the limit. The cost of the war was to be paid by the beaten enemy, and Germany was to seize Britain's colonies, the French iron mines, and secure control of the sea, and German prosperity would be assured. But now Germany faces a crushing national debt of $25,000,000,000 and the end is not yet over. This will mean an annual tax of $4,800,000,000 for interest alone, and the present annual revenue is only $1,200,000,000; and her iron and coal will become French in a few weeks or months while her Russian acquisitions will have to be surrendered. More than that, Belgium and France will have to be indemnified, and if Poland forms a new state Germany will lose Silesia, Posen and even East Prussia, while the dismemberment of Austria would leave Germany absolutely alone to face a world of enemies. The war party still gives Lord for fighting, but it is not to be wondered at if the business men of Germany are beginning to fear the ruin which now seems almost certain. Germany knew when she entered that war with her insane battlecry "World power or Downfall," that she was taking a gambler's chance but she took it, and lost, and now she must face the bitter consequence of her madness. Germany has been Germany's worst enemy Christian Guardian.

Auction Sales and Advertising

The farm auction sale is part of our national existence. No matter what part of Canada you may be in, every fall and spring, a number of farmers [illegible] various reasons, sell out. Auction sales have only been advertised by some means or other. It is a necessary part of the undertaking, therefore a few words re auction sales and advertising will not come amiss. The writer has been connected with the advertising of auction sales for the past ten years in different parts of Canada, and in this, as in every business transaction, there is the maximum amount to be obtained for the minimum amount of expenditure policy to be followed. The auction sale bill can be quoted as being historic. So many years has it played the part of announcing the auction sale that it has become as much a custom for the farmer about to hold a sale to have bills printed as it is for the average man to eat his dinner at noon. However of late years, auctioneers, clerks of sale, etc. have come to realize that the sale bill does not give the proposed sale all the publicity that is possible. They have realized that the newspaper, as it goes into the homes of the community is a valuable medium for advertising the sale. There are of late years rules have been appearing in the local newspapers to a gradually increasing degree. However, there is the perfect sale ad. Just the same as there is the perfect piece of horseflesh. That is, the sale ad. that in size and design appeals most to our population and which is most readily perused. In our experience the auction sale ad. in the country newspaper has undergone a period of evolution during the past ten years. At one time it was deemed sufficient to have a "sort" of bills printed and a small notice calling attention to the sale inserted in the local paper. Then for a period advertisements of any size from whole pages down to a list of the stock in as small type as possible was the order of the day. In order to give the seller the best service possible, we studied the question for a time and came to the conclusion that an ad. occupying a space from six to nine inches double column, according to the size of the sale, would best meet the needs of the prospective seller. This advertisement would be drafted after the style of the ordinary sale bill, and on this account would readily catch the average farmer's eye, when he reads his paper. Having caught the random attention, the list of articles to be sold is read through, because at that time the reader would no doubt be at liberty to do so. During the past three years, we have inserted dozens of sales, following this style, and in many instances have received complimentary comments from the man that was selling. That we can take no credit for being original in this, can be seen by the sales that are at present being advertised in our exchanges. Other editors, no doubt having given this subject attention. Advertisements of the nature are now appearing in the Camrose Canadian, Sedgwick Times, Manville Empire, The Red Deer News and many other papers. The cost compared to the result is trivial.

THE FORDSON TRACTOR

Is not the creation of a few months but the product of many years of experiment on the part of Henry Ford. The result is a low priced, light and efficient farm tractor. Moreover, before placing this tractor on the market, every detail has been thoroughly tried out under actual working conditions in various parts of this country and abroad.

This tried product is, therefore, placed in your hands with confidence that it will prove to be that long-desired farm implement which will supply power for all reasonable farm purposes, efficiently and at a low cost—and be as applicable to small farms as to large ones.

Must Keep On Going

Allies Must Force Their Way Into Germany

Sounding a keynote of "no negotiations without occupation" James W. Gerard, former United States ambassador to Germany, declared there can be no thought of peace until troops of the victorious nations have forced their way into German territory Mr. Gerard was speaking for the fourth Liberty loan at the San Francisco commercial club.

"The road to an negotiated peace," he said, "is through Berlin."

The United States and her allies have determined that the present enemy government shall attempt at peace and must keep on going until the German people themselves overthrow it. Only then will Germany be ready for peace. It would be easy for her to formulate the terms of surrender, Lincoln, and Poland. Fifteen per cent of the people believe in autocracy, and it is only these who entertain a romantic notion that they can force out of the upheaval a victory.

Allies Share Our Sugar

Half the sugar consumed in America in Europe drew virtually no sugar from the United States before the war, according to Herbert Hoover, who is now in charge of the food administration. Some of these countries are now receiving from the United States as much as one-half of their sugar consumption. Mr. Hoover said that the sugar situation is now in control and that there would be no shortage.

VOL. I NO 9 TOFIELD, ALBERTA WEDNESDAY OCTOBER 23, 1918 SUBSCRIPTION IN CANADA $1.50 U.S. 2.00

NOTICE

In view of the rapid spread of the present epidemic, the Board of Health has appointed Dr. Trottier medical health officer, and all cases must be reported to him immediately. Phone 52, Sooner's Drug Store and Mr. Somers will inform the Doctor.

The Board of Health also asks each and every citizen to take all necessary steps to stamp out this epidemic by getting the necessary information as to what to do, from Dr. Trottier, or from any of its members: Geo. A. Dixon, J. W. Carter, W. C. Smith and T. L. Abbott.

Mannix News

Quite a number were present at the Thanksgiving service held Monday evening in the school.

Miss Maud Atkinson spent the holidays with her mother, at Meadow View Farm.

Miss M. Merrick spent the holiday at her home in Edmonton.

Mr. and Mrs. McLaughlin and Mr. Fullerton of Edmonton were guests of Mrs. Ferguson last week.

Miss Lynn Ferguson spent the week end with her parents.

Amisk Creek

Miss Martha Anderson, Amisk Creek's popular teacher spent the week end as guest of Miss Ida Ammo, near Ryley.

Miss Mary Bruhn has been on the sick list this past week.

The Girls sewing Club met with Miss Lila Blackburn on Thursday afternoon and accomplished a good-ly lot of Red Cross sewing.

J. L. Kaufman's threshing rig has been operating in this vicinity last week and this having threshed at A. Erickson's, E. A. Moon's, A. Patterson's and F. Bruhns.

Conrad Sherven who has been farming the P. Flaaten place this year, has been among the grippe or "flu" victims this week.

A former resident of this neighborhood, Franklin J. Tinmouth, who is now in training in England, writes to friends here under date of September 18th, that he does not like the rain and mud there, prefer ing sunny Alberta.

Mr and Mrs. I. H. Olson spent most of last week in the capital city returning home on Saturday.

Threshing in this vicinity is nearly over and a number of farmers are loading cars at Shonts. While the yield was not up to that of former years, yet for the most part grain averaged, acre per acre, much better than was anticipated early in the season. This is particularly true of oats, no wheat was a wholly damaged crop hereabout.

Spanish (Epidemic) Influenza Here

40 Cases Up To Wednesday Noon

Dr. Trottier, Nurse Stewart and Two V.A.D's Working Hard to Prevent Disease Spreading

Spanish or epidemic influenza has appeared at Tofield, some 40 cases having been reported up to noon on Wednesday. The disease first made its appearance the latter end of last week and spread with lightning like rapidity. At the time the complaint made itself manifest there were about here, and it was necessary to call Dr. McPherson from Ryley. The health board requested that a doctor and nurse be sent from Edmonton, but were only able to get two nurses. On Monday evening Dr. Trottier arrived from Dewburne, and will be here for a time. He has been appointed medical health officer. The cases so far are of a mild type.

The Provincial Board of Health has issued a health bulletin dealing with the Spanish Influenza.

The initial symptoms are in most instances headache, backache, malaise, chilliness and pains in the extremities and considerable fever.

The ... of infection are undoubtedly secretions from the nose throat and lungs of cases and sufferers, and the mode of transmission is by direct or indirect conveyance of these secretions by droplet infection, or by means of handkerchiefs, tossels, eating utensils, etc. The discharges from the mouth, throat and nose should be destroyed by antiseptics or burning. Pocket handkerchiefs may be boiled and should be frequently changed. Crowded offices and particularly street cars are potent factors in the spread of the disease.

Treatment

Rest in bed, warmth, fresh air abundant food. Every case with fever should be regarded as serious and kept in bed until the fever ... days.

Strong on the

CALVES

this week. If you want one ... see

WALTER BELLAMY

PURE DOPE

SEEDS - SPUDS This is the last ... about. Not only a carload but ... carloads have been necessary. One ... arrived to-day (Monday) ... more will arrive to - morrow. The Mercury comes out Wednesday, and as just have two hundred bushels left. So if you want any, just jump to the phone as soon as you read this, and then run to the stable and hitch right up and take right ... home. You may get the ... also.

WE ARE, OF COURSE BUYING GRAIN AGAIN, We have not said much about it yet but all you will have to do is to shout through the phone for prices.

We have about 120 bushels of Banner on hand for sale, which will make good. Price $1.25.

We will also shortly have a small quantity of PURE MARQUIS WHEAT that a few bushels grown on pure new land from REGISTERED SEED. This crop went 27 bushels to the acre, and was grown only a few miles from Tofield. Price $4.00 per bushel. Nothing like it in the country.

We can buy a few hundred OLD SACKS, from bran and shorts, provided that they have not much more than one hole in—the big one in the right end.

RAYMOND W. PINCOTT.

Ryley News

The proposed meeting of the Lutheran Church representatives at Holden on October 20th was postponed on account of the rapid spread of the Spanish Flu throughout the country.

Dr. Miller of Robertsons College Strathcona addressed two eloquent addresses in the Presbyterian church here last Sunday.

Mrs. G. F. Williams was taken ill last week and removed to the Misericordia Hospital Edmonton she has since improved considerably she is now well on toward recovery.

Owing to the Spanish Flu scare the attendance at the school has dwindled down to quite an ... This might be wise but it should be remembered that if the children are kept away from school they should also be kept away from other gatherings.

The Ryley school Association have again opened their Pathescope service. They expect to have it put on a splendid line of pictures throughout the winter months.

Miss Margaret MacAllum of Beaver Lake has organized quite a music class among the young girls of the village and district.

Mrs. Barrington of Edmonton recently arrived to take charge of the Solberg School.

The C. G. I. T. had a meeting at Mr. Dahl's ... evening, following up for a good showing at the coming Girls Conference.

Mr. Fred Manderson has returned to Toronto to resume his training for the Aerial Service.

R. Hulbert reports that in spite of the severe damage done by hail there is already considerable grain being marketed.

Mr John Immersland who until recently was employed at the Beaver Lake Farmers Creamery has gone to Saskatoon where he has accepted a position in a dairy.

Immediately on the top of the "measle scare" of a week or two ago comes the "Spanish Flu". Life is just one ... thing after another.

Mr Erling Paterson who was in attendance at the Ryley High School last year has gone to Edmonton where he has resumed his studies at the Collegiate Institute.

Rima Solberg of Solberg school District and Donald Bloud of Silver school are attending school at Ryley.

Mr. Matthew B. Dowsett has opened up a confectionery ... in the ... R ... H.

Misses Williams and Carter have lately suffered the loss of having had two fine big steers run over by the C. P. R. ...

Masters Melvin and Clarence Anderson are attending Public School in Edmonton.

"America must be punished"

Such was the decree of Kaiser Wilhelm, furious because the allies were obtaining food and munitions of war from the United States.

Dr. Arthur N. Davis, the young American who was dentist to the German emperor from 1904 till 1918, tells of the ruler's determination to wreak vengeance upon the United States in his remarkable narrative

The Kaiser as I Knew Him for 14 Years

This story reveals the inner workings of the kaiser's mind. It shows once more why the world is at war. It will appear as a serial in this paper. Don't miss it.

Coming Soon

Why not have your car take the place of a stationary engine—

Good Value and How to Get it

YOUR interest, as a buyer in new footwear of the consuming public, and ours as Canada's largest manufacturers of shoes, are really identical. They may be put in a single phrase—"Quality Shoes at Fair Prices."

A fair price today is a higher price than ever before because of the cost of every item of material and labor that goes into the making of shoes has increased greatly and still is increasing.

In order that you may continue to get quality and fair prices we shall feature in advertisements certain specific shoe values which we know will give you good value. From our long experience, we will suggest to you the best method of determining whether you select shoes of our manufacture or not.

We ask you to buy for service rather than merely for style; to go to a reliable dealer, and to look for the manufacturer's trademark on the shoes. By so doing you cannot fail to get good value for your money.

"Cowvis" to "Tops"

A copy of the imaginary letter, written in haste from "Somewhere in France," has been sent to a St. Paul friend by one of the Minnesota boys. It follows:

"Dond Tops—I am writing an der run, as I accompany mine brave hennwich soldiers back to der Rhine—maybe to cross mit dem and anchoy a visit to der fadderlandt.

"Der hass been some offel dirdy dings in dis locality und all bussmen do feel Americans didnot haves enough about military tactics to be crushed like I vant dem vas I married most big officulties. I sent nothing vun in der fight in big vawns, and vas dey reached der American lines dey all shouted "boo" so loudt no dey could holler.

"We can't make der Americans understandt dot ve is der greatest soldiers on earth, so ve bet ve shows dem dot ve is der best runners, yut."

"Vell, according to vat you bell always said it, der Americans should hadt turned und run like hell, but dey didnot did it Dey didnot know nothing better dan to run right into our bayonets, und ve had to turn de guns der odder vay to prevent de tootal handses from being all our bayonets for souvenirs.

"Bolna,

"Dey no der most reckless mit der guns of anything, und dey hadt led dem as don't carfully dat ve decided chust to back up mit let dem do all de damage dey vanted to dem selves. Some of mine men didnot back quick enough und preferred to go der odder vay where der vas less accidents. Ve ran go after dem vun der war is oler already yut.

"Vel, ve let dem had tha dirty old Marne river, because dey was no good fishing in it neyway after so much shooting und nowe all around vas because of our men's objection to close association mit such uncultured vine. Blasphemy means nothing to dem, un, papa, vun pig honky from a place dey call Minnesota, he said — oh, papa, I hate to tell it, vot he said, but I can't help it; he said, "To hell mit der kaiser!"

"No, papa, I could not linger around such heathen, so I just turned und run mit the rest of mine men. Vas I right, papa? Sure I was! You admit it.

"Now, papa, I have a request to make it. I vish you vouldt sent us some breast plates for our backs. Dese ve had been wearing in front are no good because der outwardly Americans vas shooting us in der backs. If you dondt hef time to send dem, please hand dem to us when ve pass through Berlin yah, May ve vill pick vone up for you papa? [illegible]

"Crown Prince Wilhe"

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back:—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

✦ ✦ ✦

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

Be ready when the call comes to see your country through in its great war work

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada

No Cause For Panic

While it is common knowledge that the Spanish or Epidemic Influenza has invaded the province there is no need for the public to become alarmed. There is no doubt as to the serious nature of the complaint, though this depends, to a certain extent, on the promptness treatment is commenced. Now fear but knowledge, is what our people should acquire. With the rapidity with which the thing spreads, it is more than a race between the influenza germ and the populace. Each individual should govern himself so that they are least liable to attack. The Provincial Board of Health have published posters, while the newspapers are rendering a large amount of [illegible] According to what the [illegible] there is no reason when [illegible] the human body, and if this is so, with the closing of all public places and each individual forewarned by knowledge and on the alert, the disease should die out in a short time.

Justice to Belgium

The formal entry of the King and Queen of Belgium into Bruges is visible evidence of the progress of the Allied arms towards the reestablishment of Belgium as a country. Belgium was overrun and devastated in the first year of the war, except the little corner of which Ypres was the chief city. Along a strip of some 12 miles wide from Ypres to the coast the Belgian army held a little fringe of their own country. It is the pride of Canada—and will be for all ages—that at Ypres in the second of the many battles of that name Canadians fought successfully and died gloriously to hold that little bit of Belgium soil free from desecration by the tyrant of Berlin. The cruel sacrifice of Belgium has the admiration of the world. It will always be an honor to fight for Belgium.

The sacrifice of Belgium in August 1914, which bid the Hun hordes for a few precious days and made the successes of today possible, placed the world under obligations to this loyal, faithful, steadfast people, which must always be recognized as soon after be repaid. There is this to be said, that if and when necessary is defended, peace should never be made by the Allies except on condition that the wanton destruction wrought in Belgium by the German armies shall be paid for by the German people to the utter most farthing and that the officers of high command by whose orders were perpetrated upon the people of Belgium those hideous atrocities which carry the world back to the dark ages be executed as criminals who have unpardonably transgressed all laws both human and Divine. Anything short of this would be less than justice to Belgium, less than justice to those who have suffered and died in the cause which she sacrificed herself to save; less than justice to the Allies themselves, who if they are not on the war to enforce justice, should never have ventured it at all.—Edmonton Bulletin.

The Crops

From the time the first rays of heat from a spring sun is felt to the time of leafless trees and chilly fall winds, we of the west are animating the crop. First it is the acreage ready for sand, then the acreage sown; then as the crop weather of the season makes itself manifest the probable yield per acre and so on. Railway companies, implement companies and financial institutions send their representatives through the country to appraise the value of the crop, this information being spread broadcast and affecting the finances of a nation. We westerners are optimistic. With us a crusher is out of place. Nevertheless the only true crop estimate is that recorded by the threshing machine. As a crop season, the one just past has been a hard one. There was both drouth and frost, an ingenious combination. During July the hopes of the farming community were at their lowest ebb, at that time, to many, the crop seemed ruined, but now the threshing machines are telling a different story. From the rural districts are coming reports that the grain is better than was expected.

THE FORDSON TRACTOR

Is not the creation of a few months but the product of many years of experiment on the part of Henry Ford. The result is a low priced, light and efficient farm tractor. Moreover, before placing this tractor on the market, every detail has been thoroughly tried out under actual working conditions in various parts of this country and abroad.

This tried product is, therefore, placed in your hands with confidence that it will prove to be that long-desired farm implement which will supply power for all reasonable farm purposes, efficiently and at a low cost—and be as applicable to small farms as to large ones.

McLaughlin Hardware Co.

You Should Support the Red Cross

1. Because the duty of the Red Cross is to care for our sick and wounded soldiers. The Society acts as an Auxiliary to the Army Medical Corps, bringing to the wounded soldier, comfort, supplies and special care which he could not have otherwise.

2. Because no Army Medical Service, however efficient, can meet the demands made upon it by the terrible conflicts of modern warfare, and looks for assistance to the Red Cross Society.

3. Because the needs of the Society are increasing great. To-day the Canadian Red Cross is assisting 30,000 wounded requiring help. Last year at this time, only 23,000 wounded required help

4. Because special help is required by sendy hospitals in France. The Canadian Red Cross agreed to handl in 5000 cases of supplies a month to the French Red Cross. This gift has been redu ed to 2500 cases a month, owing to the shortage of supplies.

5. Increased quantities of supplies are required, but the price of raw materials out of which supplies are made, has risen 100%.

6. Because the Canadian Red Cross is solely responsible for the welfare of all Canadian Prisoners of War in Germany. Over $600,000 a year is required for this work alone. These figures are increasing constantly.

7. Because the Canadian Red Cross is called upon to maintain an increased number of Hospitals, Convalescent Homes, Recreation Huts, and Supply Depots, also to continually increase and keep in repair its Transport System.

8. Because the Canadian Red Cross is assisting all Military Hospitals in Canada. This means an increased expenditure, but it means increased comfort for our returned men. Comforts and equipment amounting to many thousands of dollars have been donated by the Alberta Red Cross Hospitals in this Province during the past six months.

9. Because the money is required for the upkeep of our Information Department which cares for the personal welfare and comfort of every wounded Canadian in Hospital, provides visitors for the men, diversions, entertainments, fruit, flowers, home news-papers, parcels of special supplies and keeps relatives advised as to the condition of the wounded.

10. Because the workrooms of the Red Cross is determined by the generosity of the Canadian people.

Spanish 'Flu Regulations

Negotiations of the provincial board of health recently issued constitute "Spanish influenza" or "Epidemic influenza a contagious disease and subject to modified quarantine." A case of said contagious disease of persons residing in any house is established by the affixing of a placard containing the name of the disease in large letters near the entrance to the house

The provincial board of health may by order prohibit the ingress of every person to or egress from any specified area on account of the presence of influenza.

When Spanish influenza or epidemic influenza begins to spread in any locality the medical health officer or the local board of health of the city, town or village or municipal district shall immediately order the closing of all schools, churches, theatres, picture shows, public meetings and all other places within its jurisdiction where the public gather or congregate, and shall also prohibit unnecessary gatherings of all persons in stores, on street corners, or other public places.

The medical health officer or local board of health is made responsible for the disinfection of all premises which have been subject to modified quarantine. A case under modified quarantine must not be released until at least one week after recovery.

All discharges from persons affected by Spanish influenza or epidemic influenza must be promptly and effectually disinfected. All clothes worn or used by a person affected must be thoroughly boiled before being used again. Walls, floors, etc., must be wiped over with a solution of bichloride of mercury of the strength of 1-500, and all books, clothing and other articles which cannot be boiled must be sprinkled with formalde [illegible] and wrapped for eight hours in sheet or blanket, and afterward [illegible] to the air for eight hours.

Members of the provincial board of health may take suspects from [illegible] or impose the wearing of [illegible] on such suspects

Isolating, wearing or exposing [illegible] any public place, railway car, street car, except into a [illegible] or other covering [illegible] carried on person, is [illegible] punishable under the Public Health Act. Handlers, hats or other articles [illegible] must be kept apart from [illegible] articles of clothing, and bedding before being used again.

TREATMENT

Rest in bed, warmth, fresh air, abundant food. Every case with fever should be regarded as serious, and kept in bed at least until defervescence of the fever. Convalescence requires careful management to avoid serious sequels.

"Flu" Continues To Run Riot

Increase In Number of Cases. Two Deaths

Epidemic influenza (Spanish) continues to spread among the people of this town and district. At time of writing a number of fresh cases have been reported making the total somewhere between 65 and 75. Two deaths have occured. On Saturday, Mrs. C. Fry, passed away. She had given birth to a son a few days before, and then contracted pneumonia, which caused her death. This is a very sad case as she leaves a husband and five little ones. The funeral was held on Sunday, Rev. Stuart conducting the ceremony.

Word has come to hand that the young wife of Lieutenant Douglas Howes passed away on Monday. The couple had been united only a short time.

The health board are doing their best to combat the disease. Special praise should be given to the nurses from Edmonton, who are working hard and rendering very valuable assistance. Miss Stuart, the grad-[illegible] nurse who rendered great aid [illegible] last week had to return to Edmonton Sunday, being unwell herself. Mrs. Geo. Bruce very gallantly volunteered to help, and being a nurse, her services are very much in demand. At the present time there are two V. A. D. nurses working under Mrs. Bruce. Unfortunately Dr. Trottier had to leave on Saturday last and since then we have been without a doctor.

From elsewhere in the province, some various reports. Some towns and districts are very hard hit, others are so far quite free.

Of course everything in the way of schools, churches, public meetings, etc. were closed last week

FIRE DEPT.

BUST — Before we had that second car attended it was practically more than 600 bushels. We they are [illegible] hard to order another, which we are expecting any day. [illegible] me price $1.25 per bushel NOT INCLUDING SACKS. There are still about 125 bushels in this next car for sale. If you want yours ORDER QUICK. THIS WILL BE ABSOLUTELY THE LAST.

Gentlemen who still have sacks in return kindly send these back as early as possible. We have about $50.00 worth of sacks not yet returned, and would like them within the next week at the latest. There last two cars of spuds simply [illegible] RAYMOND W. PINCOTT

War Efficiency and National Prosperity

More than a billion and a half dollars distributed in Canada for exported agricultural produce and the products of labor in the fiscal year ending March 31, 1918, has kept Canada busy and prosperous in spite of the war.

CANADA'S production in such enormous quantities was made possible only by the money received through Canada's War Loans. Canada thus was enabled to assist the Allies in their purchases here by establishing financial credits for their use in this country.

CANADA'S war loans not only have sustained Canada's war effort, but they have kept the wheels of production turning as they never turned before.

This is the flood of cash which poured in to Canada's farms for their exports in the fiscal year 1918, for:—

Butter	$ 2,000,000
Cheese	36,602,000
Eggs	2,271,000
Oats	37,644,000
Wheat	366,341,000
Flour	95,696,000
Meats	76,729,000
Vegetables	19,034,000

Over six hundred and thirty-six million dollars for exported farm products alone!

* * *

AND the workers of Canada also shared greatly in Canada's export trade.

For their products there was distributed in Canada, during the year:

Munitions	$450,000,000
Metals	92,083,000
Vehicles	22,776,000
Wood Pulp and Paper	59,999,000

These huge sums were spent in Canada by the Allies.

Canada's own war expenditure for the fiscal year 1918 was $342,762,000.

And the bulk of all these expenditures, the foundation of Canada's prosperity and war effectiveness, was made possible only because the subscribers to Canada's war loans furnished the working capital.

* * *

CANADA must keep this great work going—must produce as never before; must work, fight, save and lend as she has never yet done to bring victory and a lasting peace to a war-ridden world.

But Canada to-day (thanks to her great export trade), is in a better position now than ever, to carry on.

The Victory Loan 1918 will keep Canada busy, will enable her to maintain her great export business; and it will make Canada more efficient than ever, because her prosperity will not be diminished and her determination to work, fight and win will be stronger than it has ever been before.

Cry for Peace Before Crimes are Punished

"Enough!" they cry. Who is it cries "Enough!" They who unleashed these hordes of Hades upon defenceless men, women and children, who murdered, outraged and devastated without mercy and without shame? Have we the right to use such a word as "enough" when they raised death and torture from the skies upon the houses of sleeping women and babes, when they lurked in the deep and mostly with a coward's blow destroyed ships of mercy bearing the tenderest succour to the struggle and to drown in the sea

Enough! Yes, we have all had enough of war, but it is not ours to say that hand of retribution that is falling nearly and relentlessly upon the guilty, at this hour. "Enough" and we will get out of Belgium, we will get out of Serbia, we will get out of Roumania, we will get out of Russia.

Where they can no longer keep up the war they planned for years they will sue for peace. While they have devastated all their stores of hate and wickedness they could not destroy the resources of their enemies in men and munitions. When they can no longer keep up the struggle they will sue for peace to protect their home.

Enough! Yes, we have had enough of war, but it is not ours to say that hand of retribution that is falling nearly and relentlessly upon the guilty, at this hour. "Enough" and we will get out of Belgium, we will get out of Serbia, we will get out of Roumania, we will get out of Russia.

Where they can no longer keep up the war they planned for years they will sue for peace. While they have devastated all their stores of hate and wickedness they could not destroy the resources of their enemies in men and munitions. When they can no longer keep up the struggle they will sue for peace to protect their home.

Canadian Gold for Coinage

Announcement

that shipments of the U. S. will receive coins of styles in spectacles and eyeglass frames, as a matter of fact, the world, one made by the wearer, and the other by the wearer's dentist. With one fourth of the nation's population wearing glasses, it was stated, several million dollars' worth of gold or $5,000,000 used annually in manufacturing, goes into optical products, and a reduction of this consumption will increase the amount of the precious metal available for coinage.

A Happy Inspiration

In a recent examination paper for a boy clerk's post was this question: "If you were appointed to a vacancy for the cabinet should do, who would you be?"

The answer, a boy of fourteen, thought for a time, trying to rake to recall who were next in succession. At last a happy inspiration came to him and he answered, "The undertaker."—Birmingham Telegraph.

HUNS' SYSTEMATIC DESTRUCTION WILL PROVE TO BE A BOOMERANG

BECOME ANXIOUS AT THREATS OF REPRISALS

Germany Seeks to Ruin Industry, Commerce, and Agriculture And Their War Practices Are Being Intensified — Will Soon Be Feeling the Weight of Retribution

Why Denmark is Prosperous!

Mainly Due to Co-operation and Education

Denmark is a little more than one-half the size of Nova Scotia. Although one tenth as much of it as a block would be found suitable for cultivation, yet 75 per cent of its manhood and 60 per cent of its womanhood are engaged in agriculture. In addition, the Danish people are famous for their handicraft, and by the robbery of the province of Schleswig-Holstein by Germany in 1866 it is to-day, Denmark, on the basis of its population, is the wealthiest country in Europe. It is essentially an agricultural country and poverty is scarcely known. Owing to the fertility of its land nearly 80 per cent of the exports of Denmark are of animal products.

The prosperity of Denmark is largely due to two causes—co-operation and co-operation. There are to-day nearly 1,800 co-operative agricultural societies in Denmark, and also as well as paying people attend them—the farmer for the week or month, and the labourer for the purpose of studying social and kindred subjects. Many of them appear as either owners all the year round. Many of the children of the high school and agricultural colleges complete courses in the University of Copenhagen. There they learn all that is known of the principles of modern business and to regard agriculture not as a matter of mere production, but as a system of distribution.

Agricultural co-operation began in Denmark in 1866, and in 1882 the first co-operative creamery was established. To-day practically all the milk in Denmark is handled by the hundreds of the co-operative creameries. Of the total of cow-testing associations in the country, 1,200 are co-operative. The dairy associations of Denmark have a membership of 150,000 persons, and they have developed the pork and bacon industries respectively. splendid fashion.

Coincident with the growth of co-operative marketing there has developed co-operative wholesale trading among such commodities as agricultural implements, and, in fact, every necessity for the operation and upkeep of the farm. In 1908 the central wholesale agency transacted a business valued at $17,000,000.

Swedish Government Supplies Shipping

Food Must Be Sent to Belgium and France

The world is not to forget how the Germans starved Belgium and France, who have to be fed and clothed by the slave agents of Germany, and we call homeless in the rest of the world. Germany, it is true, has not allowed the question of food to be raised by the Hun, but she has never been away from the topic for a moment. Germany, secured by arrangements with the Swedish government, is now in non-war zones, have been divided among the carrying of foodstuffs and clothing which is now being shipped in large quantities. All this transpires but not unnoticed by the people.

At first, the ever with no nearby countries, through the Germans, and are fed mainly by the Germans.

A Salvage Problem

The following letter was written by the wife of a man fighting gallantly in a number of the fighting forces, an official organization for providing for soldiers:

"Dear Sir: I called at your office last week, when I was told that you wanted to ask me about little Tommy, which was not at all in my mind—do I still have to keep up the payments, as I have not had the use of the piano since Tommy went away? Perhaps you could tell me what they have done with it. Other arrangements have also been overlooked in connection with it. Please let me know as soon as possible, and you would oblige me by early attention. Yours respectfully,

Piano Carries Piano

One of the new allied bombing planes, which refer to as "flying boats," carrying capacity has brought from London to Paris a full sized upright piano. The machine landed in Paris safely after its flight across the English Channel.

The airplane is capable of carrying six persons and much bombing explosives. When the weight is mentioned in pounds, however, it is not usually comprehended, and it was determined to bring over a piano as other evidence of the marvelous capacity.

Typewriters in Japan

The imports of typewriters and their parts into Japan during the war have increased from a value of $23,877 for 1913 to $126,796 for 1917, and practically all were imported from the United States. Consul Robert Frazer of Kobe reports that Japan is enjoying an enormous expansion of foreign trade, and the necessity of using typewriters in their foreign correspondence has become apparent to most of the Japanese trading firms.

Better be not at all than not be honest.

A startling picture of destruction is drawn by an official "Age-ostmen," who has visited the neighborhood of Lens since the Germans withdrew from that city. Railways and tramways are torn up and are converted into huge piles at twisted rails. Mayor Bouly of Lens says that the city has been utterly levelled. The Germans blew up entire sections of the town to smash their street system. The population of 30,000 people is entirely gone and the city is dead. Water has the gutteress of the coal mines, which used to turn out 3,000,000 tons of coal.

A national committee on war damage has come up the devastation: Report the reprehension of the world, the Germans war practices are indefensible and inexcusable and intensified. These colossal proceedings have been organized and executed with a deliberation and method above all the rules of agriculture, economy and commerce in this country.

Reports show that timbers and machinery have been destroyed by

Premier Clemenceau has written a letter to the Germans in which he practises in a letter to Deputy Maurice Barrès, of the Matin's journal, he says:

"International conventions which maintained in armed conquered countries are the law. Everybody knows cynically sweet aside which the enemy when he thought himself strongest and with hypocritical cries of "Long live humanity!" declared, German rage attacks and human horror. The Germans are blight on our cities, our dwellings, our fields of monuments, our art and history, and even upon the trees of their land. The dying of Lille, where a German airplane bombarded the principal hospital, with 300 persons and wounding 60, massacred again the enemy's rage and impotence.

"Taken by the threat and drove backward, he still seeks to wreak his hate upon the country from which soldiers drive him from the land. But the blood, ruin and incredible which he is leaving behind will have retribution, of which he will soon feel the weight."

The demand for something more than mere condemnation of Germany is becoming interested in the Allied countries. Many are calling the crimes of Germany, and urging retribution unless more than Paul Spencer Sharrow, who declares that a condition precedent for the cessation of hostilities should be the occupation by the allies of Metz, Strassburg, Mainz, Trieste and Pola.

Viscount Mollet, former secretary of state for India, asks that the Indian Ocean be a freedom that peace shall not be made until retribution has exacted from German towns for its outrages in France. The Times describes the recent policy of burning and destroying towns on retirement as "fiendish" and mean behavior," and says that German towns are hostages. Frankfort must be marked down for ransom in reparation for French and Belgian towns wantonly destroyed.

Germany is being warned that the German manners in consequence of many themes of conversation in the destruction of towns in France are already being carried out in Germany. The official Gold Bureau, which was burning at the rear of the German armies, is now customary.

Pineapples and War

Great Growth of Crop in Hawaiian Islands Lately

The pineapple growers and packers of the Hawaiian Islands are doing their part in producing food to help win the war. The 1918 crop is estimated at about 3,000,000 cases valued at about $10,000,000. The canneries are now working almost night and day to get this large pack into cans in perfect condition.

The rapid growth of this industry is shown by what the Hawaiian Pineapple Packers' Association, the four months packing now equals the total packed the first year the association was operated. Every morning a vessel leaves Honolulu for the Coast loaded for cases are then transported by packing of the entire pineapple crop. Practically the entire pineapple crop is packed in the form of sliced pineapple and the by-products, pineapple juice and pineapple syrup, are also important items of their operations.

The pack is now running at the rate of about 2,000 cases per hour, and on a busy morning, during eight hours, packed 20,125 cases, or 335,000 cans, which they believe is a record output in any block of a cannery. Pineapple growers, they state, have been running about 350 pineapples per minute. Other canneries in the islands have also shown enormous increase in production.

Use the left over meal.

Even the smallest portions can be made into appetizing dishes when combined with a small quantity of

BOVRIL

A Terrible Train

Hundreds of Repairers Sent Daily Back to France

"Every morning and every evening, from early evening, from early morning, a train crosses the German frontier and enters the station at Bâle, which is on the right side of the Rhine. It contains from six to seven hundred repairers, bringing ill women and children, that was assigned to the occupied parts of France. As the train hourly arrives a remember they are short of grease in Germany into the station, he complains legal cheating, sleeping, and wearing their manufactured. It is very cheap and never a success very unexpectedly from all parts of the land and the wretches are withdrawn rather sad daily," says a writer in the Journal des Débats, describing opinion in Switzerland.

"The train does not arrive empty, the old and feeble are sent back to Germany with the repairers. A second, because two or three days in an unclean third class carriage without proper attention, is not good for invalids. The train is always full and bathed in a Red Cross rolling stock and hundred repairers, because the former everybody is made ready, and the post on the for a few hours' rest, and everybody is fed and looked after by the Swiss ladies of pottering about before get ing into a compartment in the French train, for France.

"The repairers are looked after while in Bale by local, therefore German-Swiss. Many of them are women there are ship to each train, carrying cups of tea and food. Those women are not quite silently sorrowful. Many of them, of course, have been taught them to express their feelings.

Just think! You can buy all any corn or callus with pain or sore-ness.

A Cincinnati man discovered this other common-sense method. It's the new drug discovery. Everybody is using it. You put on but one drop for a few hours' rest, and everybody is fed and looked after by the Swiss ladies of pottering about before get ing into a compartment in the French train, for France.

"The repairers are looked after while in Bale by local, therefore German-Swiss. Many of them are women there are ship to each train, carrying cups of tea and food. Those women are not quite silently sorrowful. Many of them, of course, have been taught them to express their feelings.

Allenru's Liniment Cures Distemper.

Raids Made on Rhine Towns

All the Way From Cologne to Bodan Successful Attacks Have Been Made

British seamen during the past three months have wrought heavy damage to military objectives in eastern Germany and enforced withdrawal of several enemy air squadrons from the battlefront in a vain endeavour to protect the raided territory, the British Bureau of Information announced in a review of the activities of the British independent air forces.

A 250-mile belt of the Rhine Valley, in which are located the principal German war factories, and railway systems vital to maintenance of the Teuton line in France, has been brought definitely into the war zone, the statement says. Essen, the great independent air force have raided over 100 times, dropping more than 50 tons of bombs on strategic points. Other important centres of munitions manufacture, railway junctions, docks, warehouses and trains, it was stated the attacks have had a widespread moral effect, demoralizing the people in the rear of the battle front. Factory workers on this side of the water were thrown into a panic when the first bombs fell from the clouds, it was declared, and the work of production suffered. Hundreds of German guns with extra

EASIEST CORN REMEDY, PAINLESS—NEVER FAILS

Just drop a bit of Freezone relief the minute you put a few drops of Freezone on a tender, aching corn, then shortly picked up and carried off by the fingers. Wonderful; you forget it's there. Not a twinge, not a pain, not even a sore spot remains. Freezone is a marvel. It dries in just a quarter to any drug store. Why suffer another something not so good as Putnam's?

The British Museum

Has Again Opened Its Gates To Visitors

That the war and every expense pertaining to it is very dear to the heart of the British Museum, has, since the beginning of hostilities, been proved by its every endeavour to support the first to enlist soldiers who entered under the guidance of an official in the M.A.S. It is not because it is particularly interested in the war, as we all know, while on leave, that the curators are all of them ardent students of military matters, and are therefore to take an active part in the war, but because it is well known that extraordinary treasures are in charge of the British Museum authorities, and they are naturally anxious to preserve them from the risk of destruction by enemy aircraft. Hence the evacuation of the museum to places of safety.

Now that the war is over, however, the museum is again open to the public, and the treasures which were stored away deep down in the cellars, and other galleries, have been brought to the surface and are accessible to all who wish to see them. Among the most interesting of these are the Elgin marbles, which have been removed from the Parthenon, and which are now in the British Museum, and which are now in the British Museum, and which are now in the British Museum

Lost.—On the west 1/2-7-49-18, a white red cow, white up on tail, has horns. Branded F B with [illegible] right shoulder. Strayed on the above place about Oct. 1st, 1918. John B. Stauffer, finder. P. P. Kjenness, brand reader, Riley, Alta.

Canvassers have been appointed for this district to sell Victory Bonds. No doubt owing to the prevalence of "flu" the work has met the enthusiasm behind it as before. This makes it all the more important that those able should buy a bonds to the limit. One old says "every bond a bomb to a hun boy" but another equally as good says "every bond a shell shell cut" That's shot out when the canvassers call.

Ford Car For Sale, almost new. Apply A. A. Zoob, Tofield, Alta Phone 1 F?

Earl Davidson arrived home from Washington on Friday.

VICTORIA, B. C., Oct. 27 — Preceded by mountainous waves and driven before a wind of terrific severity, the Canadian Pacific steamship Princess Sophia slid from the comparative safety of Vancouver reef, on Lynn Canal, on the way between Skagway and Juneau, early Friday evening and carried 343 persons, passengers and crew men, women and children, to their deaths in the raging northern waters. There were no survivors from the ship.

The Sophia left Skagway Wednesday evening last for Vancouver with a passenger list made up of Dawson people and Alaskans from interior points, eager to get "out side" for the winter. Four hours out she ran into a blinding snow storm, in which it is supposed she gave out of her course slightly and piled up on the reef, where she rested for more than forty hours in what was thought to be a position of no danger. Lighthouse tenders and gun boats responded to the wireless call for assistance, and the Princess Alice was dispatched from Vancouver to take over the passengers. Even though the seas were running too high to permit the transference of the passengers on Friday no alarm was felt. Cap.

OFFICIAL PROSPECTUS

The proceeds of this Loan will be used for War purposes only, and will be spent wholly in Canada

THE MINISTER OF FINANCE OF THE DOMINION OF CANADA offers for Public Subscription the

Victory Loan 1918

$300,000,000. 5½% Gold Bonds

Bearing interest from November 1st, 1918, and offered in two maturities, the choice of which is optional with the Subscriber:
5 year Bonds due November 1st, 1923
15 year Bonds due November 1st, 1933

Principal payable without charge at the Office of the Minister of Finance and Receiver General at Ottawa, or at the Office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria.

Bonds may be registered as to principal or as to principal and interest, at one of the above-mentioned offices.

Interest payable, without charge, half yearly, May 1st and November 1st, at any branch in Canada of any Chartered Bank.

Principal and interest payable in Gold
Denominations: $50, $100, $500 and $1,000

Issue Price: 100 and Accrued Interest
Income Return 5½% per Annum

Free from taxes—including any income tax—imposed by provisions of legislation enacted by the Parliament of Canada.

The proceeds of the Loan will be used for war purposes only, including the purchase of grain, foodstuffs, munitions and other supplies, and will be spent wholly in Canada.

Payment to be made as follows:
10% on application;
20% December 6th, 1918;
20% February 5th, 1919;
20% March 5th, 1919;
20% April 4th, 1919;
10% May 5th, 1919.

The last payment of 20% carries 30% interest of principal and 1.48% representing accrued interest at 5½% from November 1st to due dates of the respective instalments.

A full half year's interest will be paid on May 1st, 1919, making the cost of the bonds 100 and interest.

Subscriptions may be paid in full at the time of application or 100 without interest, or on any instalment due date thereafter, with interest accrued thereon to date of making payment in full.

The Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge upon the Consolidated Revenue Fund.

The Amount of this issue is $300,000,000, exclusive of the amount (if any) paid for by the surrender of bonds of previous issues. The Minister of Finance, however, reserves the right to allot the whole or any part of the amount subscribed in excess of $300,000,000.

Conversion Privilege

Bonds of this issue will, in the event of future issues of the required, be issued by the Government, during the remaining period of the War, where their terms made allowed, be computed on 5½ and forward interest, on the equivalent of such for the purpose of subscription to such issues.

Payments

All cheques, drafts, etc., covering subscriptions, are to be made payable to the Credit of the Minister of Finance. Subscriptions may be entrusted to any Chartered Bank for payment on the dates mentioned in the Prospectus, and the Bank's Subscription Receipt will be accepted by the Government as the equivalent of cash. Subscriptions may also be paid at any Branch in Canada of any Chartered Bank, or at any Agency of the Assistant Receiver General.

Subscriptions may be paid in full at time of application or 10% required thereon, or any instalment due thereafter. When making payment in full, or any instalment thereof, accrued interest to date of making payment in full. Under this provision, purchase of subscription may be made as follows:

If paid in full on or before May 30th, 1919, par without interest, or 100%.
If instalments paid on Jan. 6th, 1919, balance of 99% and interest, 100.48 on $400.)
If instalments paid on Jan. 6th, 1919, balance of 99% and interest, 100.48 on $400.)
If instalments paid on Feb. 5th, 1919, balance of 99% and interest, 100.48 on $400.)
If instalments paid on Mar. 5th, 1919, balance of 99% and interest, 100.48 on $400.)
If instalments paid on Mar. 5th, 1919, balance of 99% and interest, $99.48 per $400.)

Denomination and Registration

Bearer bonds, with coupons, will be issued in denominations of $50, $100, $500, and $1,000, and may be registered as to principal. The fully registered bonds will be issued bonds will be due on May 1st, 1919.

Fully registered bonds, the interest on which is paid direct to the owner by Government cheque, will be issued in denominations of $50, $100, $500, $1,000, $5,000, $10,000, $50,000, $100,000, or any multiple of $100,000.

Payment of Interest

A full half year's interest at the rate of 5½% per annum will be paid May 1st, 1919.

Form of Bond and Delivery

Subscribers must indicate on their application the form of bond and the denominations required, and the securities so indicated will be delivered by the bank upon payment of the subscription in full.

Bonds of any issue will be exchanged for definitive bonds, at the risk of applicants for subscription thereto, if tendered prepared by the Government, and delivered to the Bank of Canada, or to the Minister of Finance, Ottawa, when subscription and interest, will be delivered by the subscription making payment in full, as soon as the required registration can be made.

Payment of all instalments must be made at the bank originally named by the subscriber.

Non-negotiable receipts will be furnished to all subscribers who desire to pay by instalments. These receipts will be exchangeable at subscriber's bank for bonds on any instalment date when subscription is paid in full.

Form of Bonds Interchangeable

Subject to the payment of 25 cents for each new bond issued, holders of fully registered bonds without coupons, will have the right to exchange the same for bearer bonds with coupons attached, and holders of bearer bonds will have the right to convert fully registered bonds without coupons, at any time, on application to the Minister of Finance or to the Assistant Receiver General.

Forms of application may be obtained from any Official Canvasser, from any Victory Loan Committee or member thereof, or from any branch in Canada of any Chartered Bank.

Subscription Lists will close on or before November 16th, 1918

Epidemic Influenza Runs Riot In Tofield and District

Large Number of Cases. Eight Deaths. Four Miners Die

The recent epidemic of influenza, is without doubt the worst epidemic that has visited this district. Commencing about October 15th the number of cases rapidly increased until about November 15th, when a marked falling off in the number of new cases reported could by observed.

Just how many cases there were throughout the town and district cannot be definitely stated, but we do not believe 200 would be too high a figure. The number of deaths due to the epidemic was eight, four of these being miners at work at the mines.

Those who died were:—

Oct. 26, Edna Irene Fry, age 2m.

Nov. 5, Edwin Owen Fry, age 12 days.

Oct. 28, Mrs. Ethel Hoare, age 21.

Nov. 8, John Procop, age 37.

Nov. 17, Etienne Vera, age 35.

Nov. 19, Stefan Rodulovich, age 58.

Nov. 12, Afonosiy Lowrishin, age 34.

Nov. 14, Wm. Pruden, age 24.

As soon as the epidemic assumed serious proportions the local board of health got into touch with provincial authorities and procured the services of several nurses. Great credit is due to the nurses who worked very hard helping those who were unfortunate enough to contract the disease. We regret to report that one of the first nurses to arrive here, Miss Stewart, was taken ill with the flu, and after some time at Edmonton succumbed to pneumonia. Those who became acquainted with nurse Stewart during her brief stay here, will be exceedingly sorry to hear of her untimely demise. In addition to nurses from Edmonton, local ladies did what they could to help in the crisis. When for a short time we were without a trained nurse, Mrs. Geo. Bruce, volunteered and assumed the responsibilities of the position.

Special mention should be made of the relief committee. This committee under Rev. Simpson, supplied the patients with food and delicacies, which were very much appreciated.

At time of writing the full force of the epidemic seemed to have passed. Only two cases have been reported for some time.

The provincial regulations, re the holding of public meetings, etc., will be lifted at midnight on Saturday. On Sunday there will be a union Thanksgiving service held at the Variety Theatre, and this will mark the opening of meetings etc., again. On Monday the school will re-open.

Born.—On Oct. 14, to Mr. and Mrs. David Wesley Jacobs, a daughter.

Born.—On Nov. 13th to Mr. and Mrs. Herbert Rial Harriman, a daughter.

Born.—To Mr. and Mrs. Dr. Bactus of Montreal on October 25, a son.

Armistice Declared. Cessation of Hostilities Celebrated Here

Cream of German Navy Turned Over to Allies. Victory Glorious and Complete

On November 11th the world was greeted with the news that an armistice had been signed and that hostilities on the great war had ceased. All over the world rejoicing took place and celebrations held. At Tofield, the day was not allowed to pass without some outward sign of the joy that prevailed. Flags were flown from practically all of the business places and a great many residences. The day was proclaimed a civic holiday, and in the afternoon quite a pretentious automobile parade was held. Quite a number of autos were in line, all decorated with flags. After the parade a public gathering was held on main street where patriotic addresses were given by Mr. J. Rogers, Mr. W. C. Smith, Rev. Simpson and R.W. Pincott

In the evening a large bon fire was lighted and the spirit of the crowd was evident by the prolonged ringing of the fire bell.

LONDON, Nov. 21. — Nine German battleships, five battle cruisers, seven light cruisers, and fifty destroyers, representing the main portion of Germany's navy, surrendered to the British today.

The surrender was made at 9.30 o'clock in the morning, when they were taken over by the commander-in-chief of the Grand Fleet, Admiral Beatty, and escorted into British waters by British and American warships. The fleet which witnessed the surrender consisted of 400 ships, including 60 dreadnoughts, 50 light cruisers, and nearly 200 destroyers.

When on its way to surrender a German destroyer struck a mine in the North Sea.

The Edmonton—Calgary tram will resume daily service on Nov. 28th. Owing to the Flu epidemic this train was changed from a daily to a tri-weekly.

School will re open on Monday morning.

We are pleased to see another one of the Tofield soldiers home after active service across the water. Pte Art Hosier arriving home during last week. Art has been gone for about two years and has been working at the base in France.

On November 16th, the interment took place at Tofield cemetery of Jane Isabelle Bennett. Death occured at Veteran, Alberta, the body being brought to Tofield. Miss Bennett was one of the unfortunate influenza victims, and was a sister of Mrs. Budd of this place.

IMPROVED FARM FOR SALE NEAR DODDS, ALBERTA

(Formerly owned by John J. Anderson)

S E ¼ Sec. 16, Tp. 49, Rge 18, W. 4 th Mer., containing 160 acres all arable land 1½ miles from Dodds Post Office and C. N. R. Depot, 2 miles from schoo'. Soil is black loam. 90 acres in crop and 30 in summer fallow. There is a frame house 16x20 frame granary 10x28, and frame stable 16x24.

Tenders for the purchase of the above farm property will be received up to 12 o'clock noon on Monday, 2 nd December, 1918. State clearly to tender your price and terms of payment. The highest or any tender not necessarily accepted.

Address tenders to
NATIONAL TRUST CO. LTD.
1007 2 Jasper Ave.,
Edmonton Alberta.

Monday next, December 2nd, is municipal nomination day, when a mayor, three councillors, and two school trustees will be nominated. Just how many more will be nominated cannot be said, or whether keen competition for the offices will be shown. During late years interest in municipal elections all over the province have decreased, in all but the largest of cities.

A union Thanksgiving service of the local churches will be held in Variety Theatre next Sunday at 2.30 p.m. As the Federal Government has set apart Sunday as a day of Special Thanksgiving to the Almighty for the glorious victory of the Allies, it is expected that all Canadians will fittingly observe the day. With the lifting of the Flu Ban in Tofield, it is hoped that the meeting Sunday evening will be largely attended. A union choir will lead the praise and render special music.

Owing to the editor and part of the staff going down with the "flu" there has been no Mercury published since October 30th. We regret that this had to be, but help was unprocurable and the "Flu" is now respected of persons.

FOR SALE—Two Toulouse Geese; Bronze Turkeys; Barred Plymouth Rocks; White Wyandotte; Buff Orpington; Eggs from choice hens. A few pullets for sale. Prices right. Apply Mrs. J. W. Cochrane, phone 105.

Tenders will be received for delivery of coal for use in the months by the Tofield School District No 1039 up to Tuesday, December 3rd, 8 o'clock p.m. Tenders to state price delivered at mine and at school. W. J. H. McCauley, Sec., Treas.

PURE DOPE

Well the Mercury is liable to fall into it once a year, but it never fails. Just sometime. We have learned something more than generally get sick. Well we'll pass up this time.

It is any of our friends in the Merchants Casualty Co., have been sick with the "flu" and have not already notified my place she is. The Company is paying hundreds of dollars a week, and will be glad to pay you.

If anyone interested in CORN I am getting grades and expecting to have samples of same soon. The idea being to get in a car of it everything looks favorable. Our friends, ain't it great to get feathers on the chickens? Have you gentlemen contemplating going up R.E. this year, what about your orders for seed? Please let me know what you will want. I can get most kinds of seed if not all of it.

AND WE ALSO PASS THE WORD ALONG that all being fine and nothing being known as the worst said, me and Mr. Scott Carter will pull over WHITE & BLACK and Tell hands sale, next Tuesday before Christmas. Watch for more definite information. In the mean please SUBSCRIBE TO YOUR LOCAL PAPER. How can I get at you or you at me unless we both take it. I can tell lots of stories where even a dollar would look like great deal but it's subscription is one dollar alone though not having the local paper. I can make the price of new subscription of the rest of us, that newspapers in our end can be careful reading, and more boosting the price on the home paper, and I am sure you can do the same.

Yours truly
RAYMOND W. PINCOTT.

Victory Loan Complete Success In This District

In Spite of Serious Obstacles, Tofield, Ryley and Holden Goes Over the Top

The Tofield District, as applied to the VICTORY Loan Campaign can be well satisfied with the result of their efforts to swell the national exchequer. Although faced with a formidable obstacle in the shape of the Spanish Influenza epidemic, the amount apportioned the different units of Tofield, Ryley and Holden were handsomely surpassed in each case. The amount asked for from the district was $30,000, made up as follows: Tofield, $21,000, Ryley, $10,000, and Holden $10,000. The actual amount subscribed was $82,000, made up as follows, Tofield, $39,900; Ryley, $13,700; Holden, $28,900.

R. L. Gibson of Edmonton was organizer for the district, while, Mayor W. C. Smith was chairman and A. J. H. McCauley secretary of the executive committee. Toronto reports are as follows:

Unit No. 1

P B Anderson, Tofield; L Anderson, Ryley; J D Hannan, Tofield; J M Ryan, Dweller; R W Pincott, Tofield; H G Primrose, Hay Lakes; W C Swift, Tofield; H E Williams, Tofield.

Unit No. 2

F W Boyles, M H Dahl, M R Gordon, C Heverstein, W Hennyball, J M Lane, D Frystak, all of Ryley.

Unit No. 3

H J Armitage, A G Bevans, R Bond, S J Farrell, W J Fleming, C E Hoagland, S J Longson, H M McAfee, J Melin, M Peterson all of Holden

Mrs Miller, of Cooking Lake, is visiting with Mr and Mrs Carter during the winter months

Frank Mahaffey got one of the surprises of his life on Tuesday evening. Mr Sanders was having some repairs done on his cellar and the cellar door which is situated at the rear of the store was open. Frank was making a B line for the telephone when he stepped through and landed in the regions beneath. Fortunately he was not seriously hurt, although receiving a good shaking up

Miss Belle Campbell, formerly a resident of the Tofield district died at Edmonton from influenza, recently. The body was brought to Tofield and buried in the family plot at Tofield public cemetery, on Nov. 3rd

I desire to thank the many friends, who during my recent illness, showed much kindness and gave practical assistance.

D. F. Black

The Municipal Hospital

By our Ryley Correspondent

The municipal Hospital Act provides reasonable means for erection and upkeep of medical hospitals throughout the country and times [illegible] the impress upon us the importance of sufficient hospital accomodations and the value of having them within reasonable distance from home.

So far few moves have been made to make use of the Act while it should be made use of wherever there is an opportunity to do so.

One of the necessary qualifications of a fitting location for a hospital is Railway accomodation. East of Edmonton on the G. T. P. as far as the people of the district [illegible] seemed there are only two such places available namely, Tofield and Ryley. The latter undoubtedly has the better Railway service and should have better service as [illegible] the roads become older and the country more settled. Possibly on account of the proximity of the Beaver Hills a region scantily settled that Ryley also has the large agricultural district surrounding it and that in this case means greater population. It seems that this position of the two Railways should be an ideal place for a hospital especially being situated about half way between Camrose and Vegreville both of which have hospitals while neither of them are within convenient reach of the people of this district.

Why not the municipalities of the surrounding Districts co-operate and organize with the aim of establishing such an institution. It is badly needed and the sooner done the better.

Halibut Fishing

In those days when the demand for fish and more fish, some details of the Halibut catch for one month in the waters about Prince Rupert B. C. will be interesting. The Halibut fishing industry of the North Pacific dates back for a score or more of years, but its immense development dates back to the birth of Prince Rupert and the construction of the Grand Trunk Pacific Railroad, which afforded a port close to the fishing grounds and a direct railway line for the fast transport of the immensely valuable product, to the large markets in the East, both in Canada and United States. The report for the month of Sept. shows that in all a fleet of between 80 and 100 vessels are accepted in Halibut fishing in these waters, and during the month 128 fishing vessels arrived at Prince Rupert, [illegible] to catch [illegible] 200 lbs of Halibut. The vessels in the fishing business, operate [illegible] Port, make from one to three trips a month and when it is considered they get from 8 to 15 cents per pound for their catch, according to quality, the responsibilities [illegible] industry to the country may be readily estimated.

Estray.—On the west ¼-27-19-4, on 4 one red cow, white [illegible] on tail, has horns. Branded F B with bar above on right shoulder. Strayed on the above place about Oct. 1st, 1918. John B. Stauffer, finder. F. P. Ingram, brand reader, Ryley, Alta.

NOTICE
Military Service Act, 1917.

EMPLOYMENT OF MEN IN DEFAULT UNDER THE MILITARY SERVICE ACT.

The following Regulations, recently approved by the Governor General in Council, impose strict obligations upon every employer TO ASSURE HIMSELF THAT EACH OF HIS EMPLOYEES OF MILITARY AGE AND DESCRIPTION IS IN POSSESSION OF DOCUMENTS PROVING THAT HE IS NOT IN ANY WAY IN DEFAULT UNDER THE MILITARY SERVICE ACT.

An employer who is charged with having a defaulter in his employ must be able to prove THAT THE MILITARY SERVICE PAPERS ISSUED BY THE REGISTRAR OR MILITARY AUTHORITIES TO THE EMPLOYEE IN QUESTION WERE PRODUCED FOR HIS INSPECTION AT the time when the employer was taken into his employment, and that it was reasonably established to his satisfaction that the man was not in default under the Military Service Act. It should be clearly understood that the Canadian Registration Certificates given on June 22, 1918, at the time of general registration, in no way define the status of a man under the Military Service Act.

REGULATIONS.

180. Every person who [illegible] or requirements [illegible]

Many of the brave women who attend our wounded heroes at this war are women who have used Doctor Pierce's Favorite Prescription, or who recommend it. The hospital, with its work and long hours, imposes extreme hardship on a woman's strength. Every woman should make herself the well girl at home or abroad. She should obtain a book called the "Medical Adviser" either at her nearest drug store or by sending 21 one-cent stamps to Dr. Pierce, Buffalo, N. Y., for the book which tells about Nursing, Backaching, Anatomy, Physiology, Marriage.

Thousands of women in Canada have never seen the sufferings, and have been cured of women's ills, by Dr. Pierce's Favorite Prescription sold by druggists or by mail or tablets. Send Dr. V. M. Pierce, Buffalo, N. Y., 10c for trial pkg.

When We Get to It—Rin

Will Not Be the First Time In History

When the allies do get to Berlin if the Germans, wiser in their generation than heretofore, do not repeat the blunder of the second—then will be the best time in history that British soldiers have ever witnessed since the march of the abolitionists that capital. For it is recorded that the hall, or thereabouts, a little Anglo-Scottish host of some 5,000 men—sent by James I., under Andrew Leroy, to the assistance of the king's son in law, the "Winter King" of Bohemia—encamped for some time on march thither on the Temple of Common outside the city I where the London reviews are now held), though contrary to popular expectation, being more nobly conserved than the Germans they made no attempt to sack the city, but remained their camp after due refreshment and refitting. On the other hand, if and when the allies enter Berlin, they will be there by the status of the first soldiers to be approved Scots.

Marshal Ketth, who was the last of the genuine old species, and the eighth of the native "Gordons" at the head, perhaps, of the British army, [illegible] marching past him to the tune of "I have gone into them, and the pockets" old field marshal—who fell in saving from annihilation the Prussian army of Frederick, at Hochkirch—will be remembered by return their last mission of his head into the statue of the [illegible] considered governor in "Dear [illegible]

Deserters in Turkey

Roving Bands Constitute Serious Problem in Empire, Says Dr. Barnes

Bands of deserters from the Turkish army constitute a serious problem in Turkey, which the allied governments must deal effectually, according to Dr. James L. Barnes, [illegible] secretary of the American board of commissioners for foreign missions, who returned to the United States [illegible] carrier left in the Near East.

"Deserters from the armies of Turkey flee in the fact that for three years the people of many parts have been military, with only a small nature of a small organization," [illegible] Barnes stated. "Before the military [illegible] collapsed, the country will be left without adequate machine [illegible] protection from internal trouble. There is no danger from uprisings of the people as of late [illegible] there but there is a real peril [illegible] from these bands of [illegible] [illegible] Bandits [illegible] [illegible] Armenians and [illegible] [illegible] [illegible]

LOCAL AND GENERAL

Among the local exhibitors at the Edmonton Poultry Show this week are E. M. Hardie, G. S. Gaughen and Mrs. J. W. Cooke.

Mrs. J. W. Cooke left last week for Detroit, Mich. She will go to Seattle and Portland.

Mrs. G. Shaw and family left for Calgary on Monday where they will reside in the future.

Your eyes are the most sensitive, delicate, and most overworked, yet were given the most special. It is known you to take good care of them. M. Mecklenburg, optician, will be at Tofield on December 10th. If you are troubled with headaches, move in the eyeballs, dizziness, watering of eyes, come in and see us.

Cup Still Reposes at Ryley

(Ryley Times)

Since last issue of this great sporting sheet, the local baseball team added a brace of victories to their string, making it eleven straight. The Tofield tribe were the unfortunates on both occasions. But though Tofield have lost in five attempts to stop the mad pace, as have several other teams to date they are the team that have forced the locals to scratch gravel on their own lot.

Last Friday's fracas was a McCallum cup feature. The cup still reposes in Ryley, the locals winning by a narrow margin. The game was called in on account of darkness.

Score by innings:

Ryley	100	031	1	6
Tofield	100	013	0	5

Tuesday's evening game, the play-off for the $60.00 purse offered by the Ryley Athletic Association, proved the snappiest and fastest exhibition staged here this season. The first five innings were a pretty pitchers duel, with homers breaking about even. In the sixth the locals cracked out three singles and loaded the bases, but the stellar work of Tofield's infield cut off the one opportunity to score. In the eighth, however, the locals again garnered a single of hits, three singles, a sacrifice and a two-bagger, driving in the three counters.

Score by innings:

Ryley	000	000	03x	3
Tofield	000	000	000	0

Summary—Hits: Ryley 5, Tofield 1. Errors: Ryley 2, Tofield 5. Struck out by Oslund, 14; by Lee, 10. Sacrifice hits: Ryley 2. Walked by Oslund, 1; by Lee, 1. Hit by pitched ball: Ryley, 1; Tofield 1. Umpire: F. Modin.

What Board to be Abandoned

Calgary, Alta., Aug. 14.—Premiers Greenfield and Dunning last night decided to abandon wheat board this year, and so informed the federal government. This action was taken after the decision of John I McFarland and James E. Murray not to accept the position of chairman and vice chairman of the board.

"After endeavouring for more than two weeks to secure suitable men, we have concluded that we can go no further and have therefore warned the federal government to that effect," are the vital and convincing words in the statement issued by the two premiers.

The Department of Agriculture is continuing its investigation of the hay situation in the northern districts. No hay buyers have as yet been sent out, they will be furnished with a letter in which their authority will be stated. No buyers at present in the field have any authority from the government.

The public are interested in all phases of advertising, and it is well, therefore, to call attention to a point which is often discussed in connection with it. Does it add to the cost of goods. We will reply to this by stating the opinion given recently by Sir Charles Hingham, a British member of Parliament, at a meeting of the Birmingham Chamber of Commerce. He said that advertising was no longer an expense, because it increases sales, reduced overhead expenses, and therefore added nothing to the cost of the article. He knew one firm that spent £20,000, a day in advertising, and today they sold a product to the public at a much lower price than before they commenced to advertise. Mr. Charles pointed out that newspaper advertising paid now as it has never done before; it was the greatest force in the world for selling goods.

Will the party that took the cable belonging to W. Bowick from the bank property near the bank, please return same as it is needed immediately.

H. HICKS.

Local and General

Mrs. E. Strand of Chipman, visited in Tofield last week.

Born—On August 8th, to Mr and Mrs. Klaus Ferguson, a son, Albert George.

Miss Mabel Wood visited with Miss Leona Johnson of Ryley for a few days last week.

Miss Mildred Carter spent a two weeks vacation with her parents returning to Edmonton last week to resume her duties.

Mrs. M. L. Sharpe and Mrs. F. A. Lewis are in Edmonton visiting Mrs. Allen Lewis who is a patient at the General Hospital.

Those of our readers who are following the serial story in our ready print section, can have a copy of last week's issue upon application at the office.

Do not neglect your eyes. See M. Mackinlaug at the Royal Alexandria Hotel on September 4th.

Jim Reynolds will now assist H. Barden in the Blacksmith shop, and also learn the acetylene and welding end of the business.

Mr & Mrs. R. J. McKerrell and Margery returned from Vancouver on Monday morning and report a very enjoyable time.

The circus trains on Sunday aroused a great deal of excitement in town. Bud Beaman is now the possessor of a circus dog.

Mrs. T. W. Taylor was taken to the hospital at Edmonton on Friday. We are glad to hear that she is improving and will return home soon.

The Picture show on Saturday Fair Day) will start at 7.30 instead of 8.30 as complete shows should soon close the Picture Friday Night. "Watch for hand bills."

The big circus appearing Edmonton on Monday was much of a disappointment to the Edmonton Bulletin. A large number from here journed to the city by train others, despite the rumors of trouble to auto.

The first full week in September (with Labor Day in between) will be "Paramount Week" at the Variety Theatre. Three of the Paramount pictures will be shown, each two days. Titles of the Pictures will be announced later.

Mr. and Mr. Wright and two daughters left on Sunday last for Edmonton. They intend to take in the circus on Monday and go on to Bruderheim on Tuesday.

After a long period of inactivity Orient moisture Jupiter Pluvius opened up the flood gates on Saturday and a steady rain of some hours duration fell. Although pleased with his effort Old J.P. again on Tuesday repeated the performance, and now the land in the district is well moistened. The rain coming in relation to be of general benefit, it will improve the pastures a lot and help to bring on the green feed crops, and the caress of many of our farmers is bound up with the feed situation.

Mr. Reid Davidson of St Vincent was a visitor in town at work.

Mr. and Mrs. Chas. McMillan and family spent Monday in Bellevity.

Mr. and Mrs. Paul of Edmonton were visitors at the Hardon over last week.

Mrs W. Hall and two sons of Vancouver BC were visitors to town last week, they are now visiting at Beaking Lake.

Mr Chatterbuck from Edmonton has accepted a position in the grocery department of Hegler Bros.

The affection of our readers drawn to the next Tofield, ought spend at on Sunday, Aug. 20th.

Miss Gwen Rogers of Camrose visited with Mrs. E. Sharpe for a few days this week she left on Tuesday for Camrose.

Mr. F. Bolton and children returned last week on Monday from Edmonton Mr Bolton returned with them on the evening train.

Miss Clara Abbott returned to Westaskiwin after spending a few weeks visiting at Beach

Mrs. Jack Lowe was taken to Edmonton hospital on Monday last to undergo an operation for appendicitis

The Messrs. Dawson left on their return to Jos. Nicol Co's Lumber camp near Vegreville with Mr Neil

Keep Your Tools Sharp

Recently the owner o... hands of the writer of this column a copy of a circular letter addressed to a hardware to the fifty odd tobacco retailers in this district there are only one hundred and fifty-one kinds of cigars... This letter contained some very interesting facts and figures... Recently the tobacco dealers... Recently in this hardware store recently, hence the decision to quote it here:

"I stopped into a blacksmith... a thing the other day and noticed the blacksmith... did my attention to the fact that he was sharpening and this in connection with what he said. The manner in which this file has had it for fifteen years and the file is as smooth as it was when it was new. I asked him how he managed to do this and he told me that he had never allowed the file to become clogged with dust and dirt... but that he had always kept it clean by using a wire brush... In this manner... which I have used in my home and in this office... I have kept my files sharp and they will last for years and years... Many of the files that I have in my home have been sharpened... I told him, he said, that it was not strange that he could keep his files sharp in this manner... but that he had been doing this for the past fifteen years and that he had never had one of his files

CANADIAN NATIONAL RAILWAY

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of three bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation, does not apply to the new issue.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

It may not be generally known that the editor of a local paper has to exercise judgment that may save the readers of the paper many hundreds of dollars. It is not so very long since that this office received a letter from a United States firm with a bank reference note on the letter head, requesting a half page advertisement for two weeks. The advertisement came from a long distance and was stimulating the sale of oil stocks in Texas or somewhere down that way. Owing to the fact that a number of people have become rich through the the purchase of oil stocks, the promoters of these companies find a ready response to the advertising of this kind there are a great many sadly disappointed, or the gambling element is so strong in the make up of the average person that they are tempted to take a chance, knowing that they are playing a game with nearly all the odds against them. At the present time Alberta is forging to the fore as an oil field, and it is more than likely that advertisements will be run in different papers advertising the stock of different companies, and the person with money to invest will have to get any returns for their money invested in oil stocks. Not all oil stocks are bad investments, some of them are very good, but broadly speaking there are so many poor ones in proportion to the few good ones that the un-initiated in this form of investment should quickly acquire some knowledge along this line or come to the conclusion that it is akin to a game of chance and that the chances of winning are about one to 99 of losing.

About the nearest the individual can come to forming an intelligent opinion is to be satisfied that the company can or has drilled, that the field is a proven one and that the directors are straightforward and honest.

The Tofield Public School will re-pen Tuesday September 5th.

The attention of the holders of the five and a half per cent war loan bonds maturing December 1, 1922, is directed to the offer of the Minister of Finance to renew the loan on favourable terms. The last Canadian loan was placed in New York at a satisfactory price. The Minister is making his present financial operations entirely a domestic one by offering to exchange the maturity bonds for new bonds bearing the same rate of interest, running for either five years or ten years as the bondholder may prefer. A further inducement to the investor is that he receives a bonus of one month's interest. The terms offered are decidedly favourable to the investor and it is probable that a large part of the maturity loan will be converted into investments for the exchange of the bonds can be made at any branch of the chartered banks. Holders who do not wish to reinvest will be paid in cash on the 1st December.

Close Application And Hard Work Is The Real Key To Success

Edward W. Beatty, president of the Canadian Pacific railway, is a young man for his position, but had a remarkable career. Today he is the elevated head of the greatest corporation in the world. Mr Beatty is more than a hundred-headed "big business" man. His hedge is huge and he is the president of the Soap Farm and Trunking School at Shebridge, Quebec, conducted by the Rotary and Kiwanis banks, of Montreal, and regarded as one of the most successful institutions of its kind on the continent.

Speaking recently to the pupils he gave an address which is worthy of more than passing note. He encouraged the boys in the first place by pointing out that his career is living was far from auspicious. He said:

"When I was a young boy at school I did not believe I was in trouble but, but I played a lot, and I did many of the things that school set do and left undone many of those I should have done during the time period. When this report was received it was accompanied by a note that in the opinion of the principal of that school it would get along fairly well if I did not return.

"I do not remember ever having felt so humiliated about anything as I was when I read that report. I tell that I had proved to the college and to the other pupils my inability to do my work as others and take advantage of the educational opportunities which were offered me. I was sent to another school where my record was not known, for which I was very thankful. I knew that the kind hands of a teacher who was one of the best teachers for boys I have ever met, though he had a very violent temper. He encouraged me when he was not discouraging me. He encouraged instruction he was likely to be his on the head with a ruler, but the good words of encouragement I ever received came from that man.

"It was from him one day if I worked hard I might amount to something, where was any in me—I had been a dull boy at it before. In any event he gave me an inspiration to study, and so I was led, and the more I worked the more I realized how valuable it was. And so the years went on' my appetite for education of this fact increased until I am now an educated man. I have not succeeded who did not work and that fortunes events or accidents do not make for permanent success.

He emphasized that the most essential thing to obtain success is good health. A sound body usually means a sound mind. While it is not impossible, it is extremely difficult for anyone to work against the handicap of ill-health. Having good health, he there are certain moral qualities, he pointed out, without which a boy can not obtain permanent advancement. The first, he declared, was honesty. No man, he showed, who was not honest could obtain permanent success. He might appear to do so, but without honesty it was impossible to gain and to retain the respect of one's fellow men, and without that no man could be said to be a success.

Next Mr Beatty emphasized the necessity for courage. On this point he remarked:

"Moral courage like physical courage, is a divine quality and I want to think or say, who refused to do wrong? no matter what the temptation. Physical courage is that inherent strength and confidence in your own physical abilities which enables a man to fight a bully, even though he is physically far superior, because he will not be put down through fear. Physical courage is very common. It exists to a more or less extent in most Canadian boys. Moral courage is more rare."

The third essential emphasized by Mr Beatty is one seldom stressed, namely modesty. Mr Beatty said that he mentioned modesty as prominently because it was a quality which so far as he could observe was not very common, was fast disappearing from the boys and girls of this generation. After urging the need of education Mr Beatty finally urged the development of the quality which could be described as manliness. Manliness, he said, meant a boy who was courageous, fair and generous, and who respected himself and others. Everyone admired a boy who was a sneak, who cheated or who did a mean or underhand thing.—Exchange.

Four Dangerous Explosive

Six Pounds Said to be Sufficient to Blow Up a Building

The housewife when making her plan and cabin seldom reflects that flour is one dangerous an explosive as gunpowder. If the contents of a six pound sack of wheat flour were distributed through the air of a good sized house the lighting of a match there would be something. Twice the quantity of flour mixed with four thousand cubic feet of air in a closed place would, if ignited, generate enough force to throw 1,500 tons to a height of one hundred feet. What is the reason of this? When flour is distributed through the air of a room every particle of it comes in contact with the oxygen of the air; consequently it burns instantaneously on being lighted. A great quantity of heat is generated thereby, and in try ing to expand in a closed place bursts the walls of the room. Grain dust is not alone in its explosive tendencies, for meal dust, rubber dust, sugar dust and paper dust are dangerously. During the last two and a half years dust explosions in Canada and the United States have caused the deaths of nearly one hundred people and destroyed more than $10,000,000 worth of property.

Recovered From the Sea

Sailor's Will Is Found On the Back of Shark Identification Disc

Strange as the story of any deep bound told is Seiana is that of a will which has just been admitted to probate and is now filed in Somerset House.

It is the "last will and testament" of a sailor, William Skinner, who lost his life when his ship, the Indefatigable, was sunk in the battle of Jutland. It is on the form of the ordinary identification disc. On one side are the usually deep punched letters, appears the name, number, rating and religion of the man in question. It had been issued

On the other side the disc appears at first sight to be just a circular piece of smooth, polished brass. But when viewed at a certain angle, there was seen to be about 25 minute engraved words. With a microscope they could be plainly read. They comprised Skinner's will by which he bequeathed everything to his wife. The disc has been found on the body of one of Skinner's body and on being rinsed revealed its secret.

Indians Dying Off

Natives at Posts on Lake Athabasca Dying From Influenza

Indians are dying off at the posts on Lake Athabasca, due to the influenza epidemic, which has been playing havoc with the lives of the white races since last summer, according to reports received from the north country by trappers arriving at Edmonton.

At the present time the people over at Fond du Lac is approximately one-tenth all told when the various Indian bands are in from the hunting grounds, but this number is being rapidly decimated by the influenza, 74 of the natives having already succumbed to the disease.

Several of the bands have not yet returned from the Barren Lands, and it is likely that when these come into the post it will be found that their numbers have decreased. The Fond du Lac Indians, Pilgrim River Jim Smith, Fort Resolution, Hoker Lake and others have also been playing off from the same cause. It is likely that when the total is definitely known it will run into a large figure.

Past and Present

The late Mrs George Gould's birthday dinner.

At a Lakewood dinner party a young divorcee was admiring Mrs Gould's splendid jewels.

"Oh, that's your wedding ring, isn't it?" she said. "How old fashioned it looks, doesn't it? In the past they made them so much wider and heavier than they do now."

"In the past you see," Mrs Gould replied, "they expected them to last a lifetime."

It's easy to endure the world in bush with you; all you have to do is to laugh at yourself.

The man who is employed by his wife's father doesn't worry about losing his job.

Mean eyebrows in well when it ends well.

The World Grows Warmer

Indications Are to Show that Northern Hemisphere is Warming Up

The best way in which to connect ourselves on weather such as we have been having is by considerations of the fact that this world of ours is not growing colder and wetter but warmer and drier. Particularly the Northern Hemisphere.

The process is, of course, rather a slow one, but it is none the less steady, and of late it seems to have commenced to some extent.

If we possessed records of the weather since the beginning of the Christian era it is certain that the temperature over the whole of Europe and North America would show a startling rise.

Unfortunately the chronometers we possess are comparatively modern inventions, while weather recording is a still more recent innovation. Yet for all that we can find plenty of proof, both in history and in other ways.

The Vikings, for instance, account of the thrilling Wars we find frequent mention of snow as an unusual thing, whole armies were able to cross broad rivers on the ice. We know, too, that the climate of Greenland in winter was almost Arctic in its severity.

These are conditions which have long since passed away, and it is not long since that in the Nile a country that a river like the Rhine is frozen.

We are also aware that no further back than the sixteenth century the climate of England were, on an average, much more severe than they are today.

Another interesting proof is obtained from the records of the Hudson's Bay Company. These records give in every case the date of the freezing up of the North Western rivers and of the break up of the ice

We learn from them that within the last 100 years the climate of the interval between the setting in of the winter frost and the coming of the spring has been decreased by no fewer than ten days.

Again, European glaciers are every where receding. The Aletsch, the largest of Alpine glaciers, is receding at the rate of fifty feet yearly, the Grand Glacier at seventy double that per annum. The Rhone glacier is also receding, Like most other ice covered countries, Rumania has recently made passenger coaches in lieu of the thinking of people who went to travel. The Germans and Austrians conducted most of the rolling stock. Passengers today are forced to ride on the roofs, buffers, running board and even on the under carriage or the couches. Plot fights for accommodation, so many outbreaks of arson, fatal and otherwise, are of frequent occurrence.

Getting Her Own Back

London's smartest man has just discovered. He strode up to the box office of a certain theatre and, presenting a somewhat crushed visiting card, asked for two stalls.

As the stalwarts on that particular night was a poor one, his request was refused.

At the conclusion of the first act the manager was startled to find the box-office, and, in an aggrieved manner, said:

"Look here, this is a rotten show since me my card back." Pearson's Weekly.

The Nebraska Man who recently stood with his toothless mother-in-law now heads the list of candidates for home medals.

Long Distance Forecast

Our Predicted Development of This Phase 40 Years Ago

The remarkable foresight of the late Dr Alexander Graham Bell, the father of the telephone, is shown by a letter written by him so long ago as 1874, in which the tremendous development of the telephone service was predicted with wonderful accuracy. The letter was written in the capital hold of an electric company who were interested in the development of the telephone in England. By them the letter was handed to the heirs of a prospective. Dated "March 26, 1874 Kensington, London," the letter in which the following "At the problem we have a perfect network of gas pipes and water pipes throughout our large cities. We have main pipes laid under the streets communicating with the side pipes with the various dwellings, enabling the members to draw their supplies of gas and water from a common source. In a similar manner, I do conceive the idea of a system of telephone wires could be laid underground or suspended overhead, communicating by branch wires with private dwellings, country houses, manufactories, shops, etc., uniting them through the main cable with a central office, where the wires would be connected as desired, establishing direct communication between any two places in the city. Such a system may be thought impracticable at the present time on account of the costliness of the introduction of the wires to the public

"I can conceive that such ideas may appear to you Utopian and out of the question, but, believing, as I do, however, such a scheme will be the still future result of the telephone to the public, I will impress upon you the necessity of keeping this end in view, of all present arrangements of the telephone may eventually be realized in a grand system."

Rumanian Trains Crowded

Conductors Cannot Collect Fares and People Travel Free

The railroad trains in Rumania are crammed with the roving people and the conductors are power to collect fares. Hence the lines are conducted that one may ride all day for nothing. Like most other uncivilized countries, Rumania has recently made passenger coaches in lieu of the thinking of people who went to travel. The Germans and Austrians conducted most of the rolling stock. Passengers today are forced to ride on the roofs, buffers, running board and even on the under carriage or the couches. Plot fights for accommodation, so many outbreaks of arson, fatal and otherwise, are of frequent occurrence.

Bulk Of Immigrants This Season Said To Be Composed Of Agriculturists

The Place for Unemployed

Work Plenty of Work There Will be No Need of Many Duty This Winter

The Saskatchewan Government is taking the stand that it will not assist municipalities in providing relief for the unemployed this winter except in really needy cases. So long as able bodied single men can be provided with work in the country they will be given no assistance.

It is the proper position to take. Because of abnormal conditions the Federal Provincial and Municipal Governments have been distributing large sums of money each winter for unemployed. Some of it has been spent in providing much needed relief in cases of real hardship. Some of it, on the other hand simply encouraged loafers to loaf.

The harvest this year is exceptional. The farmers of Manitoba will spend probably $6,000,000 for outside help alone during the next three months. Every able bodied single man now without permanent employment can provide himself with a job if he is willing to carry his blankets through the wilderness of the north country to the point where help is needed.

It is certain that such ideas may appear to you Utopian and out of the question, but, believing, as I do, however, such a scheme will be the still future result of the telephone to the public, I will impress upon you the necessity of keeping this end in view, of all present arrangements of the telephone may eventually be realized in a grand system."

Scriptural Place Names

England Has Borrowed Great Number From the Bible

A jesting remark in a club that Lord Balfour might base his next speech on behalf of British interference in Palestine on the number of Scriptural place-names we have borrowed, led an Indo-Chinese member to the library to look them up. He found that England can boast six Jerichos and five Jordans, a Bethlehem, Mount Zion, Mount Ararat and Mount Ephraim, Palestine has a Dedlesthare has a Calvary Wood, Dorset a Jordan Hill, Cambridgeshire a Noah's Ark, Hampshire a Land of Nod, and Worcestershire a Jacob's Well. But, whilst other countries have ordered Jaffa cakes, Jericho, Jezebel, Bethesda, Jehoshaphat, Gideon and Herod, London Morning Post.

New Use For Movie Camera

Used to Detect Divorces in Mental Rain Cases Heard by Many Juries

The moving picture camera is being put to a new and startling use. It is now used to detect the errant husband in the cases of mental incompetency. Many of the cases of this kind are tried by juries, and the moving picture camera is used to show the jury the mental condition of the husband. The camera is operated by the Salvation Army in bringing out all documentary and oral evidence in the case of mental incompetency

DO YOUR EARS BUZZ?

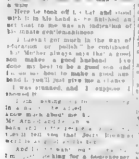
MY CANADA



No Appetite

Nervous exhaustion leads to distaste for food. The nerves of the stomach are weak, digestion fails and you become generally upset and out of sorts.

The secret of complete restoration is getting the nervous system fully built up.

Mrs. R. Cheney, 200 Redmond St., Chatham, Ont., writes:

"I was troubled with indigestion which caused me many sore nights. I would be in terrible distress at times, and would get no relief for two or three hours. I've spoken words I am sorry for to Mr. Cheney when as I came out not anything rest. I did not know what to do, as I had read so many different remedies, as well as doctors medicines, without getting permanent relief. Finally I got some of Dr. Chase's Nerve Food, and while on the second box noticed that I was improving. I continued. All the boxes I got were fully restored, and have recovered to my regular diet. My husband has also taken Dr. Chase's Nerve Food with splendid results, so we are glad to recommend it to others."

In Berlin the shops are opened on each of the three Sundays before Christmas known as the reaper, cl. ver and good Sunday and customers flock to them in thousands to buy their Christmas presents.

Children Cry For
Fletcher's
CASTORIA
Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for it to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's illnesses.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your sickly child anything but a medicine especially prepared for infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

Forest Fires Spread Havoc

Duluth, Minn.—Ten thousand dead, hundreds of persons homeless, at least two towns wiped out and a dozen others in imminent danger, was the apparent toll of a series of forest fires which swept Northeastern Minnesota, causing the worst conflagration since 1918, when 400 persons lost their lives. All the fires are said to have resulted from smoulder-ing peat beds which were whipped into raging furnaces by a strong wind and spread to nearby forests.

Cattle Men Appeal Against Tariff Duties

Claim High Rates Hurting Trade Between U.S. and Canada

Washington—Reducing the tariff on cattle from the present 30 per cent. to 15 per cent. ad valorem was urged upon the Senate Finance Committee, House Ways and Means Committee and other members of the Canadian Border States delegation of cattlemen, until after the Board of Control of the International Joint Commission could make its report it was announced by A. E. Cattle, president of the general meeting.

Mr. Cattle stated that the new tariff rate in accordance with the agreement would be made out as soon as possible after receipt of the report, subject to a provision that it would not prejudice the contention of the company that the rates should be reduced back to July 26. President E. B. Meeker, of the Dominion Association, was also present.

Mr. Meeker based his argument on the insufficiency of the proposed wages to provide a decent living and to encourage standard of living." He also declared that the board had been in the broadest question of whether or not the Government railways intended to proceed with the plan of reducing wages to the uninterrupted operation of the system.

Mr. Meeker was assisted among others, in the presentation of his case, by M. D. Hyndman, Winnipeg, and C. H. Mitchin, Calgary.

The board is presided over by F. T. Costello, Alexandria, Ont.; Howard S. Ross, K.C., Montreal, representing the employees, and Donald H. Kelley, Ottawa, the company.

German Debt Increases

Berlin—From August 1 to August 10, the floating debt of Germany increased 4,500,000,000 marks, the aggregate on the later date 212,000,000,000 marks.

Every dollar spent in your home town is a boost for the community

Ontario's Provincial Bank

People Have Deposited One Million in Six Weeks

Toronto—The province of Ontario Savings Office has received one million dollars' worth of business in the first six weeks in operation. Over one representatives of the Provincial Savings' Branch of the Provincial Bank held a dinner at which they reviewed the work, which has been somewhat like Oshawa.

Congratulations have been showered upon the staff of Ontario's Bank for their energies which have attracted thousands of citizens. Mr. McKenzie, director of the Province of Ontario Savings Department told of the initial obstacles which confronted the members, and paid high loyalty of those who launched the Province's new business on its way to success in an short a period.

Acting Counsel of G.T.R. System

Quebec—Owing to the death of W. H. Biggar, Vice-President and General Counsel of the Grand Trunk Railway System, W. C. Chamberlin, General Solicitor, will assume the duties of head of the Legal Department according to announcement just issued from the Headquarters of the company.

Toronto Co-operator

Toronto—Mrs. Nora Pullman who has lived in Toronto for forty years celebrated the centennial of her birth on Aug. 15, 1825. She was born in Cork, Ireland

Dublin Silent While Leader Is Buried

All Activities Suspended During Funeral of Arthur Griffith

Dublin—Ireland buried another of his distinguished sons Arthur Griffith was laid to rest in Glasnevin Cemetery after services at the pro-cathedral. Thousands of people attended the funeral. Many attended the Requiem Mass and also witnessed the procession as it moved from the pro-cathedral to the cemetery.

Delegates from the provisional government headed by Michael Collins, Minister of Finance, and Richard Mulcahy, Minister of Defence, marched behind the hearse. Then came the Executive Council of the Irish Free State, the Dail Eireann, the Senate, the Lord Mayor and Dublin Corporation, and the Diplomatic Corps. Behind the latter marched the Republican Army, the Civic Guard and the Dublin Metropolitan Police.

Along the route of the procession, which was lined by troops, all activities were suspended. Shops were closed and the streets were deserted.

American Judge Is Suspicious

Thanks Many Canadians Obtaining Divorces in Detroit, Evading Law

Detroit, Mich.—Canadians who obtain decrees of divorce in Detroit, Judge Richard Edmund Pohlman, elected to the court, to investigate the real motives of every Canadian who flies east for divorce.

"I will not grant a decree in any Canadian divorce case if Mr. Canada assures me that one of the parties has resided in Detroit two years as required by the statute," said Judge Pohlman. "The many suits are being filed by Canadians that it has made me very suspicious."

Recents Criticism Of American Surgeon

Canadian Should Standardize Canada's Hospitals, Says Dr. McKeown

Toronto—"If it is necessary to standardize the hospitals in Canada it should be done by someone in Canada," said Dr. McKeown.

This was the reply made by Sir Walter McKeown, of St Michaels Hospital to a criticism of Ontario hospitals made by Dr. M. T. McEachern, director of the American College of Surgeons.

Dr McKeown continued: "A hyper-too much to the Americans and too much hysterical praise on the part of the Canadians. Let us have a standard of our own."

Three Hurt in Mine Accident

Glace Bay, N.S.—William Calhoun had a leg broken, Joseph McNeil received injuries to his head, and Dan MacDonald was badly cut about the face and shoulders when the car in which they were about to descend into No. 2 mine at New Aberdeen went up instead of down and struck violently against the head of the cage shaft. Safety catches prevented it from pounding to the bottom of the two foot shaft

Serious Aspect To Coal Strike Situation In Nova Scotia Fields

Ottawa—In an effort to prevent the shutting down of the coal mines in Nova Scotia, Hon James Murdock, Minister of Labor, has requested the assistance of John L. Lewis, President United Mine Workers of America. Mr Murdock has urged President Lewis to wire to officers of the United Mine Workers of America in Nova Scotia requesting that they accept the terms the mines to be flooded, causing "irreparable damage" and that another opportunity be given for further negotiations between the men and the British Empire Steel Corporation. It is understood here that President Lewis has telegraphed to the officers of the U. M. W. A. in the Nova Scotia fields in accordance with the request of the Minister of Labor, but the terms of his message have not been received here It is reported here that already very serious damage has been done to the mines by flooding

Colonel Elkins, with 25th troopers from HARNA, has occupied another two colliery at New Aberdeen, after which with a party of workers who had been sent from Sydney to man the pumps had been stoned and the party driven out. Reinforcements from Pictou and Cumberland counties maintained that all is peaceful there. New Aberdeen and New Waterford are regarded as the storm centres.

Calgary—There is no indication that the coal miners' strike in District 18, is any nearer a settlement through the renewed efforts of Hon. James Murdock, Federal Minister of Labor. The minister had a further conference with the men's officials, but without any satisfactory results.

W. N. U. 1436

No Immediate Sign Of Settlement Of The Railway Wage Dispute

Montreal—Ball atonement throughout the Dominion are on the verge of re-ult as a result of the attempt of Canadian railways to cut their wages on an average of seven cents an hour, Frank McGuffin, Vice-President of Division No. 4, Railway Employes' Department, American Federation of Labor told the Conciliation Board.

Again the rail executives spurned the day's skirmishing in a statement by George Hodge, Assistant General Manager of C P R eastern lines to the effect that Canadian shop employees were in a better position than almost workers in the U S

In a sharp retort the labor representatives not only denied that anything but changed the railways with placing the importance of balancing their budgets higher than the question of incline in human beings.

The union heads declared that the railways produce their budget in support their claim that a wage cut was necessary to the railways a settlement and later the labor-ites suggested that the board consider that "while the railways united to cut wages they were not reducing the possible of the operating or executive staffs nor had the dividends been cut"

Ottawa—The Canadian National Railways has refused to grant the wage reduction in the case of the railway clerks and other members of the Canadian Brotherhood of Railway employees, until after the Board of Conciliation and Investigation at Montreal has made its report it was announced by A E Cattle, president of the general meeting.

Mr Cattles stated that the new petition in accordance with the agreement would be made out as soon as possible after receipt of the report, subject to a provision that it would not prejudice the contention of the company that the reduction should be dated back to July 26 President E B Meeker, of the Dominion Association, was also present.

Mr Meeker based his argument on the insufficiency of the proposed wages to provide a decent living and to encourage standard of living." He also declared that the board had been in the broadest question of whether or not the Government railways intended to proceed with the plan of reducing wages to the uninterrupted operation of the system.

Mr Meeker was assisted among others, in the presentation of his case, by M. D. Hyndman, Winnipeg, and C. H. Mitchin, Calgary.

The board is presided over by F. T. Costello, Alexandria, Ont.; Howard S. Ross, K.C., Montreal, representing the employees, and Donald H. Kelley, Ottawa, the company.

Dublin Silent While Leader Is Buried

All Activities Suspended During Funeral of Arthur Griffith

Dublin—Ireland buried another of his distinguished sons Arthur Griffith was laid to rest in Glasnevin Cemetery after services at the pro-cathedral. Thousands of people attended the funeral. Many attended the Requiem Mass and also witnessed the procession as it moved from the pro-cathedral to the cemetery.

Delegates from the provisional government headed by Michael Collins, Minister of Finance, and Richard Mulcahy, Minister of Defence, marched behind the hearse. Then came the Executive Council of the Irish Free State, the Dail Eireann, the Senate, the Lord Mayor and Dublin Corporation, and the Diplomatic Corps. Behind the latter marched the Republican Army, the Civic Guard and the Dublin Metropolitan Police.

Along the route of the procession, which was lined by troops, all activities were suspended. Shops were closed and the streets were deserted.

American Judge Is Suspicious

Thanks Many Canadians Obtaining Divorces in Detroit, Evading Law

Detroit, Mich.—Canadians who obtain decrees of divorce in Detroit, Judge Richard Edmund Pohlman, elected to the court, to investigate the real motives of every Canadian who flies east for divorce.

"I will not grant a decree in any Canadian divorce case if Mr. Canada assures me that one of the parties has resided in Detroit two years as required by the statute," said Judge Pohlman. "The many suits are being filed by Canadians that it has made me very suspicious."

Recents Criticism Of American Surgeon

Canadian Should Standardize Canada's Hospitals, Says Dr. McKeown

Toronto—"If it is necessary to standardize the hospitals in Canada it should be done by someone in Canada," said Dr. McKeown.

This was the reply made by Sir Walter McKeown, of St Michaels Hospital to a criticism of Ontario hospitals made by Dr M T McEachern, director of the American College of Surgeons.

Dr McKeown continued: "A hyper-too much to the Americans and too much hysterical praise on the part of the Canadians. Let us have a standard of our own."

Three Hurt in Mine Accident

Glace Bay, N.S.—William Calhoun had a leg broken, Joseph McNeil received injuries to his head, and Dan MacDonald was badly cut about the face and shoulders when the car in which they were about to descend into No 2 mine at New Aberdeen went up instead of down and struck violently against the head of the cage shaft. Safety catches prevented it from pounding to the bottom of the two foot shaft

Ontario's Provincial Bank

People Have Deposited One Million in Six Weeks

Toronto—The province of Ontario Savings Office has received one million dollars' worth of business in the first six weeks in operation. Over one representatives of the Provincial Savings' Branch of the Provincial Bank held a dinner at which they reviewed the work, which has been somewhat like Oshawa.

Congratulations have been showered upon the staff of Ontario's Bank for their energies which have attracted thousands of citizens. Mr. McKenzie, director of the Province of Ontario Savings Department told of the initial obstacles which confronted the members, and paid high loyalty of those who launched the Province's new business on its way to success in an short a period.

Acting Counsel of G.T.R. System

Quebec—Owing to the death of W. H. Biggar, Vice-President and General Counsel of the Grand Trunk Railway System, W. C. Chamberlin, General Solicitor, will assume the duties of head of the Legal Department according to announcement just issued from the Headquarters of the company.

Toronto Co-operator

Toronto—Mrs. Nora Pullman who has lived in Toronto for forty years celebrated the centennial of her birth on Aug. 15, 1825. She was born in Cork, Ireland

World Mourns Death Of Lord Northcliffe

Newspaper Magnificent of Estimate in World's Publisher Was Held

London—World-wide regret at the death of Viscount Northcliffe seems to be evinced by the flood of tele-grams and cable messages received by the family and published in North cliffe papers. The messages sent to Lady Northcliffe by the King and Queen and other members of the Royal Family and the tributes from President Harding are significant of the esteem in which the great pub lisher was held, says the Times.

The President of France, the Vice roy of India and the Dominion as Commonwealth Premiers are on par with distinguished men of the United States in attesting to Northcliffe's work and the eminence of his achievements. The corps of messages re ceived more than a page of the Times

Agree With Premier Poincare

Stand Taken at London Conference is Approved by French Cabinet

London—Premier Poincare spoke with satisfaction to President Millerand and Premier Briand after the opening session of the conference of Allied Premiers in London and also discussed the situation in connection with the meeting of the leaders of a non-intervention policy in the event that the grave situation should become more serious, it was learned.

Delegates to the conference assemble to-day. The first session will be held at 10:30 a.m. (5:30 a.m. Mountain time) and will be followed by a meeting of the experts of the various delegations. It is expected that the conference will last for two days.

The first War showed the necessity for the Imperial Conference of 1921 recommending the necessity for co-operation and consultation in matters of common concern, and the present crisis also were matters for the attention of the Parliament of Canada, Mr. Burg did not anticipate announcement which would be made before the conference.

Disastrous Fire At Barons

Post Office Postmaster's Residence and Department Store Destroyed

Calgary, Alta.—A special despatch to the Herald from Barons, Alta., says:

Fire completely destroyed the post office residence of the postmaster and the Barons Independent company's warehouse and store.

The implement store and stock was valued at $25,000, only $10,000 of which is being carried. The post office and residence of Postmaster Andrews were valued at about $5,000 and were fully covered in in surance.

Employment Increasing

Improvement in Labor Market a Very Slow One

Ottawa—The number of employees in establishments on the upgrade was the subject of comment in the House of Commons by Hon. Dr. H. A. Burg, newly appointed Minister of Labor, when moving the Estimates of his department.

Dealing with the unemployment problem, he said: "We have not yet reached the limit of improvement in the labor market, but there is a steady improvement. Reports received by the department from establishments in the labor market show that there is a steady increase in the number of employees. Of course, action were matters for the decision of the Parliament of Canada, and the Government could only be concerned so far as it was responsible to Parliament."

Mr. Burg did not anticipate announcement which would be made before the conference.

Interest In Question Of Empire Naval Defence Is Again To The Fore

Railway Board Itinerary

Ottawa — Arrangements have been completed for the re-arrival of the Board of Railway Commissioners. The following is the itinerary: Quebec September 6; Saskatoon, September 9; Edmonton, September 11; Jasper Alberta, September 12; Lusters B.C., September 13; Vancouver, B.C., September 15; Victoria, September 16; Vancouver, September 19; Kamloops September 20; Nelson, September 23; Lethbridge September 27; Calgary, September 28; Regina September 30; Winnipeg, October 2; Port William October 4

Plan Ways And Means To Assist Farmers In Marketing Grain

Regina—The Federal Government might assist farmers by calling a conference of bankers to devise ways and means to enable farmers to hold their grain long enough to prevent the usual fall glut of the market with its consequent flattening of prices

This is the effect in the suggestion made by Premier Charles A Dunning to Premier King in reply to the latter's telegram offering the co-operation of the Federal Government in the present crisis, or measures as a substitute to the Wheat Board now that the latter has fallen through and asking for further suggestions from both Alberta and Saskatchewan Governments.

At the same time Mr Dunning announced that he could call another conference this fall of crediting classes other than bankers with a view of securing their co-operation in extending leniency to farmer debtors Mr Dunning pointed out, however that the banks come within Federal jurisdiction, and to come to any agreement with the bankers would entail legislation by Dominion authorities.

Edmonton Nothing more to be done," is the substance of Premier Greenfield's reply to the two telegrams sent to Premier King asking if the Dominion Government can be of further assistance in regard to the Wheat Board. With the failure to secure a chairman and vice-chairman for the board the Premier is closed for the time being as far as this province is concerned, and the matter is now entirely in the hands of the Federal Government.

Mr. Greenfield says that the Prime Minister's suggestion as to methods of creating an open market for wheat does not seem necessary as the market is already open and would not be affected as until the board had started to function. Nor is there anything in the way of British and other buyers making such contracts as they may please

The Provincial Government has nothing further to suggest just now says the Alberta Premier, and in acknowledging the offer from Ottawa with thanks, but without asking for any further action.

HE WOULDN'T SAW THE WOOD

— Dallas News

THE TOFIELD MERCURY

Published every Thursday at Tofield, Alberta

THURSDAY, AUGUST 24, 1922

S. WORTON, PUBLISHER

Another Tofield fair awesome stuff gone leaving behind sufficient cause for mutual congratulation. In spite of the weather man's seemingly determined efforts to spoil the day, the program as arranged was presented to the public and, really speaking was fairly worthy of it. The plan of adding some thing in the way of sport and amusement was a wise one, and one upheld. Those of us observing matters could plainly see that while the general public enjoy viewing the exhibits, the exhibits by themselves have not sufficient drawing power to hold the interest of the public for long. The day's program was improved by baseball, basket ball and sports, and with the addition of the motor cars and motorcycle competitions the fair became a howling success. Here and there were many who thought the admission charge and side shows a bit rich for the money, but the fact remains that this is what the people want with a few manager has either ignored the people what they want or got out of business. The exhibits in all classes, both numerically and in quality were better than last year. We believe an improvement could be made by having the name of the exhibitor in plain view on the exhibits. It at your very few exhibits showed the name of the exhibitor but this year a number of the judges added the name to the entry ticket after judging. There were some exhibits however, with no name on or an exhibit minus the exhibitor's name loses fifty per cent of that interest to the spectator. Another thing that perhaps could be improved is the dissemination of general information regarding the events of the day immediately prior to the start. On Saturday a large number of people did not know at what time the ball game would be called or ticket got.

The Agricultural Society ... Sports committee are to be congratulated. The ... of their efforts resulted in a great improvement over previous years and the success of this year will no doubt spur them on to further effort next year and then may the weather man be with them.

The open season for the shooting of ducks, geese, plover and snipe commences on the 1st of September, and no doubt preparations for this annual event are well in hand with most of our sportsmen. There is no limit to the number of geese of any varieties that one may take, as they are considered wary enough to look after themselves. The ducks are different and the law allows an individual to shoot as many as thirty each day, and two hundred in a season. Most of the varieties of ducks are becoming less plentiful each season, and the indications at the present time are that this year they will be fewer than formerly. Many reasons are advanced for this scarcity, and the probability is that every one of them have their bearing to a lesser or greater degree on their diminishing numbers.

The alarming increase in the number of crows that spend the summer here is no doubt having its effect on the duck population. During the recent epidemic of crows, the slaughter here to fully all died of ... making it possible for next to buy where it was ... or to the ... failures the birds were before. These marsh lands were the favorite places of most of the ducks, while on the uplands, away from the water, the mallards made their nests. The grown bit of grass on the prairie has been very scant, and this was cropped short by the stock. For this reason many of mallard nests could not be found. Reports have been received that many ducks nest on certain farms had been robbed, not only once, but every attempt that the ducks had made to hide their nests had been in vain. After careful study where it was ... or to the ... failures the birds would no doubt give up, with the result that very few young have been raised.

Any observer can readily see that the number returning here each year is bound to steadily decreasing and, at the present rate of decrease, it will only be a few years until ducks are no scarce here as they are in the older portions of the continent. No good can come from killing the fact that hundreds of ducks are allowed to spoil during the warm weather following the open season. This is the result of over zealous hunters taking more than they had use for and the garbage grounds are the richer and the county poorer in wild life.—Camrose Canadian.

Some Cream

In Alberta we get "off grade" cream some times, but in Seattle they have something much worse, for the Produce News says:

A. D. Fish, state dairy inspector has had a new lot of red tags printed, which he intends to attach to some of the cans of cream now being shipped into Seattle. When the above mentioned red tags is prominently displayed on a can of cream it does not mean that it has taken first prize, but it does mean that the contents is on the way to make perfectly good soup.

The hot weather has increased the shipments of rotten cream to such an extent that Inspector Fish intends to condemn all cream which is unfit for human consumption, and will notify the shipper that the state law must not be violated.

It is not unusual for the cans of fermenting cream to explode with a report like a blow-out of an auto tire. One creamery worker was severly injured on the head by being struck by a flying lid, it is stated.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

Dated at Ottawa, 8th August, 1922.

W. S. FIELDING,
Minister of Finance.

Great Britain Will Pay War Debts To United States In Full

London.—The debate in the House of Commons on inter Allied debts and German reparations which it was expected would bring out further interesting facts respecting the recent move of the Earl of Balfour on the subject and Great Britain's future policy on the whole question of international relations, proved disappointing.

During the five hours of debate there was constant invasion of Great Britain's intension to repay her debt to the United States, but no gains were spared to make timely appraisal of Great Britain's sacrifices in the war, her generous and unselfish attitude and her staggering burdens of taxation.

Sir Robert Horne, Chancellor of the Exchequer, said Great Britain had no intention of suggesting any alteration of her financial obligations to the United States, that the Government remained true to the full letter of Britain's obligations to pay the debt "and no more in any shape or form to evade that obligation."

Sir Robert pointed out that the British debt was greater than that of any other nation, amounting to £7,246,000,000, compared with £2,117,000,000 for the United States and £2,630,000,000 for France. The British debt was £161 per head of the population, the French £162 and the United States £23 per head, and in these circumstances it was impossible to ask for any reduction in the payer alone shoulder the payment of the war debts.

If all the nations which fought side by side in the war would be willing to cancel all debts relating to the war as contributions to the common success," he continued, "we might help them to rid the world of many causes of irritation and plant in the hearts of humanity a new and inspiring hope."

Mr. Asquith was mild opposition from one side of the House in declaring the Balfour note impolitic and inopportune, but said he hoped subsequent events would prove the contrary. Laughter greeted his statement that the United States Government Britain was dealing in paper figures when she emphasized the enormous expense of Europe's obligations.

Mr. Asquith pursued adaptations as to the wisdom of Lord Balfour's note and strongly advocated remitting to France all she owed and all she owed to England as not only politic but good business. He expressed the opinion that the United States debt ought to be kept quite distinct from European matters and declared it a question that the United States was under any obligation moral or even prudential to make its debts

May Spend Winter At Point Barrow

Amundsen Has Discharged Aviator Who Hoisted With Iron

Nome.—It Captain Roald Amundsen finds it necessary to postpone his trans-Polar flight, he foreshadowed in a message received here, he said Lieut. Oskar Omdal, who transferred from the exploration ship Maud to the schooner Hedgon, will winter at Point Barrow, it is said here. Lieut. H. C. Patterson, Canadian aviator, has been discharged from the services of Amundsen, which is taken here to confirm the report that Amundsen will not attempt before next summer to fly across the pole.

Canada's Forest Fires

Three Thousand Have Destroyed This Years, Says Report

Ottawa.—Twenty-three thousand forest fires have already occurred in Canada this year according to a pamphlet issued by the Canadian Forestry Association. British Columbia had about 1,000 of these fires and while the Province has passed through the most severe fire experience of many years, planes and seaplanes are being used to great advantage in reducing this current loss and have done excellent work in advising the British Columbia Government of the location of fires permitting fire fighting parties to attack those where travel by land and water formerly took 15 hours to reach.

Infantile Paralysis at Hamilton

Hamilton.—Drastic regulations have been decided on by the board of health to check the spread of infantile paralysis here. Three deaths have occurred and there is a rapid increase in the number of cases. Display placards will close their gates immediately, it was said by the board. Closing of bathing beaches throughout the city is also being considered. The disease is contracted from dirt discharges from the mouth and nose and can be easily contracted in water.

Honour French Unknown Soldier

Paris.—Two hundred visiting school instructors from Australia, Canada and New Zealand deposited a wreath on the tomb of the French unknown soldier.

Appointing Officials For Operation Of The New Wheat Board

Ottawa.—James Stewart and P. W. Riddell, who were the chief executive officers on the Canada Wheat Board in 1919, have been asked to take the offices of chairman and vice-chairman on the new board which is being established under the legislation passed by the Dominion Parliament and by the Legislature of Saskatchewan and Alberta.

The selection of Messrs. Stewart and Riddell was made by the Governments of Alberta and Saskatchewan, and the appointments was accepted by the Dominion Government. If these two men accept the task, their appointments will be made at once and they will be asked to come to Ottawa to make arrangements for the organization of the board

The Dominion Government, it is said, feels that as the western provinces have the financial responsibility under the law, they should have the choice of the men to take charge. The appointment of the other officials will be postponed pending the receipt of an answer from Messrs. Stewart and Riddell, and their advice will be sought on that matter

If these two find themselves unable to accept the task of managing the wheat board, it is understood that the Dominion Government will request Saskatchewan and Alberta to make other nominations.

The province of Manitoba has not yet taken action in regard to the wheat board as the new government has not yet been sworn in. It is said here that provision will be made in the organization of the new board for the addition of directors representing Manitoba, should that province desire to come in later.

Ottawa.—A hitch has developed in the appointment to the Wheat Board. The Dominion Government, which has been pursuing the course of inviting the western provinces interested in the matter to nominate whom they desire for appointment to the board, is now compelled to leave a second invitation, for Messrs. James Stewart and P. W. Riddell, who constituted the 1921 board, have notified the Government that they cannot act on this year's body. They expressed their gratitude for the confidence reposed in them, but added that they could not now their course clear to accept the position. Mr. Stewart is on his way here from Winnipeg. The Provincial Governments of Alberta and Saskatchewan have been advised of this development and have been asked for new nominations.

France Would Make Rhineland Independent

Parliament Proposes Scheme of Penalties to Prevent Pogroms

Paris.—Creation of the Rhineland from Germany, with its own postal and government and a separate financial regime, supervised by the League, is a part of the scheme of pressure presented to President Poincare, representative of opinion of the French Parliament and which he intends to have taken under consideration.

The scheme which would be into effect upon the definite refusal of the German Government to fulfill its agreements for payment of extra debts owing to French citizens is Germany since before the war also a future expulsion of all the Prussians officials from the Rhineland, to be placed by nations.

Other provisions included an state also in the power of the Allied Rhine and Commissaris and measures against pressive upon the private German industries amenable to the action of the commission

Inventor of Telephone Dies

Premier King Sent Message of Sympathy to Mrs. Bell

Ottawa.—Right Honorable Mackenzie King, Premier of Canada, has the following message to the widow of Dr. Alexander Graham Bell, whose death at his home in Nova Scotia

Mrs Alexandra Graham Bell

"My colleagues in the Government join with me in expressing to you a sense of the world's loss in the death of your distinguished husband. world-over he is honored by people in country that the great inventions with which his name is associated is an to its history. On behalf of the of Canada, may I extend to you an expression of my profound sympathy and sympathy."

(Signed) "W. L. Mackenzie King."

Great West Bank To Quit Business

Sufficient Capital Not Subscribed to Secure Necessary Certificate

Winnipeg.—Announcement is made in an advertisement published today and signed by J. K. McInnis, of liquidator, provisional president that the promoters of the Great West Bank, of Canada have decided to wind up the affairs of the proposed bank and return money received from subscribers to the remainder of capital subscribed by law." It is stated that up to check up on all the horses, as many of them ran wild after they got the treasury board the necessary owning to which would affect their commerce business

British Aviator Reaches Ambala

Ambala, India.—Major W. T. Blake, the British aviator is attempting to circle the globe by aeroplane arrived here April 2, having flown from Lahore The weather in Southern India is very unfavorable for flying owing to the effect that the Southwesterners was preparing to authorize the sale of casks as a "pure 3.2 beer."

Australia Approves Pacts

Melbourne.—The House of Representatives has ratified the treaties entered into at the recent Washington conference

Fuel Board Making Plans To Secure Supplies Of Coal

Appoint Fuel Committee

Have Supervision Over Supply of Coal For Canada

Ottawa.—The Dominion Fuel Board has appointed a committee to make an investigation into the coal situation with a view to securing supplies for the winter months. The committee was attended at a meeting in addition to T. A. Moe and Fred McCourt the other members will be Mr. Mahoney Canadian Agent for the United States regulations in regard to delivery of coal from the mines to the consumer on the problem of importation from Pennsylvania submitted for consideration.

It is the desire of the Dominion Government as strongly impressed by the initiative as to getting coal should be taken by the local authorities in each district as to what use should be made of the credit of the Dominion Government. The Fuel Advisory Committee will keep in close touch with all phases of the situation and will be ready to step in and help the local authorities if there is no body in the district to control or to supplant the ordinary methods of supply.

Bottomley Expelled From Parliament

Vote Taken After Heading Letter From Former Editor

London.—Horatio Bottomley, former editor of John Bull, has been expelled from the House of Commons by a vote of the members. After the Speaker had read a long letter from him that he was neither guilty nor conscious of fraud, and stating that he had been made the victim of appalling errors of justice," the vote was taken.

Bottomley's letter said he was unable to leave the hospital and on account deep sorrow at having brought a slur on the House, which he loved as nothing else in the world. If the truth were known he thought he alone, in his guilelessness, would avoid him. Not only in England but its sympathies.

The reading of the letter was heard in deep silence

Famous Racers Perish in Fire

Lightning Struck Stables at Connecticut Valley Stock Farm

Hatfield, Mass.—Three famous racing stallions were burned to death when the Connecticut Valley stock Farm was struck by lightning and totally destroyed

The stable One valued at $50,000 and in addition to this, about $40,000 worth of rare horses were lost in were burned to death. It was impossible check up on all the horses, as many of them ran wild after they got free. Among those burned were Peter Vondis, a 7 year old stallion by Peter the street, valued at $15,000; the Earl of Durham and Nelson Todd. Both of the latter were valued at $5,000

Dewes Authorized Sale of Vodka

London.—The Russian trade delegation stated it had been authorized to sell the first cargo of vodka since the ban on the effect that the Soviet Government was preparing to authorize the sale of vodka as a "pure 3.2 per cent beer."

Moves Claims of Shipping Board

London.—The Government introduced in the House of Commons that an agreement had been entered into with the United States Shipping Board for the settlement of certain outstanding claims with the British Ministry of Shipping by the payment to the Unit ed States Board of $12 000 000 including interest

Good Looks

Be careful about the corset you wear
It will make or mar your attractiveness

Of one thing be quite sure; the day of the obviously corseted woman has gone. Buy your corsets with the idea of accenting the natural beauty of your figure. Buy the corset that will give you comfort, the corset that will give you poise and perfect [illegible] without a moment's [illegible] strain.

There is a type of figure however unusual or difficult [illegible] but can be successfully corseted by

GOSSARD [illegible] CORSETS

The admired woman who wears a Gossard has an unconscious grace that can only result from pricele[illegible] and her corset is so much a part of her that the most critical observer cannot trace her charm to [illegible] support.

Our expert corsetiere will spare neither time nor effort in assisting you the Gossard best suited to your needs.

AN OLD FRIEND

Your local paper coming to you week by week, assumes the role of an old friend. Without it, life would not be exactly the same.

Of a number of things it fits into its own special niche to make your life in this country more pleasant and in a large measure more profitable.

Fall time is subscription time. We will shortly be sending out subscription notices, and when you receive yours will you kindly remember that while publishing the Mercury is a pleasant duty, the editor must eat.

The Tofield Mercury

Employing Good Methods In Poultry Raising Produces Greater Returns

Eleven thousand five hundred and seventy-nine birds are being trapped in Canada this year on poultry breed Ten new plants. These birds are starting in by at least one hundred and fifty (150) eggs each and if possible two hundred and twenty-five (225) eggs or more in thirty-two (32) consecutive weeks, and on the their owners Record of Performance Certificates covering in detail their performance for this year.

These 11,579 hens represent only a very small proportion of the total number of hens in Canada, but they are the best hens chosen from the flocks of those engaged in pedigree breeding and it is from such stocks that our laying strains must come. Canada has some 34,500,574 head of poultry and from these our production is approximately 200,000,000 eggs. The majority of these birds are pure bred, and by this we mean the more mixing of so many eggs such a [illegible] of value in the knowledge of the parent stock and only a very small loss of the flock average really amounts to [illegible] rearing of a certain number of chicks to replace a certain number of birds matured each year. Such is the breeding or lack of breeding of the majority of our laying strains and hens in Canada.

The breeding of the birds entered in the Record of Performance is very different and it is their story we wish to tell. In the laying season 1920-21 there were 7,311 birds entered in Record of Performance and we have those entered by poultry specialists, farmer producers, public institutions, and [illegible] might be termed [illegible] fish list. It is well to look in detail at some of the stations obtained by these modern hennery it is to them we must look for our pedigree breeding. Perhaps it would be well to describe each of these four classes. Under the heading poultry specialists is included those men who are in the business commercially. The farmer producers are those who are carrying their other occupation and keep poultry as a side line. The hobby fists are of very varied occupations, but these people find something both profitable and interesting in poultry keeping. Under public institutions are included agricultural colleges and schools, experiment stations, public homes, etc.

The following table shows the number of breeders in each of these classes, the birds they entered, the number that withdrew, the number that died, the number that qualified for certificates and the production of the birds qualifying:

	No. Birds	Withdrawn	Died	Qual. Birds	Cert. Prod	Qual. Birds	ROP Adv. Prod	ROP Adv. Birds	ROP Adv. Prod
Poultry specialists	2,708	1,283	163	988	167,294	126	20,124		
Farmers	4,227	933	195	66	101	17,393	4	561	
Hobbyists	37	835	331	112	275	50,540	67	11,184	
Public Institutions	7	5,653	271	299	655	119,197	106	15,542	
Totals	96	6,530	7,513	630	1,912	354,924	297	47,411	

It will be seen from the above table that of the 630 birds entered competing their record year (672 birds out of the original entry of 7,311 were withdrawn), 1,279 qualified, or 50.6 per cent. In following this further we find that the poultry specialists had 70.8 per cent qualify, the farmers 21 per cent., the hobbyists 28.5 per cent., and the public institutions 11.7 per cent. In connection with these figures it is possible to remodel or those as shown and in this connection we find poultry specialists withdrew 6.1 per cent., the farmers 22.6 per cent., the hobbyists 27.6 per cent. and the public institutions 5.5 per cent. Thus we find that the hobbyists withdrew fewer birds and had a larger percentage of the original entry qualify. Further in working out the average production of the qualified birds we find that these birds qualifying for certificates averaged as follows: Poultry specialists 184.2, farmers 172.1, hobbyists 183.3, and public institutions 181 eggs, and for these birds qualifying for advanced registration the averages were as follows: poultry specialists 223.3, farmers 205.5 hobbyists 214.5, public institutions 211.1 eggs. These figures represent the entire team all over Canada.

The one-hen is asked who are these hobbyists and why should their average production and their percentage of birds qualifying be higher than the other classes? Included in the twenty-seven hobbyists, whose figures have been considered in the first table we find a medical doctor, a dentist, a banker, a veterinarian, a member of parliament, an advertising agent, a university professor, a civil servant, a minister, a gentleman at leisure, etc. These people have by no means the means which enable them to enjoy a hobby and in others the time necessary to follow the hobby and make it a further source of income. In any case, however, there must be a natural love for the hen and a vision full of productive possibilities. They are all pedigree breeding, which is the essential point and in turn assures it to its more successful that one must look for our pedigree poultry. They keep poultry in the majority of instances in more numerous, is encouraged to the fullest possible extent not only for the purpose of gilding the youngsters a good time, but as an effective preventive of the gross waste of birds matured each year. Such is the present time in connection with our poultry industry in our economic production that not only be necessary through the wider distribution of hen's laying strains of pure bred poultry and the more breeders we have with small flocks taking up the task and more work the greater the need for [illegible] and the greater the necessity for the balance of our poultry keepers.

The poultry specialist is to be relied upon to lead the way in this field as the business is his living. The farmer poultryman must be encouraged to increase his flock and to change from the usual haphazard method of breeding methods to the keeping of pure-bred stock from good laying strains. The farmers has not the opportunity to do the pedigreeing but if the necessary educational work is done and the pedigree stock is available he will soon see the wisdom of taking advantage of the breeding work that has already been done by poultry institutions such as our agricultural colleges are doing a very necessary and useful work along poultry breeding lines and this work serves the additional purpose of interesting students other than those actually following poultry courses in the possibilities and importance of the industry.

What we seem to need then is more poultry breeders who can be interested in pedigree breeding work. We believe that they have a real place in our poultry life in Canada and that their work will be of real and lasting benefit to the industry. The medical doctor will find problems of disease and digestion that will prove of value apart from the actual breeding, the banker will be better able to judge as to the soundness of the business offered him by poultry raisers and our co-operative poultry marketing associations, the clergyman will be given credit for the truthfulness of his records and it will be a powerful factor in poultry work in his community, the member of parliament will be able to do a lot for the upwards seeing that in the rush of national business the poultry industry is not neglected; the advertising agent will receive new inspiration with every cackle of the hen and crow of the cock, the university professor will forget the lectures rooms and appreciate the contact with nature through the [illegible] of his poultry, the civil servant will find in poultry keeping the means of augmenting his income, the minister something that will provide an outlet for pent up love and energy, and the gentleman at leisure an occupation which every able-bodied man should have.

Out Not His Paper

The reporter had been ordered to write up the great fire. Trying to push his way through the crowd he was stopped by a policeman who asked him where he was going.

"I'm a reporter," he said, "and want to get full particulars of the fire."

"Stand back!" said the policeman. "Stand back! You can read all about it in tomorrow's papers."

Two Great Fisheries

During the month of May 439,625 cwts. of codfish were landed on both the Atlantic and Pacific coasts of Canada, valued at $2,461,990.

The term "port" and "starboard" have been used when giving directions to the man at the helm of a ship since the sixteenth century.

India has 26 cities, each with a population of more than 100,000.

Outdoor Swimming

The Beneficial Effects of Bathing and Swimming

"Baths of water are good, baths of air are better, baths of light are best," goes a French saying, but the last is that the best of all bathing is outdoor swimming, where all three health-giving factors—water, air and light are combined. Added to these, of course, is exercise, the greatest health-giving exercise of swimming.

Dr. C. W. Saleeby, one of the most famous of British physicians, says: "There is clear proof that, whether for the well or the ill, no indoor bathing establishment, however elaborate and not any artificial light baths, however expensive, have the same value for the human body as its natural environment out of doors."

There are at least two "diseases of darkness"—tuberculosis and rickets (hereafter) exposure of the body to sunlight and fresh air to be the best preventive of tuberculosis. In fact, the experience of the Os Agnelle Sanatorium demonstrates beyond doubt that sun baths actually cure stubborn cases of disease already advanced in a virulent stage.

Outdoor bathing especially for children [illegible] young people during the summer months is encouraged by the Tofield [illegible] not only for the purpose of gilding the youngsters a good time, but as an effective preventive of the gross waste of birds matured each year. Such is the present time in connection with our poultry industry in our economic production that not only be necessary through the wider distribution of hen's laying strains of pure bred poultry and the more breeders we have with small flocks taking up the task and more work the greater the need for [illegible] and the greater the necessity for the balance of our poultry keepers.

Population and Food

Capacity of Food Producer Continents to Increase

Every once in a while some "thinker" announces that the population of the world doubles every so often (say fifty years and then proceeds to calculate that in the year 2000 there won't be standing room.

The talent of those to Herbert Hoover of Cumberland Maine, who thinks we would all have starved to death long ago if it had not been for war and pestilence. The first economist since the theory was Rev. Thomas Malthus, after whom it was named the Malthusian theory. Yet, while the population of the world may have doubled in the past hundred years, the capacity of the food producer has been multiplied seventy or thirty times.

A smaller proportion of people are engaged in food production than ever before. And after all the land is under cultivation, we can start in on the sea. Acre for acre, the ocean will produce three times as much food as land.

Of course, the world cannot produce [illegible] conditions made for the [illegible] intelligent people [illegible] people can solve the [illegible] which arise from density of population [illegible] and intensive agriculture [illegible] Post.

New Pedestrian Rule Is Causing Trouble

Order to Walk on Left Caused Confusion in London

Our terrible confusion has followed in some of the London boroughs as a result of the new rule of the road, commanding pedestrians to "walk to the left." The Home Office has appealed to the Government to do something to remedy the evil, and strong language is flung by angry motorists and other persons.

The London County Council supports the rule of having pedestrians walk to the left as a safety measure, but the City of London Corporation is opposed to it.

Simultaneously with the shining there is a demonstration of a novel scheme for saving stricken ships.

This, in brief, is to pump water into the separate end where the damage has been caused. This is how the Germans saved the Seydlitz.

A Wet Moon

A Hale Or Ring Around Luna Denotes Wet Weather

The hale which is sometimes seen around the moon, even when the rest of the sky is comparatively clear, is almost infallible sign of wet weather. This halo or ring does not always appear around the moon itself in fact, it is much [illegible] of misty [illegible] from [illegible] in our atmosphere and is caused by the light of the moon shining through a certain amount of moisture, which bends the [illegible] such a way as to form a circle of [illegible] proportions. The greater the amount of moisture present the smaller the circle appears. The appearance time of arrival of the expected rain may be gauged from the diameter of the halo.

Strength

Strength of mind is there and stable strength of nerve. On the account many people who look healthy enough suffer from nervous troubles and cannot understand what is ailing them. Sleeplessness and irritability are among the early symptoms. Indigestion and tired feelings soon follow.

Read this letter from an Ontario man:—

Mr. W. L. Gregory, Charles St. E., Ingersoll, Ont., writes:—

"I had been troubled for some while with indigestion. At times there would be a rumbling of the nerves of my stomach, and I also found it difficult to get a good night's sleep. I am a machine and owing to the nature of my work my system became run down. I took a treatment of Dr. Chase's Nerve Food, and found great benefit from this medicine. They did me a great deal of good. I have not been bothered at all with indigestion since, and can sleep much better. I have recommended Dr. Chase's Nerve Food to many of my friends, as I think it splendid for nervous run-down and needing a tonic."

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first medicaments is unusual and persistent tired feelings and pains in the back.

Neglected kidney trouble leads to dropsy or dropsy from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills — the best known regulator of kidneys, liver and bowels

Mr. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I used a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. They completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicine for what they have done for me and I can say no better for the benefit of others."

IRRITABLE PEOPLE

Are Usually Victims of Poor Blood and Weak Nerves

Irritability is one of the manifestations of nervousness, and it becomes worse as the nerves become more and more strung and approach a state of exhaustion. Then one is irritable from pure irritability, and this state is often accompanied by a feeling of fear, or dread, or physical suffering which irritable person is accompanied by headaches, sleeplessness, nervous indigestion and depression. Unless it is promptly checked more serious trouble develops.

The treatment for the earlier stages of nervousness, as well as the more advanced condition, is one of nutrition of the nerve cells, requiring a tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood, and have proved of the greatest benefit in a great many cases of this kind of disorder. In obtaining a blood-supply corrected by these tonic pills. That is shown in the case of Mrs. Thomas H. Mitchell, Tilbury, Ont., who says: "For a long time I was a nervous sufferer from nervous trouble, with the result that I grew pale and weak, lost weight, slept poorly, and finally got tired out. Various medicines I tried but no beneficial effect until finally I was persuaded to try Dr. Williams' Pink Pills. I found these just what I needed, as after taking them a couple of months I not only gained in weight, but felt stronger, more cheerful and better in every way. I feel that I cannot praise these pills too highly for what they have done for me."

You can get Dr Williams' Pink Pills through any dealer in medicine, or by mail, at 50 cents a box or six boxes for $2.50 from The Dr Will Medicine Co., Brockville, Ont.

Spend your money at home, there by helping you, own town and local merchants.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid. We know that the public will be protected against imitations, only if the tablets it buys are stamped with their general trade mark, the "Bayer Cross."

Raffles At Bazaars

Law Regarding Raffles Held for Religious and Charitable Objects

General Victor Williams, Canada customs, Ontario Police, has issued the following interpretation of the law of Canada regarding raffles at bazaars for religious or charitable objects and instructions to the police authorities

An there is widespread misunderstanding regarding these matters it is well in our carefully what the law is General Williams says

"In view of requests that come from time to time to this department from charitable organizations for permission to hold raffles it seems necessary to again call the attention of police officers and of the municipal authorities to the public generally, to the provisions of the law

"Section 236 of the Criminal Code prohibits lotteries, with an exception in favor of raffles which are a form of lottery by which money or charitable purposes The exception is in the following terms

"Raffles for prizes of small value at any bazaar held for any charitable or religious object, by permission to hold the same has been obtained from the city or other municipal council, or from the Mayor, Reeve or other chief officer of the city, town or other municipality wherein such bazaar is held, and the articles raffled for thereat have first been submitted for sale and some of them are of a value exceeding fifty dollars."

It will be observed that the permission referred to in the sub-section is that of the Attorney General and the police authorities. It is the permission of the municipal authorities, the latter approving of the fact that if there is a strong local sentiment against the sort of thing the permission will not be granted. At all events, the responsibility is on the police to see that the law is complied with. Those authorities have an absolute right to refuse to grant permission for such or they can refuse it

The writer has observed that the permission is confined to bazaars and to bazaars that are being held for a charitable or religious object. Any permission should be granted by a police officer to hold a raffle except for an object that is not within the description or the words the permission should be refused. The object of the general prohibition would apply

Where a raffle is conducted by property obtained, personnel to the proceeds at the station. It will be observed that the law does not give the permission to hold a raffle except for a bazaar held for a charitable or religious purpose. Any bazaar held for any charitable or religious purpose could be held to court for breaches of the law, and the officer will probably find in almost every case a desire to comply with the law

In the event, however, of there being disregarded the officer will be able to watch the proceedings at the bazaar carefully take note of the facts, and then confer with the County Crown Attorney as to what proceedings ought to be taken

While this letter is an instruction to constables of the Provincial Police, it will be sent as information to the Chiefs of Police and Municipal Constables through the Provinces

This law is Federal and is in force in Canada

Ladies Remove Their Corns In A Simple Way

No pain no trouble costs only a quarter. It is a very simple thing to do. Just a small quantity of Freezone and Presto! right and morning. To remove a corn, to get entirely rid of it, then use Putnam's Corn & Wart Extractor. Be sure to get the genuine. Refuse a substitute

Wheat to Japan

That Western Canada will ship considerable more wheat to Japan during the coming season was indicated in the statement made by the director of a large Japanese grain firm on present visiting Alberta.

"COLD IN THE HEAD"

Is an acute attack of Nasal Catarrh. Those who are subject to frequent attacks should at once take steps to build up the System, purify the Blood and render the Mucous Membranes less susceptible to the influence of cold. For this purpose there is no medicine so well adapted as Hood's Sarsaparilla, which by its tonic and alterative action, expels all impurities from the blood, and thus prevents the inception of Catarrh and Colds. Be sure to get Hood's Sarsaparilla

Hood's Sarsaparilla

Is sold by druggists everywhere. Prepared only by C. I. Hood & Co., Lowell, Mass.

Hood's Pills cure Constipation, Biliousness, Jaundice, Sick Headache. 25c.

Less Foreclosures

A reliable source of information in the number of foreclosures on Southern Alberta farms has resulted as a conference at recent provincial legislature, it is stated.

A Remedy for Eczema.—To have to suffer from Eczema is bad enough, but to a delicate organ and few cure in the world equal Dr. Thomas' Eclectric Oil. Use Dr. Thomas' Eclectric Oil. Rub a little well into the affected spot, a piece of lint or medicated cotton will be placed in the ear will do away with it entirely pain.

"Father, what is fate?"

"It's crossing the busy Main Street three time a day for three years, and then being run over by a farm wagon in the country."

COULD HARDLY STAND AT TIMES

Hips, Back and Legs Would Have That Tired Ache

Ernest, Washington.—"For several years I have had trouble with the kidneys and bladder. I would have pains in my hips and my legs would get so tired and tired to be. I could hardly stand at times I was so tired. I was always able to do my work although I did not feel proud. I saw Lydia E. Pinkham's Vegetable Compound advertised and thought I would try it. I decided to try it. I feel first-rate at the present time. It has done wonders for me and I keep it in the house right along. I always recommend it to those who are sick and ailing."—Mrs. J. M. Sumner, 1413 High St., Everett, Washington.

To do any kind of work, or to play for that matter, is next to impossible if you are suffering from some form of female trouble. It may cause your back or your legs to ache, it may make you nervous and irritable. You may be able to keep up and around, but you do not feel good.

Lydia E. Pinkham's Vegetable Compound is a medicine for women. It is specially adapted to relieve the cause of the trouble and does away with pains, aches and "no good" feelings.

Let her does this for many, many women, why not give it a fair trial—from

A Section Gas Lorry

British Firm Manufacturers Truck that Makes Its Own Gas for Motive Power

During the war there were to be seen in Great Britain a number of motor vehicles carrying enormous gasbags on the roof. These bags were filled with ordinary town gas which was used as a source of power in place of petrol—then exceedingly dear. The trouble was so far as petrol that experiments were made to overcome the disadvantages in the storing of town gas under pressure in cylinders. An apparently these experiments have not been very satisfactory result At last, however, the only substitute for petrol to which serious attention is now being given is suction gas, which is produced by drawing air and steam through heated fuel such as anthracite coke or charcoal. Several lorries, between 1 and 2 ton Petrol, brand and already built, generally are still kept in stock in price to encourage suction gas experiments, and the British firm has put on the market a very well constructed three ton lorry driven by suction gas. From the fuel the suction gas produced is made in a large generator located by the engine from the engine. The producer itself forms part of the chassis and is neatly accommodated in a light steel box at the side of the driver's cab, where it is easily accessible for inspection. Its weight has been reduced to the lowest possible limit After being generated the gas passes along a pipe to the scrubber beneath the cab on the way. The scrubber removes the tar, and the gas then passes direct to the engine, where it mixes with air and drives the engine in the usual way. Tests made with a three ton lorry show that when using anthracite it ran at an average speed of 14 miles per hour at a working cost a little below one-fifth that of petrol. This vehicle is specially designed for use in countries where petrol is scarce but where various types of solid fuel are available at a reasonable price.

Lincoln Memorial To First War Victim

German Patrol Killed Corporal Two Days Before War Declared

M Pomeroy, the French Prime Minister, has unveiled a monument to Corporal Peugot, the first victim of the war, who was killed at Joncherey, eight miles from the frontier, by a German cavalry patrol which had invaded on August 2 1914. French territory two days before war was declared

After recalling the circumstances of the incident M Poincare said Whatever may be the efforts attempted today by Germans to escape the judgment of history, they will never succeed in obtaining its reversal and absolution. Even if some sophisticated people try to ignore them the incident should bring them back to their memory."

Canadian Trade With Mexico

The Canadian Government will shortly appoint a trade commissioner and an assistant trade commissioner to proper upon and investigate openings for Canadian trade in Mexico The Federal Cabinet containing the authority, to the appointments were announced by Premier Meighen during and extending health trade relations between that country and Canada.

PETRIE'S MACHINERY TORONTO

KETCHAMOOT

Harvesting commenced last week, the rains have delayed cutting for a few days, but the crops are very favorable so far.

Mr. and Mrs. Carl Mitchell visited at the home of Mr. and Mrs. J. H. Ingram on Monday afternoon.

Mr. and Mrs. W. S. Mitchell and family, Mr. and Mrs. Marsh Mitchell and family, Mr. and Mrs. Conroy Hall and family motored to Edmonton on Monday and saw the big races.

Friends of Mrs. Carl Oliver, formerly Miss Keitha Lee were pleased to hear that a little daughter had arrived at her home. The little Miss will answer to the name of Muzzie Irene Annie.

Those who have not a silo yet, may be on the watch, and when the ensilage is on sale, get a load, for the time for 1925's crop and with it much prosperity to each one, on the yield should be better than ever before.

Miss Jessie Sutton, Messrs. Thomas and Wm. Sutton and Mr. and Mrs. Walter Mitchell motored to Edmonton on Wednesday and spent a very pleasant day in a visit with their brothers and families.

The circus in Edmonton and the Tofield fair made extra scarce this week.

Lots of Rain Now

Nature is continuing to be bountiful in her supply of rain to the city and district, as Monday's rain is giving the country as a whole a good start, and the general feel. Although it is not a great deal, a great amount of good will be derived from the shower and it gives previous falls a better chance to do service.

A number of this last of showers scattered through the fall will reach the subsoil in time for 1925's crop and with a normal precipitation next season, the yield should be better than ever before.

Let's hope that the season's greater than ever before.

Woodlawn

Bertha Hutson and Clifford Plonts of the Woodlawn School were successful in passing the High school entrance examination held in June. Also the following people were awarded prizes at the Tofield Fair.

Grade 8, Bertha Hutson 1st, for map drawing; 3rd, on landscape in water color and 2nd prize for a business letter and envelope.

In grade 7 Genevieve Hutson won 2nd prize for a business letter and envelope.

In offering to renew the five mat is half per cent. Canadian Government bonds maturing December 1st at the same rate of interest as is carried by the maturing bonds, and allowing a bonus of one month's interest, the Minister of Finance is making a material concession to the Canadian investor, as this rate is higher than was paid on the recent Canadian loan in New York. The high class of the security, which is the very best that can be offered in Canada, should lend to large investment in these Dominion bonds. At present is directed to the official advertisement giving details.

Liquor Cases Responsible for Large Docket

The court of justice at Tofield, presided over by Magistrate Jackson of Camrose, had quite a docket on Monday. There were no less than six cases tried including four accused. All the cases were connected either with the liquor act or Inland revenue act.

The first was E. L. Major of Tofield who was charged with having a mash suitable for the making of liquor. He pleaded guilty and was fined $100.00 and costs or nine months hard labor.

The second was a Russian from near Holden, he also being charged with having an illicit mash. He said he is a family of children made the mash without him knowing anything of it. He was found guilty and fined $250.00 and costs. A second charge was also laid against the latter that of obstructing the police in the execution of their duties. On this charge he was given suspended sentence.

Ed Hordle of Holden was charged with selling liquor and pleading guilty was fined $100 and costs or four months imprisonment.

E. L. Major was again brought up on a charge of liquor for sale. He emphatically stated that he had not sold any liquor and did not intend selling any. No evidence was given to prove that he had sold any liquor. He was fined $250.00 and costs or two months imprisonment. His sentences will run consecutively which means that he has 9000 days or eleven months hard labor.

Paramount Week at the Variety

Commencing monday September 4th, there will be a whole week of entertainment at the Variety. The showing of three programmes this week is a plan that originated at Paramount headquarters and consequently film fans are assured that only pictures with a long of novel and entertaining features have been chosen. For Monday, Tuesday there is "Valley of the Mounted" starring Wm. S. Hart. It presents the star as a member of the Canadian mounted police who while in pursuit of a murderer, falls in love with the sister of his quarry.

There are many remarkable scenes in the picture, and those who like to see Mr. Hart in one of his big flatic battles, will not be disappointed. For Norma heads an unusually calibe supporting company which included Lee Willis, Astrid Short, Alfred Allan, Bert Sparrie and others.

For Wednesday and Thursday September 6th&7th, there will be shown "The Prince" being a story of love among the artists. A tender romance of tears and laughter. The picture is taken from the famous play by Edward Peple, stars Thomas Meighan, and is a picture of surprising scenes. Come and for a little while live the carefree life of the bohemian dwellers in the artist quarter of an European city. A wonderful picture of love, laughter and tears."

For Friday and Saturday there will be shown "Called the North." This is a wonderful picture of the northern solitudes. A picture of strong men and women. A picture of action and fancy that will take every one present in expectant anticipation of what

Mr., Mrs. and Miss, A Budget of Local News

Do not neglect your eyes. See M. Meeklinburg at the Royal Alexandria Hotel on September 4th.

There will be services at Holy Trinity Church on September 10th, at 7.30 p.m. also at Ryley 3 p.m. and at Bellgrade 11 a.m.

A basket picnic, under the auspices of the United Sunday School, will be held on Monday afternoon (Labor Day) in the Exhibition Park.

Bring along your basket and enjoy the afternoon with the boys and girls. Sports and races for the kiddies. All invited and welcome. Bring your own drinking cups etc.

Attention is drawn to the advertising at top of page regarding the dance staged by the local Tennis Club. Those in charge promise that this will be a most enjoyable affair. Ryley orchestra has been engaged so good music is assured.

There will be a meeting of the Anglican Ladies Aid in the church on Wednesday September 9 th. All members please be present.

Misses Dorothy and Joan Hoptist returned on Thursday from a fortnights holiday spent at Edmonton and Ft. Saskatchewan.

A delegation of teamsters attended council and protested against the snapping of an ambulance call from this paper and break his arm. However he is doing nicely.

The editor attended a convention of the Alberta, B. C. and Yukon Press Assn. held at Vernon, B. C. on Thursday and Friday last. On Saturday the publishers, large number accompanied by their wives, by the courtesy of C.P.R. were united to a boat trip down the Okanagan lake. A complete report of the trip will be given in next weeks issue; suffice to say the hospitality of the Okanagan people could not be surpassed and the trip was in every way a most enjoyable one.

At a meeting, to organize a singing class in connection with the Girls Club at Tofield, will be held in the basement of the Union Church on wednesday September 9th at four o'clock. All girls between the ages of ten and twenty, and any parents who are interested are cordially invited to attend the organizat ion meeting.

Mr. Ed Leighton left on Friday for B. C., where he expects to spend the winter. He was accompanied by Mr. Innis.

Audrey and Della Brooks of Saskatchewan, are visiting in town this week.

Miss Agnes Brulo is assisting Mrs. Roy Lee in with her work.

Miss Marion Carter is spend two weeks holidays in Edmonton.

Mr. Taylor visited the city on Friday.

the next scene will depict. If you like the big out-doors, the company of lovers and nature as God created it, connected up with all the attributes of humanity by a master writer, see the "Call of the North."

After all of the features there will be a Sennett comedy. These comedies have been chosen with special care and are all as full of fun as an egg is full of meat. Usual Admission.

Charles Barden came home on Wednesday evening after a long visit with his Aunt, Mrs. Paul, of Edmonton.

Wm Bowick and Mark Ferguson made a business trip to the city on Thursday last week.

We hear that L. Abbott is returning to the barber business and will operate a chair with A. L. Bench

A large number of young people attended the dance at Thomas's barn on Friday night of last week. All report a good time.

Mr. F. Barroughs of Hurley, Alta. was in Tofield on business last week.

Mrs. T. Herndon went to Edmonton on Wednesday to visit her daughter Edith who was taken to the hospital on August 16th, to undergo an operation for appendicitis.

Mr. and Mrs. John Xene left on Tuesday for Camrose.

The final games of the tennis tournament will be held on Friday and Saturday of this week. The complete results of the tournament will be given in next week paper.

Miss Barbara Carlisle and her sister Gertrude were taken to Edmonton hospital, both girls have typhoid fever.

Master Clarence Gray had the misfortune to fall from his porch

Miss Lola Mitchell spent a few days at the house of her brother Marsh Mitchell and family the past week.

Mr and Mrs Chester Chambers attended the dance at Sonnes on Friday night.

In spite of the busy time a large gathe ing was present at the monthly meeting of the Women's Missionary Society held at the home of Mrs C. Mitchell on Wednesday afternoon The Vice-President Mrs A. Ingram lead the meeting followed by a dainty lunch served by the hostess. The September meeting will be held with Mrs W. Mitchell

There will be a meeting of the W. I in the Rest Rooms on Tuesday, Sept. 9th.

Miss Muzzy Mahaffey returned to her school near Strathcona where she is teaching, this winter.

Mrs. M. C. Mahaffey is visiting Mrs. H. E. Adams of Calgary, this week.

Mrs. Hoppard and Robert returned home last week after a long visit with her daughter Mrs. Clements, of Duffield, Alta.

Mr. and Mrs. Bardo Farms Damaged by Hail

The grain on several farms in this section was badly damaged by the hail storm Monday P.M. Further East, around Duhamel, the crop entirely destroyed even the grain in the shock was badly damaged.

On Monday Miss Nora Rude Mrs. Bennie Anderson, Mrs. Monard Finseth, Myrtle Rude and Carrie Bekkan, motored to Kelsey and spent the day with Mr. and Mrs. Geo Rieder. Mrs. Myrtle and Carrie remained until Thursday. The other ladies returning in the evening were just behind the hail storm that passed through south of Camrose. At Hoadon, even the leaves were stripped from the trees.

Services held in the new Lutheran Church at Bardo on Sunday, conducted by Rev Bonning

Kelsemont News Budget—Escapes Hail

Our district escaped the hail storm of Monday evening, we consider ourselves very fortunate as a heavy hail storm passed West and South of us distroying much grain and gardens.

Bertha and Edith Neal of Lake Shore returned home on Thursday after spending a few days with their grandmother Mrs Bleiknor.

Mrs J H Ingram and little daughter Kathleen visited with Mrs J D wheeler on Thursday.

Mr P Burness returned to his her home in Edmonton on Friday after several days visit with home folks, the Sutton families. She was accompanied home by her daughter Mabel, who has been spending her holidays at the Joe Sutton home.

Mrs George Lawson returned home on Thursday, after an extended visit with her mother and other relatives in Michigan.

Mrs Carter of town has been lending a helping hand at the phalts to me the past week.

Harold and Alvin Stoltz returned home on Thursday after several weeks holiday at Hoadon with their grandmother

Harold Lewis of Tofield is putting up hay with Oscar Bergsa

Mr and Mrs Vonnie and family were guests of Mr and Mrs Clarence Mitchell on Friday.

Miss Lola Mitchell spent a few days at the house of her brother Marsh Mitchell and family the past week.

Mr and Mrs Chester Chambers attended the dance at Sonnes on Friday night.

In spite of the busy time a large gathe ing was present at the monthly meeting of the Women's Missionary Society held at the home of Mrs C. Mitchell on Wednesday afternoon The Vice-President Mrs A. Ingram lead the meeting followed by a dainty lunch served by the hostess. The September meeting will be held with Mrs W. Mitchell

There will be a meeting of the W. I in the Rest Rooms on Tuesday, Sept. 9th.

Miss Muzzy Mahaffey returned to her school near Strathcona where she is teaching, this winter.

Mrs. M. C. Mahaffey is visiting Mrs. H. E. Adams of Calgary, this week.

Mrs. Hoppard and Robert returned home last week after a long visit with her daughter Mrs. Clements, of Duffield, Alta.

Which Soap?

All soaps will cleanse, but only will not destroy disease germs. Germicidal Soap not only removes grease and dirt from the hands, but it destroys disease germs and prevents infection.

Germicidal Soap is three things in one: a cleanser, a disinfectant, and a deodorant.

GermicidalSoap is a good general soap for toilet and bath purposes. It frees the skin from perspiration odors, from the germs of infection, as well as the very poisons that cause skin eruptions.

Get a cake of Germicidal Soap today. Price 25 cents.

AN EXTRA COW (or Two)

While Jupiter Pluvius is holding back the cream with consequent short crops it is assuring to know that "Bessie is in the pasture and the Tofield creamery on the Hill"

But an extra cow (or two) will make a satisfactory situation better. The average cow at present prices will give cream to the value of approximately 33 cents per day, and milk for 300 days in the year. This means an added $99.00 to the family fortune. Think it over

The WISHING FAIRY

THE SALMON

PARR (BABY SALMON)

SALMON

Some More Truths.

WOULD you use a steam shovel to move a pebble? Certainly not. Implements are built according to the work they have to do.

Would you use a grown-up's remedy for your baby's ills? Certainly not. Remedies are prepared according to the work THEY have to do.

All this is preliminary to reminding you that Fletcher's Castoria was sought out, found and is prepared solely as a remedy for Infants and Children. And let this be a warning against Substitutes, Counterfeits and the Just-as-good stuff that may be all right for you in all your strength, but dangerous for the little babe.

All the mother-love that lies within your heart cries out to you: Be true to Baby. And being true to Baby you will keep in the house remedies specially prepared for babies as you would a baby's food, hairbrush, toothbrush or sponge.

Children Cry For Fletcher's CASTORIA

Your Friend, the Physician.

The history of all medicines carries with it the story of battles against prejudice and ignorance: fights against the over-zealousness of opinion among scientists and men devoting their lives to research work; battles always in the best interests of mankind. This information is at the hand of all physicians. He is with you as a members call to the trouble trifling or great. He is your friend, your household counselor. He is the one to whom you look for advice even though it might not be a case of sickness. He is not just a doctor. He is a student of health and disease. His patients are his family and to lose one is little less than losing one of his own flesh and blood.

Believe him when he tells you—as he will—that Fletcher's Castoria has never harmed the littlest babe, and that it is a good thing to keep in the house. 26

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigour of the nerve cells is restored by such upbuilding treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders or often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearse, Nunn St., Cobourg, Ont., writes:

"My system became run down and I suffered greatly with pain in my head. This was so severe that I would have to lay down for hours at a time. I had tried a number of remedies without getting relief, but after using a few boxes of Dr. Chase's Nerve Food I was able to go about my work as usual. I can highly recommend this treatment to all who are suffering from nervous headaches."

60 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Humiliating as is the thought, I am forced to believe that an apparent embarrassment on that former occasion was not embarrassment at all, but a premonition of what was to be. I have a dim recollection of having to need discipline. I do not approve of rude politeness accompanied by a rudish. I was very fond and very thankful, shuddle bored in fact, I do not were to judge by my deportment I have that there were any of the kind in that of the country."

"Then you don't believe in fairies?" both answered. And then we told them about the fairies we knew.

They are English, of good family, they related to all the refugees in the country of Ivy. But there were fairies of every kind, as I was Miss Alice's phrase, combined business and pleasure in a visit to the land of Ivy, and while there persuaded Mr. Carroll to edit all his tales for them. He enlarged upon the idea, and I was told you had no more idea of the fairies Alberta writers, but he omitted all mention of them, and that two thirds of the land we could not even a silver bottom and a silver-lining. Satin ribbon was the best to harmonize. And I did not tell them that the paper I had to the best beside Punny. He is a man who is crossed shark, with no bone and a cool head.

It is easy to see that Mr. Carroll found that they had been tricked that he owned to the men with whom he was dealing had to be apparently practical—at any rate, they no more, for they were all of a practical turn and absolutely pitiless ever, as I found out when he brought it to me. I still remember as much as they found that they had been tricked that tried to conceal the appearance and to have their business conducted by an agent had stripped the romance and have been bound to serve.

It made me feel positively worried to see the place. Mr. Carroll came to the door as we drove up and in the left a friendly call, but as soon as he saw who it had been a matched. But when he seemed to be most pleased to see us. And then we would not get out of the warm air. We were in the new addition to the house. Mrs. Bingham introduced me, seeing that I was from England and that I was to spend the winter at the ranch. "From England," Mrs. Carroll repeated slowly, and I hope I shall never again see an expression of sadness such as crossed her face as she spoke. Mr. Carroll did not appear. I have form an opinion, not so much from what Mrs. Bingham said as from what she left unsaid, that I, has allowed him until to brood over his bad fortune, and that if he could only be persuaded to exert himself matters might be great-

ly improved. They have one child, a little boy of about [illegible] years.

In ten minutes we "let the trail" again and again drove miles and miles over plain and through valley. I was beginning to feel as if my back were all inches too long and to speculate upon how many degrees of cold would I pool off my nose, when apparently [illegible] called "Ranch" and Auntie Elinor, and don't open [illegible] until I tell you."

I closed my eyes obediently, glad [illegible] over them from the biting sun. Promptly they were opened by [illegible]

"Now, Auntie Elinor, look!"

I looked.

And far away in the south-west the [illegible] line of the Rockies broke into the blue of the sky. So far away that their fantastic cohesion was not discernible they seemed to be made of shimmering crystal. The whole picture was beautiful in that unexpected way that mountains are.

"That is our ranch," said Mr. Carroll, [illegible] to the left. He belongs to the [illegible] and that's how [illegible] stood Sunny.

I looked until my eyes ached, then rested them and looked again. It was never tire of looking. I wonder? Would I say that the remainder of our drive was uneventful?

David was waiting for us at the first [illegible] and was a small and ungainly [illegible]. He wriggled with joy all the way from the top of his nose to his rudimentary tail, ran backwards and sideways in his excitement, [illegible] and [illegible] and [illegible] to the seat beside Punny. He is a [illegible] and [illegible] and [illegible] black spot around one eye is [illegible] three legs "to write sympathy." Mr. Carroll says he is a fraud.

He is one of [illegible] members of the household. Lee, the Chinese cook, [illegible] was seriously injured by an [illegible] I mean—and conducted us to the [illegible] room where, as the Saffron Argus would say, a sumptuous repast awaited us. If my dairy farm proves a failure, I shall go into the boarding-house business.

(To be continued)

Airplane Steered By Rudder

For two hours the pilot of an aeroplane had his hands off the control ling wheel on a flight from Paris to London—a distance of about 200 miles. The directional steering was done by means of the rudder, the machine otherwise flying on an even keel uncontrolled.

Canadian Cattle Prices in Britain

Cattle from Canada Commanded High Prices on British Market

While Irish bacon cut retains its position in the British market Irish cattle do not seem to be doing so well [illegible] owing to the disturbed state of the country. The Dominion Live Stock Branch reported Irish bacon selling at from 120 shillings to 127 shillings the long hundredweight [illegible] hot at from 118 to 132 shillings. Vans slan at from 126 to 140 shillings and United States at from 115 to 120 shill ings. The value of Canadian cattle commanded as high as 116 a pound live weight and Irish at from 75½ to 78½. Prince Scotch ranged at from 78½ to 87½.

Reporting on the market the Livestock Branch reports said ofe spring rise had been maintained and that a keen interest was being shown in western products.

Stop the Cough.—Coughing is caused by irritation in the respiratory passages and is the effort to dislodge obstructions that cause the trouble. The mission of the nervous tonebenne Peruvian Syrup is Thomas' Eclectric Oil will allay the inflammation and to consumption. Relieves the cough at once. Try it and you will be satisfied.

Farming Second Industry in B.C.

Production of the Forest Leads With a Good Margin

Agriculture, with a production of $29,742,894, was the second industry in British Columbia in 1921, according to a report issued by Hon E. Bur ne Ministers of Agriculture Production shows a shrinkage of $1,39 per cent. in value from the preceding year owing to decreased values.

Forest products lead the province with a value of $44,879,000, while mineral production had a value of $29,864,611 for the same period. The fish crop for 1921 was the largest on record. Its value to the producers being $8,504,855, an increase of 13 per cent over the value of the 1920 crop. In dairy products there was an increase of 816,555 pounds of butter, while egg production increased by 300,677 dozen.

The area planted to fodder crops was 8,546 acres more than in 1920, but the total value of fodder crops was $4,000,432 less, owing to the low er value of the hay crop. The honey production was 300,074 pounds, valued at $60,015, against 967,091 for the previous year.

Saskatchewan's Agricultural Production

Total Value of Production for 1921 Was $444,937,073

The total value of agricultural production in Saskatchewan in 1921 was $444,937,073, made up of grain crops $291,722,873; field crops $14,967,000; farm products $32,914 436, and live stock $105,332,764. Livestock in 1921 created a record in number and value, being 1,179,180 horses; 1,543,322 cattle; 105,693 sheep; and 422,176 swine, in the province. The total amount of wheat produced in the province in 1921 was 240 317 452 bushels from 12,- 754,708 acres the greatest of any season in the province's history with the single exception of 1915.

Vancouver's Sea Visitors

A rough estimate of the number of ships entering the port of Vancouver in the first six months of the year has been made by the Harbor Board, and the surprising total of 347 deep sea vessels, exclusive of coasters, has come to the port of Vancouver. This total will allay the pessimism and to consumption. Relieves the cough at once. Try it and you will be satisfied.

A Sea Poacher

A sea Poacher man has invented a sea-bathing machine for instructions.

Husband and Wife Nearly Dead With CHOLERA

The chief symptoms of cholera are vomiting, and purgings occur either simultaneously, or alternately, and are usually sudden and very violent, and the matter ejected from the stomach has a bilious appearance and a fairly bitter taste

In the first symptoms appearing, Dr Fowler's Extract of Wild Strawberry should be taken, and the trouble checked before it becomes serious

Mrs. Jesse Smith, Campbellton, N.B., writes:—"We have been using Dr. Fowler's Extract of Wild Strawberry for cholera. My husband and I were pretty nearly dead with it until we started to use your medicine, and thanks to it, we have found great relief, and are recommending it to all our friends."

77 years' reputation stands behind Dr. Fowler's, therefore you are not experimenting with some new and untried remedy when you get it.

PETRIE'S MACHINERY TORONTO

WORLD HAPPENINGS BRIEFLY TOLD

Fire of unknown origin totally destroyed the roundhouse and [illegible] shops of the Eastern British Columbia Railway at Corbin, with an estimated loss of $70,000.

Arthur O'Brien President of the Gaelic League of London, who was interned Aug 2 by the Free State authorities has been released from the Mary borough Barracks

Ten persons were killed and 8 wounded during Polish artist manifestations at Posen, when a crowd accidentally dropped a bomb among 300 spectators.

Mr. Sir Douglas, 11,171 feet, has been conquered for the second time by eleven guides, under the leadership of Colonel Kennedy, of the Canadian Club of Canada, who were in charge of Rudolph Aemmer, the well known Swiss guide

The Riga correspondent of the Times says it is reliably reported that serious Russo-Prench negotiations are developing in Berlin, Paris and Moscow, and that the appointment of M Tchitcherin as Soviet envoy in Paris is almost certain.

J. B. Craig and J. A. Richardson have been elected President and Vice President respectively of the Winnipeg Grain Exchange. Dr Robert Magill was re-elected secretary treasurer

It is estimated that, in the process of consolidating the Militia Department, the Air Force and the Naval Service Departments, Ottawa, upwards of 1,000 employees have been deprived of their positions.

Owing to the shortage of coal the Ford Motor Company's Highland Park plant at Detroit, has been equipped with oil burners The change was made without loss of time to safe, of the 42,000 employees.

Nearly one-third of the 250,000 war widows in Great Britain have married. The rate of re-marriage at one time was as high as 2,000 monthly but recently the rate has decreased to something less than 1,000 a month

Reports to the health section of the League of Nations show that in the Kharkov district of Russia early this year people were dying at the rate of 60,000 a month, or a mortality of one in every 1,000 Between March 1 and 20, 125,000 persons died of hunger.

Taste the joy of living!

THERE is no greater joy than perfect health—the heritage of those who obey the simple laws of Nature.

Drugs are useful in case of sickness, but Nature strongly objects to their continued use by normal, healthy persons.

Caffeine, the alkaloid in tea and coffee, is a slow but powerful drug. In the hands of a doctor, it is useful and beneficial. But taken regularly, as a daily stimulant, it often upsets the nerves, causing serious organic troubles.

Thousands have found health and satisfaction in Instant Postum—the healthful, wholesome cereal beverage made from roasted wheat. It is fragrant—delicious—satisfying —and safe.

An All-Metal Aeroplane

Airships Made of Aluminum May Supplant Earlier Types

There is reported to be in Great Britain the first aeroplane to be made wholly of metal. The advantages of doing away with wood and other combustible material need not be emphasized, and the all metal aeroplane gives promise of supplanting all the earlier forms. A special alloy of aluminum is used in its construction and the Government is at present engaged in making very exhaustive tests of the strength of its parts. Special attention is being given to the tests in connection with the metal employed and investigations on this point are being carried out in the Department of Scientific and Industrial Research. So much depends on this new type of aeroplane that although the first flying tests have been very satisfactory the Government is going to regard the model as an experiment and to suspend [illegible] most exhaustive examination over a one period is completed

Corns Between the Toes Painlessly Removed

A [illegible] cure, dependable remedy that has been in [illegible] use for the past fifty years will surely fill your [illegible] Putnam's Corn Extractor is a real reliable corn remedy—it stands the test of time and never fails. Try it everywhere.

Testing Tractors

Office that Gives Details of Test Performances

It is by no means an easy matter for a manufacturer to produce any type or tractor in his particular [illegible] of business, and the purchaser, of course, is in that accurate details should be available of test performances of every machine offered for sale. To value the use of an instrument for recording the exact pull which the tractor exercises under different road [illegible] The [illegible] is [illegible] employed for this purpose were of rather a laboratory character, and [illegible] engineers therefore [illegible] to design an appliance which, while accurate, could [illegible] withstand the rough conditions of tours in ploughing and other operations. The instrument he has designed has [illegible] and likely successful and has been adopted by British and other governments for testing haulage appliance of various kinds. It can be arranged to give [illegible] on a chart of the time occupied by any particular test, in addition to the draw bar pull at any moment; and it will record the depth of the furrow which is being ploughed.

Miller's Worm Powders were designed to expel worms from children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms with out injuring the delicate lining of the [illegible] system They act thoroughly and painlessly and though in some cases they may cause vomiting, that is no indication that they are worthless and not of any nauseating property

Shipping Wheat Via Vancouver

According to a prominent Vancouver grain dealer the movement of wheat through Vancouver is the largest equal best year's total He has just returned from a business trip through Alberta and Manitoba. Chi nese and Japanese laundries have become active during the past year, and the first shipments will be in late October or early November.

Soothes Irritable Throat, Relieves Bronchitis Quickly

THE TOFIELD MERCURY

VOL. 27. NO. 43 TOFIELD, ALBERTA, THURSDAY, SEPTEMBER 7, 1933 SUBSCRIPTION IN CANADA $1.50, U.S. $2.00

Editor Makes Flying Visit to the Okanagan

As announced in our last issue, the editor, due to the courtesy of the Canadian National Railway and the Canadian Pacific Railway recently took a trip into the Okanagan Valley, where he attended a convention of the Alberta British Columbian and Yukon Press Associations, held at Vernon on August 21 & 22th.

Before writing of the trip it will it is interesting to re-read some of the letters of invitation and even unusually a few extracts from them in this article.

R. D. Hall of the Trail News says, "Punch time in Okanagan is said to be something the children talk about and old folks pine for. It is then that Old Dame Nature puts on her best bib and tucker and vamps the visitors, and the Okanagan far more wear smiles that won't wear off. Walker, of Enderby, says that peaches grow on trees. Well, let's go over and see if he's telling the truth Newspaper men tell so many things that it would be rather peculiar if a little truth should not now and again get mixed up with the print."

Hugh Savage, of the Cowichan Leader, Duncan B.C. writes "I am instructed to pour forth such eloquence that, after perusing this, you will work like blue murder, sustained and supported by the thought that on Thursday, August 24th, you will join your fellow murderers at Vernon in mutual conspiracy for improved methods of slaughter. Look, your town, your district demands the best that is in you or that you are capable of getting to give in its service through your paper. You must keep abreast of the game."

J. A. Bates of the Fraser Valley Record tells how he collected seven dollars that was owing on a subscription, by sending the subscriber a bill for $13.00. It was very appropriate that this publisher should print in a faint tint in the centre of his letter a cut of a male member of the bovine species.

Louis J. Ball of the Vernon News, wrote, "But we want you all to come! Drop your business cares for a few days and join with your fellow publishers in gaining knowledge and exchanging ideas, and at the same time get a close-up view of one of the finest sections of our fair Dominion."

Walter Gordan of the Revel stoke Review, wrote, "And think of the pennies—We mean the ones that grow on trees. Finally brethren, drop your typesetting stick, leave an extra feed for the office cat and stunt your brother publishers at Vernon on August 24th."

After receiving such alluring invitations it was not surprising to find that the attendance numbered nearly 125 including the ladies. Your editor left Tofield on Wednesday morning, connecting at Edmonton with the C. P. R. 12.40 train for Calgary. The journey to Calgary was uneventful. From the windows it was plainly to be seen that the various districts had experienced a dry summer. While at Red Deer, it rained in real raining and continued until near Calgary. At a station near Calgary there was a quantity of hail on the platform but the crops in the fields were still standing. The train going west was ready to leave when the south bound train arrived, and it was only a matter of stepping from one train to another. For the first hour out of Calgary I occupied the day

Mr., Mrs. and Miss, A Budget of Local News

L. Abbott has again joined the ranks of the tonsorial artists having forsaken the simple difficulties of operating a chair in the shop of A. L. Busch.

Word is to hand that a young son has been born to Mr. and Mrs. "Bob" Morton (late of Tofield.)

The desk at the Mercury office this week has been the recipient of Mrs. Easton bees adorned with a bouquet of flowers. The bouquet contained a variety of blossoms and is ample evidence of the care Mrs. Easton bestows upon her flower garden.

Mr. Wright met with a severe and painful accident last week. He was using a cold chisel and a piece of steel flew off and entered his eye. The next day he was compelled to go to Edmonton where it was found the eye had to be removed.

Mr. Muskett while working with the binder last week met with an accident that prevented him working for some days.

A. Hingley opened the doors of his new store to the public on Saturday last. Mr. Hingley is specializing in ladies wear and has an up to date display in this line.

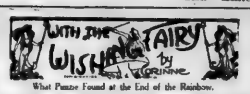
The whistle of the thresher is now heard far and near. As was to be expected the returns are below average though not so distasterous as was at one time during the growing season expected.

Mr. and Mrs. Doak are away at present on a vacation. Mrs. Doak is in the States and Mrs. Doak is in the States and Mrs. Doak is in the States and

Entirely New Treatment For Bronchitis, Catarrh

No Internal Medicine to Take

I want any sufferer from Bronchitis, Catarrh, Asthma, Hay Fever, Throat Troubles, Chronic Coughs, Weak Lungs, or kindred troubles, to write me at once for particulars of my own method of home treatment, which I am convinced will do more for you than all the medicine you could take for a whole year. I make this offer because I positively know that my method will do all I claim for it, and I want every sufferer to have the opportunity to try it at my expense. No matter what you have used or what you believe to be the cause of your trouble, write me and I will tell you how you can try my method entirely at my own expense. No obligation on you in any way whatever. Don't suffer another day without writing me. Just your name and address on a postcard will do. Write today. Address: Frontenac Institute, Dept. 1, Buffalo, N.Y.



What Pansie Found at the End of the Rainbow.

D

It's very fond you about the time that Pansie started off on a long, long journey to the end of the rainbow to find a pot of gold, but I've a wonderful story about the wishing fairy that I'm sure you'll like to hear, so sit down and listen to me and I'll tell you all about it.

It was a beautiful day in the month of October, and Pansie was walking along a country road when she met the wishing fairy. She was a very pretty little fairy, and Pansie thought she looked very kind, so she stopped and asked her if she could tell her where the rainbow ended.

"Why, yes, my dear," said the fairy, "I can tell you that, for I have been there myself. It will be no trouble for you to find it, for you can see it from here. It is the very nearest hidden end. Oh dear, I wish I had time to wait for one of those pretty rainbows myself, but I must hurry on to my home in the sky, for I have a number of things to do before I go to bed tonight."

Pansie looked up and saw the rainbow, and suddenly the clouds parted and there was the fairy's home in the sky. The little fairy was standing in front of the door, and Pansie could see the fairy's children playing in the yard. She knew they were fairies, because they had wings, but they were not as big as the wishing fairy's wings.

"Now, my dear," said the fairy, "I must be off

Town Council Meeting

(married over from last week)

A regular meeting of the Town Council was held at the town hall on Monday evening, Mayor McCauley presiding. There were present Councillors Bence, Dixon McHeffey, Swift and Worton

The secretary reported that C. Bowick desired to purchase the Twitchell property consisting of a lot and shack. It was decided to sell C. Bowick the property for the amount of taxes standing against it, also at $30.00

The secretary was authorized to write a firm of surveyors re fees required to survey cemetery plot.

It was decided to rent Mr. Hicks the town's interest in the hot wheels Mr. Hick's residence now stands for $15.00 for the year 1922.

"Little Drops Of Water Little Grains Of Sand."

All of us who attended Sunday School in our young days will remember the hymn commencing thus.

The lesson that big things are only built up by the massing of smaller ones, is a valuable one.

To the Mercury at this season of the year this thought has special significance. Fall time is subscription time, and while a dollar and a half is not a large item, this sum multiplied many times assumes an amount of great importance to us---an amount that stands between us and the successful running of our plant.

nentia stab but quickly dropped it, which should be a good argument for anti-cigarette enthusiasts. If a fish has brains enough to tot cigarettes alone—but why go on, if there had been a medal for smoking I would most likely have won it. Sicamous is chiefly a junction place and headquarters for fishermen. There is a C.P.R. hotel there but few residences. Leaving Sicamous about 10 o'clock the journey south to Vernon was through a variety of country. Roughly the first half was planted to grain with here and there large hay meadows. In the second half the fruit orchards began to appear, though few can be seen from the train that is one feature of this journey from the main line to Vernon, to get an accurate idea of the country one must get away from the railway. I arrived at Vernon at 12.30, making the trip from Tofield in 27 hours which considering four trains were used—and the journey was through a wonderful mountain range is a testimony to the efficiency of the Canadian Railroads. Vernon is a city of 5000 population. It has fine public buildings, notably a post office and court house. The business section is up to date and the residential sections have a permanent and homelike appearance. There are two good hotels the National and another the name of which escapes me now. The National is a modern house, run on the American plan. An interesting feature was the English method of serving meals viz: in courses, soup, fish, entrees, meats, vegetables, and dessert. Ours was also at liberty to smoke in the dining room. It was here that I first became acquainted with the peaches, there were two or three fitting around the dining room balancing trays of dishes, there was also a beautiful cut glass dish piled up with peaches from which one could pick at will.

Thursday afternoon and evening were given over to purely provincial matters, both associations holding separate

On Friday morning and afternoon joint sessions were held at which addresses were given by well known men in Canadian newspaper life. The first address was given by Mr. J. Imrie, manager of the Edmonton Journal. His topic "The Weekly Newspaper's Opportunity" was exceedingly well treated and was very interesting. "Handling Government Advertising" was a subject dealt with by Mr. Gilbraith of the Red Deer Advocate. This was ably handled and well received. The next subject "Going to Hell Your Own Road," it should be said, contained all the profanity in its title. The paper was read by J. B. Cowan of Vancouver and contained a lot of healthy reminders that "the way of the transgresser is hard" He was followed by Wm. Brand also of Vancouver who spoke on "The way out; your opportunity to stay out." His subject was purely technical dealing with costs of production. His address was illustrated by the means of charts and at the close he showed one entitled "The argument for two bits an inch." It contained a conversation between a publisher and visitor to his office. To each question the visitor put re ceived the answer was vague and pure guess work (a very common thing in actual practice). The last question, "Have you a car?" was answered by "No, but my son George has, he's a barber by Trade." The afternoon session was taken up by an address by a Regina man and the discussing of the questions taken from the question box. One question re local papers accepting Eaton advertising caused considerable comment the general opinion being that it was a question each individual publisher had to decide for himself. This finished the business sessions.

At 2.30 cars were on hand to drive the party through the orchard districts, tributary to Vernon. Just before leaving the city we stopped at one of the large fruit packing houses. The apple packing season had not commenced but for our benefit one of the big grading machines was started. The way the apples are graded according to size is almost uncanny but it is simple. The apples are carried along an endless chain in which are a number of gates. As the apple travels along it sooner or later connect with a corresponding weight which causes the gate to drop open and let the apple fall into a chute.

We were driven around the famous Coldstream fruit ranch. Not so very long since, this ranch of over a thousand acres was almost purchased by some Japanese. The drive ended at the Vernon county club at Kalamalka Lake where a bountiful supper was provided. There was also placed on the grounds a display of the choicest fruit bearing a card which read, "help yourself." There were many varieties of apples, pears, plumes, greengages, ran talcupes and peaches. After supper a dance was held in the club house which was enjoyed by many.

(Continued next issue.)

Mortgage Sale of Farm Property

Pursuant to the directions of the registrar and by virtue of the powers of sale provided by the Land Titles Act, under a certain mortgage which will be produced at the time of the sale. There will be offered for sale by public auction by Donald Sutherland, at the Alberta Hotel in the Village of Ryley, in the Province of Alberta, on Saturday, September 30th, 1922 at the hour of 3 o'clock in the afternoon the following property namely.

The north-west quarter of section thirty-six (36), Township fifty (50), Range seventeen (17), west of the fourth meridian, in the province of Alberta, containing one hundred and fifty-seven point seven (157.7) acres, more or less

Reserving thereout and therefrom (if any) all mines and minerals.

TERMS OF SALE—The terms of sale to be ten per cent (10 per cent) cash at the time of the sale and the balance on 60 days, or $250 00 may remain on mortgage, repayable $25.00 yearly and the balance in 3 years with interest at 8 per cent

The above property will be offered for sale subject to a sealed reserved bid and to the usual conditions, same being for the current year.

The vendor is informed that the above property is situated about seven miles from Ryley and two and a half miles from Lavoy on the main and three miles from school. The vendor is informed that house and barns are under cultivation and that 30 more are suitable for cultivation, the rest of the land being pasture and hay land. The buildings consist of a one story frame house 18 x 28, with shed all round 10 x 14, log hen house 12 x 16, log and board cow barn 18 x 60, log horse barn and granary 16 x 20, wood and coal shed, and another well and all fenced.

For further particulars and conditions of sale, apply Emery, Newell, Ford & Lindsay, Barristers, Canada Permanent Building, Edmonton, Alberta.

APPROVED:

A. T. Kemp ed, Dep. Registrar

TRANSFER

The most effective publicity medium is the newspaper.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery impediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

Egg Yield Increase

Government co-operation in marketing Alberta eggs has resulted in the sale of the product. Superintendent Hare of the provincial poultry department, reports that the increase in the eggs marketing bonus is five hundreds per cent over the showing of the corresponding period of 1921. More than twenty carloads of eggs have been handled already this season. The prices paid to farmers ranging from 23 toff cents for "extras" and 20 to 23 cents for number "ones." The egg marketing scheme was instituted two years ago by provincial government and is carried on under advances voted by the legislature, the Dominion government poultry branch assisting in the work through its provincial agents.

The Public Suffers And Pays

A new speaker departed from Detroit on August 27 reported Henry Ford as saying that, as a result of the coal shortage, 100,000 men, 10,000 employees of the Ford Motor Company throughout the United States would be thrown out of employment and hereafter it was said that in addition several hundred thousand other workers employed in industries including the automotive for the Ford plants would be forced into idleness. In other words, the means of the threat of between one and two million people would be set adrift.

These hundreds of thousands of men and their families are to suffer through no act of their own nor because of any dispute with their employers —because it is well-known that the Ford employees are well paid and well treated but solely because of a labor conflict between the coal operators and the miners, and the attempts being made to settle this difference of opinion by the waging of an industrial war instead of endeavoring to reach an industrial solution through an arbitration conference.

Why should these people be made the innocent victims of the unreasonableness of others and of such others? In our boasted civilization such a poor thing that leaders in public life, in finance and industry, and in the direction of our political fabric rather than be forced to adopt a reasonable attitude of conciliation and arbitration, are leaders on devoid of commonsense and in intelligence as to stand by and see the operation of what constitutes right and justice, that they are ready and willing to inflict loss and suffering upon hundreds of thousands of absolutely innocent men, women and children? Is there any moral to see why side to the questions confronting them but that in which industrial up their own selfish interests they are surely guilty of a criminal indifference to the interests of many very probably far greater than their own?

The coal strikes in the Canadian Maritime Provinces and in Western Canada have been settled and the miners have returned to work but only after enormous and quite unnecessary losses have been inflicted upon both parties to the dispute, upon others in quite no-way involved, and ought to have been settled by conference before the strikes took place instead of after they had begun. Miners and their employers alike have lost money the public exchequer has been put to heavy and unwarranted expense—all of which the public must, in the final analysis, pay.

And now with what is generally admitted to be the second most disastrous crop in the history of the Dominion to be transported by rail and boat in the fall it seems to the world just beginning to move, our transportation systems will have to be called upon to handle an enormous volume of grain traffic in order to fill up coal and also coal bins which ought to have been handled during the late slack months in great movement. Instead of our transportation systems being enabled to spread the freight movement over a long period, they must cope with the peak loads at one and the same time.

Just what this means in the hot loss cannot accurately be estimated but all are familiar with the subject knows that the loss will be enormous, while no one can foretell how much must be spent for in the most expensive manner of all—in the hand expensive way. So here again, the public must pay. The loss will be upon them. This is clearly revealed in present and prospective coal prices, and also in the warnings being issued of the probable difficulty of obtaining adequate supplies at coal when they are needed.

Short sighted indeed from any question as to whether the miners or the mine owners are primarily responsible for these huge losses and inconvenience to the public. For it is the much greater issue of the rights of people generally—the public—that must prevail during and abandon their attitude of hostility in the determination of the opposing forces of Capital and Labor. Each is a great force and power in the nation. Each is essential to the well-being and prosperity of the country. Neither can get along without the other. But great and important as they are, there is still greater power and responsibility over and above them—the power and responsibility of the people as a whole. Their welfare must be the first consideration in the commonwealth—that be the welfare—proper, to other words—the public.

Patriotism, instead of striving to gain the support of this particular group or that, or rather endeavoring not to antagonize either, must take a decided stand and let it be known that it is entirely strike-sentiment must cease, and that the labor disputes must be settled in a sane and intelligent manner through processes similar to those provided by courts of law for the settlement of all other civil disputes.

Must Grab Fast

for 33 000 miles of French roads in 1906," said the timid passenger to the aeroplane pilot. "I understand I'm 15,000 miles behind. Is it still and how far ahead will all proved and 2,000 miles left to be done?" But, but tell me if something keep pickets and permanently repaired parts and we fall, what do I do?"

"Oh, that's easy," said the pilot. "The elephants of Ceylon are eaten fast grab anything we're passing on for their superior strength and and hang on tight."

British Capital May Open Branch Plants

Manufacturers Eager to Move Goods Produced in Canada

F. W. Field, British Trade Commissioner, who returned to Toronto after two months in England sending trade conditions there states that there is every cause for optimism. Generally speaking he said the outlook was brighter than it was a year ago, and there was a better feeling among the business men of Britain.

One of the most hopeful features said Mr. Field, was that hundreds of representatives of British businesses were at present travelling about the world seeking markets and investigating conditions. Many of these men, he said, would visit Canada, where there capital was again beginning to seek an outlet.

If this buying activity he explained, did not materialize, to enter into overseas trade, or to invest in Canadian factories and industries, but only were their visits there their money in Canadian enterprises but they were also seeking to make arrangements for the manufacture under joint direction of their products in Canada and other parts of the world established.

While it was true that British capital in many instances, contemplated the establishment of plants through the export method, in branch plants, the general tendency was in the line of the manufacturing facilities already established in Canada for the production of their goods.

WHEN WOMEN SUFFER

Look for weakness or ill health. Better if there is not a side ache, headache, restlessness, dizziness that no need be guessing assistance. Dr. Pierce's Favorite Prescription is a great friend in womanhood. It promotes regularity, dispels pain, helps, they clear up sick headache, dizziness, nervousness, sleeplessness, blues and weepy feelings. Girls and women can use Dr. Hamilton's Pills with the utmost confidence. Get all dealers or The Catarrhozone Co. Montreal

At the first sign of illness during the hot weather get the little one Baby's Own Tablets at once. Don't be may be beyond aid. These Tablets prevent summer complaints or cholera infantum occasionally in the most critical and will cure them if given in time. Mrs. Thos. Tobin, Shediac, N.B., says: "Baby's Own Tablets should always be in every home where there are young children. They are the best medicine I ever used and the mother has the great satisfaction of knowing that they are absolutely safe." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co. Brockville, Ont.

How They Do It in Europe

Revert to Barter System to Overcome Exchange Problem

Barter, the exchange of goods, a similar the transfer of actual cash has been revived in recent international loans according to the Geneva correspondent of the London Observer In this way the difficulties of exchange have been overcome.

Rumania wanted a loan of 60,000,000 gold francs from the financiers of the Swiss and it was impossible unless that country could find goods to be spent. Rumania replied. "We want Swiss railroad rolling stock, particularly engines."

"Fine," said the Swiss bankers, "we will throw the loan in with cheese, and pay for them in cereals and petroleum, both of which you produce and we need." Thus were the arrangements concluded.

Similar borrowing and paying by barter also has taken place with Czecho-Slovakia, Austria and Hungary. Slovakia is receiving Swiss machine tured goods and is to pay for them with cereals, seeds of sugar, tobacco, the question of exchange and the comparative values of the Czecho Slovakian francs and the Swiss francs does not arise.

Healthiest Year

Figures compiled by thirty-seven life insurance companies show that 1921 was the healthiest year for Canada of which there is any record.

Ask for Minard's and take no others

There are no laxatives any kind in the Island of Alderney.

Relief Is Found From Stomach Trouble

Hope for the millions of unfortunate men and women who are victims of stomach trouble is extended by Law rence Grant, 561 Beaumont Ave., Winnipeg, Man. Mr Grant was a victim of stomach trouble in the western farm but was completely restored to health by taking Tanlac. He says:

"I been suffering from a stubborn case of stomach trouble two years and not get into bad shape. The first bottle of Tanlac helped me and soon the stomach trouble disappeared, I gained eight pounds and am now in the best health.

Dozens of food farmers in this section and soon the entire country is filled with poisons. Tanlac was designed to restore the stomach to a healthy condition and build up the whole body. Millions of men have found Tanlac a wonderful power to build a perfect body.

Tanlac is sold in all good druggists

Radios Institute

Quebec Government Prepares For Opening in Montreal

The Quebec Government has now everything set for the opening of the radium institute in Montreal, in accordance with the announcement made by Premier Taschereau

At a meeting of the cabinet held at Quebec it was decided to purchase one grain of radium from the United States Radium Company of New York, at the rate of seventy seven dollars per milligram.

Radio a "Gusher"

Many Millions Will Be Lost in New Industry

Within the last three months at least 1,200 new corporations have been organized in the province to exploit apparatus. All of these cannot have the best technical skill behind them, and many of these new corporations must fail. Hundreds of thousands of people throughout the country realize that the radio is a "gusher" and that it will bring back its dividends many times the principal invested. Hundreds of thousands of people are now investing their money in gilt edged securities but when the "gusher" begins to flow these people will never hesitate. They read of millionaires being made in the radio industry within the last two months and make up their minds that the dollars they worked so hard to earn must go out at the bank and get into radio. There have been millions lost in oil and mines but there will be many millions made out in radio. The situation is well on the way to parallel an oil boom and in the wake of the boom comes bankruptcies and receiverships. Fortunes and so-called "profits" are rolling small investors of their savings. Radio is one of the best engineering and financial developments of the day. The amazing fascinating and marketing problems which must be solved before its commercial uses can put bark one penny on their principal. There is always the question of patents and several injunctions have dissolved the as to whether that fact that 22 radio manufacturers at the present time are intrenching upon each other patents, and at the last count 3 radio patents are intrinsics on the patents of several under radio companies. It requires the person who invests his money in these concerns much more than a knowledge of radio. Let the investor beware. Radio is a good thing for any business, study it thoroughly and then decide whether the risk he backs is a reputable business man or an unscrupulous operator, and sometimes even this is hard to ascertain.—From the Toronto Telegram

Business is Business

In announcing that Britain would pay her debt to the United States, Premier Lloyd George also announces that Britain's allies would have to pay her. This ends the romantic notion that the nations, disdaining all economic considerations, would forgive each other's debts and have a good cry on each other's shoulders.—Kansas City Star

---

He Knit From Business

Impossible to Escape It Even On Ocean Liner

A sea voyage on a fairly comfort able liner that took a voyager for six or seven days out of reach of telegrams or telephones or daily newspapers used to be the ideal way to obtain a short rest, by getting away from the hurly-burly of "modern" life. But the liners have become swifter, wireless is topping into some asking to invade the quiet and seclusion of the sea, the radio telephone has brought the bustling world aboard every steamer of considerable size, and now the best cure has been added by the publication of Neptune News, a daily newspaper printed on all the ships of the United States lines. Good there will be no spot on sea or land free from the intrusion of business rush and "business."—Christian Science News.

Radium Institute

Quebec Government Prepares For Opening in Montreal

The Quebec Government has now everything set for the opening of the radium institute in Montreal, in accordance with the announcement made by Premier Taschereau

At a meeting of the cabinet held at Quebec it was decided to purchase one grain of radium from the United States Radium Company of New York, at the rate of seventy seven dollars per milligram.

Selected Immigration Is The Solution Of Economic Problems

Toronto.—Speaking on a westerner of the members of the directors of the Canadian National Exhibition Association here, Hon. Charles Stewart, Minister of the Interior, took occasion to express the opinion that the dividing line between Eastern and Western Canada would soon pass away. He stressed these points that there was no desire on the part of Western Canada to propagate anything that would separate east and west.

Mr. Stewart said he hoped the hungry crop forecast in the west this year would mean more wholesale business from that direction than before.

"Selected immigration is the solution of Canada's economic problems," declared Mr Stewart. "The settlers needed," he continued, "are those people of agricultural experience who will go on the land and stay there."

Mr. Stewart said it would not be good policy to encourage business, promotional and technical men to come to Canada. "We have no job to put them," he added. "We need be very much concerned for the future quality of settlers we get, and also about getting good ones in large quantities."

Soviet Gives Power To Political Police

Arrests and Exile Without Trial Creates Reign of Terror

Riga.—Ordered by the Communist Soviet Government of the old Czarist "administrative exile" has restored to the political police the power of dealing secretly with the Soviet's enemies.

The series of sudden arrests and exile without trial of well known men of all professions, which began in the autumn of last year, and which has created a reign of terror throughout the country, according to advices reaching here.

Coal Reported in Port Arthur District

Mining Engineer Sure Locality is Underrated

Port Arthur, Ont.—Jules Cross, reported one of the best known and most reliable mining engineers in the district, stated that he is sure that this locality is underrated with coal.

"I have seen outcroppings of coal behind the old high school building in Port Arthur," he said. "This is anthracite coal, burning in a slight ash and clinking when the fire is hot. Whether it exists in large enough quantities to make it of any commercial value has not been determined."

Practical Effort Made In Manitoba To Assist The Farmers

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood she needs a tonic. Read this letter and advice. Many women have suffered years of ill health through lack of such a tonic at this time.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has helped mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario.—"When my daughter was thirteen and until she was fifteen she suffered from irregularities so that she could not be about school or attend the house and when I wrote to you I have the results in school she has been able to be married home. Before and during the menstrual periods she suffers from cramps and pains, and sometimes has to stay in bed for three days at a time. I have given her Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and she is now regular and has no pains. She is in better health and looks better than she has for years. I have also taken your medicine myself for female troubles and it has done me a great deal of good. I am glad to recommend your medicine to others."—Mrs. Thomas Clarke, 76 Walnut St., South, Hamilton, Ontario.

If you have a daughter approaching womanhood, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for free advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Worm Turns in Russia

London—A dispatch to the Daily Mail from Berlin says a report has been received to the German capital that the Odessa Soviet has purged itself of Bolshevism, proclaimed its independence of Moscow, and carried upon all citizens to unite against the Communist usurpers. The report said that the whole of South Russia has joined with Odessa and that the revolution has been attended by bloody encounters.

Germany Rejects Proposals

New Demands of Reparations Commission Not Considered

Berlin.—The cabinet has decided to reject new demands sent through Herr Schroeder of the German finance ministry, by the reparations commission in Paris, for more payments or gold guarantees as a "condition to the granting of a moratorium to Germany."

The new demand came unexpectedly. The impression in well informed Chancellor Wirth that the Reparations Commission would be obliged to reject the first two proposal that coal and timber deliveries should be increased and that directly between the reparations commission and German government for which the German Government would assume responsibility, but that the commission would be more what "active" guarantees the German Government was in a position to offer in return for a suspension of gold payments.

The renewed suggestion that Germany surrender state mines and timber lands was again given some force on the ground that such a surrender would be incompatible with German nor would it end the then also were great political reasons why such transfer was not feasible

Over 300 Are Drowned

Great Loss of Life When Vessel Sunk Off Chilean Coast

Santiago, Chile.—Only six persons, including two passengers, out of a total of 322 on board the Chilean steamship Itata were saved when that vessel sank off the Chilean coast near Coquimbo

The steamer sailed from Coquimbo with 150 passengers aboard. All those who left were unknown. Only the crew and 17 persons.

Another boat with many passengers and sailors aboard, and in which Captain Childers, who had been previously injured, was placed, also capsized near the beach. Only two passengers and one sailor of this group escaped.

The Way They Have In Ireland

Man Charged With Betraying Colling to Shot By Armed Band

Cork.—Charged with having driven the automobile in which Michael Collins rode to his death, Edward Inhurst, a Dublin chauffeur, was taken from his residence by an armed band and shot. His wounds were not mortal, however, and after relaying death for several hours Inherwood escaped and was taken to a hospital. Armed to his breast was a tag inscribed: "Convicted spy, I.R.A., beware."

What One of the Best Known Travellers in Canada Says

"For 1 months I suffered from an unusually distressing form of kidney trouble. I was unable to sleep, my back ached constantly, my feet were swollen and I was in a miserable condition. I had used Doan's Kidney Pills before with good results, so I got a box at the first drug store I came to. I had used only part of the contents of the box when I was entirely relieved of all symptoms of kidney trouble and have remained entirely well ever since. Before I got Doan's Kidney Pills I had been unable to get relief from any medicine I had taken. I am glad to recommend Doan's Kidney Pills to anyone suffering from kidney trouble."

(Signed) FRANK E. JONES, Montreal

Doan's Kidney Pills are on sale at all dealers at 50 cents a box or 3 boxes for $1.25. Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

Power From Ocean Waves

Wave Power Corporation, capitalized at $25,000 filed a certificate of incorporation with the secretary of state. The company, which will begin business at Dunkirk, says certain laws affect its object is to develop and promote the utilization of the power of the ocean waves and to sell the power developed and to conduct experiments and to research, and engineering metal fighters

Loss of Life in B.C. Mine

Cumberland, B.C.—Nine men lost their lives and five others injured when an explosion caused a small cave-in in a coal mine here, operated by the Canadian Collieries Dunsmuir, Limited. Three of the dead men were widows. Their names are Robert Dunsmore, John Gibson and John Johnstone. **Four of the dead were Japanese and two Chinese. All the men at work in the mine have been accounted for. Of the 17 wounded men, seven are more or less seriously injured, but it is believed all have a fair chance for recovery**

Canadian Dollar at Par

On Equal Terms With U.S. Money for First Time Since August 10, 1919

New York.—The Canadian dollar is once again at par in the New York money market. "Par" was the quotation announced by local bankers for the first time in seven years last quot 15, 1919, was the last date on which Canadian dollars were on equal terms with those of the United States in this market. During the interval the discount rate soared to as high as 16 1-2 per cent.

The premium of the Canadian dollar has been gradually improving during the past year owing largely to Canada's improved trade position. For the past six weeks it has been practically at par, the discount being only nominal, ranging from 1-16 to 1-8 per cent. Any increase in demand however, the Canadian dollar has been accepted at not cents for some time past

Difficult Days Are Still Ahead In Ireland Before Coming Of Peace

Dublin Political writers forecast that Eamon De Valera will succeed to the seat of his dead brother in Cork County, and say that he is certain to receive practically unanimous support from the southern ad hern s

General Richard Mulcahy now holds the combined posts of Minister of Industry and Commerce and Chief of Staff and Commander-in-Chief of the National Army. Should he relinquish the latter post Chief of Staff it is expected that General Eoin O'Duffy Assistant Chief, will be promoted.

The Evening Press largely devotes itself to details of the guerilla warfare which has been raging in Cork County At Bandon several organ mentis have occurred and many ti ruefares are reported. Bombs are numbered in Main sections of reports and have been carried out in the National forces, which have taken prisoners with arms and ammunition

Discussing the general situation, the Evening Mail declares that it has never an easy task to predict the future in Ireland and at the present hour it is an impossibility.

"Turn and difficult days lie ahead," says the paper, "and no man can say what the next hour may bring forth Its endeavor to fulfill the work begun by Arthur Griffith and Michael Collins, the government will receive all the sympathy and support the public can give."

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea dysentery, colic, cholera, cholera morbus, cholera infantum, or other looseness of the bowels, will find that Dr Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market.

Mrs. Hey Keith, Chariton, Que., writes —"I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children." Price, for a bottle, put up only by The T. Milburn Co., Limited, Toronto, Ont.

Editors Note We apologize to our readers on reason one and four for missing Friday morning's mail. The staff has been disorganized this week through sickness

How to Make a Root Cellar

[illegible] potatoes with at freezing every winter. Poplar, however is not recommended. A similar building of cedar posts and spruce lumber treated with creosote [illegible] 1917 should show any signs of decay after five years. [illegible] root cellar may [illegible] modified for the [illegible] and storage is either recently [illegible] by the Dominion Experimental Farms and may be obtained upon application to the Publications Branch, Department of Agriculture, Ottawa.

A washing of local interest took place at Canmore on Wednesday, when Mr. Albert Hay and Miss Mable Lee, both of Tofield, were united in the holy bonds of matrimony. The happy couple are spending a few days with friends at Edmonton and Strathcona after which they will take up residence on the farm

Additional Locals

We often hear it is said, and many people believe it to be true, that children do not advance as rapidly in rural schools as they do in town. In reply to this we call attention to Tofield Plants, whose name appeared in last week's paper, as having successfully passed in the recent examinations. Having been twelve years old on the third day of last June. To be [illegible] at least of the age is no honor to him, and in his case it was all done in the rural school of Wood Lawn, as he has never attended any other.

The literary at the W. I. rooms last Wednesday evening, Sept 9th, at 8.00 o'clock. Lunch will also be served.

The whist drive will start at the rest rooms on Tuesday September 12th, at 8 o'clock sharp.

There will be a social meeting of the W. I. on Sept. 13th, at 2.30. All Members are asked to attend

A liberal rate of interest with absolute security is the attractive offer made by the Minister of Finance to holders of the Canadian Government war loan bonds maturing December 1, 1925 — the offer is not made to investors generally, but only to the holders of the bonds soon to mature. The bonds to be retired, bearing interest at five and one half per cent, will be exchanged for new bonds bearing the same rate of interest. See the advertisement of the Minister of Finance.

Far and Near

There are 2,300 commercial orchards in the Okanagan Valley, British Columbia, on which are approximately 1,000,000 apple trees. To handle the output, there are some 60 packing houses equipped with the most modern machinery. It is estimated that 3,163 carloads of apples and 5,405 cars of all kinds of fruit will be exported from the district this season

When contemplating the industries of the city, few persons would consider a hotel to come within that category. Yet, probably surprising to the majority of Edmontonians, the capital can boast of a hostel which is one of the leading institutions of the community when it comes to the annual payroll, and disbursements among the various business houses of the city. Certainly, the number of even well-doing hotels in the city might doubt that the Macdonald hotel employs 225 persons the year round. But this is no. And also they receive in wages the sum of $180,000.0 a year, or $15,500 every month.

Government co-operation in marketing Alberta eggs is permitted in the sale of the product. Superintendent Hare of the provincial poultry department, reports that the increase in the eggs marketing business is five hundreds per cent, over the showing of the corresponding period of 1921. More than twenty carloads of eggs have been handled already this season The prices paid to farmers ranging from 25 to 27 cents for "extras" and 20 to 23 cents for number "ones." The egg marketing scheme was instituted two years ago by provincial government and is carried on under advisement of the legislature, the Dominion government poultry branch assisting in the work through its provincial agents.

Tenders For Coal

Tenders will be received by the undersigned, on behalf of the Tofield School District No 1928, for the delivery of coal to the Tofield Schools for the winter 1922-1923. Further particulars may be secured from the undersigned. Tenders to be in not later than September 30th. The lowest or any tender not necessarily accepted.

J. W. CHAPMAN.
Secretary, Tofield S. D. No 1928.

Notice to Creditors and Executors.

IN THE MATTER OF THE ESTATE OF HENRY BAKER FABIAN, late of the city of Winnipeg, in the province of Manitoba, Engineer Deceased.

Notice is hereby given that all persons having claims upon the estate of the above named Henry Baker Fabian, who died on the 12th day of December, A.D. 1921, are required to file the same with the undersigned, Emily Ann Fabian, c. o. E. Bailey Fisher, Barrister, etc., 10 Arthur Building, Winnipeg, Manitoba, on or before 21st day of October A. D. 1922, full statement duly verified by statutory declaration of their claims and of any securities held by them, and that after the last date the Administratrix will distribute the assets of the deceased among persons entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

DATED at Edmonton this 29th day of August A. D. 1922.

GRIESBACH, O'CONNOR & CO.

Radio Demonstration Very Successful

A number of townspeople were treated to a radio demonstration at the Edmonton City Dairy Office on Tuesday of last week. The apparatus was owned and was entirely made by Morris McGinitie of Tofield. The music and words came through quite clear and it is the only successful demonstration given in town. At the time the demonstration was given there was quite a storm and a very heavy rain fall at Edmonton. Mr. McGinitie has shown he has that he has a mechanical ability not possessed by the ordinary man, and on this occasion was congratulated heartily on his success.

Mrs. Hay (nee Gee) met with an accident while riding a horse last week. She did not observe a clothes line and was thrown off the horse, suffering injury to her throat.

Found No Typhoid Germs In Carlisle and Francis Wells

Dear Sir:—

My attention has been called to a telegram sent to you and to letters written to Mr. T. M. Carlisle and Mr. D. Francis, in which there occured a clerical error to the effect that water from Mr. Carlisle's and Mr. Francis's wells proved to be positive for "typhoid" contamination, whereas the analysis showed that the water proved to be positive for organisms in dicating dangerous contamination.

The methods of examination used in the Provincial Laboratory are designed to show whether or not the water in a well is contaminated by fecal matter, either human or animal. Tests are not made for typhoid organisms in water, but merely to find if gas-producing organisms are present. If such are present the well is contaminated and the water is unfit for human use.

The cases from the town of Tofield now in the hospital under treatment have not yet been diagnosed, they are, however, being given a thorough bacteriological examination. Some of the laboratory tests for typhoid fever have been positive. The disease appears to be infectious, and of an intestinal type. This department is not yet able to determine whether it should be called intestinal influenza, typhoid fever or para typhoid fever. As soon as a positive diagnosis is arrived at you will be notified.

Yours truly,
Dr. L.
Deputy Minister

The Tofield W. I. have begun their fall and winter activities by a good social meeting with a whist drive at night. The tea room and library will be open each Saturday from now on. Programme will be announced later, it is known that a study of the provinces will be included. An institution to all ladies in town and country is hardly extended when they be members or not, to attend our social meetings the 2nd. Tuesday of each month

In future library members will pay $1.00 per year for use of books as the book donators have had nearly three years membership. Those who have donated books within the current year will be given membership for one year from entering date, and others another year begins $1.00 will be due. The money thus collected will be used for the up keep of the library in new books.

Mr., Mrs. and Miss, A Budget of Local News

The local Oddfellows are looking forward to a good time on Thursday evening September 21st A Degree Team, from Admore Lodge No 97 I.O.O.F. Edmonton will be present and will put the first degree on a candidate. A social time will be held after the Lodge meeting and all members and any visiting brothers who may be in town are cordially invited to be present

A number of Tofield young folks motored to Round Hill and attended the dance there on Saturday night, all report a fine time

A dance was held on Friday night last at the Lloyd Wood place north of Tofield, which was a great success and a good time was had by all present.

The running of the special Paramount week at the Variety while not by any means a failure, still left a lot to be desired. All the pictures were very good but only a few turned out to be them Perhaps it was because most every person is busy and has little time for recreation and amusement, but even the Saturday night show, with a feature distinctly Canadian, failed to draw even an average Saturday night house.

Mrs and Miss Emery went to the city on Tuesday, and are visiting friends and relatives there.

Mr and Mrs. Fred McHeffey drove to the city on Tuesday on business

Little Esther Jacobs was taken to an Edmonton hospital on Wednesday where she is suffering from an injury to her eye

The weather of the past week has been very unsettled. The intermittent showers of rain have been a nuisance to the threshing gangs, though most of them have been working steadily with only occasional delays of a few hours.

Miss Hilda Nimeland resumed her duties at the Farmers store, after a two weeks vacation spent at home.

Miss Holden of Vegreville, is the latest addition to the telephone staff, and will fill the vacancy made by Miss Humpson.

Wood has been received at Miss Helen Mahaffy's, late of Tofield, has been led to the altar and is now Mrs. A. McPherson of Bridger, Montana.

There was no council meeting on Monday night.

A meeting of the rural municipal council was held at the municipal hall on Wednesday last

Great Period of Expansion Due

Saskatoon, Sept 12 Unbounded optimism was the key-note of the addresses delivered to night at a meeting in the bank at-on Clubby sir John Willison and M A Brown president and vice president respectively of the Canadian Countrastor as [illegible]

I believe, said Sir John, that in the next twenty five years we shall see and only the greatest expansion in the history of Canada, but the greatest in the history of the whole American continent. There are men still living to day who recall the wonderful period of growth of the United States and during that period, it is to [illegible] bear in mind the United States was peopled to a large extent by a natural birth rate and [illegible] of immigrants from Europe. She had no gifts of nature [illegible] Canada has upon which [illegible] Canada upon which [illegible] Europe immigration, and [illegible] during the first three years [illegible] Britain has real [illegible] the necessity of [illegible] to overseas countries with [illegible] people, Thailand has [illegible] very few are not pulse and [illegible] willing to assist [illegible] while Sweden [illegible] Scandinavia will agree to [illegible] with [illegible] [illegible] settlers. And there [illegible] great country to the west with its [illegible] and people [illegible] up as fast as [illegible]

"Safety first" is a good slogan to adopt when [illegible] but precaution [illegible] in order [illegible] [illegible] of money. [illegible] [illegible] to speculate [illegible] [illegible] stocks [illegible] [illegible] [illegible] interest. Those who [illegible] are moderate means [illegible] to see that [illegible] [illegible] recently in their investments for such people [illegible] [illegible] other forms [illegible] [illegible] [illegible]

Nervous Breakdown

The extreme depression and discouragement which come over one at times is the most alarming symptom of nervous exhaustion.

This letter is a message of hope to all who find themselves in that unfortunate condition.

Mrs. Geo. T. Tingley, Albert, N.B., writes:—

"For years I was in a very nervous, run-down condition. I was not able to do much and suffered a great deal at times. The least noise would worry me and at times I felt as though I certainly would go crazy. I consulted different doctors but no relief.

"A friend advised me to use Dr. Chase's Nerve Food and I am very much happy to the great benefit it has given me. There was a short change before I had finished the second box and when I had used a dozen boxes my nerves were thoroughly restored and I was entirely relieved of those terrible feelings I used to have. I am ever so ready to write to the credit of this wonderful medicine for you, for I will ever be above the need and permanent relief it has given me."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

WITH THE WISHING FAIRY by Corinne

About Moths That Look Like Honey Gathering Humming Birds.

"THAT was a great laugh we had to-day about Edith visited Plan the, and oh, how much it'll fun to laugh [illegible] 196, cried Rose-bloom. Just as we are thinking or rather, laughing about it, for there's another Laugh! It's a Hum, ming Bird. And the little fellow pointed toward some white flowers. "Isn't he beautiful to-day?" The flowers were pink and red and [illegible] a somewhat look

I'm no Humming Bird. I'm a Hawk Moth. I [illegible] Bird Hawk Moth and I flew away to some other flowers where it was suddenly pitch [illegible] the November fathers and wind starting at the sun dainty little violets that [illegible] their own home. At last Phebe ventured to ride them to the sun Merely gently did. [illegible] and with [illegible] the Earth." Shoo-hoo asked the one [illegible]

Because we had heard that it is the most wonderful place in the world." It jumped [illegible] we have quite thought we'd find it. And the [illegible] flowers honey here. And we have [illegible] With these words it rested by [illegible] and hanged as though to give them [illegible] and [illegible] the flowers.

"How [illegible] looked on," exclaimed Rinkalina. "We were sure you [illegible] Fairies to us." "Intended ever your [illegible] [illegible] [illegible]

Editor Makes Flying Visit to the Okanagan

Continued from last week.)

With the exception of the splendid drive and supper at Vernon Country Club on Friday afternoon and evening Thursday and Friday had been utterly devoted to business matters. Saturday was entirely a day of pleasure. At eight o'clock the party entrained at Vernon for Okanagan Landing a distance of almost five miles. Here we boarded the C.P.R. steamer Okanagan for a trip down the lake. Mr. W. Williams, late of Tofield was in charge of the boat and Mr. Williams, late of Tofield were present on the boat to welcome their fellow townsmen. The trip down the lake was a most enjoyable one. Delightful weather, the C.P.R. had provided a splendid luncheon and the genial captain and crew were most attentive. Numerous stops were made at various points of interest, and after a five hours' sail the steamer was moored to the wharf at Okanagan Landing, where the party was greeted by a number of Kelowna citizens who had motored down to welcome the visitors. Almost five motor cars were waiting on the dock when the boat arrived.

Of the Valley I was much impressed. Its people, its climate and its industry leaves very little to be desired. Speaking as a friend of mine who was living near Vernon, I asked him the plain question, whether fruit raising paid. He replied it did handsomely until two years ago. It struck me that this answer would have well been true of mixed farming in this district. The world wide shortage in business has been felt there as well as elsewhere. When business returns to normal there will return the normal there. Land is rather expensive running anywhere from $200.00 to $1000.00 per acre, but if a person can afford the land and has sufficient knowledge of the fruit raising business to efficiently manage it, I can think of no more pleasant occupation. While this is true, it must not be forgotten that life even there is not all peaches and sunshine. The people have their problems, such as importation of early fruit from the States, the Associated Boards, and the prevention of over production. That they are solving their problems goes without saying. They are the kind of people that solve past time.

Here we were presided on the boat, and early in the morning we again docked at Okanagan Landing. Those of the party that desired to reach home early were taken to the main line by auto to catch the morning trains. Others were taken to the main line later in the day in two special coaches put on fast freight by the courtesy of the C.P.R.

The trip home through the mountains was made by daylight but as this article is already long, and the journey was fully described last year, I will do no more than say that to the passer inside this trip is a revelation, and that the railways have made it possible for almost every person to take the trip sooner or later.

The arrangements for the convention were mostly in the hands of J. L. Ball of Vernon and H. M. Walker of Enderby and as they have already been showered with compliments and congratulations galore, I will only add "well done." Great thanks are due to the railways for their splendid co-operation and practical help also to the people of the Valley for their wonderful generosity.

Mortgage Sale of Farm Property

Pursuant to the directions of the registered owner and by virtue of the powers of sale contained in a certain mortgage which will be produced at the time of the sale. There will be offered for sale by public auction by the undersigned at the Village of Tofield, Alberta, on Saturday, September 9th, 1922 at the hour of 2 o'clock in the afternoon the following property, namely:

The north-west quarter of section thirteen (13) Township fifty (50), Range seventeen (17), west of the fourth meridian in the province of Alberta, containing one hundred and fifty seven point seven (157.7) acres, more or less.

Terms: Cash.

Dated at Tofield, Alberta, this 16th day of August, A.D. 1922.

A. T. Rossell, Dep. Registrar.

THAT INDEMNITY

With almost every newspaper in the province saying something about the special session and indemnity that the legislature assembly voted themselves, it would almost seem that enough had been said and written. Some heads of the U.F.A., however do not think so, and are passing resolutions condemning the members for handing themselves such a fine helping of legislative plums. Two hundred and fifty dollars for a week's work is pretty good pay, good enough in fact to turn the heads of the party and for the time being cause them to forget the wonderful promises of economy they made, also the fact that while they are to a certain extent elevated above the common herd by reason of their office, they do not carry all the public political interest to parliament with them.

The amount was altogether too much of course. One hundred dollars (the original sum suggested would have been quite sufficient. What the members should realize, is that the criticism in connection with the business is coming from the opposite side of the house, but from the general public.

PLAGIARISM IS THEVERY—MERCURY NOT GUILTY

(The Camrose Canadian)

A Plagiarist is a person who pattons words, writings or ideas, and is in plain, unadorned English, a literary thief. Very often perhaps a writer or journalist is accused of stealing other people's writings or ideas when he is not guilty. We have in mind the editor of a certain Alberta weekly newspaper who, however, is guilty, and who practises the theft of other newspapers articles so frequently that he apparently has convinced himself that he has a perfect right to do so. He is wrong. No newspaper in good standing copies editorials from contemporaries without crediting them and to be guilty of doing is a decided breach of professional etiquette. The editor to whom we have reference was last year an officer of the Weekly Newspaper Association executive.

Not only has he copied from the editorial columns of the Camrose Canadian, but has, we believe, violated the accepted rules of journalism with other papers as well. The filching of writing may not sound serious and may not be serious but it was this very thing that brought about the copyrights of books in order to protect authors in publishing their works exclusively of all other persons, and to prevent them being used unless paid for. We have no quarrel with the transgressing editor, but in future will ask him to refer to other write his own editorials or else give the paper he copies from due credit.

"Little Drops Of Water
Little Grains Of Sand."

All of us who attended Sunday School in our young days will remember the hymn commencing thus.

The lesson that big things are only built up by the massing of smaller ones, is a valuable one.

To the Mercury at this season of the year this thought has special significance. Fall time is subscription time, and while a dollar and a half is not a large item, this sum multiplied many times assumes an amount of great importance to us—an amount that stands between us and the successful running of our plant.

POLICE NEWS

Not so very long since the following remark was made to us "A bit skinny on police news, aren't you." A year or two ago speaking to a third party, a man made the statement that he, meaning the editor, didn't put liquor cases in the paper. Both are wrong. We are not afraid of anything. Those that know newspaper work best, will know that a newspaper cannot afford to be afraid, pussy footing will land a newspaper by the road side quicker than anything else.

There is no one particular reason, for the appearance of some police court cases in the Mercury and the non appearance of a few others. There is, however, a combination of reasons, which we will state

The first and most common one of all, is that until the trial is over, no one connected with the Mercury knows of it. A complaint is laid, arrest made, and the trial held, all so quickly that it is over before we are aware that it is taking place. Those intimately connected with the cases are generally reticent, in fact desire secrecy. The events occur so spasmodically there is no way of foretelling when they will happen. In fact, unless a newspaper is large enough to have a reporter on the street all of the time, it is the easiest thing in the world for a case to be heard, the principals purposely keeping the news to themselves and the local newspaper knowing nothing of it.

Another reason is that, outside of the news value of police court cases, we are not intensely interested in them. Not so very long after prohibition came into effect, we recall conversing with an ardent prohibition worker in connection with the conviction of some individuals who had violated the liquor act, and his expression of holy glee, did anything but win us over to his way of thinking. Another man, was prone to rub us about publishing these cases, but we noticed that when he wanted any publicity work done, he studiously avoided the Mercury office, preferring the cheaper and less effective method of signs in the post office. The editor is no friend of John Barleycorn, he does not use intoxicating beverages, prohibition or no prohibition, but there is no personal elation when a liquor act conviction is made. We fully recognize that law and order are desirable also that police courts and policemen are necessary and have their duties to perform.

The third reason is partly that of the second. A newspaper's function is to give news. The subscriber who pays his subscription has purchased a service. He is entitled to value for money. Nevertheless, the opinions, convictions and character of a newspaper's manage ment must be indelibly stamped on the publication. In the family of newspapers there are numerous characters. There is the newspaper that gives special attention to politics, another will perhaps specialize in sport, another play up with all the arts of the writer police court proceedings, while another devotes the best of its talent to markets. The country weekly newspaper must to a certain extent embrace all of these features, for among its readers are devotees of them all. At the same time it must not or rather should not, in its desire to serve a mixed clientele lose its individuality. We have said that we are not interested in police court proceedings particularly liquor cases, we are not beyond that point where the subscriber who has paid his subscription is entitled to value for money.

Our conception of the function of a country weekly is to build up. We want to see and have the pleasure and privilege of taking a hand in the improvement of this community when through the cues of grain R. W. Pincott shipped, the auctioneer Donald Bell cried, the pictures Walter Bellamy shows, the weddings that take place and every visitation of the stork. And when it comes to things like the agricultural society, the school fair, community concert, hockey matches, baseball and curling we are delighted to put a two column head on them and play them up big. Two Canadian Girls in Training, the Tunis Boys, the Sunday School, the day school, the church, the lodge all have our interested attention, while municipal reports and school board doings always find a warm welcome here.

Unlike the daily, the local weekly is read by old and young alike. The fourteen year old daughter is as interested as her older brother or mother. Some day, perhaps, that girl or boy will be leaving the fold to carve a career in a distant field. They will carry with them for life vivid memories of the community in which they were raised. We venture to say that the memory of the regular county of the local paper into the home will not be forgotten, nor will the character of the message it contained.

Some time ago, in a publication called "Life" we saw a cartoon. It depicted a crowded city thoroughfare, upon the sidewalk of which stood a young man. Across the street a big fire raged, also fights, fainings, accidents and runaways, but the young man was unperturbed and otherwise engaged; he was reading a sheet labeled "The Home Town Paper." We are already sending papers from this office to young people away from home. As time goes on we will so doubt send more. We do not want to give them the impression that this is a community of bootleggers, homebrewers and drunks, it really isn't but a community alive to its interests in a business way and intellectually. Morally and spiritually we will leave to the minister. "A bit skeery on police news," not a bit of it.

Your Sale Notes

If you want your sale notes discounted or placed in safe keeping, bring them to our nearest branch. It is part of our complete banking service to farmers to discount farmers' sale notes, or to provide a safe depository for them and make collections when due.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

Dated at Ottawa, 9th August, 1922.

W. S. FIELDING,
Minister of Finance.

Be A True Sportsman

Coaching Through London

Enthusiastic Pay for Privilege of Handling Ribbons

Upon which the most enterprising citizen of London to many visitors is the four o'clock and four o'clock every morning makes his way along Piccadilly and on out on to the high road, with a load of happy passengers for Hampton Court, or those less rich. But few people who see the four o'clock and think anything of the grand old coachy blunt on his postboy—but Londoners don't know that the vehicle is driven each day by a still enthusiastic young man who is exerting on the business all his spare time towards the maintenance of the coaches and the privilege of being allowed to handle the ribbons. It is quaint things like this and there are many of them—that make London so fascinating alike to the visitor and the man who belongs.—Overseas Daily Mail.

A CORDIAL INVITATION TO DISEASE

Lame back is an old description of Constipation. It is an unnecessary result, due to bodily poisons not being thrown off. The sufferer soon becomes a victim to many painful troubles. Keep the system free from poisons by using Dr. Chase's Kidney-Liver Pills. 25c all dealers. The Chase Medicine Co., Windsor.

Britain Scraps Its Ships

In accordance with the Washington naval agreement the Admiralty has ordered six large capital ships to be broken up. Among these are the battleships Canada and Agincourt and the battle cruiser Australia. The Canada and Agincourt were built and launched in 1913 and 1914 respectively, and were originally intended for the Brazilian navy, but were taken over by the British Admiralty on the outbreak of the war. The Australia was launched in 1913 and was originally intended for the Australian navy.

A GENTLE LAXATIVE FOR THE CHILDREN

Mothers the world over have found comfort in the use of Mother Graves' Worm Exterminator, knowing that it is a gentle laxative combining the stomach and promote its and healthy action. Baby's Own Tablets are a gentle laxative and are sold by all druggists or by mail from the Dr. Williams' Medicine Co., Brockville, Ont.

Japanese Exists in Borneo

The Dyaks on the Japanese, both in appearance and language, are of the same stock, and now in their present habitat on the island of Borneo.

OIL LIGHT BEATS ELECTRIC OR GAS

BURNS 94% AIR

A new oil lamp that gives an ample light, brighter than electricity, has been invented by the U. S. Government and is making unbelievable and found to be simple to operate. Any housewife knows without other explanation that the pumping up is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The Inventor, T. V. Johnson, 179 Mc Dermot Ave., Winnipeg, is advertising to send a lamp on 10 days' FREE trial or even to give one FREE to the first man in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $12 to $36 per month.

A Costume That Any Miss Would Adore

The rope has found its way into all departments of the calendar, and soon it is used as a smart and important part of a white knitted wool sport suit in luscious colorings.

Executions In Russia

1,965,719 Persons Said to Have Been Executed Since Bolshevik Rule

A Riga dispatch to the London Times says that according to official Russian figures, the Soviet regime of 1,965,719 persons before being forced the supreme political administration since last February.

The total includes 6,725 executions and 1,844,000 deaths, 250,000 other intellectuals, 1,212 priests, 31,000 officers, 70,000 police and gendarmerie and 10,000 members of the late Duma.

During the civil war in Bolsheviki have had more killed than all Russia during the great war.

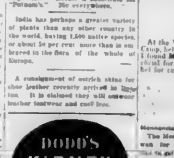
The Druggists All Agree.

That "Nuxated Iron" is Best

The oldest form of iron on the market is Parmele's Carn Extractor. It is the best. Your nerves will all draw out after a few treatments with this pleasant remedy. Pills impossible. Recipe a substitute for Parmele's.

India has perhaps a greater variety of plants than any other country in the world, having 1,500 native species, or about 25 per cent more than is produced in the flora of the whole of Europe.

A consignment of ostrich skins for another country arrived in Cape Town last. It is claimed they will outwear leather footwear and cost less.



The Mad Mullah

Just Penalty for the Man Who Exploitery Human Life

One thing to explain the mad mullah who goes ravishing through the streets, without regard for the life and limb of policemen, or who appears from his cave within under the poisoned ad liquor is, and such a murderer to the Government is an a man dog and deserves no more consideration. In addition to other penalties imposed, persons found guilty of these grosser crimes these also be deprived for or of the privilege of driving automobiles. If a reckless motorists his employer's money he be not usually made to be tripped with the handing of razors. Why trust with potential engines of death those who have shown themselves unfit? Detroit Free Press.

All For His Children

Thos Man Might Be Able to Settle Germany a War Debt

A writer in a German newspaper has been estimating the fortune of that notary Stinnes, Hugo Stinnes. Before the war it was reported that his private wealth amounted to $25,000,000—good marks, of course. His fortune today is more difficult to estimate because it is scattered over many companies in numerous countries. One financial circles, even many things taken into account, say that he is now worth $100,000,000 —gold. He has increased his wealth, it is said, during the war and since, in part through the repute the dirty figure of $2 had—not to say the dirtier figure. It is worthwhile to pause and consider how great Andrew Carnegie was by wanted night and day piling up millions, he remained it in the family. If Stinnes leaves, and a daughter Vienna Express.

A Peace of His Own

Evidently Old Sol has a peace of his own. All who have stood it know it like and keep it by them as the most valuable talisman available. He soon gets indigestion and for many years it has been prized as the leading tonic for men and boys.

A Duck's Speed

The speed at which a duck can fly in many people have been timed by their own sound compass. The fastest on it has been surpassed by a passenger carrier that the speed of the ordinary bird is almost eight miles an hour. That of the long-necked bird is eighty-nine miles and that of the wing flies, canvas—Chicago Tribune. There's always something new.

WOMAN COULD NOT WORK

Made Strong and Well by Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I took Lydia E. Pinkham's Vegetable Compound for three years, worn-out feeling and pains in my side. I used to get up in the morning and feel as tired as when I went to bed. I was so nervous I could not sit still. I was about Lydia E. Pinkham's Vegetable Compound so I took it. Now I have taken it for two years and am well and strong and can do every bit of my work, and not a pain in my back now. I recommend your medicine and you can use this testimonial."—Mrs. PHIL. MASER, 301 Wabasha St., St. Paul, Minn.

Just another case where a woman was helped by Lydia E. Pinkham's Vegetable Compound. Many times that the poor tired, worn-out things are not to be done by a woman, but when a woman has taken it a few weeks she is strong and well and can do her housework without suffering backache, headache, nervousness, dizziness, or those "all gone" feelings.

Lydia E. Pinkham's Vegetable Compound is a Woman's Medicine for Women's Ailments. Always reliable.

The Murder After Harvest

It Pays to Cover and Protect Paris Green Thoroughly

The insect-murderous character of Paris green is accompanied by considerable poisonous property, as has been proved by the fatalities. A tract recently set out on these points exposes another of the hitherto troubles of the following year. If the purchase must be left in the field for a time it is a good plan to cover the blotter part with a thin layer of hay or straw. Paris green is not a good poison for rats, but one part to ten parts of powdered sugar and a pinch of pepper or cayenne pepper is said to be quickly destroy the sparrow and in numbers even near the dead. It must be repaid for his time if all the grain sown on the higher and wet soil by heavy, building paper and sprinkled on water from the heifers as the journey of hay but where the manure be removed by insects of any kind.

Practice Is Condemned Of Handing Out Doles In Unemployment Cases

Ottawa.—Condemning the practice of handing out unemployment doles, declaring that the peak of unemployment in new parts of the country had passed, Minister of Labor, in connection with the announcement that the Government was continuing with it as necessary, and emphasizing the principle that the problem of unemployment is primarily one of industry, and that every effort should be made in all country to prevent the occurrence of abnormal unemployment, came to a close here.

Hon. James Murdock, Minister of Labor, handed out two resolutions which had been passed unanimously by the conference. He was asked specifically with regard to the attitude of the conference on doles.

"The conference," he said, expressed the opinion that the practice of handing out doles to those who are able and often harmful in effect, and should only be resorted to until all other measures have failed.

The first resolution handed to the press by Mr. Murdock reads: "We had recognized the unanimous opinion that of the conference, in so far as possible, to prevent the occurrence of abnormal unemployment by the prosecution of works and undertakings of a character which are not usually undertaken in periods of active employment and in the case of unemployment that the conference recommends that the respective Governments, the National Railway Board and the municipalities having the special departments of public works in the various provinces should regulate and carry on their public work and railway operation so as to distribute the work in such a manner as to relieve unemployment to the greatest possible extent throughout Canada."

On the question of unemployment relief Mr. Murdock said that the view was expressed by representatives that the peak of unemployment had passed. The hope was further expressed he said that there would be no unemployment during the winter. Government assistance if there should be such assistance would be the view of the conference was that no additional money other than those

World Wheat Crop Smaller

Washington. — The world's wheat production this year will be less than it was last year, but considerably greater than the pre-war average, according to estimates made public by the United States Department of Agriculture. Estimates and conditions reports from reporting centres indicate a yield this year of 3,619,139,000 bushels, compared with the production last year of 3,950,000,000 and the 1909 13 average of 3,300,000,000 bushels. Reports from all sources regarding Russia, said crop conditions were favorable and would bond the nation this year, although the need of imported wheat

which had been taken in the past would be necessary to deal with it.

It was stated that there had been consistency on all the points mentioned. The unemployment situation was thoroughly discussed and the declines of the various provinces discussed.

France May Utilise German Materials

Plan to be Considered by Reparations Committee

Paris An agreement for the restoration of France's war devastated regions utilizing chiefly German materials came up for consideration before the Special Government of ministers charged with consideration of delivery of merchandise by Germany.

The plan has been under preparation at a series of conferences between Loucheur, Minister of Liberated Regions and Schanzer the Italian Minister of Public Works and Reconstruction and the Belgian Minister Jaspar. Armand Simon, Director of the Service of Liberated Regions representing France, presented the plan.

The plan has been under negotiation at a series of conferences between Hugo Stinnes, German industrial magnate and Schanzer the Italian Minister of Public Works and Reconstruction and the Belgian Minister Jaspar. Armand Simon, Director of the Service of Liberated Regions representing France, presented the plan.

Wood Alcohol Poisoning

New York.—Two deaths of three men and two women and a case of blindness have occurred in the Red Hook section of Brooklyn, which are attribute to wood alcohol poison

British Coal for Boston

Boston.—British coal is pouring into Boston in such quantities that 14 bad ex vessels are riding in the lower harbor awaiting opportunity to discharge their cargoes, while ten others are anchored in the upper harbor. Their loads total 96,000 tons. Nearly one-quarter of a million tons have arrived in this port since the first shipment broke the American blockade. Within Thirty six steamers a week come from British ports, each carrying an average of 7000 tons.

Predicts Revolution In Greece As Result Of Turkish Army Successes

Rome A dispatch to the Giornale d'Italia from Smyrna says the people of the city have been closed to exercise the border of refugees in flight before the Turkish Nationalist army. Refugees have also boarded a number of Greek ship and the shuttle of Greek officials and others are now complete. Property of the Italian flags have been hoist on over many houses to indicate that they are under the protection of Rome consulate.

The dispatch adds that reports from Athens predict a revolution in Greece and the return of former Premier Venizelos to power.

The advices say that Mustapha Kemal Pasha is actually directing the operations of the Turks against the Greeks and has chosen narrow delay gate of strategic and military tactics for desirable ending was caused

NEED AGGRESSIVE IMMIGRATION POLICY

CAPITAL FOR DEVELOPMENT OF WEST IS FORTHCOMING

Ottawa.—Immigration and development of our natural resources are essential to the progress of Canada and to the solution of many national problems declared Hon. Charles Stewart, Minister of the Interior in discussing the recent western tour. That a national and aggressive immigration policy has been developed and will shortly be announced, is now definitely known.

"Capital is required for development, especially in Western Canada, where the great natural resources attract a great field for intelligent investment. Mr. Stewart added. "The Government is prepared to encourage investment for development, but not for exploitation or stock mongering. Every year Canada spends two of the treasury $5,000,000 for petroleum and petroleum products. Alberta may, in the near future, furnish a home product that may check in some degree the drain on our capital. The steady development of the United States oil field must have brought production home to the international boundary and it is confidently anticipated that discoveries will be made on this side of the line that will bring activity and prosperity to our western frontier. The same is true of other natural resources in the west.

The Government is prepared to protect and encourage legitimate of Syria in every manner and to allow open block publicity brokers. Legislation will be carried out to the letter by the Government and interest no need not fear retroactive legislation. Imported unexpected conditions or restrictions. Successful development will reign. The Government under present conditions and in the prosperity that follows in its wake.

Mr. Stewart stated that there was a favorable activity in the southern Alberta country in general and legitimate companies in developments carved in a great measure by the success of the Canadian Pacific railway in the west. Across the international boundary no shifts are at work and on the Canadian side drilling is always in full blast. In farming in charge of this branch of the Government is on the ground watching developments.

Expect Italian Immigrants

Huge Colonization Scheme is Now Under Way

Montreal A home reception scheme now in the United States Canada is projected by the Lavoro Nazionale, Italy which has as its Michele Bianchi Commissioner, Italian Labor, to make a survey of industrial and agricultural openings in the Dominion with a view ascertaining the number of Italian immigrant more needed here.

New York Michele Bianchi Montreal en route to Ottawa where he will meet members of the Government with the heads of the departments of labor and immigration.

Following the meetings he will cover each of the provinces from the Atlantic to Vancouver, accompanied by Signor Bertolini, Canadian Italian consul at Montreal, and Signor Grossardi, Italian Vice-consul at Toronto.

Signor Bianchi's principal object is to ascertain the class of immigrants most needed by the Dominion, which Italy could supply, second, to secure Canadian capital which would be linked to Italian capital with the view of establishing Italian industries in Canada. Last year thirds, to collect first hand data on actual conditions in the Dominion and report whether it is to the best interest of the Italian Government to embark upon the contemplated colonization scheme

Solicting Funds For Irish Republican Cause

Widow of Mayor McSweeny on Eastern Tour to Raise Money

New York.—Mrs. Michele Bianchi widow of former Mayor Terrence McSweeny of Cork, who died of starvation in Brixton Prison, England, in 1920, arrived on the President Arthur. She was accompanied by Linda Mary Kearns, Irish republican, and said the purpose of her visit was to raise funds for the dependents of the heroes of the Irish republican cause and for hospitals of the wounded Irish republican army.

SMALL ADVTS DO BIG THINGS

Britain Will Pay Her Debts

New York—Harold Spenser British journalist, formerly connected with the Westminster Gazette, speaking at a luncheon given to-day at the Lawyers' Club to delegates of the Sulgrave Institute, who have come to this country to present statutes of Pit, Burke and Beyer, challenged the arraignment of America made by Rudyard Kiping in articles printed in the New York World and other papers.

Kipling, in an interview, charged that the United States had come into the War more than two years too late; that the United States came in because of gold; that the rest America died in 1865; and that although "America has our gold; England has saved her soul."

"Contrary to Mr. Kipling's charges, you saved us in the war," said Mr. Spender "You saved France, we saved Belgium then you saved us.

"America did not come into the war for gold, regardless of Kipling's statement, although your ambassador told us you did. We have learned not to believe ambassadors.

"The whole thing is the result of the unfortunate quarrel over money.

"The war of independence began with a quarrel about who should pay for pre-lipus wars; by that quarrel we lost America. Be careful but in the quarrel about money going on today you lose the heart of England.

"In the hundred years to come, there must be roughness between the two nations, but let us smooth the roughnesses with good feeling."

Quite a few loads of new wheat have been delivered to the local elevator. Owing to the rain a certain amount of the wheat has to be graded tough bringing down the price to 87c. The local price for No 4 is now 75c.

VOL IV. NO. 47 TOFIELD, ALBERTA, THURSDAY, SEPTEMBER 12, 1922 SUBSCRIPTION IN CANADA $2.00 U.S. $2.50

Rural Council Meet

Eight meeting of Council of Cornhill Municipal District No 467 held at the Municipal building, Tofield on Saturday, Sept. 2nd, at 1 o'clock p.m., the reeve in the chair. Present Councillors, Abernethy, Williams and Hay. The minutes of the previous meeting were read and approved.

Mr. R. Sedill, being present was heard respecting his account of $25.00 for brushing The secretary was instructed after arrangements had been made for providing for the weed grain note with Mr Hoffiin to pay the account.

A communication was read from the Director of Surveys asking to be advised whether it is the intention of the council that the road way be established along the blind line north of section 1&2 tp 46, rg 20, w 4.

The Divisional Engineer of the C.N.R., asked for a blueprint of this roadway, where it crosses the G. T. P., Calgary branch south of Kingman. The communication was laid over until next meeting.

From J. McK. Dickson stating if the municipality will finance the road into Oban beach that he will pay the taxes on the tax notice dated July 3rd, 1922.

From the Deputy-Minister of municipal affairs with regard to the adjustment of the finances and property of the area transferred from the municipal district of the Pines No. 510 to the Cornhill Municipal district. The reeve and secretary treasurer of the Pines M.D. No. 510 being present was heard with reference to the adjustment

From the Director of Surveys with regard to the motion of the Council against granting a lease of the road ways as supplied for by the owners of property in Wite Sand Beach

From H. H. Hull referring to his application for a lease of the roadways in Whitt Sand Beach stating that the owners of the resort should have some protection from the abuses that have continued through the past years.

From W. J. Lemmon appealing for a consideration in regard to the road leading south from the Edmonton highway one mile between sections 7 and 8, tp. 51, rg 21, and leading to his place.

From J. P. Berglund, s.e. 29-49-20, asking to have passage across the road built as was agreed to, being the only way cattle is able to get any water.

A telegram from Pro. San. Enc. to the reeves was read stating contamination in Francis and Carlisle wells, positive typhoid. Use of water is prohibited. The reeve stated that he had closed the wells with chain and locks. The secretary notified the parties that the sanitary engineer had prohibited the use of water in the wells.

Mrs. Selina Mitchel of North Cooking Lake making application for relief owing to her husband's illness for the past two and a half years was considered. Moved by Councillor Abernethy that Councillor Williams be authorized to look after the Hotel. Mitchell case at Cooking Lake and supply any needed assistance. Carried.

The following accounts were presented for payment: Western Municipal News $57.20; Swift and Emery $4.60; J. Noland $3.40; Deputy Attny Gen. $25.70; Fred Sutton $6.15; W. North and Co. $35.18. The Tofield Mercury $13.50; Alberta Government Telephone $1.00; Olaf Lilleng $18.60; Frank Strupe $7.80; Thomas Carlisle $121.05; J. W. Metlinkie $8.80 and $86.50; H. O. Rochelder $28.80; W. Ingram $117.80; Andrew Ferguson $150.16. Moved by Councillor Williams that accounts amounting to $1006.85 be paid. Carried.

Council adjourned to meet Saturday, October 7th at 11 a.m.

Mr., Mrs. and Miss, A Budget of Local News

There will be Holy Communion at Holy Trinity church on October 1st, at 11 a.m. and afternoon service at South Cooking Lake church at 2 p.m.

Miss Leona Johnson of Ryley was in Tofield on Wednesday.

Mrs. J. M. Hall of Edmonton motored down on Wednesday and spent the day with friends here.

Nearly all the local stores are now well stocked with fruit. Peaches, pears and plums are now on sale but will soon be replaced by grapes which in turn will make way for the fall apples. The good housewife does not neglect to "put down" sufficient fruit for the family's need each fall.

The fall auction sale season will soon be upon us. At present, indications point to few sales, but no doubt before mid winter we will be hearing "How much" how much am I bid."

We hear that Jimmy Rowland left on Tuesday for Vancouver. Jim had read of the Woods and is anxious to get in the fray. Consequently he left for the Western city where he hopes to be able to enlist.

The general fall activity among the farmers as well as others have to a great extent depleted the news sources. To put it in other words, locals this week are as scarce as hen's teeth.

Mr. and Mrs. Maxfield motored to Edmonton on Saturday returning Sunday.

Mr. and Mrs. J. McMullen and baby are visiting with Mr. and H. Harriman.

Guy Owen outgained for Edmonton on Thursday.

Miss Elsie Rowland of Edmonton is visiting at the parental home

Found — A ladies handbag, owner can have same by calling at the Mercury Office and proving property.

Mrs. Webb has returned from the east and is now open to receive students on the piano or organ.

Mrs. McCauley left on Thursday night for Edmonton.

Miss Dolina Thompson has been relieving Miss Seal at the school, the latter has been ill and unable to teach

Mrs. Proda is down from Edmonton on a visit to her son John of this district.

The first dance of the season is to be held in the school on Friday evening the 22th, of September. It is being given by some of the younger set and they invite all to come and have a good time, so don't disappoint them but come. It should be good, the first one usually is, so get your chores done early and come and dance.

Miss Paul whom is taking a training in the Royal Alex Hospital returned to her duties after spending a few days with her uncle and aunt Mr. and Mrs. Souther west of town.

Mr. Thos. Carlisle visited his daughters in the General Hospital on Monday last.

LINDBROOK

Harvesting is in full swing here, and several threshing outfits are "shopping to it" as well. It is rather too soon to predict either quantity or quality of the crop the bins will tell later on, and has proved very troublesome in stacking operations. It is said by some though, that if the weather holds good for 2 weeks or so that the stubble fields will also yield a crop of grain and hay and will pay to mow then. How's that for a double crop?

Three carloads of cattle were shipped by the farmers here Messrs Pointer and G. Westfall to care of same. The prices realized were of the best, as it is a certainty that the stuff sent was of the best.

Mr. A Scott shipped a bunch of choice lambs this week, it is his third shipment this fall This time he had the fun of loading them on the car in the dark, owing to some cause or other the usual train did not stop for them, and an extra picked them up later. We hear that Andy prefers daylight methods and from that we gather that he had some job on to load them.

Mr J. Wennerstrom who went to B.C. last year is back here on a trip. He looks well as ever He is staying with his daughter Mrs. N. Ellis of Hastings Lake We regret to hear that the change has not proved so beneficial to the health of Mrs. Wennerstrom as it was expected to be. Mr. Wennerstrom left here at 11am. where she is taking a course of medical treatment.

Mrs. Swain is at present on a short visit to friends in Edmonton.

Mrs. Proda is down from Edmonton on a visit to her son John of this district.

The first dance of the season is to be held in the school on Friday evening the 22th, of September. It is being given by some of the younger set and they invite all to come and have a good time, so don't disappoint them but come. It should be good, the first one usually is, so get your chores done early and come and dance.

Miss Paul whom is taking a training in the Royal Alex Hospital returned to her duties after spending a few days with her uncle and aunt Mr. and Mrs. Souther west of town.

Mr. Thos. Carlisle visited his daughters in the General Hospital on Monday last.

BARDO

This week will see threshing in this section very nearly completed. It was a short job this year due to drought and hail.

Misses Nora Rust and Carrie Eggan are spending a few weeks in southern Alberta.

On September 10th, an all day meeting was held in the Lutheran church. A large crowd was in attendance many coming from outside points. In the afternoon speeches were given by Mr. and Mrs. Leger-quist and Mr. and Mrs. Lindvig Rønning who are leaving for Pekin China next week. Mr. and Mrs Legerquist are returning to the mission field after a few years vacation, and Mr. and Mrs. Rønning are entering it for the first time although Mr. Rønning was born in China when his father was a missionary there. Rev. Williams also gave a short talk.

Born To Mr and Mrs Chas. Williams on Sunday, September 3rd, a daughter

Born To Mr. and Mrs. H. O. Currie on Tuesday, September 5rd, a son

Born To Mr. and Mrs. Joe Voughton on Wednesday, September 13th, a daughter

Mrs. Frank Lewis has been nodding in the H. O Currie home the past week

Miss Myrtle Rude is attending school in Tofield this year.

Miss Williams of British Columbia, is caring for the new baby at C. Williams.

Miss Martha Anderson who is teaching at Fernie B.C. spent her vacation with friends in Bardo

Mrs. P. B. Anderson and Mrs. W. Parker have been on the sick list but are better now.

Mr. and Mrs. Allen Lewis and the Rev Lewis family of Tofield spent Sunday in the Frank Lewis home.

United Church Of Tofield

REV. G. WATT B. D. pastor.

Sunday September 24th.

11 a.m. Holly Day in S S Anniversary invited

7:30 p.m. Rally Day service at Richamond.

7:30 p.m. Church at Tofield.

All are cordially invited to come and enjoy these services.

Charges of 50c for us; Mayor McCauley readily consented to take part, the Mercury will attend to the publicity end and if past results with the business men to us the event a most delightful success.

Business Luncheon

On Wednesday, October 4th there will be held at the Royal Alexandria Hotel the first of what is hoped to be a series of monthly business men's lunches The plan which is being fostered by the Tofield Mercury is to bring the business men of the town together for a short time each month. Seats will be taken at 12.15 sharp, and immediately after lunch Mayor McCauley will give an address on "The Early Days of Tofield" Each business man of the town will be communicated with and will have an opportunity of purchasing a ticket. The plan of course includes a change of speakers at each lunch, with perhaps an address from an occasional prominent stranger. The addresses will be short and those present should be able to get back to business at 1.30.

Host Hannan has promised to do his best for the usual

A. BEIRNES

"OVER THE HILL . ."

THOSE that have been to the city this summer or have read the city papers, will recall that the picture theatres have been featuring a film entitled "Over the Hill to the Poor House." There is another "Over the Hill" but it does not lead to the poor house but to the Tofield Creamery. Regular patrons of a creamery rarely end their days in the poor house but in their own home on their own land. Dairying means work, but it also means independence. Think it over.

Never Mind What Granny Did— Remember—You're *Yon!*

MANY people refuse to believe that tea or coffee can possibly harm them, because they have used these table beverages ever since they outgrew the health rules relating to children.

"Nonsense!" they say, "Why, Granny has been drinking tea or coffee all her life."

It's true that some folks drink tea and coffee without apparent harm. These are the exceptions. But to most people there comes a day of reckoning.

If you are free from headaches, nervousness and indigestion, if you never lie awake at night, if you *know* that your health is unimpaired—then, perhaps, *you* are an exception, too.

BUT—it's well to know that, when you do find something the matter with your nerves and digestion, there's a happy, healthful, table beverage made from roasted wheat. Its name is Instant Postum. It has a fragrant aroma and a rich, full bodied flavor that charm and satisfy without risk to your health and comfort.

Sold by grocers everywhere

SPECIAL ACCOMMODATION OLD COUNTRY TRAVEL XMAS AND NEW YEAR

All those contemplating a trip home to the Old Country for next Christmas and New Years should not overlook the through sleeping car service from Western Canada to the Atlantic seaboard which is to be provided by the Canadian Pacific Railways next November and December, particulars of which are as follows:

[illegible]

The Storage of Vegetables

Winter storage of vegetables is an old question often discussed, but apparently not yet well understood. To store the root crops in a comparatively cool cellar, but to guard against the heavy loss which is average in many a city cellar is a problem even to the most experienced gardener.

[illegible]

Some of the first and most important factors influencing the keeping of vegetables in cellars are to see that the veg-

"Little Drops Of Water Little Grains Of Sand."

All of us who attended Sunday School in our young days will remember the hymn commencing thus.

The lesson that big things are only built up by the massing of smaller ones, is a valuable one.

To the Mercury at this season of the year this thought has special significance. Fall time is subscription time, and while a dollar and a half is not a large item, this sum multiplied many times assumes an amount of great importance to us---an amount that stands between us and the successful running of our plant.

CEMETERY MATTERS

READERS WILL remember that at a recent council meeting it was decided to inquire what amount of money would be required to engage a surveyor to survey an additional portion of the cemetery.

It appears that all the surveyed portion of the cemetery have been purchased and for the past two years, the secretary has marked out the ground to accomodate purchasers of plots. Naturally he shrinks from this task as it entails considerable responsibility, and in the event of the work not being accurately done, some person of course would be blamed. Present information shows that the cost of surveying the remainder of the cemetery will be $125.00. An informal gathering of the councillors views as to whether the work should be done and the money spent, was undertaken. There was sufficient diverse opinion to warrant the matter being left over until a regular meeting, which will be held on Monday night next. At first the Mercury, taking into consideration the state of the town finances, was of the opinion that the work could be done by local workmen. On second thought, we inquired what the cost of the cemetery was to the town, and we learned that it actually cost the town nothing, in fact is more than self supporting. At present there is a credit ledger balance of $1500.00, this is over a period of five years.

The councillors of the town are faced with no easy task. For every dollar that comes in there are two dollars of legitimate expense, and it is absolutely necessary to hold expenses down to the minimum to carry on at all. Therefore it is safe to assume that the only opposition to having the work done properly by a surveyor would be based on the grounds of economy. We are now in favor of having the additional survey made by a surveyor. As a municipality, we are not in the "cemetery business" and the money derived from the sale of plots after the proper expenses have been deducted should be used for the general good of the cemetery and not for general municipal purposes.

The ideal cemetery is a place of beauty. How for Tofield is from the ideal each reader can judge for himself or herself though it can be said it is not worse than the average small town cemetery. Due perhaps to the fact that there is no man's country where lonely is the pass we old and loved ones, even the highest degree, the various local cemeteries have not had the care and attention bestowed upon them that they should have had.

A plan with a circular centre has already been submitted for the Tofield burial ground and if the council sanctions the expense it is expected that renewed interest in the cemetery will take place

"THE LAND OF BUNK"

The above heading was the title given to an excellent short story in last week's issue of the "Saturday Evening Post." The story which was good reading of its kind, told a of a man that sold soap on the midway at fairs. The soap which was just laundry soap, was given most voluous qualities by the addition of nothing but clever and adroit use of the English language. As the story proceeds, the seller of soap was faced with exposure before an angry crowd of rural people, and when the hour was darkest and manhandling imminent, the priced of his profession came to his aid and he talked himself back to safety. At the conclusion, in effect he said, why do I do this? because in my line I am an artist.

We have just read that this year F.F.A. loads have predicted against the $2.40 Indemnity. We have also just read President Woods reply to the resolution of the Ridgewood local. The president literally words found it, over it, under it and through it, but at the end left the impression that he too like the seller of laundry soap that would cure appendicitis is no artist. The seller of soap lived and worked on the fair midway "the land of bunk," whether Al be true politically, as far as the indemnity is concerned, are living in the "land of bunk" we leave our readers to decide for themselves.

THE TOWN THAT GOD FORGOT

"An editor hears quite a number of opinions expressed. Topics run all the way from the price of farm products to what will be the favorite color for ladies wear next season. There fore when he was regaled with an expression of opinion regarding the social life of the town, he was not surprised, but considered it of more than passing interest. The opinion expressed was along these lines.

This town is simply awful. It is impossible to have a good time. People, young and old are clannish and if you do not belong to the "clique," the opportunities for dancing, skating, etc., are rare. There was a great deal more said, but both of social intercourse was the gist of all the remarks, which were finished with, 'I once read a story entitled, 'The Town That God Forgot' and I think this must be the town."

There is no question but that this was an extreme view. Nevertheless it is not by any means the first time the same subject has been broached. The problem of creating an ideal rural community is not so easy as it appears. Living in a small town for the purpose of causing it to be, people from various walks of life. Their previous social circles were most often best is fore the people were born. They cannot help but be influenced by their early experiences and are rather loath to depart from old time customs. But admitting this and assuming that there are some grounds for the criticism, the above is not by any means a complete explanation.

Individuals are born with various temperaments, and in spite of everything, some people will remain poor misers

Saving Inspires Confidence

That feeling of independence and self-respect which comes to one who has money in the bank is more than worth all the effort involved in accumulating the savings. It is far more than a growing bank account which will enable you to meet the emergencies as well as the opportunities of to-morrow.

You are invited to open a savings account at our nearest branch.

TEAMING

The most effective publicity medium is the newspaper.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, at either of the following classes:—

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 25th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and present the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form [illegible] of the bonds for delivery [illegible] of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

The task of "making up" with a "poor nature" at any social function is not easy and very often the blame for the lack of social intercourse at a gathering should be equally divided instead of being placed on the shoulders of one person.

The only object in writing this is to suggest an improvement. [illegible] shows indicated with social inhibitions current there. Let the Tofield [illegible] set the example, also to those that are easily backward, to assist in making the town's social life active by "joining in the various events. If this is done, the heavily real or imaginary, will soon be bridged and this will not be "The Town that God Forgot."

Sad Accident at Bardo

MR. HAGEN LOSES LIFE

A very sad fatal accident occured on Tuesday evening at Bardo, when Mr. O. M. Hagen was hooked down by horses and was so seriously injured that he died the following night, Wednesday.

Mr. and Mrs. Hagen had been to the Ladies Aid meeting and had returned home. Mr. Hagen was unhitching the horses and it is thought that he left one tug undone. The horses jumped and hooked him down the injuries he received causing death.

At time of writing the funeral arrangements were not complete. Mr. Hagen has relatives in the States and these have been communicated with by wire. The Bardo community is grieved and shocked by the event.

Town Council Meeting

A regular meeting of the town council was held at the town hall on Monday night of this week. There were present Mayor McCauley, councillors Bruce, Chapman, Dixon, Swift, and Worton.

A communication from Driscoll and Knight re the cemetery survey was read, and after due consideration it was decided to have Driscoll and Knight survey another portion of the cemetery the plots to be 20x12 feet. There will also be gravel roads made for a circular drive way. The cost will be $125.00

It was decided to insert an official notice in the local paper warning the citizens of the town against setting fire to rubbish after sundown, and calling their attention to fire prevention week.

The secretary was instructed to request the fire chief to have the fire apparatus inspected and put in order and to endeavour to get the fire brigade together.

Some accounts were presented passed, and ordered paid

The secretary was instructed to write the Department of Railways and Telephones that this council recommend that the telephone poles be moved from main street on to the lanes. Also that the department erect a new telephone building here next year.

It was reported that Walbridge, Henwood and Co., defendant be pay the amount of six dollars charged to them for cleaning work done on their property. The secretary was instructed to write them that this amount would be assessed against their taxes, pursuant to regulations 15 of the Public Health Act.

The meeting then adjourned

Holders of 1922 Victory Bonds who have decided to exchange their maturing bonds for new bonds carrying the same rate of interest, under the provisions of the Minister of Finance, which are now being advertised, would do well to surrender their bond at once, rather than delay until September 30th approximately. When the bonds were first issued in 1917, the 1922 maturity was a favorite with small investors, many of whom were buying bonds for the first time. Consequently there are many, many thousands of individual holders and it would be a great help to the banks and the Department of Finance in carrying through the conversion expeditiously, as well as a convenience to the holders themselves, if they would turn their bonds into the banks early as possible

Mr., Mrs. and Miss, A Budget of Local News

The dance held at the Variety on Tuesday night was enjoyed by all those in attendance. The band, Bros. orchestra gave the dance enthusiasts several new thrills, and were heartily applauded.

Mr. Bert Lovell returned on Thursday night of last week from England. He has had a pleasant reception of about three months duration.

A very enjoyable farewell party was held on Wednesday night at the Knibb home in honor of Melissa Knibb. About twenty girl friends met at the Post office and went from there to Knibbs and surprised her. The evening was spent in games and dancing, after which the girls presented Melissa with a gold pencil. A dainty lunch was served and at midnight the gathering broke up all having had a very enjoyable time.

Mrs. Knibb and children expect to leave the first of October for Edmonton where they will make their future home.

Messrs J. W. Chapman and Bert Lovell motored to Ryley on Wednesday and attended a Rebekah Lodge meeting there.

Mrs. C. Tink of Galt, Ont. arrived on Tuesday with her sister Mrs. Barnett

Mr. Paradis is now acting as agent for cement, baking powder and perfumes

Mr. Balwin of Ontario, was a visitor at the home of Mr. and Mrs. J. Rogers over last week. Mr. Baldwin was on his way west to Vancouver

On Wednesday's daily paper appeared an account of a fatal accident at White Rock, a lady and gentleman being killed by a train and another man is supposed injured. The unfortunate couple Mr and Mrs. Charleton, visited this district for a few days last week and were often seen on the street in bathing costums. It is believed their home is in Vancouver

Mr. Beckell, of the model department of the Provincial Exhibition, Edmonton was a visitor at the Home Alex Hotel while spending his vacation in this district, leaving

Mr. and Mrs. Emery left on Thursday last for Edmonton by auto. They will visit at Innisfail and other points in Ontario

Oddfellows Visit Tofield

NINE PLACES REPRESENTED

On Thursday night of last week, about fifty visiting oddfellows from Edmonton and Ryley attended the regular meeting of the Tofield Lodge. Including the local members there were 75 present and a very enjoyable session was held.

A degree team from Edmonton were ferried the 1st degree on H. Metzger during some very fine work.

After the lodge session the brothers were entertained to a splendid banquet served by the wives of the local Oddfellows, at the Women's Institute building. The visitors gave three very hearty cheers for the ladies for their excellent repast.

Nine towns or cities were represented among the visitors, being Edmonton, Ryley, Montreal, Calgary, Detroit, Wetaskiwin, Lacombe, Medicine Hat, Nebo, and Tofield

"OVER THE HILL . . ."

THOSE that have been to the city this summer or have read the city papers, will recall that the picture theatres have been featuring a film entitled "Over the Hill to the Poor House". There is another "Over the Hill" but it does not lead to the poor house but to the Tofield Creamery. Regular patrons of a creamery rarely end their days in the poor house but in their own home on their own land. Dairying means work, but it also means independence. Think it over

The Tofield Creamery

Castoria, or Something Else?

FLETCHER'S CASTORIA is particularly a preparation for Infants and Children made agreeable to the taste, acceptable to the stomach and pleasant in its action. It has been in use for over thirty years and has always been one of the most highly esteemed of all cathartic preparations.

It has one great advantage over other preparations of its kind in that while it opens the organs readily and completely, it does not have a tendency to produce subsequent constipation so much to be dreaded.

Fletcher's Castoria having been prepared solely for our little-ones, should not be confused with ordinary cure-alls or preparations primarily compounded for grown-ups. The child's organism, so delicate and tender, requires specially prepared medicines and foods, the one no less than the other, as mother-love well knows, and mother-love can not be deceived.

Exact Copy of Wrapper.

Children Cry For Fletcher's CASTORIA

What is the Matter with Baby?

It cries fretfully, is restless and does not sleep well, its bowels do not move or it has diarrhoea, it does not eat or it has flatulency and vomits easily. You know baby is sick. You want to help baby get well safely and quickly.

If you are who you will say Fletcher's Castoria, the wonderful remedy for babies' ills, that was discovered by a family doctor and that has been used for over thirty years.

When you have learned the value of Fletcher's Castoria you will never be without it. You will tell other mothers what a medicine you find it in. You will be able to keep baby well and happy by using it to keep its stomach sweet and its digestive organs acting naturally. You will call Fletcher's Castoria the Children's Comfort and Mother's Friend.

Don't put it off tomorrow - try it today. And above all things don't try to relieve baby with a remedy that you would not give to your own children. SOMEONE SHOULD READ THE SMALL PRINT AND REMEMBER NOTICE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

Appetite Good, Gained 20 lbs.

Could Not Feel Better

From a restless, tired man was soon restored to health, strength and happiness.

He tells his own story in this way:

Mr. Ralph A. Roberts, La Have, Queens Co., N.S.

"In 1917 I had not an appetite. I could not eat and could not sleep. I suffered from constipation and was very nervous. I had pains in my back and kidneys and was thoroughly run down. I was induced to try Dr. Chase's Kidney-Liver Pills. After using a few boxes I found I could eat and sleep and felt like a new man. I gained twenty pounds and could feel the health coursing through my veins. I shall always be grateful for your goodness.

Dr. Chase's Nerve Food, 50c a box. Dr. Chase's Kidney-Liver Pills, 25c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

FIRE PREVENTION

BY ROYAL proclamation October 9th is fire prevention day and October 2nd to 9th are days during which a special campaign in the interests of fire protection will be waged. Of all the countries in the world Canada suffers the greatest loss by fire. Due no doubt to the nature of the buildings, the necessary use of a great deal of heat during the winter months and that many small towns have little or no fire protection, the loss by fire in this country has reached a stage that is almost of appalling. The attitude of the people too, here according to some authorities, been altogether too leisurely towards fires, the causes thereof and the losses created by them. A loss by fire is irretrievable. Once a thing of value is burned it ceases to exist. It does not really matter whether the article burned actually belonged to any individual or not, every one loses when there is a fire. A loss by fire is an actual loss to the community and in the last analysis the community is made up of a number of individuals, therefore by logical reasoning anything of value burned means an actual loss to each individual. In the small towns of the west the only method of lessening the fire loss is by prevention. The protection, generally speaking, is inefficient, though at times volunteers with scant apparatus have done good work and prevented serious conflagrations.

Fire prevention means being careful being that stove pipes are in good order, that ashes are dampened down and the numerous little things from which a good many large fires spring from are rightfully attended to. At the same time the Mercury believes it wise to square, as to quite everything fires do occur. Then if one has insured his property and is observing every care he has done all that can be done to avoid fire loss either to himself or to his neighbors.

BE YOUR OWN MANAGER

THE CROPS this season in this district are now definitely known to be considerably below normal. Here and there an odd piece of wheat has come up to previous estimating, but generally speaking there is a degree of disappointment in the yield now the grain is being threshed. The farmer who had estimated his wheat crop to go twenty bushels to the acre and finds that the thresher's tally shows ten, has a real problem to solve. A good many of our farmers owe money. As far as that goes, we all owe money, the business structure and agriculture is the foundation of it) is built up by credit, which simply means somebody owing somebody else money. While "fall settlements" are not also-

LINDBROOK

Lindbrook siding has been the scene of considerable activity this week, several carloads of cattle and pigs having departed for the more East but points unknown. The first shipment was on Tuesday and consisted of 14 cars of cattle and 1 car of hogs. The second shipment was from Mr. M. Shields, who shipped in 20 full cattle. We hear that he got a very good price, considerable more than he paid for them. Mr. M. Shields was also shipped in full cattle. We hear that he got a very good price, considerable more than he paid for them.

Threshing is in progress, several outfits are busy here.

Mr. Asa Rogers has purchased a new tractor engine to run his separator, and is now in the threshing game for all he's worth.

Mr. Wilson had a piece of bad information handed to him on his return from Edmonton to the effect that his house contents tried to flag down a train, but it would not stop, so report has it. The good the young chaps will do themselves.

Mrs. J. Leahy and daughter Kitty are paying a short visit to friends in Edmonton, whether this portends a change in the weather, we can't say, but watch your stocking operations fellows and sal.

Mr. W. Hoppe and son Jim are away from their farm at Bruce in Edmonton. Jimmy is expected home on No 1 train on Tuesday evening, when he will no doubt be suitably received.

Don't forget the dance here on the 29th. Everybody come and let or rip! It is the first of the season so roll up for a good time.

Miss Lily Rogers is at home convalescing after an attack of fever. She is a nurse at the General Hospital Edmonton, and was brought home here by Dr. Goggie in his car.

How Do You Remit Money?

THE next time it is necessary for you to remit money, remember that the safest, most convenient and economical medium is **Bank Money Orders**. They are issued for any amount up to fifty dollars, and you can purchase them at our nearest branch at prices ranging from three cents to fifteen cents, plus revenue stamps.

To Holders of Five Year 5½ per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes

(a) Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.

(b) Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932

While the maturing bonds will carry interest to 1st December, 1922 the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the

Dated at Ottawa, 8th August, 1922.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

Freedom Of The Seas Is Involved In U. S. Seizure Of British Boat

Washington (From the correspondents take an appeal from the decision of the Federal Court in Boston and permit a higher tribunal to pass upon the claim of the United States jurisdiction many to justification were the steps he seized the three-mile limit the British Government is expected here to take up the subject diplomatically with the State Department.

Up to the present no British ruling has been rendered that a requests for international action in such cases has been denied. Whether the present case involves issues the British feel to prohibition merits and has made no appearance in the second legal proceeding. A complete lack of sympathy with the operations of the rum runners on the part of the British officials is said to have created the assumption of such attitude but most that cases have begun to emerge within the past decade therefore the weight of official decisions behind the claim of extended limits was inconclusive. It is understood that there is to be a change in the terms of the Lausanne agreement.

It is the British contention that the boundary fixed by the three-mile limit in Boston in the case of the British schooner Grace and Helen which was held for rum selling beyond the three mile limit, are too many years and important for any more question of the enforcement of fines smugglers, or the enforcement of domestic economic laws.

In the British view there is involved the principle of freedom of the high seas. It is impossible, they say, nation to extend its jurisdiction beyond the established limits. Such an act, they assert, would be a step in the right direction of international complications. It is regarded by the British as highly important that some understanding should be reached in the matter of the powers claimed

Foreign Goods Must Be Stamped

Ottawa—The new act to regulate printed and lithographed matter of all kinds including books and pictures and any words or lines long periods imported into Canada, subject to stamp of in such a manner as to indicate the country of their origin. Regulations to this effect have been passed by the Government and will be laid before the next session of parliament for ratification. Tariff Act.

Shipping Grain Via Vancouver

Calgary—More grain is being shipped from Alberta farms to the Pacific coast this year than at the same time last year, according to figures announced to day by Thos. Bright, C.P.R. grain agent. His total No 1 Hard and No 1 Northern is accepted at the Pacific coast

Will Continue Relief Work

Geneva—The International Committee for Russian Relief It was announced has decided to continue work and use the direction of Dr. Fridjof Nansen of Norway. The organization will keep in touch with the situation in French being Victor Sarrett

Prominent Miner Drowned

Nelson—James Andrews, prominent miner, operating gold mines between Slocan and Kootenay Lake, went out in a boat with friends while duck shooting to feed Penny River, nine miles from here.

Japs Are Ordered Out Of Russia

Chang Chun, Manchuria.—The conference here between Japan, the Soviet Government of Moscow and the Far Eastern Republic of Siberia appeared to have reached a deadlock, with the Russian demand that Japan evacuate the northern half of the island of Sakhalin immediately Japan refuses to do this until she has been indemnified for the massacre of Japanese at Nikolaievsk in 1920. Adolph Joffe, envoy from Moscow, told a flat ultimatum on the conference table when he notified the Japanese delegates that the Moscow Government would refuse to sanction the proposed trade agreement between Japan and the Far Eastern Republic so long as "the Japanese soldier remains on Russian soil." Joffe continued with the declaration that Japan must immediately evacuate Sakhalin as well as Vladivostok.

Prosperity Wave Coming

William Sees Big Development Period Ahead of Dominion

Calgary—Canada is standing on the threshold of a development period in population in the next quarter of a century which will dazzle the world, according to John Widmer, Secretary-Manager of the Western Canada Colonization Association, who spoke before a combined meeting of the Men's and Women's Canadian Clubs of Calgary and the Talisman Club of Leader of the Palliser Hotel here.

Calgary's leading citizens were largely represented at the luncheon which was in the form of a dinner to welcome the pioneers of the province and to hear their views

Sir John gave a general outline of the aim of the association, while M. A. Brown, Vice President, gave a touching and detailed account of how the organization expects to function by bringing new citizens to Canada.

Included in the gathering were Lieut-Governor Brett, Frank Ficker, President of the Calgary Board of Trade who was chairman; Alderman John J. W. Hamill, Pat Burns, Mr. H. A. Brace, Vice President of the Western Canada Club, Captain R. T. Shaw, M.P., Captain Ethelbert Peterson, M.P.P.; Mrs. A. J. Gordon, Secretary of the Women's Canadian Club, Hon. R. B. Bennett, K.C. and many others.

Destructive Typhoon

Honolulu—Miyako Jima, one of the seven isles of Izu, in Northeastern Japan, has been swept by a typhoon one of the most disastrous in the island's history, which destroyed 2,000 houses and damaged 45 vessels according to advices from Tokio to the Nippo Jiji, a Japanese newspaper in Honolulu. Nine lives were reported lost.

$40,000 Winnipeg Fire

Winnipeg—Fire caused a loss estimated at $40,000 to the plant and building of the W. J. Boyd Coal Company, Spence Street. The loss is covered by insurance

Veterans Ready to Enlist

Vancouver—Veterans who served in the war during the Great War are volunteering here steadily for a possible contingent to Constantinople. None of these have passed out for Brig Gen. Victor Odlum that the bill of the Turkish advance is characteristic of the Turks' method of warfare. Lovat a veteran of the Mesopotamian campaign in report Constable declared as statesmen of the Ashing to Mesopotamia General Odlum says

Strong British Forces Prepared To Deal With The Trouble In Turkey

Constantinople—The British are mobilizing every available man to meet Mustafa Kemal's forces, and are preparing to deal a formidable blow to hold, we said and all forces under the Kemalist army which according to latest reports, is moving steadily eastward toward Ismid and Ghalak.

While British battleships in Constantinople have been actually and many are marching in the streets of the capital which is having a whole day's rest on the waterfront Task. The British soldiers are headed by strategical points on the Straits.

General headquarters has issued an official order directing the wives and families of British officers and soldiers to prepare to embark at once

Transport with British cavalry, heavy artillery and supplies are arriving at Constantinople, on the Ismid Peninsula.

The men of the Constantinople garrison are completing entrenchments which run on the Asiatic side of the Bosphorous which will be second line of defense, the first being at Ismid. A small railway station between Ismid and Ismid

The British police forces in the capital have been greatly augmented and will probably be assisted by French gendarmerie. It is estimated that the present total British strength in Constantinople and the Dardanelles is about 16,000 men, which, when reinforcements now on the way, arrive will be increased to nearly 25,000 effectives. These forces will be further strengthened by large detachments from the Atlantic and Mediterranean fleets

The British are enrolling Russian refugees with military training for auxiliary work, while Russian Kadets from Manchuria are being recruited as horse trainers. It is expected that eventually Gen. Britain will have more than 100,000 men in the disturbed area.

W. N. U. 1450

RUSSIA WOULD SUPPORT TURKS

WILL LEND MORAL SUPPORT, IF NOT FORCE OF ARMS

Moscow—Russia intends to support the Turks morally and perhaps will give them munitions if they should be needed, but it is considered in Moscow extremely unlikely that Russian troops will be sent to assist the Kemalites if they attempt to take Constantinople

While preferring the Turks to the Allies as the holders of Constantinople, nevertheless it is understood in Soviet leaders have decided to take no steps which might bring them into a real war with Great Britain

The Russian mail might give advice either from a distance or on the ground but no troops will be sent, it is stated here

Some of the Russian leaders declare Constantinople should be Russian, because that they prefer Constantinople to Turkish, but strongly influenced from Moscow. Nevertheless, all Russia is tired of war and the leaders are pledged to the task of reconstruction

Destructive Prairie Fire

Over 1,500,000 Loss in Blaze on Indian Reserve

Lethbridge, Alta.—Two hundred men, white and red, after battling against the flames for three days, on the southern slope of the Blood Indian Reserve, south of Cardston, succeeded in putting out the blaze after it had done damage estimated at between $500,000 and $1,000,000. The men were augmented by a strong wind from the north and west fanning the flames until they became a furnace. The fire started across a 35-mile front, taking everything before it. Thousands of tons of hay went up in smoke, besides machinery, farm equipment and supplies. Winter grain and other late crops were also ploughed. Indian belief—to be in the path of the flames are still unexplained. Archbishop Legal of the St. Mary's River were menaced for a time. The fire is reported to be under control.

Big Increase in Grain Movement

Reports Show Considerable Advance On Number of Cars Handled

Winnipeg—Movement of large grain shipments from Manitoba points, consequent on fair weather enabling farmers to rush threshing, coupled with augmented receipts from Saskatchewan and Alberta points brought the Canadian National Railway's movement of cars to 1,115 on Monday, 1,200 on Tuesday and 1,300 on Wednesday, a total of 3,615 cars for the three days, or an average of 1,205 cars per day. This is the largest movement of grain in any three consecutive days in the history of the road, and is the largest movement of grain in any one day since 1,300 cars were moved on October 4th, 1920. The movement for the week ending September 16th was 5,100 cars, and for the week ending September 23rd, 6,000 cars. The movement for the week ending September 30th will probably be 7,500 cars, or more. The movement for the week ending September 30th will probably be 7,500 cars, or more. The movement for the week ending September 30th will probably be 7,500 cars, or more.

Interrupters at Setting of Irish Parliament Are Heavily Fined

Dublin—At a sitting of the Irish Parliament, Maud Gonne MacBride and Mrs. Despard were arrested for interrupting the strangers' gallery. The proceedings were delayed because of their persistent interruption of the proceedings.

Editor of the editor of the Irish Civil Liberty, who was convicted in Dublin in 1916, interrupted from the gallery on the question of pensions and said, "In another country women who had worked in her prisons, was elected.

During the debate on the pensions question, Thomas Johnson, Laborite leader in the Parliament, moved to the preamble and substitute a declaration of Ireland's sovereignty. Austen Chamberlain, Conservative leader of the British government in opposing the amendment argued that while starting with words and torpedo would only alter the appearance to the exasperation who revel in such pleasantries of debate.

Hay Winter Again in Arctic

Crawford Party May Not Be Able to Return This Season

Vancouver—According to a message from Nome Alaska there is every indication that Allan A. Crawford and party of explorers who left Nome in March on a dog team journey to Wrangel Island lost in the Polar Ocean will not be able to remain here another winter in the hope to be picked up by steamer. Ice conditions in the Arctic Ocean are unusually severe. None of Wrangel Island is known to the Eskimos who have lived on the Island for a decade.

Elevator Destroyed by Fire

Saskatoon—Fire destroyed Brown elevator at Meyrin with 7,000 bushels of grain, half of which was wheat. Two other elevators were saved by the efforts of the local fire brigade with hot hits and engines. The property was fully insured and it is consequence that work will be started again immediately.

The Storage of Vegetables

Winter storage of vegetables is an old question often discussed, but apparently not yet well understood. In short the requirements are a cool, dry, dark place, well ventilated, yet properly protected from frost. For the storage of such crops as beets, carrots, potatoes, cabbage, celery, parsnips and turnips a properly constructed, frostproof cellar should be available with adequate ventilation to keep the temperature as even and as near possible around 32° F. All trouble during storage periods, however, is caused by the presence of too much moisture or too little. Moisture is necessary to keep the vegetables from shriveling, but too much causes decay. Ventilation is necessary to remove excessive moisture and to keep the temperature down.

Some of the most and most important factors influencing the keeping of vegetables in storage are the temperature, the amount of moisture in the air, and the ventilation. The best temperature for storage is one that is as near to 32° F. as possible without freezing. Where the temperature is allowed to rise much above 40° F. the vegetables tend to sprout and shrivel, and if it goes much below 32° F. they are likely to freeze. Where the temperature is allowed to fluctuate much between these limits the vegetables tend to sprout and shrivel when it is warm and to freeze when it is cold. Moisture is necessary to store the carrots, beets, parsnips and potatoes in sand, because, as a rule, sufficient moisture will escape from the floor to keep the air moist enough to prevent the vegetables from withering. Onions require quite different conditions, while in storage, to the other varieties of vegetables.

A dry, cool, dark room is best for storing onions. Where a temperature can be kept around 32° F. by no means should onions be stored in a cellar, except where it is possible to retain a dry, cool ventilation.

Squash and pumpkins should be stored in a dry, moderately warm room, where a temperature of 50° F. can be maintained. Particularly careful handling is necessary at harvest time if this crop is to be kept for any length of time. Place the pumpkins or squash on shelves or a table, in a single layer.

NOTICE

Trespassing and shooting without permission on the west half of 25-59-19 w 4 strictly prohibited. This property fenced immediately south of town.

E. R. Kellel, Tofield.

Messrs. Anderson and J. L. Downing of Winnipeg, inspectors of the Bank of Montreal have been attending to the affairs of the local bank for some days past. In an interview with Mayor McCauley, when asked regarding the intentions of the bank in connection with erecting a new bank in Tofield, they were non-committal.

PUBLIC NOTICE

Town of Tofield Re Fire Protection

PUBLIC NOTICE is hereby given, that by Local Proclamation October 10th is designated Fire Prevention Day, and the week from October 2nd to October 10th is to be a period of carrying on a campaign in the interest of Fire Prevention. Citizens of Tofield are requested at the time to have any accumulated rubbish destroyed, to have all flues cleaned, and to take all other precautions as shall tend to lessen risks of fire.

It has been drawn to the attention of council that certains have been burning piles of rubbish after the hour of sunset. This is contrary to the bylaws of the town and is a dangerous practice, and warning is hereby given that the practice must cease. Proceedings will be taken in future against all persons infringing the by law governing this matter

Dated at Tofield, this 29th day of September, 1922

VOL. IV. NO. 49 TOFIELD, ALBERTA, THURSDAY, OCTOBER 5, 1922. SUBSCRIPTION IN CANADA $1.50 U.S. $2.50

Local Couple Wed

A wedding of local interest took place at Westminster Manse, Edmonton, on Monday, Oct 2nd. The contracting parties were Mr. Arthur John Young and Miss Hazel Grace Bowick, both of Tofield. The ceremony was performed by Rev. Grant.

Both parties are well known in the district, Mr. Young being a farmer of the Shonts district, while Miss Bowick is a former Tofield school girl and has been on the staffs of the Government Telephones and the Tofield Mercury. Their many friends wish them true happiness through life.

For the immediate present Mrs. Young will stay with her parents, Mr. Young being called home to North Dakota, by wire, his mother being very seriously ill.

We have some private funds to loan in small amounts. We purchase first class notes and agreements for sale. We have funds for farm loans.

WE SPECIALIZE IN COLLECTIONS

Lindbrook News

The weather being fine, the threshing has been continued and good progress made several outfits being busy.

The countryside here is fast assuming its "fall fashions" and soon all will be ready for its winter coating of snow.

Mrs. W. Hooper returned from her visit to Edmonton and reports a very enjoyable trip.

The dance given by Messrs T. Szarsky and H. Gleen in the school house here last Friday evening was a huge success. The guests came from all parts, Shonts, Tofield, Deville, Cooking Lake all being represented. No doubt they enjoyed the trip almost as much as the dance the weather being ideal and the moon graciously shone forth for the occasion. The music was supplied by the Smith Fiss orchestra, supported by the brother of Mrs. Campion.

Chas. Blake of Tofield acted in capacity of the M.C. needless to say that the affair went well, everyone in the best of spirits and about as large a crowd as ever assembled there was present this trip. This is the first dance of the season and if all others go as good it augurs good for the success of the 1922-3 winter sports here.

Mr. J. Lepine returned home here from Camrose district where he has been harvesting etc. Camrose being his former home.

The train times have been changed, starting from October 1st, they are as follows at Lindbrook station:

Wainwright to Edmonton 10.20
Edmonton to Calgary 10.40 a.m.
Calgary to Edmonton 6.05 p.m.
Edmonton to Wainwright 7.25

Candy Day, October 12

Thursday, October 12th, has been designated "Candy Day." All across Canada from east to west, special inducements are being made to increase the consumption of wholesome sweet meats. A good many ladies that have not been previously receiving candy, due to the publicity of the event will be given a box of candy on this date. Wives and sweethearts nearly all appreciate courtesies of this kind. D. H. Todd is making a special display for this day and always carries an excellent line.

Mrs. McDonald of Bashaw visited with friends and relatives on Friday of last week.

First Business Man's Luncheon A Complete Success

On Wednesday at noon the first of a series of lunches for Tofield business men was held in the dining room of the Royal Alexandra hotel. Twenty-eight Tofielders sat down to a hearty repast. Immediately after lunch Mr. J. Rogers, chairman, in a short address said that he was pleased to see so many present and complimented the Mercury upon organizing the event. A great deal of good could come out of a gathering like this, or a series of gatherings and he hoped the lunches would be continued. His address, he said, must necessarily be short, so he would call upon the speaker of the afternoon, Mayor McCauley.

Mayor McCauley gave a splendid address taking as his topic "Early Days in Tofield." He went away back to last time the buffalo roamed the plains and gave an intensely interesting account of the development of this district from the days of the Indian and buffalo to the coming of the railroad.

In order to give our readers the full benefit of this address, we asked Mayor McCauley and he consented to let us have this address in manuscript and the address will appear in full in our next issue.

W. Wotton of the Mercury, said a few words.

Let us first say how pleased I am to see so many here. It is very gratifying indeed to see such hearty support of this venture upon its inception.

The idea of this luncheon was born of two convictions. The first that I believe a greater degree of enthusiasm can be created around a festive board than elsewhere, and secondly that I believe the time is ripe for the organization or reorganization of a Board of Trade for Tofield, in addition it is hoped that this luncheon will create an added degree of friendship among our business men.

The people of the American continent now hope that the ill effects of the great war are over, and we are hearing on every hand that we are soon to be favored with a wave of prosperity. While fully realizing that at present local conditions are not as prosperous as we would like to have them, it is not unreasonable to suppose that the wave of prosperity that is predicted will flow over the continent will make its effect felt here by creating better prices for farm products.

We are told that the next few years will see a mighty tide of immigration flow into Canada. There is now in running order a gigantic scheme to colonize millions of acres of land with land picked settlers from the United States and Europe. It is not my intention to discuss the merits or demerits of this scheme, but simply to assert that undoubtedly there will be emigration upon a large scale in any event. The question for us to decide is what part are we as Tofield citizens going to play in the building up of this country. Are we going to take pot luck or lose no energetic in including settlers to locate here? In a business way this luncheon can only be of a preliminary nature. The business of organization must be done at a business meeting in a business way. But I would like to say this, if this organization meeting is called be there. In the last analysis, you are an integral part of the town of Tofield, and to receive benefits from Board of Trade or any kindred organization a town must be hitting on all cylinders. Each business man is a part of the machine and no machine will run unless its parts are functioning properly.

Some years ago a man was very anxious that I should manage a local paper for him and this is what he wrote "We have the best town, the best district and the best people in Alberta." I would like to suggest that when you or I speak of Tofield, we say that we have the best town, the best district and the best people in Alberta."

Now regarding the making this luncheon a monthly affair. This is left entirely with you. It has been a pleasure to organize this affair, but in a democratic community this is the work of a duly appointed committee and not one individual. I will now let the matter entirely with you.

Before closing I would like to again thank all those who so readily purchased tickets. Also Mr. Rogers for presiding, Mr. McCauley for his address, Mr. Fincott for his kind wishes, and last but least, host and hostess Hannon for their hearty support by providing such an excellent lunch.

A showing of hands was taken as to whether the event should be made a monthly one and it was unanimously agreed that it should.

Mr. Thos. Kuebone of Falls City, Oregon, arrived Monday to visit with his daughter Mrs. Wm. Bowick.

Farm Lands

We have for sale several tracts of pasture land at from $8.00 to $10.00 per acre as well as improved loads at from $20.00 to $40.00 per acre Write or phone for particulars.

Local News Budget

There has been quite a number of geese around and on the lake for the past few days. A number of local sport-men have been out with the gun to bag one or more, and we understand that Burt Calvert was successful in bagging two.

Geo. Agnew and Leon Abbott have been away on a goose hunting trip.

Friend Hay of the Farmers Supply Co. has now memorized the slogan of a certain tire manufacturer, "Time to retire." From a number of tires standing in front of the store, some one on Saturday last took one away without waiting to pay for it.

The lure of the wild proved too much for two Edmonton hunters with the result that they got their dates mixed and went hunting on Sunday. Constable Morrison was in the vicinity and the fines was ten dollars and costs each.

How are you going to spend the long winter evenings. Why not install a radio receiving set and have music, sport, latest news, weather and market reports from Edmonton, Calgary, Denver, Portland and many other places. If you are interested phone 301 and come and hear mine. Maurice McGlinttie.

Rev. J. A. Swingrose M.A. of British Guiana, will deliver a lecture on Missionary work in that country, on Friday evening of this week, in the United church of Tofield.

All who are interested in the cause of Missions should avail themselves of this opportunity of hearing Mr. Scrimgeon while he is home on furlough. Come at 8 o'clock. All are cordially invited

Born To Mr and Mrs. Carlson of town, on Friday September, 29th, a son.

Women's Institute Notes

The first social meeting of the fall will be held in the Institute Rooms on October 10th, all the members are requested to be present. A good programme is on stage for the meeting

The whist drives will be held on October 17th, and 31st. All following drives will be held on the 1st and 3rd Tuesday of each month for the balance of the winter. All others arranging dates please keep these dates in mind.

All persons coming in later than 8.30 may play but will not receive a score card. All must pay full fare in order to compete for prize

Ketchanost Budget

The monthly meeting of the Home Improvement Society will be held next Wednesday October 11th at the home of Mrs. W. Gleen, and with Mrs. Chenier's assistance dinner will be served to the members and friends. A hearty invitation is extended to all

Rev and Mrs. Watt were guests at the C. S. Mitchell home on Wednesday.

Mrs M. Ingram Sr. and Mrs. J. H Ingram visited with Mr. and Mrs. Wesley Ingram on Sunday afternoon

On Wednesday afternoon the ladies of the Missionary society will meet at the home of Mr. Shultis and spend the afternoon canning, mending and sewel

Lillian and Donald Carlisle were the only pupils neither absent or tardy at school during the month of September.

Columbia Grafonolas and Records

Drop in and let us play for you, on one of our handsome new Grafonolas, the latest Columbia dance records, popular song-patriotic airs, selections by famous artists.

A. BEIRNES

"OVER THE HILL . ."

THOSE that have been to the city this summer or have read the city papers, will recall that the picture theatres have been featuring a film entitled "Over the Hill to the Poor House." There is another "Over the Hill" but it does not lead to the poor house but to the Tofield Creamery. Regular patrons of a creamery rarely end their days in the poor house but in the home on their own land. Dairying means work, but it also means independence. Think it over.

The Tofield Creamery

Can Summon Parliament For Emergency Session If Situation Warrants

Ottawa.—Unless developments in the New East should necessitate the calling of an emergency sitting, it is unlikely that the Cabinet will meet this week. No Cabinet meeting has yet been called and none is in prospect at the moment.

As far as can be ascertained, the action of the Government in the event of hostilities in the Near East would be confined to the immediate calling of an emergency session of Parliament. Members would be summoned to Ottawa with the least possible delay.

The Prime Minister is understood to be in receipt of cabled information from the British Government daily, and this, taken in conjunction with the news despatches, enables him to follow the trend of events carefully.

London, Ont.—Declaring that "some action should be taken by Canada to give Great Britain full support in any crisis which might arise in the Near East. The Provincial Synod of Ontario of the Church of England in session here, passed the following resolution: "The Provincial Synod now in session at London desires to go on record as expressing its sense of loyalty and devotion to the Mother Country and strongly urges the Dominion Government to assure the Government of the Mother Country of our full support in whatever a crisis might demand."

Orillia, Ont.—Speaking at a Liberal Conservative picnic here, Hon. G. H. Perley expressed regret that Canada should have been humiliated and the glory of Waterloo tarnished by the action of the Government at Ottawa in sending a "quibbling answer" to the British Government. Canada could not to send men or money, but he felt the world knew that the Dominion would stand behind the Mother Country in her difficult situation.

Warm Air Held in Place

The temperature can be kept at home or in contact with the body by Pyrene Insulating Underwear. Its special porosity retains warmth and prevents chilling. Constantine Succeeded By Crown Prince George To Throne Of Greece

Athens King Constantine, bowing to the will of the army and navy, has abdicated, and Crown Prince George, who married Princess Elizabeth of Roumania, becomes King of Greece.

A Paris despatch yesterday by premier evening announced the resignation of Premier Demetrios Gounaris and former Minister of Agriculture Nalexis was wounded

Constantine twice occupied the throne of Greece His first reign began March 19, 1913, with the assassination of his father, George I., and continued until June, 1917, which he was forced by the demands of Great Britain, France and Russia to abdicate because of his pro-German sympathies.

He was succeeded by his second son, Alexander, who was nominated by the deposed monarch, and who had promised to carry out Constantine's policy of neutrality. Alexander reigned for the past 22 years, and has no children.

Mrs. Anne Chrissan Rothery, city clerk, Swansea, who was nominated by children and I must say they are not a bad lot. Of course, they are sometimes very boisterous, sometimes trouble some, sometimes impudent, disobedient and such like, but I always find there is no cause for worry as I can give them two or three doses, so sure of the effect that Eatonic is well known here, and the trouble soon disappears. I have used Eatonic for my children myself and keep in the home for that purpose.

Eatonic is to Me a better pal than only by The T. Eaton Co. Limited Toronto Ont.

Mad Rough Passage

New York, The French liner La Lorraine from Havre, reached port all right, although the Cunarder Franconia reported in mid-ocean which, its passengers related, braved mountainous seas, greatly impeded the progress of the vessel and caused Captain Bruno to have everyone on board for 24 hours.

Interest On War Debt

Washington.—Great Britain has been allowed the payment of $5,000,000 on October 15 as interest on the war debt will be acceptable pending the settlement of interest rates by the forthcoming funding negotiations it was said at the United States treasury

Mines Speeding Up

London.—The Kolf's Pontata Pyrites mines of Cornwall have practically resuming full time operations after working on a five day week basis for some time. A few hundred men and a Reuter despatch from Cape Town

Denies Report of Suggested Alliance

Berlin.—The German Government has issued a denial of reported negotiations for a Russo-Chinese alliance

BANDITS MAKE BIG HAUL

ROB SAFES OF BANKS AT MOOSO MIN AND DE CELON, SECURING CONSIDERABLE BOOTY

Regina.—A gang of bandits blew the safes of the Union Bank at Moosomin and the Bank of Montreal at Cele making a clean getaway with $16,000 cash, and $14,000 in securities. The securities and $7,000 in cash were taken from the bank at Cele and $7,000 in cash in the Moosomin robbery. The robberies were carefully planned, the bandits selecting sections at points of vantage to stop any possible interference while the operators were at work with nitro glycerine on the vaults and safes.

Moosomin is 128 miles east of Regina on the C.P.R. main line, and Cele is about three miles west and the main south of the city on the Red Deer Lumpman branch of the C.N.R.

Both bank buildings were damaged over $5,000 being the loss to the building and equipment at Moosomin and over $2,000 at Cele.

The bandits cut every telephone and telegraph cable leading into both of the towns before they entered the bank. John McDonald, C.P.R. night operator taking him to the bank so that no alarm could be give any alarm. No other person was molested during the raids.

Three C.P.R. trains were stalled for some time at Moosomin during the night, while Mcdonald was held by the bandits. After they had left the bandits locked the station agent in the cellar, and there a commercial travelers and the night clerk of the Queen's Hotel freed him by cutting the ropes. Mr Donald then dispatched the trains

Adopts Canadian Invention

Lieut Brodeur Designs Working Model of Self-closing Gun Turret

Ottawa.—The British admiralty has adopted for International purposes in naval warfare, a working model of the lower part of a battle-ship gun turret invented and designed by Lieut. Leonard O. Brodeur of the Royal Canadian Navy. Lieut. Brodeur is a son of Justice Brodeur of the Canadian Supreme Court and is on the naval headquarters staff at Ottawa. The British admiralty has complimented Lieutenant Brodeur on his efficiency. The model proposal at the working parts of a turret gunnery students.

Canada Interested in Imperial Fruit Show

Over Eight Hundred Boxes Have Been Entered By Growers

Ottawa.—Entries for the Imperial fruit show to be held in London at the Crystal Palace, London, Eng., from Oct. 7 to Oct. 14 are now closed.

That this show has aroused very considerable interest throughout the fruit districts of Canada is evidenced by the fact that over eight hundred boxes have been entered from Canada alone with practically all the fruit growing districts in Canada, with the exception of New Brunswick, participating

Thinks Swearing All Right

Madras.—Sir Fazulbhoy Currimbhoy, assistant collector and magistrate of the Madras Police Department, was fined 500 rupees in the Police Court. Three constables are reported to have been fined and about 200 rebels recently has been revealing the backwaters in the region where the ambuscade was laid.

No Cause For Worry WHEN CHILDREN HAVE Summer Complaints

There is not a summer passes but hundreds of children are attacked by summer complaints and diarrhoea, diarrhoea, dysentery cramps and pains in the stomach and bowels, bowel trouble, cholera infantum.

In looking for relief one should not be in getting a bottle of Dr Fowler's Extract of Wild Strawberry, which has been used for the past 70 years, and has never failed to relieve.

Mrs. Anne Chrissan Rothery, city clerk, Swansea, who was nominated children and I must say they are not a bad lot. Of course, they are sometimes very boisterous, sometimes trouble some, sometimes impudent, disobedient and such like, but I always find there is no cause for worry as I can give them two or three doses, so sure of the effect that Eatonic is well known here, and the trouble soon disappears. I have used Eatonic for my children myself and keep in the home for that purpose.

Eatonic is to Me a better pal than only by The T. Eaton Co. Limited Toronto Ont.

Food Sheep On Screenings

10,000 Sheep Will Be Fed At Fort William

Winnipeg Ten thousand sheep will be fed on screenings this year at Fort William and Westfort, Ont., by T. Casey, of Lethbridge the well known sheep rancher, who was in Winnipeg recently, after completing arrangements for the rental of his large flock of sheep. Mr. Casey is optimistic and he found what had been regarded as a drug on the market for years has suddenly turned into prime money.

In all 4,000 were sold for shipment to Fort William, and the remainder will be fed on the Toronto market

Will Evacuate Siberia Provinces

Tokio—Japan will proceed with her evacuation of Siberia provided the Siberian provinces of Siberia regard the bewilderment of the Chang Tso-lin bandit commander, Mr. Hanihara, Japanese delegate to the arms conference at Washington.

STOMACH MISERY, GAS, INDIGESTION

"Pape's Diapepsin" Corrects Sour, Upset Stomachs at Once

Pape's Diapepsin" is the quickest, surest relief for indigestion, gases, dizziness, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets relieve any immediate stomach relief. Correct your stomach now and for a few cents. Druggists sell millions of packages.

To Aid Cancer Research

London.—The Federation of Medical Allied Services of which Sir Berkeley Moynihan is president, has decided to urge the Government to obtain £100,000 to endow research. John P. Lockhart Mummery, cancer specialist of St. Mark's Hospital, London, said the serious phase of cancer was that the disease preferred to attack the healthy, hard working people, not the drones or weaklings.

Car Shortage May Close Buffalo Elevators

Supply is Limited and Situation is Considered Grave

Toronto.—A special despatch from Buffalo to the Globe says:

Vessels at the Buffalo elevators Sept 27 had 1,310 000 bushels of grain and elevators unloaded 1,726 000 bushels. There has been but slight improvement noted in the car supply here, and elevator men said that unless there is a big increase in the number of cars available for loading soon they will be compelled to stop receiving grain. Other industries are handicapped in a similar manner making the situation in connection with the Buffalo elevators very grave

Bermuda Struck by Hurricane

West Indies Island Sustains Heavy Damage in Storm

Halifax.—Bermuda was practically destroyed between 4.30 noon and 6.30 p.m. Sept 21 by a hurricane which swept it Sunday on the morning of September 21, according to advices received here by the steamer Trinidad Co. today here.

Hundreds of houses were wholly or partially unroofed, chimneys were blown away and roads rutted by a high speed wind. Many buildings collapsed like houses of cards. Beyond the harbor square in a depth of three feet. St George Hotel roof was blown in half. Many small craft were destroyed. There was no shipping at Hampton when the hurricane struck, but wide damage was done in small boats

Dyed a Sweater And Shirt With Diamond Dyes

Every "Diamond Dyes" package tells how to dye or tint any worn, faded or garment so draggy a new rich colour that will not wash or fade. Druggist sells Perfect Home Dyeing. It is absolutely impossible to make a mistake if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen cotton or mixed goods. For perfect results in fadeless colors, always have your druggist order Diamond Dyes to add years of wear to their fabrics. Diamond Dyes are guaranteed never streaky, spotty, blotchy, or fade. Druggist sells millions of packages.

British Capital For Canada

Earl of Stafford Is Impressed With Opportunities in this Country

Montreal.—The cause of the Imperial preferential party to Canada was probably better served by the presence residing in British capital to Canada in the person of the Earl of Stafford, who visited here with the Imperial Board of Trade party.

"We have had the opportunity to see your wonderful country for our selves, and we are delighted with it," he said. "Although I am not able to make any statement as to the financial condition of the country, I am impressed in the things we are being shown, and that there is room for us here."

Waterspout Wrecks Fishing Boats

Seven Men Lose Lives in Storm on Spanish Coast

Paris—A waterspout in the Tyrrhenian Sea, between the Islands of Sardinia and Sardinia and Italy is reported by the Petit Parisien to have struck two fishing boats off the coast, drowning seven men on board, up to the minor mate of the disappeared completely.

A storm threatened the fishing fleet, and the boats were hurriedly making for shelter when a terrific waterspout appeared and sweptured them.

Two boats were caught by the spout; the rest escaped.

Will Provide Nurses

London.—Reuter's Simla correspondent cables that the president of the Anglo-Indian domiciled European Association of India, has offered the viceroy the services of his community in providing a contingent of nurses to be employed in the Near East in the event of an outbreak of war.

WINTER SPORT

There has already appeared in newspapers reaching this office reports of meetings and meetings held in different parts in connection with winter sports. Both Wainwright and Edmonton have inaugurated ice hockey associations and it is said that the respective committees have the papers are working up lots of enthusiasm. At Tofield we have already had a preliminary curling meeting.

The Alberta winter is long the brightest Alberta booster will admit this, but the same logic the method of hockey cannot prove that they are dull. Hibernating again in summer, it appears that they have had a very poor sport season during the summer, no baseball or football in fact at a baseball team almost staged there, no Canmore team entered for hockey, oh boy! in effect they are all saying, ring the bell and let's go!

The fact that Jack Frost for several months holds full sway is by no means proof that Albertans do not have a good time during this period. As a matter of fact the keen frost opens up a number of opportunities for sport that the more temperate localities lack. It may seem strange to some of our people when we state that we have heard a well informed man of Vancouver Island say that our winter is better than theirs, that they have the partial discomforts of winter, with out its many compensations in the line of winter sport.

The people of Tofield and district have always entered wholeheartedly into the enjoyment of winter sport. Curling especially has been a favorite with the more mature element while with the exception of a few years during the war, we have always had a hockey team on the ice. The prospects for winter sport in Tofield are as bright now as at this time in any bygone year. As far as curling goes, it seems as if in favor in the game never ceases. From the time the first rock can be thrown to the time the spring sun melts its effect felt, the rinks are a gathering place for curling enthusiasts, ladies and gentlemen. One most likely to the fact the curling association is composed mostly of mature business men and farmers, any comment on their financial affairs is unnecessary, except to say that seemingly they can along smoothly.

Regarding hockey there is a different tale to tell. For the past two seasons at any rate, the team has ended the season in debt. How to manage a team at Tofield and make a financial success of it, which means just breaking even, is not the easiest task. There are necessary expenses which simply must be met, and it is not fair after providing the fun, the players should be asked to pay for it also. The revenue, of course, is derived from the admission fees, and these seem to be the seat of the trouble. The public does not desire to spend more money to see a hockey game, therefore if it is not possible to get more money, because a compromise of rather less to be more people. The Mercury is of the opinion that as long as the accommodation at the rink remains as it is, there are slight chances of increasing the crowds, and some were the accommodation increased, the increase would be small.

The largest expenditures occur on the ice, they are two, home. But to have games keep the team must provide games elsewhere. Now there is a turn about system does not pay our team and the local crowds can not be increased, the only solution left is to have more home games, say two to every one away. If a second Tofield hockey team cannot be created, two strata might with profit be created to, perhaps keeping a definite relation between the hockey club funds and the number of stunt evenings put on. These suggestions are offered for what they are worth, anyway, we hope that the coming winter in both curling and hockey will be one of the best yet

Last year the Mercury received criticism for not giving the curling fraternity as much publicity as they thought they should have. Without trying to sidestep the responsibility of procuring news, we would like to say that it would greatly assist us and most likely prove useful to them, if when they are organizing the year they include among their officers a press representative. From over the town curling seems to be a science as well as a game. However there are no doubt lots of games that it is not necessary to publish, while others are deserving of reasonable publicity

AGRICULTURAL EDUCATION

STATISTICS SHOW that farmers who have had an education make larger incomes than those who have received but little instruction in the art of scientific farming.

In light crop years and in strenuous financial times such as the country is now experiencing, a thorough training in one's profession is absolutely essential if success is to be attained. Under our present improved methods of farming, men work large areas of land with a minimum amount of labor. They plow and cultivate their soil with appropriate implements at a specific time. They select varieties of grain and kinds of crops that are known to give larger returns than the ordinary varieties and kinds. They treat their seed for smut, and at the same time eradicate noxious weeds. They control insect pests and plant diseases. They sow pure seed and they rotate their crops. They know when to summer fallow and when not to. They know how to control soil drifting. They know how to conserve moisture. They know how to feed their stock. They know how to breed their stock. They know how to control disease, and plant at cultivation.

rates per acre which experiments have shown to give maximum yields. They follow a system of crop rotation which aims at the conservation of soil fibre and the production of maximum yields of a variety of grain and feed. They select improved types of breeding animals and feed their stock in accordance with knowledge derived from the chemistry of foods, and their homes are equipped with modern labor saving conveniences.

To keep up with the times and to make the most money from the farm one should know how farms in accordance with these improved methods. You can learn these methods at the Olds School of Agriculture. Education pays; you can learn in a few months what it would take years of experience to give you. Talk with any ex-student regarding the value of the course at the O. S. A.

Classes in Agriculture and Domestic Science commence on Tuesday, October 17th.

U.G.G. On Livestock Matters

A good many farmers and stock raisers at the present time will have their gold their surplus stock, are wondering what effect the new United States Tariff regulation will have on the livestock trade. With the duty being increased approximately from 60 to 75 cents per hundred pounds, the old Tariff was based on a straight duty of 30 per cent, whereas the new Tariff calls for cents and a half cents per pound on cattle up to 1050 pounds and two cents per pound on those over that weight we would naturally assume that with American markets practically settled the price on our stocker cattle that they would depreciate at least the value of the extra duty. After considerable thought and investigation, we believe we are justified in taking no pessimistic a view of the situation. The material improvement in the feed situation in various parts of the Province during the past month, together with the demand for stocker cattle and a possible strengthening of prices across the line, point to there being very little change in prices will be noticeable. Eastern packers are buying heavily on Western markets, showing that supplies in their own districts are somewhat limited. Considerable talk has been heard to the effect the possibility of stocker cattle being shipped to the U.S. Country, and while transit expenses at the present time look prohibitive, any prospect of lower rates would be immediately reflected here. Summarizing the situation we would strongly advise livestock raisers to fully post themselves on the market conditions, as thousands of dollars have been lost to the raisers during the past few months for lack of this knowledge.

A New York man who made a planting of White Pine 30 years ago has been offered $500 dollars an acre for the timber on the stump. It is a good price, but not at all unusual. An acre of white pine under favorable conditions will on the average make a growth of one thousand feet a year, which is as profitable as are the crops of much good farm land under cultivation.

Bank Budget

Olaf M. Hagen was born in Norway, May 14th 1886, and died at his home in Bardo on September 27th, 1933. He is survived by his wife and two sons, Martin at home and George at Grande Prairie. He was preceded in death by three sons. One son, Olaf, was one of three Bardo boys who gave their lives in the late War. Funeral services were held in the Lutheran church by Rev. Hovestine on Sunday afternoon. There was a an abundance of flowers sent by sympathetic and sorrowing friends. Mr. and Mrs. Gunder Hagen, of Forestburg, Alta., attended the funeral

Mr and Mrs. Flaaten, of Edmonton, are the parents of a little daughter. Mrs. Flaaten was Clara Jacson, of Bardo.

Mr. and Mrs. John L. Stauffer are visiting in Nebraska, U. S. A

On Sunday afternoon Sept. 24th, Dr. Norby of Camrose, gave his address on the Hawaiian Islands, to a large audience in the Lutheran church. He was accompanied by a choir from Camrose

The Grande Forks school commenced on September 25th, Mrs. Lorbekmo of Tofield as teacher. During vacation the school house was painted inside and out. The work was done by Mr. Bob Mitchell who is a fine workman.

Mrs. J. Lorbekmo and Julius, Mrs. Joe Stauffer and Mrs. J. Yoder motored to Edmonton one day last week.

Olaf Hove is building a house and barn for Olaf Anderson.

Mr. and Mrs. George Hendrickson, of Kelsey, attended the funeral on Sunday. Mrs. Hendrickson presided at the organ as in days of old.

Mrs. Eggan entertained the Lutheran Ladies Aid on Tuesday.

The Fish Meal of Us Eat

Halibut is the king of all fish fishes. He begins life equipped with one eye on each side of his head and a symmetrical body proportioned from side to side, but a wonderful change takes place. The body flattens and instead of remaining two sided alters to an upper and lower surface, while the eyes, by a marvellous piece of natural jugglery, are brought close together on one side of the head.

All these complex transformations fail to affect the health or appetite of the youthful halibut. He goes on growing till he reaches 10 feet and weighs hundreds of pounds. Some specimens are said to reach 20 feet. Of course this makes the halibut the giant of his tribe, and as he flounders about in 700 feet of water, with his dark spotted back uppermost and the unblemished white underside carefully concealed from sight, he is often mistaken for a young whale.

Four people cannot afford salmon and sole, but they may get both with the halibut, for all fish are meat for this giant, and it must be a big shoal that he cannot take as a course for his dinner. Multitudes of fish of all sorts are converted in his capacious stomach into new flesh and bone and muscle, and all are halibut by the time he has fulfilled his destiny.

Assisting the Farmer

THE interests and requirements of agriculture are fully understood and well served by this bank. To encourage progressive enterprise in the matter of seeds, implements, crop or possible, practical assistance in the form of loans is given, consistent banking facilities, specially adapted to the requirements of farmers, are available at each one of our branches. Consult our local manager.

The Allied Debt To The United States From The Standpoint Of Equity

When considering this problem, however, we are faced with a fundamental question. That the loan is legitimately due, no one denies. But is it morally and economically just from the standpoint of equity." Let us look into the matter.

Most of us, I think, consider that even from the outbreak of the war the men of Britain and of the Dominions were fighting the battle of the United States, as well as our own Empire, and of our Allies. We have all heard Americans express that opinion. Though it took some years for their people, as a whole, to recognize that fact, it was a year in August, 1914, as it was later when the gallant boys of both nations were fighting side by side. Germany made no set words declarations, and, had she won the war, her militarist and monarchial control of all Europe, all Africa and much of Asia, would have been at once established. She would have been the Colossus of the world Her eyes were already fixed greedily on South America, and developments there would have followed hard on Italy. While the navies, military and financial resources then at her back, would have also have cared for the Monroe doctrine."

It would, however, be hardly reason able to claim that the United States should have entered the war at its outbreak, for the people were not awakened. It is worthy of note that they were sufficiently informed as to the merits of the struggle to do so by the time it ended. What would have happened, however, if the United States had intervened then? The world would have been shortened by two years, millions of lives and tens of billions of dollars would have been saved, the condition of Europe would be vastly better than it is, and this problem of the war debt would, in all probability, not have arisen.

When the United States at last threw its vast resources into the scale that great addition to the cause of civilization and righteousness was decisive. When you consider the fact, they acted vigorously and wholeheartedly. We are all conscious and appreciative of the part played by them in bringing the war to a conclusion. It was some considerable time, however, after they declared war, before their armies could be organized, trained and transported to France, and during that period we could render but little help other than financial

For whom did the Allies sacrifice the flower of their men before the United States entered the war, and from that date until the American troops arrived? For all who did not wish a friendship, not for all the people, including Britain, Canada and the United States.

The war was fought not merely with men, but with money The financial burden fell chiefly on Britain, who had to advance huge sums to her allies. Had she not done so, the war would have achieved a speedy victory, and the turn of the United States would then have come. From the first money was spent in that country Never before in the history of the world did any nation have such a stupendous stream of wealth poured into its lap. And this country, of all the nations who were giving their all, but not for themselves alone.

If we are right in believing that the United States had as great a stake in the war between the nations as in other words, we may well ask whether it is fair that the Allies should bear the whole of the ensuing financial burden of even those earlier years, during which the United States remained aloof, and of the wealth of the world. Surely their awful losses in men, before the United States lost a single man, are enough of a handicap.

But the case is much stronger The huge sums borrowed in the United States before April, 1917, are not in question. The debts are overwhelming are credits granted to the Allies by the American Government and by had itself entered the war Those advances were chiefly for munitions with which to fight the acknowledged enemy of the United States. Had the American troops been sent to France, these guns and shells could have been used by them, but the former would not yet there in force, and the Allied armies used them for the benefit of all In doing this, those French, British and other troops saved the United American troops from defeat. Because American shells were fired against the common enemy by British soldiers (great number of whom gave their lives in doing so), does it follow that they must also be paid for by British taxpayers?

It may perhaps be claimed that part of the [illegible] were fired by [illegible] troops and peoples. Can such

Hard Rock Competition

Plan to Interest Boys and Girls in Dairy Industry

A prominent feature of the work of the Saskatchewan Dairy Association has always been an endeavor to interest the boys and girls of the province in the industry. In this connection the association last year established a hard rock competition in which prizes were offered for the best and the least record of the milk and butter fat production of any herd of five or more cows. Consequently hard record banks are capped for the little purpose free of charge through the Dairy Branch of the Department of Agriculture.

The competition, which is open to all boys and girls in the province, is being continued for 1933 and cash prizes are offered for the most consistent and hardy kept herd record books. F. H. Reed, Dairy Commissioner for the province and Secretary of the Association, states there are now more than 100 herds in the province under regular test and a large number of boys and girls are paying careful attention to the proper recording of the milk in the herd books, and over 2,500,000 lb. in Canada were produced by these herds during the last year's competition. The hard book also includes a space for entering the value of the milk produced and the amount of feed, so that at the end of the year the net profit or loss on each cow may be conveniently estimated.

For the first year's competition held in 1932 fifty three prizes were offered, and these were won by Miss A. Wheeler, Asquith; Stanley Pearce, Wood Mountain, and Lawrence Longeberg, but in view of the wide interest in the competition last year five prizes will be awarded.

The competition covers the tender months of the year, June and the competitors will be required to send in their books by the first week in October. Judging will then be done on the basis of the records and the value of the milk produced.

Only very youthful kids are guaranteed to be born last in the spring blizzards. Once they begin to eat grass their skins alter in texture, becoming coarse and losing the fine silkiness

W. J. HUNTINGFORD

Editor and Proprietor of the Star, Wainwright, Alberta, who has been connected with the newspaper business in Western Canada for about 20 years, having owned and published papers at different times in Saskatchewan and Alberta.

Mr. Huntingford is immediate past president of the Alberta Press Association and E.C. and Talent Press Association held recently at Vernon, B.C. Mr. Huntingford gave unsparingly of his time in the interests of the many newspaper men attending the Convention. The Convention was one of the most successful yet held.

The 1923 joint convention of newspaper men will be held at Jasper, Alberta.

Says She Hasn't Felt So Well In Years

Mrs. Margaret Winton, highly respected resident of 718 Tenth Ave., West, Calgary, Alberta, pays glowing tribute to Tanlac for the wonderful appetite, perfect digestion and splendid health she now enjoys.

"I just can't say or do enough," she stated recently, "to show my appreciation of Tanlac for what it has done for me. Almost a year ago my appetite failed and my stomach became so disordered that nothing agreed with me. After every meal I would have severe pains in the pit of my stomach and bloat so badly I could scarcely draw a good breath. I soon got little or no relief from food that nearly all my strength and energy left me. My nerves were a wreck, too, and I could never get a good night's sleep.

"When I began taking Tanlac I was so run-down that I simply had to drag myself through the day and my housework was a dreadful burden to me. I also suffered with dull headaches and felt dull but anything. But since taking Tanlac everything is different. I have a wonderful appetite, perfect digestion, and am enjoying splendid health. In fact, I have not felt so strong and well in years as I do now. Tanlac has won my life-long praise."

Tanlac is sold by all good druggists

Small Percentage

It is said that only 20 per cent. of graduates from agricultural colleges till the soil, the balance preferring the professional classes. What seems to be a primary need is more overalls and less white collars.—Hamilton Spectator.

MOTHER!

Move Child's Bowels with "California Fig Syrup"

Harry mother! Even a sick child loves the fruity taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today means a well child tomorrow. If constipated, bilious, feverish, has a cold, colic, or if stomach is sour, tongue coated or breath bad, remember a good cleansing of the little bowels is often all that is needed.

Ask your druggist for genuine "California Fig Syrup" which has full directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Why risk your health?

THE path of the tea or coffee drinker is beset with dangers to health and comfort. Those dangers lurk in the irritant, Caffeine, which is the active principle of both tea and coffee.

For those who enjoy a well-made cup of tea or coffee, but find that it makes them nervous, wakeful and irritable, there's satisfaction and freedom from discomfort in delicious Instant Postum—the table beverage of no regrets.

Its fragrant aroma and rich, full-bodied flavor are delightful. Instant Postum is made from roasted wheat and contains no Caffeine, nor any other harmful ingredient whatsoever.

Prince of Wales

London Report Says Tour Transform and Now Is to "Carry Dignity"

What has the Indian tour done to the Prince of Wales?

Has it destroyed it?

These are the questions that all London are asking. Extreme anxiety now the change in the Prince since his return from his adventurous tour and the general inquiry is whether he was worth while after all.

From a lively, debonair, athletic young fellow has turned into a man of early middle age. All of his old lightheartedness seems to have deserted him and, whenever he appears, he looks as though about to frown.

And there is a current apprehension amongst those in his circle that the Prince will be like a man who has married a fretful woman.

Both Turks And Greeks Are Still In Defiant Mood

Constantinople—The question of the evacuation of Thrace was the cause of the rupture in the Mudania conference. The attitude of the Turks and Greeks was very bellicose, threatening the success of the conference.

Ismet Pasha, in a fiery mood, upset the conference. He declared that the Turkish army must enter Thrace immediately, and his tone was determined and defiant.

General Harrington attempted to reason with him after the fashion which had proved so effective in dealing with minor preliminaries, but Ismet was adamant.

Ismet's position was completely at variance with the terms of the Allied note which is the basis of the negotiations, General Harrington explained, partly to the Turkish leader and partly to the Allied interpreter.

General Mombelli endorsed and supported the British General's statements, when suddenly a new bombshell was thrown into the gathering by General Charpy, the French representative, who announced abruptly that he had been instructed by his Government to support the Turkish demands.

General Charpy was followed by M. Franklin Bouillon, the special French envoy, who also supported the Turkish position, explaining with some rhetorical effect and much emphasis a different interpretation on the terms of the Allied note than her confrere.

It was evident that the Allied camp was divided against itself, and that the situation had become untenable.

There was another interesting side to the conference. The Greek delegates also had spoken, and they likewise had come to the end of their tether. Their patience was rapidly evaporating. Unless we want a ferocious American be, too unable to plant a tree for each one logged Forest destruction is our greatest waste.—Aurora Beacon News.

Sir Henry Thornton Appointed New Head Of Canadian National Road

Ottawa.—Major-Gen. Sir Henry Worth Thornton, K.B., general manager of the Great Eastern Railway of England, is now head of the Canadian National Railways. An order-in-council appointing him and other members of the board, and formally consolidating the Canadian Northern and Grand Trunk lines into the Canadian National Railway System, passed the Cabinet Council and was approved by the acting Governor-General.

Sir Henry was in Ottawa when final arrangements for his appointment were made. He will return at once to England to wind up his affairs there, returning to Canada to take over the direction of the National System within about a month.

In introducing Sir Henry to the newspapermen, Premier Mackenzie King pointed out that the act provided that men at the head of the railway systems, holders in, or connected with company are in any way dealing with the railways in operation or selling them supplies. This had been observed, said the Prime Minister, both in regard to the executive board and also in regard to the other members of the board.

The Prime Minister also stressed the fact that Sir Henry Thornton would be the man responsible for the administration of the railways. They would be operated without any interference from the Government and must be kept outside of politics altogether.

A contract was signed extending for three years, under which he is to be paid $50,000 per annum.

In the contract, it was stated, there is provision to both the Government and the new president and general manager of the railways in the event of either side wishing to terminate the agreement before the end of three years.

The resignations of the existing board of directors of the Grand Trunk System were accepted by the Government and the new board was appointed to substitute for the present holders in, or connected with company are in any way dealing with the railways in operation or selling them supplies. This had been observed, said the Prime Minister, both in regard to

The new board is as follows:

Sir Henry Worth Thornton, K.B., general manager of the Great Eastern Railway of England, to be president of the Canadian National Railways.

Lieut.-Col. Sir Joseph Flavelle, Bart., C.B.E., LL.D., Toronto, chairman of the board of directors of the Canada Steamship Lines, Limited, and president of the Dominion Textile Company, Limited.

Sir Charles Gordon, K.B., C.M.G., Montreal, president of the Bell Telephone Company of Canada, and director of the Canadian Pacific Railway Company.

Sir Henry Thornton, K.B., Montreal,

Early Days at Tofield

A circle having a diameter of seventeen hundred miles in this good year, 1922, is expecting to reach each Tuesday a bank loan extension of such a size built and to cash were ever built a mile apart. Into this the buffalo were driven and after being at one in the morning pond were killed. In 1872 one of those ponds was built on the land owned by Mrs Cousins and Mr. D. W. Sears and at another time one was built on the immediate land owned by Messrs. Thompson, Edmund Brooks and Thomas Parnes.

Mrs. Anderson, all reminiscences of Tofield will be lost unless some one in 1967 will succeed the last named in the list.

Bill Lake settlers were given the right to secure homestead entries for the land they had squatted on.

The first post office on the west side of Beaver Lake was named Logan after Mr. Robert Logan and Mr. Roderick McKenzie was appointed the first postmaster, the post-office being kept at Mr McKenzies place. Mails were received once a month. Previous to this the settlers had to go to Fort Saskatchewan or Edmonton for their mail. In 1867 a post office was secured at this end of the lake and was named Tofield after Dr. J. H. Tofield. Dr. Tofield came here here in 1861 and was the first medical man to settle in this district. Mr. G. Cookson, Sr., was appointed the first postmaster at Tofield and he kept the office in a small shack which still stands on his farm, just east of town. The first year Mr. Cookson was postmaster he sold $1000 worth of stamps and received a salary of $12.00. The mail was then secured once in two weeks.

In 1891 Mr Peter B. Anderson came in with a large party of Norwegians and settled south of Tofield in the part of the district now called Bardo and Wostor. Neal and his son Harry took up land on the south shore of the lake.

During the eighties settlers or squatters started to come in and take up claims along the West side of Beaver Lake. Mr James Pruden with his family was the first family among the settlers. Neil and Messrs. Robert Logan, Wm. Logan, Without Irvine, George Anson, Joseph Anson, Augustine Gladieu, and Jacques Gladieu, in 1868. Mr. Robert A. Logan kept a trading post for many years on his ranch, which ranch was later bought by Mr. George A. Trent. Messrs. Ed Letourneau, J. Lafond, William Bland, J. W. Cookson, George Cookson, Dr. Hodges, Wood Bros. Hemdon and Mr. Hopgood came in 1903. Mr. C. Lacey, Sr., and other members of the family followed. The first year Government surveyors came out in 1907, and surveyed the land around Tofield.

The following year the Grand Trunk Pacific Railway Company surveyed their townsite and from then on business places and dwellings kept moving on down to the present station. June 30th, 1908, the steel on the main line was laid into Tofield, which proved a great thing for the settlers. Tofield celebrated on Dominion Day. In August of the same year construction on the Tofield to Edmonton line was commenced by the Grand Trunk Pacific Railway Company and completed two weeks.

In 1904 Mr Peter B. Anderson came in with a large party of Norwegians and settled south of Tofield in the part of the district now called Bardo and Wostor. Neal and his son Harry took up land on the south shore of the lake.

The first school was opened here in 1906 with Miss Harriet McCallum as teacher. The children were taught in a small house, which stood on the west of the road, across from Mr. S. R. Smith's place. A few years before this a school was opened near Logan post office and the first teacher was Major William Stiff.

From this time on the district crowded many settlers and became known as one of the best mixed farming sections of Alberta. In 1908 the Grand Trunk Pacific Railway main line was surveyed through Tofield. During this year Messrs. Mottashed and Meyers

A regular "Huck Finn" epic was enacted here this week. A [illegible] of late, the eldest only being twelve years old and the others being younger by a few years or more, being Leon Le[illegible], Jr. Hooper and Louis Legate, were wandering around with a dog and a gun with no more to it and one which had been hitched as useless for years [illegible] the dog barked a rag [illegible] the kids came up and [illegible] reappeared [illegible] most spent [illegible] and despite [illegible] hobbies did the job with it and they intend to keep their eyes and ears skinned for another chance. Well good luck to them, we dont want those pests of coyotes around and the more they get the better for us all

Mrs. Woomerufi has returned from the coast and is staying with her daughter, Mrs. N. Ellis of Hastings Lake. We are sorry to hear that her health has not improved by the change of climate, but hope ere long to hear that she is better.

George Agnew, H. McKernan, and L. Talbot returned from their goose hunting trip well laden with birds

Mr. H. Killian has purchased the farm of Mr. Geo. Haph. Mr. Killian who hails from Iowa motored up here about two months ago and liked so much that he intends staying. He is returning immediately to bring up his effects. He comes from a district where land is worth $200.00 to $600.00 per acre and values the potential possibilities of this district very highly.

Members of the Holy Trinity congregation will meet at the church on Friday at 2 p.m. for the purpose of decorating the church for the harvest homes festival to be held on Sunday, October 15th. Volunteers welcome.

Big GROCERY SALE Now On D. A. TODD

Recent Arrivals In Men's High Grade Clothing

Our display of Winter Overcoats is undoubtedly the finest ever shown in this district, not only in number of models shown but in quality of materials and stylish appearance of the garments.

Heavy weight check back coverings are featured in the better models, which are form-pattee lined with fancy check polin cloth, with shoulder seams interlined.

New moderately priced garments are in similar materials, well strong twill linings. These are the same models which are being shown in the most exclusive Montreal stores. The fact that they are tailored by Samuel Hart & Co. is in itself a guarantee of the quality of workmanship. The prices are

$24.50, $30.00, and $35.00

Our sales of men's suits during the last season have eclipsed all previous seasons in our experience. We believe this is largely due to the high quality of materials, superior workmanship and excellent fitting qualities of the garments tailored by Samuel Hart and Co. The new shipment includes garments of guaranteed Harrington Serge in dark grey and high grade English worsteds, dark checks. These superior models are being sold at our standard price.

$24.50

In our $25.00 range, we are showing an attractive assortment of browns in plaids and hair line stripes and a fine quality of blue serge. Many people doubt the possibility of procuring a good serge suit at this price, but here it is.

For the young men's first long pant suits, we have attractive brown checks or hair line stripes or greyed tweed mixtures. They are tailored on snappy models, and are moderately priced at **$18.50** and **$20.50**

Wedding of Local Interest

An interesting wedding occurred at Edgerton on Monday October, 16th, when Donald Robert McIntosh, son of Mr. and Mrs. P. H. McIntosh of Tofield, was united in holy matrimony to Miss Cora Ellen Wolf, daughter of Mrs. Alice Wolf of Edgerton. The ceremony took place at the home of the brides parents, the bride who was attired in white silk being given away by her brother. The room was prettily decorated, the happy couple being united under a bridal arch, the Rev. Smith of Edgerton officiating. After the ceremony a buffet lunch was served to about 80 guests. The presents were both numerous and beautiful. The happy couple left on the evening train for Calgary and Banff where they will spend their honeymoon.

Both are well known here.

We have some private funds to loan in small amounts. We purchase first class notes and agreements for sale. We have funds for farm loans.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that has not for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

DR. HAMILTON'S PILLS
FOR HEADACHE BILIOUSNESS CONSTIPATION INDIGESTION KIDNEYS LIVER BOWELS

MY CANADA

Backache

Backache is the outstanding symptom of kidney disease. Women often make the mistake of attributing other causes and overlook the derangement of the kidneys until serious developments have made it difficult to obtain permanent relief.

The latter points to a treatment which has been so thoroughly tried and proven so effective in the great majority of cases that you cannot afford to overlook it when cause seems for its use.

Mrs. Albert Proulx, R.R. No. 1, Ottawa, Ont., writes:

"I have used Dr. Chase's Kidney-Liver Pills for several months, having been afflicted with kidney trouble. I used two boxes and am pleased to say am entirely relieved of trouble. A friend asked me if I knew a Kidney-Liver Pills and because I had made me feel a good deal better. I have now used about six or eight boxes, and am completely relieved."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Facts About Canada

Many Engrossed Addresses Large Audience on the G. Grant

Lecture

Spencer Grant, Guildhall London, under the auspices of the Canadian Institute, the Rotary Company, Sir Gilbert W. Parkes, Director of the Institute, presided. Sir Henry Lucas, Secretary of the Institute, introduced Mr. Grant, who is a Rhodes Scholar of Canada, as he knew it. Mr. Grant, he said, had a part of the great mission to British unity and had a deep love for the Motherland and an unbounded loyalty to the King. Canon Hensley devoted considerable attention to the opportunities provided in Canada for agriculturists and illustrated his talk with slides. Mr. Grant, who addressed the audience as Mr. Chairman, Ladies and Gentlemen, and Fellow Britishers, spoke of the great natural resources of Canada, and of the opportunities for young men in the Dominion. Canada, he said, was a country of great distances, and the people were very much like Americans. They were very hospitable, and he had received many kindnesses from them. Canada was a country of great distances, and the people were very much like Americans. They were very hospitable, and he had received many kindnesses from them. Canada was a country of great distances, and the people were very much like Americans. They were very hospitable, and he had received many kindnesses from them.

Indian Ruler Was Lord Roberts Friend

Had Wonderful Record As Soldier and Most Loyal Governor

The Maharaja of Patiala, who has died at the age of 38, was one of the most remarkable of the Indian Princes. He was a great soldier, a great statesman, and a great friend of the British Empire. He was a great soldier, a great statesman, and a great friend of the British Empire. He was a great soldier, a great statesman, and a great friend of the British Empire.

Walked Two Miles in Sleep

Man Eating Through Norfolk Had Extraordinary Experience

An extraordinary case of sleep-walking is reported from Fleet, Lincolnshire. A Norfolk man was cycling through the country, and arriving at Hitchen's house some miles, which he was able to obtain lodging. Placing his bicycle against the house, he went to bed and fell asleep. He awoke in the morning and found himself in the middle of a field two miles away. He had walked in his sleep.

Pains in Back, Limbs and Side Yield to "Fruit-a-tives"

It cost have talked to scores relief from Backache, Rheumatism, Neuralgia and Sciatica pains after using "Fruit-a-tives". Mrs. Albert Proulx, R.R. He awoke in the morning and found himself in the middle of a field two miles away. He had walked in his sleep.

Migration of Birds

Gregarious Instinct is Still a Puzzle to Scientists

This is the time of the year when certain species of birds, moved by the mysterious flock instinct gather in immense numbers and enjoy themselves preparatory to beginning their southward migration. The birds are the most noticeable. A starling is carried not only by great size of the flocks but also by the extreme development of the gregarious instinct. The flocks move always in compact form and the individual intelligence of the members seems completely submerged by the flock intelligence. There are seldom any stragglers. Scientists have pondered the problem and have no satisfactory answer. What is the controlling mind that compels scores of hundreds of birds to alight at the same moment and at the same place and again starts them in simultaneous and compact flight? Cleveland Plain Dealer.

To Shoot a Tiger

Magistrate to Scotchman charged with shooting a tiger: "Have you ever heard of I've a good mind to send you to prison for six months."

The Prisoner: You canna do't. I only be fined I'm only doon to kill a tiger in the dark. Passing Show London.

Cold Future For Earth

Major Marriott Predicts Another Glacial Epoch in A.D. 25000

Professors and, weather prophets are predicting great future changes in climatic conditions on our earth. As a rule they wisely refrain from [illegible] particulars as to when these changes will take place. Major R. A. Marriott has been more definite. Writing on the late General Drayson's theory of a big change in the declination of the earth's axis, Major Marriott tells us that for the next 1000 centuries the winters will grow progressively warmer until about A.D. 2200 the difference between summer and winter will be least. Subsequently, however, the earth will get colder and colder every year, and the [illegible] of the tropical temperatures which some predict, another glacial epoch is promised by Major Marriott, the maximum severity of which will be felt by the human race if men are left on the earth A.D. 25000.

Hawks Influenced Nostrils, Stops Catarrhal Discharge, Relieves Colds Quickly

You'll be pleasantly surprised at the quick action. Catarrhozone has typical Catarrhal conditions in the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and so reliable that thousands are using it every day. No nasty medicine to swallow. Just breathe the healing vapour, the healing [illegible] of Catarrhozone and feel better at once. Catarrhozone is breathed through the inhaler which comes with every outfit. Use every night and morning in the home and [illegible]. No matter where the cold or Catarrh is, Catarrhozone will reach it. You can keep free from [illegible] colds, bronchitis and asthma by using Catarrhozone. Two months' treatment (Catarrhozone and the inhaler) everywhere or the Catarrhozone Co., Montreal.

Just Ordinary Passenger

Prince of Wales Worried Conspicuous Among Car

A story of the Prince of Wales is told by the author of "Lights and Shadows" which has not, on holiday, been told before. When he had taken his seat in the train bound for a certain town he found he was sitting next to the Prince of Wales.

The Prince, he says, chatted and laughed all through the journey. He was like a big boy full of fun.

Then the train stopped at the station and the author, as eager to see the Prince as anybody else, looked out of the window.

He was astonished to find that the Prince had disappeared. He was nowhere to be seen.

Not at all liking someone else in the train in ordinary passenger clothes, the author asked the guard:

"Where's the Prince of Wales?"

"Oh," said the guard, "he got out at the last station. He always does. He likes to walk through the train and see if there are any people he knows in the carriages. He's very fond of meeting people he knows."

A FINE SCHOOL GARDEN

A school garden of Ottawa S. D. No 1518, near Marcella, Sask., is shown in the above illustration. There are thirty-five plots each 10x16 feet and the results in this garden both pupils and the teacher take the greatest pride, and are well rewarded in having created one of the beauty spots of the district.

Why We Laugh

Is Just an Expression of Emotion, Says Dr. Reynolds

The origin of laughter is traced back by Dr. Cecil E. Reynolds, of Los Angeles, in an article contributed to the Southern California Practitioner at that city, to the sounds emitted in struggle by carnivorous animals on seizing their prey. All laughter has its source at triumph, Dr. Reynolds thinks, disagreeing in this with some of the great authorities on the subject. Apes' front fit physiological mechanism says this writer, laughter is an expression of an emotion. To say that it expresses pleasure, he regards as obviously invalid, since simple pleasure is not an emotion. A certain amount of realization must be added. Laughter he believes to be also an expression of a sense of [illegible] Indicates a [illegible]

Western Provinces Engaging More Extensively in Mixed Farming

Figures relating to the acreage of dairy butter produced last year in various provinces have been issued. These show that the total production for 1921 was 122,224,000 pounds valued at $44,840,000. This is an increase in quantity over the previous year of 11,000,000 pounds. The largest producer is shown by all the provinces with the exception of Prince Edward Island, to be Alberta, large proportionate increase 56 per cent., being recorded for that province alone. In order of [illegible] importance the provinces rank Ontario, Quebec, Alberta, Manitoba, New Brunswick and Prince Edward Island. It is interesting to note that of the three prairie provinces of Canada Manitoba, Saskatchewan and Alberta, the latter has stepped to the extraordinary gain given [illegible] increase in the volume of dairy products. Mixed farming is being more and more taken up in this province, and the dairy cow is proving to be a very profitable branch of agriculture.

OCT 28 1922

The White Fronted Goose

The Camrose Canadian.

Hunters this fall have been puzzled over the appearance of a new species of goose that has become quite plentiful in certain favorable localities. At least twenty five of these strangers have shot and brought to Camrose during the first two weeks of October, mostly from Beaver Lake district. Our oldest goose hunter who has shot for thirty years in the Canadian West and the Northern States, says that he never saw these birds before, while a few claim that they are not uncommon in Saskatchewan and Western Manitoba. The bird in question is the White Fronted Goose, also known as the "Laughing Goose, on account of its peculiar notes, which sound have imagined sounded like the laugh of a human being.

The hunters called these birds Brant, incorrectly, while some said they were the young of the Snow Goose. The American Brant is an Eastern bird, very very seldom coming in far west as Ontario and Illinois, while there is a western variety known as the Black Brant, which inhabits the Pacific coast and very seldom comes inland. Neither of the Brants are found on the prairies, except occasional stragglers.

The same want of knowledge is displayed in identifying the several members of the goose family, as was common years ago with the ducks, when all the large ducks were known as mallards and the small ones were Teal. This, of course, refers only to those who are not acquainted with the birds, and who are beginners in the art of hunting. We have a small goose in Alberta, which is apparently a diminutive Canada Goose, although it is entirely different in many ways. This is Hutchin's Goose, a migrant here, and breeding only in high latitudes. He is about thirty inches long and weighs only around five and six pounds, while his large cousin, the Hutchins, weighs from eight to fourteen pounds. This bird is erroneously called Brant, just as the White Fronted Goose has been designated recently.

The White Fronted Goose is about twenty eight inches in length, full and fleet and arranged with a distinct white patch on forehead, nearly an inch in length from the bill, upper parts generally grey, while the lower parts very exceedingly in color. They are white and grayish white, with patches of black irregularly placed in the white feathers. In very old birds the black predominates on the breast. They are in extra good condition at the present time, and make the odd bird a while longer. This is a good value at $6.50 sale price

$4.45

Dairy Industry Steadily Increasing

MERCURY REPRESENTATIVE VISITS LOCAL BUTTER MAKING PLANT

Whirling machinery, clouds of steam and the scent of newly churned butter, greeted the Mercury representative upon entering the local creamery on Tuesday of this week. Tuesday was chosen for the interview because it is considered a quiet day of the week in regard to business but there was nothing of a quiet nature in this butter making plant. Mr. McIntosh senior had just finished churning 1000 lbs. of butter and leaded by a helper was packing it into fifty pound boxes, while a second helper was ming down bids. In the office section, Keith was testing cream and writing cheques, as usual with a smile. In the inner office, Miss McIntosh was working diligently, endeavoring to create a better market for the product of Tofield dairy herd. It was with some trepedation that these busy workers were approached, and information the Mercury was seeking was quickly and courteously given. The dairy industry, and the Tofield Creamery are not new subjects, either to our readers or to us, but as this industry is going forward by leaps and bounds it is never interesting topic. As many of our readers are aware, the Tofield creamery commenced operations here in the early summer of 1919. For the first year all of their plant was housed in a building on Main street, but the growing business warranted the erection and equipment of a modern creamery which was placed one half mile west of the post office, and to which they moved in the summer of 1920. The Mercury's object in interviewing the creamery management on Tuesday was to obtain some approximate information as to the volume of business done during the past six months. The amount of butter fat purchased during the six months ending September 30th, is around 185 thousand pounds, which makes an average weekly purchase of [illegible] pounds. When an average [illegible] cents per pound is added that to each boy's load and [illegible] 000 cheques are issued to 242 farmers who thus [illegible] for have received on an average [illegible] 00 each. One interesting feature is that before the advent of the local creamery farmers received branch prices for their cream. This was four cents per pound less than creamery prices, therefore the farmers in six months received over $7000 00 more than they would have done if there was no creamery and the old branch system was still in vogue. While the old branch system was in vogue and the Tofield creamery in operation the farmers received many thousands of dollars more than they would have done if no creamery had been here.

In addition to being a valuable institution to the farmers it is also beneficial to the town. During the summer there is a staff of seven, with a payroll of about $700.00 per month. This amount added to the amount paid out to the farmers is the lubricator of business at Tofield during the summer months. The creamery also directly helps the other local business. It burns the miners coal, gives work to the printer, and the motor mechanic. The following records from this years operation are perhaps interesting. The largest amount of butter made in one day was 2300 lbs; the largest amount of butter fat purchased in one day was 3000 pounds; the largest amount paid for a single can of cream was $14.50 and the highest test was 57.

LINDBROOK

Threshing is completed here now and most of the outfits have pulled home and most of us are [illegible] up affairs necessary to fully "enjoy" the coming winter.

Apropos of this, the "winter amusements" don't forget the dance to be held on Friday evening 27th, at the Lindbrook school house.

Another reminder might not be inserted here whilst we think of it and that is, that is only about 3 weeks to Christmas and soon "Dr. Santa Claus" both male and female, what about the Christmas tree concert, and tea [illegible] for the kiddies' Now don't say you haven't been told to get together and start it going.

The auction sale at Mr. Griffin's was extremely well attended. The weather was fine and the roads good which properly [illegible] to the large number of sales present. The sale was conducted by Mr. H. Ball of Tofield, holding was brisk and generally the prices fetched were good.

Mrs. D. A. Cleaver made a short visit to Edmonton this week.

Mrs. Ernest Hooper of Edmonton is staying with her relatives the Hooper family here on a visit.

Mrs. J. Carlson was a visitor to Edmonton this week.

The offers lately held by H. M. Mathieson on her the S. E. 11 are to be sold here on Nov. 3rd. Terms cash; soldier settlers can obtain stuff on application as usual.

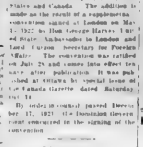
Devotion Of Children Becomes Extendable

Has Been Added to List Between U.S and Canada

Within American or within non-export or indoor dependent children has been added to the list of extradition offenses as between the United States and Canada. The addition is made as the result of a supplementary convention signed at London on May 15, 1922, by Hon. George Harvey, U.S. ambassador to London and Lord Curzon, secretary for Foreign Affairs. The convention was ratified on July 24 and comes into effect ten days after publication. It was published in treaties by special issue of the Canada Gazette dated Saturday last.

By order in council passed December 17, 1921, the Dominion Government consented to the signing of the convention.

MOTHER!
Open Child's Bowels with "California Fig Syrup"



Even the most timid fever, the most stubborn constipation, will disappear when "California Fig Syrup" is given according to directions. Within a few hours you can see for yourself how thoroughly this harmless fruit laxative has cleaned the little one's liver and bowels, and how wonderfully it has sweetened the stomach. Then your little one takes to it naturally because it tastes so delicious.

Ask your druggist for a bottle of "California Fig Syrup" which has directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Mother! you must say "California" or you may get an imitation fig syrup.

Dress All Your CUTS & SORES with Zam Buk

Radio May Be Used To Transmit Power

New Development Next Important Step Says Marconi

Transmission of power from Niagara Falls to New York by radio is a possibility of the future in the opinion of Dr. E. F. W. Alexanderson, chief engineer of the Radio Corporation. That prediction by the noted engineer followed the success of a 16-hour test of electrical tubes in place of large alternators in transmitting wireless messages across the Atlantic Ocean. Previous use of power transmission by the use of electron tubes has stimulated the imagination of scientists who for some time have believed that wireless transmission of power might come to pass. The almost infinite possibilities of the tubes attracted the attention of Marconi when he was in New York and radio development, he said was the most important step in a few years.

Emotions and Health

There is a theory going around among scientists that mind is material and that science has received some degree of confirmation in the working of a new instrument which has been described in one of the large British hospitals. By this apparatus they have been able to measure the emotions of the human body. A valuable story read towards the fingers or the palm has it, claimed, been discovered. Montreal Gazette.

TELLS HOW CATARRH IS DESTROYED QUICKLY

Queer Tree in Venezuela

Sap Resembles Milk and Tastes Like Rich Cream

The cow tree is a very curious tree which grows in the forests and valleys of tropical western Venezuela. The sap which this tree contains resembles both in appearance and taste the cow's milk. It has been examined by professor Pittier, a Venezuelan botanist, who says that not only does it look like cream, but it has a delightful flavor.

The tree frequently attains a height of more than two feet and is often entirely smooth and without a limb or a branch to the foot from the ground. It has been noted as a curious fact that the cow tree is found only in certain districts, and that it is not to be found in the forests of Venezuela. The sap is extracted by making incisions in the trunk of the tree, from which it flows in great abundance. The natives are very fond of it, and it is said that it is a favorite drink with the wild animals of the forests.

Work in Lumber Camps

Between 1200 and 1500 men are expected to be employed in the Pas Lumber Company's camps and mills running on cutting operations, all at extensive scale this winter. Several new camps are to be opened and possibly other camps will be operated. The company has already let contracts for the cutting of 30,000,000 feet of logs, and the balance will be taken on by Buck & Co.

Fishes Avoid White Nets

The natives of Ayen Island in the Indies were at Bering Strait do not know their own age, but they tell of people as an act of memory.

Women and Asthma. Women are subject to asthma more than men, and asthma is the most distressing thing in the world. OIL LIGHT BEATS ELECTRIC OR GAS

BURNS 96% AIR

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U.S. Government and 33 leading authorities and found to be superior to 10 ordinary oil lamps. burns without odor, smoke or noise—no pumping up; simply clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, T. G. Johnson, 579 Marmont Ave., Winnipeg is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each district who will help introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency and without experience or money make $150 to $500 per month.

WORLD HAPPENINGS BRIEFLY TOLD

The Orient liner Cphir, 7,000 tons, in which the Prince and Princess of Wales, made his Empire tour in 1920, has been towed from the Clyde to be broken up at Troon, Ayrshire.

The police have discovered in Naples, inside the estate of the Duke of Aosta, Palermo, Sicily, a gang of forgers, who had printed more than a million bank notes, including 5 dollar bills.

For driving in the common dodge and not having a driver's license on his motor-car, Victor Robert Fisher, a visitor from Los Angeles to Wight was fined £20 and his license suspended for six months.

Approximately 2,000 persons are reported at Fiume (now capital of Fiuggi) as a result of an attack by defeated Nationalist troops on the city from which they had been driven by the forces of General Host-Venturi.

Republicans seized a treasury at Viterbo, R.I., on Mon., R.I., Maryland and forced the crew to take the vessel in support of the same cause. A party led by the Republicans. They then unloaded two tons of flour and then shoved the ship in pursuit of Liverpool.

Cheques of £25 each were presented at Dun Dire's Police Court recently to Police Constables Marsh, Sayers, Price Wan on arresting on a land let wounded, Burchard Duff who several and the two men who murdered Field Marshal Sir Henry Wilson outside his house last summer.

Fifteen thousand bushels of the Western Canadian wheat crop were spilled over the table of way, some 18 freight cars were smashed and the track was torn up for several yards in a two mile wreck on Sept. 1911, on the Canadian National Railway on that 13. Members of both train crews escaped injury.

The Regulation of Women

Law in France Prevents Boatswain on Children of Freak Names

A new Norwegian law for preventing the bestowal of ridiculous names on children—a form of cruelty of which a considerable number of parents are guilty—was anticipated long ago in France. No French baby can be given a name that does not occur in the official list of names drawn up for the purpose but at the same time parents retain the right to choose a name for their child. The choice can hardly be considered unduly circumscribed if it permits more than fifty dozen male or female names to be selected, irrespective of the wishes of the child and both the French have been more fastidious than is left lacking in Canada. Montreal Gazette.

PANGS OF NEURALGIA

This Painful Trouble is Due to Poverty of the Blood

Neuralgia is one of the most painful maladies that afflict humanity. The trouble is usually caused by the lack of blood, following the course of some nerve. Pain is felt in that part of the body as well. It is characterized by sharp, shooting pains, sometimes intermittent and sometimes constant. Any nerve in the body may be affected, but the most frequent seats of trouble are the face, head, shoulder and arm. Neuralgia is often brought on by exposure to cold and dampness, but the real cause is poverty of the blood. Medical authorities agree that the only way to drive neuralgia from the system is to make the blood rich and pure. Here is further agreement that when the blood is purified and enriched the trouble will disappear. It is for this reason that Dr. Williams' Pink Pills for Pale People have proved so successful in curing neuralgia. They actually make new, rich blood which carries health and strength to every part of the body. Mrs. Alfred Lapointe, Lac Bouchette, Que., says: "I had taken medicine for neuralgia for a long time, but it did me no good. I was induced to try Dr. Williams' Pink Pills. After using them for a short time I felt much better and by the time I had taken about six boxes I was entirely cured. I am glad to recommend Dr. Williams' Pink Pills to others who are suffering from neuralgia, as I am sure they will do them as much good as they did me." You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Advice

Edinburgh Barber to me sir I have an attachment for your typewriter.

Manager Well don't bother for during working hours. Notice Punch Bowl.

As a remedy for all forms of indigestion, Dr. Thomas' Eclectric Oil has proved its value and it can be given to the youngest child without fear of ill consequences.

Women and the Ministry

The discipline committee of the Methodist Church has approved a motion admitting women to the ministry and providing for their ordination. Women will have to attend theological college and pass the same examinations as men before they are admitted to the ministry. Methodist women write in full membership with the men at the church meetings.—Daily Telegraph.

A Community Cow

Church in North Carolina Has Success With New Venture

During a row and routine it at 11 a week to families in the congregation is how the Church by the Side of the Road in Greensboro N.C. is attempting to provide fresh milk for those who are unable to keep cows of their own. It is a new venture in rural economics but is apparently working out satisfactorily for both church and congregations. The income from the cow row to be applied the are to the purchase of more cows. Ever finally and if the plan is continued by the Church by the Side of the Road will have a community herd.—Literary Digest.

If Millers Worm Powders needs no support to recommend they are good strong members who know their virtue of this well-known medicine but the powders will speak for themselves in a week's time. Any child can be no question of them. The act rapidly and thoroughly and will leave impressions from the first dose.

Manitoba Market Gardens

While price-legend will result in greater production, the market gardening industry in Manitoba is the organization and extension of the Manitoba Vegetable Growers' Association with a capital of $10,000. The company will advertise and is locally known gardeners offering the large wage and which owners each year and the business sales at quite unremunerative prices.

German engineers have estimated that three acres and lakes of Southern Bavaria could be made to produce 3 pounds hydroelectric horsepower.

An Oil without Alcohol—Home oils and many medicines have alcohol as a prominent ingredient. A judicious combining of six essential oils compound by Thomas Eclectric Oil and given the stimulus in it, so that no effect is forming.

Milk Makes Molars

Mineral Matter and Vitamines Indispensable to Sound Teeth

Science is constantly discovering new facts about the importance of milk as a food but perhaps the most interesting of these discoveries is that which has come to light regarding the value of milk in the growth and maintenance of sound teeth.

It appears that it is the mineral matter and vitamines such as are found in milk, are also supplied chiefly in the growing child the permanent teeth do not develop properly. While the child has been deprived of milk the teeth, but has the proper supply of the mineral characters and hence is more than a two years. Many salts and vitamines such as found in milk and certain dairy vegetables are indispensable to sound teeth in all cases.

Hallowe'en Celebrated Right Royally

A delightful juvenile hallowe'en party was held at the home of Mayor and Mrs. McCauley on Tuesday evening. The room was appropriately decorated, and a large number of hallowe'en party games were indulged in. There was a splendid lunch to which the youngsters did full justice and it was a happy party of children that left for their homes about 10 p. m.

A hallowe'en party was held at the home of Mr. and Mrs. J. Ingram on Tuesday, when a number of young guests were entertained to all the pleasures pertaining to the evening. Games were played and refreshments served and all attending had a splendid time.

A high school hallowe'en party was held at the school on Tuesday. As befits a hallowe'en party the doings were shrouded in mystery, but perhaps after the spell of the evening has passed the Mercury will be able to bribe Mr. and Mrs. F. Young to tell of the weird pleasures.

Hallowe'en was again celebrated in the usual fashion on Tuesday night. The number of depredations were less this year than formerly, due no doubt to the vigilance of Constable Morrison assisted by Messrs Ellis and Wallington. A few gates were taken from hinges and some fencing scattered on the [illegible]

Entertainment committee—Messrs McLaughlin, J. Lee sen., Messrs Beirnes and Barnett were elected as skips to fill the vacancies made by Messrs Somers and Morrison.

Discussion took place as to skips choosing their own rinks, but it was decided to allow the arrangements of last year to govern. The loss were set at $10.00

It was decided that the waiting room should be extended along the end of the extension of rink and that the original waiting room be improved. H. T. Ward and J. Lee sen. were appointed as a committee for this work with power to act.

It was decided to call for tenders for caretaking. Executive to make out list of duties and have power to act in this connection.

The bonspiel dates will be 9th, 10th, and 11th, of January next.

Local News Budget

On August 10th, Pale day, there were three 19gallon cream cans, which had been used for taking water to the baseball players, left on the fair ground and when search was made for them the following morning they had mysteriously disappeared. Anyone knowing the whereabouts of these cans would be doing the ball club a great favor by notifying the secretary, D. A. Agnew, as it they are not found the ball club will have to pay the owners for them and as usual the club needs the money.

Thousands of bright red poppies will be worn by residents of Alberta in all districts of the Province, on Armistice Day, November 11th. Already 200 lbs of the large and small poppies have been distributed to the various organizations handling the campaign in the Province and will be sold during the week on which the Armistice Day falls. It is believed that nearly every person in the Province will be wearing a poppy on that day. Poppies can be obtained from the O. W. V. A., I. O. O. F. Bldg., Calgary.

Due no doubt to the counter attraction in "Madame X" at the Variety, there was only a small attendance at the whist drive at the W. I. Rooms on Tuesday night. Another thought, perhaps most people stayed home to guard their pocketbooks.

A very enjoyable surprise party was held at the home of Mr. and Mrs. N. Noland last week, the occasion being Mrs. Noland's 50th birthday. About twenty guests assembled to do honor to the event and after a pleasant time, lunch was served.

Mrs. Moon visited the city on Wednesday of this week.

Mr and Mrs J. Lee Jr. arrived home on Tuesday after spending the past three weeks at Vancouver B.C. They would do it, on the 1st home owned by Mr. Phillips.

Miss Leone Johnson of Byley is visiting here with friends.

Miss Mildred Carter returned home on Tuesday night to spend a week before leaving for the coast.

Mr. and Mrs. Burroughs of Hanley motored to Tofield last week to spend a few days with friends.

C. Hammond left for Winnipeg on Wednesday morning. Some time ago it was decided to run one more dance, and this one was later found to be one of the cars stolen out of Winnipeg. Consequently he has to appear as a witness in the trial to be held at Winnipeg this week.

A hockey club organization meeting will be held at Donald Bell's office on Monday evening at 8 p.m. All interested in hockey are urged to attend.

Don't forget the auction sale on Saturday Nov. 11th, when all Fred McHelley's stock-in-trade will be sold, D. E. Ball, auctioneer

Mr. H. Davidson of Mt. Pauldo Mets was in town this week on business.

The last time dance held at the theatre on Monday night was very well attended. Quite a large number of the regular patrons of the dance hall were there, also a number who do not regularly attend. The music was greatly enjoyed by all. Prizes for the best costumes were awarded as follows: best gent's costume, C. Hammond; best lad's costume, Mrs. Ward.

The Misses Clark, Hoyle, Saul and Mrs. Medcalf, also Mr. Young, the principal, are all attending the teachers' convention, being held at Camrose, Thursday and Friday of this week.

Miss Marion Fenson visited with her parents while on her way to the convention at Camrose. Miss Forman is teaching near Holden

Mr. and Mrs. W. Bowick visited the city on Thursday.

C. Deputies entrained for Edmonton on Thursday

Quite a number of the teachers of the country schools in this district entrained for Camrose on Thursday morning

November 8th to the 11th has been set aside for a special Red Cross drive for new members. The Red Cross organized for war work is proving its useful ness in peace time. Those that specialize in relief are all [illegible] Vancouver B.C. They would do it, on the 1st home owned by Mr. Phillips.

Miss Leone Johnson of Byley is visiting here with friends.

Miss Mildred Carter returned home on Tuesday night to spend a week before leaving for the coast.

EXCELLENCE

SOME PERSONS have said that a certain weekly newspaper in this district has to advertise well in order to keep up with the times. Such statements are ridiculous. Advertising is nothing more than telling the public what we have for sale. It is different from a social column or editorial page, and is not supposed to be interesting. It is merely a statement of facts, and is read by those who are interested in the goods offered for sale. The Tofield Mercury is not only up to date in its advertising columns, but is also up to date in its editorial and news columns. It is a clean, wholesome, interesting paper, and is read by the people who want to know what is going on in the district. It is a credit to the town and district, and is worthy of the support of every citizen. The Mercury is not only up to date in its advertising columns, but is also up to date in its editorial and news columns. It is a clean, wholesome, interesting paper, and is read by the people who want to know what is going on in the district. It is a credit to the town and district, and is worthy of the support of every citizen.

Reduced Fares to the Pacific Coast

The Canadian National Railways will sell tickets at greatly reduced fares from points in Eastern Canada, including Winnipeg and Emerson, to Prince Rupert, Port Simpson, Vancouver, Victoria, New Westminster, on December 2nd, 3rd, 15th, 16th, 17th, 29th, 30th, 31st, 1922, January 2nd, 3rd, 13th, 14th, 15th, 1923, and February 6th, and 7th, 1923.

Travelling on the Canadian National Railways is a pleasure. Their equipment is unexcelled, and their dining car service is unsurpassed. Their tourist sleeping cars are unexcelled for comfort and cleanliness. Their tourist sleeping cars are all new, and embody the latest and most modern improvements. Berth reservations in their tourist sleeping cars from Winnipeg to destination, including meals and berth, are as follows:

Winnipeg to Vancouver, Victoria, New Westminster or Prince Rupert, $20.00.

Winnipeg to Seattle, Portland or San Francisco, $25.00.

Winnipeg to Los Angeles, $30.00.

Winnipeg to Edmonton, $5.00.

Winnipeg to Calgary, $10.00.

Winnipeg to Medicine Hat, $15.00.

Winnipeg to Regina, $5.00.

Winnipeg to Saskatoon, $10.00.

Winnipeg to Prince Albert, $15.00.

Winnipeg to North Battleford, $20.00.

Winnipeg to Lloydminster, $25.00.

Winnipeg to Edmonton, $30.00.

Winnipeg to Calgary, $35.00.

Winnipeg to Medicine Hat, $40.00.

Winnipeg to Regina, $45.00.

Winnipeg to Saskatoon, $50.00.

Winnipeg to Prince Albert, $55.00.

Winnipeg to North Battleford, $60.00.

Winnipeg to Lloydminster, $65.00.

The dining cars, with their handsome finish, quiet decorations, and their clean and adequate equipment furnish a meal time entertainment both useful and pleasure and at a reasonable price.

The Canadian National Railways offers patrons the option of travelling all rail to Prince Rupert, or all rail to Prince Rupert, returning by the Canadian National Steamships to either Vancouver or Victoria, or the trip may be made in the reverse direction.

Sir John Willison Unfolds Details Of The National Land Settlement Scheme

Sir John Willison, President of the Western Canada Colonization Association, unfolded details of the presidential activities of the association which the association hopes to inaugurate in the near future at a meeting recently held in Toronto.

Recording the settlement of the rapid unpeopled spaces of the Dominion, Sir John gravely alluded to the stupendous task ahead, but it was necessary he pointed out, if Canada was to go above that measure of prosperity which was here by right of geographical position and her increased status in the world.

"Canada needs today, as she never needed before, a large army of agricultural workers. Farmers themselves are in a position to supply the need, and it only remains for an organized force to bring these workers to the Dominion to ensure a bright era of prosperity," was the rosy view of the statesman.

It was pointed out, however, that care should be exercised in the selection and care of the emigrants, more than doubled in the years before Canada came to be declared, while it was imperative that the solution of the part in the shape of irresponsible land settlement bosses be avoided.

The selection of the population be discriminately was to be deplored, he thought, but because of the failure of people by a carefully prepared scheme, such as they had conceived, wherein party interests were quite out of the excitement of a few individuals would be impossible. His eminently desirable.

The one end in view, whereby ten million persons may be added to the Canada, settled on land in close proximity to railways, supported in their early ventures, and under which within thirty-two years at the most the rapid development of the country would be a tremendous asset to the country he stated. It was the task of the building up of the prosperous, lightened of provincial and national burdens as it the early re-payment of transient obligations.

All parts of the country had been remitted before the plans were brought to fruition. The capital issue of the things had been sought and obtained, he said, and what was more needed was the support of the individual who placed national prosperity before everything else.

After explaining how 20,000,000 acres of land in all parts of Canada had already with the exception of a million of a railroad, were owned by unoccupied, the president declared that it was the settlement of this amount the association had in view. To do this, he said would be financed by the association, the immigrant would be directed to a suitable location, and within ten years or less, if circumstances permitted, the vendor would receive a fair and reasonable price for his property. Under this plan the purchaser, he says, would not be satisfied with the transaction while, above everything else, the pressing problem of protection property and lightening taxation would be in the centre of relief.

Sir John Willson announced that Howard Hewett, who has had experience in the settlement of land will serve in Western Canada. has been appointed General Manager of the Association.

A controller of finance will be appointed. His duties will correspond to those of the Auditor General at Ottawa and he will be vested with power to control all expenditure, refusing payment if he considers that such payments would be extravagant.

In addition an operating Committee of seven with headquarters at Winnipeg, will assist the General Manager. Already appointed to this committee are H. A. Bowen, former Master of Medicine Hat, F. A. Field Chief Land Commissioner, Canadian National Railways; Col J. B. Dennis, of the C. P. Resources Department; G. H. Ingman, Editor Trade Journey Guide to represent the organized farmers of the west; A. E. McKenzie of Brandon, and W. W. Evans, of Winnipeg being one to be named.

A Scottish minister, in the funeral of an old fisherman, stopped up in an old manner in the road, and said: "I didn't see you in church on Sunday, Tarley." "Guid sir," she replied, "ye confess well, for I wasna there."

An Electric Train Recorder

Ingenious Device Used By Overseas Railway

A simple and ingenious instrument for checking train movements was recently devised for an overseas railway by a British firm. A record is automatically made on a horizontal drum which is driven by a clock. A pen bearing in front of the drum moves a pen slowly across the paper would cause the drum, and this pen carries in connection with electric contacts which are operated by the train as it passes over a special contact on the track. As each train passes the point the moment pulls the pen in one direction or another, according to the train movement. The diagram thus gives a continuous record of the trains passing a particular point in both directions. One advantage of this instrument is that it may be placed at any convenient spot away from the track.

Famous War Dog

Greatest With Having Raised a $9,000 War Fund in Victoria

Peter, famous war dog, although only a little more than a puppy, is the home of his masters, Mrs. R. H. Dixon, Los Angeles. Peter was credited with having raised a $9,000 war fund in Victoria, B.C., during the war by sitting on a table every day for three years and "speaking for contributions."

He received a medal from the Canadian Field Comforts Association in England, a life membership in the Canadian Red Cross and four other decorations, among the from the Yukon Battalion.

After the war Peter went into the movies and gained more fame. He was nine years old when he died after a brief illness.

Was Willing to Pay

Man Wanted to Fly From London, England, to Winnipeg

"I want a machine to take me to Winnipeg at once on urgent business." The two-dozen Yorkshiremen advertising are exceptionally enough but this one from a rather real man all.

It was pointed out that the flight would be made a trip across the Allen Mr. but the prospective customer said he did not mind and would pay any amount to get there in a hurry.

When told that the journey would cost him considerably more than $1,000 he left the office in search of some other aeroplane which is every poor opinion of flying.

Japan Successful At Calgary

When all is said that can be said in criticism of Japan's exhibits at Calgary Exhibition, they are undoubtedly the most attractive and interesting of the whole show. Not the cash but a great variety of it trust you when it pastured the swine of our ancestors by the banks of the Nile almost before Cleopatra had come to the throne of Egypt. Japan has always been a country of contrasts and anachronisms, and all of them are satisfactory. No plant or flower that has not been established in the Mikado's realm, and all of them are there in every description, have their representatives in the Japanese exhibit. Large cases shipped from Lac seul to Medicine Hat, Alberta, in the interior to be manufactured there into tiles and pottery.

It is self-evident that the Japanese in the province of Saskatchewan, for entering upon the exploitation and commercial development of those valuable clay deposits, which are for the most part accessible to good transportation facilities and other fundamental requirements. Canada imports each year, according to the figures for year 1921 amounted in value to $10,241,242, and for 1922 to $7,776,555, whilst the Dominion's exports of those products were of the insignificant value of $215,000 in the former year and $157,824 in the latter. In 1921 Western Canada alone spent more than $2,000,000 worth of clay products in addition to its share of the enormous imported into the country as in the province of Saskatchewan and the half million dollars expended on the same commodity in Alberta. The material of which this has been manufactured, were the valuable deposits of clay which in the aggregate represent many millions of dollars in value. Saskatchewan has valuable deposits, constituents to many factories.

The present centres of the manufacturing industry in Canada are Toronto, St. John, New Brunswick, St. Johns, Quebec, Vancouver, Victoria and Medicine Hat Alberta, the latter point depending entirely upon Saskatchewan deposits for its raw material. These five points are responsible for practically the entire Canadian output of clay products. The Medicine Hat industry, drawing its clay from Saskatchewan, has made such aggressive progress that it is now accounting for seventy five per cent of the Dominion output and go for a long way towards supplying the requirements with certain clay products.

Saskatchewan, which contains very favorable locations for the establishment of clay manufacturing plants,

Saskatchewan May Become The Leading Clay Producing Area Of The Dominion

Canada exports profiled that the provinces of Saskatchewan may become the leading clay producing area of the Dominion becomes it has a greater variety of clays than any other province of Canada, and that with develop ment Western Canada should, in the manufacture of pottery and like products, attain first importance. These clays range all the way from the best or grades used in the manufacture of artificial and time to a kaolin which burns as white as, if not whiter than, the best British limestone. As soon as financial conditions warrant it, the provincial authorities are bent on taking steps for the development of these deposits, which will give Saskatchewan the rightful place in eastern industries.

For some time it has been known that Saskatchewan possesses clays which give it a peculiarly distinctive place in Canadian industrial life. The property a knowledge of these deposits and encourage their development will be one of the matters to be incited at some time ago in the curriculum of Saskatchewan University and a certain engineer accord who had a wide experience not only in tuition but also in field work among clays and in designing and constructing plants for the manufacture of brick, tile and other clay products. These men piloted a definite step forward in presenting a data plan for commercial exploitation some of the valuable and extensive clay deposits of the province.

The character of the found in Saskatchewan are fireclay, brick and tile clays and earthenware clays. The first source of fireclay which was found by Prof. [illegible] St. Louis was an exhibit of specimens from the complete set of [illegible] sections.

RHEUMATISM?

Health is the Most Valuable Asset You Have. You cannot Afford to Neglect It

The Kidneys
The office man and the mother worker suffer alike from derangements of the kidneys.
Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.
In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.
Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:
"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was scarcely always troubled with backaches and my breast bone seemed to be more than ordinary painful. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also seen Dr. Chase's Ointment work the best results, and never fail to recommend them wonderful remedies.

Anaemia

This watery blood is no more nourishing than thin, watery milk — skim milk.

But you can soon enrich this blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve Food.

Mrs. F. C. Simmons, 42 Curtis St., Brantford, Ont., writes:

"For about eight years I suffered from anaemia. My condition was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, general weakness and easily wearied or strained. There was a tired feeling in my eyes. Indigestion was also one of my complaints, and I often was troubled by weak spells. I went to a doctor, who told me I was run down, but I did not get well for I decided to try Dr. Chase's Nerve Food, and after the first box I felt I was getting better. I kept on using it and my health was completely restored. I have recommended Dr. Chase's Nerve Food for years and will continue to do so, for it is a splendid medicine."

BLIGHTED HOPES

FOR EVERMORE is a movie with a love and trembling theme, up the Vegreville Times, for after the most delightful ... he draws it in some strong ... last week and would not ... happened that ... was being ... Spanish Prison ... George let a few friends read the letter and promised them all a drink when he got the republics. A long time ... one grub down and a bottle of ... emptied very near to us, really ... thing was nothing to do except ... to plunge to carry home the treasure and George is a pal of ours. The Mayor suggested that he pay off the loans ... national debt but George wanted to do everyones draying free for ten years. Anyhow, just as it had been decided what would be done with the $120,000, along comes the following epistle from the pen of Editor Horton, of Vegreville.

This Canon has received one of those low old frauds known as the Spanish Prison, or graft. Mr. Canon is invited by the alleged prisoner to furnish certain funds to get him out of prison at Barcelona, Spain and in return for this the prisoner offers the third part of a fortune of $200,000.

Considerable difficulty was experienced by Mr. Canon's friends to keep him from boarding the first train for New York and thence to Barcelona by boat. The thought of $120,000 and many made him a mouth lonely with and thoughts of doubloons piece of eight ... Spanish main ... a dead man's chest ... he had not a bottle of rum ... appetite ... him with cracked strength. But under the persuasion of his friends, who needed him in reaching this letter, Canon was induced to stay home and let the prisoner stay in Barcelona.

Speaking seriously, it beats all how this old stuff survives and how the sucker list thrives.

There must be thousands of names who have fallen for this Spanish Prisoner fake within the past fifty years and it is ... [illegible]

British M.P. Is Impressed With The Imperialistic Spirit To Be Found In Canada

Mr. E. Burton Chadwick M.P., before the Canadian Club, gave utterance to the following remarks regarding his impressions of Canada:—

I am too dead a traveller to be lured into the belief that after a few weeks' sojourn in some piece of interest an edger points awake on account of one's experiences. Long experienced, I might fail, as so many have fallen, to the temptation of writing a book, and the world would be enlightened and Canada mightiest by my doing so, and you do not have to wait to get publication experience in order to reach your destination. The Canadian National Railways ... [illegible] ... keeping cars and dining cars. These cars, on through trains ... provide of luxury and convenience built ... expert ... embodying improvements resulting from years of experience in studying the requirements of first class travel. Success Of School Fairs

Saskatchewan Organizer Expresses Gratification at Interest Taken in Exhibitions

Gratification is expressed at the interest shown in the school exhibitions in Saskatchewan by H. Saville, organizer of Boys' and Girls' Clubs in his annual report. Approximately 230 school fairs were held this year which, he says, justifies the statement made by the director of school agriculture that the further development of school exhibitions would be by the efficient co-operation with the regular agricultural societies, rather than in the presence of numbers.

Prize lists at these fairs, says Mr. Saville varied considerably, but the most suitable prizes in the agricultural classes were those given at Tregarva, including a pure bred animal, pure seed potatoes and settings of eggs.

Owing to the fall fairs coming at a busy season, in some instances difficulty was experienced in obtaining transportation for live stock, reducing the number shown this year, compared with 1921. The exhibits, however, were of fine quality, and many of the animals were shown in splendid condition, the competition at Carberry developing special merit. Gentlemen, Mr. Saville, in his report.

"The main exercise of exhibiting the largest specimens of vegetables should be gradually abandoned to prepare the organizer, who expresses the opinion that the children now are having greater attention to quality, and realize that size in most cases is not the primary matter of importance in conducting his report. Mr. Saville commented further gratification in the fact that the public in attending such school exhibitions are not an onlooker only for rather but a competitor, and "the extent to which the school exhibition is being made a vital part of the educational programme of every wide-awake community."

Home For Drug Addicts

Administrator of Narcotic Drugs Act in Manitoba Estimates Cost at $100,000

Establishing a farm where dope fiends may be sent about a year ago, the advisability of allowing only one retail drug store to sell narcotics on a ... of prescriptions provided by the administration of the law, was advocated by D. J. McConnell, administrator of the Narcotic Drugs Act in Manitoba.

He declared the situation in Manitoba was good in comparison with other provinces in the Dominion and in the United States. Mr. McConnell estimated the number of drug fiends in Winnipeg at between 75 and 100 persons. There was approximately 15 in Brandon at the present time, but the system of placing narcotic users in jail in turns and not shown itself powerless to cope with ... [illegible] ... permanent cure.

The opposition to buy and equip a farm for the housing of drug addicts would cost in the neighborhood of $100,000, and it is hoped to get the co-operation of both Provincial and Federal Governments.

Manners Different

The Englishman, the Frenchman and the American all think each other extremely bad mannered. The Frenchman resents the manners of the Englishman and tolerates the ... of the American. The Englishman has a contempt for the manners of both the French and the American and the American resents the Europe-humble thinking that his manners are probably the worst and willing to learn, only to find that they are as good as the French or English manners, but very different.—Milwaukee Journal.

Brains and Breakfast

A majority of American doctors have subscribed to the opinion that big breakfasts are good for the brain. I remind them that an American who enjoys the most of his of Ralph Waldo Emerson declared that the habit of eating "pie for breakfast" was unquestionably the cause of the preponderance of that eminent philosopher's mental powers".—London Sunday Pictorial.

"Our office hours again, boy?" said the father.

"Only ten minutes late," replied Willie.

"Well, go at once to your room, and lock yourself in, and bring me the key. Then I'll punish you."

W. N. U. 1445

Language of the Sea

Many of Our Common Expressions Are Nautical Terms

Describing a man's conduct in language a judge said it was obvious that the man in question was "out of wind" and was close to the wind." The judge used a nautical term pure and simple when he referred to the ship ceasing to ... [illegible] ... progress is stopped, she drifts away from her course, and trouble is bound to follow.

Often we talk of a man "sailing under false colors," and such a country. This is a term used at sea when vessels "speak" to one another by means of flags. A man in difficulties is described as "out of his depth," or hurries "into his bearings." Both terms are understood at sea to mean that a vessel is prevented by something from keeping a safe course.

When a person wants to know another's thoughts, he "sounds" him. That is just what a vessel does if she wants to know where she is—she sounds with a line and lead.

If a man feels that he is losing ground he will "make up leeway." "Leeway" is the distance lost by a vessel when sailing to windward, through her hull slipping sideways in the wind's track to leeward. Such distance has to be made up by additional manoeuvring.

"He won't keep cash," "low cash," and "at loggerheads" are common expressions which have the tang of the sea about them. They are those with out thinking of their origin.

Four Million New Trees

Fair Stand Forest For Every Acre in The Objective

Distribution of four million trees, mostly in quantities of a half thousand, is the spring programme of forestry farm for which Mr. James Mackay, of Indian Head, and his helpers are preparing. The trees, which are the addition of three million to a plantation of five or six million trees already there, are needs them but as pleasant variations to the distance which are spread for the benefit of the educational programme of every wide-awake community."

Home For Drug Addicts

Administrator of Narcotic Drugs Act in Manitoba Estimates Cost at $100,000

Establishing a farm where dope fiends may be sent about a year ago, the advisability of allowing only one retail drug store to sell narcotics on a ... of prescriptions provided by the administration of the law, was advocated by D. J. McConnell, administrator of the Narcotic Drugs Act in Manitoba.

He declared the situation in Manitoba was good in comparison with other provinces in the Dominion and in the United States. Mr. McConnell estimated the number of drug fiends in Winnipeg at between 75 and 100 persons. There was approximately 15 in Brandon at the present time, but the system of placing narcotic users in jail in turns and not shown itself powerless to cope with ... [illegible] ... permanent cure.

The opposition to buy and equip a farm for the housing of drug addicts would cost in the neighborhood of $100,000, and it is hoped to get the co-operation of both Provincial and Federal Governments.

Manners Different

The Englishman, the Frenchman and the American all think each other extremely bad mannered. The Frenchman resents the manners of the Englishman and tolerates the ... of the American. The Englishman has a contempt for the manners of both the French and the American and the American resents the Europe-humble thinking that his manners are probably the worst and willing to learn, only to find that they are as good as the French or English manners, but very different.—Milwaukee Journal.

Brains and Breakfast

A majority of American doctors have subscribed to the opinion that big breakfasts are good for the brain. I remind them that an American who enjoys the most of his of Ralph Waldo Emerson declared that the habit of eating "pie for breakfast" was unquestionably the cause of the preponderance of that eminent philosopher's mental powers".—London Sunday Pictorial.

"Our office hours again, boy?" said the father.

"Only ten minutes late," replied Willie.

"Well, go at once to your room, and lock yourself in, and bring me the key. Then I'll punish you."

Gibraltar An Aviation Base

Spanish Aviation Magazine Says Historic Rock Will Become Huge Air Station

Lord Lloyd Pirates pass to make the most formidable base of aviation in the whole world is stated by the Spanish aviation magazine, Aviacion.

"The British," says this journal, "have of recent years laid much stress upon the fact that, owing to its geographical situation, Gibraltar, for a great extent, has lost its difficulties in defense as "out of his depth," or hurries "into his bearings." Both terms are understood at sea to mean that a vessel is prevented by something from keeping a safe course.

When a person wants to know another's thoughts, he "sounds" him. That is just what a vessel does if she wants to know where she is—she sounds with a line and lead.

If a man feels that he is losing ground he will "make up leeway." "Leeway" is the distance lost by a vessel when sailing to windward, through her hull slipping sideways in the wind's track to leeward. Such distance has to be made up by additional manoeuvring.

Vacant Land in Australia

Australia Travel 5,000 Miles Across Empty Continent

Not long ago Mr. Deposition of three months' tour was completed a successful 5,000-mile trip across Central Australia from the Northern Territory capital to Port Darwin on the north, and back, by motor car. Mr. Deposition travelled as a botanist in the party were associated with thousands of acres of fertile and well-watered land and vast grazing plains in this unsettled region. They passed through miles of country without sign of man or beast, and saw great stretches of land with many rivers available for irrigation purposes the development of which is dependent upon the building of a main and south transcontinental railway from the Northern Territory capital to Port Darwin.—From the November Popular Mechanics Magazine.

The eldest boat in the world is being dug out of a bog on the Blueriy Burn farm, Stirlingshire, not far from the beginning of the second century

HATS a "Conchwig Snake," Stella?" asked Finnie as they sat on the steps of the End-of-the Earth with her four Brownies, Blinkadink, Twinkletoes and Larykins.

"It may to know where you have been," laughed the Fairy, instead of answering his question.

"Where?" he questioned 'Til give you three guesses.

"I don't need three, all I need is one," the returned. "You have been in the middle part of the United States. Am I right?"

"You certainly are!" and Pimple's eyes were wide with astonishment. "But how did you know?"

"Because 'Conchwig' is a nickname the Indians and Negroes in those States have given to a certain black snake that is also known as 'Blueskin.' The Fairy burst out laughing at the little Brownie's expression. "You see the Red Men of the forests, as well as the negro slaves, have lots to say about it." The Whitesnake of India and the Malay countries are long and slender, Blueskin grows even longer. Moreover, he is the fastest creature that they dart straight at the eyes of people passing them by. But of course this is nonsense! They are protected among the grasses and leaves by their green reckoning as well as their strangely quiet way of gliding from one place to another without making a single bet in their movements. The Whitesnake of the United States is entirely a different thing. To begin with, it is colored differently from the others. Its color is a dark brown, and the entire body is covered with small scales. Its head is not distinctive in shape from the rest of the body, and it has no fangs. Its bite is not poisonous, no one that I know of has been in any particular suffering from it."

"I should think not," cried Finnie, who is constantly afraid of any and all kinds of snakes.

"Baby Whitesnakes," continued the Fairy, "are also brown as are the adults, but they are quite different from them in appearance. They have white rings around their bodies, and these rings are of a deep black. When they are young they are quite pretty, but as they grow older they become dingy and dirty. Their heads are smaller, oblong and somewhat flat. If you should touch one you would see that the scales with dark spots as though it were covered with coarse hair of metal.

"Other Snakes' eggs are soft and leathery, but Blueskin's eggs are hard like those of birds. Their color is white, and they are about the size of a hen's egg. Blueskin lays from twelve to twenty eggs at a time, and they are usually found in the sand or in the hollow of a decayed tree. Blueskin is a constrictor, and kills his prey by coiling around it and squeezing it to death. He is very fond of eating birds' eggs, and will climb trees to get them. He is also very fond of mice, and will eat them whenever he can get them. He is a very useful snake to have around, as he destroys many rats and mice. He is also very fond of eating other snakes, and will attack and kill them whenever he can get them. He is a very useful snake to have around, as he destroys many rats and mice. He is also very fond of eating other snakes, and will attack and kill them whenever he can get them.

Experience of One Dollar

Record For Fourteen Days Was Made On Crocuses

A new dollar bill was put to strenuous tests in Chicago by the North Shore Commercial Commonwealth Attorney Hamilton Ward, which was to be the most intensive experience of this dollar it possessed. In 14 days after leaving Ward's hands the dollar was passed, spent, and handled by 14 different persons, and in that time it covered more than 1,000 miles. Ward's dollar was a new one, but many dollars have similar experiences and travel over many miles in the course of a year.

CAN THE DEAF BE MADE TO HEAR?

Latest Method Is Said To Be Successful

[illegible] Dr. Lee de Forest, who is credited by many as the father of radio, has announced that he has perfected a method by which the deaf can hear. Dr. de Forest, who is himself deaf, declares that he has been able to restore hearing through the [illegible] of the ear, but something like 90 per cent of those who have come to him for help could be helped by his method.

Coal Gold

What Is Meant When We Speak Of 16 to One

Time often speaks of a thing being "16 to one" or "16 to 1" and the meaning of the phrase is not always clear to the reader. It is used to express the ratio between gold and silver. Before the World War the ratio was 16 to 1, that is, sixteen ounces of silver were worth one ounce of gold. Since the war the ratio has changed greatly, and at present it is about 70 to 1.

Hoarseness Rubbed Away Quickly By Nervilino

Changeable weather causes coughs, colds and sore throat. The irritation may be drawn from the inflamed part, and relief speedily done by using Nervilino. The beauty of Nervilino is that it penetrates to the seat of the trouble and every drop sinks right in to the sore spot. Nervilino relieves the pain, soothes the irritation and heals well quickly. For relieving coughs, colds, hoarseness, Nervilino is the proper remedy. Thousands say so. Only 25c bottles sold everywhere.

Object Lesson of Contentment

Nine Years on Hospital Cot Fails to Make Him Despondent

The lesson on a hospital cot which one, moving, has not made Anthony Mcdonald, of Cedar Rapids, Mich., despondent. Mostly his body is bent and contorted. Since his illness he was thirteen, every joint in his body has been growing stiffer, and now even the jawbone has become rigid. It was necessary to cut out a piece of his jawbone to enable him to put food in his mouth.

Mr. Mcdonald's is the subject lesson of eventful merit. It does one good to meet him," said Dr. A. H. Edwards who has studied his case for many years. Nine long years has Mcdonald, deep cozy and radio fans, been confined to his cot. Friends recently provided a radio set.

Loss Coal Mined

Canadian Coal Output Is Below the Average Record

The output of coal from Canadian mines during the month of July, 1922, decreased approximately 47,000 tons or 5 per cent. above the production for the preceding month, and amount to all to 858,000 tons, but in spite of this increase the output fell short of the average record for the same month in the three preceding years by 203,000 tons, or 19 per cent., according to a statement issued by the Dominion Bureau of Statistics. In comparison to the three-year average for the first seven months of the calendar year, the output this year was less by 1,172,000 tons, or 14 per cent.

Imports of coal in July declined appreciably from the quantity report ed for June 30, amounting in all to 617,000 net tons, 13 per cent below the record for the preceding month.

There was considerable revival in the export trade and a total of 242,000 tons was cleared for foreign destinations, as compared with 98,000 tons in the preceding month.

Thirty-Yard Rescue Tunnel

Three Miners Saved By Living Chain Rescuers

A remarkable picture of mining engineering was responsible for the rescue after 48 hours' imprisonment of three men from the J. P. Pit at Washington Colliery, near Newcastle, England. The three men were cut off by a fall of stone and coal two days previously. Mr. Burt, the under manager, decided that the only way to rescue them was by cutting a small tunnel through the fall, which was only 3 yards in thickness. Relays of miners worked until the entombed men were reached.

The tunnel was only 21½ wide on the average, and had to be cut through the solid mass of stone and coal for 30 yards. The men lay in its shale fashion, passing out from hand to hand the debris as the first man cut at once and similarly passing in the necessary provisions to keep up the spirits and prevent hunger pains.

Two of the rescued men went to bed to recover from their ordeal, but the other was on the job next morning at his usual work.

Lightning Restores Sight

At West Brookville, on [illegible] Day, Mrs. Alfred Condon had been totally blind fifteen years. Recently she was in the two-room house of her brother the buildings were struck by lightning and burned. In his efforts to rescue Mrs Condon and family cried out:

"O, I can see!"

Her sight was restored.

Confidence In Canada

Director of Scottish Loan Company Praises Prosperity of Canada

As the director of a Scottish company which has loaned some millions of dollars in Canada, J. Arthur Paterson of Glasgow, Scotland, said when he came on an inspection trip a few months ago he arrived as a moderate optimist, but as he travelled he heard his truth reversly to take him back home in the form of a strong as a pronounced optimist. Mr. Findlay recounted a few days' recent trip which had taken him to the Pacific coast and while staying in Winnipeg he had every opportunity of conferring with the reliable type of men who have a stake in the country. From what he has learned from such authorities in almost every district in the country, and from what he has observed he feels every confidence in Canada.—Toronto Star.

Four Million New Trees

Free distribution of four million trees enough to constitute a fair size forest, is the special privilege of all the Canadian Government Forestry Farms at Indian Head, Sask. The objective of the leaders of afforestation in a plantation of five or six hundred on every quarter section of the Canadian prairie. There can be no reasonable question of the value of trees in any community.

Milward's Liniment For Sprains and Bruises

Every household should have it handy.

Ancient Coins

Ancient coins are now made in midnight sizes, three inches long. They hang inconspicuously from a watch chain.

Be fair to your local merchants. Ask to see his goods and compare prices before sending your money to the mail order houses. You will find that it pays

Turks Are Warned By Britain That They Are Courting Trouble

London - Great Britain refuses to purchase peace with the Turks at the cost of "humiliation and disgrace," Marquis Curzon, British Secretary for Foreign Affairs, declared in the course of an address at the Queen Street Hotel

The attitude of the Kemalists, reflected in their recent demand that the Allied troops leave Constantinople, will not be tolerated, he added, and he gave fair warning to the Turkish Nationalists that they will come to sure disaster if they venture to oppose their military power in the neighborhood of Great Britain and the might of Europe.

The gravity of the situation in the Near East was emphasized by Lord Curzon when he termed it "the most serious menace to the peace of the world."

He accorded the Turkish protestations were without justification and could not be tolerated.

"There is only one way whereby we can make peace," declared Lord Curzon, "and that is by absolutely unconditional action between the principal powers.

"The story of the Turks is one of the Nationalization power sold and to a most suicidal in its character."

"There is absolute accord between the Allied elements and High Commissioners on the spot. Turkey must learn that there is a limit to the concessions which we are willing to make her."

Lord Curzon said the recent Turkish action was a complete answer to the largely fictitious agitation among the Indian Moslems representing this country as hostile to Islam. The Turks had themselves done the very things Great Britain was represented as aiming at.

Warning to avoid imitations that endanger human health, the Factory of Bayer Company will be stamped with their generic trade mark, the "Bayer Cross."

The British Empire Must Be In Harmony On Foreign Policies

London Speaking at the annual Lord Mayor's banquet at the Guildhall, Premier Bonar Law dealt with the foreign policy of his Government and laid special emphasis on the fact that British foreign policy must have the support of the Dominions throughout the Empire.

"The fact is," said the Prime Minister, "that in the late war the great pressure upon us was the fact that the Dominions were three months away from us and there were changes in that home. They will never be the same again. As Lord Curzon said, in all our policy we have to think not only of public opinion but at home, but have to see every means in our power to make certain that we have the support of public opinion throughout the Empire.

"I think also it is no disadvantage that in all the Allied countries at the time when three Dominion Premiers have been present, and have been in one of them should be prime minister.

"Referring to conditions in the Near East Mr Bonar Law said:

"We know what the position is at the moment in Constantinople, I can not tell you anything new except this, that so far all the Allies are acting with the most complete harmony and without friction. I hope that will continue, but it is a very serious matter, and there is no reason not only to hope but to believe that continuous I am sure the difficulty will be overcome. There is only one way at this moment in which we can deal with Greece and the troubles of Europe over Greece, and that is that the Allies, who won the war together, should act together in securing the peace which they alone can secure. If I speak of only two of them, it is not because I do not think of the other powers, but these two are especially interested in the trouble in the Near East.

"I shall regret that we suffered the war. We do not forget that able soldiers, and that it was precisely the latter at Italy by the Germans for four years when under the cloak of peace it was preparing in Austria is approaching the end of the harvest in the history of the world (cheers)

"All these things are not going to be forgotten, but I only make sure the best results can be secured—unity of purpose."

Yukon River At Dawson Open

Dawson.—The Yukon River is still open at Dawson with slow moving ice running between here and Selkirk. South of Selkirk the river is clear. The winter has been comparatively mild so far.

Mild Winter Predicted

Trappers Say Animals Not Preparing For Cold Weather

North Bay, Ont - Residents of the northern woods, long famed for their prophecies in regard to coming weather are unanimous this fall that a severe winter is on unusually mild winter.

In support of this forecast, trappers state definitely that the bear are still feeding voraciously instead of with the construction of their winter. Observers also state that chipmunks and squirrels are storing extremely small stores of food for the coming months.

Coal Miners May Strike

Eleven Hundred Miners in Edmonton District May Walk Out

Calgary - Approximately 1,300 miners employed in the Edmonton district may go on strike soon unless the United Mine Workers of America receive recognition from the operators, it is the district, according to William Sherman, President of the U.M.W.A. of District 18.

If the situation crystallizes and results in a strike, it will be the most serious labor trouble that has affected the mining industry in District 18 since the settlement of the big miners' strike last fall, officials say.

DISCUSS FRANCO-CANADIAN PACT

MINISTER OF FINANCE CONFIDENT OVER RESULT OF CONFERENCE

Paris Hon. W. S. Fielding, Minister of Finance for Canada, who, with Hon. Ernest Lapointe, Canadian Minister of Marine and Fisheries, has been holding a series of conferences here with M. Loucheur, French Minister of Commerce and representatives of the Foreign Office, with a view to settling various commercial questions of not final interest to France and Canada, addressed at a meeting of British Empire Club here. Referring said that although it was impossible at present to announce any details of the proposed agreement, he was able to say that it and his colleague had been received by the French minister in the most friendly manner and he had every reason to believe most satisfactory arrangements would result from the conference.

Urges Sun Cure For Tuberculosis

Discussion Support Theory Advanced By French Doctor

Paris — Most attractive use of heliotherapy or sun baths in the treatment of tuberculosis has been urged upon the Academy of Medicine here by Dr. Amand Delille. He reported that a number of tuberculous cases and also sufferers from peritonitis had be a cured by sun baths in various sanitaria in Southern France.

The sun cure was further praised by Dr. Maurice Bonnet, who declared it was beneficial for cancer.

Bulletins have been presented to the Institute to show that cancer is unknown in the tropics and prevalence in temperate countries in proportion to their lack of clear sunshine

LARGE WHEAT CROP IN ARGENTINE

PRODUCTION IS MANY MILLION BUSHELS OVER OTHER YEARS

Ottawa.—According to a cablegram received from the International Institute of Agriculture, the preliminary estimate of production of wheat in Argentine is 215,315,000 bushels against 189,642,000 last year, and 171,615,000 the average of the five years, inclusive. The area sown to wheat in Argentine is 16,000,000 acres, against 13,872,000 last year and a five-year average of 13,000,000. The area sown to wheat in Australia is approximately 13,000,000 acres, against 8,847,000 last year and a five-year average of 10,000,000. Crop prospects in Australia are fine

Fire Destroys Eleven Acres

Origin of $25,000 Blaze In Gravelbourg Garage Unknown

Gravelbourg - Fire caused a total loss of $25,000 when Dennis's garage was burned to the ground. The origin of the fire is unknown. All the stock of carpenter, tools and chevrolet was destroyed, only one car being taken out of the burning building before the fire reached the inflammable gasoline.

Several gasoline explosions occurred during the blaze, causing much danger. The fire started in the engine room at the back of the garage and spread so quickly that the firemen barely had time to get out with being burned.

Wild Animals Protected

Trappers Say Animals Not Preparing For Cold Weather

North Bay, Ont - Residents of the northern woods, long famed for their prophecies in regard to coming weather are unanimous this fall that a severe winter is on unusually mild winter.

In support of this forecast, trappers state definitely that the bear are still feeding voraciously instead of with the construction of their winter. Observers also state that chipmunks and squirrels are storing extremely small stores of food for the coming months.

Finance Conference Would Be Beneficial

Every Part of Empire Should Understand Difficulties of Other Parts

Toronto—A suggestion that the unity of the Empire might be further cemented by a study of the financial problems of each part of the British Empire was made by Prof. C. R. Fay, of the University of Toronto, before the Toronto Bankers' Education Association. Prof. Fay gave a very elaborate outline of the growth of banking in Great Britain and showed how the same down to the present he referred to the needs of the present age in that every part of the Empire should understand the financial difficulties of all other parts. For instance it would be well if Eastern Canada should have a full grasp of the provisions of the western farmer's need it would be right that the Britain public should know something of the industrial difficulties of the Canadian manufacturer. That he believed could be worked out, and Canada up to a big way by means of a personal conference among bankers, who some aim it should be to educate themselves as to the peculiar difficulties of all interests in the Empire, so business men might in their part of the Empire that interest may be

ASSIST THE PROCESS

Conference Held At Ottawa To Discuss Immigration Question

Ottawa Hon. Charles Stewart, Minister of Immigration, presided at discussed the conference on passages that have, in which the minister said he has established [illegible] agreement with the Canadian Pacific Railway and Canadian Northern Railway, and will [illegible] the most economical [illegible] possible.

He said he was the policy of the last government to lend aid when it was needed and the opposition [illegible] previous [illegible] representatives [illegible] the help that was necessary. [illegible] he held [illegible] in the House. It was only through hasty enquiry that [illegible] that the aid was not obtained.

Today British and continental immigration received attention from the [illegible] of the day. [illegible] Smith Superintendent of Immigration, for the Immigrant Government in London, and Mr. George Mc. Bain, of the Canadian Pacific Railway, the former had the benefit of the British information on the situation both in the British Isles and on the continent. The two gave an outline of the [illegible] they considered necessary, as the [illegible] and effective Immigration work overseas.

It came out during the discussion that the Government has under consideration the extending of an information office to Switzerland, and similar activities may be assigned where they are eligible for citizenship.

A feature of the conference was the spirit of hearty co-operation manifested by all those present, and the part on the part of transportation and colonization interests with the Government with it, it is hoped a period of rapid progress in the publicity and advertising work, eliminating much duplication.

It is understood that as a result of the conference the Government will invite the transportation interests to appoint representatives to a smaller standing committee to co-ordinate all the publicity effort of the parties in touch.

Canadian Business Men And Others Should Visit East And West And Study Conditions

A recent issue of the Canadian Manufacturer contains an article which is of particular interest to every Canadian business man. The author, who has not seen the west and the westerner who has not seen the east are working under a severe handicap.

That the Montreal business men are keenly aware of this fact is indicated in the recent issue of the Montreal Board of Trade to the west, who had, as their guests a number of Ontario industrial men, members of Parliament and Manitoba's premier, a power and the soundest knowledge is that which is obtained directly by oneself on the ground, based with one's own ears and seen with one's own eyes.

It is an extraordinary thing, never theless a fact—that there are in the east generally many prominent business men who, year after year, do business with the west, yet who have never personally visited it. They make frequent trips to Europe and to the United States, but when it comes to personally visiting the western portion of their own country, they "pass it" up in favor of some other. The United States slogan "See America First" might well be adapted to "See Canada First" by those business men who can, if they will, see more of their own country. The article referred to is as follows:

If you would build up a national business you should know Canada. You should understand the differences in the temperate of the seasons, from that of the man in Ontario, the man in Quebec and the man in the Maritime Provinces.

To understand men one should be familiar with the conditions under which they do business. To do this one must visit the city or town where they do business and get close enough to see in what ways conditions are different to one locality from another.

We all know that the needs of a customer in a manufacturing city like Windsor are very far different to the needs of a prairie city like Saskatoon. But to roughly understand, and to be in a position to answer any demand in these places, the business man should visit these places and study each one in relation to the product he manufactures.

For instance, how many business men in Canada know what towns are affected by drought in a certain district in the west? How many know what towns should be affected by a great increase in demand for lumber, paper and pulp.

The man must know his market too intimately, and, as everyone in business in Canada knows, the distances between are great and the demand for materials entail serious risks to be fully understood.

Apart from the purely business aspect of the matter, however, Canada offers to the tourist a world of places worth seeing.

The beauties of the Pacific coast cities and their parks, the Rockies the Okanagan, and other B.C. valleys, the prairies at harvest time, or for that matter, at a time when the crop is in; the drives around Winnipeg; the Great Lakes; the Muskoka lakes and the Algonquin Park, the pastoral scenery of Ontario, Niagara Falls, whirlpool and rapids, the Niagara fruit district, the Rideau, the Thousand Islands, the drives around Toronto, Ottawa and Montreal; the Province of Quebec and the river Saguenay, Parliament Hill; the St Lawrence and Saguenay, the trips old Quebec, the hunting and fishing districts of New Brunswick; the seafaring life along the shores of the Maritime Provinces; pastoral Prince Edward Island the apple valleys of Nova Scotia, its harbors and beauty spots of St. John and Halifax and these are only high spots that some readily be named.

Travel in Brazil is worth while. The business man should be and generally is a good mixer. He can usually beat the good sister man meets most and sometimes in learning. The one sequence is a social conversation, or breaking ice that is good for any man. One thing is sure, a man that starts out to see Canada I going to come home an enthusiastic believer in his own country, and an optimist as to the future of his own business.

Graeks Destroyed Orchards

Only two ships got out of Smyrna with cargoes of the year's figs for America. The fire on the water front left nothing except the timbers of the packed fig that were ready for shipment, and the Greeks are reported to have taken the action in order to prevent them from falling into the hands of the Turks.

There is $150,000 worth of steel [illegible] Landsale.

Memorial to War Hero

Father of Captain Bell Erects and Endows Eight Houses in England

Eight houses erected in memory of the late Captain Albert Bell, V.C., D.S.O., M.C., by his father, Alderman Albert Bell, were opened at Notting ham by Lieutenant-Colonel Dudley Ward, M.P. The following memorial was read from the King.

"It is fitting that the houses should bear the name of one destined to live pre-eminent among the sons of Northumbria, who, in the great war, as in the days of Charles I., gave their all for King and country."

The houses will be occupied by the mothers or widows of men who fell in the war, and one of the first tenants will be a woman who has lost three sons. Alderman Bell has in addition to giving the houses, has endowed them, and the tenants will receive free coal and light. The capital value of the gift exceeds £20,000.

Champion Sailboaters From Inland Town

Very Few Live in Coast Towns or Villages

It is a rather strange fact that of the multitude who from time to time undertake to swim the English Channel, very few, if any, are dwellers in coast towns or villages. One would have thought that amongst the men who live by the sea and earn their living on the sea, the champion swimmer would be found, but the real fact is that all the swimmers champions come from the inland towns. A large percentage of the fishermen cannot swim at all, they never bother to learn because of a certain fatalistic prejudice.

Could storm it would only prolong their agony. If they were wrecked it makes away from land or the help of other boats.

A Costly Comma

Substituting For Hyphen and U.S. Loses Over Two Million Dollars

There is a story that the insertion of a comma once cost the United States Government the sum of $2,000,000. About forty years ago the United States Congress, in drafting the Tariff Bill, enumerated in one section the articles to be admitted on the free list. Amongst these were "all foreign fruit plants." The copying clerk, in his superior wisdom, omitted the hyphen, and inserted a comma after "fruit" so that the clause read "all foreign fruit, plants, etc." The mistake could not be rectified for about a year, and during this time all oranges, lemons bananas, grapes and other fruits hitherto were admitted free of duty. With a loss to the Government of at least $2,000,000 for that year.

Primitive Post Office

Vessels on India Route Burned Letters Under Stones

In the earlier portion of the 19th century when the vessels of the East Indian Company called at Capetown, Table Bay and other places on their way to India, the officers of the vessels had letters and despatches which are peculiarly shaped flat stones which had the vessel's name engraved on them. These stones were usually sent to the outward bound craft, while passengers were advised by news of the sailing date and if the opportunity to note that one of these stones with the date and name of the ship still legible, is preserved in the museum on the present Capetown Docks.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an unusually brilliant, soft, white light, even better, and far more cheerful, has been tested by the U. S. Government and 30 leading universities and found to burn over 94% air. It needs no mantles, no pumping, no chimney cleaning, trims, lights. Burns 9 to 14 hours on a penny's worth of kerosene (coal oil).

It's another, T. V. Johnson, 879 Hamilton Building, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make $70 to $72 per week.

Warning From Jim Hendershaw

This speech made by Field Marshal Jim Hindenburg on his seventy-fifth birthday is to be a model, others will be told "have men to whom we can look to explain to us their policies or foreign policy." There could be no clearer warning that Germany will be disarmed if strife are discovered in the Kingdom.

CASSED OVERSEAS

SHELL SHOCKED

and RHEUMATISM

Mr. F. M. Simpson Marionville, Mrs., writes: "After three years' service with the Canadian Forces, also a complete wreck. I had shell-shock and rheumatism, and was pensioned as totally incapable of earning my own living. I tried many medicines and doctors, but never found any good for me until I got Nuga-Tone. I got on hand, in fact I could scarcely hold anything, and now I feel well and am capable of earning my own living. The least expense I've had was $2.00 per week, and I've used no whole system opened up, my appetite returned, I can sleep like a baby every night, and feel and look like a new man. I've gained 30 lbs. since I began to feel better. I've got the pep and energy I've not had for years, and I'm glad to recommend Nuga-Tone to anyone suffering from shell-shock or rheumatism."

Nuga-Tone is sold by all druggists or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Sound Converted Into Power

London May Be Lighted By Noise Of Traffic

The prospect of London being lit by the noise of its own traffic is regarded as the result of a new application of Piezoelectricity, a process by which sound is converted into power by means of crystals. The property is possessed by certain crystals whose faces, if they generate electricity when subjected to vibration. Tram lines, bridges and roundabouts have been suggested as suitable places for the installation of the apparatus, and the invention is being shown at the Wireless Exhibition in London.

Spanish Police Learn Jiu Jitsu

Jap System of Self-Defence Taught by German Instructor

A German policeman has just finished giving instruction in Jiu-Jitsu, the Japanese method of self protection, to the members of the police corps in Spain.

Herr Wenty of the Berlin criminal police department returned recently from the engagement for a brief visit home. Having established a reputation in Berlin as a police ju-jitsuist, especially in Jiu-Jitsu, Wenty's services were "borrowed" by the Spanish authorities. His commission included the development of police Jiu-Jitsu teachers at Barcelona and instruction looking toward the establishment of a ju-jitsu squad in Madrid.

At Night with Asthma. Everyone knows how attacks of asthma often keep them terrified awake the whole night long. Morning dead- tired and unrefreshed. Then, if ever, relief is needed, but seldomest must still be carried through. All this night and many a hard night of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively relieves even the severest attack.

Beggar Scores Police Wagon

Draws Detective to Court in Espsomed Car

Frederick Hammill, a ragtime beggar, who has a rubsh in North Dakota, where the deserves, who received fame for begging on a New York police station in a $2,000 limousine, and later rented an ashing his copper and himself only to night court in a rubsh.

"I went to get in court with three pants," he shouted, pointing to other beggars and ragtime musicians. "Every week-ender is be crowded into the police wagon.

As a beggar de luxe Hammill in every way surpassed the young Manhattan who was lately a guest at a hotel on Broadway.

Hammill drives around the country cooling and sleeping in his car a big sedan fitted with a kitchenette and a bathroom.

"He told me," said the detective who made the arrest, "that he had a good income by begging and had invested $20 000 in a ranch in North Dakota."

Hammill told the police he was not the sort of business man to put all his eggs in one basket. He said he was 46 years old and had lost his key through infantile paralysis. He said his home was "in the south."

Victims of Lynch Law

Many Punished in States Without Any Discoverable Reason

During the fifth three years ending with 1919 there would have been hanged in the United States, in those seventeen years of vigilantism and Mississippi heads the list with fifteen lynchings. Texas comes next with nine. Many of these disgraceful episodes have been based on the flimsiest of reasons, but in a surprising number no reason has been discoverable. In the same period at least the total number of victims of lynch law was 3,184, of whom white men and women numbered 1,143. In attempts to bring made to enroll a million women among the Anti-Lynching Crusaders who will seek to revoke public sentiment everywhere and thereby agitate this most abhorrent of all the crimes now of such violence. The organization will also support the Dyer Anti-Lynching Bill in Congress.

Dress All Your CUTS & SORES in Zam-Buk

Royalty Saved Fishing Crew

King Victor's Daughters Aid Men in Storm Fog

King Victor Emmanuel is pictured in advices from San Remoare in the role of rescuer of an endangered fishermen's party.

While the King was out on a fishing expedition with the Royal Princesses at the mouth of the Arno, in Tuscany, he saw a short distance away a sailboat being carried near danger by a strong current. The royal party hurried to the rescue. The King and the Princesses got out and standing in water up to their knees threw a rope to the fishermen and then joined in tugging them in by pulling sailor fashion.

Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are in the old yourself of this ailment and the scares of annoying symptoms and diseases which come in its wake, it is necessary to get the liver right by such treatment as is suggested in the letter:

Mrs. Alvin Richards, R. R. No. 1, Sydney Bay, Cape Breton, N.S. writes:

"For two years I was afflicted with indigestion and a torpid liver. I used to get up in bouts was bad. I had a bad taste, appetite, and felt like eating rotten foods. I used many different medicines in a hopeless endeavor to get relief, but I never got any benefit from them at all. Finally I used Dr. Chase's Kidney-Liver Pills and found from the very first everything I had ever tried. I can highly recommend them to any one troubled with constipation or kidney troubles."

Dr Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

The Old Favorite

Is Just As Popular As Ever

And Just as Effective in Relieving Coughs, Colds, Croup and Bronchitis

For over a quarter of a century Dr. Chase's Syrup of Linseed and Turpentine has been the favorite treatment for coughs and colds.

It is still growing in favor, for the simple reason that it can be depended on as a positive relief for Croup, Bronchitis, Whooping Cough and Asthma.

Family Size 75c

Bronchitis

Mr J Pearson, 207 Oak St., Toronto, Ont., writes: "I was troubled with bronchitis and had a very bad cough for years. I had the cough so long I was becoming afraid of other developments. I tried all kinds of cough remedies without relief. I saw Dr. Chase's Syrup of Linseed and Turpentine advertised and tried it. One box of Dr. Chase's Syrup of Linseed and Turpentine advertised and tried a One day, however, I picked up a copy of Dr. Chase's Almanac and saw how I was fooled. I got one bottle immediately, which completely relieved me.

Severe Cold

Mr Lloyd Bolen, Summerbank Farm Pownal, Lot 49, P.E.I. writes: "After I got over the flu last winter, I took a very severe cold. I tried several kinds of cough medicines, but none of them would turn to suspect my nerves. So I got one bottle immediately, which completely relieved me.

DR. CHASE'S Syrup of LINSEED AND TURPENTINE

35c. a bottle. Family size, three times as much, 75c. All dealers or Edmanson, Bates & Co., Ltd., Toronto.

NO INCOME TAX NEXT YEAR

NEW IRRIGATION PROJECT

Work on the new United Irrigation project near Cardston will be completed, and the project will be in readiness for signing the sale of Canadian Pacific stock, which brought a price of $19,000,000 to Alberta, is sufficient to cover the cost of the project, without the necessity [illegible]

A VACATION AT HIGH TIDE

Alberta, with its remarkable climate, should be a favorite resort [illegible]

Already there are over [illegible] by entries and as many more [illegible]

SEED GRAIN BEING SOLD

[illegible] grain of the Edmonton district is being handled through the government cleaning plant at Edmonton, it was announced [illegible] by the Department of Agriculture. Requests for this grain are now being received at the office of this branch and those who wish to purchase should apply there.

BIG DAIRY CONVENTION

One of the largest dairy conventions ever held in Alberta will be held at the same time, and a very large gathering of dairymen during that week is expected. The convention will discuss all branches of dairying and the problems attendant upon such. The recently inaugurated system of government grading of cream by the [illegible] Dominion is another of the factors which has promoted quality of cream, will be an interesting topic for discussion.

NEW TRAIN SERVICE

Train service has now been inaugurated over twenty-mile extension of the Alberta Government Railway west of Lacombe. [illegible] trains a week over the line from Lacombe to the new terminus and return.

NEW BRUNSWICK PROFITS

[illegible] of New York who is traveling through Canada gathering information regarding farming methods, for the government of Russia, which is interesting some returns in connection with farming in that country.

Home Visitors Fares To Central States

Special recognition is given to the former citizens of the United States this winter by the Canadian National Railways in the announced reduced fares to the interested around the Christmas and New Year holidays. The scale is [illegible] per cent of the regular fare. The purpose is suggestive of the fact that they permit American settlers in Canada to return to their old homes.

Included in those who for [illegible] are [illegible] Minneapolis, St. Paul, Duluth, Superior, Dee Moines, Council Bluffs, Omaha, Fort Dodge, Sioux City, Watertown, Aberdeen, Rapids, St. Louis, Kansas City and Minneapolis.

Reduced Fares to the Pacific Coast

The Canadian National Railways will sell tickets at greatly reduced fares from points in Winnipeg and Emerson west in Manitoba, Saskatchewan and Alberta to Vancouver, Victoria and New Westminster, on December 2nd, 7th, 13th, 14th, 19th, 21st, 28th, 1922; January 2nd, 4th, 9th, 11th, 16th, 18th, 23rd, and February 8th, and 8th, 1923.

Travelling on the Canadian National to the Pacific Coast is a definite pleasure. There is no better way of taking a holiday than by a trip over this road, the enjoyment starts when you step aboard, furnishes a most [illegible] entertainment both useful and pleasing and at a reasonable [illegible] the climate.

The Canadian National Railways offers patrons the option of travelling either by rail to Vancouver or rail to Prince Rupert these Grand Trunk Pacific steamships to either Vancouver or Victoria; or the trip may be made going one way and returning the other.

A great influx of tourists and excursionists is expected at those North Pacific Coast resorts, as these cities have taken [illegible] to make their unity-side acquainted with the beauties of our coast points in winter resorts.

making these low fares the Canadian National Railways has not lost sight of the fact that home-like surrounding therefrom are mutual. The successful settler is recognized to be the best possible colonization agent and those who return home to the United States to tell of results [illegible] country never fail [illegible] many of their friends. As a result of this year's Home-visitors' Fares, thousands of new settlers are expected to [illegible] the whole to Canada [illegible] and the good work [illegible] to continue.

Those Homevisitors tickets will be on sale this year from [illegible] to January 8th, [illegible] a final return limit [illegible] from date of sale, [illegible] apply from all Canadian National stations to Alberta, Saskatchewan and points Hudson Bay Jct. to The Pas Jct. [illegible] stations in central States [illegible] Duluth, Superior, Watertown, Aberdeen, Rapids, St. Louis, Kansas City and Minneapolis.

[illegible] improvements resulting from years of experience in studying the requirements of first-class travel. An additional convenience is provided by tourist car service. Canadian National tourist cars are all new and embody the latest and most modern improvements. Charges are only half those for accommodation in standard sleeping cars. For those bringing lunch and desiring to do their own cooking en route, a kitchen is provided in a compartment shut off from the rest of the car. A fire is kept constantly burning in the cook stove and a sink with taps provides hot and cold running water.

The dining cars, with their hand-some finish, quiet decorative details and adequate, arrangement, furnish a most [illegible] entertainment both useful and pleasing and at a reasonable [illegible] the climate.

The Canadian National Railways offers patrons the option of travelling either by rail to Vancouver or rail to Prince Rupert these Grand Trunk Pacific steamships to either Vancouver or Victoria; or the trip may be made going one way and returning the other.

A great influx of tourists and excursionists is expected at those North Pacific Coast resorts, as these cities have taken [illegible] to make their unity-side acquainted with the beauties of our coast points as winter resorts.

FARMERS' REQUIREMENTS

[illegible] seed bearing requirements of farmers are [illegible] Western Canada. The Bureau, because of its close [illegible] has learned through practical experience [illegible] even them up a definite and satisfactory manner.

It [illegible] passed on them when they had to purchase land and [illegible] implements and has helped them to save and to maintain their finances in an orderly manner. Our [illegible] stronger will be pleased to have you consult with him.

Canadian Winter Climate Big Factor In Producing Best Wheat In The World

With the approach of winter months, once again arises in travel publications arguments and opinions as to the desirability of the climate of Canada's climate.

We who live in Canada are quite satisfied with our winter climate, we know it is both desirable and advantageous, and that without it we could not hope to raise the finest hard wheat in the world and the splendid crops of sturdy, healthy, young men and women. Farmers know that bracing cold weather puts bone and muscle, fat and kids on horses and cattle; lumbermen and trappers that snow solves their transportation problem, while to the lover of outdoor sports, winter time in Canada is a season to be anticipated. Finally, vital statistics bear out the fact that nowhere in the world will a healthier class of children be found than in Canada, and the state of health of the people generally in the very best indication of the advantages of the climate.

In a very eulogistic article on Canada in the October issue of the International Institute of Economics of New York, one of Canada's greatest drawbacks is stated to be the climate. "Incongruity," who writes the article, says:

"Canada's chief disadvantages is that her fine agricultural and timber lands are practically less diversified than America's. This is due to many causes, the United States and going great areas in fronts that forever [illegible] and extremes of them."

On the face of it, this would seem to be true, but a little knowledge of [illegible] Dominions and other countries [illegible] northern explorers of this fact. "Per [illegible] are applied as restrictions and [illegible] ing conditions in Canada is a decided [illegible] to us than gets no [illegible] tions in Canada change, and with [illegible] the northward cultivation and colonization the so-called Arctic climate is being driven farther north. To [illegible] who have read [illegible] a article on climate in the February, 1922, World's Work, "The Livable North," the following quotation will be familiar; to those who have not read it, it will be [illegible] interest.

Before quoting from that article however, let us just point out that this question of cultivation of the Arctic and [illegible] the northern areas is [illegible] being [illegible] Dominion Government in the Peace River country, in Northern Ontario and in Quebec is going on apace, and now that [illegible] the northward, were once considered [illegible] and unprofitable, are [illegible] now proving desirable and productive. Back in the early nineties, when [illegible] grown a thousand miles north of the international boundary took first prize at the Chicago World's Fair [illegible] this, since when settlement in that area has been steady and [illegible] Now Canada is possessed of [illegible] lions of eighteen millions [illegible] eight as at present, the country of [illegible] uncultivable northern areas going to [illegible] climate, has been tested [illegible] in the same way as the question of [illegible] and Dominion of the northward [illegible] and expert [illegible] But let Stefansson speak for himself—

"We have pointed out that the growth of grass and other plants is measured not by the number of days in summer in months, but by the number of hours of sunlight, and that there are as many hours of sunlight in three months of Arctic summer as in six months of temperate summer. Many plants, therefore, in reality, twice as long a growing time as the ordinary [illegible] summer knows them to be. This is one of the fundamental considerations which explain the [illegible] and luxuriance of vegetation in [illegible] north that is always so startling to the traveller who goes north with a mind furnished with ideas derived from school geography.

"It seems to be light rather than heat that makes a plant grow fast. But if it were heat, the polar plants would not be hardy nut. A fairly [illegible] mathematical calculation shows that from the first week of June to the second week of July, the north [illegible] has several [illegible] more than most per square mile per day at the North Pole than at the Equator. The mountainous regions, such as Greenland, there is left over from winter [illegible] stored snow to counterbalance [illegible] this tremendous downpour of heat [illegible] but on the bare mountain [illegible] ice-tins in my tent indication of the advantages of the climate.

"Even in the [illegible] Alaska, and the Canadian Arctic islands, there is no stored-up snow to temper the summer heat, which explains the surprise travellers from those regions tell of the unbearable swelter of the Arctic summer and wonder how such weather [illegible] 90 degrees in the shade at Fort Yukon, Alaska.

"The experience in Government of Sir [illegible] Hanna and others are now [illegible] in Canada and are there the most known examples of [illegible] history. The English language was [illegible] to its capacity in showing the [illegible] of the building of the Canadian Pacific Railway. The argument [illegible] that [illegible] the [illegible] of building the road would be so great that, even were we to accept the most optimistic view of what the resources of the prairie provinces might develop into, even as a reasonable freight tariff for carrying them to the Atlantic would never pay for the [illegible] of the freight cars. Opponents of the road were willing to concede that if anybody had the incredible folly to [illegible] that work [illegible] the road could be built. They admitted further, that it could undoubtedly be operated in summer, but contended that it was preposterous to suppose that it could be operated in winter, and these [illegible] the universal conclusion that the railway would never be profitable, for its operation can be profitable if it is operated only half the year."

How Bank Of England Received Nickname

Old Lady of Threadneedle Street Was Real Person

In explanation of the nickname for the Bank of England, a writer in London is told by Sir William Treloar. In the early part of last century there were several people in the city who were known for their curious attributes, and who had his or her nickname. For instance, there were the "Green Man" and the "Lady in Black." There was also the "White Lady of Threadneedle Street," who was a regular visitor to the Bank of England. She was the sister of a poor young clerk who had forged the signature to a [illegible] warrant. For this crime he was [illegible] to death. His sister was a needlewoman for an army contractor, and lived with an old aunt and her husband in the city. Her sister became affected at her brother's discovered death, and every day afterwards she would go to the bank and walk up to the pay counter. "Is my brother Mr. Frederick, here today?" she would ask, and the invariable answer was: "No, miss, not today," or never stayed more than five minutes, and invariably per last words were: "Give my love to him when he returns. I will call tomorrow." In time the nickname became transferred from the old lady to the Bank itself, and as the Old Lady of Threadneedle Street it has often been known.

Patience in Fruit Culture

Time Required to Popularize a New Variety of Apple

The Dominion Horticulturist gives the following as the stages regarding the time through which a new variety of apple must pass from the setting of the seed until it becomes a popular sort. From sowing seed to planting trees in trailing rows, 2 years, from planting to bearing 5 years; from bearing to ascertaining characteristics of fruit, 5 years; from propagation to planting in orchard, 2 years; from planting propagated trees in orchard to fruiting of the same, 5 years; if apples proved by nursery man, time for any one man to build up a stock for sale, 2 years, total, 21 years. This makes a period of forty years in all which one may [illegible] the work and patience that are required for the marketable production of a good apple.

Big Game Increasing

Wild Life of All Kinds on Kootenay National Park

The astonishing manner in which wild animals respond to sanctuary protection is shown by the increase in the life of all kinds in the Kootenay National Park. Kootenay Park is the new area in Britis Columbia, recently reserved along the route of the new transmountains motor highway from the Vermilion Summit to the Windermere Valley. The Gothic is mostly virgin country and is naturally a home for big game, which, since the creation of the park and the establishment of rigid protection, has increased to such numbers that it promises in form one of the greatest attractions to motorists when the road is opened next spring. Wild sheep, goats, black and brown bear, deer, moose and caribou can all be seen by the passing tourist along the road or on the adjacent slopes.

In Luxemburg there is a penalty for eligible voters who do not vote at elections.

Our Versatile Prince

Readiness to Adapt Himself to Any Circumstance Increases Popularity

His Royal Highness the Prince of Wales plays many important parts in his position as heir-apparent to the throne of Great Britain, and he plays them well. His popularity in the United Kingdom is growing as much as possible, at any rate, he is personally beloved, and always heartily welcomed wherever he goes. His readiness to adapt himself to any condition or circumstance, whether it be that of the concrete blocks of the mean slum or the royal banquet, is one of the greatest factors in his popularity.

An example of his willingness to please the people was recently furnished at the great Scout rally at the Alexandra Palace, London, where His Highness appeared in an exact replica of the uniform of the Chief Scout, Sir Robert Baden-Powell, and took an active part in the big rally. There were between 25,000 and 30,000 Scouts, Rovers and cubs at the rally, every one of the kingdom being represented. The Prince was accompanied by the Duke of Connaught, who wore a similar uniform. The Duke of Connaught is President of the Boy Scouts' Association. The King's Scouts were the Princes. His Royal Highness made a fine appearance, and was heartily cheered for him. led by Sir Robert Baden-Powell, and the singing by the massed Scouts of "Land of My Fathers."

One of Carnac's Successors

Was Boomaster in Indians Eighteen Years Ago

Eighteen years ago a bulking young Canadian named Archie Richard was working in a fruit fur factory at Minnedosa, Ind. He was married and had [illegible] children. People said he was [illegible] one. One day he started for New York with a letter to a shoulder looking agent. He got out of a day [illegible] of the old Grand Central Station, carrying a "letterman" and with $3 in his pocket, $1 of which he spent for a room at the old Grand Union Hotel. Two nights later he was [illegible] on the stage of the Casino Theatre in the midst of a musical comedy success to sing the song that opened the second act. Today he is one of Carnac's successors at the Metropolitan Opera House.

Canada's Newsprint Production

The production capacity of the Canadian newsprint mills will be increased about 10 per cent next year according to a survey of the newsprint situation published in the Pulp and Paper Magazine. This will bring Canada's total production to 1,250,000 tons annually, as compared with a production of 1,050,000 tons from the United States' mills.

A motion picture film 15 miles in length and which requires nearly 12 hours for continuous exhibition, has been completed in Italy, showing the principal incidents in the Bible from the Creation until the birth of Christ.

Peasants of these European countries whose wheat bread is made principally have exceptionally good teeth.

Lions and tigers kept in captivity require one day a week without food to keep them in good health.

Rubber Roads Now Experiment

Test Being Made on One of Old London's Busiest Streets

There is established that rubber will be the ideal material of the future.

The first experiment to be made shortly in St. Martin's-lane, a portion of which the Holborn Council are to pave with rubber blocks.

If this is successful, rubber will be used instead of wood and asphalt for the surfaces of other roads.

The method employed in quite [illegible] Rubber cubes are embedded in concrete blocks of the same size as the wood blocks.

An experimental rubber carriage road in Scotswood did not give the [illegible] because the [illegible] before the rubber did not harden.

The material of all good road work is a hard and solid foundation and this is to be obtained by using separate blocks, combined the one more to bearing.

"We ought to know whether these rubber blocks will be a success in about a month," says H. F. Spurrell, Borough Surveyor of Holborn.

"Street rubber which was laid at the entrance to Buxton Station 15 years ago is still in good condition, and we hope before the new rubber roads will be equally long lived.

"A wood block lasts from 12 to 15 years, and costs of the fairly [illegible] a square yard.

"Rubber blocks, which we have will carry a very much longer life and which are more resilient, sanitary and [illegible] cost 10s. a square yard.

"The rubber pads are being made for us by the Leyland and Birmingham India Rubber Company while the concrete blocks in which they are attached are made by our own workmen.

"The test will be a severe one, for in Holborn Lane is one of the busiest streets in the west end."

Growing Dates In Arizona

Trees Brought From Egypt Thrive in Well Irrigated Desert

Man who is energetically making over Arizona from his adult and good water, now takes pride in another successful accomplishment. He is producing in the well irrigated Salt River valley delicious dates, from trees brought from one expedition but for shipment—an infant industry. And he isn't asking for tariff protection either.

The date palms, originally brought from Egypt, have been growing in Arizona for twenty years. The Agricultural Department of the University of Arizona at Tucson have carefully tested out 100 varieties. The names [illegible] of the Pullman cars Have are a few found in the date orchards of the Salt River valley: Deglet, Noor, Khara, Barbar of Hadgi, Fardy, Tadala, Halwan and M'Kentichi dates.

The date palms are beautiful in themselves, growing to a height of 50 feet, with a spread of fronds with clusters of dates. Some will produce as many as sixteen heavy clusters. The unripe date will outpace the green persimmon, but ripe and fresh, one cannot tell from the dry forms the staple food of the Arabs.

Germany Must Work Harder

Germany must work two hours more per week for 10 or 12 years in order to be able even in ruins, the Imperial Economic Council was told by Hugo Stinnes, the industrial magnate. In a speech published by the Deutsche Allgemeine Zeitung

Herr Stinnes estimated that Germany must produce at least 200,000,000 marks more per month in order to live.

It is better to start right than to reform your steps

ON THE ROAD AGAIN

—New York Week

Estimate Heavy Increase In Value Of Field Crops Over The Preceding Year

Motor Cars In Dominion

Figures From all Provinces in Canada Total 482,000

The average revenue per car for motor licenses in Saskatchewan is the lowest of any province in Canada, said Hon. J. H. Uhrich, Provincial Secretary, quoting some figures just received from the Federal Department of Highways.

"Statistics compiled by the Policy Department of Highways give the average revenue per car for motor licenses as follows for the nine provinces of the Dominion," he continued. "Saskatchewan, $13.43 per car; Manitoba, $13.66; Ontario, $14.12; Alberta, $17.32; British Columbia, $18.37; New Brunswick, $20.61; Prince Edward Island, $21.12; Quebec, $22.27 and Nova Scotia, $26.07

"In the total number of automobiles Ontario is far in the lead with 205,511 automobiles registered over there, Alberta has many automobiles as any of the other provinces, and Saskatchewan comes second, with a slight lead over Quebec. Saskatchewan having 61,175 automobiles registered during the past year and Quebec 54,609. Alberta comes fourth with 49,291. Manitoba 37th with 24,622, British Columbia sixth with 23,850, Nova Scotia seventh with 14,274, New Brunswick eighth with 13,515, and Prince Edward Island ninth with 1,791. There were 11 automobiles registered for the Yukon Territory, making a total for the Dominion of 482,544."

Antarctic Explorers Glad to Reach Home

Quest Was Not Powerful Enough to Conquer Them

The explorers who accompanied the late Sir Ernest Shackleton to the Antarctic on his last voyage have returned to England in the Quest and they report endless hard sledging at being home again. They have been absent over a year, and hardship and disappointment have been their portion.

Since the death of Shackleton in the Antarctic last January, the explorers have been led by Captain Frank Wilde. His hitherto important scientific results have been secured, and a corresponding reduction in the sense of wagers, with the result that farming conditions were in a position to [illegible] state. With some years of planting, threshing and marketing the margin of profit on the wheat crop should be better than last year. Owing to the phenomenal yield of nearly all agricultural products this year, the decrease in value per bushel will be more than compensated by the enormous increase in the volume of wheat, oats, barley and flax [illegible] and the increase in the [illegible] and [illegible] values are probably more than [illegible] the decrease in the price per bushel.

The same authority roughly put the value of the crop products of the ground, the cows and the horses, not including eight manufactured products or wealth, at $1,000,000,000 developed, as slightly over $7,500,000,000, or, based on a population of eight and three-quarter millions of people a per capita value of about $220.00. Agricultural products, of course, accounted for the largest share of the [illegible] amounting to $3,119,272,541. There were 31 automobiles registered for the Yukon Territory, making a total for the Dominion of 482,544."

Prince Satisfied With Ranch

Says He Has Received Good Reports of Stock

The Prince of Wales, speaking at a luncheon at the Canadian Club in Los Angeles, which was presided over by Rt. Hon. P. C. Larkin, Canadian High Commissioner, said it was on November 15 three years ago, that he left Ottawa to embark for home at the end of a long tour of Canada. The present occasion recalled his wonderful experiences in Canada and [illegible] his hope that he would one day return to his many friends there.

Referring to the number and country, the greatest of all that he had observed was the [illegible] Empire. He always would be proud of the fact that he had served with the Canadian troops on active [illegible] The Prince said [illegible] a small farm in Alberta [illegible] was a great help to him and Canada, and consultated an assurance that he would one day return to that country. He was glad to say that he was raising [illegible] but quite recently he had received satisfactory reports from the ranch. Breeding so [illegible] all over the Empire had often [illegible] and he supposed that he was [illegible] he was compelled to do [illegible] of his cattle in Alberta would soon be like a menagerie

The Gulf Stream

A correspondent [illegible] writes a surprising [illegible] about the temperature of the Gulf Stream upon Ireland. He says that there is a stretch of about ten miles at Achill Head County Mayo, where the stream hits Ireland. This point is actually [illegible] and bananas, palms and various [illegible] flourish as they do in the tropics, while a mile or so either north or south of this point has the cold damp temperature of the rest of Ireland.

Another Gold Discovery

An important discovery of gold is reported near Lake Opatitibin on the Quebec side of the Ontario-Quebec boundary line north of Lac Opinica, to which point the railroad is now being extended by the Canadian Pacific Railway. The prospect is stated by reliable authorities to be so good that this territory may develop into an important gold camp in the not distant future.

Calls Members 'Dirty Dogs'

London, Nov. 28 – "You are a dirty lot of dogs," interpolated Jack Jones, labor member for Silvertown, West Ham, in the house of commons this afternoon while Major Lyon, minister of pensions, was replying to questions regarding the treatment of mentally afflicted ex-service men.

There were cries of "Turn him out," and the speaker rebuked him, whereupon Jones shouted across ministerial benches.

"I don't care a damn."

The speaker, amid ministerial cries of "Turn him out" ordered Jones to withdraw from the house. Jones withdrew, shouting "A lot of dirty dogs shirking on our backs – others suffering the living."

Lindbrook Wants Public Hall

The now "as usual" Friday evening dance was held "as usual" in the school house. A very large crowd assembled making it necessary for the floor manager Mr. Thos Blake to insist that all danced in turns. It is a pity that there is not a public hall here large enough to accommodate such crowds as were here dancing, posting, that these Lindbrook dances are very popular affairs. What about it? some of you might evolve some scheme whereby this might be managed other districts that we have known, not half so prosperous as we feel are this, have one. Why not Lindbrook? The music was supplied by the Smith-Foss Orchestra supported by Mr. John Preston. The dance of the dance was Mr. T. Swasky. After supper the dance continued until 3 or 4 am. when all dispersed, some to take a 20 minute auto drive home, so you see that we made it get long."

Mr A. Scott has just purchased 50 more breeding ewes from J. Hunnan. Mr. Scott is a firm believer in the wool industry and understands that as long roughly, having been in the game all his life

EMPIRE CONCERT

Grand Empire Concert Given by the Women's Institute at

VARIETY THEATRE, TOFIELD

On FRIDAY, DECEMBER FIRST AT EIGHT P.M

Prizes will be given for the best section Come prepared to oust your vote

Admission Adults, Children 25c.

LOCAL AND GENERAL

The annual meeting of the Tofield Agricultural Society will be held at the Town Hall on Wednesday next December 6th at 2 o'clock sharp. Everyone interested in the work of the society are cordially invited to attend.

As advertised, Gumps orchestra were on hand and played for an enjoyable dance at the Variety on Monday. This is the first occasion that a colored orchestra has played at Tofield and those attending were loud in their praises of the music, the singing and dancing of the soloist was much appreciated. It is rumored that a return engagement is being planned.

The backwoods hunters and timber-cruisers have returned, some with [illegible] and moderately successful, having been in the game all his life

Cattle Market to Come Back

Duncan Brown Alberta representative of the Dominion Livestock branch reports that applications have been received by him for the exchanging of over one hundred bulls which were loaned to stock associations in the province by the Dominion livestock branch under the sire loaning scheme. All of these bulls have been kept by stock associations for three years or more. The stock associations consist of groups of farmers who are interested in improving their herds by the use of purebred sires. As have herds too small to warrant them purchasing purebred bulls of their own.

Owing to the low prices of cattle at the present time, a few of the associations have become discouraged and are disbanding. The opinion seems to prevail in some sections, Mr Brown states, that the cattle market will never come back, and it is useless to continue breeding stock. Mr Brown sees no cause for alarm and believes that the cattle business will soon resume its old position and before long. Present indications are pointing to Mr Brown's view. Largely to the price that existed in the early part of the summer when farmers started to dump their cattle as a result of a poor feed outlook.

During the past year one hundred and fifty bulls were placed under the sire loaning scheme.

IMMIGRATION ACTIVE

Quebec, Nov. 28 – "I am carrying back an appropriation for immigration," said J. Obed Smith announced just before sailing on the Empress of Britain, on which he was a passenger. The superintendent of immigration for Canada in London was eminently satisfied with the outcome of the Ottawa conference and he stated that a great impetus in immigration might be expected in the future.

"In order to coordinate the efforts of those concerned in the success of Canadian propaganda in the British Isles," he said, it is my intention to call a meeting in London of the representatives of all the various steamship lines, the Canadian railroads and the agents general of the various provinces to present the overlapping of our work.

"I now will launch a campaign besides distributing publicity to those and newspapers every week. Between now and the end of March there will be an intensive campaign in progress. We expect the spring to bring tangible results.

"We intend to extend our scope to Scandinavia, Holland, Belgium France and Switzerland.

Turkey Killing Bees

Turkey killing bees will be held in the southern Alberta region this year, under the auspices of the Dominion and Provincial Poultry Departments, the turkeys to be marketed through the co-operative marketing service, as was done last year, when a premium was obtained for the farmers participating, over the regular market prices. The killing bees are now in progress having opened at Bassano on November 22. Other are being held at Cassills, November 27 and 28. Duchess, November 29 and December 5; Bowdage, December 4 to 6.

First Women Jurors

Under the new legislation of Alberta making it possible for women to sit on juries in Alberta the first women jurors to act in Canada, were called last week on a case in Red Deer, in which a woman was involved.

Civil Servants Meet

Civil Servants of Alberta met in annual convention at Edmonton the latter part of the week, delegates being present from all branches in the province. President Daniel Dyer presided, and in his address stated that a new civil service act was being drafted for discussion by the association. He also expressed the general satisfaction felt by the association with the new superannuation scheme put into operation this year by the government.

Crop Averages

Crop averages over the province as based on returns made by 3,178 threshers from all districts, being the spring wheat average to be 20 bushels per acre, the winter wheat average 1000 bushels, oats 30 bushels, barley 35 bushels, rye 20 bushels, and flax 1 00 bushels. In the south west a total of 3,700 threshers have registered, so that a large number of returns are still to come in. Threshers are urged to send in their returns to the Department of Agriculture at Edmonton as quickly as possible after completion of threshing.

THE DAIRY QUESTION

AS ANNOUNCED in the Mercury it has been suggested that the town council pass a by-law to license dairy men. The size of the town makes it plain that only one dairy man would be effected as it is unlikely that more than one would be willing to pay the license fee in order to sell less than the town's requirements.

The suggestion that a by-law be passed is being sponsored by Councillor Swift and contains some good arguments. At present the dairy business is not in a flourishing condition. Due to the size of the town and the fact that quite a number of residents own cows and do a small retail milk business themselves there is not a great deal left for the bona-fide dairy man. The passing of a dairy by-law would mean the preventing of town residents selling milk unless they paid a fairly heavy license As this is not probable the milk supply of the town would not usually have to come from one source. The alternative to this is stated to be the cessation of the dairy business as a business This means that town residents would be entirely dependent upon the "neighbors cow." This does not sound very alluring either. The one dairy system would perhaps be satisfactory if there was adequate supervision and the milk was all for bottle consumption. However, as everyone knows milk is primarily a children's food. In the matter of infant feeding it is often necessary that the milk should come from one cow and in some cases one particular cow. With one general dairy this is not possible

Regarding the passing of by-law, information was sought from Camrose and an official of that town states that while they have a by law, they do not deem it wise to enforce it.

To the Mercury the question resolves itself into one of responsibility. The responsibility of the council to legislate for the benefit of the town people Before a by-law of this kind is passed the body passing the by-law should have provided for proper inspection work. So far we have not seen a town councillor table. If the town controlled proper inspection of herds, and the dairy was of a modern type, after making provision for infants, this paper would favor the passing of such a by-law.

However, as the council do not control inspectors, or any kind of condition enforcing authority, our opinion is that they should not impose conditions on the people when they are not in a position to enforce conditions on the part of the dairy man.

LIGHT WINES AND BEER

Those interested in the liquor problem are of three schools of thought There are those that by environment or training have become ardent prohibitionists. Those that by previous experience either desire to drink intoxicating beverages or sell them and thirdly those that have not the desire to drink or sell and are not ardent prohibitionists. At the present time there is being circulated in the province a petition asking the government to have a plebescite taken re the sale of strong beer. It should be necessary to state that the campaign is being planned by those interested in the sale of such beer. If an election is held and the sale of beer is permitted, it will to all intents and purposes be a return of the bar with the absence of spirituous liquors.

The Mercury believes that the less alcoholic beverages there are around, the better for all. However, whether prohibition as Alberta has known it is working the public is a matter for argument. It cannot be denied that when the bar was abolished, another evil arose in its place, viz. the illicit still and bootlegging with all the attendant disregard for law to say nothing of stool pigeons, etc. No matter which way one looks at it, the liquor problem is a complex one and couples not lovers are generally not decided at the first throw. It is about six years since prohibition went into effect and this would seem sufficient time for Albertans to judge for themselves as to whether it has been the panacea it was promised to be. If a plebescite is held it might be better if the government liquor store question also included Signing the petition does not by any means rank with marking a ballot, yet it is better to give it due thought before signing.

Home Visitors Fares To Central States

Special concessions is given to the former citizens of the United States this winter by the Canadian National Railways in the form of reduced fares to the different cities of the Central Western States These are called the "Homevisitors Fares". The name is suggestive of the fact that they permit American settlers in Canada to return to their old homes.

In addition to those who for sentimental reasons, there are many who still have business interests in the United States and who take advantage of these special winter fares. In making these low fares the Canadian National Railways have not lost sight of the fact that benefits accruing therefrom are mutual. The successful settler is recognized to be the best possible colonization agent and those who return home to the United States to sell of conditions in this country never fail to interest many of their friends. As a result of this year's Homevisitors Fares, thousands of new settlers are expected to take up their abode in Canada next summer and the good work is bound to continue

These Homevisitors' tickets will be on sale this year from December 1st, to January 5th, 1923 limiting a final return limit of 3 months from date of sale Tickets supply from all Canadian National stations in Alberta, Saskatchewan and points Hudson Bay Jct. to The Pas to following cities in Central States: Minneapolis, St. Paul, Duluth, Minneapolis, Chicago, Des Moines Council Bluffs, Omaha, Fort Dodge, Sioux City, Watertown, Rhodes Rapids, St. Louis, Kansas City and Marshalltown

OUR SMALL ADS REACH HOME

Reduced Fares to the Pacific Coast

The Canadian National Railways will sell tickets at greatly reduced fares from points Winnipeg and Emerson west in Manitoba, Saskatchewan and Alberta to Vancouver, Victoria and New Westminster, on December 2nd, 7th, 12th, 14th, 19th, 21st, 26th, 1922, January 2nd, 4th, 9th, 11th, 16th, 18th, 23rd, 25th and February 6th, and 8th, 1923.

Travelling on the Canadian National to the Pacific Coast is a definite pleasure. There is no better way of taking a holiday than by a trip over this road, the enjoyment starts when you do, and you do not have to wait for pleasurable experiences until you reach your destination The Canadian National Railways owns and operates its own sleeping cars and dining cars These cars, on through trains are models of luxury and convenience built by experts and embodying improvements resulting from years of experience in studying the requirements of first class travel An additional convenience is provided by tourist car service Canadian National tourist cars are all new and embody the latest and most modern improvements. Charges are only half those for accommodation in standard sleeping cars For those bringing lunch and desiring to do their own cooking en route, a kitchen is provided in a compartment shut off from the rest of the car A fire is kept constantly burning in the cook stove and a sink with taps provides hot and cold running water

The dining cars with their handsome finish, quiet decorative details and adequate arrangement, furnish a meal time environment both useful and pleasing and at a reasonable cost

The Canadian National Railways offers patrons the option of travelling all rail to Vancouver or all to Prince Rupert, thence Grand Trunk Pacific steamships to either Vancouver or Victoria or the trip may be made going one way and returning the other

A greater influx of tourists and settlements is expected as these North Pacific Coast resorts, as they often have taken considerable trouble to make be country well acquainted with the beauties of our coast ports as winter resorts

DOMINION OF CANADA VICTORY LOAN BONDS

Colds and Bronchitis

Mr. Chris Drewser, Bayfield, Ont., writes: "We have used Dr. Chase's Linseed and Turpentine as our household for some time, and have always received good results. I have used it for my children as well as for myself for colds and bronchitis, and we find it gives immediate relief. Three doses of medicine have relieved me of a severe attack of bronchitis. I cannot speak too highly of Dr. Chase's Linseed and Turpentine, and would not be without it in the house. It is a wonderful medicine and the children love it as well as we do."

Asthma

Mr. Thomas Bond, Silverdale, North Shore, Quebec, writes: "I suffered for years with asthma, sometimes being taken to bed. I started using Dr. Chase's Syrup of Linseed and Turpentine, I am now quite well and thank the medicine for curing me."

City Fathers Hold Meeting

Regular meeting of the Municipal Council of the Town of Tofield held in the Town Hall on Monday, December 4th 1922 at 8 p.m.

Members present: Mayor McLeod, Councillors A. Bone, Wm. Dunn and Chapman.

The minutes of the previous meeting were read and adopted.

Communications from the Department of the Interior, Ottawa, was read advising Council that an order in Council had been passed returning to the Town of Tofield the first option on Lots 1 to 5 in Block 19 in range 26 and 34, and Lots 1 to 10 in range 26 and 34, City of the same to Council was advised, and no transfer was required on the two localities of the three gas wells which had been drilled by the Town.

The Secretary was instructed to write the Department of the Interior, asking the opportunity of Council of the Town of the Department in having the order in Council passed, and giving the location of the gas wells as requested.

A number of accounts were passed and ordered paid.

The By Laws Committee with it had been requested at the regular meeting to bring in a report as to the advisability of licensing milk vendors, recommended that no action be taken in this matter at the present time.

Secretary informed Council of the annual school fair to be held under the Agricultural Society Act from which the Town could receive a grant to the whole of Block 19 Plan 6 A 1.

Moved by Councillor Smith, seconded by Councillor Chapman that the Town apply for moneys to educating almost all the above property owners pupils in four schools in the Town of Tofield.

The matter of the cancellation of subdivision plans were discussed and the Secretary reported that Hillcrest, Bindloss and part of Euclid Park subdivision could be cancelled with very little trouble.

Moved by Councillor Bone, seconded by councillor Smith, that the Secretary write Commissioner Martin with a view to having an investigation proceedings instituted against those subdivisions. Carried.

Moved by Councillor Bone, seconded by councillor Dunn that the resolution of Council of February 20th be rescinded in respect to lots 1, 20, 30 in Block 21 and lot 25 in Block 34 Plan 7507 X, and that transfer be given to the G. T. P. Branch Lines Company of that portion of these lots abutting on Railroad Plan No. 2761 A W. with no further charge—Carried.

Moved by Councillor Bone, seconded by councillor Dunn that the resolution of Council of February 20th be rescinded in respect to lots 1, 20, 30 in Block 21 and lot 25 in Block 34 Plan 7507 X, and that transfer be given to the G. T. P. Branch Lines Company of that portion of these lots abutting on Railroad Plan No. 2761 A W. with no further charge—Carried.

Publicity Paragraphs

SCHOOL POPULATION

Alberta stands rather well in respect to school population, when compared with some other countries. In 1920 the school population in schools of the province qualified one fourth of the population. In the United States in the same year, the school population represented only one-fifth of the population.

ATTENDANCE AT AGRICULTURAL SCHOOLS

Attendance at the four agricultural schools for the 1922-23 term under the Department of Agriculture is as follows: Olds 53 at Raymond and 57 at Vermilion. Last year in same schools there was an attendance of 331, not including the depar-

THE NATURAL RESOURCES

The Alberta Cabinet has endorsed the attitude of Premier Brownfield and Attorney-General Reamble in refusing the offer made by the Dominion Government at the recent conference at Ottawa on the natural resources. This offer was that the Secretary write Commissioner Martin with a view to having an investigation proceedings instituted against those subdivisions. Carried.

Moved by Councillor Bone, seconded by councillor Dunn that the resolution of Council of February 20th be rescinded in respect to lots 1, 20, 30 in Block 21 and lot 25 in Block 34 Plan 7507 X, and that transfer be given to the G. T. P. Branch Lines Company of that portion of these lots abutting on Railroad Plan No. 2761 A W. with no further charge—Carried.

Resolution Service for Eastern Canada Excursions

With the operation of the "Continental Limited" to and from the East, with suit bie branch line connections, and also with the operation of the "National" from Winnipeg to Toronto, connecting with all Ontario points, The Canadian National Railways offers an unequalled service for those who contemplate taking advantage of Eastern Canada excursions this winter. The Sleeping and Dining Cars are second to none and the meals served in the Dining Cars are now at a reasonable price and within reach of all.

The excursions to the East commence December 1st, when the Canadian National Railways will have on sale daily and up to January 15th, first class round trip tickets at single fare and one third, from all stations in Winnipeg and Eastern west in Manitoba, Saskatchewan and Alberta. Tickets will be good for three months from date of issue, with certain stopover and extension privileges.

Promises will make you friends. But time performance

FIFTEEN DAYS

FROM THE date of this paper until Christmas Eve there are fifteen shopping days. During these fifteen days it is certain that a good deal of shopping will be done. Apart from the fact that there are the Christmas presents to buy, the weather has, during the past few days, turned much colder, causing those people that require new winter wear to consider making their purchases quickly. It is said that "procrastination is the thief of time," and it certainly is the custom of a good many people to procrastinate. If all the buying to be done at Tofield during the next fifteen days could be divided over each day, both customer and merchant would benefit. This perhaps, is too much to hope for, but it is worth while to urge shoppers to get their Christmas shopping done early. Christmas buying can be done in a leisurely manner and without haste. There is no desperate realization that something MUST be purchased that very day, which kind of buying often leads up purchases with articles, the purchasing of which was never contemplated.

The fashion of Christmas presents is veering more and more towards the useful. A few years ago in fact since, Christmas was a season of giving or receiving a medley of things that were of no use and quite often no ornament. To day, when one must consider each expenditure before it is made, articles of apparel or of practical use are more in vogue.

While planning Christmas purchases do not forget that your local stores can often serve you as well as any place. On some articles there may be a few cents difference, but at Tofield at least, competition is keen enough to eliminate undue profit.

BROADCASTING OUT

"WE ARE broadcasting out, and we are not inclined to call it a Farmer class movement, but hope that the Progressive party will embrace all people of Progressive principles in the Dominion of Canada."

The above statement by the new Dominion leader of the Progressive party will do a lot towards closing any breech existing between the formerly called Farmer Party and a large number of people of all walks of life, farmers included. Political thought, like religion, runs deep. In spite of the fact, that almost to a man, the entire west desired to see the farmer get everything he wants within reason, there was plenty of doubt about having a government by the farmers and ,presumably for the farmers.

The farmer is the most important producer of essentials, and by worth of service deserves more than he is getting. The more prosperous and satisfied the farmer becomes, the more prosperous and satisfied the urban dweller becomes. The fortunes of one are inseiably bound up with the fortunes of the other. Even so, a broad participation for farmers was not in the best interests of the country.

A Progressive party, built up perhaps of more modern ideas than the older parties possess, will most likely enjoy a larger measure of permanent support, than a straight farmer party. If its leaders remain true and its policy is sound, it may in the course of time eclipse the older parties in popularity.

IT WAS a source of satisfaction to us to hear a gentleman say the other day, that he believed there was considerably less snapy going out of the town to various mail order houses than formerly. It also further pleased us to have him heartily agree with the suggestion that his own and other merchants advertising was partly responsible for this.

Publicity Paragraphs

CROP RETURNS

Returns have now been received from a total of 1346 threshers in the province, and these returns place the averages of the various crop yields on the basis of the entire province, as follows: Spring wheat 11.80 bushels per acre, winter wheat 11.20 bushels, oats 29.50, barley 14.60, rye 8.25, flax 1.50. As there are 3700 threshers registered altogether, it will be seen that there are a number of returns still to come in.

CHAMPION WHEAT RAISER

Honors have again come to Nick Taltenger, a champion seed grain grower of Clarendon, Alberta. Word has been received at Clarendon that Mr. Taltenger has won first with his wheat at the Royal Show at Toronto.

VIGOROUS LIQUOR PROSECUTION

The vigorous prosecution of offenders under the Liquor Act continues. Bidson of the A.P. at Clarendon, secured fines amounting to $1300, in the past week or two in the Pinebur Creek, Barons and Stavely districts. Several hotel keepers and a druggist figuring heavily in the fines imposed. Officials of the Alberta Provincial Police also made a large seizure of 140 cases of liquor at Macleod. Near Olds recently, officials of the Alberta Provincial Police, cooperating with the Inland Revenue Department, who have charge of prosecution of stills, prosecuted three farmers with the result that heavy fines were imposed.

ADVERTISE ALBERTA COAL

The need of standardization for Alberta coal for outside markets, and the need of education of people in other provinces of the Dominion on the quality and value of Alberta Coal were emphasized at a conference held in Edmonton Board of Trade rooms the past week at which Premier Greenfield, President Fesse of the Calgary Board of Trade, H. Stutchbury, trade commissioner, A. W. Thorn, freight supervisor, of the Provincial government and members of the Edmonton Board were present.

ALBERTA CATTLE WINNERS

Alberta Cattle exhibited at the Royal Show at Toronto during the past week received a high standing in the prize list, taking even much better than Manitoba and Saskatchewan. The steer exhibited from the Provincial Government farm at Olds stood second in the shorthorn class, and the university string of animals did very well. The following is a list of the winners: shorthorns, senior yearling steers, J. Walters, Oliver, third; Bertram Hughes, Airdrie, fourth; Hereford, senior yearling, Frank Collicut, Crossfield, second; Aberdeens, Junior yearling, J. Clark, Irma, first and champion. The steer exhibited by the Olds School of Agriculture was second in this class. Chas. Tate of Carstairs, was fourth. Herefords, senior calves, University of Alberta, second; F. D. Blair, Red Deer, third. Angus calves, J. H. Richardson, Bowden, second.

Home Visitors Fares To Central States

Special recognition is given to the former citizens of the United States this winter by the Canadian National Railways in the form of reduced fares to the different cities of the Central Western States. These are called the "Homevisitors Fares". The name is suggestive of the fact that they permit American settlers in Canada to return to their old homes.

In addition to those who for sentimental reasons, there are many who still have business interests in the United States and who take advantage of these special winter fares. In most of these low fares the Canadian National Railways has not lost sight of the fact that in Re securing therefrom are traffic. The successful seller is recognized to be the best possible colonization agent and the one who return home to the Central States to tell of conditions in this country never fail to interest many of their friends. As a result of this year's Homevisitors' Fares, thousands of new settlers are expected to take up their abode in Canada next summer and the good work is bound to continue.

These Homebuilders tickets will be on sale this year from December 1st to January 5th, 1923, having a final return limit of 3 months from date of sale. Tickets apply from all Canadian National stations in Alberta, Saskatchewan and points Redson Day Jct. to The Pas to following cities in Central States: Minneapolis, St. Paul, Duluth, Milwaukee, Chicago, Des Moines, Council Bluffs, Omaha, Fort Dodge, Sioux City, Waterloo, Cedar Rapids, St. Louis, Kansas City and Marshalltown.

Reduced Fares to the Pacific Coast

The Canadian National Railways will sell tickets at greatly reduced fares from points Winnipeg and Emerson west in Manitoba, Saskatchewan and Alberta to Vancouver, Victoria, and New Westminster, on December 2nd, 7th, 12th, 14th, 19th, 21st, 26th, 1922. January 2nd, 4th, 9th, 11th, 16th, 18th, 23rd, 25th, and February 6th, and 8th, 1923.

Travelling on the Canadian National to the Pacific Coast is a delightful pleasure. There is no better way of taking a holiday than by a trip over this road, the equipment starts when you do, and you do not have to wait for pleasurable experiences until you reach your destination. The Canadian National Railways owns and operates its own sleeping cars and dining cars. These cars, on through trains, are models of luxury and convenience built by experts and embodying improvements resulting from years of experience in studying the requirements of first class travel. An additional convenience is provided by tourist car service. Canadian National tourist cars are all new and embody the latest and most modern improvements. Charges are only half those for accommodation in standard sleeping cars. For those bringing lunch and desiring to do their own cooking en route, a kitchen is provided in a compartment shut off from the rest of the car. A fire is kept constantly burning in the cook stove and a sink with tap provides hot and cold running water.

The dining cars, with their handsome finish, quiet decorative details and adequate arrangement, furnish a most time environment both useful and pleasing and at a reasonable cost.

The Canadian National Railways offers patrons the option of travelling all rail to Vancouver or rail to Prince Rupert, thence Grand Trunk Pacific steamships to either Vancouver or Victoria or the trip may be made going one way and returning the other.

A greater influx of tourists and excursionists is expected at these North Pacific Coast resorts, as these cities have taken considerable trouble to make he country side acquainted with the beauties of our coast points as winter resorts.

No Treatment for Coughs and Colds Was Ever So Satisfactory

All these years Dr. Chase's Syrup of Linseed and Turpentine has held its place in the family medicine chest because there has been nothing to equal it.

It holds the confidence of all as the most certain relief from Croup, Bronchitis, Whooping Cough and Asthma.

Saved from Pneumonia

Mr. W. O. Kohler, R.R. No. 1, Napan, Que., writes—"I think Dr. Chase's Syrup of Linseed and Turpentine is just wonderful for coughs and colds. Two bottles entirely freed my cough after I had tried every other cough medicine I knew of. I feel sure it saved me from having pneumonia, and I cannot recommend it too highly."

Stubborn Cough

Mrs. Jeremiah M. Burrow, Bayview, Ont., writes—"I had a very stubborn cough for over four years and I tried wonderful for coughs and colds. Two doctors and almost everything without results. One day an old friend asked me to try Dr. Chase's Syrup of Linseed and Turpentine. I used five bottles, and it worked like magic. I have never been bothered since, and that is some years ago."

DR. CHASE'S Syrup of LINSEED and TURPENTINE

35c. a bottle. Family size, three times as much, 75c. All dealers or Edmanson, Bates & Co., Ltd., Toronto.

LINDBROOK

Messrs R. Gleen and E. Lindberg made a business trip to the city this week.

Mrs Geo. Weatherill and Mrs. Norman Ellis gave a very pleasant whist drive at the Woosecroft place. The winners were: Ladies first prize Mrs. A. Scott, Ladies booby Mrs. Stenberg, Gentlemen's first prize Mr. Andrew Pruden, Gentlemen's booby Mr Lindgren After supper several of the guests rendered songs both classical and comical which were very much appreciated, so much so that it was a hard task, as before this success ful affair terminated

On Thursday afternoon the Wesleyan Sunday school gave their annual "break up" concert. A large number of grown ups assembled to enjoy the kiddies performance, which reflects great credit on their teacher, Mrs. Verge of Tofield. After the kiddies had their part, the grown ups took a turn to amuse them After the usual feed that always goes with these "do's" and which was both plentiful and good, Mrs. Verge presented each child with a present and said good bye to them until next session is opened in the spring.

Messrs Pointer and Harris have received a carload of well cribbing from Mr. North of Tofield and it is of exceptionally good stock too, so we guess that our long Messrs Pointer and Harris will enjoy the fruits of "watered stock."

Mr. Pointer left here on Dec 2nd on a trip to the Old Country to visit relatives and perhaps! anyway why did he take so much paine polishing his shoes?

We are glad to see Lindbrook extending their efforts and congratulate the Misses Rogers and Hayden on their part in the To field Concert

Tofield Farmers Supply Company

GOSSARD Corsets are designed for every type of figure. Because there are many Gossard models especially designed to fit *your* very own *figure*, you will never have that tied-in, pinched-together look, that "corseted look" that is just as fatally ageing as its sagging uncorseted reverse.

Understanding your type is one of the most important aids in buying you will ever find. Remember that whatever your figure may be there is a Gossard Corsets with just the support you need at your age and weight—

Gossard trade marked Corsets as low in price as $2.50

Gossard Corsets

Exclusive Agency

The new numbers in Corsets, Brassieres and children's waists in this popular make are being shown exclusively at the Reliance Store. Our Xmas shipment has just been put in stock and includes many new corset models, among others the **$2.50** line, and a maternity model at the lowest price ever made by the Gossard people. The brassiers, include many fancy lines in holly boxes for the holiday trade.

"Niagara Maid" Silk Hose

This well known brand of pure thread silk hose, with the elastic top, are superior to any line we have previously shown, and the price is no higher than other makes. We will be pleased to show these and demonstrate their superiority. They can be supplied in black, brown, white or pongee, and will make ideal Xmas gifts.

Ladies Patent Slippers

Don't fail to see the new arrivals which include one or two strap models, with either button or buckle fasteners. Either low military or the new Spanish heel can be supplied, and the prices are surprisingly moderate.

Men's Clothing

For the holiday trade we are showing a complete stock of the most up-to-date models in suits and overcoats. We are featuring the **Harrogate** blue serge suits, color guaranteed, at **$33.60**. Other lines in worsted serge or tweed from **$17.00** to **$33.00**. See the new Harrington model Overcoat with polo cloth lining at **$33.60**. Other models range from **$17.00** to **$30.00**

Building Completely Destroyed

EARLY MORNING FIRE

Very early Sunday morning, between twelve and one o'clock the building occupied by Mr Hicks as a butcher shop was completely destroyed by fire. The exact cause of the blaze is unknown but it is presumed that the fire started from the stove in the rear of the shop. Fine chemicals and water tank were brought to the scene but could only be used to prevent the ignition of the Local Cafe. The loss exclusive of the building was quoted $1200 with $1000 insurance.

Mr Hicks has asked us to express his thanks to the fire boys gods and others for the excellent work they have done.

BUSINESS MEN'S LUNCH

On Wednesday at one o'clock some thirty Tofield business men sat down to lunch at the Royal Standard Hotel A Hughes was chairman and after some of the usual and other lunch had been served called for Mr Pincott for a few remarks. Mr Pincott spoke on "Inefficiencies of Tofield" and in a forceful manner drove home some forceful truths as well as imparting a lot of information. His address counted around the opportunities we as a town were passing due to lack of enterprise and he urged greater activity among community lines. Mr Hughes then gave a short address in which he advocated the organized handling of electric, motor suggestions and closed a open call for prompt and united support of all promises

Takes Great Interest in Sport

W. A. B. Douglas Who Has Been Elected President of the Irish Rugby Football Union

W. A. B. Douglas

A certain financial institution yesterday. Night has a curious article on the sporting record of W. A. B. Douglas, their governing clerk in the Shankill Mills, against the late Canadian Pacific Railway Co. Douglas has many records in Canada who will be glad to hear of his appointment as President of the Northern Rugby Union Football Association. Douglas has been a rugby enthusiast for many years, and has always been a keen supporter of that game in a long time.

Lord Dunsany's latest play is a comedy and he is a keen fisherman, hockey and golf. So that is about all he has time for.

CANADIAN PACIFIC EXCURSIONS TO CENTRAL STATES

Tombs Discovered in Syria

Have Been Sealed For Over Four Thousand Years

Two tombs about 4,000 years old have been discovered at Beit Beria by the excavations being carried on under the direction of Lutterel Count and the French High Commissioner according to the Paris correspondent to the London Times.

The age is established by the discovery in one of them of a lamp, a curved sword with a gold handle, a coat of gold on which is engraved the Egyptian cartouche bearing a gold scarab and some Assyrian cylinders.

Each tomb contained a sarcophagus, in which reposed the mummy of a warrior, and bearing the name of Pharaoh Akhenaten of the twelfth dynasty. This is stated to be the oldest inscription discovered in Syria, and proves that Egyptian influence was exercised in Syria three and a half centuries before the Exodus. Some time ago Egypt were alleged to have been the first recorded conquest of Syria by Egypt was made by Thutmose III. Further excavations are being carried out by the aforesaid explorers.

Suspense From the Book

Instead of the usual hackneyed book, Tommy's mother gave him a book of allegories and the result was entirely unlike any day his story writing in twice the same kind. He had evidently ordered and thrown back what those words mean. "Dog" "Dog" "Dog"

Publicity Paragraphs

POULTRY MARKETING SERVICE

[illegible] schools of eggs, or over 27,000 dozen, have been culled by the Dominion Branch of the Poultry Department Poultry Marketing Service up to November 15, according to an announcement by Hon. Geo. Hoadley. In the same period 82,000 pounds of live weight poultry have been received and marketed. Culled hens have been received from Prince Rupert, Bowron Montreal, Vermillion, Islay and other places.

IRRIGATION

Irrigation, which have not [illegible] during the [illegible] the Medical Faculty of the University, and was the result of treatment by Dr. Collip and Dr. [illegible] Dr. Collip, last year, took special work in the connection at Toronto University with Drs. Banting, Best and Macleod, the discoverers of insulin, and continued his work in his home at the Alberta Univ[illegible]ity, with the result that he was able to effect the cure recorded.

A similar cure was effected last week at New York with the serum manufactured at Toronto University. The Toronto and Alberta Universities are the only places in the world, so far as is known where this serum is manufactured. The two cures effected have attracted the attention of leading medical scientists everywhere, and have brought up from an institution piled with debt, to the stage where it is on a paying basis

QUICK JUSTICE

In a little more than two months after the brutal killing of Constable Steve Lawson, of the Alberta Provincial Police, Coleman, on Sept. 21, a jury in the Supreme Court at Calgary convicted Emil Piccarillo and Mrs. Lassandra of the murder, and both were sentenced to the death penalty. The Attorney-General's Department spared no effort in the prosecution of the case, even arranging a special session of the court.

EXTRAORDINARY CURE

A unique triumph of medical skill, one which creates a record in the matter of a cure, was registered at the Medical College of the University of Alberta the past week, when an eight-year old girl from Vulcan, Alta., was brought back to life from a state of diabetic coma, from which, so far as is known there had not previously been a recovery. This remarkable cure was effected [illegible] the use of insulin extracted by Dr. Collip

"Nearly Lost Baby With Croup"

Has Depended on Dr. Chase's Medicines for 25 Years

This letter from Mrs. Thompson gives you some idea of why so many thousands of people depend on Dr. Chase in the hour of sickness.

Dr. Chase's Syrup of Linseed and Turpentine has a permanent place in the great majority of Canadian homes because it is the most certain relief from Croup, Bronchitis, Whooping Cough and Asthma.

Mrs. Alex. Thompson, Whitby, Ont., writes: "When my first baby was born, I think she would have died from croup before we could reach a doctor, if it had not been for a neighbor who had a bottle of Dr. Chase's Linseed and Turpentine in the house. This relieved her almost immediately. That was 25 years ago, and Dr. Chase's Medicine has been found of ours ever since."

Asthma

Mr. Thomas Bond, Shoreham, North Shore, Que., writes: "I suffered for years with asthma, sometimes being unable to lie in bed, but after a treatment of Dr. Chase's Linseed and Turpentine, I am now quite well and thank the medicine for restoring me."

Dr. Chase's Syrup of Linseed and Turpentine

Lots of Fun at Mecassin Dance

On Friday of last week the Tofield Curlers put on their second annual mecassin dance. The night was cold, never the less, there was a good attendance and a splendid time was spent. The Ryley band furnished the music to the satisfaction of all. A special feature was the hula hula dance led by Jim Hannan, but this was too fast for the Ryley musicians. Sitting on the ice was strictly prohibited, but for those that were determined to rest that way, the ladies had lots of hot coffee to bring about a normal temperature. Financially the curlers did not make a thou and dollars but those present had a million dollars worth of fun. There was a lovely sheet of ice, J. W. Carter being the recipient of compliments galore.

We have some private funds to loan in small amounts. We purchase first class notes and agreements for sale. We have funds for farm loans.

First Hockey Match of Season Won By Locals

The opening hockey game of the season took place at the ice rink on Wednesday evening when Tofield and Holden played a friendly exhibition game.

The game was very fast and the score being 13-3 in favor of the local boys. The Holden lads worked very hard and had a fair share of the territory play but were woefully weak in shooting. Their goal keeper also made lots of practice. The visiting team played fast during the last period and as the game progressed were with more practice should be able to give the locals a harder battle.

Some of our players were playing to mid season form with the exception of McIntosh Scott Lee put in some nice work being a youngster with a very long reach, good skater and a tricky stick handler. Pruden also turned up well, as also did Roy Lee Smith is goal was taking things easy.

The line up was as follows:—Goal, Smith; defence Dr. Bain and Roy Lee; forwards Pruden, McIntosh, Howell, E McIntosh, and Scott Lee.

SPECIAL NOTICE—Following our usual custom there will be no issue of the Mercury for next week. The next issue will be published on Jan. 11th

A certain amount of mix under standing exists in regard to the town elections. Town elections in the past have always been held on the second Monday in December but in accordance with the new Town Act Amendments must now be held on the second Monday in February. Recently a number of towns held their elections but according to the Town Act Amendments, in doing so, were in error.

The various class rooms at the school are having a Christmas entertainment entertainment. The rooms decorated in holiday fashion in addition to the Xmas Tree, present a bright appearance.

The pupils of the Union Consolidated School are having their annual Xmas tree programme this Thursday evening.

One family at least will not have to put wild rabbit on the holiday menu. Mrs. J. W. Sears brought the editor two nicely dressed chickens thanks.

The Anglican Ladies Aid held a very successful bazaar on Saturday last. There was a great variety of articles sold and the day's effort brought $87.00 to the funds of the Ladies Aid.

A Christmas Message

BY REV. WATT, B.D.

Of all the picturesque and beautiful incidents connected with the Christmas story, nothing is more fascinating than the part taken by the Shepherds over nineteen centuries ago. These Syrian Shepherds to whom the Angels sang the first Christmas Anthem have gone into the Art and Poetry of the world as no other group of men since the world began. No wonder the Anthem which they heard that night has become the World's great Christmas Anthem for it was furnished by the Angels from Heaven

It was not necessary for God to tell the good news of Christ's coming to King's and Nobles in the great centres of population, the news was so precious, so desired, that with Christmas joy a world already blighted by sin, that it was only necessary to let the Angels sing it to the shepherds out on the hills and ere long the whole world would join in the anthem.

It came upon the midnight clear,

That glorious song of old,
From angels bending near the earth

To touch their harps of gold:
Peace on earth, goodwill to men,
From heaven's all gracious King.'

The world in solemn stillness lay
To hear the angels sing."

And if we are to have true Christmas joy so dominating our lives through this Christmas season, we must cut in the same spirit which thrilled the Christmas Shepherds.

As they listened to the heavenly music, the charm of it pervaded their souls. If they had stopped their ears and refused to listen to it they would have lost their great opportunity. Fearful and doubting though they were, they gave themselves a fair chance, and listened to the music of the heavenly choir. In this humble and wistfulness, scarcely daring to believe it can be true and yet wishing it were, they said one to another, "Let us now go even unto Bethlehem and see this thing which is come to pass, which the Lord hath made known unto us." They were not disappointed. They found everything as it had been told them. Christ had stood the test and He has stood the test ever since. They went in a timid, doubting and curious manner, but they returned full of sweet joy and abiding happiness.

This Christmas time may find some of us out of harmony with its music and its joy. In a certain way we may enjoy the Music and may have caught something of the cheer of the

No Dearth of Turkeys at Lindbrook

A Merry Christmas to all from Lindbrook, Mr. Editor as well of course.

Beautiful weather we've been enjoying haven't we, folks. This is the real old fashioned Xmas weather of story and picture, so don't grouse by the way where are those prophets of a week or two back with their yarns of a mild winter ahead

Quite a few residents from here have been up to Edmonton this week on business etc, we imagine it, some of it is connected with the approach of Xmas The names of some of these are as follows, Mrs. D. A Cleaver, Mr. F. W. Hooper, Lyndon and James Hooper and several others. Then of course a lot of folks do their shopping in Tofield.

Innumerable turkeys are meeting their fate lately here and several plucking bees have been held "The turkey-raisers association of Lindbrook consist of the following members Messrs W Ellis, W Lancaster D A Cleaver, A. Scott, W. Hooper and probably a few more bodies are included too The association have been busy late by and all seem to have done pretty well with the birds

A well-drilling outfit is busy on the farms of W Harris and Polster.

We regret to hear of the death of Mr. Bailey, Chief Warden of the Reserve north of here. His genial personality will be sorely missed from amongst us, our deepest sympathies extend to the sympathy of all goes out to his family in this their sad loss.

Mrs W. Lancaster has gone with Mrs. Henderson of Sweetwater Ranch, Tofield on a trip to Edmonton.

We intended publishing the Ladies trophy schedule, but as this is built over we will await the next competition which starts early in January.

United Church Of Tofield

Sunday Dec. 24th

11 a. m. S. S. at Tofield

2.30 p.m Christmas Service at Ketchemont.

7.30 p. m. A great Musical Service at Tofield. The Choir will render a Christmas Cantata "The Star of Bethlehem"

All are cordially invited. Come and worship with the Christ in this Service of Praise.

Ross Creek U.F.A. Active

About forty people gathered at the home of Mr. Melvin Hoff on Friday night and spent a very enjoyable time dancing and playing cards.

Mr. A. Thor has returned from the trapping grounds north of the river there is always a busy notatity among the furbearers when "Ed" hits the trapline

The U. F. A. lantern lecture and social on Saturday evening was greatly enjoyed by all who attended. The lecture on Underground Life of Mines and Miners was interesting and the children enjoyed "Little Red Riding Hood. The song slides made a hit, every body joining in "Eli the Head of the World go by," and "Jungle Town," Rev. A. Whillans sang "Maggie" and Mr. M Bailey obliged with some violin selections, after which the ladies served coffee and cake

Immigration And Business

In preceding articles an effort has been made to show that farmers still take farmers and employment to safety all round to some and others benefit from the immigration of an aggressive immigration policy that will induce tens of thousands to new settlers to come to Canada. And it is a logical conclusion that these benefits and adds to the prosperity of the masses of the people caused full to power of advantage in the domestic manufacturing, transportation and general commercial interests of the Dominion.

A substantial increase in population means not only more consumers, more potential buyers of goods and wares, clothing of all kinds homewood materials and mosquito nets machines building materials boots groceries and so on down the whole list of human requirements and even those things which spring to people's enjoyment and entertainment. And every increase in population means increased business for Canada's commercial and manufacturing interests and industries, and through them increased revenues to all Canadian and transportation companies and corporations.

For example, the settlement of one township of land now lying vacant and productive would mean the construction of quite a group of new farm steadings, barns, outbuildings, fences, etc., with a resultant demand for lumber, hardware, cement and other building materials. It would mean an additional school or two. Farm machinery of all kinds would be required. New roads and possibly bridges would have to be constructed calling for more road machinery, steel, cement, and labor. The manufacture of these things would all be profitable in amount of capital the supply must of skilled workers in the form of mechanics, and of unskilled labor in the pro duction of needed raw materials. In the haulage of raw materials in the labor tariffs and final stocking for the farmer, workers and the finished products some farmers to construct the railway would create much needed traffic and, as the township became producing return traffic to the railways as the years passed.

Lastly, and of all outstanding with the transportation problem in Canada there exists this fact: freight rates on grain and cattle from the West to the East are excessive and sometimes one as the great drawbacks to agricultural prosperity. These rates are high because the rate need to move the grain has to have to be hauled back to the West empty, sometimes for the whole distance. Even has to bear the expense of the return haulage there not being sufficient freight offering to justify the operation of a train. Immigration would help to solve this problem for after Canada's crops have been moved the Western rail companies would be assured of a full load of freight each train going West. As a result Eastern Canada pays millions of dollars annually more than it should and while our Western mining industry is known here and our mineral wealth remains largely undeveloped. Multiplication the population of the Western Provinces several times, transportation of mineral and a finished cargo to the East would soon be recorded.

In his first public utterance since arriving in Canada to assume the duties as President of the National Railways Sir Henry Thornton declared that one of the chief causes of the deficit on that system lay in the disproportion between the freight rates on goods and on passengers. It does not require a seer to realize that the present rush conditions of affairs cannot be made paying propositions for a long time to come. But the present condition of affairs cannot be made paying propositions for a long time to come. But the present condition of affairs cannot be made paying propositions for a long time to come. But the present condition

THE TOFIELD MERCURY

THURSDAY, DECEMBER 21, 1922

R. MORTON, PUBLISHER

CHRISTMAS 1922

ONCE AGAIN [illegible] soldier, sailor, rich man, poor man, and [illegible] to honor the birthday of the Prince of Peace. [illegible] Christmas, also a Happy and prosperous New Year. May each person in the universe [illegible] be as lighted as I [illegible] as more than simple rule who they had discovered [illegible] had come. And was the New Year being forth happiness, peace and jubilling.

The School System

The public school system of Alberta has [illegible] efficient system of education. Any fault that it has is [illegible] sometimes begets criticism. Indeed [illegible] the educational laws of the province schools may be [illegible] assessment salespersons and night children between the ages of five and sixteen. Attendance up to the age of 15 is strictly enforced [illegible]. The minimum salary for country [illegible] teachers is fixed by the government [illegible]

Milk customers are requested to have their bottles ready for the milkman by 8 o'clock a.m. Milk will not be left after that hour. Please do not put bottles on the steps. Milk bottles are the property of the dairy and must be returned when empty. Any bottles not returned will be charged for at the rate of 10 cents each.

Christmas Message from Rev. Watt

Continued from page one

Christmas giving and good will but we have been haunted with the feeling that the great ren[illegible] of Christmas are not experienced and felt in our hearts. The trouble is we have not yet found the Christ. We have heard the Angels sing their Anthems and the [illegible] as has come to our hearts but as have not yet made our pilgrimage to Bethlehem and bowed our knee before the Babe. Yet there is a voice within which is ever reminding us that here is the path way leading to true Christmas joy. If we choose that path we shall be [illegible] with [illegible] to consider the [illegible] Babe of Bethlehem. Bowed to us we pray.

Let us [illegible] and enter in. Be born in us to day.

We hear the Christmas Angels. The great glad tidings tell: O come to us, abide with us, Our Lord Emmanuel."

"The Manse".

Tofield, Dec. 19th, 1922

Rural Council Meeting

The eleventh meeting of the Council of Rural Municipality [illegible] No. 187 held at the Municipal Building Tofield on Saturday, Dec. 2nd, at noon when [illegible] the Hour in the chair.

Present, Councillors Brown, Roy, Abernethy, Williams and Holmberg.

The minutes of the previous meeting were read. Moved by Councillor Abernethy that the minutes be adopted as read.

Carried

A communication was read from the District Supt. of the Soldiers Settlement Board re proposed road diversion through N.E. 36-52-19-w 4th. that the matter is again being taken up with field inspector Price.

Bonar Law Presents The Economic Question Before British House

London, Premier Bonar Law, in an important statement in the House of Commons declared frankly for the policy of the United States government in refusal to consider any connection between the question of the allied debts to us and reparations. He declared that the British government was not prepared to consider such a proposal and that it was not to be discussed at the present time.

The remainder of Mr. Bonar Law's speech was closely followed by the House and the United States generally. There was no one present who [illegible] that country is already on the road of collapse, or that I do not recall for help and cooperation in settling the difficult question of reparations and inter Allied debts.

Another important phase of the speech was a portion of Mr. Bonar Law's statement of Britain's economic and industrial future. Instead of [illegible] unemployment in trade our material [illegible]

The Prime Minister showed the utmost optimism in his belief that no misunderstanding of British foreign policy in France and the United States, and said that it was only street Britain's different position he was making [illegible] Ruhr. He burdened with very heavy taxation, which was chiefly responsible for trial enterprise, resulting in terrible unemployment—a problem that made [illegible] impossible. Britain's national debt, $43.00 G.O. Hedgren, $7.50; Wm. H. Dodson, 80.00; Wm. Weaver, $40.50; John Kelly, $12.00; Alberta Government Telephones, $3.5; Cataph L. $124.29 and $10.00, Arch Johnson, $2.00; Wm Thomson, $11.00; Wm. Abernethy, $27.00; Frank D. Hay, $124.60 T. E. Dixon $167.00, Adolph A. $9.00 H. E. Williams, $407.30

PARLIAMENT MAY NOT OPEN UNTIL FEBRUARY

PREMIER KING STATES NO ANNOUNCEMENT WILL BE MADE UNTIL EARLY IN NEW YEAR

Ottawa—The opening of Parliament which it was expected, would take place during the latter part of January, will in all probability, be delayed until early in February. Premier King stated that there would be no announcement regarding the opening date until early in the New Year, after the return of Hon. W. S. Fielding, Minister of Finance, from England.

He pointed out that owing to various causes, Mr. Fielding had been delayed, and even now the government had not all the exact data that would be [illegible] for the [illegible] speech. It was [illegible] that Mr. Fielding will probably sail for home toward the end of the month. As it is necessary to [illegible] 30 days notice of the date for the opening of Parliament, and as there will be an announcement in regard to the matter until early in January, this date may not be fixed before [illegible] date will be in the first half of February.

CHRISTMAS CANTATA

On Sunday, December 24th, the choir of the Tofield United Church rendered the cantata, "The Star of Bethlehem." The presentation opened with the chorus, "Oh Come All Ye Faithful" followed by a tenor solo nicely rendered by J Murray. The quartette, "Holy Night" was then rendered by the Misses Napier and Murray and Messrs. J. Murray and Bain, which was followed by a soprano solo, "Sleep My Saviour Sleep" by Miss Napier. A quartette "Star of the East" by the Misses Napier and Murray and Messrs Murray and Bain was given. The chorus, "From Mountains Afar" was then rendered by the choir, followed by a contralto solo, "A Mother's Carol" by Mrs. Pinsent, and two choruses by the choir ended the presentation. Great praise is due to the choir, choir master and organist. Product ions of this kind are often un ly associated with large city churches.

Christmas at the Local School

The Christmas celebrations held at the Tofield schools 21st 22nd, December were unlouted ed by the best of several years. It is to be regretted that they were not numbered and presented in the Theatre

The decorations were all very good. Paper chains, crepe paper, evergreens and large trees were chiefly used. The large cloth drawings done by the pupils on the boards were particularly good.

This year the pupils work was more in evidence than former ly. The art and manual work showed great care and effort. Both teachers and pupils are to be congratulated on the typical work shown.

All the programmes were good and showed great patience and work. That in the primary room was greatly enjoyed by pupils and visitors alike. Santa Claus had given the pupils adequate training so that the duties were not in vain. It was hard to decide on any one feature for special mention and help to any other best

Mr. Hoole held her concert on Thursday. It also showed careful training, and choice material Among the items Home were "Melody Song" by 8 girls, dialogue "Trouble in Santa Claus Land" with Arthur Holliston by Arthur Holmes, Mary M Henry and Blake Patterson and "Angels by Archie McMillan and Mervin McKay All the other pupils took part and

up the best from all Mottingham's people can say the "Beggars' Chorus" The costumes of the six boys were extremely funny A coon solo by Horace Walley was well received. Fourteen girls sang two part song "Snow Words" Willie Wanton, Ryan Starke and James Ford added to the success of the programme by their recitations. A dialogue "Christmas Secrets" was recited by twenty-three characters. These with other well rendered selections made up a very interesting programme.

The class paper was mainly practiced in Miss Sim's room In this was the class prophecy A dialogue was much enjoyed by all present Arthur Holmes recited well and Eva Chatterton's solo was well sung. All choruses were good.

In the High School the pupils were in charge of the afternoon. The reading of the "Critic" was followed by a mock trial in which all the brutal details of an assault case were aired.

All the programmes were followed by a distribution of candies and presents and a general good time resulted.

A large number of the parents and others, of the section visited the school. All were welcomed and pleased with the effort in the aim of the local trustees, teachers and pupils.

RING out the old, ring in the new,
Ring, happy bells, across the snow;
The year is going, let him go;
Ring out the false, ring in the true.

Ring out the grief that saps the mind,
For those that here we see no more;
Ring out the feud of rich and poor,
Ring in redress to all mankind.

Ring out a slowly dying cause,
And ancient forms of party strife;
Ring in the nobler modes of life,
With sweeter manners, purer laws.

Ring out the want, the care, the sin,
The faithless coldness of the times;
Ring out, ring out my mournful rhymes,
But ring the fuller minstrel in.

Ring out false pride in place and blood,
The civic slander and the spite
Ring in the love of truth and right,
Ring in the common love of good.

Ring out old shapes of foul disease;
Ring out the narrowing lust of gold;
Ring out the thousand wars of old,
Ring in the thousand years of peace.

Ring in the valiant man and free,
The larger heart, the kindlier hand;
Ring out the darkness of the land,
Ring in the Christ that is to be.

TENNYSON

Mr and Mrs. J. B. Mitchell and son of Arrow River, Man are spending their holidays with Mr and Mrs. H B Todd

Miss Rae Kendall is home from Normal School for the holidays.

Miss Addie Cobb returned home from a visit to Edmonton last week.

Miss Kathleen McHaffy came home from her school at Stettler

Miss Marion Forman was home during the holidays.

Mrs. M. Cook of Prince Albert is visiting at the home of her daughter Mrs. W. Rowland. Mrs Cook has not visited Tofield for the past twenty years.

Miss Dorothy Jumpy is home from Beaver Lake on account of the scarcity of water for household purposes.

Harold Lewis and Wilbur Swift attended the session of Boys Parliament in Edmonton last week. Mr. A. Hingley and Mr W. Swift were in the station's party.

CURLING

The Leduc trophy was recently brought to a close at the rink with Geo. Agnew's rink emerging winners. In this competition there were 36 games and 11 rinks.

A knock-out competition is now under way with Geo. Agnew's rink in the lead.

The annual hospital commences on Tuesday next. This is an event the local curlers look forward to and talk about for months after. There are four main competitions, viz., the Mayor's Challenge cup, Grand Challenge, Forest trophy, Hammond trophy and Terwilliger shield for which a number of visiting rinks are expected and the best ever and pleased with the effort is the aim of the local committee.

Singing Club Concert Well Received

There was a good attendance at the Variety Theatre on Friday night last to hear the concert presented by the girls Singing Club. The programme was varied and was greatly enjoyed by those present. A. Hingley occupied the chair. The preparation of the programme was chiefly in the hands of Mrs. Wilkie and both tutor and pupils are to be complimented on the fine showing made Special mention can be made of the humorous sketch, and the rag doll drill, both of which immensely pleased the audience. The various vocal items were well rendered and plainly showed the effect of the training given by Mrs. Wilkie. The programme was as follows:-Christmas Carol, Recitation, Nora Wood; Christmas Carol; action song, the fairies; tambalaines, the seasons, piano solo, Madeline Mahaffey; sketch, Mrs. Browns visitors, third tone Carol, solo, Miss Forman; action song, duet, Edna Mahaffey and Marjorie Lee; chorus, [illegible] solo, Miss Marion Forman; [illegible]

A lantern lecture "The Wanderings of Ann" and be given by Mr. A Wilson in the Varsity Thursday Friday Jan. 10 at 8:30. The lecture is one of the Acadia University and Mr Wilson is especially qualified to give same having served in the [illegible] service. This event is being arranged by the Local Mercury and anything over the lower [illegible] will be donated to some [illegible] Admission 25c and 15c.

For the Christmas season J Hedeline had a very nice appearing shop. In addition to all the frills there was an exceptionally fine beef carcass of. This animal was grazed by Mr. Elgin Beale. In the window there was a stocking pig, which was entered into competition The winner being J. McMillan

The Telephone line Novelty lunch was a complete success The ladies had followed Saturday night to the [illegible] which the gentlemen responded with [illegible] speeches. A pretty [illegible] the lady was kept for [illegible] on the box, at Miss Hall [illegible] and the prize a piece of silver The music was grand and every one had a rippling time.

2.30 p. m. Service at Ketchemont.

7.30 p. m. Service at Tofield. Topic of Sermon, "The New Year's Race."

Come and enjoy these Services. All invited.

LAKE-SHORE CONCERT

Congratulations are due to the teacher and all who assisted her on the great success which attended the Christmas Tree entertainment held in Lake Shore school house, Friday Dec. 22nd.

A large audience was present and showed its appreciation of what was presented, by its hearty applause and good order. All the children of the school had a part to play and the manner in which they performed was a tribute, not only to this special effort, but also to their training throughout the past year

When the programme was completed Santa Claus arrived on time and was himself most popular with both young and old by his genial manner and the distribution of seasonable good things as well as the many gifts with which a large Christmas Tree was loaded.

(Continued on back page)

Greeting !

UPON THIS THE FIRST NEW YEAR OF OUR BUSINESS CAREER AT TOFIELD,

WE WISH TO THANK ALL THOSE WHO HAVE BY THEIR CUSTOM CONTRIBUTED TO OUR SUCCESS.

WE EXTEND TO EVERYONE IN THE TOFIELD DISTRICT THE SINCERE WISH THAT THE COMING YEAR MAY BRING ONLY HAPPINESS AND PROSPERITY

The Manufacturer--

Ecclesiastes has a good deal about the salesman. He is the man who by suave words and convincing argument speeds up the commerce of the globe. His work is indispensable. But back of the salesman is the manufacturer, that individual who takes the raw material almost as nature gave it and by many expert and intricate, transformations into some need of a vast multitude of people.

A modern butter making plant contains the wicked creations and inventions of hundreds of years. It stands between the casual dairying in and the assembly of butter, called to mean the same to butt

MINETEEN-TWENTY-THREE

MINETEEN-TWENTY-THREE tell us that the world is four hundred million years old. If it keeps on increasing at the same rate it has had only millions more ago and although proof of man's existence is but a paltry ten thousand years, he probably appeared on the earth at least a million years back. Those figures to the average man are so great that they mean little. They do to such however, that notice the first appearance of man is a search for protection from the animals, there has been a constant and steady improvement on this old earth of ours. Before man himself appeared there was a budding up of an animal kingdom from worms in the sea and later, the setting out of the more noxious and rumbly some species, those passing out of existence. Since first appearance man as a savage, but with a divine spark that all other creatures lack, a gift to behold reasoning. From this spark, there sprang to conviction. One, that there was a power greater than himself; the other, that he himself was capable of creating things according to his desires. The history of man's existence upon the earth is a story of achievement — victory following victory—and today there are descendents of those first wild men who have scoured the busy six of the earth, explored the depths of the ocean, and flown through the realms of space. That first divine spark has been fanned into a mighty blaze and now the happenings on one side of the world can be told in a few seconds of time to those living on the other side.

Christian peoples date their time from the birth of Him who changed the beliefs of the people from a divine law of vengeance to a divine law of love. Western man commencing upon a new lease of time, and resolved to one sense, time is the most precious thing we have. The ending of an old year and the beginning of a new one is always the occasion for retrospect as well as a peering into the future. What the future holds mankind can see. The past is a written page from which [illegible] tained a measure of guidance for the future. Standing at the threshold of another year should not imply forebodings or vain regrets, but rather a cheerfulness born of strength arising resolutions that [illegible] one to the possession of [illegible] Yesterday is dead. Forget it. To-morrow is not here. Don't worry. Today is business. If

Time and tide wait for no man.

Tofield Chalks Up a Pair of Wins

On Friday evening of last week Tofield hockey sextette journeyed to Edmonton to play a game with the Edmonton Highlands. The players were a short handed bunch as Tofield could only muster five players to attend the game. However, by the time Tofield skated on the ice, six of their players had arrived, and the game started. Tofield showed a fast game for the first period, but at the end of the period the score was 2-2. In the second period the locals were unable to score, while the Highlanders added another goal, making the score 3-2. In the third period the locals were unable to score, while the Highlanders added another goal, making the score 4-2. The visitors played hard and the whistle blew to close the game with the score 4-2 in favor of the Highlanders.

The third period opened with Edmonton in the lead. Play was fast from the first period after about four minutes of play. Tofield quickly retaliated and evened the score with a goal. Play was fast and furious from then on, each team working hard to get the lead. Edmonton pressed again and obtained a goal, but this was disallowed.

The third period opened with both sides playing hard, the locals rushing when Tofield had the Edmonton goalie again for a scoring attempt. Play then went to the Edmonton goal, but Tofield could not score. The visitors worked desperately but could only beat Smith once more before time and the game ended 2-2 in favor of Tofield. Geo Agnew refereed the game.

Tofield: Smith, Hyp Lee, Bert Peckham, Ferguson, Hannah, Lange.

Country News

KETCHAMOOT

The downfall of the beautiful the day before Christmas made a ideal Christmas. Family gatherings and Christmas dinners were held in all homes and a good time was had.

The Sabbath children's day spending the holidays with their grandmother Mrs Appleby of Holden.

Mrs. Bickner is spending the holidays with her daughter Mrs. McKeown of Calgary.

Mr. and Mrs. Ben Parker of Tofield spent Christmas with their children at Ruth.

Miss Sharpe of Edmonton and Mrs. Wm. Parker of Tofield spent Christmas with their children at Ruth.

Mr. and Mrs. Wm. Nesbitt of Nisku are the proud parents of a baby boy born on Dec. 20th.

Mr. and Mrs. Ed. Cragg spent Christmas and Mrs. Cragg's parents at Mundare.

Mr. and Mrs. Ed. Egnan spent a few days over the week end with Mr. and Mrs. Dalziel in Edmonton.

Mr. Dalziel is also engaged in the threshing business.

Mr. Roger Bay suffered an attack of appendicitis last week and was rushed to the Holy Child Hospital in Edmonton on Saturday. We are glad to hear he is doing as well as can be expected.

Mr. and Mrs. G. R. Owen attended the Christmas services at the Ruthel church on Tuesday afternoon and were the guests of Mr. and Mrs. Jensen in the evening.

Mr. and Mrs. L. Salisbury and baby daughter of Clyde, and Miss Hodgson of Edmonton were guests of Mr. and Mrs. D. Mitchell over the holidays.

Mr. D. F. Black from Portland, Oregon, formerly an old timer here and very much liked by all, with A. F. Nesbitt, other old time friends deeply regretted not having the pleasure of a visit from Mr. Black.

Through the kindness of Mr. and Mrs. A. Williams the school children had the time of their lives on Tuesday when they were invited to the Williams home for a Christmas Party. Games and Christmas refreshments were served followed by candies and nuts. The afternoon was one to long and later music and dancing in the Nesbitt hall, but to be honest all the children return to their homes saying the best time ever.

On Wednesday afternoon Mrs. Herman Lawson was host ess to the Missionary and Home Improvement society, both ladies are well represented and a short business meeting was conducted to unite and make one society this being called. The Missionary And Society. The officers for the coming year are as follows: Mrs. Vere Lawson, Mrs. Vere Pye; Mrs. L. Carlyle; Sec.-Treas. Mrs. Chapman; Assistant Sec. Mrs. A. Ingram. Report of Mrs. Ed. Wm. Sears. After the business session a social hour was enjoyed, the hostess serving a lovely lunch. Mrs. A. Williams will entertain the members in January at the monthly meeting on January 24th.

BARDO

Christmas of 1922 has come and gone and as is their custom the Community at Bardo have spent a week of feasting and good cheer

Betsy Nase and Borghild Fosbaug who are attending the U. of A. at Edmonton came down to spend the Xmas holidays here. His sister K. Strasberg accompanied him, her brother and sister both living here.

Mr. A. Rogers has not been well for some time and had trouble with his teeth.

A card party followed by a dance was given at the home of Mr. and Mrs. McKenzie and reports say a good time was had.

A dance was given in the school house on Friday evening. The Smith Foss orchestra supplied the music and a splendid supper was served.

Mr. and Mrs. Ole Hall spent Christmas at the home of Mr. and Mrs. Ole Hall.

Mrs. W. Lochester has returned home to be her visit to Edmonton.

A Happy Bright, and Prosperous New Year to all.

The annual ratepayers meeting and Trustees B. B. is called for the 29th January 1923 at 8 p.m. All those all are cordially invited to attend

ROSS CREEK

The school entertainment on the 22nd was up to the high stand ard set by the school. Miss Grant and everything went along splendidly, the children were so ready to their teacher, and every number was entertaining. Santa Claus had a gift for every child present. The proceeds of the concert were $40.00 which is one of the most profitable concerts ever held in the district.

Boxing Day in spite of the Xmas rush was a very successful affair and the night was crowned by the best dance of the season. A good floor and good music and big gold by Mrs. W. Hudson while the accompanying sides were shown. This was followed by a programme given by the kiddies as follows.

Opening chorus, song, child prize under seven, Scotch dance, C. Rogers, E. Strasberg, M. Foss, C. Rogers, recitation, R. Grant, song, R. Seed with juvenile chorus, recitation, C. Rogers, song, E. Strasberg, M. Foss, L. Hoop er, R. Smith; juvenile chorus, burlesque drill, song, recitation, L. Gill, Bunkey, C. Rogers, E. Strasberg, M. Foss, R. Smith, L. Hooper, J. McKenzie, Smith.

After this programme and an interval story entitled "Rossing and Hodge Podge," a sketch given by Mr. Wallace and cards, Mr. E. W. Hooper presented the prizes of candy were distributed to each child and Auld Lang Syne a vote of thanks to Mr. Lesby was proposed by Mr. Rogers three cheers given for the young ones departed and those who elected stayed for a short time would be held in the hall on a very pleasant evening for all.

A Christmas Service was held in the school house on Xmas eve and was well attended. The service consists being the Rev. Arthur Wilkins.

Mr. F. W. Hooper and sons Lyn and Jim returned home on Saturday last from a visit to friends in Edmonton.

Messrs W. and R. Glenn have installed eight telephones in the school yard for the convenience of those attending services, meetings and dances there, to tie their teams up and save the fuss.

Mr. T. Smosky was also visitor to Edmonton on Sat. 23rd

Mr. J. Leahy has returned home from hospital in Edmonton where he went under an operation on his lip. He is still on the sick list, his chores and

VOL. V. NO. 10 TOFIELD, ALBERTA, THURSDAY, JANUARY 11 1923 SUBSCRIPTION IN CANADA $1.50 U S $2.50

The Mastery of The Air

A lantern lecture entitled "The Mastery of the Air" will be given by Mr. W. Willens at the Wednesday evening, Jan. 17 (not Friday) as announced last In addition to the Air Craft lecture there will be a lantern lecture entitled "Peter Pan" especially for the youngsters. These lectures have been given at Round Hill, Rose Creek etc and are very eighly spoken of They come from the Extension Dept. of the Alberta University and are well worth anyone's time to attend. The air craft lecture is of especial interest as Mr. Willens was for two years in the air service overseas and has been shot down three times

The Mercury prevailed upon Mr. Willens to give those lectures in town and the admission fee of 25c. and 15c is merely to cover expenses. There is no desire to make money; any sur

Ketchamoot Doings

New Years day passed off quietly. There were a few family dinners but most of the young folks took in the hockey game in town.

The annual meeting of the church was held at the home of Mr. and Mrs. W. A. Mitchell, on Wednesday afternoon.

Miss Dorothy Hay was the guest of Miss Rosalie Owen on Monday evening and Tuesday.

Mr. and Mrs. Forman and daughter Marion visited at the home of Mr. and Mrs. McGinnis on Saturday evening.

Mr. Harold McMullen took New Years dinner with Mr. and Mrs. G. W. Sinars.

School re opened Wednesday. Miss Hopkins spent the holidays with her parents in Edmonton.

Mr. and Mrs. Wesley Ingram entertained a few friends and relatives at their home on Tuesday evening.

The annual meeting of the ratepayers was held at the school house on Saturday afternoon. Mrs. W. Lee was re elected Trustee.

Mr. and Mrs. Herman Lawson and family visited at the home of Mr. and Mrs. Geo. Lawson on Sunday afternoon.

Mr. and Mrs. Wesley Ingram, Mr. and Mrs. Marsh Mitchell and family and Mr and Mrs. J. H. Ingram were the guests of Mr. and Mrs. Clinton Hall last Sunday.

Mr. and Mrs. Roy Lewis and family visited at the home of Mr. and Mrs. O. Berner on Sunday.

Mr. Marsh Mitchell gave a dance in town at Bellamy Hall on Friday night with the usual good results.

Mr. Harold McMullen and Lorne spent Thursday evening at the Wm. Lee home

Mr. M. Bickner, Mr. and Mrs. G. W. Sears spent Friday evening at the home of Mr. and Mrs. J. H. Ingram.

Earl Owen attended the hockey match at Holden Friday night with the Tofield team.

We four not many made the

plus will be given to some worthy cause. If the attendance at the lecture warrants it, an attempt will be made to procure an occasional lecturer for the university.

The program commences at 7.45 with the showing and reading of "Peter Pan" this will be followed at 8.30 with "The Master of the Air".

Third Annual Banquet Great Success

The third annual Banquet held at Tofield took place at the rink on Tuesday, Wednesday and Thursday of this week. As usual there is an abundance of enthusiasm cheer and good fellowship. There are 22 rinks competing for the various events, which as we go to press have not been decided. There are present, rinks from Edmonton, Wetaskwin, Wainwright, Viking, Camrose, and Fort Saskatchewan. Among the visitors are to be seen well known ex Tofieldites viz Dr. Terwilliger, C. H. Rowe, J. W. Somers. There are excellent prizes, and lucky are they that come first and second in the events. For the Grand Challenge there is 1st four sweaters, 2nd four pairs spoon jrays, 3rd four razors.

The prizes of the Fincott trophy are 1st four pair of curling shoes, 2nd four canvases,

The Hammond trophy takes with it 1st. four ladies purses, 2nd. four mufflers, 3rd four razors.

For the Terwilliger shield there are 1st four sweaters, 2nd four roasters, 3rd four razors.

During the past few months there has been quite a lot of thieving in the district. Mr. J. W. Cookson lost 8 turkeys Mr Smith 18 turkeys and Mr. W. Jamison 50 or 60 bushels of grain

Miss G. Secord left Saturday morning to take up her duties as Principal of Hayter village school.

The trustees of McKenzie School have secured the services of Miss Pauline Kain of Montrale for the coming term.

Mr. and Mrs. F. J. J. Barroughs motored from Huxley to Tofield on Tuesday. They are leaving this week for B. C.

Mrs. J. Clements of Duffield with her mother Mrs. Hopgood during the past week.

Mrs. Maxwell and daughter Evelyn visited at the Abbott home for a few days last week.

Mrs. Wright's brother, E. Ritchie, who spent the holidays with her left on Monday to Bowden.

Town Council Hold Meeting

A regular meeting of the town council was held on Monday night of last week. They were present, Mayor McGuire, Councillors, Bruce, Chapman, Worton, McHeffey and Dixon.

Some accounts were presented and passed.

A by law appointing McCaskell Bros. auditors for 1923 given a first, second and third reading and passed.

A by law appointing J. W. Chapman secretary treasurer for 1923 was read a first, second and third time and passed

Councillor McHeffey was elected deputy-mayor for the remainder of the council for the remainder of the council year.

Mr. A. Davies was given use of lot 1 block 2 for one years taxes it being understood that should Mr. Davies buy the lot he would be required to pay taxes for previous years.

It was decided to advertise for tenders for the following property:—

Blocks ... to ... in Hillside subdivision

Lot 1 Block 7 to 1. F. Stubbs Holden.

Block located on Lot 14 10-1-20 G. T. P. subdivision

Further particulars can be secured from the undersigned.

J. W. CHAPMAN, Town Clerk

LINDBROOK

News is rather scarce these days but surely there is something happening or if you folks have any news that you think might interest your distant neighbors, just leave it at Leslie's store where the writer will be pleased to dish it for the Mercury consumption.

Leslie Rogers had a stroke of bad luck lately. One of his horses broke into the granary and filled upon wheat which caused its death. It was rather a valuable animal that was dead and the others are pretty bad on fort the recovery of some of them are doubtful.

Master Ernest Jones of North Edmonton returned home this week after a two weeks stay with his relatives at the Hooper and Holland ranch here. Lyn don Hooper, his cousin returned with him to Edmonton for a short stay.

The notice of the proposed ... in this district is ... at all approved of by the residents of this district so far as the writer can learn. It is considered by many that the ... thought of such a ... would be a ... to the district ... and ... Another point of view held by a number is that only ... a possible amount of timber not that there is any, it is undoubtedly more of a nuisance and a handicap to the people here than ever it could possibly be as a blessing, in fact the whole idea so far as this locality is concerned is absurd and we hope that as far as we are concerned that it will be for years. I believe that this expresses the sentiment of all the district, and that all we have to do now is to look forward to a ... year and enjoy ourselves to the ... possible.

There will be services at Holy Family Church on January 21st, at 11 a. m. and 7.30 p. m. also at Lindbrook at 3.00 p. m.

Let us be glad and ... a pair ... Expect ... Do not ... Don't ... Be ... Don't ... Enjoy ... Don't ... Be ... Don't ... Enjoy ... Don't ... Be ... Don't ... Enjoy

Eczema Covered Arms of This Healthy Child

Mrs. Alex. Marshall, Spruedale, Ont., writes:—

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did. In time, by a friend, I was induced to try a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

ALBERTA BUTTER TOOK MANY PRIZES LAST YEAR

Alberta creamery butter has taken many prizes in competition with the best butter made in the world. It was awarded at eleven exhibitions during the past year. Alberta butter took 229 out of 436 prizes offered in competition with the best creamery butter produced in Canada. In the eleven exhibitions at which Alberta took 229 first prizes, there were offered 436 first prizes, so Alberta took 52.5 per cent. of the 436 first prizes. Alberta took 84 of them. Of the 327 second prizes offered Alberta took 73, and of the 197 third prizes Alberta took 80.

The exhibitions at which the Alberta product appeared were Calgary, Edmonton, Saskatoon, Brandon, Regina, Vancouver, Toronto, Ottawa, London, New Westminster and Victoria. At Calgary, with four provinces competing, Alberta took 234 prizes out of a total of 370. At Edmonton, with four provinces competing Alberta took 54 of them. In the 32 second prizes offered Alberta took 14, and of the 197 third prizes Alberta took 80.

The exhibitors at which the Alberta product appeared were Calgary, Edmonton, Saskatoon, Brandon, Regina, Vancouver, Toronto, Ottawa, London, New Westminster and Victoria. At Calgary, with four provinces competing Alberta took 234 prizes out of a total of 370. At Edmonton, with four provinces competing Alberta took 54 of them. In the 32 second prizes offered Alberta took 14, and of the 197 third prizes Alberta took 80.

At Saskatoon, with three provinces competing, Alberta took 141 out of a total of 171. At Brandon, with four provinces competing, Alberta took 142 out of a total of 171. At Regina, with five provinces competing, Alberta took 171 out of a total of 217. At Vancouver, with four provinces competing, Alberta took 142 out of a total of 171. At Toronto, with four provinces competing, Alberta took 142 out of a total of 171. At London, with four provinces competing, Alberta took 142 out of a total of 171. At New Westminster, with four provinces competing, Alberta took 142 out of a total of 171. At Victoria, with four provinces competing, Alberta took 142 out of a total of 171.

CONVENTIONS WILL BRING FARMERS TOGETHER

[illegible] approximately 50,000 farmers of Western Canada.

The four days during which each convention will sit will be occupied very fully with questions of politics, of agriculture, of economics and of legislation. All the organizations are committed to political action provincially and federally, and since the last convention the Manitoba farmers have been elected to the legislature and have formed a government. There will be a good deal of discussion of political organization, of the accomplishments of the Progressive group in parliament and the records of the farmer governments in Alberta and Manitoba.

Grain marketing problems are sure to hold a prominent place in the programs. At all three conventions last year there was a sentiment that was practically unanimous for creation of a national wheat board.

The unsuccessful attempt of the government to secure the passage of legislation concerned to enable a wheat board last year will be renewed, undoubtedly, and it is a safe bet that there will be a demand for whatever additional legislation is necessary to carry out the Canadian council of agriculture calls a "workable" board in plenty of time to handle the 1923 crop.

The question of the Canadian cabinet, in view of its revision at the next session of parliament, will have associated with it the question of long-term credits for farmers. The council of agriculture has recommended appointment of a royal commission on banking, and this may form the basis of the conventions' action.

Letter To The Editor

To the Editor, Tofield Mercury.

Dear Sir:

Some months ago a sample of water was taken from Beaver Lake and forwarded to the Provincial Analyst for analysis. The official report stated that the sample showed signs of dangerous contamination, and that any water taken from the same source would be unfit for human consumption unless it were first boiled. It seems that on no occasions have heard of this unfavorable analysis and as we do not think the contamination contained in the sample of water previously analyzed. It would appear then that the water is fit for use, but in order to eliminate contamination and that no one need have any fear in using the water for household purposes.

I beg to state that an analysis of the ice of Beaver Lake showed no trace of the dangerous contamination contained in the sample of water previously analyzed. It would appear then that the water is fit for use, but in order to eliminate contamination and that no one need have any fear in using the water for household purposes.

Yours Truly,
J. W. Chapman,
Sec. Tofield Board of Health.

Notice To Creditors and Claimants

IN THE District Court of the District of Edmonton In the Matter of the Estate of William Parker, late of the Town of Tofield, in the Province of Alberta, Mail Carrier, deceased.

NOTICE is hereby given that all persons having claims against the Estate of William Parker, who died at Tofield, in the Province of Alberta, on or about the 7th day of June A.D. 1922 are required before the undersigned executor, on or before the 15th day of February A.D. 1923, to send to him, at Tofield, Alberta, their names and addresses of the said Estate, a full statement of their claims and of any securities held by them, duly verified by Statutory Declaration, and that after the said last mentioned date the Executor will proceed to distribute the assets of the said Estate among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated at Tofield, in the Province of Alberta, this second day of January A.D. 1923.

RAYMOND W. PINCOTT
Executor of the Estate.

VOL. V. NO. 31 TOFIELD, ALBERTA, THURSDAY, JANUARY 18, 1923 SUBSCRIPTION IN CANADA $1.50 U S $2.00

Hockey Club Stages Sports Night at Rink

On Friday night last the hockey club staged a sports night at the rink with pleasure to those attending and profit to themselves. The first feature was a hockey match between the married and single push chasers. The boys put up a game fight, but the young bloods were too fast for them, and after 3 periods of ordinary hockey the game end d in favor of the single by a score of 8 3. Teams lined up Married—Stan Ir. Elliott, Agnew, Todd, McIntosh, Livingston.

Single—O'Neil; Roy Lee, Dr. Shaw, Scott Lee, A. Preston, K. McIntosh, Todd Hannan

The next feature, a broom ball game, created lots of fun, one side being dressed as ladies and the other side in gents attire. The costumes, especially on the ladies side were well got up.

ROSS CREEK

This week has been one round of pleasure.

Owing to the cold weather Church services have been discontinued until March.

On Monday January 8th Mrs. A. R. Duncan gave a whist drive as a surprise on Mr. Duncan which was greatly enjoyed by all. Mrs. Chamberlain won lady's prize and Mr. Jacobson carried off gents prize Mrs. Hutchins and Mr. Duncan won the booby prizes. The Hostess served a dainty lunch about midnight.

On Tuesday a whist drive was held at the home of Mr. and Mrs. Geo. Reph which was also well attended Mrs J. Johnson secured lady prize and Mr. M. Rayston gents prize. The booby prizes were won by Mr. J. Johnson and Mrs. J. W. Malcolm Mrs. Reph served an excellent lunch during the evening.

Wednesday was a day or rather a night of rest.

Thursday there was a surprise party at Mrs. J. Abbotts.

On Friday the usual lantern slide and lecture was given by Mr. Willans, subject "How we got our bible" a no Peter Pan for the kiddies.

The regular meeting of the Ross Creek U. F. A. local was also held and as Mr. Duncan and Mr. Chambers are leaving Ross Creek new officers were appointed to fill vacancies. Mr. M. Hoph was elected president Mr. Johnson Vice president and Mr. H. Belue Sec treas. At the close of the meeting the Chairman handed Mr. Duncan a fountain pen as a token of appreciation of this local for the untiring energy given to making this local a success. Mr. Duncan has always taken a great interest in any movement for the benefit and enjoyment of the community. We are sorry to see him leave and wish him every success in his new venture.

On Monday the annual school meeting was held and Mr. S. J. Cooney was elected Trustee.

BORN—To Mr. and Mrs O. Sampson on Thursday 11th a daughter.

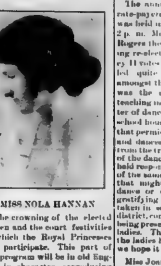
Next lantern slide and lecture will be held on Friday 26th.

The score was 2 0 in favor of the Gents. The teams were Ladies—Hannan Hammond, Davis, Wilkin, Ward, Cairvert.

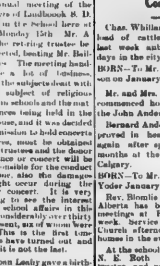
Gents—McLaughlin, Bush, Owen, Webb, Allen, S Owen, Weston.

Skating races followed, Bert McIntosh winning from Archie Trudeu, Archie had hard luck falling down twice. A race between Messrs Don k and Mc Laughlin was staged, Mr. Donk winning by a head.

Princess Candidates for Edmonton Carnival



MISS VIOLET TAYLOR



MISS NOLA HANNAN

The special excursion rates on all railways gives an opportunity for all Tofield to attend at a reasonable expense The carnival committee has spared no expense in making up a program that will far out-distance anything of the kind ever seen in western Canada. Norval Beptie, Miss Lundin, Everett McCowan, and Ben Oakley, all champion speed skaters, will be present. Several bands and orchestra have been engaged. There will be torchlight processions, huge bonfires, dog races, ski tournament, fancy skating, musical drive by autos, decorations and illuminations. Fancy dress ball in the Macdonald Hotel, and a large number of events of uncommon interest, all in keeping with the carnival spirit.

One of the chief events will be the crowning of the elected Queen and the court festivities in which the Royal Princesses will participate. This part of the program will be in old English in character, reproducing as far as possible the coronation of Queen Victoria in 1837, and some of the costumes are of regal splendour and are actually the identical dresses used at court presentations in the early part of last century. There will be Yeomen of the Guard, little train bearers, etc., thus reproducing as far as possible the actual royal court scenes.

The carnival committee announce that there will be an ample accommodation for all visitors, an up-to date list having been compiled of rooming houses where rooms can be secured at reasonable rates.

Local News of Interest

Miss Mildred Carter came home from Victoria on Thursday night, visited a few days at home and returned to Edmonton to continue her college course.

Mr and Mrs Wait went to Edmonton on Monday morning.

The office at the station has recently been enlarged.

Mr. Otis Mahaffey visited here with relatives last week.

The numerous friends of Walter Rogers were pleased to see him in the old town on Sat, Jan. 13th. He visited with home folks here and returned south on Monday night.

Mr. Clifford Carr spent the week end at the Abbott home.

The Misses Minnie and Mabel went to Edmonton on Saturday night to spend the week end with friends.

Mr. B. Bairnes of Lincoln, Nebraska is visiting with his brothers in Tofield

Mr. and Mrs. Geo. Agnew and Miss Mildred Grimsdell attended the hockey game between Saskatoon and Edmonton in Edmonton on Monday night.

Mr. H. Howell spent the week end at his home in Edmonton.

Constable Morrison of the A. P. P. was home for the week end. He is on duty at present at the Edmonton coal mines.

The Gold Dust Twins, Diggs and Meggie, The Sultan of Turkey and the Shah of Persia are hereby warned that the Tofield Ice Carnival will be held on Tuesday night next. All absent—please don't crowd.

Born—To Mr. and Mrs. P. W. McAllister on Jan 6th, a son.

Born—To Mr. and Mrs. A. Ireson on Jan. 18th, a daughter.

Born—To Mr. and Mrs. J. A. Ingram on Jan. 17th a daughter.

There will be Services at Hardy Church on Jan. 21 at 11 a. m. and 7.30 p. m. Also at Logan at 3.00 p. m.

SIGNS OF SPRING

Robin Seen In Winnipeg—Hail Chirping at Tofield

I wish to take this opportunity of thanking the patrons in the Tofield and surrounding districts who have entrusted the conduct of their sales to me and for the generous support they have accorded these sales. I have attended three different sales and gave their support in making them a success. It has been a pleasure to be among you in conducting these sales and another sale season is near at hand I am looking forward to again having the pleasure repeated. I realize the responsibility of an Auctioneer in conducting a sale and being called upon to sell in a few hours the accumulation of many years hard work, is not to be taken lightly. I am glad to say that I realize this responsibility and have always endeavored to give a true representation of the articles to the buying public and energetic loyal salesmanship to the parties for whom I have sold. The public have shown their appreciation of this in repeatedly calling me back to the same districts. The year of 1922 was not the brightest one to many people I must admit, but I am thankful to say that I enjoyed a successful sale year and taking everything into consideration the prices obtained were quite satisfactory. One of the outstanding features was that the percentage of cash paid on the total credit sales in 1922 far exceeded any previous year in the district. That is, in my estimation an indication of better times.

Faithfully Yours,
D. E. BALL.

LINDBROOK

The annual meeting of the rate-payers of Lindbrook S. D. was held in the school here at 2 p. m. Monday 15th Mr. A. Rogers the retiring trustee being re-elected, beating Mr. Bellery 11 votes. The meeting had but quite a lot of business amongst the subjects dealt with was the subject of religious teaching in schools and the matter of dances being held in the school house, and it was decided that permission to hold concerts and dances, must be obtained from the trustees and the dance of the dance or concert will be held responsible for the conduct of the same, also the damages that might occur during the dance or concert. It is very gratifying to see the interest taken in school affairs in this district, considerably over thirty being present, six of whom were ladies. This is the first time the ladies have turned out and we hope it is not the last.

Miss Joan Leahy gave a birthday party at her home this week, numerous small friends accompanied by their elders were invited. Miss Evelyn Dixon whose birthday falls on the same day as that of Miss Joan in welcoming her guests. After tea the time was spent in games etc and the Rev. Arthur Willans provided a treat for the youngsters with his magic lantern

A meeting of the rate-payers of Hastings Lake S. D. was held on Tuesday and from what we hear no gentler theft was of extreme importance to all concerned.

We hear that J. Wainwright is taking a bunch of sheep from J. Beaman of Tofield to look after on shares. Good luck, dad.

Mrs. J. Wainwright who is undergoing medical treatment in Tofield is said to be improving greatly by same.

Miss Lily Rogers has returned to her duties as nurse in an Edmonton hospital after a period of sick leave.

Mrs D. A. Cloater leaves this week for a visit to the Coast.

Mrs E. W. Hooper is visiting at her sister in law's Mrs. H. M. Dimond Edmonton.

Mrs. W. Grimsdell Edmonton is visit this week, and we hear that later on she intends taking a trip to the Coast.

(contributed)

Apparently the sensible energy of the people by the recent drought to the Lindbrook School Meeting. The charges of persons outside the Lindbrook District bringing in boose and improper behaviour, were actually considered and it was unanimously decided that any such person committing these diseases would not be allowed to spoil the pleasure of our social gatherings.

Trusting that this will be sufficient to prevent any further trouble. Hereafter all dances must be under the supervision of the Lindbrook School Trustees.

News From The Bardo Corner

The Manufacturer--

To day one hears a good deal about the salesman—the man who by suave words and convincing arguments spends up the commerce of the nation. His work is indispensable. But back of the salesman is the manufacturer, that individual who takes the raw material almost as nature gave it, and by ways expert and intricate, transforms it into some need of a vast multitude of people.

SUFFERED SO FROM HEART AND NERVES LIFE WAS A BURDEN

Mr. A. H. Lee, Drummville, Ont., writes: "I am delighted to let you know what I have experienced in the good Milburn's Heart and Nerve Pills did for me.

A short time ago I suffered with heart and nervous trouble and was so bad I could not sleep only about two hours each night. My heart was so bad I could seldom sit still when sitting on the couch and would fall back, and my legs would carry me in from my wrists. I would have the spells in the night and during my daily work and did not know from one hour to the next if I would keep out of bed, but was then induced to try Milburn's, the first before I could settle down again, but after taking a few doses

MILBURN'S HEART AND NERVE PILLS

WHY BACKS ACHE

The Kidneys Seldom to Blame—The Trouble Due to Blood Impurities

There is never any need of a backache becoming chronic. Some people have learned from experience that the quickest relief comes from applying a hot flannel cloth wrung out of hot water. Others believe that every backache is caused by weak kidneys and that only kidney pills will cure it. Both are wrong. Backache is a symptom of kidney trouble, but in most cases the kidneys are not to blame. The real cause is poisoned blood, and the kidneys will never cure backache permanently until the blood is purified.

Dr. Chase's Kidney-Liver Pills are the best blood purifiers in the world, and that is why they cure backache. They also cure kidney disease, rheumatism, lumbago, sciatica, dizziness, biliousness, indigestion, constipation and all troubles arising from poisoned blood. One pill a dose, 25 cents a box, at all dealers or Edmanson, Bates & Co., Ltd., Toronto.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Medoc, Ont., writes:—"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general exhaustion and was so run down and my nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends as a wonderful medicine." (Mr. J. W. Vance, Druggist, of Medoc, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

United Church Annual Meeting

The Annual Meeting of the Tofield United Church was held in the Church on Friday evening January 12th.

The Congregation assembled in the Basement of the Church at 7 o'clock where the Ladies had prepared a real Parish supper, in their usual liberal manner and the Social hour passed very pleasantly for all who were present.

Following this came the Reports from the various Organizations of the Congregation. The Sunday School The Tuxis Boys, Trail Rangers and C. G. I. T. (Hour, Ladies Aid, The Monday Society, all of which showed healthy growth and active interest on the part of those engaged in the work.

The report of the session showed that 66 names had been added to the Communion Roll during the year—28 by the uniting of the two Congregations, 16 by letter from other Congregations, and 23 on profession of Faith. The Pastor officiated at fourteen Baptisms, two marriages and ten Burials. Two Members of the Congregation died during the year, leaving a membership of 135

The Cordial spirit of Unity within the Congregation as well as within the Community at large promises well for the future, prosperity and usefulness of the United Church of Tofield

EDMONTON Winter CARNIVAL
JANUARY 24-25-26-27

The Tofield Candidates for the Royal Princesses at the Edmonton Winter Carnival are Miss Nola Hannan and Miss Violet Taylor

The numbers receiving the highest number of votes will attend the Carnival and take part in the court festivities.

The time limit for the votes of all Royal Princess Candidates has been fixed at 12 noon on Monday, January 22nd, when they must be received at the Carnival Contest Office at Edmonton No votes received after that time will be counted.

$1.00 BOND	
1,000 Votes and Admission tickets	
$5.00 BOND	
10,000 Votes and 30 Admission tickets	
$10.00 BOND	
25,000 Votes and four season passes	

Bonds may be obtained at your local bank.

Twenty-one towns in northern and Central Alberta are entering Royal Princess Candidates. In those towns where there is only one candidate, the nominee will go to Edmonton at the carnival's expense, if she receives a sufficient number of votes. Where there is more than one candidate, the one receiving the highest number of votes will be elected.

Excursion Rates on All Railroads

Cheap excursions at the rate of a fare and one third from all stations in Alberta.
Going dates, January 20 to 24, and returning on the 28th.

Four Days's Program of Winter Sports and Carnival Features, including Speed Skating by World's Champions, Fancy Skating, Ski Tournament, Dog Races, Fancy Dress Ball, Torch Light Processions, Bonfires, Decorations, Illuminations, etc. The greatest event of the kind in the history of Western Canada.

Further particulars can be obtained at the Carnival Office, 9007 Jasper Avenue (Telephone 6355), or from the Contest Manager, at the Index Publicity Company's Office, 10118, 101A Street, (Telephone 2705).

C.G. Yorath, City Commissioner. **D. M. Duggan, Mayor.**

The Art of Printing

Has been utilized in many ways. The thoughts of a brilliant writer finds expression through the printed page to millions of people. In the spreading of knowledge it is without a peer.

But of the many uses of printing the stimulating of business is not of the least important. Your business problems can be solved by the liberal but judicious use of printers ink.

Movement Of Western Crop Was Unparalleled In The History Of Grain Marketing

Is Through With Exploration Work

Stefansson Will Devote Time to Testing of Theoretical Possibilities of Polar Areas

Viljhalmur Stefansson, Arctic explorer, has announced abandonment of his career as an explorer to devote his efforts to putting on a stupendal world that within a decade or two the north polar crown will be crossed by a network of commercial airline routes and that the Arctic regions, hitherto known as mysterious, uninhabitable lands will be a source of developed resources cultivated in abundance

Mr. Stefansson said his decision to give up the polar explorations which have made him internationally famous, was prompted by his conviction that the age of exploration was now at hand for the age of commercial development.

"Oil, coal and other resources are also available. These conditions are not unfavorable people are living and doing business in places where are not even white women than those at the north pole is almost 90 degrees below zero, while 70 below zero has been registered in North Dakota, where the winters are just as severe as in the north.

"The course of empire of civilization inevitably moves towards the north.

People Saving Money

Heavy Increase Shown in Amount of Savings in Canadian Banks

An increase of over eleven million dollars in the total amount of savings deposits in Canadian banks during the month of November, and of nearly thirteen millions for the year 1926 is shown by the statement issued through the Dominion Department of Trade and Commerce. Total deposits at the end of November totalled $1,441,746,720, as compared with $1,430,481,578 at the close of the previous month. Notice deposits totalled $1,167,649,985, as against $1,156,412,452 on October 31st.

Here is a man who is smart enough to refrain from borrowing money to buy a new automobile.

A loan ceases to be the coin which after he takes into himself a wife

Everywoman's Fund Grows

Tubercular Women of Saskatchewan to Benefit by Wheaty Output

Up to January 7, the amount for the Everywoman's Fund for the care of tuberculous women in the province had reached $17,642. It is known that a number of cheques are on the road to Regina.

The following acknowledged from [illegible] Fund: Mrs. Lilley, Lemberg; Patrick, Richardson and Co., Regina; Leader Drilling, or Miss P. Barker, 2008 Angus Street, Regina. All donations will be promptly acknowledged.

The $25 bonus will be benefit by the Everywoman Fund are from all parts of the province—more particularly from the rural municipal[illegible] that are willing to purchase a car for the use of one penniless people.

The number of persons who should be a medical care and yet cannot pay for it is revealed by the Anti Tuberculosis Association of Saskatchewan. Provincial Department of Public Health, staff of the school nurses, the municipal officials, and from many other sources the desire is to raise thirty thousand dollars.

Open Sulphate Mine

Company Formed to Exploit Deposits at Lake Regina, Sask.

Under the title of Salts and Chemical an eastern company has established a plant at Deml, Sask., on the Canadian National main [illegible] west of Moosejaw. The intention of this company is to exploit the sodium sulphate deposits that the Manitoba Springs yield every year. It is estimated that about 30,000 tons of salt cake will be produced annually, along with the present plant. There is also a possibility of taking magnesium metal out of the district, members of the company have stated in C.M.B. officials. This metal is coming into demand for aeroplane construction, as it is lighter and three times as strong as aluminum.

W. G. Weichel, Mayor of Windsor, Ont.; F. R. Gough and A. J. Gough, Toronto; J. J. Seitz, Toronto; and three Philadelphia financiers are members of the company

Railway Problem Solved

Resolutions Lengthening Mine Beam to vented by Railways

The problem of sometimes railroad traffic, which has been troubling large cities all over the world, has been solved by the invention of a new locomotive by Professor Lamsdorfer of the Russian railroad commission at Berlin and Professor Neubacher of the Charlottenburg Technical High school. The new engine will have no smoke stack and will look more like an enormous baggage car than a locomotive.

Professor Lamsdorfer says his invention will make it possible to build tailboats in the Sahara Desert and other vast stretches where there is no water.

It took me six years to call for the improvements of their invention which have been made from time to time, before I could get them to see so unsound that the were bound to stand against them. Now nobody they were wrong."

But when the former was told of his life in the case of [illegible] we have no alternative suggestion to make. Are we going to continue for long [illegible]?

A keenly negative article in the [illegible] office. A large part of them are better off than those [illegible] country but this does not alter the fact that they are [illegible] a hard time of it and that a [illegible] is urgently needed. Some of the [illegible] suggestions made in the article should be done to relieve the distress.

Ketchamoot

Mrs Rachnor returned home Monday after spending two weeks with her daughter in Calgary.

Mr James Rattray came down from Edmonton on Monday and spent two days on the sister Mrs. J. H. Ingram before his departure for California

Mrs. Fisher of Edmonton is keeping house for Mr A F Schultz and family

Mrs W A. Mitchell spent at few days the last of the week with her sister Mrs. S. Wildman who was on the sick list

Messrs W K Mitchell S Stewart, C Seabman and Jack Henderson shipped a load of hogs to Edmonton on Thursday

Friends of Mr. and Mrs Tom McMullen were pleasantly surprised to hear twin daughters had come to their home the 1st of January. Mr and Mrs McMullen are spending the winter in Calgary.

Mr S. Cuthbert returned home last week, after spending a few months in Ontario.

Miss Bessie and Percy Owen and Harold McMullen spent Sunday at the home of Mr and Mrs. William Lee.

Mrs Wm. Denham visited her mother Mrs Hutson who is receiving treatment in Camrose.

Mrs Henry Sutton is taking treatments for rheumatism in town and we hope they will prove beneficial

Mr and Mrs. G. R Owen, Mr and Mrs. Geo. McConnell and Mrs. Easton and family were entertained at the Wheeler home on Sunday

The monthly meeting of the Missionary Aid Society will be held at the home of Mrs A. Watkins next Wed. Jan 24 Dinner will be served by the hostess, mem ers serving the pie. A cordial invitation is extended to all.

As our Ketchamoot correspondent has neglected to mention our Xmas entertainment at our school house, we thought someone had ought to.

Miss Hopkins surely deserves praise for the trouble she went to, which made it a great success, one of the best we ever had and everyone enjoyed it hugely, we will not mention anyone in particular, for every number was good.

After the program, the Home Improvement Society served a treat for the children which pleased them very much. And then the School Trustees allowed the young people to remove the seats and all who wished to, had a few hours indulging the light-hoof. Orchestra furnished the music and everyone went home feeling that they had had a real "Xmas." The Misses Dot. Dene Bridges and Christie Combes went down to the school house and put every thing back in ship shape order It is rather hard to meet in it, but it is better late than never.

A delightful party was held on Friday evening last, when Miss Margaret McCauley entertained a number of young folk. A dainty supper was served after which merry games were played. The departing guests declared it a most enjoyable event.

Tofield Curlers Shine at Edmonton—Edmonton Ladies Visit Here

The reputation of Tofield as a curling centre was brilliantly upheld by the rinks attending the Edmonton bonspiel. The rink skipped by G. McLaughlin was successful in obtaining first place in the Ramsey competition, third in the Bank of Montreal and third in the Grand Aggregate. The personal of the rink was M. C. Hammond, B. Beirnes, A. Beirnes, and G. McLaughlin(skip).

Two rinks of lady curlers from Edmonton visited Tofield to day (Thursday) and played against two local rinks. The games which were keenly contested resulted as follows, Conn, Edmonton, 18, Hammond, Tofield, 8; Norquay, Edmonton, 13, McCauley, Tofield, 8. The personal of the rinks were, Tofield—Mesdames Carter, Hannan, Bruce and McCauley(skip), Mesdames Doak, McMillan, Lee and Hammond (skip) Edmonton, Mesdames Wilson, McIntyre, Reed and Conn (skip) Mesdames Denton, Dann, Thomson and Norquay (skip)

Pure Dope

WHO WANTS SCREENINGS? Those still requiring reclaimed standard screenings should notify me AT ONCE and place their orders. These are very hard to get, the demand being greater than the supply at Ft. William. The car recently unloaded gave great satisfaction. It is impossible for me to order a car before your orders are in, so as to sel ect a car or part of one and retail it out of storage as would be too costly, therefore it must be taken right off the car on arrival. FREE SAMPLE IN OFFICE. Please act quickly while still possible to obtain.

ABOUT SEED OATS. Our "all" last week brought quite a number in on this important question, but we are a long way yet from getting a proper estimate of the amount required. You will be helping the situation all around if you will at once give us an idea of your requirements. We are not asking you to place an order yet, but just give us something to figure on.

POEMS. Is there anyone who wants any tamarac posts this season? If so, please give us an idea of what you expect to need. We will not bring any in unless we are sure they will be required.

RAYMOND W. PINCOTT

Lakeshore

On Wednesday Jan. 24th the first meeting of the first Ladies Aid in the history of the Lake Shore District was held at the home of Mrs. J. S. Munro with Mrs. Johnston Ferguson President, Mrs. Munro vice-president and Mrs. Booth Sec Treas. Six active and four associate members were enrolled. After the meeting a 6a supper was served from six to eight to which a goodly number attended. The next meeting will be held on Wednesday Feb. 7th at the home of Mrs Booth at three o'clock followed by a chicken pie supper from six to eight to which all are cordially invited.

From all accounts the dance held in the school house on the 26th was a very successful affair, all of the young people of the district and a number from town participating.

The government dairy Inspector has again been through this district the past week applying the tuberculin test to a number of herds. We are pleased to say very few reactors have been found.

Ross Creek

Mr A. Thor has bought Mr. Chambers farm and expects to move on in the spring.

A very enjoyable whist drive was given by Mr. and Mrs. A. Thor on Thursday evening. Mrs. A. Schneiderand Mrs. M. Hoph won first prizes, Mrs. H. Davison the Lady's booby prize and Mr. A. Chambers the chicken. Mrs. Thor served refreshments about midnight. Say Mr. Editor—if you want a good midnight lunch, you want to come to our whist drives—we sure have 'em.

We hear Mrs. Bob Van Buskirk is under the Doctor's care.

The usual Lantern Slide and Lecture was given by Rev. A. Willans on Friday night. The subject being, The British Army and Snow white for the children. The next slide will be shown on Friday, Feb. 9th. The Subject is London.

The usual U. F. A. meeting will be held on Saturday, Feb 3 at 8 p.m. Everybody welcome

R. D. Seale obtained fourth prize for his registered Marquis wheat at the Provincial Seed fair held at Edmonton recently. The competition was very keen some of the foremost wheat growers having exhibits there.

Holy Trinity Ladies Aid will meet at the Anglican Church on Wednesday Feb. 7th at 2.30

School Fair For Tofield

EDITOR'S NOTE. We have always been of the opinion that Tofield and district scholars were losing a great deal by not having a school fair association. Discussing the matter some time ago with Mr. Willans, we found that he was as enthusiastic over the form of community enterprise as we ourselves are. Therefore it was decided to take up the work and arrange to have an association formed. The Mercury communicated with and procured the approval of both inspectors Hannah and Robertson as well as Principal Young of the town school, and a meeting of all interested is being announced for February 17th. While we have been attending to these matters Mr. Willans has been doing valuable work throughout the country districts, and report that the proposal has received hearty accept.

OPEN LETTER

The "Mercury" in this week sending out a circular letter to the various School Districts centering on Tofield asking them to send representatives to a meeting to be held on Feb 17th for the purpose of organizing a School Fair Association, a movement with which I am most heartily in accord.

In considering a project of this nature there necessarily arises the question of cost. The whole of this cost put upon the districts concerned as the department of Education and the department of Agriculture, working together, bear a large share of the expense. These departments supply free seeds, judges, two thirds of the prize money for live stock and practically all of the necessary printing. The share left to the community is the necessary organization, the creating of enthusiasm and the balance of the prize list. I have thoroughly investigated the matter of financing and find that the money cost, if all districts participate which may be reasonably expected to do so, it will not exceed an average of fifteen cents per ratepayer or a total of between $150 and $200.

The primary object of a school fair is to stimulate among the scholars, by healthy competition, an increased interest and enthusiasm in school work. To this end prizes are offered for the best samples of work in the various departments of school activity as well as for a few classes of live stock, grain and garden produce. Fair Day—the day exhibits are placed on view and the judging is done—is but the climax of a year's effort. The scholar works during the year producing his best with the fair always in view and the wise teacher will commence immediately to select the better samples of work so that from these may be chosen those which are deemed "best" for exhibition. Everything possible is done to ensure the maximum of benefit to every scholar of the schools participating and in the interest of fairness to all, samples of work to be shown are standardized as to design and subject so that the basis of judging and exactly what is required from each competitor may be known.

The inestimable value of such a fair to the cause of education over shadows the monetary out lay, it ceases to be a luxury or "frill" and is made a necessity if the ratepayers are to get full value for the money expended in the up-keep of our schools.

To make a School Fair a success, co operation is an absolute essential. School Boards, parents, inspectors, teachers and scholars must work in unison. We can trust the scholars, teachers and inspectors to do their share and if the school boards and parents of the community join hands with them, Tofield may have this year a fair that will reflect credit on all, even those most remotely connected with it.

Our school boards are composed, for the most part, of conscientious men and women who endeavor to set in the best interests of education in their respective districts having regard for the wishes of the ratepayers. Let them know your opinion regarding a School Fair and they will act accordingly.

A. WILLANS

J Holstine has purchased the equipment and good will of the Economy meat market.

A business man's lunch will be held at the Royal Alexander Hotel on Wednesday next February 7th. Messrs Pincott, Beirnes and North are the committee in charge and an interesting as well as profitable event is anticipated.

Service will be held on Sunday at 11 a.m and 7.30 p.m. February 4th at the Anglican church, Tofield, 3 open at 3 o'clock. Rev. Adams of Edmonton will conduct the services.

Gibson - Gee

At the residence of the Bride's parents, Kingman, Alberta, on Wednesday January 24th 1923 by Rev. R. G. Watt B. D. of Tofield, Mr. Thomas George Gibson to Grace Violet Gee both of Kingman.

Mr A. Hingley, leader of the local Taxis group attended the Conference at Edmonton

A dance will be held at the Woodlawn school on Friday, Feb. 9th Spalted Orchestra will play. Collection

Born—To Mr. and Mrs A Barstowe, on Sunday January 28th, a son.

Women's Institute Notes

There will be a general business meeting at the Institute rooms on Feb 6th, at 2.30 p m

All members are requested to be present. Important matters to be dealt with.

The Whist Drive will be the order of the evening of Feb 6th at 8.30 in the Institute Rooms Come and bring friends. This is the beginning of the new series.

The social meeting will be held on Feb 13th at 2.30 p. m.

Please remember our Saturday afternoon lunch served from 2 to 5 o'clock. Special attention will be given to this during the coming year

A nice addition of splendid books has been made to our library. You are invited to look them over.

Tofield was represented at the Taxis Boys conference held at Edmonton last week by J Cookson, G. Dibb, H Lewis and Ray Hingley. The "Mercury" would very much appreciate an article entering to the work of the conference from either one of the delegates

Miss Violet Taylor wishes to thank all those that purchased Edmonton Carnival bonds; thus enabling her to become a carnival princess.

We are pleased to receive a copy of the C. N. R. Magazine in which C. Simpson of Tofield is mentioned for meritorious service.

Mrs. F. E. Hills was very pleasantly remembered that it was her birthday when several sleigh loads of neighbors came Saturday afternoon, with well filled baskets, to help her celebrate. They left a beautiful bouquet of flowers and other dainty gifts as souvenirs of the occasion.

Tofield Hockey Team Win Playing Edmonton Journal

In a hockey game with the Edmonton Journal on Tuesday, the Tofield team out skated, out checked and out played the visiting aggregation, and finally won by a score of 7-4.

The first period opened with Tofield setting the pace and shooting regularly, but by a nice piece of combination work the Journal took down the park and beat Smith Tofield quickly retaliated, Livingstone bringing up the park, shoot ing and McIntosh getting the rebound and scoring Scott Lee scored next, the park just going in the corner of the net Livingstone brought the puck up again and scored The second period opened slow, but after a few minutes play the Journal rallied and for ten minutes played fast hockey,got two goals andout the pace. But during this time Tofield scored two goals also, one from a scrimmage and the other Scott Lee put in. After this the Journal badly slumped and were no longer dangerous The third period was all To field the Journal seemingly playing a defensive game to hold down the score.

All our boys played well, Livingstone playing his best game on To field ice Archie played a good game while Scott and Roy Lee are getting better and better. McIntosh was as usual effective

Beware! Of The ORDINARY COLD

Here You Will Find all the Remedies Necessary to Prevent an Ordinary Cold Becoming Something Worse

A. Beirnes
Practical Druggist

The Manufacturer--

To day one hears a good deal about the salesman the man who by suave words and convincing arguments speeds up the commerce of the nation. His work is indispensable. But back of the salesman is the manufacturer, that individual who takes the raw material almost as nature gave it, and by ways expert and intricate, transforms it into some need of a vast multitude of people.

German Resistance Is No Longer Passive, But Becoming Active

Paris.—All the elements recently cited as contributory causes of open war exist in the Ruhr Valley. The German psychology, brought up by the presence of the French and Belgians, their hatred accentuated by the arrest, and conviction of industrial leaders, have carried our demonstrations of a violent nature at various centres in the Ruhr and the occupying forces have gathered their machine guns, 75's and weapons of larger calibre at strategic positions for the purpose, it necessary, of overcoming resistance on the part of the civil population, and the enforcement of the decisions of the Allied Council.

The return of Fritz Thyssen to Duesseldorf, and then to Essen, was made the occasion of remarkable demonstrations, in which French cavalry and infantry were called into action. There was some firing by the military, although the French say under orders not to use ball cartridge unless attacked.

The railroad strike is reported to be almost complete. The roads are tied up for the present, and traffic of all kinds is in a state of suspension. Meanwhile, the French are sending into the Ruhr, railway men and officers of all kinds, and promise to have the various public services in operation within about four or six weeks.

M. Letrequyer, French Minister of Public Works, and General Degoutte, Marshal Foch's chief of staff, are on the spot, and military measures of a specific nature are to be carried out in the revolutionist spirit of the German resistance.

While M. Letrequyer declared at Duesseldorf that "France is here to stay until she gets complete satisfaction from Germany," Dr. Herme, the Saxon Minister of Finance, introducing the budget in the Reichstag at Berlin, declared that the Reich was "firmly resolved to resist to the utmost at her disposal to France's efforts to destroy the unity of Germany which was being pursued against her."

Belgium Can Supply Realism

Brussels.—The Minister of Colonies in a statement made in the Senate, said that Belgium likely would become the world's chief producer of rubber. The Belgian Congo, he declared, would be able to furnish Europe in the near future with all the rubber it needed in quantities as to supply the needs of the world.

MINISTER OF RAILWAYS BURIED AT WINDSOR
ENTIRE COMMUNITY PAYS LAST RESPECTS TO HON. W. C. KENNEDY
Windsor, Ont.—Attended by Rt Hon. W. L. Mackenzie King, Premier, and Rt Hon. Arthur Meighen, leader of the Opposition, Mayor Wilson of this city, and hundreds of other public men and civic organizations and municipalities, the funeral of the late Hon. W. C. Kennedy, Minister of Railways in the Dominion Government and prominent citizen of Windsor, who died in Naples, Fla., was held to-day here. Practically the entire community took part in the funeral. Business was suspended. Besides the cabinet who accompanied the Prime Minister to Windsor on the special train there were present: Hon. Charles Murphy, Postmaster General, and Sir Lomer Gouin, Minister of Justice.

Several Members of Parliament and Deputy Ministers came to Windsor on the special for the funeral.

The body was conveyed from the Kennedy residence to St. Alphonsus Roman Catholic Church. Following the service the cortege moved to St. Alphonsus Cemetery for the interment. The Knights of Columbus took a prominent part in the funeral

Employment in Canada Shows Downward Trend
Decrease in All Provinces According to Statistics Issued

Ottawa.—The volume of employment in Canada, as reported by employers to the Dominion Bureau of Statistics at the beginning of August, showed considerable contraction. This is the largest recession of the temporary character recorded in many months. Preliminary returns for the holiday season, it is said, indicate that the number employed will be somewhat smaller than that recorded last year, but since approximately as many as recently been higher, the shrinkage involves the release of a larger number of wage earners than the employment in all previous w fully downward.

West Needs Elevators Along Pacific Coast
Grain Growers Must Have Difficulties of Transportation Removed

Hamilton, Ont.—Speaking here Hon. G. P. Smith, of this city former Minister of Education in Alberta Government, declared that the West Canada could not have prosperity unless the difficulties of transportation and trade were removed for the west ern grain growers.

Mr. Smith quoted figures with the view to showing that the Dominion Government spends millions on the Vancouver and Prince Rupert and only half of the western grain that way.

Canada's Potato Crop

Upon an acreage of 603,250 in 1922, as compared with 701,312 in 1921, the total yield of potatoes in Canada is estimated by the Dominion Bureau of Statistics at 99,065,000 bushels. Last year the larger acreage yielded 107,- 246,000 bushels. In 1920, the record year, the total yield was 132,521,000 bushels.

Leaserred the Pressure

Britain's war debt to Canada nir Lalmond Walker told the shareholders of the Bank of Montreal, had been reduced by November 30, 1922, from $126,000,000 to $75,000,000. The five million dollars a month paid by the British Treasury has materially been used in the presence of the Dominion Treasury during the past year. -Toronto Globe.

Commissioner Appointed

Canada Will Send Delegate To Opium Conference

Ottawa.—Dr. Roderick Kennedy, Deputy Minister of Health, will represent Canada at the International Opium Conference which will meet at Geneva on November 15th. Dr. Kennedy will be accompanied by Mr. Justice Hyndman, of the Supreme Court of Saskatchewan, who will represent the Canadian Government in a legal capacity.

Oppose Free Entry Of Oleomargarine

Alberta Dairymen Want Butter from the Province Branded "Alberta

Calgary Alberta dairying, at the concluding session of their annual convention here, went on record by unanimously adopted resolutions condemning the free importation of oleomargarine from the United States, asking that all Alberta butter packed for export be branded "Alberta butter," and expressing commendation of the work of the National Dairy Council

Directors of the Association of Alberta Dairymen elected are as follows: Messrs. Sedalia; Dalehead; R. S. Clarke, Didsbury; P. Pallesen Chinook; D. Blackberry, Markerville; W. A. Percy, R. S. Smith and A. M. James, Wetaskiwin. At the meeting of directors Messrs. Percy and Smith were elected delegates to the Dairy Council.

Another resolution adopted by the convention urged that the Provincial Government establish a Provincial Bull Association.

Progressives Will Not Join Coalition

Ottawa.—Robert Forke, leader of the National Progressive Party, who arrived in Ottawa to take up residence for the coming session of Parliament, had little comment to make in addition on the statement of Hon. Robert Rogers that there were still

by only two political parties, the Conservatives and Liberals, and that the Progressives were trying to persuade the public they were a separate party

The Progressive leader was, however, very emphatic in denying that the Progressive party had ever done than an "illegitimate political bargain" and declared that "Hon. Mr. Graham knows as well as anybody else that the Progressives have never been the National Progressive party and the Grain Growers Grain Company." Mr. Forke declared he regarded that charge as all rot.

Mr. Forke was asked to what foundation in fact for the charge. Mr. Forke said, that Hon. T. A. Crerar, the Progressive leader, was to blame for the depression in the west because he was a willing worker for the railways at Ottawa." Mr. Forke affirmed with emphasis that Mr. Crerar had no connection with the railways. The cause of the depression in the west was the failure of production, and the fact that overhead expenses could not balance with returns. While the crops in Western Canada last summer had been good and returns promised the liquidation of past debts in some instances, the cost of production had been altogether out of proportion to the price of farm products.

That the National Progressive party would continue to plow its own furrow was the opinion of Mr. Forke. He was not prepared to say whether the Progressives would co-operate in the same degree with the Government at the coming session as last session. Regarding the defection from the Progressive ranks of Messrs. W. J. Hammel, M.P. for Muskoka, and Joseph Harris, M.P. for Provost, Mr. Forke had little to say other than to comment: "We are sorry to lose them."

Canada Will Send Delegate To Opium Conference

The First Anthracite Pennsylvania Colonel Had Trouble in Giving "Store Coal" Away

It is hard to believe that the Germans to take anthracite to Philadelphia only 110 years ago and trouble in giving it away. He was Col. Shoemaker of Pottsville Pa and brandished in countenance for many years at Independent Hall with nine wagons loads. The enthusiast burgeoned and Colonel Cary had heard of the coal which the Schuylkill and Susquehanna Canal had been built to get to the market. A cross fire of jokes and sarcasm greeted the pioneer in a fish pond.

The rube, though proud, was not to be daunted. He knew his coal and is believed to live longer than any other anthracite in the world. A stone that has recorded the history of Pennsylvania coal for 300 years. Col. Shoemaker's coal was not consumed in the fire that destroyed the Capitol at Harrisburg in 1897, but few of them had seen it. In those days Col. Shoemaker's coal was not the big business and commercial asset that it is today. Despairing to sell any more coal wagon-load to return to his family, he offered that business as a gift.

"You are a dreamer, Colonel," he was told. "The Lord hath ordained that we shall burn wood and not coal to bring us stone. You had better throw it into the Schuylkill and save fishing in the face of bad air."

After the colonel had got rid of his remarkable consignment and was preparing at his home for his fifth journey, a friend came and told him: "There is whom you gave the coal could not make it burn and this have gone to the Manufactur and satisfied Mills for you assert as an incendiary you had better leave the city, gone to the Tuscarora Under

Had a Deadly Job

London Visitor Determined to See Last Bucket On Dredger

A party of holiday makers from the North were passing their first visit to London, and for one of their number the endless row of buckets in a dredger at the docks seemed to possess a singular fascination. While the others went off to enjoy themselves, Archie would not budge an inch, but kept his eye firmly fixed on the dredger. Some hours later his friends found him still at the same spot. "Archie," said one of them, "if you stay there much longer you'll miss the boat." "I don't care," was the reply. "I've counted eight thousand and ninety, and I mean to see the last of those buckets if it stay here all night."

Things Undone

Are there things that you neglect to do in 1922 that if done would have made the year a richer one to remember? Did you love sight of a friend whom a letter or a telephone call would have brought into your life again? Did you let slip a day in the spring when you should have been first with the bluet and the bluet? Were you too busy to go to a symphony concert or view the picture which you admired? I should like to do that sometime, we say to that sister to a better thing i Toronto Telegram.

The WISHING FAIRY
Carltme
Pimnie Watches Mrs. Praying Mantis.
By CORINNE.

PIMNIE had left his End of the World home, his Fairy Queen and his friend Jimmy Jumper, the Fairy, and he had been away for quite a long time, wandering around in the world.

He had spent a good deal of time in a garden he found. The family in the house had several children in it, and he amused the little fellow to watch them play games from them that he decided to teach the other Fairies when he got back home. But he was in no hurry to go back, and visit Mrs Mantis a while. He decided to hang around a while in the garden. Pimnie carefully climbed up and walked in even steps on an old Dutch Bible leaf." Then Pimnie thought that it might be a good idea to have a little chat with Mrs. Mantis, because I wonder what strange case she

Mrs. Mantis was resting on her hind legs and her front ones she held high up in front of her face. Her eyes were closed and she was saying her evening prayers. Pimnie watched her for a few moments. He had an innocent little face—longer after a big hop and a jump, landed just in front of Mr. Mantis' nose. Mrs. Mantis opened her eyes and looked at Pimnie. She was much surprised to see a terrible thing was about to happen to her, for it was true that if Mrs. Mantis prayed for rain (rain drops) about ten and she made a wish it was certain that it would be fulfilled. She ate every bit of it, and it strengthened her so much that she felt quite lively let strong crept along that

Pimnie stood up straight from his head

"Mrs. Mantis," he cried, "and she looked so good and pious! She

"Well, I should say not," said Mrs. Mantis. "I would have you know that I am very much better." He real

The School trustees and Sec'y Treasurer, opened the new [illegible] on Friday 26 a. m. in merry melodie, by giving a dance at the school last Friday. The Smith Foss trio entertained the music. Bishop [illegible] and music needless to say that every one present had a good good time.

The promised dance announced by Geo. Wedeke at this house, that was to be at his home on Friday the 9th of February is postponed to the 27th or 28th as said to interfere with other social events in the neighborhood, so don't get the dates mixed. The dance is on the 27th at Mr. Al. Wedeke's house and all are welcome.

Wm. Wilson left this week for a trip to the coast to join her sister Mrs Cleaver who is on a visit there.

Mrs E W Hooper returned home this week from visiting friends in Edmonton. While there Mrs Hooper took in the Edmonton Variety Carnival and reports it a night worth seeing

Mr. L. Hooper was down from Edmonton for a week end visit to his home here

Mr Elmer Lindberg has gone to Edmonton, he states that he will probably take on a the making jobs in some of the camps near there

Mr Leslie Rogers made a business trip to Edmonton this week

Friends of Mr. Jos Ellis late resident of this vicinity will be sorry to hear that Joe is now about to undergo an operation for appendicitis. We hope soon to hear that the genial Joe is himself again even if minus the appendix.

BARDO

Miss Clara Howe returned home on Friday having spent several months visiting with relatives in Washington. Mrs. Howe will remain with her daughter until spring.

Mr. and Mrs. W. E. Parker spent Friday evening in the Peter Lee home.

Mrs. Jameson and daughters entertained the Ladies Aid on Tuesday Jan. 30th.

Allen Lewis, wife and baby spent Sunday in the F. T. Lewis home

Mr and Mrs. W. E Parker entertained Rev. A. Willans, Mr. and Mrs. F. E. Hills and Mrs. P. O. Letchford for dinner on Sunday

Miss Bateau spent the week end at her home in Edmonton

The Eagan and Beerkan families were guests at Irvin Morris on Sunday

Miss Cora Eagan spent last week end with Nora Rude on the Gordon Farm

Following their usual custom when one of their members becomes a bride, the girls of the Thimble Club visited Mrs. Irvin Moon at her home on the J. Anderson farm on Tuesday afternoon, making her a hand some present.

Word has been received that Olaf Anderson and Ingolf Moen, who went to the coast for the winter, will not return here in the spring, but will spend the summer with a company fishing in Alaskan waters.

Tofield Must With First D'feat of Season

Boots Bain will have to be at the next Tofield—Bloomsbury hockey game, stethoscope in hand, to test hearts, and all those that have weak pumping apparatus will be supplied with a bottle of ox - or smelling salts.

On Tuesday night with three goals to the bad, the local boys on the ice in the third period al- etting a dizzy pace that kept th. rink in continuous uproar one a within an ace of tying the score. A large number of people claim that the score was tied, Tofield scoring a goal that was disallowed.

The play in the first period opened up with the appearance of an easy win for Tofield. As play progressed the visitors stiffened and scored two goals before the ball rang. In this period there was a short fitness due to an Edmonton man losing his head.

The second period was good hockey, Tofield having a decided advantage in regard to territory play. Their shooting however, was somewhat erratic, and Edmonton had a wonderful goal keeper Tofield scored first in this period Melstead putting in a nice shot. Edmonton quickly retaliated, Smith stopping the shot but it glanced off of his stick into the net. Shortly after Edmonton put in another one, and shortly after that Smith slapped a hot one that glanced from his pads and struck his head rendering him unconscious. The teams went to the dressing rooms with the score standing 4 1 in favor of Edmonton.

The third period was thrilling The locals set a dizzy pace and out skated and out generalled their opponents. Roy Lee sent a wave of enthusiasm through the crowd when he notched a counter. Livingstone followed this up with another and the crowd went wild, and when the last score was made the noise was deafening. Edmonton thus beat O'Neil and shortly after the face off Livingstone Livingstone took down the park and apparently scored but the goal was disallowed, and the game ended with the score 5 4 in Edmonton's favor.

It would not be right to mention any individual members of the team. Everyone included played brilliantly. The Tofield line up was, Smith; R. Lee, Livingstone; Pruden, McIntosh, H. Lee; subs Howell O'Neil played goal during the last period.

Treats In Store For Film Fans

The management of the Variety Theatre have made arrangements to show the following

High Class Productions

These bookings were made so as to give Tofield Theatre goers better pictures and the expectation that the increased cost to the management will be met by increased attendance. These are all excellent features and have recently been shown in the largest and best theatres of the Dominion.

Commencing Friday Mar 2nd

A Friday Evening Matinee

will be given so give those unable to attend on Saturday a an opportunity to see these excellent features.

Friday and Saturday, March 2nd and 3rd.

June 1st and 2nd
"Across Continent"
June 8th and 9th
"Get Rich Wallingford."

A Quiet Election

On Monday of this week nominations for the offices of mayor, councillors and school trustees were made to W. J. Chapman, returning officer, at the town hall.

In common with past years there was not a great deal of interest shown and the mayor, councillors and trustees were all elected by acclamation. Mr. A. J. H. McCauley was re-elected mayor, and Messrs Swift, Dixon, and North are the new councillors. The complete council now comprises, Mayor McCauley, councillors, Bracq, Chapman, Dixon, North, Swift and Worton.

There was only one change in the School Board, E. P. Howe retiring and W. Worton being elected in his place. The trustees of the School Board are now J. W. Cookson, J. W. Chapman, J. Lee, Mrs. McCauley, and W. Worton.

The second period was a short fitness due to an Edmonton man losing his head.

The second period was good hockey, Tofield having a decided advantage in regard to territory play. Their shooting however, was somewhat erratic, and Edmonton had a wonderful goal keeper Tofield scored first in this period Melstead putting in a nice shot. Edmonton quickly retaliated, Smith stopping the shot but it glanced off of his stick into the net. Shortly after Edmonton put in another one, and shortly after that Smith slapped a hot one that glanced from his pads and struck his head rendering him unconscious. The teams went to the dressing rooms with the score standing 4 1 in favor of Edmonton.

The third period was thrilling The locals set a dizzy pace and out skated and out generalled their opponents. Roy Lee sent a wave of enthusiasm through the crowd when he notched a counter. Livingstone followed this up with another and the crowd went wild, and when the last score was made the noise was deafening. Edmonton thus beat O'Neil and shortly after the face off Livingstone Livingstone took down the park and apparently scored but the goal was disallowed, and the game ended with the score 5 4 in Edmonton's favor.

It would not be right to mention any individual members of the team. Everyone included played brilliantly. The Tofield line up was, Smith; R. Lee, Livingstone; Pruden, McIntosh, H. Lee; subs Howell O'Neil played goal during the last period.

Approves of School Fairs

I would be glad to see a School Fair held in Tofield, for it would prove a benefit to the country and town. I hope the Tofield School Board will take the matter up and get in touch with all the school districts surrounding and try to have one this year.

A. J. H. McCauley

As retiring chairman of the Tofield School board I must say that the board has in the past always been sympathic toward any thing that will be for the advancement of Education in our district. With the large territory surrounding Tofield there can be no doubt but that a fair of this sort would prove a great success This to my mind is a golden opportunity to show the parents and the general public the splendid work carried on both in town and country schools.

yours truly
R. P. Rowe

School Fairs are of prime value in emphasizing the importance of agriculture as our basic industry. By so doing they tend to arouse interest in intensive farming.

In rural districts teachers are able to correlate Fair activities with many of the school courses, thereby adding to the benefit of the practical farm work and the more theoretical studies of the class room.

Fred G Young
Principal of Schools.

You may quote me as being in favor of a school fair. It should be of continuing value to the community as a whole

Jos. Rogers
Pres. Agric. Society

I heartily endorse the movement towards establishing a school Fair for the Rural schools of the many school districts of which Tofield, is the centre

Such exhibitions have been successfully conducted in other centres of the Province, many of which are not so favourably situated as our District

Canada is essentially an agricultural country and the most valuable asset we have is The Youth of our Land.

We value the splendid and productive tracts of land which we possess but if we fail to give our boys and girls a fair chance to learn in our schools some thing about our basic industry Not only from a theoretical but also from a practical standpoint we miss the mark. If we can give our growing boys and girls something definite to do and, at the same time, encourage a friendly rivalry amongst them, we have helped to lay the foundation of habits of industry and thrift.

This is one of the many reasons why I wish to say that I hope all who are interested in

Interesting Local Pars

Two rinks of Tofield curlers are attending the Wainwright bonspiel. J. Lee skipping one and Mr Barnett the other. The personal of the rinks are Messrs Chapman, Dodds, McCauley and Barnett (skip). Messrs Ferguson, McMillan, Hammond, and J. Lee skip

The Tofield School Board met on Tuesday evening in regular session, the principal business being the passing of the estimates for 1923. There were present, Mr. McCauley, J. W Cookson and W. J. Chapman

Friends of D E Ball will be pleased to learn that his again been chosen as one of the auctioneers to sell at the Edmonton Spring Stock Show. This is the second year Mr. Ball has been chosen for this work, which speaks well for both his auctioneering ability The Edmonton Spring Stock Show sale is the premier stock selling event of the province

The annual ratepayers meeting of Tofield municipality will be held on Saturday February 17th at one o'clock At this meeting affairs of the district will be discussed and nominations will be made for the office of councillor There are three retiring councillors Messrs Thompson, Brown and Roy, the remaining councillors Messrs Williams, Holmberg and Abernethy having another year to serve. The elections for councillors (if any) will be held the following Saturday.

Those attending the Variety on Saturday evening were unable to see the complete show due to a breakdown of the engine that runs the dynamo Consequently Manager Bellamy returned the admission paid. It should be noted that this is the first time since 1911 that a mishap important enough to close the show has occured. As the electric current is used for cooking purposes it is necessary that the engine must be kept running while the current is being used, this is a remarkably good record.

There will be Service at Holy Trinity Church on February 18 at 3.00 p. m. when the Annual Meeting of the congregation will be held.

While conditions in general are not of the very best it is refreshing to learn that the Edmonton City Dairy paid out the cream during January $2157 71, this is over $500 per week

developing in our boys and girls such habits and thus to help them to the class where they will be in a position to assume the privileges and responsibility of Canadian citizenship will heartily co-operate with the School Fair of 1923 a pronounced success.

R. G. WATT B.A.

Your Auction Sale

If you are going to hold an Auction Sale this spring now it is time for you to make your arrangements and get your sale date, we are now in the month of February and the rush will soon be here. I have made it a practice to co-operate with those selling in their advertising campaign and this can be done much better when lists and dates are in early. I have a number of sales listed for this season and would be glad to add yours to my list

As Good As The Goose—

The goose that laid the golden eggs has nothing on the grade Holstein now belonging to J. Morton. This cow during 1922 gave 13,326 lbs of milk, her average test 3.5 which means that she gave 466.8 lbs of butterfat. Mr Morton sells unpasteurized cream to the Edmonton Dairy and using G. per lbs as an average price for the year her product brought in cash $239.86. This is a splendid return from one cow and is all the more remarkable because during the whole year she has received no special feed and there was no silage during the winter. Higher records have been set by pure bred princesses and this case is not generally due has had special attention and feed

Letter to the Editor

To the Editor,

Dear Sir:

I should like to know this herd law proposition that is going before the ratepayers at the coming election. In the Vandalia Magazine [illegible] I see a lot of talk in favor of it, and I see a lot of talk against it. I have been a ratepayer in this district for [illegible] years, and I have never had a chance to vote on a herd law question before. I am not in favor of it, but I would like to hear the arguments for and against it. I have been asked to vote for it, but I have not decided how I will vote. I would like to hear the arguments for and against it, so that I can vote intelligently. If I am buying [illegible] I will publish my reasons for so doing.

Wishing to remain,

Very respectfully to All

A. HOGERA

Market For Canadian Grain Expanding As World Shortage Of Wheat Becomes Evident

One of the curious phenomena noted in the United States, and often commented upon, is the "wheat line" which has receded many miles from the fertile belt of virgin soil was exhausted and more diversified and intensive farming was adopted.

It may be that some of the old-growth growing districts in Saskatchewan have come to the less stable transition stage which requires more skill of farming. Summer cultivation following, green manuring crop rotation, etc., are being slowly adopted though the process is not profitable to growing wheat in competition with virgin land.

Yet the market for Canada's grain is expanding. Japan has just come to buy, to make arrangements for the shipment of Canada's grain to that country, several hundred bushels representing an almost new potential wheat producing area. What part of Canada will be expected to fill it we will in the future. Probably not all of this will certainly help grow as the Pacific coast demand for Canadian grain grows. Indeed the Far Eastern demand is only in its infancy.

Where is Canada going to get the men to settle the land and produce the wheat? Where is the money coming from to finance the settlement of the new areas? Where is the market coming from for the increased production? These are questions which are being asked by many people in the United States, and which are being answered by many people in Canada.

Canada is going to get the men, the money and the market. Canada has the men, the money and the market. Canada has the men, the money and the market. Canada has the men, the money and the market.

Canada has

Germany Opposing British Aircraft

Taking Advantage of Provision in Treaty of Versailles

Home owners is being caused by the action of the German Government refusing to allow British commercial aircraft above a certain size to fly over their borders, as this action means the closing down of its aerial mail and passenger service now running between London and Cologne and Paris. This has been a great loss of travel and later the mail has been so great that two air liners had to be put into service instead of one. Under the treaty of Versailles Germany has the right to ban foreign aircraft after January 1, 1922, and she is taking advantage of this provision. One British concern, it is understood has come to an understanding with the Germans by which the aircraft of their ten seater right through to Berlin from London in the coming year.

Uses for Skim-Milk

Many Articles Can Now Be Manufactured from Dairy Product

"Skim milk used to be considered an nearly worthless as anything might well be," says a chemist. "Now it turns up as hair-tonics, fountain pens, and paper sizing. I recall a man forty-two who was making a water paint out of glue and gypsum. He found a German product which was better than glue but the cheapest was 27 cents a pound for it which was more than he could pay. The German product, on analysis, proved to be only a mixture of casein and lime. Casein is easily prepared from skim milk. We made some for ourselves. The man's factory was in a dairy country. Since then he has secured a large contract selling him the casein he makes. He sells it to paint manufacturers, and to paper manufacturers, and to cotton manufacturers, and to makers of buttons. Any original veneer to Robert Burns was found, within an hour, to an old book recently offered for sale at several bang in London.

Seeing By Wireless

System So Perfected that Tele-Vision Will Become Practicable

Edouard Belin, the inventor of telephotography and the transmission of handwriting by wireless, believes that television will be possible before long and not direct vision by wireless—that is, distant people to gaze on a scene many miles away without the scene being first photographed.

For television, he says, that it is not only necessary that the whole of the subject of the scene should be visible at one time, but that the image should be transmitted at the highest possible speed.

He thinks he can believe his object by the aid of photo electric bulbs, which are so sensitive that they respond to so faint a light as that of a distant star.

The science of wireless reception has been so perfected that he believes the employment of these bulbs should present no difficulty, and the great discovery will make television practicable.

This school however, would not be sufficiently present to transmit moving pictures, as it is not expected to obtain a higher speed in transmission than one second.

Women's Institute Notes

At the last regular business meeting of Tofield Women's Institute the subject of school fairs came up for discussion. The meeting deciding unanimously in favor of School Fairs for Tofield. It was further resolved that as this is in the line of the Institute work, that this branch hold themselves in readiness to cooperate in any way they find possible.

Mrs. M. Mahaffey, Pres.
Mrs. R. J. McKerrel, Sec.

The regular social meeting was held at the rest rooms on Feb 13th with eleven members present. The roll call was ably answered by the Mothers and others by "How a child should be corrected." Mrs. Swift gave a paper on Ontario, which was appreciated by all.

The quilt we have on hand will be finished as soon as the curling season is over.

The Saturday serving netted the Institute $12.40 after all expenses were paid

Topic for the March social meeting will be, "How we utilize our odds and ends." Any one who makes up any nice dish out of "odds and ends," or sewing, bring them along. The odds and ends in the cooking line will be used for the lunch that day

The next whist drive will be held on Feb. 20th at the Institute rooms. The drive starts at 8:30 p. m.

Bonspiels Are Popular

Attending bonspiels seem to be the prevailing mode, rinks from Tofield attending bonspiels held at different points. Both rinks attending the Wainwright spiel reached the jewelry class. Burnett being third in the Edmonton Brewing Co. trophy and Lee being third in the Calgary Brewing Co. trophy. Burnett and Lee rinks play on other here in the finals of the Visitor's trophy. The personnel of the rinks are Messrs J. Hopman, Dodds, McCauley and Hornett (skip). Messrs Ferguson McMillan, Hammond and Lee (skip)

A rink of Tofield curlers is at Leading the Wetaskiwin Bonspiel Those comprising the rink are W. Chapman, J. Warner, J. Lee, G. McLaughlin (skip)

A rink of lady curlers from Tofield are playing in Edmonton bonspiel, they are Mrs. Hopman, Mrs. McCauley, Mrs. J. Lee and Mrs Hammond (skip)

FATHER AND SON WEEK

Special Programme at Sunday School and Church

Father and Son Banquet Held Tuesday Night

All over the Dominion the Tuxis Boys' and Trail Ranger groups are observing their annual Father and Son week. At Tofield a full programme of events has been carried out, which has included special work in the Sunday school church, father and son banquet, also hockey and broom ball games. At the Union church Sunday school on Sunday addresses were given by Malcolm Howe, Horace McHeffey, Harvey McClymont and Willie Worton. At the three evening services also was conducted by the boys, addresses were rendered by Wm. Swift, Harold Lewis, Teddy Parish, Glenn Wood and W. J. Chapman. Geo. Moon sang a solo.

On Tuesday evening the annual father and son banquet was held, and the trite expression that it was a success does not do justice to the occasion, it was a wonderful success. Over fifty fathers and sons sat down to an excellent banquet prepared by four mothers and thoroughly enjoyed the sumptuous spread. Calling the gathering to order, Mr. Hingley then led in community singing, in which the boys and fathers all joined. This caused lots of fun the fathers having to go through the same antics as the boys.

Gordon Jobb (choir man) then, in an appropriate speech, proposed the toast to the King. A number of other toasts were then proposed and responded to by some excellent after dinner speeches being made. Each speaker was limited to three minutes. The programme follow

Toast, "Our Dads", proposed by Harold Lewis, replied to by Mr. Swift; toast, Our Mothers proposed by Bud Hammond responded to by F. G. Young; toast, "Our Community" proposed by Mr. Hingley, responded to by Mr. Watt; toast, "Our Community" proposed by Mr. McCauley, community singing; toast, "Our Sons", proposed by Mr. Henry, responded to by John Cathish; toast, "Our Leaders", responded to by Mr. Harold and Mr. Hingley.

The weather the past week [illegible]

Mention of the work in connection with the banquet should not be omitted, due to the rain caused by the ladies, brought for it week, the streets made very great applause. The ladies' new skating rinks, the ice was in excellent shape. Hockey and broom ball games were Monday, Tuesday and Wednesday evenings. Results Woods and Mrs. Lewis

Attend The School Fair Meeting

As considerable opposition has arisen to the suggestion that a school fair association be formed, we urge all such as those interested to attend the meeting to be held at the town hall on Saturday at 2.30 p.m. We further wish to state that the policy of this paper is now and always has been one of construction not destruction. We have assisted in presenting to the public this matter in the belief that we were doing a public service. It is entirely up to public to accept or reject it suggestion.

THE TOFIELD MERCURY.

It is with much regret that we report the death on Thursday from diphtheria of Clifford the three year old son of Mr. and Mrs. J. Elliott. The Elliott home had been quarantined for the past three weeks on account of the illness of a youngster [illegible] The funeral was held on Sunday afternoon, Rev. Watt officiating. Interment was made in the Tofield cemetery. The sympathy of the community is extended to the bereaved parents in their sad bereavement.

[illegible] Mrs. Mackenzie [illegible] Hotel on Feb 2nd [illegible]

It is man asked you to marry him and you refused and just then a mother cut entered the room and asked you how you would you change your mind and say "yes". That is what the girl in "The Mad Marriage" does at the Variety Theatre. "The Mad Marriage" is Cinderella June" by Marjorie Benton Cook. It is full of thrilling [illegible]

[illegible] Public Notice is hereby given [illegible] of the electors of the District of [illegible] No. 687, will be held at the Municipal building, Tofield, at one o'clock on Saturday, the 17th day of February, 1923 for the discussion of affairs of the district and the nomination of candidates for the office of councillors, and that such nomination will be then and there received from the hour of three o'clock until the hour of four o'clock in the afternoon

What Price Will You Pay For Your Car?

EVERYBODY at Ford is keen to keep down the price of Ford Cars. The $445-price is based on the expectation of a Spring business of 8000 cars per month. If that business comes, the price can be maintained. It rests now with the public to say whether Ford prices will be higher or not

If you want a Ford in the Spring you can order it today for delivery later—and pay the lowest price in Ford history. $445.

OUR SMALL ADS. REACH HOME

Safety Of The World Depends On Amity Of The English-Speaking Peoples

Sir Auckland Geddes, in a recent speech at Washington, very pertinently stressed the urgent need for continued co-operation and friendship between Great Britain and the United States. Sir George Foster, ex-Secretary of State Cully, Dr Charles A. Eaton and others equally well known have taken up an analogous theme, pronouncing definite opinions that the safety of the world and civilization generally depends upon the whole-hearted unity of the English-speaking peoples. Rome was the greatest empire in ancient times. The man who did most to make Rome was Julius, nephew of Julius Cæsar—himself a thoroughbred Roman. Augustus was possessed of supreme wisdom and knew when aggrandizement became injurious with weakness and final power resulted in consolidation. In this manner the dominions of Britain and the United States should tend to world strength. Sir Auckland Geddes has some personal experience of the strengthening of Anglo-American friendship since he went to Washington, and the United States people have recognized in him a man who knows his own mind and who writes with a clear understanding which they have not failed to appreciate. Sir Auckland knows Canada better as well able to [illegible] the full import of [illegible] Canada's position in the British Empire. He is a member of the Privy Council, realizes that as against a possible combination of [illegible] Canada's interests are those of the United States and Great Britain, and that the [illegible] Dominion is not [illegible] to [illegible] Empire. He is a [illegible] and knows [illegible] and [illegible] in the [illegible] and [illegible] Empire [illegible] Canada [illegible] and [illegible] Empire [illegible] Canada [illegible] and [illegible] Empire [illegible] Canada

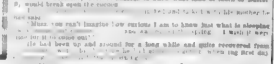
IT ENDS PAIN



"YOUR TEETH"
LOSS OF THE TEMPORARY TEETH
By Dr. Proctor McCoy, M.D., D.D.S., Philadelphia.
All temporary teeth that are ab-
ecessed must be removed. There
must be no delay. Harmless ab-
scesses do not exist. If your child
is carrying poison in its mouth, and
you know it, are you willing to as-
sume the responsibility when the ill
he one suffers from systematic infec-
tion, or do you expect to place the
blame upon an all wise Providence?
Every child's mouth should be exam-
ined at frequent intervals to find out
whether or not there is decay or in-
fection or both.
In many cities and towns both in
this country and in Europe there are
public school clinics where the child
dren's mouths are examined and
where reparative work is done. In
many states the public health boards
send out dental clinic committees to
examine the mouths of children in the
country and small town districts so
that the poorer may be informed as
to the conditions that are present in the
mouths of their children. The time
not in these cities is very great, in
January, 1921 an examination clinic
was being held by the Minnesota Pub-
lic Health Commission in a far north-
ern district where the temperature
was below zero and the show was two
feet deep. One country school teacher
miles away brushed aside the snow
bank of little tots and sent them to
be examined. The last I saw of the
kind of distrust appreciate their chil-
dren and are going to raise them up
to be strong, healthy citizens. These
clinics are for the purpose of instruc-
ting the parents how to handle the case
and the parent can then take the child
to the dentist of their choice and have
the child's mouth put in order. When
you get a school report on your child's
work, appreciate it by following its
direction.

Journalistic Self Respect
A newspaper has as much idea of
loyalty to its community as any
citizen in it. If possesses equal re-
gard for the best citizens and has
a good idea of proper direction on its
public matters. It handles local af-
fairs needing wisdom, discretion and
judgment daily than a few hundreds
of its readers meet with, annually
to the honesty of the newspaper
without hesitancy it may be pro-
cured and obtain the support which
is its life.—Dundon Sun

It sometimes happens that a seen
conscientious citizen's refusal convicts the
laziest

Better Prices For Wool
Better prices for wool were re-ceiv-ed by Saskatchewan wool growers during 1922, according to a report issued by the western manager of the Canadian Co-operative Wool Growers' Association. The average price per pound for the year was 18½ cents, nearly fifty per cent. higher than the 1921 average sale.

Miller's Worm Powders will eradi-cate the worm evil that bears so many little children. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these de-structive pests and restore the be-fouled and painful system to health-fulness. They are an excellent com-pound for these evils.

From 1901 to 1920 the total number of new British settlers in Canada was 1,245,289. During the same period, Canada received 1,211,125 settlers from the United States.

What a splendid thing it would be if people who lose their tempers were unable to find them again

GIN PILLS FOR THE KIDNEYS

A Unit of Electricity
Equals Work of One Horsepower for 45 Minutes
A French inventor for encouraging national industry has just issued a list of the things that can be done with a unit of electricity equal to the work of one horsepower for 45 minutes.
It will save a gallon of water, or boil two gallons of water, or make nine pounds of ice or steralize 2 000 gallons of drinking water, or grind 50 bar-rels, or plough 120 square yards of land to a depth of a foot, or thresh 150 sheaves of corn, or make 1,000 envelopes of letter size, or gen-erate the cream from 300 gallons of milk, or tie up a hundred sacks of coal.
It will light up a hall 25 feet wide and 50 feet long for 25 hours, or pump a thousand gallons of water into a tank 50 feet above the ground.
Good workers are like sheaves—they stop up when the go by work.

Moses was appointed a judge at 120 years of age. Joseph was governor at 30. Daniel was a statesman at 16. Jeremiah was a prophet at 23. Solomon was king at 12. Josiah was king at 8. Jesus was a preacher at 12. Elijah was a reformer at 14. Timothy was a bishop at 20. Obadiah was a prophet at 5. Joash was king at 7. Jehoiachin was king at 8. Rehoboam was king at 41. Abijah was king at 25. Asa was king at 41. Jehoshaphat was king at 35. Jehoram was king at 32. Ahaziah was king at 22. Hezekiah was king at 25. Manasseh was king at 12. Amon was king at 22. Josiah was king at 8. Jehoiakim was king at 25. Jehoiachin was king at 18. Zedekiah was king at 21.

The annual naval appropriation bill, which includes a request by Congress that President Harding negotiate with the other powers for further limita-tion of naval armament, was signed recently by the President.

Mrs. Ann A. Ingersoll, eighty-three, wife of Col. Robert G. Ingersoll, the famous agnostic, died in New York, Feb 2nd. She was the last Darrow views on religion and was married to him Feb 12, 1862, the day he went into the Union Army.

An official announcement just made on the status of the British National debt on March 31, 1922, shows that the debt on March 31, 1922, of military debt on that date totalled £7,647,000 less 147. This was an increase of £106,- 877,815 over the previous year.

Sir Harry Lauder's only son, Captain John Lauder, was killed in action on March 28, 1917, while attempting to rescue a wounded comrade. He was awarded the Military Cross for conspicuous gallantry and devotion to duty. Captain Lauder was married in 1916 to Miss Dunlop Wallace, daughter of Mr. Richard Wallace, of Kilmarnock, and left a widow and one child.

Household Hints
Valuable Recipes For the Busy Housewife

Fried Raisin Cheese Sandwiches
2 tablespoons butter, 3 slices cheese, 6 slices bread, ¼ teaspoon salt, 1 egg, ½ cup milk, 3 tablespoons finely chopped Sun-Maid raisins.
Cream butter until soft. Add rai-sins and spread on bread. Place one slice cheese between two slices of bread and cut in halves to make six sandwiches. Beat egg. Add milk and salt and dip each sandwich in the mixture. Fry until brown in a little heated fat. Serve immediately.

Raisin Gems
2 cups flour, 2 tablespoons sugar, 2 eggs yolks, 1½ cups butter milk, 1 tablespoon vanilla extract, Milk or sour cream to taste. Mix flour with butter lightly, add yolks with sugar, add flavoring and enough milk or sour cream to make dough the consistency of pie dough. Fold in two parts, line a cake pan with one part and use the other part to cover filling. Use egg whites beaten stiff for frosting. Sprinkle with sugar and bake in moderate oven.

GUARD THE BABY AGAINST COLDS
To guard the baby against colds, nothing can equal Baby's Own Tablets. The Tablets are a mild Laxative that will keep the little one's stomach and bowels working regularly. This is a recognized fact that where the stom-ach and bowels are in good order colds will not exist, that the health of the child will be good and that he will thrive and be happy. The Tablets are sold by druggists or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brock-ville, Ont.

Power From South Jutland
In connection with supply for recently acquired province of South Jutland

STOMACH MISERY, GAS, INDIGESTION
"Pape's Diapepsin" Corrects Sour, Upset Stomachs at Once

"Pape's Diapepsin" is the quickest, surest relief for indigestion, dyspep-sia, flatulence, heartburn, sourness, fer-mentation and stomach misery caused by acidity. A few tablets give almost instant relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

Time and patience will make a per-son rich, but a woman can do it in a hurry by getting married.

Exhausted from Asthma. Many who read these words know the ter-rible suffering from Asthma. Many of which escape in the form of exhaus-tion. Mrs. Thos. Taylor, Bridgeport, ex-ists, that there is one true remedy which will usually stop this attack-her. J. Et Kellogg's Asthma Remedy is a wonderful check on this exercising ailment. It has a countless record of relief in 1 credit. It is sold almost everywhere.

Some men who won't trust them-selves wonder why others won't trust them.

ASPIRIN
UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all
BAYER
Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for
Colds, Headache, Rheumatism
Toothache, Neuralgia, Neuritis
Earache, Lumbago, Pain, Pain
Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists.
Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mono-aceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer we will protect the public against imitations, the Bayer Cross will be stamped with their general trade mark, the "Bayer Cross."

Canada Sets An Example
Washington interested in Attempt Paid to Agriculture — Canadian House
More than passing attention has been attracted at Washington to the recent address read by Governor Gen-eral Byng at the opening of Parlia-ment in Ottawa. The extent to which the speech dealt with the need of agri-culture in Canada and to help the far mers of the frontiers has been notic-ed by leaders of the farm bloc in Con-gress and by leaders in farmers' or-ganizations in the United States.
Comment among the farm bloc on the fact that the speech directed the attention of Parliament to a series of important measures for the benefit of Canadian agriculture is that it sets a good example for many of the block self-aids in Washington and leaders in the senate, some of whom fall to take interest in United States agriculture It is further pointed out that with Canadian agriculture being given the attention of the Canadian Government the United States Government will find itself more and more under the necessity of doing the same thing for the United States farmer is to keep pace with Canada. Canada must be mentioned in this connection more over, in the fact that Argentina and some other South American countries are obtaining by immigration some of the best agricultural peoples in Northern Europe. The inevitable ef-fect will be the development of a great agricultural industry in South America.

"Cascarets" 10c
Best Bowel Laxative When Bilious, Constipated.
To clean out your bowels without cramping or overacting, take Cas-carets tonight. Don't stay bilious, sick, headachy, sour, upset stomach or have that awful cold. Let Cascarets start their action early for grown-ups and children. Do a box. Taste like candy.

Value of Prairie Products
Value of Production Over Thirty-Nine Million Dollars More than Previous Year
A remarkable value of $238,222,000 was given the farm products of Alberta's sales and dairy products of the prairie provinces during the year ended Nov-ember 30, in 1922, by the Manitoba Free Press. This is $28,- 000,000 more than was returned for 1921 by the same authority. Of this total in 1922, $121,216,000 was for crops, of which 871s 145 were in for wheat, or an average per acre of $1.- 25 per bushel. $36,545,227 for live stock, $58,015,000 for dairying, $727, 000 for eggs, $10,540,000 for wool, and $12,744,000 for root crops.

It Bids Fair Square.—In our neutral city of the dark we have a sign hung over the bank door which reads: "Don't be discouraged. Keep on hoping. Per-severe. Don't borrow trouble. Have faith in God and in your fellowmen. Be kind and courteous. Work and pray. Live clean. Drive dull care away. Save your money when you can, and do the best you can. Forget the mistakes of the past and press on to the future. Be thankful for the blessings of today and profit by the lessons of yesterday. Do your level best always and fear not to look the world square in the face. Do unto others as you would have others do unto you. Make money honestly if you can, but make it. Time flies. Hope on. Hope always."—Exchange.

Canada's wheat yield for last year was the largest in its history. Repli-ty to the bread famine qualifying the Dominion for the business of the granary of the world.

THE HEALTHY WOMAN IS ALWAYS BEAUTIFUL IN THE EYES OF MAN

me to become all run down, weak and nervous. Everything I ate seemed to give me relief until I be-gan taking Dr. Pierce's Favorite Pre-scription and this medicine gave me such strength that I am able to do the work of my household. I recommend it to others."—Mrs. A. Godwin, 25 Kent St., All druggists.

KIDNEY TROUBLE?
Take Mr. Brown's Advice
Montreal, Que.—"For many months I was under the doctor's care and got no relief. I was always com-plaining of my kidneys. Finally, I took Dr. Pierce's Favorite Pre-scription and don't complain any more. I have no backache and am well and strong. My appetite is great and sleep comes to me. Before I took Dr. Pierce's Favorite Prescription my kidneys and back were a source of misery to me. So far as I am concerned these are things who are suffering the way I did. The tablets are mighty good, though not expensive; easy to buy, but hard to beat."—T. A. Brown, 616 Dorchester St. W.
Don't wait for serious kidney ail-ment to set in. Help your weakened kidneys with Dr. Pierce's Anuric. At all drug stores or send 10c to Dr. Pierce's Laboratory in Buffalo, N.Y., for trial pkg.

Land Settlement Is Discussed
Reclamation of Many Acres of Land in the Carrot River Valley
Three years ago interest connected with the Canadian Branch of Interior have been returned from the Carrot River Valley triangle, an increase in The Pas. Three years have been spent on tabling Reclamation on the Saskatchewan at some eight hundred thousand acres of land in the Carrot River val-ley, which, on the head of Lake Winnipeg. Here, it is claimed by ex-perts, lies will be no construction ac-to regulate the water supply, contributary to the Saskatchewan River and it is expected that in the spring the water would have at these rapids is about 25 feet which is said to be ample for the successful drain-ages of the whole Carrot River valley triangles.
Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

United Weight, 364
Two twins exhibiting in a London circus were married the other day. The fat lady, weight 322 pounds, be-came the bride of the dwarf, who tips the scales at forty-two pounds. The ponderous bride was attended by the "bearded lady," while the "living skeleton" supported the diminutive groom. Manchester Chronicle.
Minard's Liniment for Distemper

Men, Money and Management
Lack of Wise Management Invariably Means Failure
In a recent address before them-bers of railway employees, President C. H. Markham, of the Illinois Central Railroad, broke away from the stere-otype phrase of "capital and labor" and used the title of the paper another down the sums still owing to the there is a point where the exchange refer is a rapidity to be found any-thing else, and our financial institutions judged by such evidence as those we have suggested, is becoming more clear to the world Manchester Guardian.

Lakeshore

The dance and basket social held in the school house on Friday last was a very successful one, considering the weather and roads. Some $36.00 being realized from the sale of baskets and lunches.

Mrs. S. Bethel has been on the sick list the past week but is improving at present.

The Ladies Aid chicken pie supper given on Wednesday evening was a success both financially and social.

The Misses Esther Wood and Myrtle Bethel spent the week-end at their homes.

The Shaplick family have been laid up with la grippe for the past week.

Quite a number met at the home of Mr and Mrs H. D. Seale on Sunday evening for community singing. The next meeting will be at C. Moon on Sunday evening next.

Thanks Kotchanaw, for your kind wishes in regard to the Ladies Aid.

BARDO

The young people met at Kingman skate several evenings last week.

Mr. and Mrs. H. Anderson, jr., spent the week with her daughter Mrs. Geo. Hendrickson at Kelsey.

Mr. and Mrs. Bert Sm[illegible] and Mr. and Mrs. H. Hall [illegible] Saturday.

Mr. and Mrs. P. D. Andersen entertained the Bridge Club[illegible]

[illegible] Mrs. Frank Lewis on Wednesday afternoon, in spite of the storm and bad roads. [illegible] were present. Mrs. F. H. Dawson elected [illegible]

Mrs. P. H. Anderson, Mr. Dan M. F. Lewis and Mr. Bert Sc[illegible] to the county meeting to be held on Mr. Steen's [illegible] to the office. Executive Committee, Messrs Bertness, Haugseth, J. Andersen and E. Nelsen, Misses Anderson, Steen and Hills.

CHOICE OF FRIENDS AND READING.

Your family is worth the best you can give it. You desire for them a home on the best house the best food, the best clothes that you can afford. And you are right—so! But they can't unto the right kind of friends. But are you just as careful about choosing the right kind of reading. You should be, for reading has a marked influence upon character, especially the growing mind of the child, and impressions made in youth are indelible. If you choose The Youth's Companion you are giving your family an acquaintance with the best there is in periodical literature. If you choose The Companion in a home you may be sure it is a safe family to tie up to—a family worth knowing. Try it for a year and see.

All the weekly issues of 1923 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive

The Youth's Companion—52 splendid weekly issues; and all remaining The Companion Home Calendar for 1923. Free with $2.50

Or include McCall's Magazine, the leading authority on fashions. Both publications, only $2.50

Notice To Creditors Of First Meeting Where Assignment Made

"THE BANKRUPTCY ACT"

In the Matter of the Estate of John Thomas Abbott, Authorized Assignee

Notice is hereby given that JOHN THOMAS ABBOTT, Farmer, of Tofield, in the Province of Alberta, did on the 14th day of February, 1923, make an Authorized Assignment to the undersigned.

Notice is further given that the first meeting of the creditors in the above estate will be held at 327 Merchant's Bank Building, Edmonton, Alberta, on Tuesday, the Twentieth day of February, 1923, at eleven o'clock in the forenoon.

To entitle you to vote thereat proof of your claim must be lodged with us before the meeting is held.

Persons to be used at the meeting must be lodged with us prior thereto.

And further take notice that if you have any claim against the debtor for which you are entitled to rank, proof of such claim must be filed with us within thirty days from the date of this notice, for from and after the expiration of the time fixed by section 8 of section 37 of the said Act we shall distribute the proceeds of the estate among the parties entitled thereto having regard only to the claims of which we then have notice.

Dated at Edmonton, Alberta, this 7th day of February, 1923.

HAY FOR SALE. About 25 tons of Hay for Sale. Apply to A. Campbell Tofield Post Office or phone 9614. 14p

LINDBROOK

The weather of the last week has not been conducive to much of event in the social or business world here; but despite it all, a large crowd attended the dance given by Mr. and Mrs. Gess Westlake at their home here. Those who attended were well repaid for their trouble, getting there, everything was of the best, music was supplied by the Smith Four Orchestra and all in the unanimous decision of all that it was a great success and a very enjoyable affair.

We were treated to a day's pouring rain this last week. The reason for this is obvious to wit. Mrs. J. Leahy made a trip to Edmonton, it is always thus, but for rain making purposes be very strong to produce rain like this in midwinter. Mr. A. Scott accompanied her and vows that she will think twice ere she goes again with a "professional rainmaker."

We are pleased to note Mr. A. Rogers letter to the Mercury re the proposed herd law, and as the gentleman's letter echoes the unanimous sentiment of us all, we heartily concur with what he says that more publicity and debate be given this matter ere it is passed one way or the other. We have heard it said that in this country "the majority rules," it doesn't look to us the case here by all that is said against this herd law, but of course if the idea is to "de populate" the country, well and said. No people, no money, therefore no business. Progressing backward this would mean.

Don't forget the School Fair Meeting on Saturday if you are in town.

Samples for Distribution Free

The following seeds are available for free distribution from the O. S. A. in 1923:

Plenty of Scoring

TOFIELD WINS FROM ECB

While the attendance at the hockey game on Tuesday night was poor due no doubt to the stormy weather, those present saw lots of action for their money so less than twenty goals being scored, the result being 15 5 in favor of Tofield.

The game was not quite so one sided as the score would indicate, the big margin in favor of the locals being due to exceptional work by Smith in goal and the Edmonton goalie not being up to form. On the run of play Tofield deserved to win by a three or four goal lead. The first period ended with the score standing at 4 0 in favor of the home bunch. The second period was hard fought Tofield getting two goals and Edmonton one. The fastest play came in the third period when the

"Is Matrimony a Failure?"

A Roaring Comedy

With a Million Laughs

at the

Variety Theatre

on

Fri. and Sat.

Mar. 9th & 10th

A roaring comedy hit - all about blundering brides and over-confident husbands and a gay elopement that almost smashed every marriage in town. Come and laugh!

Eight respectable wives and husbands who had been keeping house - and then a smart lawyer chap told them they'd never been really married at all! Imagine the shock and the bullabaloo! Imagine the fun! But you can't imagine it till you grimace and laugh-ed and roared at this gayest of all feature comedies.

Not a problem play but fun unadulterated. Laughter is the elixir of life and this is laughter, laughter, laughter

Lindbrook Voters all of One Mind

A dance was given by Mr. Lewis Rogers at his residence on Friday evening March 2nd. A large crowd assembled and all present report it to have been a very jolly affair. Messrs Fiset and J Frahm provided the music and Mr. Chas. Morden acted as M. C. Besides the usual midnight supper light refreshments were on hand at all times. Seeing that the dance continued until about 5 a. m. I guess without saying that all enjoyed themselves immensely

Mrs. Swain is spending a few days in Edmonton visiting friends.

Mr. L. Hooper returned home from Edmonton this week

We hear that the vote on the herd law by law was extremely close, also that not one single vote was cast for it from Lindbrook poll, which polled about the heaviest vote. We are pleased to see this, for it shows that Lindbrook is not so slow or asleep as some may imagine, and the narrow margin of votes only go to prove how valuable your single vote is and that it is up to us one and all to keep posted on all municipal affairs and vote accordingly.

The bridges on the G. T. P. are under repair and some repairs are to be done to the station and buildings here.

The recent thaw has helped the feed situation somewhat, especially as some of the farmers are rather short of feed this year. The price of cream has risen a little, but this won't help the feed situation much because there is little or none to be bought locally and the price of feed brought in from outside is too prohibitive at present prices and probably future ones.

On March 10, the aid will hold a sale of home cooking and after noon tea also ice cream in the institute rooms from 3 to 6 p.m

There will be Evening Service at Holy Trinity Church on Mar. 10th at 7.30 and afternoon Service at Logan School at 3.30

Edmontonians made desperate efforts to even up the count Both sides were playing good hockey in this period and Smith in goal made some splendid saves.

For the locals, Smith, Tay Lee and Stan Livingstone starred. Howel played well, turning in his best game of the season.

Local News of Interest

Born To Mr. and Mrs. A. Hingley on Wednesday, March 10th, a daughter.

Mr. Art Young returned on Saturday from Rosno, Alta. where he has been working on the railroad.

Miss Thelma Noland spent the week end in Ryley.

The Misses R. and M. Gris wold also W. Webb attended the Saskatoon Edmonton hockey game at Edmonton on Friday night last.

Hockey enthusiasts and friends of L. Scott Beatty will be pleased to learn that his first season in professional hockey has been a successful one In the game at Edmonton on Friday night he scored the only goal for Saskatoon and along with another player was quoted as the "pick of the team." Playing at Saskatoon on Wednesday against the Eskimos he scored four out of five goals for Saskatoon and was quoted as being the pick of the team. Congratulations.

Rev. J. C. Robinson D. D. Superintendent of Missions for the Methodist Church in Alberta spent Thursday of last week in town.

Mr. and Mrs. Abbott, mother and father of L. Abbott, arrived here on Friday last, from Ohio. They intend to make their home here.

Miss Hayes was ill and unable to teach on Monday, Tuesday and Wednesday.

Storage Facilities Inadequate

Vancouver to Move Many Elevators and Warehouses

Wood trade company has under construction near south the foot of a grain elevator and warehouse with a capacity of 500,000 bushels and 150,000 bushels respectively the first unit to be completed by the end of the present year. Other elevators have been projected to handle the business in connection with the Wood company, several grain firms have announced intention to erect elevators here in the near future

THAT DRY COUGH IS BRONCHITIS

If long-settled, it will weaken the throat and perhaps reach the lungs. Don't let it get that far. Stop it now with the healing wine vapor of Vicks. Vicks is a scientific combination of time-tested cough remedies used in Vicks Plan for Better Control of Colds. Vicks ointment is applied to the throat and chest, while Vicks Vapors are inhaled, and all cough symptoms are relieved quickly. Vicks Vapors are inhaled into the bronchial tubes to reach the source of irritation. Vicks is also applied over the throat and chest surface. Vicks Vapors are inhaled into the bronchial tubes to reach the source of irritation.

"I Now Feel Fine"

Mrs P. C. Murdock, Box 433, Portage la Prairie, Man., writes:

I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without them pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly.

DR. CHASE'S KIDNEY-LIVER PILLS

One pill a dose, 25 Cents a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

Treatment for Tubercular Mothers

Good Work Being Carried On in Saskatchewan

Enjoying the benefits of the $50,000 Anti T.B. Fund, eight mothers have been taken to the Saskatchewan Sanatorium at Fort Qu'Appelle. The eight are from points in the province very far at remote from each other, and the fact that the mother could be given treatment means that the children will be much safer from the danger of T.B. than before.

Not nearly all who have not been cured Indeed, the funds normally received are only about $2,000, but $50,000 is coming along steadily.

Dr. Read, who is in charge of the work, said he had T.B. among his band that number of the mothers must have treatment before the children could not retain a bite, and even when treated they thought they would be kept, to The Leader. Regina: The Times, Moose Jaw; The Star, Saskatoon.

The Returned

"How many times do I have to tell you, Pebby, that one must keep his room clean?"

"But mamma how do you know I didn't clean Peggy?"

On the Marriage Day

Keep your weekly reports, and his every brighter, and sure cures begin to when "Putnam's" is applied. It takes out corns, roots, bunches, stains from one of a single corn left after Putnam's Painless Corn Extractor has done its work. 25 cents at all dealers. Beware a substitute.

Canada May Expect Settlers From States

Prospects for Strong Movement This Year Exceptionally Good

(By G. P. Porter of Winnipeg)

While the volume of rural land sales in Canada has received from the United States have been considerably less than last year, the movement of settlers has been considerably greater. Many thousands in the line sweeping over the line. No considerable number have gone from Illinois into states into Northern Canada, the larger movement has been toward the prairies.

For years the Dominion immigration has maintained offices in the United States in charge of Mr. Marchildon, with headquarters at Detroit, and at Columbus in W. F. Nickerson, and equally efficient men. In addition the two Canadian railway companies maintain agents in many of the larger cities of population in the United States. Many thousands as to prospects in Canada, and the agents have let the majority are directed to the government centres for information.

I have talked with most of those who have come to Canada from the United States during the past seven, explains Mr. Marchildon in discussing the situation with the writer.

"I expect to have more people to Canada this year from the states of Minnesota, Wisconsin, Iowa and Illinois than during the past seven," explains Mr. Marchildon in discussing the situation with the writer.

"I have talked with most of those who have come to Canada from the United States during the past seven," explains Mr. Marchildon in discussing the situation with the writer.

THE MUNICIPAL ELECTION

It is [illegible] that a [illegible] ... however, is not as simple as it ... mistake of a deputy ... the fact that it is the duty of ... would have to declare ... of the ... [illegible] ... [illegible] ... [illegible] ... under the Municipal Elections Contravention Act" an election in connection with the election can be protested within fourteen days from the declaration of the result. The object of the proceeding is apt to express an opinion that the simplest way out of the difficulty would be to declare the election void, and that the simplest way ... would be done, we believe, if ... parties interested, and if ... [illegible] ... then be a matter for the judge to decide whether there should be an election for the whole municipality or at the Kingman poll.

Cowlens, Sowless, Hoaless Farm

George Spence, Saskatchewan M. L. A., in speaking at the Saskatoon Dairy convention on "The Importance of Dairying and Its place on the Grain Farm of the Province," expressed in no uncertain language the situation with regard to the non-existence of cows on farms in the province when he stated:

"IT IS PRACTICALLY IMPOSSIBLE TO MAKE A SUCCESS ON A TOWNSHIP COWLESS, HEIFERLESS FARM."

Skim Milk a Valuable Feed

A summary of the results of a large number of feeding trials of different experimental stations throughout the United States was made to determine the value of skim milk as a supplement to corn and other cereal grains when fed to pigs. It is pointed out that 415 pigs fed on cereal grains only made an average gain of 100 lb. from 486.5 lb. of grain and that 325 pigs fed on cereal grains supplemented by skim milk made an average gain of 100 lb. from 286.9 lb. of grain and 786.1 lb. of skim milk. This indicates that 100 lb. of skim milk replaced 28 lb. of grain. Calculated on the basis of $50 to 60¢ per ton for the different grains used, which included corn, wheat, oats, rye and barley, the value of the skim milk ranged from 9.7 to 14.5 cents per pound. Much greater returns were got from the skim milk, where 2 1-2 lb. of milk was fed per pound of gain than when the milk was fed in larger quantities.

The Local Paper a Mutual Enterprise

Publication of a weekly newspaper is confronted with a million and a half conditions appreciation with little or no respect for working hours or recreation, if the people in the town gratitude for its advertisers and a boon to the district it represents. It is not the interests of it is editor only, but the interests of all the people within its circulation who, in turn, are indirectly profited by the publicity it extends and the precedent it establishes for the town it represents. It is, therefore, rather a mutual enterprise in which we are all directly interested for our ... as well as for the good ... [illegible] ... ions under the assistance provided by the federal and provincial governments.

Beware of people who hand you something for nothing. They will probably expect you to pay double for it later.

Harold McMullen gives the next dance on Friday, March 16. Gents 75c. Ladies please bring lunch or 25c.

11 OUT OF 83

Gone sealed to death! Do a recent Canadian investigation showed. Those were only counted as having died of consumption—of lung trouble. They were cases where a person had contracted a slight injury a cut, a bruise, a strain—and where the wound, being thought not serious enough for more than ordinary attention, the blood poisoning and death resulted.

When you get your children accustomed to applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood poisoning, or illness no time need be lost from work or pleasure by those who use Zam-Buk. Get a box to-day.

Zam-Buk

"YOUR TEETH"
CHILDREN'S HABITS
By Ben Proctor McGee, M.D., D.D.S., Pittsburgh, Pa.

Habits formed in childhood are very difficult to break. The younger the child, the more easily a habit is formed.

Their experience having been unlimited, they very quickly become accustomed to almost any new discomforts that may come their way. Many of the things that, at the time, seem trivial, will have a serious effect in after years.

One of the worst habits that a young child can get is that of thumb sucking. Many mothers would rather have the baby quiet and happy and sucking its thumb than disconsolate with fits in general and raising Cain. But the practising of the temporary thy method will cause a great deal of difficulty.

When a child sucks its thumb it pushes the roof of the mouth upward and flat it makes a very high arch, and as the roof of the mouth is the floor of the nose, the nasal spaces is reduced, rendering the air very seriously flowed over either in the right or to the left, usually to the left.

The upper teeth in front, along with the bone in which they are imbedded, are pushed forward and upward and the lower front teeth and their surrounding bone are pushed backward and downward so that the appearance of the teeth, that was to be normal, is very seriously flowed with

"Cascarets" 10c
For Sluggish Liver or Constipated Bowels
Clean your bowels! Feel fine! When you feel sick, dizzy, upset, when your head is dull or achey, or your stomach is sour or gassy, just take one or two Cascarets to replace constipation, biliousness, sluggish intestines—cathartic on earth for grown folks and children, 10c a box. You'll like candy.

Marriageable Ages

Fourteen is Considered Right Age in Some European Countries

In Germany a man must be at least eighteen years old before he can marry.

In Portugal a boy of fourteen considered marriageable and a woman of twelve.

In Greece a man must have seen at least fourteen summers and the woman fifteen.

In Switzerland both must be of eighteen years and women from the age of twenty are allowed to marry.

In Spain the intended husband must be twenty-five years old and the woman twenty-three.

In Italy a man must be twenty-one and a woman twenty-five.

In Russia a man must be twenty-one and a woman eighteen years of age.

In Portugal a boy of fourteen and a girl of twelve are considered marriageable.

In Greece a man must have seen at least fourteen summers and the woman fifteen.

In Spain the intended husband must be twenty-five years old and the woman twenty-three.

In Italy a man must be twenty-one and a woman twenty-five.

In Russia a man must be twenty-one and a woman eighteen years of age.

First Woman Ambassador

Will Go to Norway to Represent Soviet Government

Madame Alexandra Kollontai, former Bolshevik Minister of Public Welfare, whose appointment by the Soviet Government as Russian Minister to Norway has just been announced, is the most envied feminine in Russia. She is the world's first woman ambassador.

Madame Kollontai was born an aristocrat. She speaks many languages, including English. She has resided in various parts of Europe. Its appearance she is of slight build and always is well dressed. She is about 45 years of age, and is the mother of several broken on social problems. Several times she has been over with the Bolshevist leaders, because of his expert views, but always has emerged triumphant. She is held in high regard in party councils in Russia.

Scatica's Pain Relieved Quickly by Nerviline

In bringing quick relief to the Seiatic sufferer, the best remedy is the quaint applications of Nerviline. Thousands have proved its success. Nerviline penetrates deeply, every drop is full of pain relief. The irritated nerves are soothed and the pain goes away! Nerviline is 60 times stronger than Pain, Liniment or Muscular pain, the soothing, healing, penetrating power of Nerviline. Get at all dealers.

Spanish Prisoners Rescued

Official advices received in Paris say that Spanish prisoners held by the Moroccan Rebel Federation of Riffians are being ransomed for Spain. This is largely accomplished by the payment of one of the grim tragedies of modern Spain, in which government after government has been compelled to ask nowledge the failure of its colonial policy, subject here and there to the popular ideal cost down and thousands of Spanish youths killed by savage tribesmen.

Civil Engineers Called "Doctors"

In parts of South America the people hold a civil engineer in such great esteem that when he has completed a piece of work in connection with the water supply of a town or city he is called upon to turn on the first drinking water into the town reservoir. This is usually considered the latest act in the long list of duties performed by the engineer.

CARTER'S LITTLE LIVER PILLS

Motor Traffic Menace To Ancient Building

Engineers Find Spire of Salisbury Cathedral Needs Repairing

Heavy traffic in the surrounding streets is threatening the famous spire of Salisbury Cathedral, the tallest in England. For 600 years the spire has reached its height of 404 feet out of the green valley of the Avon without visible signs of deterioration.

Engineers recently found, however, that it leans 2½ inches from the perpendicular. Vibrations from heavy motor traffic are believed to have caused this and it will be necessary at once to begin the work of strengthening the foundations. A motor patrol has been supervising heavy traffic in the vicinity of the cathedral.

Made First Locomotive

Honor Belongs to Matthew Murray an English Engineer

The great George Stephenson did not as some believe make the first successful locomotive. That honor belonged to an English engineer, Matthew Murray by name. Murray's production was the famous Blenkinsop, a steam engine of long horse power which, on June 24th, 1812, at once entered in the passenger, started with a burden of eight wagons of coal each weighing three and a quarter tons, and fifty passengers. Murray died in 1826, aged sixty one. Stephenson developed on Murray's ideas and did it an everyone knows.

AT THE VARIETY

Down at the Variety Theatre the married folks of the city are having presented for their entertainment — and for their edification too perhaps — what is easily the most hilarious and and thorough treatise on the subject of married life presented for many months past. It is a picture, a Paramount special comedy, and it is aptly enough titled "Is Matrimony a Failure?"

The picture is a laugh maker all the way and has a real story cast headed by such favorites as Tom T. Hoy Barnes, Lila Lee, Lois Wilson and Walter Hoiles. The megaphone was wielded by James Crane

Auction Sales Well Attended and Prices Good

The auction sales that have been held so far, have been successful, there being a brisk demand for sales, while horses have sold well. The sale at Lorlie known on Monday drew a big crowd and a successful sale resulted. Tuesday's sale at Geo. Ralph's was not quite so well attended due no doubt to the weather, but prices held firm. Wednesday's sale at Muskeets brought out another big crowd and the owner has expressed himself satisfied with the prices obtained.

New Arrivals in Men's Harrogate Furnishings

We are offering the most complete range of materials and prices in Men's Suits ever shown in Tofield.

At $45.00 there are smart new models in blue serge and brown striped worsted, hand tailored by well known "Tweedieth Century" brand clothiers.

At $35.00, we feature the famous Harrogate guaranteed indigo serge in blue or grey, as well as a large selection of brown or grey worsted materials and brown tweeds in herringbone design.

At $27.50 there are attractive tweed mixtures, and dark hard finish worsteds.

The $25.00 range includes Blue serges, tweeds, worsteds and homespuns in both stripes and checks.

At $19.50 the materials shown, tweeds and homespuns are surprisingly good values and are tailored on smart young men's models.

New Felt Hats are shown in all the latest shapes, in Black, Seal, Nut Brown, Steel and Serpent. Prices range from $2.50 to $5.00

Men's spring weight Combinations are here. They are Watson's spring needle knit, and can be supplied in three different weights, at $1.75, $2.00 and $2.25. They have long or short sleeves and colors are cream, natural or mottled.

Tennis Club Re-organize

A meeting of the local Tennis club was held on Tuesday evening last, the president reporting that the courts had been open during the last season from May 20th to Nov. 27, that the club had paid all outstanding accounts, including one of $10.00 of the 1920 club and had a balance on hand of $6.05, and closed the season with a membership of 68. The following officers were then elected.

Pres. Mr. Donaldson; Vice pres. Miss E. Griswold; Secy. Treas., Mr. C. O. Robinson. Grounds Committee: Mr. Pincott, Dr. Bain, Dr. Simpson. Tournament Committee: Mr. H. T. Ward, Miss McIntosh, Dr. Simpson, Mrs Donaldson. Entertainment Committee: Miss M Griswold, Miss T. Noland, Miss N. Hanson, Miss L. Gray

The meeting authorized the grounds committee to build and equip a third court. A vote of thanks was tendered the retiring officers.

"North of the Rio Grande"

Love with a price on its head—love riding like the wind over burning sands—and fighting through to happiness amid the Western hills—a two star romance with 100 exhilarating thrills!

A THRILLING WESTERN PICTURE

WEDNESDAY, MARCH 21st.

"PASSION"

Beautiful and powerful beyond compare.

The romance of the world's most daring adventurers.

Great Art is Sexless—love achieves sublimity only in the lives of men and women who rise above human laws and conventions

This is the romance of a woman more fascinating and daring than Cleopatra and a man whose love for her transcends death itself.

It is the intimate story of the Little Million whom the world came to know as Mme DuBarry.

Tofield Curlers Retain Possession of Dawson Trophy

On Monday two rinks of curlers from viking came to Tofield to endeavor to win back the Dawson cup that was won from Viking by Tofield curlers on the previous Thursday. The Tofielders, however, again defended them by 11 points including both games. The personnel of the rinks were: Tofield: Messrs Hammond, G. S. Elliott, Barnett and McLaughlin (skip) Viking, Messrs Odlier, Pickering, Hoos, and Venner, (skip) Those rinks playing, the score was 19-0 in favor of Tofield Tofield, Messrs Abbatt, Cap Lee, McCauley, and J. Lee (skip) Viking, Messrs Collier, Chief, Slavic, McAffee (skip). These rinks playing, Tofield won by a score of 14-9

Viking followed the above challenge with another one for Wednesday when two other rinks from the eastern town invaded the local curling rendezvous in an endeavour to capture the Dawson trophy. The locals were again able to retain possession, defeating the Viking rinks by the same number of points as on Monday. The Tofield rinks were the same as Monday with the exception of Mr. Beirnes taking the place of Mr. Barnett. Viking had an entirely new crew, viz: Messrs Graham, Thannell, Kelly, and K. Long (skip) Messrs Spike, Ross, Slavic and Rennions (skip)

W. I. NOTES

The regular monthly social meeting was held in the Institute Rooms on Tuesday, March 13th. The roll call was answered by "How we utilize our eggs and ends." A very dainty lunch made up of odds and ends was served. There were also some very fine examples of weaving apparel made from odds and ends.

On St. Patrick's Day, Saturday, March 17th, an afternoon tea will be served and a full dinner from 5.30 to 7 p. m.

The next whist drive will be held on March 20th. Mrs. Allen and Mrs Ward will be the Hostesses.

The following is the score for the last drive. High Lady Miss Nomeland 109, High Gent G. Oliver 181, Low Lady Mrs. Glover 115, Low Gent Mr. Parliffe (Sr.) 110

ing officers.

All those wishing to join up for the season 1923 will kindly hand their fees to Mr. R. Pines as early as possible, the fees being $5.00 for married couples, $3.00 for ladies and $4.00 for gentlemen.

May Be Orange Celebration Here on July 12th

A meeting of citizens was held on Monday evening in D. K. Hales office to discuss the advisability of having a celebration here on July 12th. Geo Dixon announced that the district would hold its celebration at Tofield this year if the town desired it and would give them the necessary encouragement. The encouragement was understood to mean the necessary financial backing and help with the programme

The point was raised that if there was to be a celebration early in July why not July 1st Discussion also took place that her a celebration held on July 12th would adversely affect the Agricultural fair.

It was moved by J. D. Hannon, seconded by J. L. Hay that a committee of four or five be appointed to interview the business men of the town regarding their willingness to support a celebration on July 12th, the committee to be given power to accept or reject the invitation of the Orange lodge regarding how the suggestion was received by the town generally, and later decided. Dancing throughout the day is one of the most gripping love affairs of the season. It being the only big love of Jeanie's first lovely experiment, a love which finally brings disaster to him, but not until he has given some gallant demonstrations of how far a lover will go for the object of his affections. Pola Negri, the Continental star, portrays the leading role that of the little French milliner

No fences for 660 square miles a vast area of unfenced roads and rugged country such was the locale for the outdoor scenes of North of the Rio Grande, the Jack Holt-Bebe Daniels Paramount picture which is being shown at the Variety Theatre on Saturday, March 17th. The towns-folk rampaigners used are reported to goodness very busy from the various activities assisting this numerous sixth [illegible] country.

Mrs J. P. Letbetter will remain with her daughter Mrs. J. Yoder for the present.

Excellent Picture for Wednesday Night Next

It is said the advent of the new super-drama "Passion," to be presented by the Associated First National at the Variety Theatre on Wednesday, March 21st, marks a new and progressive era in motion picture production "Passion" has for its story an intimate version of the life and adventures of the ill fated little French milliner, Jeanne Marie Vaubanaise, who rises from her lowly place among the masses to the command of a king, and a nation through her irresistible charms Later she becomes the storm centre in thrillingly tempestuous times when the whole people whose results because of the hatred of this very product of their kind. Great intensity is added to the dramatic value of the whole picture material through the fact that the object of all this indignation lies but all too close to the guillotine, and is obliged to grapple with his opponents. She is more than game in her struggles until a former slave of hers turns traitor to her cause which results in her being incarcerated and later beheaded. Running throughout the play is one of the most gripping love affairs ever known it being the only big love of Jeanie's first lovely experiment, a love which finally brings disaster to him, but not until he has given some gallant demonstrations of how far a lover will go for the object of his affections. "Pola Negri, the Continental star, portrays the leading role that of the little French milliner

Rev. Watt attended the Presbytery meeting held at Vermilion last week.

Mr. and Mrs. Simpson and daughter who have been visiting at the Hayward home during the winter, left for their home in Saskatchewan on Saturday morning.

W. J. Chapman visited Ryley on Monday last and acted as returning officer at their election for councillors.

ECZEMA IN RASH ON HANDS

Fingers Cracked. Lost Sleep. Cuticura Heals.

Trouble began with a rash on my hands and I could use pretty much all night. It grew worse every day. They itched and fingers got sore and cracked. I had a very bad time with nothing. I tried a cake of Cuticura Soap and one box of Cuticura Ointment and in two weeks I was entirely healed. (Signed) Miss Ethel Jones, 253 Inglehart St., Montreal, New Brunswick.

For every purpose of the toilet and bath Cuticura Soap, Ointment and Talcum are wonderfully good.

Cuticura Soap is the Ideal Shaving Stick. Sample each free by mail. Address: "Cuticura, Dept. X, Boston." Sold everywhere. Soap 25c. Ointment 25 and 50c. Talcum 25c.

A NEWTON PUBLISHER

PROPOSED CHANGE IN CELEBRATION

At a recent meeting of the [illegible] held on August 12th it was decided to [illegible] Monday [illegible] July 12 will do to the fair to be held on August 12th in order to [illegible] Orange Order to [illegible] 12th [illegible] Tofield for the [illegible] Orange Lodge [illegible] [illegible] Bridge [illegible]

During the past ten years the Orange Order in this section of the province has held their celebration at Tofield twice and on both occasions [illegible] 1913 and 1919 special trains were [illegible] and the attendance from outside points justified the expense. For this year, it would not be necessary to charter special trains as the present service would hardly be improved upon.

Under ordinary circumstances the July 12th would be a [illegible] but as far enough apart to [illegible] all be held on August 12th [illegible] such other

In order to [illegible] these arrangements [illegible] the suggestion [illegible] ration in the first half of July, [illegible] why not have one in the fall [illegible] Canada's birthday.

The Mercury is in hearty accord with the aims and objects of an agricultural society. A Fall day programme, properly balanced, should be the most important day of the year. At the same time we are of the opinion that the most successful fair day cannot be built up at the expense of other short, but necessary work and community work is extra. Also there are fairs pending that not in some way interested in community work other than Tofield.

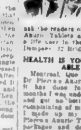
KIDNEY TROUBLE?

The Kidneys are the Blood Filterers—When Kidneys and Soap Up, the System Becomes Contaminated with Uric Acid



Niagara Falls, Ont.—"I have used nearly all of Dr Pierce's medicines and take great pleasure in giving them a boost. The Anuric Tablets are the greatest of all. I was bothered with kidney trouble and was referred by different doctors. I sent for samples. Today I am holding three good babies. All I ask—be readers of Anuric Tablets (Dr. Pierce's) and become a life saver in the future."—William Dupuis, 7 Bridge St.

MOTHER OF TWIN BOYS

Talks How Lydia E. Pinkham's Vegetable Compound Relieved Her of Inflammation and Great Weakness

West Pittston, Pa.—"I was in a general run down condition from the time I started to have children. I had pains in my back and sides and nervousness. I knew of your medicine and I decided to take it. After taking a few bottles I felt like a new woman. I am now the mother of twin boys and I feel fine. I recommend your medicine to all my friends and tell them how it helped me."—Mrs. Joseph Bednarski, 1307 Exeter Street.
Such splendid testimonials from grateful women should convince anyone that Lydia E. Pinkham's Vegetable Compound must be worthy of confidence. It has restored health to thousands of women who have suffered from such ailments as nervousness, irritability, nervous prostration, backache, headache, dizziness, "blues," and other symptoms of functional disturbances.
If you want special advice write to Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Children Cry for Fletcher's
CASTORIA
Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.
What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

HAD BAD PAINS IN HER HEART

Nerves Were Very Bad

Miss John Cove R. R. No. 4, St. Thomas, Ont., writes:—"I wish to say I have been troubled very much with my heart and nerves. I was doctored with two different doctors, but got no relief. I would get a cold and pains in my heart. It would be short of breath and be almost afraid to move or breathe, and at night I could not sleep. If the pains in my heart were gone I could not sleep on my left side. I was very weak and run down. I got a box of Milburn's Heart and Nerve Pills and before I had taken them I felt better. I have taken six boxes and I am now strong and well. I can do my housework and sleep well at night. I cannot say too much for Milburn's Heart and Nerve Pills."

BARDO

Margaret Irene Stauffer infant daughter of Mr. and Mrs. Kora Stauffer, born on Dec. 20th 1922 passed away at their home on Sunday afternoon March 11th 1923. Pneumonia followed a cold. The sympathy of the community goes out to the bereaved parents and relatives.

Mrs. Simon Stauffer is suffering with a bad attack of Bronchitis

Mrs. M. M. Burkholder is seriously ill.

Feb was a great month for birthdays among the people of Bardo. A new one was added to the list on the 28th when a little son was born to Mr and Mrs. J. L. Yoder.

Mr Howe was called to Ryley on Sunday by the sickness of his Father-in-law Mr. Hurlac.

Little Mary Vongillis is sick with pneumonia.

Nearly everyone in Bardo is or has been sick, so there is not much else to report.

Mr and Mrs. Herman Lawson moved onto the F. Lewis farm last week. Mrs. Geo. Lawson spent the week end with them, helping to care for the little girls, who are quite sick.

The John Yoder family moved from the Swartzendruper farm to the Lerbekmo farm.

Miss Williams from Viking is visiting for about a month with her brother Rev. A. Williams. Miss J. N. Williams R. N. is a Graduate of Staten Island Hospital New York City; has diplomas from Manhattan Maternity Hospital, in maternity nursing, and Victorian Order of Nurses in Canada for Public Health Work. Is registered at the University of New York, Albany N. Y. and prior to coming to Western Canada did public health work in New York City where she was supervisor of nurses for Henry Street Settlement for several years.

The regular moving picture feature will only be shown on Saturday night.

Ross Creek

The cars have started running again this season and Mr. A. H Chambers is making a few trips into Tofield.

Mr. A. B. Duncan of Vermilion attended Geo. Bagh's sale last week.

Born - To Mr. and Mrs. Jack Malcolm on Sunday, March 11th a daughter.

See Max Mechlenburg if you have trouble with your eyes. Will be at hotel on Saturday, March 17th

Lakeshore

Mrs. T Jones returned home the first of last week after spending a few days in Edmonton.

Mr and Mrs Herman Tiede man are moving to Minsters in

Everett Noland has been quite sick with pneumonia, but is now on the mend

Inspector Robertson visited the Lake Shore and Lagan schools on Thursday of last week

Miss Alma Bethel and Mr. A. Lepper spent the week end at the S Bethel home.

Community singing was held at the Booth home on Sunday evening.

The Misses Myrtle Bethel and Esther Wood spent the week end at their homes.

A very enjoyable party was held at the Munroe home on Saturday, when Frederick invited a number of his young friends to help celebrate his seventh birthday. After playing games a bountiful lunch was served to which the youngsters did full justice and then repaired to their homes wishing Frederick many happy returns of the day

The Ladies Aid will meet with Mrs. C. Moss on Wednesday, March 21st

Mrs. A. Plaute and lady daughter are visiting Mrs. R. C. Phillips.

Communication

Dear Sir,

A word of comment on the recent municipal election.

Some of the faithful electors in this district, those who had hoped for great things from the way their favorite or pet hobby would be handled by the voters on election day are still at sea as result of the "balance of power" exercised by King man, what with the ballots of Kingman thrown out the question arises was it really a fair representation of the wishes of the Municipal electorate.

Thanking you in anticipation
Yours Truly
Harry McDonagh

Local News of Interest

Mrs. G. Cookson is attending the Annual Convention of the Women's Missionary Society which is meeting in the First Presbyterian Church, Edmonton, this week.

The Ladies of the Church will hold a Basket Social on Easter Monday at Lindbrook.

T. Whitmore left for Innisfree on Monday.

Miss M. Sherlock visited Edmonton on Tuesday.

Miss E Story, secretary of the Girls Work Board of Alberta, attended the C. G. I. T. banquet on Tuesday and was a guest at the McCauley home.

Mr. G. Bruce made a business trip to Edmonton on Tuesday.

The first car of commercial coal from the Alexo Coal Co., Saunders, Alta, enroute to Ottawa, Ontario, passed through Tofield on Wednesday. Great efforts are being made to convince the Ontario fuel commissioner that in Alberta there are millions of tons of excellent coal.

Carl Vernon, who has been working with a well drilling outfit during the winter, left on Thursday morning for New Market, Ontario.

The Canadian National Railways are planning to do a great deal of improvement work during the summer. Seven steam shovels, 28 engines, and 500 cars used in gravel service will be used on the Alberta Division this season.

Mrs. Barnett visited Edmonton on Thursday.

MOTHERS' AND DAUGHTERS' BANQUET

Girls' Take Evening Service on Sunday

The service Sunday March 25, was conducted by the C. G. I. T. of Tofield. The scripture was read by Miss M. Rude. The music was Miss N. Ellis and Miss E. Leighton. The music rendered by the girls choir was: Solo, Miss Edna Mahaffey. Chorus, "I would be true". Solo Miss Eva Clutterham: Chorus, "Brightly shines our banner."

Rev. Watt delivered a very appropiate address to "The girls of Today". The singing was conducted by Mrs. Wilkie.

On Tuesday, the Mothers' and ex members were the guests of the C. G. I. T. Groups at a banquet held in the basement of the church. The tables were well laid and contained a wonderful variety of good things to eat.

The toast to "The King" was proposed by the local president, Miss C. Abbott, and was followed by the company singing "God Save the King" and "O Canada." The toast to the Sunday School was proposed by Mrs. McKerral and responded to by Mr. Watt and Mr. Howe. The Senior Girls then sang "Mothers of Mine" which was followed by Miss Nancy Hingley proposing the toast to "Our Mothers", Mrs. Mahaffey responding. The Junior Girls then sang "Pack up Your Troubles in Your Old Work Bag," this being followed by the toast to the Girls Work Board proposed by Mrs. McCauley and responded to by Miss E. Story of Calgary, giving an outline of girls' work. The remainder of the evening was spent in playing games and generally having a good time.

All those upon whom fortune smiled last year, will be glad to learn that the income tax papers arrived at Tofield on Thursday.

Mayor McCauley and Councillor Swift attended a conference of town and city officials held at Edmonton last week. The conference was called to endeavor to get the government to allow the towns some of the revenue derived from the theatre and automobile licenses.

Mrs. McCartney, of Cadogan, sister of Mr. Hicks visited at the Hick's home recently.

BORN—To Mr. and Mrs. H Muskett, on Sunday, March 25th a son.

There will be Holy Communion at Holy Trinity Church on April 15th at 11 a. m. and afternoon Service at Logan at 3 p. m.

Lakeshore Budget

Mr. and Mrs. Bert Calvert and Mr. and Mrs. Donald Ball spent Sunday evening at the J. S. Munro home.

The Lake Shore Ladies' Aid met at the home of Mrs. Moss last Wednesday. Plans were discussed for holding an old fashioned School Social in the school house on Thursday, Mar. 29th. Everybody welcome.

The Misses May and Annie Johnson from New Norway are visiting at the Tiedeman home

We are very sorry that Mrs Jas. Secord is in a hospital in Edmonton where she is getting as well as can be expected after a serious operation

There will be Church Services at Lake Shore School house on Easter Sunday.

Community singing was held at the Munro home on Sunday evening last.

Mr. and Mrs. R. C. Phillips and family and Mrs. A. Plaws were guests at the Clinton Hull home of the Ketchamont district on Sunday.

A few evenings ago a certain young lady of this district invited a few of her friends in to spend the evening with her Accordingly she made a huge free use of ice cream and set it out on the verandah to "ripen." After some time it was decided that it should be in prime condition for consumption, but, alas and alack! the ice cream had disappeared entirely, which after all was rather a joke on the party responsible for its disappearance, because one of the young men of the party had been going out as often to sample the cream there was really very little left. Young ladies, warning, hereafter when you make ice cream, chain it to the porch railing.

Ralph Noel and Pat Wood are home convalescing after an attack of the Flu.

The third time dance given in the school house on Friday night was poorly attended owing to the weather and roads.

Mrs. Booth, Miss Wilkins and Mr. Willans were guests at the Johnson Ferguson home on Sunday.

Holy Trinity Ladies Aid, will meet at Mrs Dank's on Wednesday, April 4th at 2.30 p m.

The Tofield Public school is closed for Good Friday and Easter Monday and will re open on Tuesday.

Local News of Interest

There will be a meeting of the Tofield Golf Club at the Bank of Montreal on Monday evening April 2nd, at 8 o'clock. Every body who has played golf and every body who has not played are invited to attend. The club wishes every body to get interested in this national wide game. Let's have a real live golf club in Tofield this year. The 250 yard drive is all that is required to make an enthusiastic golfer

The skating season this year at the rink, closed on March 15. Since that date and possibly for a week more the ice will be good enough to skate on. Therefore the council has allowed access to the rink for skating but only on condition that no damage is done. Skaters must not go on the curling ice and curling rocks must not be touched. Any damage done will result in the rink being closed at once and admission prohibited.

A number of young people gathered at the home of Mr and Mrs Noland on Monday and took part in a surprise party in honor of Miss I. Noland, it being her 21st birthday. Games and cards combined with good company together with excellent refreshments, created a splendid evening for all

AT THE VARIETY

Into the loathsome crocodile pit, swarming with horrible, man eating reptiles, leaps the hero—to save his rival and enemy!

See his fight with the savage monsters! See this lilting, heart breaking struggle that nothing else ever screened can approach for sheer thrill!

Filmed at the risk of the actors' lives! And only one of a hundred amazing events in "Fools Paradise," the most lavish drama of beauty, love and daring.

Mrs Anna T Remich, 87, who brought Luna to a particular cut of beefsteak, died recently. Shortly after the close of the civil war, Mrs. Remich became cook at the Porter House, in North Cambridge, Mass. She developed such skill in carving steaks from the sides of heavy beef that the tender cuts she served soon became known as porterhouse steaks.

BANKING REFORMS

The shifting of the banking question for another year, will no doubt, be a disappointment to many people who had anticipated immediate action on the part of the farmer government, following the results at the Calgary U. F. A. convention. Without allowing party politics to influence cross issues it appears from that the government did the right thing. There is no question but that the relations between the farmer and banker could be improved, but the real secret of their betterment is that the improvements to be the result of mature consideration between the representatives of the various interests.

Money and credit have the peculiar quality of becoming magnified according to the size of the transaction. Although of little use to the farmer, when it comes to buying a home, a business block or a factory, the ordinary citizen, who is not a millionaire, finds a mortgage a necessity. Funds are not always available in the ordinary channels of trade, and the banker must look to the security of the property before he can grant a loan. Such a mortgage may last for years, and the borrower is entitled to know that the money will be available for the period of the loan. Any change in the rate of interest should be made only after a careful study of the whole situation, and the borrower should be given ample notice of the change.

Money and credit are the life blood of business, and the banks are the heart that pumps it through the system. Any change in the rate of interest should be made only after a careful study of the whole situation, and the borrower should be given ample notice of the change.

AMERICAN JOURNALISM

The editor has recently read [illegible] Clark by Upton Sinclair. In this book of 452 pages the author attacks and criticizes the American daily press as well as many magazines. But unlike many of American journalism is not limited, the only U. S. publication being regularly owned by the Canadian Press, which is a daily published in Toronto. Its funds are derived from the dailies [illegible] and it is operated on a co-operative basis. Its [illegible] particularly of the Associated Press, is [illegible] and [illegible] is [illegible] and [illegible] is [illegible] and [illegible]

East Must Show More Interest

Toronto, March 31th. — "I think that getting together and working together with mutual sympathy is the most desirable thing just now, stated H. W. Wood, president of the United Farmers of Alberta, today, regarding problems effecting his province in particular and the west in general. "If the east and west refuse to get together" maintained Mr. Wood "then nothing can keep them from drifting apart."

Mr Wood claimed that there was much dissatisfaction throughout the prairie provinces in regard to treatment by the east, and that for the first time in his experience one heard some talk of secession "There is very real resentment at the general attitude of the people of the east," Mr. Wood said. "We object to their attitude of seeming indifference, their unjust criticism."

The secession talk, according to Mr Wood, had not gone far enough to develop definite expressions, persons behind the move not being sure whether they want to join the United States or simply leave Canada. The present depression, of course was at the bottom of the whole trouble, Mr. Wood said.

Mr. Wood had no concrete solution for the present problem Immigration, he main tained, would not help, but would rather aggravate the situation "Prairie farmers do not object to immigration of more farmers under normal circumstances, but they oppose the bringing in of farmers at a cost of three to five hundred dollars per family to settle on land when the farmer already on the ground must make a living" he stated emphatically.

James Bowick Passes Away

There passed away at the ripe age of 78 at his home at Tofield on Saturday morning at two o'clock, James Bowick a well known and highly respected old time resident of this district.

Mr. Bowick was taken ill on Thursday and after a little over a weeks illness the grim reaper triumphed.

Mr. Bowick was born in Scotland 78 years ago. Thirty years ago, along with his wife and family he immigrated to the United States, where they resided for about 13 years, then moving to Canada, settling in the Logan district. After living there for about six years they moved to town. Mrs. Bowick passed away about six years ago.

KITCHENER

Mr. A Matheson returned home on Thursday evening after spending the winter with relatives in California.

Mrs. O. Barnes and Mrs. Marsh Mitchell were passengers to Edmonton on Monday.

The sale on the sick list for this week are Mr. and Mrs. Carlisle and family, Mr and Mrs. C Hull and baby, Mr. A. Schulta and family, Mr. O. Barnes, Hazel and Stanley Sears, Mrs. Sears, Bill Evans, Mrs. Hickner and Marcus and Anna Ingram.

Mrs. C. B. Owen and Bessie attended the Mother's and Daughter's banquet of the C. O. I. T. at Tofield on Tuesday evening.

Mr. C. B. Owen spent a few days the fore part of the week in Edmonton.

Mrs. J. Appleby and Mrs C. S. Mitchell spent Thursday at the Schulta home.

Mrs. Bert Calvert came out from town on Saturday to help nurse for the sick at the Richner home.

Mrs. J. McGlaistie gave a miscellaneous shower in honor of Miss Agnes Brehn, the bride-elect of the month, at her home on Wednesday. A lovely dinner was served by the hostess at noon. It was a complete surprise to Miss Bruhn when she came into the room to find the table laden with mysterious parcels. A poem composed by the giver was attached to each article and was read by Mrs. Watt as Miss Bruhn opened the parcels. Many useful and pretty gifts were graciously accepted. The company then "Sing a jolly song good fellow." Those present were Rev. and Mrs. Watt, Mr. and Mrs. W. A. Mitchell, Mr. and Mrs Marsh Mitchell, Mr. H. Mitchell, Mesdames W. Lee, C. Ingram, C. S. Mitchell, G. Sears, C. Coombes, R. Wildman, R. Henderson, A. Williams, J. Appleby, M. Urquhart, G. McConnell, and D. H. Mitchell.

A short business business meeting of the Missionary Aid Society was held after the shower.

---

years ago.

He leaves to mourn his loss, five children, three sons and two daughters. They are Will Charlie and Jack of Tofield, Mrs. Lott of Fort Saskatchewan Alta. and Mrs. Knoebone of Oregon There are 23 grand children.

The funeral was held on Easter Monday, service being held at the church and grave side. Rev Watts, B. D. officiated. In addition to the members of the family there was a large number of friends present to pay their last respects to the departed.

S.D. To Charge Tuition Fees

A school board meeting was held at the town hall on Tuesday evening. There were present J. Lee chairman, Mrs. McAuley, J. W. Cookson, W. Chapman and W. Wu ton.

The teachers and inspectors reports were read, accepted and ordered filed

It was stated by the secretary that under the ordinances the board had power to charge a tuition fee for pupils from out of the district attending the Tofield high school. After considerable discussion it was resolved to communicate with and request an account to the rural school districts from which high school pupils were in attendance at the last school

There will be Holy Communion at Holy Trinity Church on April 15th at 11 a. m. and after noon Service at Leigel at 3 p. m

B. WORTON, PUBLISHER

IMMIGRATION

PUBLIC MEMBERS in this part of the province have been discussing immigration policy and we notice that only by peopling this vast country can we hope to build up a country with financially sound public institutions, where cities and municipalities will not be burdened with unbearable taxes. The Department of the Interior makes the statement that [illegible] to the cities, especially during the winter months. Advocates of a restricted immigration policy maintain that only by peopling this vast country can we hope to build up a country with financially sound public institutions, where cities and municipalities will not be burdened with unbearable taxes. The Department of the Interior makes the statement that increased numbers will reduce the burden for the [illegible] that public immigrants are the cities and the [illegible] and [illegible] railways must as well as other public works must be paid for by taxation and makes these statements people to pay these taxes, the greater number, born urged to payment of them will become. If not an intolerable burden, a [illegible] very heavy one. They quite [illegible] the "good times" of pre war days when immigrants were coming to the country by thousands and cities as a return of that stage the population there [illegible] have been compared to previous years anything but bright. Opportunities [illegible] immigration, but not an immigration policy. While there [illegible] and [illegible] in managing should be very opportune for large numbers [illegible] those in other lands to learn the [illegible] establishing specific [illegible] truth about conditions in Canada [illegible] that. He adds, there should be no rushing [illegible] in, they obtain, of more or [illegible] settlers here. Broadly speaking people will only [illegible] by speaking the peopling of the [illegible] as far as the country the [illegible] by persons who have [illegible] are concerned and create the individual enterprise to display a good deal of [illegible] unemployment over a way out from over-crowded European conditions, is to be preferred to entering and assisting all who have a trace of a roving nature. A good many of our present problems, national provincial and municipal, are the result of the "good time years." Boom conditions sooner or later bring reaction, whereas steady growth creates a virility capable of meeting conditions as they arise and generally with out painful after effects. We must have more people and there is absolutely no question but that we will get more people when those here declare themselves happy, contented and blessed with a measure of prosperity. News of this kind spread quickly and the natural desire to improve one's circumstances will cause a more wonderful exodus to a land where individual enterprise is cramped and where the wage earner sees nothing at the end of years of toil but a small pension.

"CHRONIC DEFICIENCY OF CASH"—OH MY!

THE EDITOR of the "Vegreville Observer" is one of the best if not the best, weekly editorial writers in Northern Alberta. The "Observer" has just begun its eighteenth year of publication, having been started and managed by its present owner since 1906. Commenting on the paper's recurring years of existence, the editor says, in part:—

"A local weekly newspaper is not allowed very much scope for action. It is necessarily circumscribed by certain limitations, not the least of which is a chronic deficiency of cash. One can readily see how and where a local paper can be vastly improved; in fact, it is well known that anybody could get out a better paper than the average Observer, without any trouble at all. Yet, singularly enough, all these improvements which might be suggested cost money and keep it there. Columbus found America. The Spanish Empire ruled the sun with a rod of iron and Francis Drake made an end of it.

Shakespeare and Milton came. The Mayflower sailed to the United States and laid the foundations of the greatest nation on the earth. Charles the First and Cromwell came and went. John Wesley rode through England. Captain Cook explored Australia.

The telescope came and showed us worlds undreamed of out beyond the range the naked eye could see and showed us worlds undreamed of in the heart of every speck of matter that we see. James Watt came with his engine, Geo. Stephenson with his Rocket, and Robert Fulton with his steamship. Men made machines do the things men could not do themselves. The telephone and the telegraph came, and at last men threw their words into space and knit them every where. The old world went, and the new world came.

ALL THE TIME SLEPT TUTANKHAMEN, AND NO MAN KNEW WHERE

They laid him in a shrine of gold to await his immortality. He believed that he would wake again, and the little world of the things he loved was buried with him that he should not be disappointed when he woke.

Now the long sleep of Pharo has been broken, the secret of his golden tomb has been revealed and all men know to-day what no man knew before. What will they do with Tutankhamen? He died believing in the future. Will that future be believed in now in so much a mummy as when? They laid their king in a golden house with faith and hope. Shall we, who share their faith and hope, seem his house of gold and label him in a case of glass?

We hope it will not be. We believe the world will wish the king to lie still where he is. It has been a long, long sleep; let us leave him where he lies."

Reduced Fares Authorized Calgary Spring Show Canadian National Railway

PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario — "I was always tired and the pains and wound put me out for a week or two. I had a growing feeling of my head, and when I got up I would feel as if I would fall. I had been one of those people who would not believe in patent medicines, but I was induced to try Lydia E. Pinkham's Vegetable Compound and I found that it helped me right away. I have taken six bottles and am now strong and well. I like to tell other women what it has done for me, and when I do my friends say they will try it and they always find it helps them. I feel brighter and can do more work than I could before I took it. Lydia E. Pinkham's Vegetable Compound is a good tonic for any woman to take." — Mrs. MacPherson, 74 Grand View Ave., Brantford, Ont.

If you are suffering from a displacement, Irregularities backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text Book upon "Ailments Peculiar to Women."

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on a sore corn, instant-ly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

"Beside The Bonnie Brier Bush"

Lovers of the Scotch, as well as those who enjoy seeing depicted on the screen a story of an exceptionary heart interest will enjoy [illegible] Bonnie Brier Bush" which is coming to the Empire on Friday and Saturday, at which time Miss Ethel Clayton will be seen in the role of Marget Maclure. This is a story of rugged Scotch glen life, that has a grip on human emotions all its own. The characters are in distinct contrast to many picture stories being taken from the plain living but pious folk of "The Glen There is "A Lad O' Parts" whom you will be unable to resist loving, and who, educated in a country school rises to an honor man in a university, is at the threshold of a great career called to the eternal home of his father's. There is Margot, Flora, also Donnie, and Dr. Mac Lure, all characters with a wealth of inspiration. The book, written by Ian McClaren, has been read by millions and Tofielders desiring to see a picture of exceptional merit should not fail to see "Beside the Bonnie Brier Bush."

LINDBROOK

A Concert Basket Social and Dance was held at the school house here on Tuesday evening, 2nd. April. The concert started 9 p. m., and the talent, make up and general ensemble was all of a very high order, and the whole programme, which is too lengthy to print, was well received. After the concert the baskets were auctioned off. It was about the choicest collection of baskets that the writer has had the pleasure of seeing the designs all were beautiful, and most of them were [illegible] Mr. J. Lassy acted as auctioneer P. Holland as clerk and W. Lancaster as ticket-sours assistant. The baskets disposed of, supper was served at a small sum to those who were not fortunate to secure a basket. Supper finished, the floor was cleared and soon the crowd were tripping to the light fantastic to the [illegible] supplied by Mesdames Spalsted and Smith and Messrs Spalsted, Foss and P. Lepine. Mr. Chas. Rhodes undertook the job of M C and set the dances to music until early morning. All present vote the combination "a most royal dance" to be a great success and all of us would like another one to get together and the to-be the master. Mrs. Leahy presided at the organ, we wish it had been piano instead

Mr K. Dodds who is to teach at the Westlake School this summer, has moved with Mrs. Dodds into the home lately vacated by Mr. and Mrs. Giffin and family.

Miss Grace Lepine has gone to Wetaskiwin to look after a sick relative.

Mrs. J. Wennecroft has returned to Tofield to take medical treatment.

Ross Creek

Mr. Geo. Reiman's sister, moles, her husband and family are visiting the Reiman Bros. for the summer.

La grippe continues to claim victims in our community.

Mrs. Lohnis has gone to the hospital at Lamont for a course of treatment.

Wm. Boychuk is home from the railroad for a holiday.

Recent additions have been made to our population in the homes of Mr. Fred Wisnowich and Mr. J. Lizowy.

Quite a bit of wheat is being teamed into town from the creek, these days.

Reduced Fare Spring Show

Reduced fares will be authorized by the Canadian National Railways for Spring Live Stock Show, Edmonton, April 9th to 14th, inclusive, as follows:—

Tickets will be on sale April 7th to 14th inclusive, at single fare and one-third for round trip, from all stations in the province of Alberta Return limit April 17th.

Tickets will not be sold on [illegible] arriving Edmonton later than 2.00 p. m. For further information apply to local agent of Canadian National Railways.

FOR SALE A pen of Pure Bred Buff Orpingtons, 10 hens and cockerel. Price $15.00. Eggs for hatching $1.00 per 15. Baby chicks $2.00 per doz. Order early H. G. WATT, Tofield.

It has been stated that a successful newspaper man gives his readers, editorially, what they want in preference to what he thinks they should have. In this issue of the Mercury are two editorials on immigration, one written in Winnipeg or Regina, which appears in the ready print section of the paper, and the other at the time was in Mercury office, Tofield. Both editorials were written without the writers knowing that two editorials on the same subject would appear in the same paper. As there is a difference of opinion expressed in them, the reader is at liberty to take his choice, but is asked to have a kind thought for a paper that pleases him, whatever its opinions may be.

Accuracy Essential

Perhaps in no other line of endeavor is accuracy brought to such perfection as in the making of watches When they break as they occasionally do, only experienced workmen should be allowed to repair them. We are thoroughly experienced and competent to repair all classes of watches and clocks and guarantee satisfactory work.

Wong Jewelry Co. Tofield.

Wedding at Shonts

McGINTIE—BRUHA

A very pretty wedding was solemnized on Wednesday, Apr. 4th, at the home of Mr. and Mrs. Bruha, at Shonts when Miss Agnes Bruha became the bride of Mr. Henry McGintie of Tofield

Promptly at 11 o'clock in the morning, Rev. R. G. Watt, B. D. pastor of the United Church, Tofield, tied the nuptial knot, in the presence of a large company of friends and relatives here

After a sumptous wedding dinner, the happy couple left for a short honeymoon in Edmonton and on their return will take up their residence on the groom's farm in the Ketchamoot district.

The heartiest goodwishes of their many friends follow them as they embark on the sea of matrimony.

KETCHAMOOT

The swimmin' ouse of a row was heard on Easter Sunday, blackbirds a few days before, also the gophers have been busy the last two or three weeks despite the coldness of the weather.

Little Miss Mabel and Billie Younnie of Edmonton, spent their Easter holidays with their grand parents Mr. and Mrs. H. Mitchell.

Mrs. Geo. McConnell cared for the sick at the Schultz home last week.

Mr. Milford Lawson left last week for a visit at their old home in Wisconsin, U. S. A.

Mr. W. A. Mitchell gave a birthday party at her home on Friday afternoon in honor of Mabel Younnie and little Margaret Mitchell. The little guests were Mabel Younnie, Hazel Sears, Mildred and Gertie Ingram, Lillian Carlisle, Jenet and Ethel Brown, Billy Younnie, Stewart Mitchell, George and Gordon Williams, Jimmie Ingram, Donald and Jean Carlisle, Stanley and Charley Sears. Mesdames D. H. Mitchell and C. H. Mitchell assisted keeping the children busy with games, etc. A very pretty birthday cake greatly pleased them with the usual buttons, rings and five cent pieces. Other delicious refreshments were served. A very good time was reported from all the kiddies present.

Mrs. J. Munro and two daughters spent last week at the home of Mrs Munro's mother, Mrs. Bickner, who has been ill.

Congratulations and best wishes from all Ketchamoot friends to Mr. and Mrs Henry McGintie and we are very glad to welcome Mrs McGintie to our neighborhood.

Mrs. Donald Gollan of Alliance was renewing old acquaintances at the Henry Sutton home last week. Mrs. Gollan is better known as Miss Peats one of our former school teachers.

Mr and Mrs. Barnes and family spent the Easter holidays at the Messrs Sutton homes. They left the first of the week for Vancouver, B.C.

A cloud of gloom has been cast over our neighborhood the last few days. The epidemic at first was only thought a slight attack of the "flu" but it has turned out very serious. Mr. Clinton Hull passing away on Friday. Mr. Gene Barnes had a relapse and is under the care of a trained nurse and doctor, Ralph Barnes was taken to the hospital on Friday and could be settled in his ear, he was operated upon on Saturday morning. Herald and Alvin Sheats are very sick, Herald has double pneumonia and is under the care of a nurse and a doctor but at the present writing is the sick are thought to be improving.

Local and Legal

Holy Trinity Ladies Aid will meet at the Church on Wednesday April 18th at 2.30 p. m.

Tomorrow car will arrive in a week or ten days. Put in your order and take them off our car save yourself money. R. W. PINCOTT

Mrs. C. A. Trent and son Arthur came down from Edmonton on Wednesday morning to go to the ranch for the summer.

In our report of the golf meeting in last weeks issue there was an error in stating the fees. The correct fees are, Gentlemen $3.50, Ladies $1.00 members under 18 $1.00, married couples $4.50.

Mrs. McGugan, teacher of grades 5 and 6 at the local school was unwell, and unable to teach Wednesday and Thursday.

Mr. Hay senior, fell off the sidewalk near the town hall on Saturday night last, receiving a severe shock, but is confined to the house for some days.

In our report of the demise of Mr. J. Bowick senior, last week, it was stated that death occured at his residence. This is incorrect, the death occurring at the res'dence of his son Will, where he had been cared for shortly after being taken ill. Also the death occurred on Sunday and not Saturday as reported by us.

W. I. NOTES

The regular monthly social meeting was held at the Institute Rooms on Tuesday with a large number in attendance. The roll call was answered by quotations expressing flowers or nature.

On May 11th, Mrs. Strauch will give a demonstration on "machine attachements" at the Institute Rooms K ep this in mind and all attend

The lunch served on Tuesday was a demonstration of lunch cooking. Each person giving a recipe of their cake or muffins.

On Saturday April 14th Mrs Ward will be the hostess.

We have much pleasure in announcing another Whist Drive on Tuesday April 17th Hostesses for the evening are Mrs. Ward, Mrs. Noland and Mrs. Doak. Prizes will be awarded after the drive. Come and bring your friends.

We wish to thank all who contributed to the Institute dinners.

For Saturday there are two auction sales to be held in town. The first, which will commence at one o'clock sharp will be held at Mr Burnetts residence and will consist of his household effects on giving some high class furniture. Immediately after this sale, the effects of the late J. Bowick will be sold on Main street These comprise furniture, tools etc.

Lost—A blue leather purse. Finder please notify Miss Jean Dicks 'phone 1012

The dance announced for April 20th has been postponed to the following week

Among those from Tofield attending the spring stock show at Edmonton Messrs J. Murray, R. Geaghin, Mr. and Mrs. P. Hasse, D. E. Ball and Dave Yonke.

Mrs D. H. Todd left on Monday for Arrow River, Man

WANTED—A quantity of horse hair. Apply to Walter Bellamy

Mrs. Scott and son from Dutchie are visiting at the home of Mrs Agnew

Mr W. A. Mitchell left on Tuesday morning for Victoria, B. C.

At least five pure bred bulls have been brought into the district this week, all having been purchased at Edmonton Spring Stock Show. The following were the purchasers, L. J. Carlisle, C. Gallenger, D. L. Yonker, Geo. A. Geaghin and R. Barker A more detailed report will be given next week.

Mrs. H. G. Watt left for Vancouver this morning.

W. A. BANQUET

The second annual banquet of the Tofield Women's Institute will be held in the rooms on Friday evening, April 13 at 6:30 p. m. at thirty ladies present.

The tables with Easter decorations and loaded down with Dutch good things to eat were a pretty sight

After the meal could be reached, lelsed or tormented into eating anything more, basket was presented to the retiring officers Mrs. Hingley, President, Mrs. North Treasurer and Mrs. Hammond Librarian, all of whom made suitable replies.

Each guest was asked to tell a story and nearly everyone responded. We heard of all sorts and conditions of people from Lizzie with her black sausage queen to the Scotchman who climbed the football game because he was too tired to climb over the board fence.

To say that all present enjoyed the evening is putting it mildly, and while telling at home of the fun we had, our young son said earnestly, "Mother you must have had one humdinger of a time." And we did.

LAKESHORE

The sympathy of the entire community goes out to Mrs. Hull in her recent bereavement, also to the other members of the family. It will be remembered that Mrs. Hull's home was at Lakeshore before her marriage

Mr S. Bethel has been quite sick but is some improved now

Mr W Piper took several of his Hereford cattle to the Stock Show held in Edmonton this week. With what success we didn't hear.

Community singing was held at Abernethy's last Sunday evening with good attendance.

The R. C. Phillips family have all been sick with the flu but are soon on the road to recovery.

Mrs. Roe Phillips visited relatives in the Chipman and Ross Creek district last week for several days.

The pupils who came first in their respective classes in the month of March were:

Grade 8, Mildred Heath and Nettie Neal.

Grade 7 Henry Tiedeman

Grade 6, Enid Tiedeman

Grade 5, Enid Phillips

Grade 4, Adrian Bunge

Grade 3, Agnes Phillips

Those not absent or late are: Russel Forgeron, Orville Myers, Norman Johnson and Annie Heath

We beg to apologize for not mentioning the enjoyable surprise party given for Mrs. Herb Neal on the occasion of her 23rd. birthday on March 29th when her many friends presented her with a camera as a small token of their esteem, but owing to sickness we were not able to attend our courage to silence this time properly at this time

The Lake Shore Ladies Aid Society will meet at the home of Mrs. R. C. Phillips on Wednesday April 18th.

There are two cars of pure bred bulls shipped from Tofield to Edmonton for the spring stock show. Four Shorthorns were shipped from the Henderson herd and two Herefords from the Piper herd.

C. Hull Passes Away

It is with great regret that we have to announce the death of Mr. Clinton Hull, well known and highly respected farmer of this district. Mr Hull was taken ill recently with what was supposed to be an attack of the "flu" but which later developed into pneumonia. And although everything possible was done he passed away on Friday evening last

Mr Hull was 62 years of age and had been a resident of the Tofield district for the past 17 years, coming from Iowa.

He leaves to mourn his loss, a wife and three children, two boys and one girl. Also a mother and father and two sisters. The funeral was held at the Union Church the Rev Watt B.A officiating. A large crowd were present to pay their last respects to their departed neighbor.

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Port Hope, B.C. — "I feel I owe Lydia E. Pinkham's Vegetable Compound because I was tired and run-down. I had headaches and a spell-ing that I thought I would die. I was troubled for two years with inflammation. I read about Lydia E. Pinkham's Vegetable Compound and I am glad to say it has done me a great deal of good. While I was living in Washington I was recommended to take Lydia E. Pinkham's Vegeta-ble Compound and I am glad I did. I am single and feel now as well as any girl could feel. I am doing all I can to recommend your medicine." — Miss A. F. Hayworth, 224 Argentine Street, Port Hope, B.C.

Sick and ailing women everywhere in the Dominion of Canada try Lydia E. Pinkham's Vegetable Compound.

Moslems Attack Jews

In Order to Escape Death Jews Forced to Accept Moslem Faith

Jerusalem.—Scores of Jews are said to have been killed in almost uninterrupted warfare launched on them by Moslems at Yemen, Southwestern Arabia, according to reports received here.

The report says that many Jews, in order to escape death, have nominally accepted Mohammedanism, and that numerous Jewish children have been seized and given the alternative of death or conversion.

The report said that hundreds of Jews are in flight from town to town in an effort to escape their oppressors, but practically all the districts to which they have appealed for Jewish sympathy refuse to provide aid with which to succor Jews, for fear of reprisals on themselves.

Feeding Cattle For Export

Experimental Farm Note.

The removal of the embargo has resulted in a keen demand from Great Britain for Canadian cattle. The question now is can Canadian feeders maintain a margin of profit which will keep [illegible] trade open. The present duties, the cost of feeds and freight haul, feed the steers on high priced feeds, and then sheds over a period of years a substantial profit.

The Experimental Station at Ottawa has recently issued Farmers' Bulletin No. 137, Second Series which deals with the results of experiments in fattening steers for market. The experiments reported on were conducted during the period 1916 to 1922, inclusive. During this time 124 cattle were fattened with an average profit over feed cost of $16.17 per head, a minimum of $1.66 per head and a maximum of $35.67. During the last seven years, namely from the fall of 1915 to the fall of 1922 a barn costing $12,000.00 as erected and the profits from the cattle shown on this barn are sufficient to pay for more than one-third of the cost of the building. In connection with the experiments, hay, straw, roots, and silage, grown on the farm were all fed. The manurial value of the feeds consumed was charged for at full market values. The profits secured were, therefore, over and above the manurial value of the feeds consumed. These experiments during the period mentioned, by a minimum cost years have been made possible to feeders and exporters alike by an average increase in the cattle British market can be spring prices over autumn prices, and reached only by years of 32 per hundred weight. The average returns for cattle fed on roots per pen finished were $1.66 per head, while other lots were fed [illegible] concentrates brought an average price of $8.81 per hundred weight, or an average profit of $16.17 per head.

Rural Council Minutes

The second meeting of the Council of Cornhill Municipal District 467 was held in the Municipal Building at Tofield on Wednesday April 4th, 1923.

Deputy Reeve Wm. Lee in the chair.

Present Councillors Abernethy, H. E. Williams and Alf. Williams.

The minutes of the previous meeting were read.

Moved by Councillor H. E. Williams that the minutes of the previous meeting be adopted. Carried.

Mr. Richardson of the Richardson Road Machinery Saskatoon, Sask. was heard in reference to the Steelhed 12 ft. Grader being exchanged for more suitable equipment for roads in this municipality. Moved by Councillor A. J. Williams that Mr. Richardson be given authority to sell the Steelhead 12 ft. Grader at a reduction of 25 per cent of valuation on condition he furnish new machinery in its place at 15 per cent discount to this municipality. Carried.

Moved by Councillor Abernethy that notes for 12 ft. Grader of Richardson Road Machinery, Saskatoon, Sask. dated June 1st 1922 for November 1st 1923 1924 and 1925 for the sum of $955.00 each with interest at the rate of eight per cent per annum from June 1st 1923 be signed by the Reeve and Secretary-Treasurer. Carried.

The Tofield Mercury re-publishing the minutes of the Council meetings.

The Deputy Minister of Agriculture requesting that some organization look after the consolidation of farmers orders for seed grain to secure the reduced freight rates on seed shipments. It will be necessary to secure application forms supplied by the U. F. A. Central Office Calgary, which must be signed by each farmer who gets grain out of the car.

The N. Bawlf Grain Company Limited, Calgary, advising that they have a good supply of clean Two C. W. oats that are going to be used this season for seeding purposes also have a small supply of feed oats.

From Director of Surveys advising that Department holds Certificate of title to roadway on the N. R. 11 St 19 w 4th. under Certificate No. 8510 shown on Road Plan No. 5837.

Chas G. Bain, M.D., making application for the appointment of Medical Health officer for municipality.

J. A. Danielson, applying for a rebate of the wild land taxes on N.W. 6-49-20 w 4.

Geo. Peebles, applying for a rebate of the wild land taxes on S.W. 14-50-20. w 4

Deputy Minister of Public Health, Edmonton, advising that anti-toxin will be supplied to any physician or any rural municipality.

Harold Brown, M.D. Edmonton, advising that Robert Donald of N.W. 20-51-20 w 4, has contained an injury to his eye that he will require to be treated in hospital and asking if the council will authorize the attendance on his part, also the hospital bill so that necessary treatment can be carried out.

Moved by Councillor H. E. Williams that the Council of Cornhill M.D. No. 467 authorize Dr. Brown to attend to Robt. Donald's eye and guarantee payment of a sum up to $100.

Council adjourned to meet Wednesday, May 2nd at 11 o'clock a.m.

Reports on Canada's Crops

Railway Extensions

Branch Line Construction Proposed For Western Canada this Year.

Considerable branch line construction will be made in Western Canada this year by the Canadian Pacific Railway, according to D. C. Coleman, Vice President of Western Lines. Mr. Coleman states that it was proposed to complete the Lashburn branch before the present settlement activities [illegible] Mr. Coleman also stated that [illegible] Work would be carried on on the Carlisle Wilkie and Lake Alma branch would be carried on the extending of the Battle River this year.

The final two sections of the Minden Hills branch line 28 miles in all; the Rosetown section of the Lenoir township of Manitou and the first section of the Wilkie to Kindersley line would be completed. Mr. Coleman stated [illegible] and [illegible] were also intended to build [illegible] Mr. Coleman said that Portal [illegible] Estevan [illegible] would be completed on the first two sections of the Crystal Valley branch between Mr. Coleman added that it was expected an announcement respecting further work would be made early in May.

A Noteworthy Statement

Bawne Limited Reports Good Success In 1922

The report submitted at the 24th annual general meeting of shareholders of Bawne Limited, in London, England last month was most satisfactory.

A net profit was shown of £30,709 out of which after payment of eight per dividends on preferred stocks a dividend of 5 per cent on deferred shares was declared, absorbing £12,500.

The chairman Lawson Johnston in Chairman, the Earl of Kimbl, Vice Chairman, and Mr. Douglas Walter Managing Director. Sir Caruthers Beaumont, a former Premier of Western Australia, has recently accepted the position as secretary.

Overall exports in 1922 exceeded those of 1921 by 22 per cent., and 1,452 sheets every indication of still further growth.

The increasing amount devoted to the purchase of advertising was one of the noteworthy features of the statement, and one to which perhaps much of the increased exports of recent years was due.

The Garden a Money Maker

From the Year Book of the Manitoba Horticultural and Forestry Association for 1922

In the back of every man's head is the thought that the garden is not a money maker, however. It has to wait until the other and more profitable work on the farm has been done. It is a matter of fact, the garden is a money maker—a big money maker, because it does three things, all of which have direct financial value:

1 Its products give us good health.
2 They add very much to the pleasure of all of us who enjoy our food right out of the door.
3 It saves a lot of money that otherwise would be spent on food, and proves to be a small cash income from the sale of surplus vegetables.

We read everywhere that under existing conditions the farmer who does not keep a cow and pigs and chickens has to be a wonder if he can make ends meet, but the farm that has no garden is, in my opinion, in an [illegible] condition.

Every farmer, if he has no pet, will keep pork, but if he has no garden, he will be "less regulars." And don't [illegible] well-rooted vegetables are more necessary to our health than pork.

B.C. Fisheries

Fish Curing and Packing Industry Is Showing Good Growth

Exports of fish and other to the fish curing and packing industries in British Columbia during the month of February valued at $1,000,000 exceeds those of the corresponding month of the preceding year, with a practically unlimited demand. A total of 22,000 barrels were shipped through Prince Rupert from American points in Alaska for the United States markets between June and December.

In the month and tenth centuries the common form of dress in Europe was the wooden shoe.

Street begging is greatly on the increase in London.

Man-Size Words

Four to English Language of Over Syllables Each

Stanley Baldwin British Chancellor of the Exchequer, has the reputation of a blunt speaking man. Recently in the British House of Commons he startled some of this Dominion by said the simple commonest member of the House.

He predicted that never would there be a communistic government in British because the people themselves on issue run onto the hearts of the British people. Speaking of the possibilities French, words, proletariat he studied he ridicule of the English language in common Dublin. "There are two words," he continued "of middle words, words of suffering for this country and the whole world—and they are Faith, hope love and work. No government in this country today that has not got faith in the future, hope in the future, love of the fellow men and that will not work and hard work, will bring this country through, or [illegible] through, no matter [illegible] and [illegible] darker days."

There are nine nine words and Mr. Baldwin is no respecter man, as an timely interview for the use of one plain challenge to complacency and self-pity. In another man such talk might be called visionary, but in a British political business man it indicates a bedrock analysis of the social situation. It is not the least significant of the benefits that it has proved how so closely to the crest of Christendom itself and shows, in its illuminating flash like lightning, the relationship between the spiritual and material life of all peoples. Words sums up, in essence the groundwork of a million prose plays with three or four volumes in daily practice, there would be no room for [illegible] of war and no room for beggary. From the Toronto News.

New Cure For Pneumonia

Electricity Applied Through Metal Plates Breaks Up Congestion

A remarkable new cure for pneumonia has been discovered and found to be practical, according to an announcement by directors in St Mary's Hospital, in Rochdale, N.Y.

Known as the diathermic treatment, the method of placing metal plates on the chest and back of the patient and using an electric current through the body is a modification of the [illegible] lungs is so increased that the congestion is said to be broken up after a few treatments.

Canada's War Memorial

Expecting that St Julien Monument Will be Unveiled on Dominion Day

The Canadian war memorial at St Julien will be completed this spring and will most probably be unveiled on Dominion Day, according to an announcement made by Brig General H. F. Hughes, chief engineer of the Canadian Battlefields Memorial Commission, should approval be given by the Commission to the St Julien memorial, work will be commenced immediately in erecting similar memorials at Sanctuary Wood, Passchendaele, Ivuy Cross Roads, Festubert Wood Courcelette La Quesnel and Vimy.

Canada As a Butter Exporter

Product From Canada Goes to Many Distant Points

Canada, in the last fiscal year exported a little over 2,000,000 lbs of butter more than she imported, according to information tabled in the House of Commons. The United Kingdom received 2,113,176 lbs. United States, 2,022,520, Belgium, 120,592 lbs; Newfoundland, 72,722; Jamaica, 37,[illegible] Trinidad and Tobago, 10,[illegible] Bermuda and West Indies 10,[illegible] China, 34,553 Chile, 25,661, France, 11,[illegible] Newfoundland 222,246 Mexico and Hongkong, 13,107, other countries, 12,386.

Alberta Prize Wheat

Prize Winning Seed Grain to be Used to Advertise Canada

Alberta prize winning seed grain will be used by the Dominion Government to advertise Western Canada's agricultural possibilities during the year. This is a new departure, it is announced, between the Dominion Department of Immigration and the Colonization Purchases include 8 Canadian prize Marquis wheat from [illegible] and W. Highfield's champion oats from Lacombe.

Cross Quebec Forests

A decree has been issued by the Provincial Government and issued to the Canadian Pacific Railway, [illegible] to [illegible] the forests during that period will have to receive a permit. The closing of the forests will be another protection taken by the Government against forest fires.

New York Hotels

The largest hotel in the world is to be erected in New York. That is to say, it will be the largest hotel in the world until the largest hotel in the world is again erected in New York [illegible] Transcript.

From Okanagan

Four thousand seven hundred and eighty-four cars of fruit amounting to [illegible] crop were shipped out of the Okanagan district of British Columbia up to the middle of February of this year.

Country Committed To Pledge For Early Completion Of The Hudson Bay Railway

In the recent debate in the House of Commons on the Hudson Bay route the leaders of all parties committed themselves definitely to the completion of the route. The discussion was on a resolution moved by Mr. Andrew Knox of Prince Albert which [illegible] completing the railway and giving the undertaking priority over other transportation projects started [illegible] The position of the Progressive party was not known, and the [illegible] was not to be opposed. The debate was [illegible] the [illegible] [illegible] [illegible]

British Army Pigeons

Ex-Service Pigeons, Under Fire During the War, to be Auctioned

Ex-service pigeons, which were under fire several times during the war, are to be sold by auction in London by the British army, have been pensioned off by the War Department and the task of a keeper, whose duty it will be to see that the birds are properly cared for, is a sinecure.

The exploits of many of the birds during the war have been remarkable. The war a large number of them were used to convey messages across from the front or sea and others between France and England.

One bird in particular known as Number 12," highly distinguished himself on several occasions. Once while carrying a message he was shot through the wing but managed to continue his journey. On another occasion, Lieut. Jim Hemingway, had to send a message by pigeon. He had a message ready, but when he went to release the bird he found that the pigeon had been killed by a piece of shell.

Another bird, known as "Mary," was sent out with a message from a wounded officer. Mary was shot down, but managed to get up and continue her journey. She arrived with the message, but died from her wounds.

Dominion Financially Sound

Canada's Buying Power Never Greater Says K. V. Paget

Opening 1923 trade between Canada and the United States will commence under different conditions, says the Wall Street Journal declared. Enterprising merchants had no many factors favorable to the credit position.

The buying power of Canada has never been higher, the paper declares, and calls attention to the fact that the average of 1922 production of field, forest, mine and fisheries was the highest in the country's history.

The Journal adds:

"Branch sales offices and assembling and distributing plants of manufacturing in the United States will economize in the matter of transportation charges. Labor troubles and freight embargoes movements between the two countries free of intervening trade barriers have been practically eliminated."

Getting on the Front Page

Don't be discouraged about getting on the front page. It took King Tut-ankh-Amen 3,300 years to get there, but he landed it at last.—Boston Transcript.

Bobby just came into the room to say he was going to wash the cat in one of his saucers. "And say, mum, see on the bottle they got milk from cows, and the last one was a goat."

It is often a good thing for a man's peace of mind that he doesn't know what other people know about him.

In order to grow old gracefully a woman must cultivate the art.

Designs Covered Sailor's Body

Most Tattooed Ever Seen Good Now York Officials

The body of Frederick Hermes, a foreign barge captain, was declared by officials at the New York morgue to be more tattooed than any other ever seen there.

Hermes' body, legs, arms and face is very covered with designs apparently tattooed at most of the foreign ports of the world. On the chest was a full rigged ship, while directly below it was a picture of Ben Hur's chariot race. Around the men's two anchors were entwined. On the upper part of the arm was the "Rock o' Ages," a German and American flag were entwined on the left leg. A tombstone, bearing the caption, "In memory of Mother," was tattooed on the good man's back. A figure of Columbia, an Indian, bird, mice, cherubs a dog eye, several figures of women, hearts and many other designs were on his body.

Steam Engine Used Before Watt's Time

Historians Say He Improved But Did Not Invent It

The story of how James Watt invented the steam engine after seeing the lid of his mother's tea kettle being lifted up and down has been knocked into a cocked hat by historians.

They point out that steam engines existed before Watt's time and that it was on a full fledged mechanical engineer that he began to improve them, says the Detroit News.

In 1712 a Spanish smart, Blasco de Garay established a steamboat in the harbor of Barcelona.

In the following century an Italian engineer produced a steam windmill. It worked by a squirting of steam against the fan vanes of a wheel. And a Swiss inventor produced a "pyreolophore" his work in the middle of the eighteenth century Isaaac Harvey had invented a steam pump that was more success ully to drain the mines of Cornwall and Devonshire. But it was a stationary thing until Watt devised the separate condenser and other important improvements.

Ambitious

"Dear," sighed Jimmy; "I'd rather be an orchid on your waist than through my nose."

Man: What are you kicking in, the boy?

Boy: Pitcher.

Man—Say there are no sharks in that pitcher pond.

Boy—No, nor nothing else, so I might just as well fish for sharks.

GLAD SHE DID AS DOCTOR TOLD HER

Took Tanlac on Physician's Advice and It Put Her in Fine Condition, States Mrs. Cotter

"Tanlac is certainly an ideal medicine," recently said Mrs. Bessie Cotter, highly esteemed resident of 1551 Lorne St., Regina, Sask.

"I was in such a badly run down condition that I just felt miserable all the time. My appetite had failed me to such an extent that I was losing weight steadily. My nerves were awfully unstrung many, many times I couldn't get even an hour's sleep all night long, and I never felt like doing my housework at all.

"A physician advised me to take Tanlac and I lost no time getting a bottle. Now, I really don't feel like the same person. My nerves have steadied down. I am sleeping like a child, eating heartier have gained several pounds, and am feeling just fine. Knowing what a wonderful medicine Tanlac is, I can sincerely recommend it."

Tanlac is for sale by all good drug stores. Over 35 million bottles sold.

Alberta Oil Wells

Large Production of Gasoline From Well Leasing Near Okotoks

Quantities of gasoline amounting to between 60 and 61 barrels daily, and naphtha amounting to between 1,500,000 and 2,000,000 cubic feet daily, can be obtained from the Hillock Alberta well, west of Okotoks, according to the report of H. E. Shipper, Dominion petroleum engineer.

Mr. Shipper, in his report, states, "the test shows that the well is an important producer of gasoline, from which gasoline may be extracted on a commercial scale."

Oldest Bible Manuscript

Written on Coptic Tongue and Dates From 350 B.C.

Until recently the Codex Vaticanus, so called because it is kept in the library of the Vatican in Rome, was the oldest Bible manuscript. Now, however, is found to be a still older Bible manuscript, called the Sysaitic Codex, discovered by Tischendorf, the celebrated German Bible scholar, at Mount Sinai.

The Sysaitic manuscript is written in the Coptic tongue, and consists of 346 parchment vells. It is the oldest Bible manuscript in existence, dating from 350 B.C. It is in the library of the British Museum, for which it was bought at a high price.

New Serum Discoveries

Three of Latest Announced by Institute at Copenhagen

The new serum institute at Copenhagen, which ranks the Danish capital as first in world Modern, is a center for therapeutic scientific serum investigation, announced three discoveries in the present month.

It is completely two methods of combating cancer and one of curing diphtheria.

Prince Peter of Greece, who made the announcement, declared that the cancer serums have been submitted to the most severe tests and have proved successful.

Prince Peter is reported that additional serums have been submitted to the most severe tests and have proved successful.

Prince Peter is reported that additional serums have been submitted to the most severe tests and have proved successful.

Concer Prevention

Claimed that Cancer is Caused by Poisonous Deficiency

In the ever thriving number of cures which are being claimed for cancer there comes to us news of a simple method of diet, said to result in the cure of the patient and in many instances the disappearance of the tumor, as the operation, radium or X-ray treatment would demolish many a new despairing Canadian home.

Since 1912, when the late Dr. Forbes-Ross, of London, England, positively proved and claims that cancer is caused by a poisonous deficiency in the body, apparently impotent, but advanced, all treated and inoperable cancer cases could be restored to health by simple dietetic methods and non-irritable remedies. Dr. Forbes-Ross advocated a meat diet, many hundreds of cases have been cured.

The President of the Imperial Medical Association for the Reduction and Prevention of Cancer (Dr. Robert Bell, F.R.C.P.) has published a booklet on 30,000 cases. Neither X-rays nor radium are mentioned in connection with the treatment, being merely an auxiliary to the diet. Many cases of cancer of the breast, womb, face, lip, tongue, stomach, bowels, glands, skin, etc., have been treated successfully.

Those who are interested in the matter can obtain the booklet free by writing to the Imperial Medical Association for the Reduction and Prevention of Cancer, 418, Hobart Bell, Bldg., London, England, and mentioning this paper.

If Tormented With Corns Use Good Old "Putnam's"

It's really a shocking thing to torment with corns when you can get Putnam's Painless Corn Extractor for 25 cents and banish them like magic. Don't suffer another instant. Putnam's."—Advt.

Canadian Coal Industry

"YOUR TEETH"

By Ben Pratt, D.D.S., M.D., L.D.S. Pa.

In speaking of the diseases and ills to which the body is heir to from the time it is but intended to give the busy-minded that the teeth are in variably the cause of infection, but these cases are explained in order to show the results of neglecting a simple but essential people to have their teeth in perfect condition.

The researches of the most positive some that are devoted to the study of disease have shown us that the people of neglected mouths are far more sufferers than of those of better-cared, and there is not one way to avoid these serious results. That is to take care of the mouth in time.

Begin with the children, and if the child is taught to keep its mouth in conditions one is sure to grow up with a healthy body.

Those are those who brush their teeth after every meal, but this is not enough. Many people have contracted all kinds of diseases through the mouth.

Many people have contracted all kinds of diseases through the mouth.

Many people have contracted all kinds of diseases through the mouth.

Many people have contracted all kinds of diseases through the mouth.

Cuticura Heals Face Disfigured With Itchy Eczema

"Eczema broke out in watery pimples on my face and head. I tried my cheeks and head became so bad that they were covered with large scabs. The itching and burning were intense and I could not sleep at night. My face was badly disfigured. My hair became dry and lifeless and fell out so that I had to have it cut off close to my scalp.

"A friend advised me to try Cuticura Soap and Ointment as I purchased some, and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was healed." (Signed) Mrs. Elmer King, Box 276, Jackson St., Oxford, Nova Scotia.

Make Cuticura Soap, Ointment and Talcum your daily toilet preparations.

Mining Activity In B.C.

Sustenance Prospecting Will be Carried on During the Coming Summer

Reports were received by the Minister of Mines in British Columbia during January from 3 mining districts in the province, and the following have been reported. In addition to these reports there are numerous mining claims coming on which have been recorded, all of which will be developed during the coming season.

Distinctive Names

Picturesque Appellations of Western Towns Add to Their Fame

It is high time we had a change in the existing map of Canada. Many of the names are unpronounceable, and others are unsuitable. I have used this a long time, and I hope I will stick to the names they have. Towns and cities that appeal to the imagination and one cannot travel through the West without coming on the names of

School Inspectors Reduced

As was unofficially announced some time ago in the press, the staff of forty public and high school inspectors in the province is to be cut in half by the provincial government this year.

In spite of hints to the contrary by the minister of education, who expressed the opinion some days ago that probably only ten inspectors would be released at midsummer, Hon. Mr. Baker admitted when the the question was raised in the house on Wednesday afternoon that there would be twenty of those officials released. Much as he regretted the step, he declared it necessary in the interest of economy.

H. A. Fenby, Hand Hills, raised a furore when he suggested that "inspectors who have been playing politics should be cut out." Hon. J. R. Boyle, amidst applause and that cry, before during his 18 years in the house he had never heard that school inspectors had turned up two up with their coats. He paid a tribute to the efficiency and loyalty of the inspectors, all of which was endorsed by the minister of education, who said he had never heard a suggestion of politics in the school inspectorate service.

Just Pulling Teh

Aye lassie Farmin' in Alberta
For mares no eastern yare;
Aye raise some wheat and corn
And fat some hogs and steer;
Aye watch dat farmer business
Chee for where do money gits
And aye find it komin kwickest
Vien you are pulling tits.

Dum falls what lane raisin' grains
And haulin' dum to town,
Dum get no money in de pocket
Dum broke the whole yare round
Dum falls what lane fatten stork
Base rich and den base poor;
Sometimes him plenty money make
Sometimes him losing more.
But dam falls with the brindle cow,
Him never lose whole yares crop
If ground base dry or get too wet
Or hail base striking down the crop
And just raisin' fits
At night him call dam brindle cow in
And just base pulling tits.
Him get dam seperator
What makes a lot of cream
Him get a money comin in
Just like a pleasant dream
Him get a money in de bank
Him get a money in his mitt
Him base no Rockefella
He's just base pulling tits.

'What Happened to Jones'

We feel real sorry for King Tutankhamen, as according to information received over our private wire from Lata, he was laid away without seeing that great production, "What Happened to Jones." It is almost certain that his long years of loniliness would have been enlivened by an occasional chuckle if he had. "What Happened to Jones," is a sangerous play to go and see and to pay 75c. to see it is inviting disaster. News received over our telephone ground wire reports that it is so funny that at one rehearsal there were so many laughs as you can get German marks for a dollar. Fat headache, backache, bursa, bruises, stiff joints or operations and see "What Happened to Jones." If you do not laugh your money will be returned.

Seriously, the hockey club finished the season about eighty dollars to the bad. This play has been prepared and will be presented under the auspices of that organization. The play is well worth seeing the way the proceeds assisting a first-class sport organization you are getting excellent value for your money.

DANCE

Music given by OARD BROS. ORCHESTRA

The reputation of this orchestra needs no explanation. Tofield dancers are already well acquainted with these excellent players.

ADMISSION $1.50 per couple (Including Tax)

Town Court of Revision May 14

Regular meeting of the Municipal Council of the town of Tofield, held in the Town Hall, Tofield, Monday, April 16th, 1923 at 8 p.m. Members present: Councillors Chapman, Dixon, North, Swift and Worton.

Moved by Councillor Chapman, seconded by Councillor Dixon, that Councillor Worton be deputy mayor for the quarter year ending June 30th.—Carried

Councillor Worton took the chair.

The minutes of the previous meeting were read and adopted.

Mr. J. D. Hannan interviewed council requesting cancellation of 1922 Business Tax amounting to $48.00, levied on Royal Alexandra Hotel.

Moved by Councillor North, seconded by Councillor Dixon that the 1922 Business Tax levied on the hotel be cancelled.—Carried.

Moved by Councillor Chapman, seconded by Councillor Dixon, that the following accounts be paid: Alberta Govt. telephones, $8.40; Western Municipal News, $2.00; A. J. H. McCauley, $9.00; Union of Alberta Municipalities, $10.00; J. Storry, $1.50; H. Milton Martin, $61.18.—Carried.

Moved by Councillor Dixon, seconded by Councillor Swift, that the following fees be charged for pasture for the year 1923: Rosedale, $50.00, Tofield Park, $50.00; Euclid Park, $35.00; Tofield Heights, $10.00.—Carried.

Moved by Councillor Chapman, seconded by Councillor North, that the selling price of Lots 5 and 6 in Block 17, G.T.P. subdivision be $50.00 each.—Carried.

The matter of rebuilding the fence around the nuisance ground was discussed.

Moved by Councillor Swift, seconded by Councillor North, that the property committee be authorized to arrange the fencing of the nuisance ground.—Carried.

Moved by Councillor Dixon, seconded by Councillor Swift, that the secretary be instructed to lay information against and prosecute W. Bowick, C. Bowick, John Terzaniki and J. Holstine, for permitting cattle to run at large contrary to the provisions of By-Law No. 173.—Carried.

Moved by Councillor Dixon, seconded by Councillor North, that this council act as a Court of Revision on the 1923 assessment, on Monday evening, May 14th, at 8 o'clock.

The matter of proceeding forth with the cancellation of subdivisions was discussed.

Moved by Councillor Dixon, seconded by Councillor Swift, that the secretary immediately take steps to have the plans of Lakeview and Tofield Park subdivisions cancelled.—Carried.

Meeting adjourned.

Local and General

LINDBROOK

Spring seemingly has at last arrived and everyone feels joyous in consequence, most of the men being busy in making a start on the land, cleaning seed, etc., whilst the general quest of the ladies seems to be for that unknown quantity, to wit, a brandy

Mr. I. Painter has returned from his visit to England and looks as well as ever The ex pected accompanist, a Mrs I Painter did not materialize, as we all expected, so he cleaned his stove for nothing.

Mr. and Mrs. Maaret and child returned from Providence, R.I Mr. Maaret owns a farm here which he left nine years ago to go to the U.S. Mr. Maaret saw service overseas during the war, and it was whilst there that he met his wife. He intends farming his quarter now and we all wish him the best of luck and welcome him and his wife and family to the district.

Mr. Pat Gladue is home on a visit from Mountain Park where he is employed at the mines

Quite a few Lindbrook residents attended the Saturday sales at Tofield last week, and we hear that several useful buys were the result.

Church service was held at the school last Sunday and the service was conducted by the Rev. A. Willans. These services are held every other Sunday, the next being on the 29th of April, 6 p.m These services are now non-sectarian and all are welcome.

Mr. A. Libby is very ill with what is supposedly the "flu." We hope soon to be able to record his recovery.

Miss Dunlop has resigned her position as teacher at Iberville school. Rumor has it that she is shortly to be married, that being the case we offer our sincere congratulations and best wishes

These auction sales are billed to be held on Monday, Tuesday and Wednesday of next week, all in the Rose Creek district. On Monday, a bankrupt sale will be held at the farm occupied by Mr Abbott; on Tuesday, M. Schmaus will sell a full line of live stock and farm machinery, and on Wednesday, five to Illness, Mr. Peter Gates will sell his horses and a good line of machinery. D. E. Ball will cry these sales.

During the week end Mr. and Mrs. A. Chambers of Rose Creek, left for Lashburn, B.C. Mr. Chambers, while still young and full of pep, is a real old timer of this district, having homesteaded here away back in 1906. For a good many years Chipman was a big market town, but Tofield drew like a magnet and of late years Tofield has been like unto Oslo. His intimate neighbors and all those enjoying their acquaintance will wish Mr. and Mrs. Chambers every success in their new location.

Ketchamool News Budget

Rev Geo Wood of Oddfield services at the school house on Sunday in behalf of the orphanage at that place.

Mr. Jos Johnson is spending a new car and the girls now will get some joy rides.

We have the pleasure of welcoming another bride to our district. Mrs John Lee arrived from New York State on Friday evening

We are sorry we made the mistake in writing Mildred Lawson had left for Wisconsin, it should have been Michigan

Messrs Williams Lumbered article took in the stock sales in Edmonton, the first of last week.

Mr. Wm Mitchell left on Tuesday for Victoria, B.C., for the benefit of his health. We all hope the trip will prove beneficial and he will come back better for the trip.

Spring work started in our district on Wednesday. A Mr. Grant started disking.

Mrs. O. Barnes visited with her son Ralph on Friday, who is still in the hospital in Edmonton. We are glad to hear he is improving.

The monthly meeting of the Missionary Aid Society will be held at the home of Mrs. Wm. Shaver next Wednesday after noon, April 25 A cordial invitation is extended to all

Mr. Leslie Coombes left for Spokane, Wash. where he has relatives.

Mrs. G. R. Owen and Wesley Ingram visited their brother I. Ingram, who is lost in a serious time with a broken limb, at the Misericordia hospital in Edmonton.

We are glad to report the Schmits boys are very much better under the care of Mrs. Bladon of Tofield. Mrs. Carter has also been staying at the Schultz home the past week.

Mrs. S. Sweet has been very ill the past week Mrs. Henry Barnes is nursing for her

A visitor was held on Thursday week at the home of Mr. and Mrs. J. McIntosh in Mundare, while Alice remained for a few days with Mrs. Bladon of Tofield. Mrs. Carter has also been staying at the Schultz home the past week.

Mrs. S. Sweet has been very ill the past week Mrs. Henry Barnes is nursing for her

A visitor was held on Thursday week at the home of Mr. and Mrs. J. McIntosh in Mundare, while Alice remained for a few days with Mrs. Bladon of Tofield. Mrs. Carter has also been staying at the Schultz home the past week.

Ryley D.C. Well Received

The three part dramatic parable An Old Fashioned Mother, rendered by members of Ryley Dramatic Club on Thursday evening, drew one of the largest crowds that has assembled in the Variety Theatre in many weeks, and, needless to say, everyone thoroughly appreciated the reproduction.

Though the play is one of the finest ever attempted by the Ryley club, it is the consensus of opinion among those who witnessed the three act crowded with [illegible] drama and clean, wholesome humor, that the club not only staged the play with a full measure of success, but at the same time presented one of the most interesting and instructive entertainments staged here in many months.

Every character was represented by excellent talent and as every part was reproduced almost perfectly, it would be very difficult, indeed, to make an analysis and name an individual star.

Spring Fever

May be the result of any one of a number of causes. No matter what the cause a good tonic is greatly beneficial. With proper diet and the regular taking of a tonic "that tired feeling" is chased away to be replaced by vim and energy.

We are carrying a full line of tonics and all other patent medicines as well as conducting a line [illegible] necessary to make [illegible] your medical requirements prescriptions.

Don't forget [illegible] well stock [illegible] beside [illegible] and [illegible] one good line of toilet [illegible] and stock

THURSDAY APRIL 20 1922

E. WORTON, PUBLISHER

THE LIQUOR REFERENDUM

On July 11th, during the next ten months Alberta is to have an election as to whether or not beer can be sold at hotels. At time of writing the Premier and a special app ointed committee are coming to a decision as to whether alternate proposals in connection with the sale of alcoholic beverages should be presented at the same time.

There is a short divergence of opinion between the "wets" and the dry s. The dry's put forward the claim that a total prohibition province creates a efficiency that is unequalled, and, more prosperous, better housed and fed and generally speaking, much better off than a non-prohibition province. The "wets" claim that prohibition does not prevent but creates a flooded bootlegging with a corresponding horde of lawless and law breakers. That the quality of the liquor sold illegally is the most poisonous. Also that the flouting of liquor laws breeds contempt for other laws.

It can safely be said that both sides go to extremes in presenting their arguments.

From press reports and unbiased public men in the scenes to be a growing preference for government control. If the will of the people be expressed that this question satisfactorily at one sweep. All successful laws is a combination of majority desire, almost universal sufferance and law makers ability. The majority in such case of alcoholic beverages is largely a matter of adjustment and majority desire changes according to the education among temperance lines the people receive.

A DISAPPOINTMENT

ONE OF the most interesting features of the Edmonton Spring Stock Show was the Juvenile calf feeding contest. The newspaper reports announced keen competition and an excellent display of animals. The calf that was awarded first place was exhibited by a Lougheed boy, and as the animal sold for 30c. a pound and weighed 810 lbs. this youth received $603.00 for his calf and the careful work he did in connection with the fitting of it.

$600.00 is no small amount but even this amount is of less importance to the boy than the experience gained. That will stay with him for a life time. Furthermore the boy and the parents that encouraged him are doing a public service quite equal to many of our M. P's. With keen a province admirably suited for cattle raising and British calling for improved stock, any one that creates interest in the improvement of cattle is doing a real public service

Our most hearty congratulations go out to the Lougheed lad in his hour of triumph. It is no disappointment to us, however, that no Tofield boy with his calf was lined up before the judges.

REVOLUTION

Is started by the Swift Canadian Creameries

IN CREAM BUYING

NEW BUYING SYSTEM

Means Thousands of Dollars for Dairy Farmers

ALL CREAM-BUYING MIDDLEMEN have been eliminated by us — no agents, buyers, or solicitors. They used to cost us about 2c per pound butterfat. This money will in future be given by us to the dairy farmers in HIGHER CREAM PRICES.

ALL our CREAM PRICES IN BUTTER, will be on an F.O.B. EDMONTON BASIS, and the amount we formerly paid to express charges will be ADDED BY US ON TO THE PRICE WE PAY FOR CREAM. This new policy regulates the burden. The man who sends in a full can does not have to bear part of the burden of the man who ships only half a can.

Women's Institute Notes

A pleasant evening was spent at the the Institute Rooms on Tuesday when five tables entered into a game of whist. After a dainty serving the scores were counted and the results were as follows, High Lady, Mrs. Sanderson 127, High Gent, John Paraske 108, Low Gent, Mr. Smith 103.

Next meeting of the Institute will be at their earliest convenience

On May 16th. Mrs. Stronch will give a demonstration on "Machine Attachments" at the Institute Rooms. Keep this in mind and all attend.

Thanks From the Salvation Army

Despite the "Hard Time," the citizens of Tofield have helped us with a timely sume, and the total collected by Captain J. Moll is $25.75 which is about a fourth of last year. We thank you and trust you will be able to fourfold it again next year.

Yours sincerely in the Cause of the Salvation Army

The Ford Has Passed Them All

IN ten years the Ford Car has passed the street car, the horse and buggy and the locomotive as a means of transportation

The Ford has given the public transportation which combines all the advantages which other methods offer with none of their disadvantages.

It is giving the railroads real competition in fast cross-country transportation.

It has ousted the street car in nearly all cities.

It has pushed the horse and buggy completely into the discard in low-first cost and low maintenance costs.

The number of people who buy Ford cars will set the price of Ford cars.

...and a book from him, or to every Rexall drug store that he could name in one evening. This had to happen every last one of me. This exception is Dug Bailey, who keeps a store in Dennis and operates the Tofield-Edmonton stage. "Dug" is a "Rexall girl," and they remain "Rexall girls" or him for all the money on Wyoming.

He was watching her keen, as he wrote and as she grabbed to see again what he had written.

"Those accounts... [illegible] ...you're in it!" she cried in delight to the point where she could keep the secret no longer. Instead of her even knowing a Dr. Hamilton man to have left an idea all... but he—"

"You think he will declare that, I should say," Morris replied sneering. "That man will get more trouble than all her friends can take care of."

"Poor girl!" Dorothy's mother was sympathetic but more practical. "I suppose it will be necessary for her to go away for a while, Morris, and I'm sure you will be glad to do something for her."

"I don't believe it will be," Morris replied. "I'm not going to have my name and reputation dragged through the mud by a lot of gossiping women. I'm sorry for Miss Bernard, but I'm sure she will be able to get over it in time. I'm not going to have my name mixed up in it."

D. E. BALL, Auctioneer, Tofield

KETCHAMOOT

(Continued from front page)

We are very sorry that we are too late to write the Clinton Hall obituary, but Mrs. Frank Hall wishes to express the family's thanks in her own words.

"Words cannot express our thanks to our friends and neighbors for all they have done, no one could have done more, and we sincerely appreciate all their kindness."

DEVILS

The winter appears to have left us at last and the signs of spring are evident on all sides; multitudes of crows are cutting the air, or perching in the trees, looking around for bait; the farmers are busy looking over their implements, sharpening the plow shares and preparing generally for the spring drive.

We regret that Mr. H. Boynton, an old-timer of this district, and a man respected by all who knew him, is leaving, having recently sold out.

Born—To Mr. and Mrs. J. Morrow, twin daughters; mother and children are doing fine. Congrats.

Letters of the light "ballastic" will be pleased to learn that for the dance billed for Tuesday April 24th, Oard Bros. orchestra will play. These players are well known here and are at ways given a hearty reception

There will be a Service in memory of Vimy Ridge on Julien and Ypres at Holy Trinity Church on Sunday next, April 22nd at 7.30 p. m

Mr. W. F. Wright is expected home this week from Vancouver after having a holiday of two weeks.

Holy Trinity Ladies Aid will hold a Tea and sale of Home Cooking in the Women's Institute Rooms on Saturday after noon. April 28th. Everyone welcome.

CARD OF THANKS

We wish to thank all the kind friends for their help and sympathy during our recent and bereavement.

Mrs. C Hull and family

Police Court Busy

On Monday four motor vehicle act cases were tried at the town hall when four residents of the Kingman district were convicted of driving an automobile without license plate attached.

On Wednesday a case out of a quarrel between two Ryley residents was aired in court. A charge of the theft of a cap and another of abusive language was made against the defendant; later the charge of theft was withdrawn conviction being made on the abusive language charge. Both parties paid their own costs.

Curiously enough, another case from North Cooking Lake, containing the main features of the above was tried, only it was a dog instead of a cap this time. The same arrangement was made via the withdrawal of the theft charge and conviction being made on the abusive language charge

DEVILLE

A sad accident occured at North Cooking Lake on Mon last April 16th when Abe McDonald was crossing the railway track just west of the water tank. His team was struck by a freight train and instantly killed. The bay mare was ground into bits and he was thrown clear off the track and found near the fence. He suffered several injuries to the face, and it is believed his arm and collar bone are broken. He was rushed to the Hospital and the last report is that he is progressing favorably.

Robert Donald is also in the Hospital. He was using an axe around home and a piece of wood struck over his knee causing painful injuries.

A Ferguson shipped a carload of mixed stock to Edmonton on Thursday, consigned to the U. G. G.

A very pleasant evening was spent at the home of Mr. and Mr. H. McDonagh on the night of the 19th. A number of friends gathered and singing and dancing were indulged in. The music was supplied by Miss Laura Dunlop on the piano, in which she excels, and Mr. H McDonagh accompanied with the violin. It was a musical feast.

Farming operations are not general in this district at present, but the coming week will see a most of the farmers on plow land. A considerable amount of summer fallowing was done last year and most of it will be seeded to wheat. There is no lack of moisture here, and the seed should have plenty to grip on it a start. Quite a number of the farmers here are experimenting with sandbrown wheat which to feed their stock during the long winter, as the hay meadows that generally gave an abundance of wild hay, are failing to do so under the continued dry summers.

The death occured at Edmonton on Saturday, of Herbert W. Robbins, an old time settler of the Minnitik Lake district. Mr. Robbins homesteaded in this district in 1905, but has been a resident of Edmonton for the past few years. He leaves to mourn his loss a wife and two boys, age ten and six. He moved overseas from 1916 to end of war and was on Oddfellow and K. of K. He was 44 years old.

Now ours are appearing with something like old time regularity Mr. McCauley now riding in a new Ford and Mr. Beech in tonsorial fame doing likewise.

Liquor Referendum Ballot

Below is the ballot finally agreed upon by the provincial legislature on Saturday to be submitted to the electorate of Alberta this year to determine what form of liquor legislation is desired. Electors will be enabled to vote 1, 2, 3, 4 on these questions, according to their preferences. The ordinary "X" vote has been abandoned in this case.

(a) PROHIBITION—
Meaning thereby a continuation and development of the present legislation; that is, meaning the abolition of the sale of all liquors excepting for medicinal sacramental, manufacturing and scientific purposes.

(b) LICENSED SALE OF BEER
Meaning thereby the sale of Beer in Licensed Hotels and other premises as provided in the proposed Temperance Act.

(c) GOVERNMENT SALE OF BEER—
Meaning thereby the sale of Beer by or through Government Vendors for consumption in private residences under Government Control and Regulation, other liquors to be sold through doctors' prescriptions for medicinal purposes.

(d) GOVERNMENT SALE OF ALL LIQUORS—
Meaning thereby the sale of all Liquors by or through Government Vendors—Beer to be consumed on Licensed Premises and in private residences—Wines and Spirits to be purchased in limited quantities under permit, issued by the Government, under the strictest Control and Regulation.

Local and General

The local lodge of Oddfellows will attend divine service at the Tofield United church on Sunday, April 29th. Members will meet at the lodge hall at two p.m. Service will commence at three p.m. Rev. Wm. B.D., will conduct the service. Visiting brethren cordially invited t attend.

The local tennis courts are now in proper condition for playing and will be opened on Monday of next week. For the first week non members as well as members are invited to play. This has been arranged to give beginners an opportunity of getting into the game. Tennis shoes, with no heels must be worn.

Holy Trinity Ladies Aid will meet at the church on Wednesday, May 2nd. at 2.30 p. m

Mrs. Knight left for her home at Banff on Saturday morning. She has been visiting at the home of her sister, Mrs W. F. Wright for a month.

The new line as used to the Ukraine Stockton has turned in the first summer story of the season. A valued employee of the National system is the first Tofielder this season to don a straw hat.

Growth Of Dairying

Outlook in Next Few Years

Dairying in Alberta is just at the point where growth and development will come with remarkable rapidity, said Warren W. Prever, Manager of the Edmonton City Dairy, in an address to the Rotary Club recently. The industry is just coming into its own and the next few years should see great expansion

Alberta now is marketing about 12,000,000 pounds of butter annually and there appears to be no reason why proper exploitation of the possibilities within the province should not soon increase this production to one to 150,000,000 pounds

Where you see the farmer with a few cows, some hens, a good vegetable garden, and a few flowers to brighten the environment of his home there you will find fine and hard times' wall or "fed" propaganda. You will find instead a contented citizenship," he said Mr. Prever

Weakness and Distress Left by "Flu" Entirely Overcome By Tanlac. States Mrs. Johnson

Tanlac has meant so much to me that I want to join the good news along. I suffered for three years after the 'flu' and for three months in bed," said Mrs. Ethel Johnson, 1012 Winnipeg Ave., Regina, Sask.

"I was a mere shadow, just as pale and looking and feeling miserable. My appetite failed me and it seemed that I would never regain my lost weight and strength. . . . At last I decided to "Tanlac," but never knew as how I couldn't sleep soundly and I'd wake and tired all the time.

"Tanlac proved to be both a rapid and wonderful and tonic for me. It has not only helped me out of my troubles, but my weight has increased about fifteen pounds. I now have a wonder of appetite, steady nerves and that tired feeling has left me entirely. In my case Tanlac has come up to every good word I have heard about it."

Tanlac is for sale by all good druggists. Over 35 million bottles sold

Nova Scotia Member Advocates Secession From The Dominion

Halifax, N.S.—Secession from the Confederation province of the Dominion of Canada and the setting up of Nova Scotia as an independent province, during the Imperial War, was voiced in the House of Assembly by H. H. Fielding (Conservative, Inverness), in a resolution asking for a referendum vote of the electorate to ascertain whether the people of the province are in favor of such a move.

Mr. Fielding's arguments were based on several points which he endeavored to show justified the action proposed. The spirit of the Confederation pact, he said, had been violated in respect to the Intercolonial Railway, now part of the Canadian National system, and Nova Scotia as a province, the benefit of which the people of the province depended.

By her province's from population centres, he declared Nova Scotia could not compete with Quebec and Ontario in the marketing of their products and in selling on the local market. Nova Scotia was paying the surplus in those two provinces did not offer a market for Nova Scotia products.

Mr. Fielding's resolution was moved to appeal to the province's people to vote on the question, he said, so that the government might be advised in the matter of freight rates and way shipping and other questions upon which the prosperity of the province depended.

Would Engage Expert

Advocates Seeking Advice of Sapiro On Marketing Question

Calgary.—H. W. Wood, President of the United Farmers of Alberta, and James Carlisle, of Western Canada, leaving the advice of Aaron Sapiro, the California marketing expert, in marketing wheat co-operatively, have made a contract with Mr. Sapiro whereby he will come to Canada in the near future to assist in the formation of a co-operative wheat marketing association. The contract has been signed by Mr. Sapiro and Mr. Wood, and the latter is now in Chicago, where he has been in consultation with Mr. Sapiro regarding the matter. Mr. Wood is expected to return to Calgary on Monday, when he will be met by a number of prominent farmers.

DEMAND FOR FARM LABOR

DEPARTMENT OF LABOR REPORTS IMPROVEMENT IN EMPLOYMENT CONDITIONS

Ottawa.—Employment conditions throughout Canada showed improvement during March, according to the Department of Labor. A resumption of demand for farm labor, especially in the prairie provinces, and improvement in the manufacturing situation are noted.

Logging operations, which normally in many districts start in the spring time, but in British Columbia in some cases, showed gradual betterment.

At the beginning of March the percentage of unemployment among members of trade unions was 6.6 as compared with 7.8 at the beginning of February. Industrial disputes in existence during March numbered 1 involving 1,425 employees and a loss of 2,850 working days. During February there were 19 disputes, involving a time loss of 51,875 working days distributed among 3,962 employees.

ASK LEAGUE FOR HELP

WORLD ALLIANCE WANTS TRIBUNAL TO SETTLE REPARATIONS QUESTION

Geneva.—A resolution asking the League of Nations to take the initiative in bringing about a settlement of the reparations question in a more reasonable basis was officially presented to Sir Eric Drummond, secretary-general of the League, by the World Alliance for Promoting International Friendship through the Churches.

The resolution advocates the constitution of a body which shall be partes could submit their case, or questions of financial importance, for settling its decision in effect and a method of arbitral protection in the interests of general peace.

Chile Makes Proposal To Limit Armaments

Suggests Acquiring No Ships During Five Years Treaty

Santiago.—Chile before the armaments reorganization on the pan American conference made a proposal yesterday for limiting Latin American armaments in proportion to their capital ships. The Chilean delegate recommended a five year treaty, during the time of which no capital ship would be acquired.

The treaty would expire May 1, 1928, but would be automatically renewed for five years unless denounced by a signatory nation. Chile announced that she was ready to sign the proposal.

HAD BAD PAINS IN HER HEART

Nerves Were Very Bad

Mrs. John Vaux, R. R. No. 1, Lacombe, Alta., writes: "I was a sufferer from nerves and heart trouble with me I cant and nerves. I was troubled with the pain around my heart. I was told that I had a bad heart and I would be about to fall down and I would not sleep. I was getting so I was afraid to be left alone. My husband got me a box of Milburn's Heart and Nerve Pills and before I had taken the box I could see much better. I am about well now and am able to do my housework. I cannot praise MILBURN'S HEART AND NERVE PILLS too highly."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE TOFIELD MERCURY

THURSDAY, APRIL 24 1924

W. WORTON PUBLISHER

THE GENTLE PROCESS OF BEATING THE FARMER

THE FOLLOWING taken from Friday's issue of the Winnipeg Free Press makes interesting reading to farmers of this district, whose cattle raising is at least an important part of their farm activities.

The ocean steamship companies are in the number directly interested, as a large number of cattle at $15.00 but when trade picked up for big prices of $22.50

Explain this

Well, you know that the western farmers have suffered terribly on account of the low price of cattle, don't you?

Of course. Everyone knows that. They say that sometimes the farmer who shipped cattle got nothing at all after the freight and expenses were paid.

That is true. In order to help the farmer out, a great effort was made and the British government was induced to visit the situation, so that now Canadian cattle can be shipped to England when there is a good market for them.

That is a good thing?

Yes, if the freight to England is not too high.

Of course, the cattle farmers all over Canada got ready preparing cattle for shipment, so that a great trade was in prospect. When the steamship companies saw that, they raised the rate from $15.00 to $22.50

That takes just $7 on a head out of every farmer that sells cattle for shipment to England.

It does, but that is not all. Buyers came from Britain to the Canadian Northwest with money in their pockets to buy cattle. When they asked the steamship companies for rates during the spring months as they could ship the cattle they bought, they were told there was no space. A VAN IN NEW YORK HAD CONTRACTED FOR PRACTICALLY ALL EASTBOATS.

But a man in New York would not have cattle to ship from Canada to occupy all that space

Of course not. The men who has the cattle will have to go to the New York man and hunt up space for him

At what rate?

At any rate he thinks he can afford.

Then our farmers will not have to pay $22.50 but $22.50 and a profit to this New York man?

Just so.

But then New York man is a man outsider. He isn't a farmer nor a buyer of Canadian cattle. He has no right to any profit?

Just so, but he is going to take it all the same

That looks like a deliberate put up job I reckon.

It doesn't look like anything else.

Are the farmers going to stand for it?

That is for them to say. They have representatives in Parliament who can stop it if they fight hard enough.

We had better see that they do fight hard enough

That is the way to talk

Judging from current reading, if there is one thing more plentiful than any other in the world to-day, it is ocean tonnage. Everybody knows that during the war every nation that could build a boat went at it for all they were worth. The only Canadian government constructed a number of ships and in the United States they built iron ships, wooden ships and even concrete ships. With the close of the war there came a great slump in ocean freight and hundreds of ships were to be had for a song. Many of them were to be sold to the different ports of the world and left there to await better trade conditions or slowly rot. It is only quite recently that the announcement was made that a large number of U. S. ships were to be sold at a price very much below what they cost to build. The only country to keep anything like a merchant marine on the high seas is Great Britain and this was possible through years of experience and previous trade connections plus British "sentiment."

With the British cattle embargo off, and a wide open market for prime cattle staring us in the face, it should become the duty of every federal member of parliament to find out what is a fair rate for the transportation of cattle across the Atlantic. The figures quoted above may be fair or unfair, but to deliberately jump the rate because business promises to be brisk should not be tolerated.

SUGAR

SUGAR MAY be sweet but it certainly is not speaking in honeyed tones these days. Not so very long since, February, 1st to be exact, the Tofield house wife could buy a twenty pound bag of sugar for $2.10. At time of writing the same amount costs $2.65 and advices are that it will continue to soar. Up to the present there has been no reason published for the advance and as the preserving season is several months off, there is considerable objection to say why and when. Some months ago we read that of the total sugar consumption of the United States, 60 per cent was produced by sugar growers in the States to kill other insects that were robbing some of the sugar plantations. One may or may not account for the scarcity and consequent high price, but we mention it for what it is worth.

There is one thing, however, that of the [illegible] unquestionably is "higher up" than people besides the source is in its hands. Generally speaking the average person consumes more sugar than is good for health and certainly many times the amount consumed by our grandfathers and grandmothers. Sugar is a valuable food and the world to day would have a hard time getting along without it, but a twenty-five per cent cut in consumption would not hurt the average family and it might be the means of bringing cheaper sugar.

More Truth Than Poetry

There are a lot of people that think they know how to edit a paper and can give the average editor pointers on how he is to run a business. There is a splendid opening waiting for such a person somewhere, which we are following taken from a Wisconsin paper.

"Wanted, an editor who can read, write and argue politics, and at the same time be full of religious, funny, scientific and historical at will, write to please everybody under the sun, be a mind reader, know everything without being told, always have something good to say about everybody, live on fresh air and make more money than one makes. For such a man a good opening will be made (in the graveyard.) He is too good to live.

Victory Bond Interest

When your interest coupons become due, or when you receive cheques for interest on registered bonds, deposit them in a Savings Account in the Bank of Montreal. The money you receive on your investment in bonds will then earn interest for you.

Here's the purchasing value of a Dollar

TODAY you can get 31% more of Ford Equipment for a dollar than in 1914.

Almost all other commodities today show a marked increase over 1914 prices.

This means that a man whether he be a farmer, manufacturer or other producer, can buy Ford Equipment at a greatly reduced price while he receives a healthy increase for his produce over 1914 prices.

This is in face of the fact that the tendency of prices on all commodities is to increase.

Therefore, the present prices of Ford Cars, which are the lowest in the history of the company, cannot be guaranteed.

The only way you can make sure of them is to Buy Now.

Terms if you wish.

Exploration Work In Great Northern Areas Reveals Our Little Known Resources

[illegible] #1 vision of time a series and accumulative line it unknown to little known areas of Canada. Little to light resources, the existence of which had previously only been conjectured. This was the case in early part of the work done in 1921-22-23 in exploring and marking the Manitoba-Ontario boundary northward from the Whiteshell River.

Dr. Arc. of Parliament in 1912, the provinces of Ontario and Manitoba were increased in size, the former by including the district of Patricia lying north of that old boundary along the Lakes and Albany Rivers and the latter by enlarging a vast area to the North and west of this district. Both provinces were thus provided with long sea on the tidal waters of Hudson Bay. The new inter-provincial boundary, as laid down on the map, runs due north from the east — to the point of intersection of the 95 longitude line with the 60th parallel of latitude. JOBB & COMPANY

(Experimental Farms Note)

A question arising with those who are sowing grasses and clovers for the first time is what is the best nurse crop with which to sow them. Some experimental work along this line has been done at Brandon Experimental Farm and the results have shown that of the commonly grown grains, i. e. wheat, oats and barley, wheat is the most satisfactory nurse crop. This result has been obtained several times in both dry and moderately wet years, so that it is now safe to recommend seeding down with wheat as the best policy in Manitoba. Flax is also a good nurse crop, but is not little grown as not to be of material consideration.

The Office Dog

Trouble with sleeping late on Sunday, says Geo. Dixon is you have a hard time getting hungry again for dinner.

Say it with moonshine—the flowers will come later.

Our two favorite books would be too book books.

The Tofield Maiden's Prayer—"Dear Lord, I ask nothing for myself! Only give mother a son-in-law."

It takes a woman's intuition to grasp the point difference between two dollars and $1.99

Maybe the second hand auto business is poor, but there always seems to be a market for used baby carriages.

The meanest man in the world is the one who will do you dirt and then apologize before you have time to tell him what you think of him.

Tofield, - Alberta

THE TOFIELD MERCURY

VOL. IV. NO. 39 TOFIELD, ALBERTA, THURSDAY, MAY 3 1923 SUBSCRIPTION IN CANADA $1.50; U.S. $2.00

Monday, May 7th, Arbor Day, "Plant a Tree"—Tofield Women's Institute.

"What Happened to Jones" Well Received.

The "best thing" put on in Tofield for a long, long time, was the general verdict of the audience on the presentation of "What happened to Jones." There was an excellent attendance and everyone was well pleased with the production. The bandville advertised the play as a scream and it was all that and "then some."

All the characters presented their parts splendidly and to commence to name them and give them the praise they deserve would be too great a tax upon our knowledge of complimentary adjectives. The whole company worked together like a well oiled machine and there were no perceptable flaws anywhere.

The play will be taken to Ryley and most likely other points. Those included in the cast were the Misses C. Abbott, A. Bethel,

AT THE

VARIETY

Saturday Only, May 5th

"The Woman Who Walked Alone."

Featuring

DOROTHY DALTON

A sensational locomotive drama without a dull scene. With lavish gowns and settings, and a fine supporting cast headed by Milton Sills and Wanda Hawley.

The melodrama beautiful, sweeping from London's hall room to the wild South African jungle. Produced by the man who made "The Sheik." Romance, shivery thrills, and a brilliant fashion show—all in one big, gorge-ous melodrama.

Usual Admission.

Local and General

T. Waddington visited Edmonton on Monday.

Rev. Watt visited Edmonton on Monday.

Mrs. C. M. Simmons visited the capital city on Tuesday

We are very pleased to see Mr. Griswold back on the drug again after an enforced absence through illness.

Six tons of butter were shipped from Tofield during April

Mr. McAuley and son visited Edmonton on Friday last.

Mr. and Mrs. McLellan visited the capital city on Friday.

Mr. Home Sr. and Mr. R. P. Rowe entertained for Vancouver on Friday night's train.

Mr. F. Burrough left for Burn's Lake B. C. on Thursday last.

The play will be taken to Ryley and most likely other points. Those included in the cast were the Misses C. Abbott, A. Bethel,

Mr. Ed Ingram who has been working for Mr. Barnes returned home the latter part of the week.

Miss Hutchin who has been keeping house for Mr. Harold McMullen the past month left on Monday for Saskatchewan.

Mr. and Mrs. Robert Lee of Edmonton visited the different Lee families on Tuesday.

The fire flood swept through the west side of the district on Thursday. Men were on hand to fight but fortunately not much damage was done except ing a number of loads of hay and a few log buildings.

Messrs Vaughtlin and Sears are farming the Wm. Mitchell place also Mr. Vaughtlin has rented Mr. Hugh Mitchell's farm land.

Master Russell Schultz started back to school on Tuesday after being detained home for several weeks from illness.

Mrs. Oscar Barnes went to the city on Monday and Ralph was able to accompany her home. He has been in the hospital for three weeks.

Mrs. Wm. Sears entertained the Missionary Aid Society on Wednesday afternoon. There was a good attendance. Mrs. Geo. Cookson gave a very good report of the Missionary Aid Conference held in Edmonton.

Mr. Geo. Lawson had the misfortune to have two mules killed on the railroad crossing near his place on Saturday.

Mr. H. H. Hull, social service secretary of Alberta, was with us on Sunday afternoon. His address was both interesting and instructive in regards to the coming vote on prohibition

Mrs. Barden who has been nursing at the Nelson home the past three weeks returned to her home on Monday.

Mr. A. McMullen received the 20th cow lately by adding the addition was set up on Sunday and resided at the home of his son Jesse, over Sunday.

On Thursday last a surprise party was held at the home of Mrs. M. Wood, in honor of Isabel's twentieth birthday. A number of her friends were present and had a glorious time. At midnight a dainty lunch was served.

A. Van Buskirk, B. and M. Gilliland and Mrs. C. Hamm delivered Messrs. A. Calvert, A. Hingley, F. Beirnes, D. Todd, J. Jobb, R. McIntosh and H. Howell.

A football party was held at the Wallington home on Thursday of last week, this day being Hilda's birthday, a number of her school mates were invited to be present. All present had a dandy time playing games, etc.

Mr. B. Spilsted visited Edmonton on Thursday.

Mr. Howe, of the Royal Alexandra hotel staff, is attending an Edmonton hospital.

Mrs. Barden was an Edmonton visitor on Thursday.

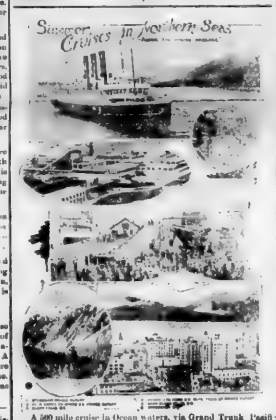
A surprise party was held at Mr. and Mrs. Ray's home on Thursday last, the day being Mr. Ray's birthday. Whist was played, three tables being occupied. A delightful lunch was served to the guests.

Mrs. H. Bollins (nee Wood of Viking is spending a few days with friends at Tofield.



A 7,000 mile cruise in Ocean waters, via Grand Trunk Pacific steamships, from Vancouver to Alaska Coast, along the "Inside Passage" affords all the delights of ocean travel combined with superb scenery. It is impossible to over-estimate the value of a sea trip as a restorative for tired mind and body. Seated on the shaded decks of the S. S. "Prince Rupert" or S. S. "Prince Geo." looking over the wild waste of waters, inhaling the invigorating purity of salt sea air, one is enraptured by the subtle presence of the sea, the languid swell of the waves, and the wash of the water against the ships side. The above pictures give an inkling to the jolly times spent on board one of those palatial steamships; every hour being filled with enjoyment, whether spent in contemplation of the glories of nature or in the happy social life which develops as the journey proceeds, with deck games, concerts and dancing

BABIES

Born to Mr. and Mrs. J. Burk holder on April 24th, a son.

All good citizens are working in the fields early and late and praying for rain.

Mrs. John Berkey of Bunyer, Neb., and her brother, Dave Burkholder came last week to visit their mother, Mrs. M. Burkholder, who is very sick.

Born To Mr. and Mrs Owen Hershberger, April 26th, a son.

Bardo Basket Ball girls have re-organized. Matters coming last week for practice Captain Mrs. Ivey Moss. Manager and referee, Jos Obriel

Gudrun News is hosting for Washington this week. It is hoped the change of climate will improve her health.

Little Malcolm Fenwick is quite sick

Hans Berglund spent the week end with friends in Bardo.

Mrs J P Lerbekmo went to Camrose on Monday to undergo an operation in the hospital.

V. L. H ath has been suffering with a sore hearing in his head but is able to be out again.

Baseball Association Reorganized

A meeting of the Tofield Baseball Club was held in the old Queen's Hotel on May 1st. The following officers being elected for the coming season:

Hon. Pres., A. M. Sowerby, M. L. A.
Honorary A. D. Brown
1st Vice President, Mr. Mackenzie
2nd " " Mr. Pincott
Manager, D. E. Ball
Asst. Manager, Chas. Adams
Sec. & Treas. A. L. Jobb
Capt. Otto
Asst. Capt. [illegible]

Prospects [illegible] are very enthusiastic over the prospects for the coming season. Work is going on in full swing between Ryley, Camrose, Duhamel and Tofield. It is to be hoped that the league will be successfully formed and that every member will do his part in boosting baseball in this district. Let's have a good league and a good time.

H. H. Hull Visits Tofield On Sunday

On Sunday evening H. H. Hull secretary of the Social Service League addressed the congregation at the United Church service. His topic was the ballot upon which the people of Alberta will mark their votes on November 5th next. He spoke in favor of the present laws and regretted that the government had asked other questions on the ballot in addition to the one requested by the Hotel Men's Association. He urged his hearers to vote for questions and preserve the prohibition legislature that the province now has.

After the service a meeting was called at which the following local committee was appointed to assist in prohibition work and the collecting of funds for the same: President, W. Swift, Sec. Treas. A. J. H. McCauley, J. W. Chapman and J. Jobb.

Brilliant Scenes At Royal Wedding In Westminster Abbey

London. The Duke of York and Lady Elizabeth Bowes Lyon joined hands and hearts before the golden altar in Westminster Abbey while all Britain poured out its blessings.

The great soldier in Parliament Square which encircles within its hallowed walls the musical remains of kings, queens, martyrs to saints and heroes who have been at once a home and national ceremonies of transcendent interest, but it is a ground fit that surpassed the beauty and solemnity of this romantic event.

All the members of the Royal family and a brilliant array of foreign princes, princes, ambassadors and high diplomats with their ladies were there.

The entire service was completed with the traditional pomp of Hall Hall royal events—only when the bride was called upon by the Archbishop of Canterbury to repeat the solemn ritual beginning "I take thee to be my husband" and ending "in manner betokens an sign of nervous tense. He, too, was solemn and like the bride and groom, pale.

The bridegroom gave an impression of a man happy now that the miserable Georges Queen Alexandra gave the regal ceremony a human touch by moving out of her place and bending King Albert upon the number of the party as the ceremony began.

Next to the bride and groom Princess Mary and the Duke of Windsor were the objects of the most interest. They appeared to be the only ones not in the Abbey when the bridal party entered the building.

Princess Mary looked charming in her pale blue ensemble while Albert, the Prince of Wales, looked every inch the military hero during the entire ceremony.

At one point during the service, as the bride and groom knelt before the altar, the Archbishop of Canterbury placed the ring on the fourth finger of his bride's left hand and in a few low tones said:

"With this ring I thee wed with my body I thee worship and with all my worldly goods I thee endow."

The Archbishop then uttered prayers pronounced the couple man and wife and pronounced to the vast congregation: "Those whom God hath joined together let no man put asunder." He ended—then the long and the newly married pair advanced before the altar and knelt in prayer.

The choir sang Wesley's "Thee" and the Archbishop of York delivered a brief address to the bride and his brother, in which he said: "The warm greeting you have received from your fellow countrymen is but a small token of the affection which they bear you."

The Archbishop of York also delivered a brief address to the bride and his brother, in which he said: "The warm greeting you have received from your fellow countrymen is but a small token of the affection which they bear you."

In response the bride and groom both said: "I will."

The service was concluded with a short prayer and benediction and the long procession began to move down the aisle. The bridal party left the Abbey in the following order: Princess Mary and Viscount Lascelles, Prince Albert and Lady Elizabeth Bowes Lyon, the bridegroom and bride, the Duke of York and Lady Elizabeth Bowes Lyon, the Duke of Windsor and Princess Mary, the Duke of Connaught and Princess Arthur of Connaught, the Duke of Gloucester and Princess Alice, Countess of Athlone, the Duke of Connaught and Princess Arthur of Connaught, the Duke of Gloucester and Princess Alice, Countess of Athlone, the Duke of Connaught and Princess Arthur of Connaught, the Duke of Gloucester and Princess Alice, Countess of Athlone.

GENUINE
JOHN DEERE
SHARES

Don't let anyone put a bogus share on your John Deere plow, any more than you would permit a tramp to shoe your best horse. Get the *genuine* — the kind that has the word "DEERE" stamped into the steel on the under side.

We sell the genuine because we are interested in the reputation of John Deere plows. We want your John Deere plow to keep on satisfying you fully. We know that it can't keep on doing the kind of work that has made John Deere plows the most widely used, unless it has a genuine John Deere share. Come in and let us show you why the genuine is the most economical share to buy for John Deere plows.

White Wyandottes—William Speers, Brandon 6-2; White Leghorns—Mrs. R. I. White Hudson, Man. 1-6; Mrs. Storm Winnipeg 7-7; F. Williams, Winnipeg 7-12; Mr. Mackinaw, Man. Experimental Farm, Brandon 1-2; Experimental Farm, Brandon 3-2.

How Do You Walk?

Nearly All Pedestrians Will Succeed From Straight Line

How do you walk? Do you proceed in a straight line or zigzag from side to side?

If you watch a number of pedestrians you will find that some out of every hundred walk in a straight line, proper carriage and then start swaying to the right and left.

This is because one right leg is more fully developed and stronger than the left. A boy handicapped mentally swerves to the left in walking and a girl to the right. Either is the more powerful.

It is such a slight thing, in the large majority of cases, that it is hardly noticed, but it is a defect that can be corrected by a little attention to the matter. Many persons think in order to be considered graceful they must walk with a decided swing from side to side. Such people should be shown the folly of such a course. Nothing is more ungraceful than a swaying motion from side to side.

Teacher—"What's a fowl, Ralph?"
Ralph—"A place for soldiers."
Teacher—"That's right. Now Albert, can you tell me what a fortress is?"
Albert—"A place for mothers-in-laws."

Canada Has Settled Debt With Britain

South Africa May Also Pay Substantial Portion

Chancellor of the Exchequer told the House of Commons, during the budget, gave details of the manner in which the commissioners are paying off the debts of the United Britain, Australia and New Zealand debts are funded and interest amounting to about £6,000,000 yearly is being received regularly. A substantial portion of South African debt had been paid off and the remainder funded.

Canada, however, the Income Tax Department, the Customs and Excise Department, the Post Office Department, the Department of Agriculture, and the Department of Public Works.

A Good Type of Settler

Farmers from Iowa and Nebraska Have Eyes on Western Canada

(By G. C. Porter — Winnipeg)

Two Motor Cars. While I believe the great neighborhood States will send the larger number of farmers to Canada this year Iowa and Nebraska will contribute the best type. Iowa sent more cars than two States of the same large better equipped and are rapidly becoming a more agricultural State and Nebraska are very much Iowa and Nebraska are Manitoba. These now owning to the favorable prospects for the early and abundance of coarse fodder on these States. and a corresponding option.

The pioneer in choice and most of the sell are strong in the Iowa cars. There are similar conditions — make a home on the soil in the smallest sum heard.

Iowa is a large of the Western Provinces of the Dominion Government and C. P. Rail in Iowa, in connection with Bennett and Mr. Watson, with Bennett and Mr. Watson, with their small body and with inquiries and that others crowded with men and women who are planning to go north this spring. The day I called in two Motor Pilgrim cars, loaded to the gunwales with men, women, effects and was being made ready for the journey. Each carried a number of cattle and other equipment. Each car had a number of men in it, and the two cars had between them 11 persons, besides a large number of cattle.

Interesting Party

Later we regular busy all load and some of the passengers were taking their last meal with the family. They were mostly of the well-to-do class, and were all in good circumstances. They had the best of horse-meal explained Bennett, and good cattle. They will be among the best farmers we have got in the province. Those people are pleased.

These two states have supplied the largest number of settlers to Canada and they will continue to do so for some time to come. We get a start in Iowa and Nebraska on a big farm, sell out, and with the proceeds buy a better farm in Canada, and also this class of settlers is increasing. Many of them have been here a year or two, and some of them are doing well after the drouth of last summer.

I met a number of these people in Winnipeg, and was struck by their appearance and intelligence. In one case I called them "Americans," but was corrected by the man himself, who said he was a Canadian, and was proud of it. He was born in Canada, and some of those with him were born in the United States, but they were all Canadians. They were the best class of settlers we could get.

Extension of French Studies

As a result of an interesting conference on the subject of the extension of French studies in the province, which took place in Edmonton on Tuesday between the Hon. J. C. Govenlock, minister of education, and a deputation representing the Association Canadienne-Francaise d'Education de l'Ouest, it is understood that the government will be prepared to make a considerable extension of the facilities for the teaching of French. It is said that committees would like to obtain a building capable of housing about a hundred or so students from all parts of the province.

CUTICURA HEALS
BABY'S BLISTERS

Head Covered With Eruptions. Hair All Fell Out. Got Little Sleep.

"When baby was a week old a rash appeared on her head in small pimples, which developed into blisters. The blisters soon spread and in less than two months all her head was covered with sore eruptions. Her hair all rotted out and she has all fell out. He got but little sleep.

"A friend recommended Cuticura Soap and Ointment. After using he got relief and in two months he was healed." (Signed) Mrs. Allan R. Caldwell, R. F. D. 2, Auburn, Me., Jan. 14, 1922.

Daily use of Cuticura Soap, Ointment and Talcum helps to prevent such humors.

Reconstruction in Belgium

Reconstruction in war torn Belgium is proceeding apace. Up to the end of 1922, 29,243 houses were rebuilt or repaired, 2,258 houses in 1922 were destroyed, and now nearly 3,000 have been rendered fit for occupation and about 4,000 of the 7,000 houses which were ruined in Flanders are in hand.

Surprised Twice Quickly He Got Relief

FRANK PLOUDE HOW PRAISES DODD'S KIDNEY PILLS

Ontario man who Suffered for Six Years found Relief and gives the Credit to Dodd's Kidney Pills.

Iona Lake, (not Orgelia). Mr. Frank Ploude a well, known resident here is always ready to recommend Dodd's Kidney Pills to all who suffer from kidney trouble.

"I have suffered with my Kidneys for the last six years," Mr. Ploude states. "At times I was so laid up I was unable to work. I saw your advertisement in the newspaper a year ago, and decided to give your medicine a trial. All my pains have gone and I feel better in every way. The kidney sufferers are legion, but I believe I would injustice them to take Dodd's Kidney Pills. I feel would be surprised how quickly they would get relief.

Dodd's Kidney Pills have become a family remedy all over the Province of Ontario because people have tried them and found them good.

They are purely and simply a kidney remedy. They help Rheumatism, Lumbago, Diabetes, Lame Back, Heart Trouble and Kidney Troubles because all these are either kidney troubles or are caused by the Kidneys failing to do their work.

Some Interesting Facts Regarding Great English Insurance Brokers

Lloyd's, the great English general insurance and marine insurance business in the world, is not a company, but a collection of individuals who underwrite risks, each one for himself and not responsible for the debts of his neighbor. Lloyd's was founded by Edward Lloyd, from which the name of Lloyd's is derived, throughout the fact that out of every dollar paid in losses Lloyd's only pay one real dollar.

The knowledge of this fact of human nature and its practical application has made huge fortunes for Lloyd's.

30,000 Russians in London

In all London there are less than 30,000 Russians at the present time and that was the largest alien colony in the city. This is an increase of nearly 5,000 over the figure for 1911. London counts today 27,000 Poles, 11,000 Frenchmen and 4,750 Germans. The American colony is under 1,000.

Additional Pressure Will Be Applied By The French In Ruhr

Dusseldorf That the Ruhr will be ruled with a firmer hand than before has been the decision arrived at by Premiers of the French and Belgian Governments, was the gist of an announcement made at French headquarters here.

Just what additional pressure will be applied was not made known, but it is assumed that new impetus in the planning to put more coal through the Ruhr mines will be forthcoming.

WESTERN LAND SALES

PRE EMPT ONES NOT SOLD SPECIFICALLY FOR HUDSON BAY RAILWAY CONSTRUCTION

Ottawa, John Evans (Progressive, Saskatoon) asked in the House of Commons for the sale of pre-emption lands in the West and Northern Ontario, which were sold specifically for the Hudson Bay Railway construction.

Hon. Charles Stewart, Minister of the Interior replied that the lands had been sold in the ordinary course of business and that no special reference was made to the Hudson Bay Railway when they were sold.

Developing Empire Resources

British Government May Extend Imperial Preference if Necessary

London, In the House of Lords Lord Marlborough moved a resolution respecting the duties on foreign and Empire imperial preference, and urging the British Government to take steps to secure preferential treatment for the products of the Empire.

Lord Long supported the resolution, and Lord Salisbury, Lord Privy Seal, opposed it.

The Duke of Devonshire, Colonial Secretary, said he believed that the adoption of the Imperial preference would be the best way to develop the Empire.

Lord Curzon, Lord President of the Council, said that he thought the time had arrived when the Government should be able to tell the Colonies exactly what it was prepared to do. He thought that the Government should be able to say that if the Colonies would do certain things in return for certain things done by the Mother Country, the Government would be prepared to do them.

Lord Long, replying for the Government, said that the Government was not prepared to accept the resolution.

The House then divided on the resolution, which was defeated by 114 votes to 41.

W. I. CLEAN YARD CONTEST

IN PAST years it has been hard to get people to understand that this is not a garden contest.

The idea of this contest is a CLEAN TOWN and incidentally a pretty town, for we believe that when people go to the trouble of keeping their own property and their share of public property clean and tidy, they will just naturally plant trees and flowers.

The prizes in our contest would be awarded to places without a flower on them. As the rules will show, flowers are only considered when several places have won all the other points, then the general plan of the flower garden is considered, and the one showing the best taste in arrangement of beds, borders, hedges etc comes ahead.

When the town is cleaned up and shaping and kept clean all summer, then the W. I. have gained the point they are striving for, and will then be able to offer a prize for the prettiest place in town.

It has been suggested that we give a prize for flowers alone, we would like to do this but this year our finances do not guarantee it.

The Agricultural Society gave a prize for the best display of flowers at their fair. If all those who have good flowers would exhibit them, it would help the fair, and show what is being grown

Please read rules carefully.

1. Perfect cleanliness of lots, also lanes and street sides boarding on lots.

2. No weeds on lot or lanes and street sides bordering on lot.

3 All lawns and grass kept trimmed on lot, lanes and street sides.

4. Wood and other necessary litter neatly piled.

(10 points for each)

5. In case several places win all points, preference must be given the one showing the best taste in plan, and general arrangement of flower beds, borders, hedges etc.

Prizes, $1 and $2.00 for best and second best small lots.

$4 00 for best place containing two lots or more than one lot.

British Paper's Report of the Arrival of First Canadian Cattle

The embargo imposed 31 years ago now being removed, consignments of Canadian cattle arrived yesterday at Glasgow and Manchester.

The first arrival at Glasgow, a big shed room and white steer, was led down by the Hon. Duncan Marshall, High Commissioner of Agriculture for the Canadian Government, and Mr. William Henderson, of Lawton, a well known Perthshire farmer The animal, which appeared to be in a hurry to come ashore, made off toward a point at which cinema operators had grouped themselves, and in heeding it off Mr. Marshall was knocked down. Mr. Marshall, however, escaped injury and himself rounded up the runaway steer amid cheers.

The Manchester Division of Manchester Liners, Limited brought to Manchester from Mr. John New Brunswick, 453 head of Canadian store cattle.

In an interview yesterday with a Daily Mail reporter a Manchester Ship Canal official said "We are all very proud that Manchester should be one of the first ports in the country to receive from Canada such a wonderful consignment of cattle. I have witnessed the arrival at the ports of one of thousands of beasts, especially from Ireland, but I have never seen any in better condition, and one wonders why the English market should for so long have been deprived of this really fine beef."

It is hoped that the new Canadian shipments of cattle to England alone will total more than 200,000 head before the end of the year and will result in a reduction of meat prices.

The Office Dog

Howdy neighbour, Reason boring is often worse than forgetting

"Dear me," murmured the landlord as he turned on the parlor light and saw the young lady boarder feverishly trying to free her hair net from the young man boarder's coat button — "Whenever I think that a hair net could catch a fish"

"Freeze to your job," said the ice.

Si Crabtree now buys his fit by only one quart of gas at a time. He is trying to wean it

The only concess that make people long besides spring, are summer, autumn and winter.

At fifty miles
Deuva Ollie Pidd
He thought he wouldn't
Skid — but did

Absent minded man. (falling down an elevator shaft) Dear me, I forgot to close the door after me.

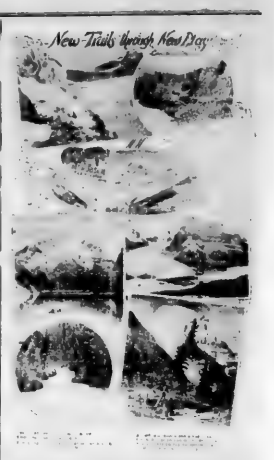
"HAM AND" FOR US

Just one other thing that is wrong about our present education system is that every domestic science graduate comes out of school with the idea picked up somewhere in the curriculum that cornmeal waffles makes a nice breakfast dish.

The law of contracts will not hold
When one contracts a bloomin' cold.
I kissed her, tho' I knew not what
A cold she had which now I've got.

Mount Robson

Mount Robson National Park holds for the tourist and explorer new trails through new wonderful lands in a great unspoiled Alpine kingdom, where nature and beauty vie with each other. It is a country abounding in big things — majestic peaks, deep canyons and waterfalls. In fact, it is about all any where in an equal area a mountain scenery and wonder features can be found Mount Robson the highest peak in the Canadian Rockies is plainly seen from the train. The "Continental Limited" en route to the Pacific Coast traverses this new playground, and for many miles follows the North Thompson and Fraser Rivers, remarkable in beauty and interesting in history. Mountain observation cars, composed largely of glass, are attached to the "Continental Limited." This new innovation on the mountain division of Canadian National Railways allows unobstructed view of the scenery on both sides of the track and affords protection from sun or rain.



Reports on Canada's Crops

At frequent intervals through the season the Bank of Montreal issues reports on the prospects of the crops in Canada. These reports, telegraphed to the Manager at 600 Branch offices, experience and form a reliable crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

Striking Development Of The Dairying Industry In The Western Provinces

The most striking development in agriculture in the Canadian Prairie Provinces in recent years almost if not the most important in the civilized world, has undoubtedly been in dairying. Progress exhibited in this industry has been most encouraging and the economic necessity, which has in a few years ago was devoting practically its entire attention to the export of cattle and cattle products, has given way to a more diversified system of farming. Dairying has come to the front in considerable degree recently that some of the best districts are now practically identified by almost every farming community. The cream cheque with its cream can headed in a conspicuous way at the rural roads which was unthought of in the past, which Lords so many local dairy cattle have come to supplant the roaming steer and prairie bronco and break the monotony of what was previously a wide, open country of ploughland and grass fields. And most all has the whole farming scene to the change is a greater sense of security and prosperity which accrues from a steady income.

That the prairie provinces have only made a comparatively small start in dairying is apparent at first glance at the figures for 1922 which show a gross production of output of dairy products of $27,000,000. Small when compared with the $77,000,000 which was the gross value of the output of dairy products in Ontario in 1922, but a big increase over the 1921 year. The total value of these products for 1922 was $22,000,000 and $17,000,000 in 1921. Of the three provinces Alberta leads with $10,815,779 as the value of its dairy products for 1922, Saskatchewan $7,000,000 and Manitoba $4,000,000.

Such a comparatively small start in dairying in the Canadian prairie provinces is due to the fact that the dairy industry is a settlers' industry. Dairying is the first industry to which the settler turns his attention when he takes up his land. Dairying is the first industry to which the settler turns when he takes up his land. Dairying is the first industry to which the settler turns when he takes up his land. Dairying is the first industry to which the settler turns

Stops Coughs, Colds Sore Throat in a Night

HIDDEN GOLD

Will Use Alberta Coal

CPR May Use Alberta Product on Their Lines East in Winnipeg

An announcement was made by Charles Murphy, General Manager of Western Lines of the Canadian Pacific Railway, that the company was considering the advisability of using Alberta coal as fuel in Winnipeg. Mr. Murphy stated that in order to stimulate business and to assist their own mines in Alberta, it was essential that they should use Alberta coal. The company has been using Pennsylvania coal for some time, but the cost of transportation has been so high that it was considered necessary to find a cheaper source of supply.

Quickly Relieves Constipation

Don't let constipation poison your blood and curtail your energy! Get relief promptly with CARTER'S Little Liver Pills today and a few doses will show you how beautiful you can be colored. For dizziness, lack of appetite, headache and blotches due to this cause, they're unequalled. Small Pill — Small Dose — Small Price

CARTER'S LITTLE LIVER PILLS

HEART PALPITATED And Was Short Of Breath

Through one cause or another a large majority of people are troubled more or less with some form of heart trouble.

Many people may be unaware of it but an aching worry with their heart tells us of the overtaxed, overwork or worn-out state of its palpitation and throbbing. The heart may beat fast at times and then so slow as to seem almost to stop, then it returns great activity and alarm.

To all such sufferers

MILBURN'S HEART AND NERVE PILLS

will give prompt and permanent relief. Mrs. Alice Bishop, 15 Nash Terrace Ave., Hamilton, Ont., writes:—"I take pleasure in recommending Milburn's Heart and Nerve Pills as an excellent heart tonic.

I suffered from palpitation of the heart, dizziness, shortness of breath, and could hardly speak, and in the night, at times, I would wake up and sit up for a breath. I could not go up stairs without my heart fluttering, and my nerves were all worrisome, but since using your Nerve Pills I have felt like a different person."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Some Notable Tunnels

Gothard Line Has Fifty Connecting Switzerland and Italy

One of the most interesting rail lines through the Alps is the Gothard line, a series of 50 tunnels connecting Switzerland and Italy. The Gothard tunnel is nearly two miles long and 16 miles from the summit. The Alps' difficulties is in the grade. The Simplon tunnel is also very long. And one can be used to enjoy a delightful ride through the Alps. The Mont Cenis tunnel, also a notable one, follows Mont Cenis pass. The Arlberg tunnel is almost two miles long.

Another notable tunnel is the Mont Cenis which was finished here to place France and Italy. This tunnel was completed in 1871. Since the building of these and other tunnels through the Alps, the famous old passes which have figured so conspicuously in history are becoming less frequented.

Thinks Swearing All Right

Two permitting the prosecution against the offering of James stepping in Hamilton, Ont., on Thursday, the "Parliament Buildings Chen Evening Times" says that "swearing is an art and a science." It says that "swearing is an art and a science." It says that "swearing is an art and a science."

About Nicotine

Chief Agent by Which Tobacco Acts On the Nervous System

A curious mistake that Sir Hay Lan Conan points out is almost universally made is that "it is the nicotine in the oil pipe which turns in a pipe when tobacco is "smoked." It is not the narrow end of a cigar, in "nicotine," the chief nerve poison of tobacco. As a matter of fact, this paper is brought in contact with the nicotine, which is vaporized and carried along with the smoke; it is then drawn into the pipe or cigar and escape in very small quantity. It is the chief agent by which tobacco acts on the nervous system, and through that on the heart and other organs. Many people are fond of and enjoyed by the taste of tobacco but few realize that the chief effect of a single drop of pure nicotine will kill a dog. Nicotine has no aroma, and has nothing to do with the flavor of tobacco, which is due to the presence in quantities of special volatile bodies similar to those which give a scent to hay.

Sign in a Brooklyn drug store run by a colored man: "If you feel dizzy or out of sorts, step in. He has such liquor soup to be found."

Some homes are kept spotless and in order, and some are full of happy people.

ZAM-BUK

THE WORLD'S GREATEST HEALER

Rome's 2,674th Birthday

City Celebrated Occasion With Much Enthusiasm

The celebration of Rome's 2,674th birthday was perhaps the most solemn in the long history of the Eternal City. Premier Mussolini presented a decree establishing April 21 as Later Day instead of May 1.

A leading feature of the ceremony was the administration of the Fascist oath to the national militia as the troops in a hundred Italian cities were reviewed by the Black Shirt leaders and by the chiefs of the army and navy. In this city the premier himself and the ex Duke reviewed the phalanxes. Enthusiasm was without bounds. Hundreds of thousands of people crowded the streets or found positions in the windows and on the balconies. Troops took up their stations on the house tops while others climbed trees to get the procession. Then the air appearance was the signal for a tumultuous acclaim.

An Old Sea Art Store.—The author, the soldier, the fisherman, the lumberman, the outdoor laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Eclectric Oil a true and faithful friend. To ease pain relieve cold, cure wounds, subdue coughs and overcome the consumption. In experience of years, it should have a place in a user's medicine and be amongst their treasures on a journey.

Playing Piano Pays Pedersonji

Riders last December, Ignace Paderewski has earned $500,000 by playing the piano, according to an estimate published by the New York Evening Post. The overlooked pianist and former President of Poland has received an average of $7,000 for each of eight six recitals.

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes:

"I had trouble with my kidneys and very frequent urination. This was followed by pains which in time were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

LINDBROOK

The kiddies are open t... their "working parties" t... most any kind of a job to earn a few cents for their cause, anything cutting wood, sleeping up or any other odd jo... that they can handle and w... that no serious word pies... hour, were to and fro... this "surge," so if any of you need the "gang" we expect that orders will be taken by Mr. Lashy over the phone and we... ed on to the "no gang" whatever he is.

We are not "Posters" but we expect rain, why? well, Mrs. J. Lashy made a trip to Edmonton, naf said. It didn't work this time

Miss K. Svenberg spent the week-end at her uncle's, Mr. O. Lindgren of this district.

We hear that Mr W. Lanesend is calling his barn in real hay fashion and is shipping inspected cream." Attaboy Bill

Mr. W. Bellamy of Tofield was holiday in town to by four Lindbrook boys, why? Way to "rough up" for their baseball fund, and the boys vote him a real sport because he "roughed up" alright and also promised them future rewards as well.

It has been said that a William S. Hart cast is practically flawless. Not only are the players finished artists, but they typify their roles in the picture. Supporting Mr. Hart in "White Oak" his new paramount picture which comes to the Variety Theatre next Saturday only, is Vola Vale, who will remember as Mr. Hart's leading woman in "Wolves of the Rail." Of long stage experience and brilliant dramatic resources, Alexandra Uaden portrays the villian while other important roles are in the capable hands of Robert Walker, Bert Sprotte, Helen Holley, and Chief Standing Bear.

Freshly separated cream will show, according to the acidimeter test, about 0.12 per cent of acid which continues to increase more or less rapidly, according to the temperature, until the acidity reaches 0.35 per cent it begins to be perceptible to the taste and the cream is then said to be "sour." The change is a gradual one and the difference between what we call "sweet" cream and "sour" cream is one of degree only. When the cream reaches the stage of thickening, it has an acidity of about 0.30 per cent. The importance of keeping the cream thoroughly cool, so that it will grade high when sold.

"Where is the best place to keep the cream cool?" one may ask. It has been found that the easiest and best way to keep the cream sweet and clean is flavor is to place it in a tank.

It would be easy to fit up an ordinary wooden tank, located near a pump, while ice could be placed in the tank on a real warm day. The tank should be covered as this helps to keep down the temperature of the water and cream.

Many farmers keep their cream in wells, some of which are dry. The experience of one man can be cited in this connection. He declares he has found that when the can was placed in a dry well or in the cellar, it was impossible to obtain "special" grade for his cream.

SMALL ADVTS DO BIG THINGS

Meeting of Chautauqua Guarantors, Town Hall, Saturday Night at 7.15

Town Council Holds Court of Revision

A meeting of the town council was held in the council chamber on Monday evening. There were present Mayor McCauley, Councillors Bruce, Chapman, Dixon, North Swift and Worton

The first part of the meeting was taken up with court of revision, a number of appeals being heard. A representation of the Grand Trunk Development company was present and appealed against some acreage and some lots. A reduction in the assessment was made in each instance. Mr. Williams was present to appeal against the assessment on the parsonage After some discussion it was resolved to sustain the assessment

Some other appeals were considered and the assessment sustained. There was little other business transacted, the minutes were read, some accounts passed after which the council adjourned.

'The Sky Pilot' May 30th

KETCHAMONT

The monthly meeting of the Missionary Aid society will be held next Wednesday, May 23rd at the home of Mrs. Wm. Lee at 2 p m.

Mr Wm. Ives who has been working for Mr. Schultz for almost a year left last week for the coast.

We were very fortunate to have Rev. C. W. McKim, district secretary of the Bible Society of Edmonton, with us on Sunday. There was a good attendance both to Sunday School and Church services.

Mrs. O. Barnes and son Ralph went to Edmonton on Wednesday. It was necessary for Ralph to remain for further treatments at the hospital.

A meeting of the young folks was called at the home of Mr. and Mrs. Wm. Lee on Thursday for the purpose of organizing a baseball team and basketball for this summer, which was successfully carried through. The officers for baseball team are as follows, Captain Angus Mitchell Manager, Henry McKinstie, Secy Treas. Roy Lee. Officers for basketball, Captain, Mr. Henry McGinstie; Manager, Harold McMullen; Sec-Treas, Miss Jean Dickson The girls of the basket ball team will hold a social evening on Friday, May 18th at the home of Mr. and Mrs. Wm. Lee. The proceeds will go toward their basketball.

LAKESHORE

Note - The Lakeshore news was mislaid last week and the following extracts have been taken from it

Miss Edith Hamilton has been visiting Mrs. T. R. Murray for several days. She has been attending University at Edmonton and stopped for a few days visit before leaving for her home.

Mr. J. B Warner's grandmother, Mrs. Bentuker has been visiting at the Warner and Boulitte homes for some time.

Everything For The Garden

Women's Institute annual plant sale on Saturday, May 26, at their rooms from 10 a. m.

If any who are not sure of getting in on May 26th would phone their orders before that date they would be kept for them. Committee in charge, Mrs. Glover, phone 80 and Mrs. Mrs. McKerrol, phone 17.

The Tofield Dramatic Club presented "What Happened to Jones" at Vegreville on Wednesday night. There was an excellent attendance and the players were royally entertained by the Vegrevilites.

Local and General

Mr. Gordon Olson government grader at the local creamery has been transferred to Daysland and left for that point on his motor cycle on Monday

Dr. R. R. Paul of Chesley, Ont., arrived at Tofield on Tuesday and intends locating here. Dr. Paul served overseas and is a graduate of Queen's university, Kingston, was a past graduate of the Metropolitan hospital, New York.

The tennis club has decided to begin their local spring tournament on May 24th Only those who have paid their annual fee on or before Saturday, May 19th will be entitled to enter. As it will take a few days to make the draw and other necessary arrangements the committee will have to know the names of those taking part in the tournament at least a few days previous to the beginning of play. All rules governing play will be posted on the grounds.

Mr. F. Hyde is again at the local creamery as government grader. Mr. Hyde was here last year.

Mrs. Todd who has been visiting at Arrow River and Winnipeg during the past month returned home last week.

There will be an important business meeting on Saturday May 19th, at 7.15 sharp of all those who signed the 1923 Chautauqua contract. The meeting will be held in the Town hall, Tofield. If your name is on the contract be sure and be present.

WANTED—Sweet cream customers. Will deliver daily. Also a pint. Phone 1507, Mrs. McMillan.

Members of an automobile and good roads association will be interested to learn that Mr. Boulitte, president of the Canadian Good Roads Association will visit Lamont on Tuesday next. He will give an address at a luncheon to be held at 12.30 p.m in the Board of Trade rooms. His subject will be the Trans Canada Highway

The Misses Thelma Noland and Violet Lane, Messrs. G. Ferguson and P. Keene spent Sunday at the Keene home at South Cooking Lake.

Mrs. Ingster, Mrs. Bell's mother came down from Edmonton on Monday night and took baby Bell back with her on Tuesday night.

Another favorable week has been experienced by farmers of this district for their spring work. Rain would, however, have been welcomed by many, even at the cost of holding up the field work for a few days. Wheat seeding is completed and oat seeding in full swing.

Mr. M. A. Bissi is visiting friends in town this week

The production "Molly O" was presented to a fair audience at the Variety on Wednesday. It was an excellent feature and deserved a larger attendance.

There will be a farm auction sale at Mr. Shupes six miles north and three miles west of Tofield on Monday, May 28th

On Saturday, May 26th, the household effects of the Wright home will be sold by auction Mr and Mrs Wright are moving to Vancouver and everything will be sold This is a good list, the sale appears on the back page. If E Ball will try the sale.

Mrs. Webb wishes to announce that she has ceased giving music lessons, having become associated with "The Lyles Shops."

Her Watt visited Edmonton on Friday of last week.

Mr. and Mrs Grainger were visitors to the capital city on Friday last week.

Mrs. Wm. Thompson was taken to Edmonton hospital this week. Mr. Thompson has been with us for some time having recently had his teeth extracted in the hope that it would improve his health. He was accompanied by Mrs. Thompson

L. Scott left for North Battleford on Tuesday. He will play baseball for that city.

Mrs. H. Rogers and Mrs. Cuthbert visited Edmonton on Tuesday.

Mrs. Wilkie visited the city on Tuesday and attended the musical festival

Mrs Davies of Lethbridge is visiting at the Jubilee home on Wednesday. Mrs Davies was a member of the Lethbridge choir that won first place at the recent musical festival at Edmonton Mrs Jubb accompanied her to Edmonton and attended the closing grand concert

Mr and Mrs. J. Stauffer entertained for Seward, Neb., on Wednesday, on account of the illness of a brother

Mr. H. Smith visited Edmonton on Thursday. He reports that his visits will be frequent hereafter. They say shes pretty too. The foregoing paragraph was turned in by our highly paid reporter at the Grand Union. If there is no Mercury next week the subscriber is paid up in advance and advised to seek an explanation from the surviving party.

Who was it has their motor house, spare tire and gas tank from the rear of their car last Saturday. We understand Hugh is continued his journey with out interruption.

Mr. J. N. Patriquin and wife of Calgary, visited the home of Mrs. Geo. A. Dixon, on Wednesday of this week.

BARDO

Mrs J. P. Lechelme returned from Camrose on Tuesday but has gone to Edmonton to take treatments.

Mary Eastman is staying at Mrs. Bonend Finseth and is attending school.

The members of the Salem Church hold Memorial services in Tofield on Friday morning for Mrs. Barbara Hartzler one of their members who lived near Vegreville. Before moving there the Hartzler family lived here, where they had a host of friends who join with relatives in mourning her each death She was born Feb. 1857 died May 9 1923. Besides her husband she leaves 3 little sons, the youngest only two weeks old. Her aged father and Mother reached here only to accompany her body back to Albany, Ore., where she was buried on Sunday. She is survived by several brothers and sisters.

We had the privilege of reading some letters from Mr. and Mrs. Palmer Anderson telling of the lights and shades of Missionary life in China. It is very interesting to read of many of their experiences there. They are hopeful and joyous in their work in spite of malaria, Chinese servants and other trials. Palmer told of meeting him dressed "Bonzes" when on a trip with another missionary. "Met with the highbrows," I think the Chinese call them, and as they were armed to the teeth it was rather an alarming sight, however as they went quietly on their way they were not molested. Mrs. Anderson tells of taking a ten course dinner at the home of an official. She was furnished with a spoon for the soup but as the other courses must be eaten with chop sticks and no individual plates, it was rather an embarrassing operation and hard on tissue paper soup bowls and tablecloths. As for milk they get from the milk man seemed rather "thin" she told him if he would put water in the mok he should buy spring water so it would be clean. He replied "oh, I do

The Lutheran young people held meeting in the church on Sunday evening Miss Nora Rude was elected president in place of Gudrun Ness, who has gone to the Coast Mrs. Alice Finseth was elected Sec Treas. to succeed Bernard Anderson, who resigned. Rev Reinertsen addressed the meeting

Edna Lawson spent the week end at the home of her brother Hermann

The Rude and Finseth families motored to Camrose on Saturday

Exhibition of School Work on Saturday

The Principal and staff of the Tofield Public School will hold an exhibition of school work under the auspices and in the rooms of the Women's Institute on Saturday, May 19th, from 2.00 to 5.00 The public are invited to inspect the work of the Tofield children.

The ladies of the Institute will serve tea as usual

Readers are asked to note the following corrections in the school section of the Tofield report last issue. In class 6?, section three it should read booklet problem instead of "a sample poster." In class 71, another section should be added, viz. "Grades VII VIII and high school, business letter and envelope"

Mr. C. M. Simmons left for Edmonton on Thursday. He will try out with team dispatcher on this division

A Charming Dinner Or Dance Frock

Pontiacs creps Reveals, of lamentation, with a silver size girdle makes this side view which could be worn as a dinner or dance frock by the debutante. The bodice, which is with out ornament follows the straight line of the figure. The sleeves side panels are cut with metal insertion and are lightly accordioned by a metal ornament which have been made with gilding sandals suggest that the wing flip fabrics are most generally for tasking purposes, but constitutes larger to be highly effective.

An surgical operation is necessary in removing cysts of Holloway. Long Branch to be used.

SAYS IT'S WORTH WEIGHT IN GOLD

Mrs. Matthews Pays High Tribute To Tanlac For Ending Stomach Trouble

I am so thankful for the wonderful benefits I have received from the Tanlac treatment I just want to tell everybody in Toronto about it," declared Mrs. Ellen Matthews, 104 Eastern Ave., Toronto, Ontario.

"I suffered so terribly with stomach trouble and a run-down condition that I feared nervous collapse. My appetite almost deserted me and even the little I did manage to eat disagreed with me, and I blamed with one sit my heart palpitated and I was afraid fully short of breath. I couldn't get a good night's sleep and was so worn out I couldn't even do my errands to the store.

"I heard so much praise of Tanlac I finally bought a bottle, and it was worth its weight in gold. Six bottles have made me perfectly well, without a sign of the old troubles I had suffered with for seven years, and my weight has been increased, too. I consider it a duty to recommend Tanlac."

Tanlac is for sale in all good druggists except as substitute over 37 million bottles sold.

New Colonizing Policy Is Announced By Pres. Beatty, C.P.R.

Montreal—In a statement on a new land colonizing policy of the Canadian Pacific Railway made public here by E. W. Beatty, K.C., president of the company, it is announced that the land-seekers of farmers who now have contracts with the company will be taken over by the Canadian Pacific Railway, and their contracts will be re-written and the indebtedness spread over a period of 20 years, the farmers to receive title to their land upon completion of the thirty fourth payment. The annual payment of interest and principal combined shall exceed 7 per cent of the sum of the face. Thirty thousand farmers in Canada are affected by this proposal.

In making the announcement, President Beatty said in part:

The future of Western Canada, in fact, of Canada as a whole, is dependent upon greater production of farmers, even than is usually credited with their conditions. It would generally facilitate the securing of more and desirable settlers. There is at present a considerable exodus from the west which is practically nullifying the efforts of the Canadian Pacific Railway and the Government to re-people new people to come in.

The best of people to be settlers in a Canadian business in general settling manufacture conservation, transportation, etc. To get desirable immigrants we must have, fairly well established farms.

I note the new Canadian Pacific pain farmers will now be able to be supervised by the agricultural staff of the Government and the railroads be in a position to advise and assist the settlers to take up unsold or unnecessary farm lands. In Great Britain, the United States and other countries from which desirable immigration to ready to be marshalled, a similar land settlement will witness double up suit from the introduction of the new policy as outlined.

Bandits Resume Operations

Bank at Delia d. Sask. Is Robbed and $5,000 in Cash Taken

Shackleton Sask. The bandit who raided the Bank of Hochelaga Branch at Delisle, eight miles west of here, bound the youthful lodger keeper as he by his bedroom, shattered the safe with three blasts of nitro glycerine and looted the vault of $5,000 in cash and $1,000 in securities, made a complete getaway.

The provincial police have secured all trails leading in the boundary and checked up all the occupants of all conveyances since noon.

Five men are known to have participated in the raid, while it is believed which remained in the auto in which they escaped. Two men, masked with red handkerchiefs and armed with revolvers, staged the actual looting, while three other members of the gang, armed with rifles, were seen standing on guard.

The bank strong box and the interior of the main office of the bank was completely wrecked by the "soup blasts or pump." The final was so powerful that a huge piece of the outer wall of the safe was blown through the wall of the building across a vacant lot and completely demolished it, coming to rest in the wall of a nearby store.

Undertake to Re-write Bible

Scientific, Ethical and Philosophical Theories to be Employed

New York. Prosecuting scientific, ethical and philosophical theories will be employed in a re-writing of the Bible "in the light of the twentieth century," it was announced by the Twentieth Century Foundation, Inc., organized at a meeting of clergy, scholars and laity in the library of J. P. Morgan's home.

A statement issued by the new organization declared the conception of the Bible as a single literature volume "is untenable in the light of modern literary criticism." The statement added: "The old order has passed away now with it more or traditional theology."

Grouse Will Visit Pacific Coast

Victoria. If M.S. Carlew will visit British Columbia coast ports in July on board the yacht Sea Gull, according to advices received here by the Provincial Game Warden. The yacht will leave Bermuda, the statement says, May 21, according to the letter, the schooner arranged for her trip.

Must Increase Air Force

London. The cabinet has reached the conclusion that a considerable increase in the British Air Forces is necessary, the Duke of Devonshire, secretary for the Colonies, informed the House of Lords.

League Will Assemble Sept. 30

Geneva. The assembly of the League of Nations has been convoked to Monday, September 30. The most important issues on the agenda are reported to be amendments and the report of the Canadian representatives to an amendment to article ten of the covenant.

Urge The Development Of A Western Outlet For Grain Shipments

Ottawa. John M. Imrie, head of the Edmonton Board of Trade delegation, appeared before the special House committee on agriculture to urge development of the western outlet for western grain. This would be a boon if, he said, to agriculture in Western Canada. The opening of a new all year route would benefit agriculture equally as much as grain from any other province would be saved every year a handicap in getting to Fraser Canal instead of by the Atlantic seaboard. The removal of differential against northern freight would add another six cents to the saving.

Even at present there was an advantage as far east as the centre of Saskatchewan in shipping via the Pacific to Europe, but the cost of transportation by the Panama Canal route was too high. Mr. Imrie declared there was a greater grade eastward from Edmonton than from Vancouver to the Pacific coast over the Canadian National. He said he could see no objection to the differential on the C.N.R.

The difference of seven cents per bushel would have added to per cent to the income of Alberta farmers last year.

The second outlet was impera tive even if it did not increase the price of wheat to the farmers, because it would check the monopoly question of the eastbound route and provide competition between two routes.

Mr Imrie said he was against a compulsory wheat board. He did believe, however, that the best should be made of the opportunities to handle the hundred million bushels of wheat could have been economically moved to Liverpool by the Pacific route last year.

To develop the northbound route, interior elevator facilities were necessary. Farmers could not ship to great advantage to Vancouver where there was not a ready demand. Elevators were necessary at a point where wheat could be brought up to export grade, and where it would be available for sale either to Canadian millers or for shipment to either seaboard. A certain amount of wheat was below export standards and wheat of this character stopped on the prairies. Last year ten cents per bushel surcharge, which was the difference between export and domestic grade rates.

Edmonton was a logical centre for the location of public terminal elevators such as were provided by the Federal Government at Winnipeg, Moose Jaw, Saskatoon and Calgary. Edmonton asked the same facilities as had been provided at Calgary. Edmonton was now the chief gathering point for shipments of wheat to Vancouver.

PAY VISIT TO POPE

KING GEORGE AND QUEEN MARY RECEIVED AT VATICAN

Rome. Pope Pius received King George and Queen Mary in audience in the Apostolic Palace of the Vatican. Their Majesties were accompanied by Sir Ian Theodore Russell, British Minister to the Holy See, and by their suite. They arrived in the Vatican courtyard in motor cars at 10 o'clock. Italian Royalty and a detachment of pontifical gendarmes.

Loyal to the Crown

Strong Bonds That Bind Canada to Great Britain

Toronto. Sir Edward Kemp, who has just returned from a trip to Great Britain, stated that he had found a certain preponderance in favor of Canada toward absorption by the United States.

"The feeling arose through the discussion on the point of whether a Canadian minister should sign the recent fisheries treaty with the United States rather than have it signed by Sir Auckland Geddes, the British ambassador at Washington.

"It will be remembered that Sir Auckland thought his signature and Sir Lloyd Dan Ernest Lapointe sic the minister

"I told the British people to whom I spoke that they need have no fear on that score," said Sir Edward.

I told them that the two dominions' races in Canada wanted the freedom of Canada and the Empire to remain as they are now—that there was no chance of breaking the bonds that bind Canada to Britain."

Cattle Sale In Saskatoon

Good Attendance Is Expected At Auction in June

Regina.—A number of buyers from outside points will probably attend the annual pure bred cattle sale to be held at Saskatoon, June 3 and 4 under the auspices of the Saskatchewan Cattle Breeders' Association

Harry Sulle will be judged the first day and put up for auction in ring. C. Chatterton, 18 Heremod, 10 Angus and Ave dale bulls, the the second day Shorthorns. Heremods and Angus bulls will be exhibited.

It is anticipated that E. S. Hamer chief of the Cattle Division of the Federal Department of Agriculture, will probably be a buyer. An 11 sale will be conducted after weeding has been completed. It is anticipated there will be a good attendance

Trader Charged With Murder

Calgary.—F. P. Trider was committed for trial on the charge of murder of Constable Paris, of Drumheller, at that place.

While resisting arrest on a liquor charge, Trider drove his automobile into a bound fence in attempting to run over Constable Paris of the mounted police. Paris was fatally injured.

Report Seizure of British Transfer

London. The authorities of the League of Nations have been consulted to Monday September 30. The most important issues on the agenda are reported to be amendments and the report of the Canadian representatives to an amendment to article ten of the covenant

Explanation Of Abnormal Weather

Mr. Frederick Simms Gives Reasons For the Late Spring

Toronto. Mr. Frederick Simms, Meteorologist, in an interview with the Toronto Star, explained the abnormal weather conditions which have prevailed during the past month.

"I told the British people to whom I spoke that they need have no fear on that score," said Sir Edward.

I told them that the two dominions' races in Canada wanted the freedom of Canada and the Empire to remain as they are now—that there was no chance of breaking the bonds that bind Canada to Britain."

Wealth Of Canada

Bank Deposits Indicate Canadians Richest People of the World

Toronto—If public enquiry in bank and trust companies can be taken as a fair indication the Canadian is the wealthiest man on earth? C. A. Bogert, in Hamilton

Every person I spoke to agreed with me that there was no real depression existing, he said.

Settlers From Indiana

Bridgeburg.—Fifty families of Indiana farmers, headed by Ed. Pratt, of North West Wood, are here looking over the land with a view to settling in this district. They are expected to arrive in a few days.

Demands Of Mounties

Ottawa.—J. E. Roberts, M. P. for Port Perry, has asked the Minister of Militia if the Royal Canadian Mounted Police are receiving the same pay as members of the Ontario provincial police force.

China Learning By Mail

Toronto.—Further information regarding the Chinese language results a little more than that the students are learning it, but literature can be had.

"The hardest times in the last two years have been the prolonged drought and consequent shortage in crops.

Jail For Debt Frauds

Montreal.—Imprisonment for a period of one month in default of payment of the sum of $100 and costs was the penalty imposed on Joseph Lamoureux, a farmer of St. Jerome, who was found guilty of fraudulently disposing of his property to defeat his creditors.

THURSDAY, MAY 17 1923

H. WORTON, PUBLISHER

A REAL MONEY MAKER

IN DENMARK they churn the cream and export the butter, then they put cottonseed oil into the buttermilk, churn it into oleomargarine and use it for home consumption, they then feed the butter milk to hogs which are exported in the form of bacon.

The following scheme is even more profitable and automatic and it is proposed to commence business on [illegible] Hannaive farm at Kitchener.

"The object of this company is to operate a large rat ranch in or near Kitchenener, where land can be purchased cheaply for this purpose.

To start with, we will collect about 100,000 rats. Each rat will average 12 kittens a year.

The skins run from 10 cents each for the white ones to 75 cents for the pure black ones. This will give us 1,200,000 skins a year to sell at an average of 30 cents each, making a gross sale of about $360,000 a day, gross.

A man can skin 60 rats a day for $2.00. It will take 100 men to operate the Ranch, and there will be the net profit will be about $9,000 per day.

We will feed the rats on rats and will start a Rat Ranch next door. The rats multiply four times as fast as rats. If we start with one million (1,000,000) rats, we will therefore have four rats a day for each rat, which is a plenty. Now we will feed the rats on the carcasses of the rats from which the skins have been taken giving each rat one [illegible] each. It will thus be seen that the business will be self supporting and automatic all the way through, the rats will eat the rats, and the rats will eat the rats, and we get the skins."

Rural Council Meet

A regular meeting of the Council of Cornhill Municipal District was held at the municipal building on Wednesday, May 2nd.

There were present, Dep ty-Reeve Wm. Lee in the chair, and Councillors Abernethy, H. E. Williams, Holmberg and Ald Williams.

It was resolved that each councillor act as fire guardian in his own district.

Application for a restaurants license from Mr. Medzinsky was considered and the grant of same approved.

The Secretary presented a statement taken from the assessment rolls of the assessed valuation of lands for the year 1923 Receipts $11252.48, expenditure $22,612.02 Rate required to meet estimated expenditure and will start a flat Beech next current year nine mills door. The rate multiply four times as fast as rats. If we start with one million (1,000,000) rats, we will therefore have four rats a day for each rat, which is a plenty. Now we will feed the rats on the carcasses of the rats from which the skins have been [illegible] at nine mills equal- $22,612.02.

Moved by Councillor H. E. Williams that the municipality strike a rate of nine mills for municipal purposes on the assessment, three mills to be suspended for road work and ma-

terial. Carried.

Moved by Councillor Abernethy that the rate of pay for the year 1923 be 7c for man and four horses; 5th, for man and two horses; 60c. for foremen and 30c. for single hand per hour.

The following by-laws were introduced. By-law No. 25, respecting the prohibition of animals running at large in the subdivision of May Lake situated on the S.E. qr. sec. 8, tp. 49, rg. 21, w 4, for the period of one year.

By-law No. 26 to grant an extension of time for the payment of $9000 and assigning all of the arrears of taxes owing to the municipality as of the 31st of December, 1922 as security for the indebtedness to the Bank of Montreal. By-law No. 26 was read three times and passed.

By-law No. 27 of the Municipal District of Cornhill No. 667 for an advance of $9000.00 from the Bank of Montreal to be repaid and be a first charge upon the taxes of the municipality and assigning unto the Bank the taxes due the Municipality for the year 1923. By-law No. 27 was read thre times and passed.

Moved by Councillor AM J. Williams that the Sec-Treas. have the privileges of transferring Section of 10-50-, for land sold for taxes for 1922 taxes Dec. 1st 1923 tax sale, also transferring certificates of sale of unredeemed land sold at tax sale on Nov. 1st 1921 to any person or company that will agree to advance cash for all taxes due up to Dec. 31st 1922. Carried

Moved by Councillor H. E. Williams that the Sec-Treas. be instructed to take up the matter with the Dept. of Municipal Affairs in regard to an order in council issued by the Minister of Municipal Affairs, April 16 1918, withdrawing from Cornhill District No. 667 certain lands in tp. 51 range 21 w 4th lying north and west of Cooking Lake. Also so that Municipal taxes in arrears be transferred to the District of Strathcona No. 328 and make a return of arrears to each school district, Douglas and Uxbridge, the arrears transferred should now be refunded. Carried

Moved by Councillor Abernethy that Secretary write to surveyors making application for Survey work for their best prices for survey work on division. Carried

A number of accounts were then passed and some communication read.

The Council adjourned to meet on Saturday, May 26th at 11 o'clock a. m. also to sit as a Court of Revision.

DEVILLE

The farmers in the district have been busy for the last two weeks getting in their seeding and most of the land is ready for oats. Some of them have planted their potatoes, and if there is anything in which the farmers of this district excel, it is the quality of their potatoes. But we need rain, and unless we get some soon, it may mean that some will have to reseed We have had hot dry winds for some time and although heavy black clouds have appeared for several days in succession they have passed without yielding any moisture.

Miss Laura Dunlop who was the teacher of the Deville School for two years, resigned a short time ago and the board applied for a teacher to take her place, the result was eighty-four applications. Out of that number they appear to have made an excellent choice in the person of Miss Helson who holds a second class certificate and is also a splendid musician.

Mr. R. Donald who was in the hospital suffering from injuries to his eye, is out again and is expected to [illegible] Tuesday.

We are glad to see Mr. H. Kiel back to health after suffering from a serious [illegible]

The Rev. G. McCraig of Edmonton is holding religious services every two weeks in the school, and quite a number attend.

There will be Evening Service in Holy Trinity Church on May 20th at 7.30 p. m. also Services at Logan at 11.00 a.m and Bath gate at 3.00 p. m.

MOTOR TRUCK AND HORSE DRAY AT YOUR SERVICE.

On the great Canadian Parks. Jasper National Park which has an area of 4,000 miles, is without a peer. Jasper Park Lodge rustic in all its appointments, yet with every modern convenience for the comfort of tourists, has been established by Canadian National Railways in this paradise of the Canadian Rockies, to house travelers who respond to the compelling lure of the mountains. Motor roads and trails for saddle or pack horses, reach out in every direction, making accessible this mountain fastness, where bird and animal life is unmolested and everything is as nature planned it and which until a few years ago had known no other sound than the wolf's howl of nature. Horseback riding throughout this vast amphitheatre of mountains is the most popular pastime, while hiking, boating and canoeing, as well as dancing, tennis, quoits and other summer sports occupy [illegible] of the day if so desired. Jasper National Park leads to the Canadian people To enjoy anything is to know it. Before travelling to foreign parts, Canadians should get acquainted with the supreme scenic arena of their own country.

A Great Opportunity to Car Owners

Successful Cultivation Of Variety Of Small Fruits By Farmers Of Prairies

[illegible] compared with 1921 [illegible] 1922 [illegible] of the Manitoba Agricultural College, Manitoba now [illegible] an increase of ten hundred per cent in the number of horses, providing both ample enquiry as to culture as well as a W. B. Leslie superintendent of the Experimental Station. There is a decided trend away for summer and winter, on the prairies, to think about [illegible] more self dependent in regard to foodstuffs and a pleasing tendency towards the improving in their home surroundings In the light of the experience of the different points at experimental stations in various parts it is clear that the plantations may successfully be established and maintained Because of present economic conditions, and in the future [illegible] homesteaders, the establishment of home fruit [illegible] will be especially necessary.

[illegible] small fruits [illegible] [illegible] The soil is to be well worked, even [illegible] free from weed seeds, free from alkali and in a state of good natural drainage. If these are secured [illegible] will be found to be [illegible] northerly or south easterly slope.

The best results [illegible] are with [illegible] sandy loams.

[illegible] [illegible] [illegible] [

(Continued)

"Um," he nodded. "I believe it is." "Somebody was here with Racey?" Her voice was a blend of attempted confidence with distressing doubt.

"Mr. Ina Fraser, I guess you mean you."

With indifference he answered a yes.

Having conquered what courage he had, he plunged headlong into the subject which had been troubling her most. "Mr. Racey, I'm afraid I've been a nuisance to you. I'm afraid I've been very foolish. I'm afraid I've been very silly. I'm afraid I've been very childish; and in fact I'm afraid I've been a veritable fool of myself."

The confession met her auditor with a blank stare. Never had he seen a woman so completely humbled, so completely stripped of her pride with such a dignified restraint, tempered with such grace.

He not only did on my dear, but he succeeded in impressing with very much of the greatest value to me, which I never properly published. In words as inexplicable here and subject to such a complete change of employment."

His attitude had been all in the gesture of pride that the negative was thrilled by the new generosity. Brown with his child, he seemed to see the best of himself, and was pleased.

"Then if that is true, you have no hard feelings toward me?" she went through.

"Why, how in hell we'll no doubt that I've remembered it," he answered. "Even from the very roots of her nature but for all that, when she had spoken, she was not above her moment of deep grief.

My little girl I know I know" Trying his arms around her he held her while she wept on his shoulder. But how'd better to find out those things now in time before she have had a chance to really work it out against her?"

"Oh, of course" She died but was and managed to smile a little "I'll write to Darnell to day and tell him that I'll marry him. That will give us a start."

It pleased the Negative true to the core that no more happened to him the women of his family would be provided for. Now that Racey was the match he was to be his friend. Fraser was content. He had accomplished that night nearly to his heart's desire.

CHAPTER XIV
A Doctor's Show

A short time when Reid, was found Margot from his home. Racey and Sandy, who rides along across the ranch, leaving behind the body of two horses. In the back carrying their surrendered to the latter with little stream narrowed into a roaring torrent, which roared between the high steep banks and the huge, water rose to the top of the banks. Sandy and Racey dismounted. Wade and Sandy remained the running of a second pause, and Racey investigated the two ropes [illegible] they were about and [illegible] Wade was asked [illegible] Racey [illegible] Margot from his horse [illegible] Sandy [illegible] Racey [illegible] Margot [illegible] Sandy [illegible] Racey [illegible] Margot [illegible] Sandy [illegible] Racey [illegible] Margot

Additional Locals

Messrs A. P. Harold, H. Lovell and W. Chapman motored to Edmonton on Saturday. They report the swimming in mud hole creek good. The water was cold on which we made no remarks, but was warmer in localities than swimming usually is. Lake situated on top of the watershed had a temperature of 40 degrees. Later take another set at the Hole in the ice and subject to the later on in the evening.

VOL. 1 NO. 19 — TOFIELD, ALBERTA, THURSDAY, MAY 24 1923 — SUBSCRIPTION IN CANADA $2.00; U.S. $3.50

Splendid Exhibit of School Work

On Saturday afternoon there was an exhibition of school work at the Women's Institute rooms. The work which was mostly done at the local school and which is all included in the prescribed course of studies, was highly creditable to both teachers and pupils.

During a brief visit the Mercury representative heard many complimentary remarks. The exhibition included all grades from the primary department to high school. There was writing, drawing, art work, sewing and wood work. A booklet on wood by grade three was especially interesting, describing the various processes of wood from the raw material to the finished product. The booklet was illustrated by small pictures of wood in different stages of process.

Some booklets on gardening, insects also a nature study, is interesting also one booklet in particular on gardening being very well done. The boys wood

SMILES AND TEARS FOR TWENTY YEARS!

Over all that time, the best loved romances have been "The Little Minister."

A novel enshrined in the hearts of millions. The greatest stage success Maude Adams ever played. Now its love, its charm and its thrilling events are a new delight on the screen. And Betty Compson the ideal gypsy Babbie!

If you want an hour and a half of perfect entertainment, see

'The Little Minister'

"The Old Swimmin' Hole"

She was fickle and faithless to Ezra. She took his candy, his apples 'n' everything; 'n' then she turned him down! The Wamp!

Come and laugh and cry through six reels of youth in James Whitcomb Riley's famous poem, screened as he wrote it!

Wednesday, May 30th

Ketchamont News

The farmers are busy sowing oats, the wheat fields are looking green, but rain is needed, as the ground is very dry.

Mr. Jack Henderson motored down from Edmonton on his cycle and is visiting at the Henry Sutton home.

The Misses Jonson also Mr Jas Olstead were visitors at the G. R. Owen home on Sunday afternoon.

Mr. and Mrs. O. Barnes and Ralph and Vern Hall and Sam Iles motored to Edmonton on Wednesday.

The girls of the basket ball team are getting the grounds in ship shape for their spot this summer on the t. R. Owen farm No doubt but a hot we will hear of great proceedings from their corner. The social evening at the William Lee home turned out very successful an attendance, pleasure and financially They have $10.50 to their credit.

Mr. G. R. Owen shipped a car of mixed stock from the Bardo siding on Tuesday.

Mrs. Lucy Plaists and baby are visiting friends at Killam.

Mrs. A. Johnson, son James and Lucy motored to Edmonton on Monday.

Important pictures are coming frequently to the Variety Theatre, the presentation for Saturday being that stage, literary and film classic "The Little Minister." For twenty years readers and theatre goers on two continents have longed and sighed over the scenes in the Little Minister, and now with a splendid cast, it can be seen on the silver sheet. Those who have not regular patrons of a picture theatre will find this a splendid ninety minutes entertainment. There will also be a Paramount Weekly.

On Wednesday next another well known feature will be the celebrated Charlie Swinnie Hole Boy days and girl days, fun, frolic and fights are all brought back by Charles Ray in the presentation of this production The cares of maturity are many, cast them all on Wednesday next and while watching the "Old Swimmin Hole," to be back to the joyful girlhood and boyhood days. It will be the best fun you have had for years.

Mr. Oscar Kortzman made a business trip to the city this week.

Divine service was held in the schoolhouse last Sunday, and the next one will be held on Sunday May 27th. Every one welcome Services conducted by the Rev. Arthur Williams of Tofield.

Now that the crops are in and the rattle on the open range, night weask one and all both townfolk and countryfolk to please close all gates after them and so save some poor fellow a lot of annoyance, worry and trouble, not to speak of imperilling his soul by the sin of unpurtimentary lingage.

Mr. L. Polster is in luck at last! After being several weeks he has struck wait and a good depth of it too, so we hear

Local and General

The United Ladies Aid will hold a tea meeting at the home of Mrs. Hocking in the Institute Rooms on Saturday, June 2nd.

The Rev James Bewell of Toronto will shortly arrive at Tofield and will assist Rev. A. Williams in his ministerial work.

Rev Williams is at present under the doctors care having been confined to his bed for a few days, getting up on Wednesday.

Born To Mr. and Mrs. Geo. Agnew, on Sunday, May 20th, a son

Chester and Myrtle Hale of Edmonton motored home for Sunday. They were accompanied by the Misses Ward, and Mr. J. Fletcher.

Mrs Hale is convalescing from an attack of the flu. Miss Anna who came home from Edmonton to nurse her mother, was taken ill on Tuesday.

Mr. Pincott and son Clifford have returned from a weeks visit with her sister, Mrs. A. M. Johnson of Edmonton. While in the city she attended the musical festival.

Pete Letbekmo returned from Strande Prairie on Wednesday, after several months stay in the north country.

Mr. H Gilbert and H. Lewis are on the jury at Edmonton, now sitting on the Armstrong case.

Rev. J. P. Gerrie B. A of Edmonton will preach at both of the Church Services on Sunday next, in the A. M. Service in the Evening service changed to 8 o'clock.

— LINDBROOK —

Most everyone here is busy these days, and unless it rains and that pretty soon it means that a lot of our labor will be in vain, the ground is unworkable and nothing short of a deluge will soak it. The grass growth is being seriously retarded as well by the lack of moisture the "season's" are and while watching the "Old Swimmin Hole," to be back to the joyful girlhood and boyhood days. It will be the best fun you have had for years.

THE SCHOOL EXHIBIT

Life, Exhibit of school work at the Women's Institute rooms on Saturday created a large number of complimentary remarks. The work that was exhibited is all in the prescribed course of studies and the on view at the exhibition could get a fair grasp of the general quality of the work done at the local public school, over the exhibits were also a creditable portion of the agricultural.

The crowd leaving the clubroom remarked, some of them more than a year to the general public was an excellent one. It has the double advantage of benefiting both parents and children and the giving of pleasure to those that have not children to thrown in for good measure. Children are always wanting something it is the nature of children to be always wanting something, therefore when a youngster first asks for some thing with which to make an article for school work the interest of the parents is not very much aroused, and they are most likely to give a curt and to the youngster unsatisfactory answer. If the parent had the necessary ability to visualize the final results of the request, it is safe to say the answer would be one curt and more favorable to the child, for a girl all absorbing problem, the The attendance at one or more national debt from wealth school exhibits given to parents a third of the national wealth. the ability to visualize the final The country settled down to results and they are more prone work, produced, produced and to take interest in the school than produced more until

RAIN NEEDED

AT THE present time all the wheat is seeded and most of the oats. The seeding season has been ideal—that is by allowing the work to go on in the field without interruption. Some showers during May would have been beneficial in bringing on the straw that is now needed. One farmer said on Sunday in answer to the greeting "fine day" "it would be finer if it were need no fine

"THE WISE INVESTOR"

IN A recent issue of an American magazine an article appeared entitled "To Speak in England". It was a good article and vividly described the resources and properties that small a chocolate covered cherry

"All the world's a stage and most of us are just stage hands

A Cleveland paper says the average life of an oyster is ten

wealth had increased to such an extent as to make the national debt a small matter. To day the national debt is again almost a third of the national wealth and taxation is the absorbing subject. Will the agent load the way commercially and by combination of labor, brains and finance bring prosperity to her people

History has a peculiar knack of repeating itself. Cold and relatively warm winters, dry and wet summers come and go. Ten years ago conditions in the Tofield district were no better than now. Financial stringency was on everyone's lips. The writer can recall reading a sign in Mr Pugh's window "a farm for sale, the sign ending with the words "those who are interested or invests in dull times." We do not know who bought the farm, but without doubt five years later the buyer was glad he did so. Will history repeat itself here. We believe it will There may be the staying prosperity of some wat years, it is not wanted, but with the great Alberta will be "busy as Alberta" in more ways than one to many.

Office Dog

Hello folks—among creatures who can't stand the light are bats, owls and bitter end

The book of good manners tells you the grassful way to the almost every dinner party

"All the world's a stage and most of us are just stage hands

A Cleveland paper says the average life of an oyster is ten years. But in spite of prohibition, many of them are stewed before they reach that age.

In the old days many a man got the reputation of being bright because he was lit up a good deal

Some live to a ripe old age and others try to see how rapid ly they can get through traffic to note here in particular.

Have you ever heard of any trouble that was cured, by sitting down and worrying about it

When a woman's eyes form on a stout sister, she is wondering dismally is she beginning to look like that

This is an unkind world, and the only time it seems to call the praise he feels entitled to is at his funeral

LASTING IMPRESSIONS

He gently took her in his arms He pressed her to his breast. The lovely color left her cheek And dodged upon his vest

---

A company for the development of products of potatoes has been incorporated in Edmonton at $50,000. The purpose is to manufacture by products

The state of North Dakota has now adopted the system of government cream grading which was inaugurated for the first time on the continent in Alberta last year

Potential Value Of Immense Salt Deposits Of Northern Alberta

Salt, which is such a [illegible] necessity in our everyday life, has always been a plentiful and cheap commodity in Canada, except that National Resources Intelligence Service of the Department of the Interior in no place, however, has it ever been cheaper and more easily obtained than in the vicinity of Fort Smith, in Northern Canada. Here the Slave [illegible] Athabasca, the various lakes, and the thousands of tiny clearings make their penalty supply simply by gathering it up into sacks and marketing it here. The source of this salt is a series of salt springs, which are situated about what is known as the Salt River, on the boundary of the new Wood Buffalo Park. This park has but recently been created by the Dominion Government to preserve the remnants of the only remaining herd of wild wood buffalo.

When millions of buffalo roamed freely over practically our whole of this continent, thousands of the ancestors Mackay to the Mackenzie district this basin was a common meeting ground for the buffalo when they came to lick up the salt. It was doubtless during the trek of these majestic animals that the white man first became aware of the existence of these salt springs.

Mr Alexander Mackenzie—on his voyage of exploration through the district in 1789, was probably the first upon these salt springs, and Inspector William Ogilvie, of the Northwest Company, wrote in his journals: "About sixty miles from the mouth, down Salt River, there are several places where almost an open body of water is to be found in the banks of the springs.

R. H. Macdonald of the Geological Survey, in a report on the region to-day as this district in 1887, mentions several salt springs draining into Salt River, near Fort Smith and says that the salt is remarkably pure.

A deposit very far superior to that from these springs was discovered and actually [illegible] The salt has also been tested for both the Department of Mines at Ottawa and the University of Alberta at Edmonton and has been reported upon as being practically [illegible] deposits were recently [illegible] Service, Department of the Interior while exploring [illegible] exhibit of the wood buffalo [illegible] the area in which is found these salt springs is 250 miles north [illegible] Fort Smith on the Athabasca [illegible] Waterways Railway and is [illegible] by way of the Athabasca and [illegible]

Four Coord Flag at Top of World

Members of Stefansson's Expedition Have Go Wrought Instead

Four hearty Canadians, interested on Wrangel Island, at the top of the world, have been sailing under the Union Jack that Ideal Arctic region proclaimed Canadian until the boys are home to tell their story. Just as Vilhjalmur Stefansson, the explorer who is now in Canada, is expected to declare formally that the Canadian Arctic islands are Canadian, four Canadians, members of Stefansson's expedition, have raised the Union Jack on Wrangel Island, at the top of the world, and have been sailing under it for months. Until the boys are home to tell their story,

SAM CRATHWELL
"Getting by over Sunday."
"A Sermon from the Text, The Power of Observation."

From the manners and appearance of a large proportion of the people we meet, commercially, socially, and in the field of human nature, observation is a lost art. Most people go through life with their eyes open, but they see nothing. Sam Crathwell has a message for you. He has been a keen observer of human nature for a number of years, and has studied it in all its phases. He has a message for you, and you will find it interesting, humorous, logical, convincing, and practical. Don't fail to hear him. Bring your friends. Bring your neighbors. Bring your children. Bring everybody you can. Everybody welcome. Everybody brought close to the vulgar of earth.

The rain disorganized the tennis tournament but it is now underway again. The new court is now being used. Next week a report will be given of the tournament as far as it has progressed.

VARIETY

Saturday, June 9th.

Earle Williams

- IN -

"Fortune's Mask"

Adapted from an O Henry Story in "Cabbages and Kings."

Action, mystery and human interest are the chief ele ments of this absorbing story of Central America, portrayed by Earle Williams and a capable cast in the atmosphere of a tropical republic where revolution and tyranny are daily daily routine and elections occur only by overwhelming the present administration. All the warmth and ardor of a southern romance which unfolds to the music of a guitar under a balcony and is wafted aloft on the perfume indened air of a tropical night. Then too, there is the plot and counter plot, the mysterious comings and goings of intriguers and above all else the human appeal of men, women and children living and breathing in their natural environ ment as you and I

Bardo Budget

Rev. Isaac Miller of High River, District Evangelist, is holding services in the Mennonite church this week. Will close on Wednesday evening.

Funeral services was held in the church on Saturday afternoon for Mr. Hans Bonoes of Kingman. Interment was made in Bardo Cemetery. Mr. Bonoes who was 79 years old, was a native of Bardo, Norway. He came to Alberta about 20 years ago, and homesteaded the quarter now owned by F. E. Hills. For several years he has lived in Kingman, his widowed daughter, Mrs. Simonson and family living with him. He is survived by two sons and two daughters, Mrs. Andrew Johnson, Mrs. Henry Simonson and and Jacob Bonoes of Kingman, and Olaf of Edmonton; nineteen grandchildren and three great grandchildren. Mrs. Edwin Johnson, another daughter died several years ago. Mr. Bonoes' wife was buried in Norway, she was a sister to Mrs. J. P. Lerbekmo.

Bardo Basket Ball girls played two games with visiting teams and lost both games, Monday evening against Ryley and Wednesday evening against Holden. After the latter game the girls served lunch to the visitors at the Finseth home.

Wednesday the 23rd, Mrs. Ingmar Olsen of Shanta entertained the Twinkle Club girls and their Mothers. A very enjoyable afternoon was reported. On Wednesday the 30th the Club and the Ladies' Aid met with Mrs. Haugseth and final arrangements were made for the Picnic at the John Johnson farm on the 7th.

Bardo boys played Baseball at Round Hill on the 6th.

A number from here attended the Hertzler sale at Vegreville last week.

Mrs. Jos Stauffer and Mrs. John Yoder accompanied their sister, Mrs. Hans Hankstel, to Edmonton on Monday where she took the train for Grande Prairie. She has gone to join her husband after spending the winter with her people here.

Mr. and Mrs. Joe Stauffer, Mr. and Mrs. John Yoder and Mr. and Mrs. P. O. Lerbekmo spent Sunday in the P. Haugen home in Tofield.

On Monday, June 4th the Ry ley Beavers came up to play a game of baseball with the Tofield Beavers. Tofield was defeated by 2 points, the score being 14-12.

Local and General

Mrs B. Sherlock entrained for Edmonton on Tuesday.

The death occured on Thursday last of T. Howe, well known employee at the Royal Alexandra Hotel. Mr. Howe had been a resident of Tofield for some years, he being a bartender in the old Queen's Hotel. The body was taken to Edmonton for interment.

A court case arising out of a quarrel between residents of district was heard on Friday last. The case aroused considerable interest among neighbors there being quite a number present at the trial. It appears that there was some difference of opinion over the custody of the basket ball used by the Ketchamont team, feeling running so high as to participate a quarrel between Earl Owen's and Maurice McGinitie. E. Owen was charged with assault and fined $5.00 and costs.

There will be morning prayer at Holy Trinity Church on June 24th, at 11:00 a.m. also services at Legau 3:00 p.m. and Bathgate at 7:30 p.m

The Anglican ladies aid will hold a lawn tea and sale of home cooking in the Women's Institute rooms Saturday afternoon June 16th.

Miss Irene McKeen of Edmonton spent the week end visiting with friends in Tofield

Mr. Harold of Wainwright is visiting with his brother Mr A. Harold of Tofield

Mr. and Mrs. Steinbach and Mr. and Mrs. Shupe started on Saturday to motor to Washington, U. S. A.

The Misses Vera and June Clark spent the week end at their home in Holden.

The junior baseball team played a return game at Lindbrook on Saturday, winning the game by a good margin.

Walter Bellamy picked up a dollar bill on Tuesday. Loser can have same by applying to him.

Miss H Saul visited her home at Clausin over the week end

Mr Deane visited Edmonton on Saturday

Mr. F Young visited Edmonton on Saturday

Messrs W Webb and P Keane visited the capital city on Sunday

Mr. A Stanton's visited Holden on Monday, attending the unveiling of the memorial.

Mr. and Mrs. J. W. Ferguson attended the celebration at Holden on Monday.

Mr. J. W. Cookson left on Sunday for Port Arthur, where he will attend the general Presbyterian Assembly.

H. McKerrel visited Edmonton on Monday.

Mr. Hammond paid a business trip to the city on Monday.

Mr. Seale, sent in on June 4th a new months copy of the ensc

Mrs. Wright and daughters left 1st inst for Banff on Tuesday. They will visit with relatives there for a short time and then join Mr Wright at Rossdale, B.C.

Tofield Exports

BLACK DIAMONDS

From January 1st to May 31st there were 1203 cars of coal shipped out of Tofield. This is quite an asset to an otherwise agricultural district. Averaging the cars up at thirty tons each and the coal at four dollars a ton, coal to the value of $144,360 was shipped out during the first five months of the year. Quite a quantity of this amount would be paid out as wages to workers. Of this last mentioned item a considerable portion of it spent at the ... ...ns in Tofield.

BUTTER

The export of butter is again on the increase, the recent rains giving it a spurt. During the month of May nine tons were shipped from Tofield.

EGGS

The hen is not letting the cow get so very far ahead of her, the ... being no less than sixteen tons of eggs shipped out during May

Crop conditions in the Tofield district are at time of writing very good. Copious rains have fallen and the grain itself is a splendid start. The pea crop ... are coming on apace and fescue is responding with the swish swish of filling with morning and evening.

Mr. and Mrs. Hannam and Bud intended leaving for the coast on Saturday, but reports of floods in the southern part of the province compelled them to postpone their sojourn for a few days. They will travel by auto.

Tofield Lose One and Win One

On Tuesday of last week the baseball nine journeyed to Bingham and met with that town's classy aggregation. The game was a close one the score being 12-10 in favor of Tofield. Lee and Lawson pitched for Tofield.

On Monday the senior team built to motored to Holden to play on the baseball tournament there. They were matched against their old time rivals from Ryley and after a hard fought battle were compelled to take the short end of a 3-2 score. The line up was as follows: J. Lee, H. Lee, J. Osterud 1b, D. Ball 2b, H. Howell 3b, Pete Lerbekmo lf, M. Lawson cf, G. Moon rf, and Bert Calvert ss

God provides food for every little bird but he doesn't throw it into the nest.

The officials and players of the Tofield Baseball Club wish to express their appreciation and thanks to the Dominion Bank for the baseball suits purchased by them

Declares Russia Will Not Yield Further To British Demands

Moscow — The Soviet Government is gravely considering the latest demands of Great Britain in the Anglo-Russian dispute which are reported to include insistence upon the withdrawal of the Russian representatives from Persia and Afghanistan, where they have been accused of anti-British propaganda. While no instructions to Leonid Krassin, Soviet representative in London have yet been forwarded the tone of the official press indicates that Russia will not likely yield for the

"The whole affair now rests with British public opinion," says the Izvestia in declaring that the appetite of Lord Curzon, the British Secretary for Foreign Affairs, is growing as he eats and that he is striving for a break. "The Soviet Government," it adds, has done everything possible to preserve peace and cannot be blamed if the results are not satisfactory."

The newspaper, Labering Monday, says "Let England know we will not yield to the demands regarding the so-called propaganda in the east."

The crux of affairs seems to be Lord Curzon's demand for the recall of Rhanatov, Russian representative in Persia, and Lieut Raskolnikov, representative at Kabul, Afghanistan, and disciplining of certain Red officials in Persia, where Russian representatives in Persia, who only recently was elevated to a post in the commissariat of foreign affairs.

Laboring Monday says that Sigism Arnaboni, a representative of Italian labor, alleged in political quarters to be the author of cypher dispatches advocating a break with Russia, will be recalled never to return.

The report came over the Marconi wireless that two British cruisers and several armed trawlers in report ed by the Soviet government upon the possible signs of the warships coming

Britain Retains Blasphemy Laws

Earl Russell's Bill Rejected Second Reading in House of Lords

London — The House of Lords rejected, on motion of the Earl of Emmell, by a majority of 66 votes, the second reading of the bill to amend the blasphemy laws, making it no longer a crime to publish matter merely blasphemous or otherwise.

Viscount Haldane, leader of the Liberal opposition, pointed out that the present law was a protection for us on many occasions. He was not afraid of any practical effects which the bill might have on organized Christianity, but thought it might be extremely mischievous in its effect on the minds of the ignorant. He spoke in opposition to the advice of the Marquis of Hollsbury, speaking for the Government, personal reading was defined.

Bishop Laments Lawlessness

Kingston, Ont. — In his annual charge at the opening of the 25th session of the synod of the diocese of Ontario in St. George's Cathedral Bishop Mitchell deplored the condition of lawlessness in a great part of the world today, pointing out that there had been a spirit of lawlessness spreading over the world and that Canada was not entirely free of this curse.

Execute Irish Bank Robbers

Dublin — Michael Murphy and Joseph O'Rourke were executed in the Mountjoy jail here yesterday for the Cootehill, County Galway. They were convicted of participating in a bank robbery at Ulbster.

Colonization Association Is To Be Reorganized According To Report

Winnipeg — It is reported that the Canada Colonization Association is to be reorganized immediately upon a new basis, with the Federal Government, the Canadian Pacific Railway and the Canadian National Railways equally represented upon a new board of directors.

It is stated that Mr. A. Brown, president of the association, and Mr. Interprovincial Labor Commissioner, has resigned that position and that a meeting will be held in Winnipeg to reorganize the association.

It is stated that Sir C. Coleman and Col. J. S. Dennis of the Canadian Pacific, A. E. Warren, Vice President and General Manager of Western Lines for the Canadian National, and Sir W. J. Black, Deputy Minister of Immigration, will have places on the new board.

It is added that the Canadian Pacific and the Canadian National Railways have agreed to contribute $100,000 a year for five years toward the funds of the organization to be added to the general grant.

According to another report, Sir Thomas Shaughnessy, president of the Canadian Pacific Railway, has been asked to head the reorganized association. Strong pressure is being brought to bear in this behalf, it is said, by the members of a board of management which will likely regulate the affairs of the association.

It is understood that Lieut.-Colonel Jas. Walker, of Calgary, and Col. J. B. Dennis, Commissioner of Immigration and Colonization, will be the representatives of the C.P.R. on the board of which Lieut.-Colonel A. E. Warden, General Manager of Western Lines, and E. A. Field, London, Ont., will represent the C.N.R., this report declares.

Reorganization will be effected at a meeting of the association here. It is understood says the report, that the Dominion Government and the two railway companies have undertaken jointly to finance the association to the extent of $1,000,000 spread over a period of five years.

Steps have already been taken to run special settlers' excursions into Canada during the present summer from all parts of the United States.

FUEL PROBLEM REPORT

NEED OF EDUCATING PUBLIC AWAY FROM USE OF ANTHRACITE

Ottawa, Methods of meeting the fuel problems are suggested in an interim report issued by the Dominion Fuel Board. The board was created by order in council in November last, under the chairmanship of Charles Camsell, Deputy Minister of Mines. It points out that in the twenty years ending 1921 Canada's bill for imported coal exceeded the sum of $540,000,000, and emphasizes that the ideal solution of the fuel problem is dependence upon our own resources.

The report urges

Wider range of utilization of the coals of British Columbia, Alberta and the Maritime Provinces.

Investigation into the feasibility of briquetting by-product recovery coking plants.

That peat should be utilized to supply a portion of the fuel needs of Central Canada.

That our wood resources, under proper management, could be utilized for fuel to a greater degree than at present.

The board is of the opinion that except in an auxiliary capacity electric power cannot be developed on a large scale, but electricity for industrial and transportation purposes could not form a large amount of coal for heating. The report concludes with a word as to the need of educating the public away from anthracite.

Barbot Has Brought Cider To America

Intends Attempting Trip From New York to Chicago

New York — Georges Barbot, the French aeronaut, who was 12 days in crossing the Atlantic in a balloon from Paris to Chicago, accompanied by the pilot in which he hopes to soar from New York to Chicago. He will attempt the voyage when made trade with France difficult at the present time. The depreciation in the value of the franc and the lack of knowledge by the French people of Canadian conditions. Once the franc regained its normal value, and there was a fair prospect of this being accomplished shortly, trade with France would be very valuable.

Mr. Lanctot mentioned the development of Canada's canned salmon trade with France as an example of what could be done by educating the French people to the possibilities of Canadian trade.

Trade Treaty With France

Bill Introduced Into Senate to Given Second Reading

Ottawa — Senator Beaubien gave second reading to the bill to give effect to the treaty with France and subjected in committee all clauses except those of the commercial bill.

Speaking on the French treaty Senator Beaubien said there were many articles which made trade with France difficult at the present time. The depreciation in the value of the franc and the lack of knowledge by the French people of Canadian conditions. Once the franc regained its normal value, and there was a fair prospect of this being accomplished shortly, trade with France would be very valuable.

Senator Lanctot mentioned the development of Canada's canned salmon trade with France as an example of what could be done by educating the French people to the possibilities of Canadian trade.

Train Falls 60 Feet Into River

Missouri — A dispatch from Utah's capital of the Far Eastern republic says that a passenger train in the Baikal tunnel region was wrecked on May 24, with the loss of many lives. The train fell from a bridge into the river a distance of 60 feet. Twenty persons have been killed in the accident and 40 injured. Wires from the scene are down. Wire through also hundred persons were injured.

Adopt Black Budget

HOLDEN MEMORIAL

On Monday June 4th the citizens of Holden and district as well as a number of out of town visitors took part in an important ceremony, viz: the unveiling of a memorial to those of Holden and district who paid the supreme sacrifice during the great war. The citizens of Holden and district are to be complimented for their thoughtfulness as well as their energy and enterprise, in providing such a beautiful and lasting memorial to their illustrious dead. We are glad it has taken the form of a statue, as in our opinion no other form of memorial continually keep with it the necessary solemnity and dignity.

THE RAIN

After an exceptionally dry spring, the rains of the past week were very welcome. The times sent in by our Birds correspondent are worth repeating here.

"When the showers gather over all the starry sphere,
And the melancholy darkness gently weeps in rainy tears.
'Tis a joy to press the pillow of the cottage chamber bed,
And to listen to the patter of the soft rain overhead."

Here and There

Dauphin ... Land Office for April amounted to $127,577.

About $2,500,000 is the amount the Canadian Pacific Railway intends to spend on the construction of roads and bridges in the province of British Columbia during the present season.

The ordinary revenue of the Province for April amounted to $230,000.00, an increase of $5,000.00 over the receipts of April of last year.

Emigrants numbering 13,000 left Russia for Canada during the first four months of the year, according to popular estimates in Gurgenz.

Canadian flour has at last been placed on the Panama market. One hundred and fifty barrels of the first consignment of any sale, 1,000 barrels being taken.

Recently, five per cent. of the paper produced in Canada in 1922 was the product of Canadian labor and not imported. The Canadian production for the year 1922 was 1,000,000 tons, of which British Columbia accounted for 200,000 tons.

Forbidding Region Below Sea Level

Great Cities Found in Spots in Chinese Turkestan

There is a place in Chinese Turkestan called Lou-lan, that is far below the sea level. This forbidding region is one of the most interesting in the world. Every where in it are found relics of human habitation. Great cities are now in the centre of barren and desolate dead as though time had stood still.

When Atlantis stood high the gulf between Italy and the east was a land of arctic contrasts on the other. But there was little or no intermingling of the races. The correspondence shows that they passed here were deflected by an Ice Current and an Alaskan weather comes to the United States.

By the instant there was a pause by Work the U. P. Grimes stood up to be shown all 'Ll was changed. A flat calm had all but set up with it and it tell the stones from all nature con tact with the ocean and swirled into the upper air to be dissipated and idolized, on Turnbottom.

Now it is a matter of scientific knowledge that this is the true explanation for the climate of a country and the people who live in it. Well find him for you

Improved Health Of Canada's Livestock

Large Sums Paid in Compensation for Animals Slaughtered

In five months in 1925 it was necessary to slaughter cattle in the interests of tuberculosis, a report for 1925 issued by the Department of Agriculture states. There were 1,987 animals slaughtered in Canada and $100,015 paid to compensation. In the same five months of 1924 there were 1,987 animals slaughtered and $100,015 paid to compensation. In 1921 22 there were 2,000 animals slaughtered and $100,000 paid to the owners. In 1922 23 there were 2,000 animals slaughtered and $100,000 paid to the owners. In 1923 24 there were 2,000 animals slaughtered and $100,000 paid to the owners. In 1924 25 there were 2,000 animals slaughtered and $100,000 paid to the owners. In 1925 26 there were 2,000 animals slaughtered and $100,000 paid to the owners.

KETCHAMOOT

The "showers" we mentioned in last weeks issue turned out to be an old time soaker, which gave the ground the moisture it needed and put a smile on the farmers faces.

There was no preaching services or Sunday School last Sunday on account of the rain.

Mr. O. Schultz and nephew Russel were passengers to Edmonton on Monday.

Mr. and Mrs. Violet of Edmonton were guests of Mr. and Mrs. H. B Owen between trains on Tuesday

Mr. Leslie Coombes returned home on Saturday.

Come all ye fair ladies and gentlemen to our ice cream social at the home of Mr. and Mrs. Jens Larson on Friday evening June 16th. Ice cream and cake sandwiches and coffee will be served.

Mr. Wm. Ivan, who was supposed to have had an operation performed has changed his mind and returned to his work with a threshing outfit working for Mr. A. J. Schultz.

Pupils neither absent or late for the month of May were, Hazel, Stanley and Charley Olsen, Mildred and Gertrude Ingram, Harold Coombes was late once. Gordon Williams and Agnes Ingram each missed a day.

School Board Meeting

On Wednesday night of last week a meeting of the Tofield School Board was held at the town hall. There were present Trustees Lee (chairman) Mrs. McCauley, Messrs. Cookson, Chapman and Worton.

A communication from the Finance Commission was read which reminded the Board of the necessity for economy in the matter of engaging teachers for the next term.

It was decided that the secretary write the present staff and ask them to re-engage at a salary of $1000 per annum.

The resignation of principal Young was read and accepted. A motion was passed expressing the appreciation of the valuable services of Mr. Young and regret at the necessity of losing his connection with the school.

The secretary was asked to write to the Edmonton papers for a principal.

Some accounts were passed and ordered paid and then the meeting was adjourned.

GORGEOUS SETS

One of the most gorgeous Central American settings ever constructed was erected at Vitagraph West Coast studios for use in "Fortune's Mask," the Earl Williams production which will be shown at the Variety Theatre on Saturday next.

LITTLE ADVTS—BIG RESULTS

W. I. NOTES

The first judging for the season round-matinee took place recently and showed a highly satisfactory condition. The general appearance of the lots is very creditable to our town, and an ill kept yard is hard to find. But some of the vacant lots are rather untidy even on main street and detract from uniform neatness. It would take very little time and labor to at least rake and remove the rubbish from these places and the result would more than repay the trouble. This would be a work of real value for our Twin boys or for anyone else interested in the town beautiful or progressive

Regular monthly social meeting of T.W.I. will be held in their rooms on Tuesday next June 12th.

Those using library books are requested to bring them in on Saturday as the Library will soon be closed for the summer months.

If a man doesn't build a big house he is called a failure; he does build a big one, he is called a moneon.

Correct this sentence: "The bankrupt had a headache and the blues, but he smiled cheerfully and kept his troubles from his wife."

The reason ideas die quickly in some heads, is because they can't stand military confinement.

It is all right to lay up treasures in the next world, but don't forget the insurance policy in this.

Henry Ford has bought a glass factory. Hope he intends to make some of his small trucks out of glass—maybe it will induce the grocers' Solitary boys to back out of an alley more carefully.

Accuracy Essential

Perhaps in no other line of endeavor is accuracy brought to such perfection as in the making of watches When they break as they occasionally do, only experienced workmen should be allowed to repair them. We are thoroughly experienced and competent to repair all classes of watches and clocks and guarantee satisfactory work.

Wong Jewelry Co. Tofield.

CLAUDE SORELL

"A Scout's Honor" Appears With the Grand Chautauqua Here June 22-28

Mr. Claude Sorell is a brilliant lecturer and a student of the psychology of Robert Whitmorism. Former Boy Scouts throughout the country will be interested to learn that Mr. Sorell has been elected honorary or life member on account of their splendid work during the war. Mr. Sorell has been a member of the Boy Scouts of America and Toronto, a total number of about twelve, of private merit and of pleasing entertainment features.

Miss Melissa Kallal returned from school in Edmonton.

AT THE

VARIETY

THEATRE

Wednesday, June 13

A special presentation of

"Daddy"

This is a new Jackie Coogan picture and it is right up to date only having been shown in Edmonton quite recently. The Kid is better than ever in this picture.

Saturday, June 16th.

Alice Calhoun

IN

"Little Wildcat"

In one scene she defeats three men with he fists and the leg of a table In another battle she used both hands and feet to defeat her enemies. In decided contrast to this wild life the girl is taken in hand and soon becomes a society maid with all the culture and polished a debutante The story is full of drama to interest and has a love angle that is sure to appeal.

Usual Prices Comedy in Addition to the Feature

News From Lindbrook

"It never rains but it pours" is a true saying, at least that's what we've experienced here of late, still no one is kicking as the moisture is just what we needed, and the results are showing already in the splendid growth of both pastures and hay, and later the grain will show it as well.

"I Can Now Do My Work Without Feeling Tired"

Mrs. A. Moffatt, Rocton Falls, Que., writes:

"I suffered from a run-down system and severe kidney trouble. I could not sleep or rest at night, and felt so weak I could not walk any distance. I took several tonics, but they only helped me while I was taking them. Mother advised me to take Dr. Chase's Nerve Food, and I felt great benefit from the first box, and continued taking several boxes. To-day I feel like a new woman, and am able to do my work without that dreadful tired feeling."

WHAT IS TRUTH

WHITMAN says the truthful news of reports that appear in the press of the country the "Montreal Witness" has this to say:

"A letter in this paper deals with the falsity of news as furnished by the newspaper press. There is far too much truth in the writer's definition 'Truth is what I believe, all else is false.' We have all to guard ourselves against this natural temptation. Fully stated it is: Truth is what I want to believe. The news collected by reporters and correspondents or gathered from newspapers or transmitted by telegraph is not so much wilfully warped as it is coloured by the collectors' predilections or the supposed likings of those for whom he or she writes. What psychologists call the human equation must be always allowed for in all reports. Two artists sitting together under the same tree will produce astonishingly different results, because each has unconsciously painted his own nature into his picture. Neither has been dishonest. A reporter in England for the United States Press will naturally select what will please Americans, and that is mostly what we get in Canada. It is like a truism to say we all pay for what we like to what we dislike. In fact we cannot expect alike. Even the best of front rows [illegible] apples and another pleases. All this enquiry into the nerve fury refraction of the rays of pure truth does not belittle what may well be called the greatest peril of this generation, the danger of a capitalized and professionalized newspaper press. In politics source the press and you secure all. It is here where the money power steps in. A power or an interest may control the press by controlling its advertising income. That is the commonest way. A paper that cannot be silenced can be crushed or can be bought out. The purchase of great organs of public opinion and the demolition of real and practical check on all great editors has been a note [illegible] the letters of the late Chas. [illegible] years in London. As commercial pressure and greed increase it is what they have very largely to do newspapers seldom escape from the public suspicion and bias toward their sources of support.

As open mouth and a closed pocket look do not go well together.

One thing worse than a quitter is a man who is afraid to begin.

Procrastination is the thief of time but it was never known to take anything else.

Capitalize your personality, but don't water the stock.

A man does not lose his temper—he displays it.

You cannot break God's laws; you can break yourself against them.

Think twice before you speak then talk yourself.

HERE AND THERE

Smoking compartments are to be provided in the new wooden stripped locomotives for use on the London-Amsterdam-Berlin air route.

201,000,000 feet of lumber were produced from mills in the Ottawa Valley last season as against 326,176,766 feet in the 1931-1932 season.

Last season's grain shipments through the port of Montreal exceeded 153,000,000 bushels. Revenue reached $3,680,810 providing a surplus of $900,362.

Forest rangers of the Quebec and New Brunswick forestry departments will co-operate to the extent of covering from on either side of the provincial border.

Two thousand maples and one thousand green ash trees, natives of Saskatchewan, were shipped in the Canadian War Memorial Park at Poperinghe, Belgium, recently.

Vancouver is to have direct connection with trans-Canada trains. A two-crossside has been established three times daily between the prairie provinces and is the only one of Montreal.

During the year 1932 boring operations for the discovery of oil and gas in the east end of Bella Coola to the extent of 250,000 feet, resulting in the discovery and development of a field with an output of 1,000,000 feet per day.

Despite reports of adverse conditions in the prairie provinces, Saskatchewan reports a crop that after paying all expenses the farmers will get $10,000,000 net and that is what they have very largely to be newspapers seldom escape from the public suspicion and bias toward their sources of support.

In 1906, in Iowa, a single bond of coal was erected as a dynamite variety. In thirty-one years 1,000,000 feet of lumber, to the extent that 1,500,000 acres were cut, enough for a thousand production of 6,000,000 bushels.

One of the largest timber sales ever made in the Canadian Rockies has been made in several months has just been made on Vancouver Island. A group of Seattle lumbermen have acquired 12,000 acres of timber land at Horne Hill. The timber on the land contains 200,000,000 feet.

Part of the plans for keeping the St. Lawrence open all winter submitted by Dimitry Jessen, Russian engineer, to the Federal and Provincial Governments would call for the erection of a nine mile dam at Cape Rouge, near Quebec, which would prevent the cold current from the Gulf reaching the river.

The Bungalow Camps to be opened this year by the Canadian Pacific Railway in the 3 resorts Kenora, Nipigon and Lake of the Woods districts of Ontario, consist of a community house, containing a dining room with stone fireplace, surrounded by several double and single bedrooms, comfortably furnished for the accommodation of from one to four persons. A number of canvas houses will also be used.

The official opening of the Banff-Windermere Highway will take place on June 30th at Kootenay crossing, B.C. Motorists from all over Alberta, Canada and the United States will be present in the large numbers and a book will be provided for several thousand persons. Complete arrangements would be made for the event of a home made dance which would prevent the cold current from the Gulf reaching the river.

UNVEILING MARTIN MEMORIAL

Above, C.P.R. "Empress of Scotland" arriving at Quebec (Photo, P. L. Wanders of the C.P.R. addresses the gather ing prior to the unveiling, inset, the Memorial.

WHO was Louis Martin? Had that question been asked one year ago probably not one Canadian in a hundred thousand would have been able to answer it. Today it is different. Canadians now know he was first King's pilot on the St. Lawrence river, and the first known Canadian of British extraction—two claims to distinction either one of which might have made him famous. Latterly other things he did credit have come to be known, and they will be told in their due place.

In the meantime is it not remarkable how little Canadians know of Canada's history—or as it is by tradition history as ever was revealed with a stark of mystery and romance? Quebec Tercentenary was marked by a gathering of notables including the Governor-General, Sir Lomer Gouin, Premier of Quebec, for whom spoke were F. L. Wanklyn, representing the Canadian Pacific Railway Company by whom the memorial was erected. Lieut.-Col. Alex. Fraser, M.P., on behalf of the Lieutenant Governor of Ontario, Lieut.-Colonel Eugene Fiset, C.B., C.M.G., Deputy Minister of Militia and Defence, and Commissioner Lafleur, of the Province Surpee, President of the Canadian Historical Society and Monsignor Lafleur, Canon of the Basilica. The latter spoke as the successor of the Bishop of Quebec who was Martin's parish priest and who was afterwards martyred by the Iroquois. It was from the baptismal certificate of Abraham Martin's first child who was also the first white child born in Canada that Mr. Lafleur read the baptismal certificate of Martin's eldest child upon which appeared the name of Samuel de Champlain as godfather. The memorial has been put up by the Canadian Pacific in honor, not only of Abraham Martin but of the whole pilot fraternity who for over three hundred years have done so much to make possible the St. Lawrence route to the sea and from Europe. That Company uses the route more than any other, and the arrival at Quebec of the great fleet "Empress of Scotland" on her first trip in command with 731 passengers from Europe later in the day of the unveiling emphasizes what has been accomplished in the opening of the St. Lawrence route a great highway for seven

CHAUTAUQUA TALK

Dominion Chautauqua Service — SUMMER 1923 — Western Circuit

OUR AIM — SERVICE

THE ANGLO-SAXON RACE

Dr. FOX

"The Mission of the Anglo-Saxon —what a lecture—what a speaker! Dr. Daniel F. Fox, one of the foremost lecturers on the American Continent, will come to Western Chautauqua audiences this year. There never was a time in the history of the world when the solidarity of the Anglo-Saxon race was so realized as in the recent world struggle. There never was a time when Anglo-Saxons felt the great necessity of standing together in order to preserve the great heritage of freedom that they had already contributed to the civilization of the world; and above all to hand this same heritage on to future generations. If the Anglo-Saxon fail, all fail.

Dr. Daniel Fox is one of the most widely known speakers in the lecture world. He has appeared on hundreds of Lyceum courses and Chautauquas. Wherever he goes he is a favorite, and is always asked to return for subsequent engagements. His oratory is charmingly subtle, his descriptions graphic, his delineations of character wonderful, and his understanding of great men and events amazing.

His lecture abounds in dramatic situations and to hear him is to leave recordings of the brightness and purest of perfect speech. Howell Dwight

A simple and scientific account of the mysteries of the Universe.

Admission, 75c

Evening—Operatic Concert ——— Hadley Concert Company

Admission, 75c

THE GREAT WORLD HEART

Mrs. MARIE VARNEY

Right from the heart of London, England—fresh from a tour through France, Germany and Belgium, Mrs. Marie Varney, a distinguished English speaker, comes to Chautauqua to present the results of her observations of the problems and conditions of Europe. In her lecture, "The Great World Heart," she will touch on financial, political and social conditions, outlining what she thinks is the hope of the future.

Mrs. Varney is a travelled, cultured woman of international reputation. She has been presented on innumerable occasions by the International Chautauqua Association, 1 Queen Square, London, England, ever since Chautauqua was organized in the British Isles.

She has given thousands of addresses with marked success in Belgium, the West Indies and the United States. She has a clear voice, a good manner, arranges her material well and takes her audience with her while she discusses current world problems of which she is especially well informed with first-hand information.

Interchange of speakers — Education through the opportunity of hearing the world's greatest speakers and thinkers—has a wide and a broad policy of Canadian Chautauqua as those especially in the country or side communities of the West welcome indeed the opportunity of hearing Mrs. Varney, who is regarded as one of the world's foremost speakers.

CHAUTAUQUA BELIEVES IN THE INESTIMABLE WORTH OF THE CHILDREN OF YOUR COMMUNITY

"With Allenby in Palestine and Lawrence in Arabia"—Pictures and Views

FREDERIC POOLE, M.D. Celebrated Traveler

Dr. Poole is British born, a celebrated traveller and particularly enthusiastic in the entire interesting Eastern question. To illustrate his lecture he has one hundred and fifty remarkable views which make this lecture one of the most interesting features of the Chautauqua season. The scenes of this great drama are laid in the Holy Land, covering the campaign in Arabia and Palestine and that mystery-enshrouded country in which this campaign was fought.

The first part of the travelogue deals with the advances of the British Army of Occupation, the entry into Jerusalem, the fall of Jericho and the capture of the Turkish Army in the Jordan Valley. The pictures of the Holy City and its surroundings are marvellous, beautiful in detail, surpassing in interest and in every way unique.

Historical pictures from Bethlehem to Calvary are visited and the Christian civilization is plotted when the Star and Crescent give way before the victorious ensign of the Crusaders.

The second half of the lecture deals with the romantic story of Col. Thomas Lawrence, the young Englishman from Pembroke College, Oxford, who organized the revolt of the Arabs against the Turks. He visited into an effective fighting force fellows who had been at war for centuries and in the case of irreconcilable difficulties compromised the entire situation. The young Englishman who had visited Arabia before the war, who had lived with the Arabs in their tents, who had learned their language, their customs, their habits of thought, was the one man who could bring about the unification of the Turkish forces in the Near East. The scene of this great drama was laid in Arabia, the land of the roving language of the Arabs from one of the amazing historic romances of modern times.

The Anglo-Saxon type has never become a heroic figure than Thomas Lawrence, who with the help of Feisal, the present King of Arabia, and Allenby, the British General, succeeded in organizing the Arabs into a fighting force which helped to win the war. The pictures of the Arabs and their encampments are marvellous, beautiful in detail, surpassing in interest and in every way unique.

The secrets of the desert and the mysteries of Islam and its sacred Black stone are revealed, and a drama of fascination and heroism is right is reached as the traveller penetrates into the ancient city of Petra—the only spot in civilization for fifteen years, a mammoth city, half as old as time."

Dr. Poole has held thousands spellbound with this remarkable lecture. He is a master of words and master of story. A great treat in store for all who come to hear this most remarkable Englishman.

CALGARY KIDDIES

(Continued)

that they are in Canada. They will transport you far across the seas to where you will hear the national songs of other countries and see the national dances given in national costume.

No expense has been spared to make this feature one of the most pleasing of the year. Miss Marie McDonald, well known throughout Canada, who has had charge of the training of the children, has spared no pains in the preparation of the numbers.

The children have been trained by Mrs. Kathleen Lawrence, assisted by Miss Marie McDonald, who need no introduction. Both these ladies have had years of experience in this line and their work is well known throughout Canada.

There will also be both comic and classic dancing.

This company is in entirely new, and the costumes are the last word in attractiveness. It is a piece of work that everybody will enjoy, and the management feels that the result is going to be a success. Everybody should see this company, as the children will be entertained while out on the circuit, so they do their regular school work under capable supervision while traveling.

First you will probably visit Scotland—on the "Shamrock Flag" and other Danish dances, hear a bit of

CHENEY CONCERT PARTY

(Continued)

The Cheney Company Chautauqua is not an experiment for Chautauqua folks since for nearly twelve years it has played before American audiences everywhere.

The whole programme is primarily an evening of refined entertainment, personality dominates. The personnel with major talent of each, includes Harry Cheney, violin; Leonora Cheney, reader, whistler, pianist; Reed Cheney, violinist, and Lee Patterson, pianist.

CLAUDE SCHELL

(Continued)

best known ever heard on Chautauqua. Mr. Schell has a voice of great range and clearness. Combine this with his pleasing manner and his splendid selection of songs, and you have the reason for his unique and enviable reputation.

His programme will consist of solos from operas, selections from light opera, a few classic modern art songs, including the full range of all countries.

We are pleased to present an artist of such great distinction as Mr. Schell.

The Junior Department

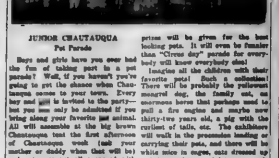
JUNIOR CHAUTAUQUA
Pet Parade

Boys and girls have you ever had the fun of taking part in a pet parade? Well, if you haven't you're going to get the chance when Chautauqua comes to your town. Every boy and girl is invited to the parade but you are only be admitted if you bring along your favorite pet animal. All will assemble at the big brown Chautauqua tent the first afternoon of Chautauqua week (ask your mother or daddy when that will be) and get your pet all prepared with red ribbons just as they do at the big display. Be sure and be on time for after all have gathered you will then arrange in a line and have a procession down your streets. Banners will be flying, music will be playing and

prizes will be given for the best looking pets. It will even be funnier than "Cross day" parade for everybody will know everybody else!

Imagine all the children with their favorite pets! Such a collection! There will be probably the pulliest mongrel dog, the family cat, an enormous horse that perhaps used to pull a fire engine and maybe now thirty-two years old, a pig with the curliest of tails, etc. The exhibitors will walk in the procession leading or carrying their pets, and there will be white mice in cages, cats dressed up in baby carriages and fat geese waddling along. There may be even people in it dressed up as animals and there will be no end of fun in the whole parade.

Be sure and don't miss this chance to have some real fun.



Florenz Orchestral Quartette

FLORENZ ORCHESTRAL QUARTETTE

Four clever, wide awake, young artists, brimful of personality, are the members of the Florenz Orchestral Quartette. This is primarily an instrumental organization with two violins, 'cello and piano. For popular orchestras on the platform today are brilliantly as these four young ladies.

Miss Eva Francesco, manager and pianist, is a clever artist whose efforts, both instrumental and vocal, show the talent of a true musician. She has a sweet voice of very fine quality that her charmingly magnetic personality are delightful features of the programme.

Miss Florence Dippel, first violinist and conductor is a talented young woman, whose experience as a concert master of a college symphony orchestra in chamber music playing makes her an ideal director.

Miss Jean Kendrick is the reader of the company and plays second violin. Her character work and her personations contribute much whatever fun and solid value to the programme.

"Getting By Your Hooties," or How to Overcome Your Difficulties

SAM GRATHWELL

(Continued from Inside Page)

Years ago he used to half pepper on a busy street corner in a large city. He used to shine shoes, run errands and do the many jobs that come regular out for the shirt of the little fellows. He was also seen in this seven years of age. There also was Jimmy Grathwell, his father, and, with that stoic indifference characteristic of the street children, Sam helped to support the family.

It was a chance word of encouragement that first aroused the ambition of the boy to be interested the entire world. Sam was a "Cockney" and he needs be such he was ever saying to admiration by working as a factory hand, a barrel painter, ditch digger, cabin porter, a waiter in a high-class bar room, an elevator boy and a dozen other occupations. Later he was engaged as Lionel Stanford Jr. Undergraduate, the interesting lecturer who thrills audiences with his Oriental humor. One of his adventurous and, "This sons Grathwell is an 'Is Man,' a 'Can Man', a 'Doing Man.'"

This all happened, not so many years ago and today Sam Grathwell holds a distinguished place on the American and Canadian platform as a lecturer.

His personal story is auto-worthy because it is one of real accomplishment and, positively enough, his best humor is "Getting by Your Hooties" and "Getting Individual possibility. It is the real and proper thing. He was often knocked down but never knocked out.

His talks might be termed "Over-the-Teller" talks, for, as a banker in the County Court, said, "I must hide behind the teller's cage to get a little rest from the strain of listening to that I would wish that trouble." While Sam Grathwell's lectures are filled with epigram they are linked throughout with humor. He not only lectures, but also entertains.

A. D. CARPENTER
(Continued from Inside Page)

grouping the true meaning of Nature. It deals with centers of energies, including the Sun, Storm, Earth, Radio-Telegraphy, Telephony and Radiotive Personality. Scientific Research in the Realm of Thought Transcendence —or Mental Telepathy; the Scientific Path for the Study of the Problem of Survival after Death, Nature and origin of Matter; Radio-Activity of Matter, the Transmutation of Matter; the Relation of Mind to Matter; the Telepathic Interaction Between Mind and Mind Atom-to-Atom of Energy; Soul and Mind; Does Mind Exist Where?

The power of Mr. Carpenter's personality as a lecturer, lies in the fact that he is a real student, he makes his lectures live. His talks are vibrant with meaningful illustrations and are brought very personal home to the audience by his unique personality.

Arthur Carpenter is famous as a lecturer with a powerful personality on the subjects who presents his ideas in a most popular style. He has presented the world of cold scientific fact with dynamic enthusiasm. He has literally electrified his subject. Whether he is discussing the relation of mind to matter, the planetary system, radio telegraphy, the soul and mind, electricity or the "Radio Man-ness" there is always a tremendous appeal in his subject that holds the audience enthralled.

Professor Carpenter began as an astronomer. He went from one field of research to another and finally the psychic realm demanded his attention.

Here his cold calculating method of procedure was of immeasurable benefit to him. His travelled carefully and investigated every point as thoroughly as possible. The results of years of study are brought to you.

Mr. Carpenter has also published into hitherto unknown ways, but he lends with confidence, sincerity and simplicity. He can will your regret hearing "The Nearness of God."

SWISS ALPINE YODLERS

(Continued)

This company of Alpine Yodlers are from the country some thirty-five years ago and has been on every leading concert tour on the continent. For the past three years the Yodlers have been on Chautauqua engagements, and have been brought back from Switzerland year after year.

Among their earlier appearances in the United States, they had the honor of giving their entertainment before Presidents Cleveland, McKinley and Roosevelt.

The company consists of five Swiss Alpine Yodlers, who are all natives of the mountains, has come with Karl Gartner and other notable people, and is said to be one of the most perfect yodlers in Switzerland. Gartner, the manager, is a well known thoroughly trained in mountain yodling, but is also an accomplished concert ability. Anna Fischel, soprano, gives wonderful solo in true Swiss fashion, echoes and yodle songs, with all their original charm. No one in America can give such a genuine reproduction of these Alpine songs as Anna Fischel. The yodle duet, solo by the yodle quartette, and the instrument of the Swiss people, is played by Mr. Strobeltz, who also supports the work of this company.

Together with this great musical work, the musicians give several short acts and readings which are interspersed with melodies and gaiety of the Alpine country. This company is the last of its kind in America today.

News From Lindbrook

With the nice weather that we've had lately, town visitors are beginning to visit their country friends and also enjoy the glories of the scenery which looks At after the rains. Crops and hay are looking fine and if all goes well a good crop is assured.

Mr. D. Dyer was a visitor last Sunday, he was accompanied by Mrs. Dyer and some friends in an auto. Mr. Dyer has rented his farm to Mr. J. Lepine, who has moved his family onto same. Mr Lepine has also acquired the Murdock Matheson quarter from the S. S. B.

Mr. Lannon has purchased the Fowler quarter and is improving same but is not making it his steady residence so we hope at least not for a while.

Mr. Frank Kortzman, section foreman C. N. R. at Ryley has purchased the S. E. 1/4 from the C. P. R. and intends to fence and improve same

Mr. Smith is on a visit to friends in Edmonton

AT THE

The service on Sunday evening at Lindbrook will be postponed on account of the mass meeting at Tofield on Sunday, June 24th.

Miss Grace Lepine has returned home from Wetaskiwin where she has been visiting with friends.

Mrs. R. Lindberg has returned home after being in the Dauphin for a while, she reports that her health is considerably improved.

Mr. E. W. Hooper paid a visit to Edmonton on business.

Mr. Kennedy of Edmonton was in the district looking over land this week with the intention of either buying or renting a place.

Mr. and Mrs. Teigen of Grande Prairie stopped here en route for Norway, on a week end visit to Mr. and Mrs. C. J. Kortzman who were friends and neighbors of theirs in Grande Prairie.

Deville

The recent rains have made a great improvement in the pastures and all crops. The wheat in this district is up sufficient to hide the land, and of a very healthy appearance. The cows are giving more milk now but that only means cheaper cream

Mr. James came back to his place and intends building and doing other improvements

Mr. J. Curtois has bought 120 acres from the G. T. P., part of which the store and other buildings are on. He has several men clearing it of brush.

A meeting of the Cooking Lake sports committee was held on the evening of the 9th. And it was decided that the 4th annual picnic will be held on the 7th of July. The finance committee was selected together in all the stray rush and I may add that it takes a large sum.

KETCHAMOOT

The merry chants of the young people may be heard tonight and three times a week with their summer sport, the girls with their basketball and the boys with baseball.

Mr. Frank Hull returned home last week after a week's action with her daughter Mrs. McBeth of Calgary.

Rev. Simons took charge of the preaching services last Sunday in the absence of Rev. Watt.

Mr. C. Campbell is pestering about 25 head of stock for Parkard and Anderson of Bardo.

A large quantity of army worms are attacking the trees stripping them of their leaves and it seems very little can be done to stop them.

HAIL INSURANCE
THE RECENT rains have created a spirit of optimism as well as saving the crop from damage by drought.
FARMERS SHOULD further protect their crop by insuring it against loss by hail.

Local and General

Munro Trent returned to his home in Edmonton on Saturday night.

Mr. E. Johnson who has been residing on the past month has transferred to Red Deer this week.

Miss P. Napier spent the week end visiting friends in the City.

Miss Lenore McClymont was at home for a week's holiday

Rev. R. G. Watt arrived home Saturday night from the conventions at Port Arthur.

Miss Anna Watt who is teaching near Leduc spent the week end at her home.

Mrs. M. B. Hall is on her vacation. Mrs. Alex Van Buskirk is relieving her

Bert Wallis came home on Sunday night from Rocky Lane visit a few days with home folks before going to work at Chauvin

Mr. A. R. Grew was taken seriously ill on Wednesday with an attack of appendicitis he was taken to the hospital in Camrose where an operation was performed in the evening. The last report says he is doing as well as could be expected.

Mr. and Mrs. Cal Mitchell and family and Mr. Jason Henderson are living on Mr McDevitt's farm and are also working it for him.

The girls of the basket ball team wish to mention that their game at Bardo was only a practise game.

Miss McCourt was the guest of Miss Annie Brown over the week end.

Mrs. A. Johnson has started to build a new house, excavating for the cellar at present.

Mrs. Bardon and family of town spent last Sunday at the Schultz home.

The ice cream social under the auspices of the Missionary Aid Society turned out very successful. The shower in the evening cooled off the atmosphere and made the grass wet, nevertheless the Tofield basketball team came out and played Kelsmont girls and ran off the losers the score being 12-9. The Tofield and Ketchamoot boys played a basket ball, the score being 14-1 in Tofield's favor. Lunch and ice cream and cake was then served at the G. Lawson home, the proceeds totaling $20.00

The school boys are not to be left behind in sport either, Lindbrook, Wesaliann and Ketchamoot have a cricket diamond on Mr. Sullivan's farm where they have met the last two named boys and played ball

Safe hits for Vegreville 2
Tofield will play a league game with Ryley on home grounds at Tofield on Monday, June 25th at 6.30 p. m.

We noticed on the Ryley report of the Tofield-Ryley game on June 14th that in giving Happy Boland credit for the two stolen bases the fact was omitted that Scott Lee struck out on three Ryley players

Sports of all Sorts

Fast and furious was the basket ball game between Ketchamoot and Tofield on Friday, June 15th, at Ketchamoot. The game was rather one sided, due to Ketchamoot girls not having the 1923 rules. Tofield scoring 12 and Ketchamoot 0. Quite a number of rooters were out from Tofield

The Tofield team was:
Forwards, Bowles & H. Rowe
Guards, D. Hay & E. Leighton
Centre, I. Rowe & M. Bethel

The Ketchamoot team
Forwards, D. Lee & A. McGuistie
Guards, A. Keown & E. Brehn
Centres, M. Lee & V. Lee

The local handicap tournament of the Tofield Tennis Club has been brought to a close even for the final of the mixed doubles which Ferguson and Pincott by Taylor and Mellgren. The results of the finals in the other events are as follows:

Ladies singles, Helen Scott over Leo Lodico; Ladies doubles, Miss Woods and Miss Carter over I. McIntosh and Mrs. D. Bell

Mens doubles, K. McIntosh and Davis over Simpson and Chapman

In nearly all cases the games were very close, making it appear that the handicaps set by the tournament committee were fairly accurate. It has been noted that the younger element of the members as a whole has greatly improved especially that of the beginners. Since the next tournament will be held in the early fall there is ample time for every member to practice and become proficient in the game.

On June 19 in the Tofield House between Mr. Vincent and Mr. Mitchell for the championship of Tofield. Mr. Vincent defeated Mr. Mitchell by a score of 21 to 19. Mr. Vincent was presented with a box of cigars by the proprietor of the Tofield House.

On June 19 in the Tofield House between Mr. Vincent and Mr. Mitchell for the championship of Tofield. Mr. Vincent defeated Mr. Mitchell by a score of 21 to 19. Mr. Vincent was presented with a box of cigars by the proprietor of the Tofield House.

HAVE YOU REALIZED

What a difference there is in towns. Hast Side's many people take it for granted and do not bother about how it happened or why it happened. Oh yes it is a local newspaper I am reading but you cannot see the part it plays until it is taken away or when you leave to live in a town where there is not a local paper. The town is running smoothly sports are encouraged meetings are held through the aid of the paper.

Meetings are called and arranged, they do not clash with one another and no one can make the excuse that they did not know about the meeting. Although the paper is not given to criticism for the sensible printing and cooperation of the citizens never clap-trap it is true. To test this out, live for a while in a town that is trying to get a local paper, meetings are held and about only half the people know about them owing to the paper not being out to [illegible] Committees [illegible] minute [illegible] attends, if there had been a paper notice could have been given in good time for the committee would then be able to work on a regular system. Have you ever looked at a clock and realized how useless it would be if the figures were rubbed off the face or at certain intervals of the hands you would be able to read across the time, but it would be only [illegible] work and as it is with a town that depends on somebody else to tell his other party. A newspaper is the only sure and safe way of getting an event before the public.

You and do the merchants realize what the paper does for them. How many people in the country have gone without something or other or else sent away for it because they did not know the store had it. this is not gone work but acted expenses of many that have writ on away for something and then found out afterwards that they could have got it from a local store and at the same price. It is surprising that merchants with such a means before them for getting all their goods before the public neglect such an opportunity.

Inter-Provincial Telephone Service

Link Prairie Provinces into a Complete Telephone Unit

Direct telephone communication between Manitoba and Alberta through Saskatchewan will be established in the course of the next few weeks, it was announced at the close of a two-day conference between toll line officials of the prairie provinces held in Regina.

Manitoba was represented by J. S. Lowry, Commissioner of Telephones, and J. W. Delaney, auditor; while R. F. Baxter, General Superintendent, and W. C. Brace, Traffic Superintendent, represented Alberta, and Frank Chevrau by D. C. McNabb, Deputy Minister, and W. Warren, Chief Engineer

The question of inter-provincial rates was also discussed, but no decision was arrived at on this point, pending consideration by the Saskatchewan Government of the proposals submitted. At present Manitoba and Alberta have a two minute long distance rate while Saskatchewan has a three-minute rate.

Direct communication between Manitoba and Alberta will be possible when repeating apparatus had been installed at Brandon. This will be done in the course of the next few weeks. The effect of the new installations will be to link the prairie provinces into a complete telephone unit.

Canada's International Responsibility

World's Greatest Non-Stop Train

Runs From London to Plymouth in 4 Hours, 7 Minutes

Early morning at 10:30 a small crowd gathered at Paddington Station on the London, Western Railway to witness the start and "send off" of the new train.

The interest in the train is simply that of the Englishman in any sport and sporting event. He likes to see people doing things. He likes to see records broken. Pleasantly in connection with this train, the London, Western Railway has not only made new records but has established new ones. It has not only made new records but has established new ones. It has not only made new records but has established new ones.

The train is made up of [illegible] coaches and is hauled by a powerful engine. It is capable of speeds up to 100 miles per hour. The distance between London and Plymouth is 225 miles and the schedule calls for the run to be made in three hours and seven minutes.

The train left London at 10:30 a.m. and arrived at Plymouth at 1:37 p.m. The average speed was 70 miles per hour. The fastest speed reached was 100 miles per hour.

The train has an observation car at the rear. The seats are arranged so that passengers can face the direction in which the train is moving. The car is equipped with a buffet where refreshments are served.

The train is the property of the London, Western Railway Company. It is operated by the company's own employees. The engineer is [illegible] and the fireman is [illegible].

The train is scheduled to leave London at 10:30 a.m. every day except Sunday. It is scheduled to arrive at Plymouth at 1:37 p.m. the same day.

The fare for the round trip is [illegible] dollars. The fare for one way is [illegible] dollars.

The train is equipped with [illegible] and has a [illegible] capacity.

RAMBLING

Much is being said 'these days' as regards the handling of grain either by elevator or cooperative pool, does it not seem surprising that the industry that the prosperity of the country revolves about has to be guided almost by all parties that come into power, whether they are capable of the work or not.

It is evious that before the farmers or even the country at large, get anywhere near settling the economic problem of this country, a different manner of handling its important produce will have to be found.

One should not have used the word 'found' for it was found long ago. Denmark found it by force of existance; it was a case of go under or adopt a mother system to put her on a level to compete with other countries.

We all know to-well how easy we could re-organize by dismay and same rules of life that differ but little from the present time. A well organized more modern and the people country with produces a legal more comfortable The most wise financial minimum rule and comfortable declaration is to live where conditions are reasonable [illegible] tion is the strongest and all are pulling the same way. You some will say, all 120 U.S., but we are waiting for them to start something at headquarters or waiting for government instant it. We have been waiting on that for ever so long and we are likely to wait. It will not be long before the farmers get the

yourself in one form or other. One man in a district cannot live, he must have neighbours so why not work together for the benifit of all. Some one says Why should I help my neighbours to get the same as myself what a foolish and blind assertion. True, by working or shipping together an equal price is given, grade for grade to all: but that does not put all on an equal basis. For the one that improves his system of farming and produces more to the acre also a better sample of grain: the man that can finish as animal at a lower cost, by knowhow gets a larger profit than his less skilled neighbour. Yet still a basis price is maintained for all, to put there best into their work.

Untold advantages are in favour of a pool, more money is received for one's goods that is be yond a doubt. And if a district has more money, under the co operative principle, then nothing to what they are at the present time. A well organized pool will not be the final solution to the problem of handling its important produce will have to be found.

One should not have used the word 'found' for it was found long ago. Denmark found it by force of existance; it was a case of go under or adopt a mother system to put her on a level to compete with other countries.

name of Government was the Charity Kid of politics. It has been a case of Government do this that and the other. Why not try and do it ourselves start off in a small way; you will soon see the benifit of it, and never go back to the old way

A rattle pool has been started back into it and see it, good results have already been obtained. Graft, somebody says, you, there is always the man that says that, but watch that man and see what progress he makes. He is the man that accuses a person who is trying to improve conditions of making money, he forgets that there are many men in the world that are trying to improve conditions and solve problems and money is the last thing they are thinking about. If there is graft that does not die away with the fact that better prices and markets have been obtained since the pool started. Get into it find out the graft if any and stop it. Make it a farmers company, try running your own boat, get away from asking government help in all troubles. True, farming needs some help than other lines of business but that does not excuse you from helping yourself as much as you can. Get together in business, social and in every way possible. Get rid of your individual mind and it will not have to ask for loans, help or protection. You can demand it. For you will have the protection that you deserve.

The man in the street

Open Letter

Dear Sir:

It frequently we have in the different Shelters through out the Province, children running from one to another, not waiting to be placed in desirable homes, when found it quite difficult to find the right home for the right child. At present our greatest difficulty is obtaining applications for baby boys.

We have altogether about fifteen baby boys and a few baby girls from one month old and upwards old, to be placed, and it is earnestly to us that with the assurance and sympathy of the Premany of those little ones may be placed very comfortably.

We would very much appreciate your kindly co-operation and if you will publish these facts, no doubt you will be the means of assisting many of those little ones to obtain the opportunities in life they deserve.

Yours truly,
Superintendent.

Application will be dealt with promptly and further information gladly furnished by the Department of Neglected Children Old Parliament Buildings, Edmonton.

The Power of Suggestion

Travelling is becoming more and more of a fine art. Formerly it was regarded simply as a process of getting from one place to another—a necessary but unavoidable. Now it is looked upon as a joyful undertaking, a delightful interlude in the regular routine of life, especially when the journey is over the lines of the Canadian National Railways. The luxurious comfortable as possible and to save him as much bodily exertion as effort. Thinking is a mental effort. Patrons of the Dining Car Service will now find themselves relieved of that irritating effort. A menu of the full course meal that is distributed through the Dining Cars, the menu from which Dining or Cafe Car are furnished. Each of the dishes which is printed in both English and French, are covered and suggestions for a suitable combination of dishes for the coming meal. Prices for a complete menu for Breakfast, Dinner and Supper range from 35 cents to $1.25. The traveller merely needs to decide what he wishes to pay, and upon entering the Dining Car he will find himself served quickly and satisfactorily as he would in a well-appointed home

Here and There

Diffuse in Wainwright reserve in excess at the rate of about 2,000 each year.

The output of coal from Canadian mines during January, 1924, amounted to 1,743,000 tons.

The total wheat production of Canada in 1922 was 399,046,000 bushels of which Saskatchewan produced 246,417,000 bushels.

The Robinson give the doctor his fee as soon as he calls. If the patient recovers he keeps it and if not it is returned.

Heads of farm implement and allied industries in Edmonton and Calgary state that for every acre of crop that was sown in Alberta last year ten will be sown this year.

1923 will be the greatest prospecting year ha-ve so far in Northern Ontario. The largest rush of prospectors is in the district extending from Sesathka for a hundred miles and like the Province of Quebec.

Grain men and others in Calgary already forecast the probable yield of wheat in Alberta this year at something in the neighborhood of 100,000,000 bushels. This estimate is based on the 65,000,000 bushel crop of last year.

The total wheat production in Canada has given from 16,723,000 bushels in 1911 to over 399,000,000 in 1922. The number of elevators in 1905 was 1,000 with a capacity of 20,000,000 bushels. To-day the capacity of 4,265 elevators in Canada is 235,000,000 bushels.

The Canadian Pacific Railway have forwarded to the Provincial Secretary, England, has invented a process for the making of artificial wool from cotton waste. The basis of the process is to render actual the product down well as wool, and to give it the degree of curl and general color and is considered a better basis than the natural wool.

During the last fiscal year Canadian ports of entry connected to 671,981 pounds with a value of $119,256 for the United Kingdom accounted for $125,784, the United States $34,178, and other countries $34,258. There are 125 tobacco factories in Canada, Quebec and Ontario as the principal producers.

Running on schedule the Canadian Pacific liner "Empress of Canada," Captain A. J. Haines, again demonstrated her right to the claim of "Queen of the Pacific." The Canadian vessel left Vancouver 24 hours after the American liner "President McKinley" and arrived in Yokohama five hours in the lead.

The British Government is completing at Chatham the largest and most completely water tight craft in the world. On the surface she will displace 2,750 tons, when submerged 4,000 tons, this displacement is 1,400 tons greater than that of the largest German submarine. With a twelve-inch gun the new submarine will be able to bombard any object and then quickly disappear under the sea.

Wisdom Of Planting A Shelter Belt Is Unfolded By A Western Farmer

One of the most indomitable and economical tree pioneers in Western Canada is Stephen Stephenson, of Alberta. He might be first of all a farmer and he planted trees to make his farm a greater producer of crops, as well as a more beautiful place upon which to live. But let Mr. Stephenson tell the story:

"There is no doubt that if farmers could pin their faith to that piece of ground which they are cultivating for production of crops, and instead of having only a two-bush dasire in their minds for immediate financial returns, would try to work their lands with a view to permanency, having in their eye many generations to come, and those to be born after. Then, they would be more willing to plant trees and bushes for shelter belts and windbreaks, and would give them the required protection to accomplish it.

"First of all let it be understood that the climate in this part of Southern Alberta, is almost as dry as any in the Canadian prairies, and therefore, my experience will apply only to such dry areas.

"The land should be quite level, so that when the snow is melting in the spring the water may soak into the ground without running off. Shelter belts should be placed to stop the force of the prevailing winds. In our locality it is the north west wind that causes the snow to drift more than any other, therefore, in laying out my shelter belt I planted the trees from east to west. The shelter belt is six rods wide, but too wide a belt is a solid obstruction to the wind in which case the snow would drift up and break down the trees, but more enough to permit the snow to blow through and drift up on the north side which is used as our garden and orchard. In this way the snow drifts thereby to put to excellent use the following year as additional moisture. The several rows of trees in the preparation of the soil before planting. The land must be well summerfallowed for at least two years and not in any crop raised.

The rule of ground should be well plowed in May the year previous to planting time, by lapping to inches further than each furrow. Then, in the following spring, the ground should be harrowed and worked down fine, and then marked off in rows three feet apart, and planted with potatoes, corn or sunflowers. These should be cultivated well during the summer, and will help to keep down the weeds. The following year, the ground should be plowed in the same manner as the previous year, and planted with potatoes, corn or sunflowers. These should be cultivated well during the summer, and will help to keep down the weeds. The following year, the ground should be plowed in the same manner as the previous year, and planted with potatoes, corn or sunflowers. These should be cultivated well during the summer, and will help to keep down the weeds.

"Then the shelter belt is all ready for the trees. The trees that I planted were three rows of caragana, second row, Manitoba Maple, alternating with ash. The caragana, the roots and trees best apart. Then twenty four feet for cultivation, while trees are small and again two rows of trees and two shrubs to make same width as first. After the trees grow taller, the spaces between will fill out with Russian Thistle, which if left will act as a mulch preventing the drying of the soil, and making evaporation unnecessary.

"Then, the only thing left is to keep the outside cultivated to prevent weeds and grass from robbing the moisture. If rightly planted this shelter belt will be easily accomplished with very little trouble. To implements the harrows, cultivators and plow running over the ground at

John Hopkin's Way of Transforming the Prairie

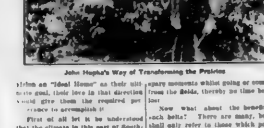
right angles to the trees will keep the ground in good condition. Before planting, I would give them the required preference to germination.

"Now what about the benefit of such belts? There are many, but I shall only refer to those which probably will appeal to most readers. I mentioned before, the north side is the ideal ground for vegetable gardens and we have plenty of vegetables every year, no matter whether it rains or not. Last year we had bushes. In an orchard, although my orchard is shelter belt, I have three rows of Russian, west and east. It was planted in spring of 1916, but what 30 we have bushels of plums, wild and cultivated, and plenty of other fruit like currants, currants, raspberries and cherries, and I believe we soon will have some standard apples

"I have been asked about the business end of my shelter belt," says John Hopkin, "but what about the beauty and fragrance of the orchard in spring? The wealth of plum and apple blossoms. I feel as if I repaid to download, all sorrows and cares dropped on through the maze of the feathered songsters and homing hens. Talk about the bald-headed prairie of the west, I say that the time have to adopt it, to improve it, and make it fit for our homes!"

New Play Staged By German Theatre

Boomer of Late Czar Heads "The King of the Crowd"



There still remains between Red Deer and Edmonton, a distance of Northern Ontario, a large tract of land with a fine agricultural record, in which the specimens may still seek a home in the virgin wilderness, and the recruitment and beautiful, health and opportunities for settlement. The caverns of the play. It is reported, was greatly enhanced by the accompanying parade of Ghosts and the preludes to the various scenes by the particularly harmonious and appropriate

Beer is British

The total number of bulk barrels of beer brewed during the year ended March 31, was 32,351,328 in England and Wales, 1,586,339 in Scotland, 2,504,296 in Ireland, making a total of 36,616,963. These figures were given officially in answer to a question in Parliamentary papers.

Mine Operators Organize

Operators of all mines in the prairie country of the Red Deer River region and in the production of domestic fuel, have Alberta Coal Operators' Association.

Believes Trans-Polar Flight is Feasible

Stefansson Says Northern Area Affords Excellent Flying Conditions

The British Air Ministry has been watching with keen interest Russia's endeavors to plan for crossing the North Pole in an airplane. Col. Sir Stanley Savage, the deputy director of the transport, told the Morning Post that the ministers regarded the projected flight which has now been abandoned, as a most extraordinary opening of her investing great risks inasmuch as the 2,000 miles route planned by the explorer is absolutely without landing facilities. Col. Edwards added that Vilhjalmur Stefansson who is now in England is convinced that a transpolar flight is an entirely feasible way of reaching the western side of the American continent, thereby shortening the journey by about three thousand miles. Stefansson said the popular conception of the north pole regions as an unbroving area of perpetual ice and snow is erroneous and that it affords excellent flying conditions.

Sweden Plans To Electrify Railway

Coast to Coast Line Will Cost Over Twelve Million

The first coast to coast railroad operated entirely by electricity, from Stockholm, on the Baltic Sea, to Gothenburg, on the North Sea, is being built in Sweden. The plant made to the Swedish Government by the Swedish State Railways, and that it be empowered to begin immediately the expenditure of the 25,000,000 crowns which have already been appropriated toward this project.

The line is the latest step in the great movement which has already resulted in the electrification of hundreds of miles of industrial railroads in Sweden, and at least 50 per cent of all the power used in Sweden.

The trunk line from Stockholm to Gothenburg, which carries heavy traffic, will be the principal power users, by nearly 300 miles in length. The work of electrification will be carried through within two years, says the Railway Administration, and it is hoped immediately the total cost will be about 47,000,000 crowns, or about $13,500,000.

Ordering by 'Phone

He had just returned from a cruise in central evening with some friends, to the east and the door by his wife.

"Where have you been?" she demanded.

"I've been at the dentists' party, my dear," he replied, breaking the ice.

"I've been at the dentists'."

"I say I have"

"I say you have not," she insisted; "I've been there myself, so I know you were not there."

"I say I've been," he answered, in resigned tones. "It's the late I've made up, and I'm going to stick to it."

Wins Valuable Scholarship

British Researcher Prize of $700 Given By Alberta Student

Julius Ferdinand Lehmann, B.Sc., M.Sc. (University of Alberta and of Prof. Lehmann at that institution, has received word from England of the awarding to him of a valuable scholarship or scientific research work.

The scholarships were founded out of proceeds of the 1851 London Exhibition and several are awarded each year throughout the empire including three awards to Canadian students. They are given for scientific research work in any branch of science, and are based on the decision of a committee sitting in London, England.

Mr. Lehmann's work was on "Hydrogenous sound vibrations," and he states that his research was conducted under the direction of Dr. R. D. Berry, of the University of Alberta.

U.S. and Britain

Must Join Hands to Save the World From Chaos

Responding to the toast "the British Empire and the United States," at the annual dinner of the Rhodes Scholarship Trust at Oxford, the Prime Minister, Rt. Hon. Stanley Baldwin, emphasized the need of Great Britain and the United States joining hands wherever duties called them throughout the world.

"I hope we are witnessing a new civilization of Western Europe rising to-day," he said, "and the whole world, consciously or unconsciously is looking for salvation to the British Empire and the United States."

"If there is building up to do in the world," continued the Premier, "it is we in the long run who will have to do it and the most whose task that will be will need the strength of Britain and the faith of a Lincoln," he said.

Invents Automatic Cannon

Rapid Firing Gun Can Be Used In Airplane

Invention of a rapid firing automatic gun, capable of firing one shell to the quarter pound shells at the rate of 120 a minute, has been perfected by John M Browning, of Ogden, noted inventor of firearms, it is announced by the Colt Patent Fire Arms Company.

The cannon, designed for use in airplanes, as well as on land or sea, according to Edward Browning, has a barrel which measures in diameter only one inch, and weighs 100 pounds when mounted on the tripod and ready for firing. It is operating without interference with the accuracy of the aim, he said. The invention is the manufacture of the type or grade of these products, which is certain to meet an important limit in locating and photographing many unknown Alaskan lakes.

Smoke discard the outer tissues their eyes when they coat of the skin

Utilization Of Flax Straw May Prove Of Very Great Importance To Western Canada

The way to obtain flax straw they be put, and to which is an increasing extent, is being put are commented on by the New York Times. The investigations that have been conducted in Winnipeg have attracted apparently considerable attention. The New York Times says

"Canada consumes annually about a fourth of the total amount of flax straw produced in the world. Of the remainder the producers of flax in the United States use a large part, but the rest is largely utilized in manufacturing processes in other countries.

"Flax straw is the source of the finest grade of paper, and the demand for it is thus practically unlimited. Its use for this purpose is hampered by the difficulty and expense of separating the fibre from the woody matter which surrounds it. The usual method is to soak the straw and a large amount of water is required. This is then passed through a series of rollers, the wood pulp is sent to the paper mill and the fibre is converted in Manitoba to take care of this new market.

"This is an interesting western commercial development, helping to meet the need for paper and the desire to utilize their products. The wood has been used in the past for fuel, and being the inevitable machine the fibre value at this interest for many years destroyed, even for fuel purposes. Special time owing to the Sanford Fibre Company, which is now operating a threshing operation in connection with its mills, has been able to save about the item of utilizing the waste straw and preparing material for the market and to prove that the commercial possibilities are there. Some years previously the Canadian Western Canada Pulp and Paper Company, operating another paper manufacturing plant, made experiments with a high grade of paper, but after a short time giving paper and manufacturing process. This research was carried to a semi-commercial scale but the cost of production of the pulp was too high for present purposes.

"Further investigations have been inaugurated by the Honorary Council for Scientific and Industrial Research in efforts to produce pulp from which a strong grade of newsprint could be manufactured. The two results have so far been abandoned.

"Today the production of these vast quantities of waste straw is source to considerable the Canadian Railway Age.

"Modern Canadian-owned and operated machinery has made possible the recovery of the linseed without destruction of the straw through a new form of threshing machine. This weighs 180 pounds when mounted on the tripod and can be moved from one position without interference with the accuracy of the aim, he said. The invention is the manufacture of the type or grade of these products, which is certain to meet an important limit in locating and photographing many unknown Alaskan lakes.

"Meantime a successful effort has been made in Manitoba near Winnipeg in the use of this straw for straw boards and other garden products are raised certain to meet an important limit in locating and photographing many unknown Alaskan lakes.

NINE HUNDRED MILES OF GAME

Air Service Between Spain and Argentina

Zeppelins Will Be Used In Trans Atlantic Service

Details of the first Atlantic air service between Spain and Argentina have been made public by the London Daily Chronicle.

The route to be followed is by way of Bordeaux, Dakar, Pernambuco, Rio de Janeiro and Montevideo to Buenos Aires.

The Argentine Government has already ordered twenty machines of the Breguet type, which will be used on the service.

Each will be capable of carrying 4,000 pounds of mails, besides a crew of three and a passenger.

The machines will be fitted with wireless and will be capable of flying at a speed of 120 miles an hour.

The service will operate between Bordeaux Buenos Aires, and Zeppelin airships will be used.

There will be terminal aerodromes at each end, with repair sheds and workshops for the use of the machines.

The machines will fly low over the Atlantic, only rising sufficiently to clear the mountains in the Argentine.

The passengers will be housed in the Argentine side of the Atlantic.

The largest will be those on a projected pan-Spain, because of the vast quantity of the mail. Four airships are being built to inaugurate the service, and it is anticipated that another will begin next summer. It also is probable that aerodromes will be made to link up Buenos Aires with London by an airplane service.

The airships, fitted with cabins or saloons, each developing 500 horsepower, will carry 60 passengers and 11 tons of mails and merchandise. There will be two "intermediate" flights a week in each direction, and the time taken to cross the Atlantic will be one day and 16 hours. Passengers will have all the comforts and air of an ocean liner without the disadvantages.

The ships will have a speed of 92 miles an hour. Zeppelin plans what is more than 1,000 miles of mail flights to their credit will be on board in operation. The chief duty ship will carry six pilots and a crew of 20.

Powerful wireless sets will be fitted into each ship, they it will be possible to keep in touch with weather stations on the coasts of Spain, Africa, America, the Canary Islands, the Cape Verde and Fernando Noronha, as well as with ships at sea.

Keep it ready to serve at home

When it is ice-cold, nothing else is so soon so pleasing to the home people, when unexpected guests drop in to call for just the family. And nothing is more convenient to serve—ordered by the case from your dealer like groceries, and a few bottles kept on ice in your refrigerator.

Now and more a favorite every year for 32 years—since the first Coca-Cola plant was established in Toronto in 1901.

Choicest products from new and modern sanitary plants, with sterilized bottles, makes it pure.

A Gentle Protest

Weather Man Does Not Always Regulate Matters to Sort

We have wanted a change in this southern part of the province but Al Ibsen says that's not the way to make up in two or three days for three or four years' drought. The weather man of this province lacks judgment. He goes to extremes. He has parched us until we longed for rain with a great longing. Then he has drowned us, discouraged us, and water logged our power plants. Our business men a few weeks ago implored the ministerial alchemy to pray for rain. Perhaps the still, small voice prevailed. Anyway, the genial Hatfield should have been on the job this year. His proposals would have been secure for all time. Those citizens along the Elbow may not be interested, disconsolate and ago

What the Heavy Rainfall Means

In this favoured year, when Alberta is receiving great rainfalls at the season when the rain is so beneficial to growing crops, a few figures as to what the rainfall means in gallons and pounds may be interesting. In [illegible] number of inches rain falls exceeding one inch in [illegible] th each have been [illegible]

One inch of rainfall on a square mile is equal to 2,323,200 cubic feet of water

One cubic foot of water is equal to 6.24 imperial gallons.

One cubic foot of water weighs 62.5 pounds

These figures are taken from the Dominion figures used in the Hydrometric Surveys in the Province of Alberta.

Average precipitation equivalent to rainfall in [illegible] inches or 145,000,000 pounds, per [illegible] miles. With these figures in mind it will be easy to understand why drought and lakes fill up, and why the rivers and streams are booming and in flood to accommodate the surplus water which the soil will not take up and which becomes "run-off" or waste.

Seven Sentence Sermons

Selfishness is to be found at the root of all the world's troubles.

If one people would rather so as one about Christ's teaching that to live it

It is the purpose of all true education to make life interesting rather than easy.

If your outlook is dark try an uplook.

You are helping the community you live in—either up or down.

Alberta will not be a good place for any of us to live in unless we make it a good place for all of us to live in.

Christianity has not been tried and found wanting; it has been found difficult and not tried

POWER OF SUGGESTION

A new device for saving passengers trouble has been adopted by the Dining Car Service of the Canadian National Railways. Throughout the coaches on all trains to which Dining and Cafe Cars are attached, little dodgers are now distributed before each meal, with several suggestions for a suitable combination of dishes. Those dodgers are printed in both English and French. This gives the patron of the Dining Car a little time to decide upon what he will order later, and eliminates the tiresome necessity of studying a large menu card. If the traveller is accustomed to eat a limit of price upon his meals, there is no need whatever to exceed it. The prices for a complete menus for Breakfast, Dinner and Supper are most moderate, ranging from 75c to $1.25. Having his choice accordingly to pocket book and appetite, upon entering the Dining Car, the traveller will find himself served as quietly and satisfactorily as he would be in any well appointed home.

Chautauqua Fully Up To Expectations

Splendid Programme Will Come Again Next Year

The 1923 Chautauqua opened on Friday, June 22nd and throughout the whole week the weather was perfect, a slight rain on the, the unanimous local opinion being that the general high standard of entertainment had been maintained.

Most of the Mercury readers were present and a detailed report of each programme is not attempted. Outstanding programmes of the week included the 6.07 Omer Kellner 66, Leslie Stanton 65, Arthur Beirnes 62 and Everett Hale 57, William Lewis 39.

Here and There

In 1923 Canada produced minerals estimated to be worth $160,000,000, an increase of practically $7 000,000 over the previous year.

A British silk manufacturing firm has decided to establish a silk factory in Montreal, Quebec city for the purpose of manufacturing silk yarn.

A train nearly a mile long and drawn by a single locomotive recently carried 250,000 bushels of grain on the Canadian Pacific lines.

Almost sixteen and a half million bushels of wheat were exported from the port of Vancouver during the period September 1, 1922, to May 31 of the present year, according to figures issued by the Merchants Exchange

Among the large number of unclaimed letters at the Ottawa Postoffice are two addressed to Mrs. Ida Bell" some months ago on her way coming to Canada to be married to various parts of the Dominion.

An official in charge of the cattle shipments from the Port of Montreal recently stated that nearly 40,000 head of store cattle were to be shipped from the port this year. He declared the rush seasons were in the months of August, September and October.

On her last eastward voyage the Canadian Pacific liner "Empress of Canada" established a new transPacific record of 6 days, 13 hours and 56 minutes from Yokohama to Vancouver. The previous record, 6 days, 18 hours and 31 minutes, had been held since 1915 by the "Empress of Russia" of the same line

If public deposits in banks and loan companies can be taken as a fair indication, the Canadian is the world's richest man, according to a statement made by F. J. Hatch, supervising president of the Ontario division of the Canadian Manufacturers' Association. These deposits amount to more than two billion dollars, or $250 per capita.

According to a report of the Dominion Bureau of Statistics, 67,274,160 tons of railway freight originated in Canada in 1922, and 26,557,631 was received from foreign connections, making a total of 93,831,791 originating. Also 62,346,579 tons terminated in Canada and 25,450,206 were delivered to foreign connections, making a total of 87,907,464 tons.

A distinct type of sheep, adapted to prairie range conditions and said to possess superior wool and mutton qualities, has been developed by H. C. Harvey, an Alberta sheep raiser. It will be known as the "Rommelet," and has been evolved after eight years' experimenting with crosses of the Rambouillet and Merino. Rambouillet. As evidence of the wool production from this species, Mr. Harvey's annual clip is 120,000 pounds.

That Canada was gradually becoming more and more of an industrial country, and that Canadians themselves were not truly aware of the fact, was the opinion expressed before the Rotary Rotary Club by Prof. R. C. Wallace, of Queen's University, Kingston. He stated that during the past twenty-five years the population of Canada had increased 80 per cent, the railway mileage 100 per cent, while the industrial life of the country increased 700 per cent.

St. Hyacinthe, Que., has the distinction of having developed the world's largest cheese plant, and by native invention and improvements evolved an instrument which receives praise from the world's first artists. An organ recently shipped by Canadian Press of that place to Paris, France, is absolutely the first to leave this American continent for Europe, the movement having heretofore been in the opposite direction, and was so shipped because the purchaser desired the finest instrument that could be secured.

Canada Confident of the Future

CANADA is endeavoring to regain her place after the war stride in the midst of many difficulties. — debt, deflation and depression being some of them.

Quack remedies and academic theories beset her path on every side. Some suggest that our debt worries can best be eased by going further into debt. Others preach blue runs, decry their own country and indulge in mischievous propaganda generally, while still others look for a new social order or some miraculous sign to indicate a better coming day—all this in apparent forgetfulness of the fact that just as there was no royal road to win the war, there is now no royal road to pay for it or regain our former buoyancy, vigor and confidence.

Some are leaving Canada hoping to escape taxation, only to find there is no escape anywhere. In seeking for easy remedies too many of us overlook the fact that the greatest remedy is honest, hard work faithfully and intelligently performed, accompanied by old-fashioned thrift.

It takes time, it takes patience, it takes grit. But every Canadian knows in his heart that Canada is coming through all right.

Our Experience Proves It

Look back over the path Canada has trod. The French Colonists, cut off from civilization by 3,000 miles of sea, faced a continent—a wilderness—without the aid of even a blazed trail. They had to fight savages, fronts, scurvy, loneliness and starvation.

The United Empire Loyalists subdued an unbroken forest in one generation, growing their first wheat amid the stumps and snags of the new clearing.

The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture, and grew wheat where none had grown before and where those who knew the country best at that time said wheat would never grow. Today the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands to-day among the wealthiest nations in the world, with average savings on deposit per family of $800. Canada's foreign trade per head of population stands amongst the highest of the commercial nations, being $182 per capita in 1922-23, as compared with $133 in 1913-14, the "peak" year before the war.

New Opportunities for Canada

In Canada, although prices in the world markets fell below our level, our farmers reaped last summer the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus in large measure making up for lower prices.

Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is opened up for our Canadian stockers and feeders.

"The 20th Century belongs to Canada"—if Canadians keep faith.

The next article will suggest practical opportunities for profit making on our Canadian farms.

Have Faith in Canada

Methods Used To Secure Best Results In Making Hay From Clover Or Alfalfa

One of the difficulties in the way of the adoption of sweet clover and alfalfa in many districts throughout the west is the fact that they are more difficult to handle in curing for hay than the grasses. They are much harder to dry out and more subject to damage. While it is hardly accurate to consider the two crops in the same way yet there is enough similarity that the same treatment may be given we both. The difference is one of degree rather than kind. Sweet clover presents the same kind of difficulties as alfalfa but to a more pronounced degree.

These difficulties are due to a very heavy juicy stem which is slow to dry out and to the leaves which dry very quickly and when dry become brittle and break off the stems. The stems of the sweet clover being much larger and juicier than those of the alfalfa and the leaves lower, the difficulty is greatly increased with that crop.

The most difficulties are by no means insurmountable. They have been proved beyond doubt that many growers of these crops will undoubtedly they have to be handled differently. But if they are handled properly suitable at last can be made into the very finest quality of hay and about twice into what is at least reasonable for one and a half tons.

The crucial point in curing is the prevention of too rapid drying of the leaves. Experiments have at least been reported before the green fodder began and other

Fox Farming In B.C.

Woman Is Pioneer In Profitable Industry At Coast

Vancouver Island is ideal for the breeding of high grade foxes, according to Mrs. Desmond Boggs, who, (mark), three years ago established the first fox farm on the island. The farm is owned and managed by Mrs. Boggs and her daughter.

With an intimate knowledge of conditions on Prince Edward Island, they have taken an intense interest in the raising and care of their furry charges. Not a single fox has been lost through disease or accident.

Chased and worried nearly out of existence in its wild state, Mrs. Boggs declares, the fox is found an easy and well-cared for life in captivity, and has a pal less death in chloroform.

There are now three fox farms on Vancouver Island, and they have all proved the possibility of making the industry profitable

"Golden Age of Medicine"

Bronch Modern Officer Says Progress Controlled By Modern Methods

Modern progress typhus, typhoid smallpox, tuberculosis and malaria have at least become controllable, says Sir George Newman, Chief Medical Officer of the Health of Britain's people. The antitoxin treatment of diphtheria has reduced the case mortality of this disease from 29 p.er cent in 1890 to 9.2 per cent in 1922, which means that 200 additional children are saved each year. In 1871 exactly seven people died from each 1,000 of the population, in 1922 it was 12 in each 1,000.

We are living in the golden age of medicine" says Sir George. "Experiment is rapidly liberating the force of disease and replacing it by the power and confidence of health. Health is assisted by fresh air and sunlight in dwellings, sanitation at workshops, and the pure water supply and the isolation of infectious persons. The secret of this is merely the fact that we are child born today has an expectation of 12 years more life than a child born 50 years ago."

Tiny Pueblo Indians Working On Railway

United States Road Finds Them Efficient and Satisfactory

Four hundred Pueblo Indians today are being employed by the Santa Fe Transportation Company To Balance Company, and averaging 30 cents an hour for eight hours' work. United States Army officers, and their own leaders appointed by The Chiefs, direct them. Their tasks are proved entirely satisfactory, and other employees of the system. The Pueblos are employed not only as laborers and helpers, but also a number of them are employed as engineers, in charge of their own people. Language problems are unskilled laborers.

May Change Religion To Escape Tyranny

Lower Caste Hindus in Madras Are Considering Step

A strange state of affairs is reported from the west coast of Madras where, in the hope of escaping the tyranny of higher caste Hindus, which is more oppressive there than elsewhere also in India, the so-called "untouchables" of the Thiyya community are seriously thinking of changing their religion en masse. Indeed at a recent conference of the members of this community the number rose to a quarter of a million the president suggested that they should become Buddhists, and the proposal is to be taken up for further consideration at a larger conference.

Old Quaker Meeting House

Forms Building in Maryland Erected 230 Years Ago

What is said to be the oldest frame building in the United States is the Quaker meeting house at Third Haven, Talbot county, Maryland, which has been in constant use since 1684, giving the oldest congregation in the country. It is said that William Penn attended a meeting there on one occasion, and he was residing with the Indians. The only preservative used on the wood exterior has been whitewash on the outside. Given at the original building stone and the woodwork hewn from the forests of the county.

Something About Gardens

A lady who greatly admired the beauty of a garden in a new suburb with flowering beds surrounded by hedges about another. The hedges turned out to be privet, and the beds were filled with cabbages and cauliflowers.

Egg-Laying Contest

Last year a total of 3,100 birds were entered in the laying contests conducted by the Dominion Experimental Farms and these birds and their eggs, giving an average of 181 eggs per bird. The average production of British Columbia and with 183 eggs per bird, Ontario second with 182.3 eggs, and the Canadian contest conducted at Ottawa, third, with 167 eggs.

Settlers From U.S.

Bringing with them effects to the value of $78,151, and monetary wealth totally $242,151, approximately 300 settlers from the United States came to Canada between Kingsgate and North Portal during April, according to the Federal Government immigration report.

Forest Fire Extinguished

Woman Is Credited With Stopping Conflagration

Mrs. Ida Grove, a woman living in the Cascade Mountains, is credited with extinguishing a forest fire which threatened the town of Index, Washington. Mrs. Grove, who lives alone in the mountains, was awakened by the roar of the flames and saw that the fire was approaching her cabin. She ran to the nearest stream, filled a bucket with water and threw it on the flames. Then she filled the bucket again and again, and kept it up until the fire was extinguished.

Lower Bobby Might Have Arrested Prince

Navy Apparent Forgot Latchkey and Couldn't Get In

How the Prince of Wales broke Admiral Prince into the night is told in the Navy Record in the News of the World.

He arrived at his palace early in the morning. A policeman saw him standing around for some minutes, and thought he was a suspicious character, and was about to arrest the Prince. But he recognized the heir to the throne.

The bobby then peeped in the search light and in a few moments the policeman heard a crash. The Prince had climbed in a low roof through a window, and had dropped through into his bedroom.

THIN, IMPURE BLOOD
Means a General Weakness and Loss of Health

If people would realize the import ance of keeping the blood rich and pure there would be less sickness. The blood is the main thing which builds up the body and keeps it strong. Every muscle, every nerve, every bone in the body depends upon the blood for its nourishment. If the blood is thin and watery the power of resistance to disease is lessened. You are weak and run down. If your blood is rich and pure you have a good appetite and are strong. Your nerves are steady, your muscles are firm and you are full of energy. Dr. Williams' Pink Pills for Pale People are the best blood builder and nerve tonic known to medicine. They actually make new blood, and that is why they are so successful in curing such troubles as anaemia, indigestion, rheumatism, neuralgia, sciatica, kidney troubles, and the ailments of growing girls and women. Mrs. Adam Thompson, Lumsden, Sask., says: "I was in a very weak and run down condition. I had no appetite, and was troubled with indigestion. I had pains in my back and sides, and was very nervous. I was advised to try Dr. Williams' Pink Pills for Pale People, and after using a few boxes I felt much better. I continued using the pills for some time, and now I am strong and well again and feel that I have a good blood. I am sure Dr. Williams' Pink Pills for Pale People are an ideal blood-builder." You can get these pills through any dealer in medicine or by mail postpaid at 50 cents a box, from Dr. Williams' Medicine Co., Brockville, Ont.

Ancient Ink Preserved

From earliest times writing ink has been made basically either with soot or lampblack mixed with gum and honey or with gallic acid, sulphate of iron and gum. Ink of the latter kind was found among the ruins of Pompeii, still liquid after having remained unused for nearly the equivalent of 1,700 years.

Mother and children are troubled with worms. Mother Graves' Worm Exterminator will destroy worms and relieve the little sufferers. Mother Graves' Worm Exterminator is safe and sure. Try it.

Local and General

The latest accounting of the chautauqua finances gives the following result: Local guarantee total $250-18 of which $41.50 has been recorded leaving a deficit of $126.75. To raise this amount the guarantors are being asked by circular letter to contribute two dollars each.

The regular social meeting of the Tofield Womens Institute will be held Tuesday July 10th will take the form of a picnic at Mrs. John Warner Members are asked to bring their lunch at 2 p.m. to the Institute rooms Cars will call there to take them to the Warner home.

Mrs. Parries wishes to inform the ladies of Tofield and district that she has accepted the agency for the California Perfume Co., of Montreal. Mrs. Parries will be pleased to show her samples of perfumes, toilet articles etc. and to take orders.

Congratulations have been read that Dr. and Mrs. Worthington, Edmonton, announce the birth of a son on the 4th.

Miss Lenore Johnson of Ryley is a guest at the Wood home.

Miss Evelyn Trant and her friend Gertrude Allen came down on Saturday morning to stay at the Ranch during the holidays.

Mrs. E. P. Rowe and children left on Saturday night for Lacombe, B. L., to join Mr. Rowe who is in partnership with Mr. Chambers. Mr. and Mrs. Rowe have been residents of Tofield for some time and their departure is a matter of general regret.

Mr. and Mrs. F. G. Young visited Edmonton on Monday.

Miss Reith, one of the earliest school teachers, 12 years ago, went through Tofield on Friday morning, June 29th on her way to South Africa where she will teach for a year.

Mr Smith is now relief operator at Station while Mr. Stott is on his holidays.

A meeting of farmers was held at the Edmonton City Dairy office on Wednesday relative to the action of the company in ceasing to buy inspected cream, this action it was explained was due to the supply being larger than the demand. Messrs. Warner and Morton were appointed to go to Edmonton and interview the manager of the company in regard to the matter.

Don't fail to see "A son of Wallingford at the Variety on Wednesday next.

Owing to a heavy demand on our space we are compelled to omit the usual church notices. Services will be held at the United church and Ketchamont as usual and other rural churches as announced.

CARD OF THANKS

Mr and Mrs. W. F. H. Swinson and all express their thanks and appreciation to the kind friends for their kindness and sympathy in their recent bereavement.

Ketchamont News

Chautauqua has come and gone, and was very much enjoyed by most of our residents. While the weather was very much unsettled and roads muddy the farmers know the crops and gardens were coming along fine, and lots of grass for the stock. Some houses work was a little neglected and when the band couldn't get through the grass could not. Many did not miss a session. We are pleased to hear it is coming back next year and it is rumored the big tent may set up at the Herds siding. Here's hoping it will.

Mrs Hugh Mitchell and Ralph Barns were passengers to Edmonton on Tuesday. Mrs. Mitchell went to see an old friend, Mrs T Chinnick, who was very ill and passed away on Monday morning. Many old time friends regret very much to hear of the death of Mrs. Chinnick as she was well known throughout our district and much loved by all who knew her.

Mr. Marsh Mitchell has an easy way of milking these days as he has invested in a milking machine, the first in this district.

Mrs H. Mitchell Sr. returned from Edmonton on Saturday evening, accompanied by Miss Irene McKeen who was her guest over Sunday and Monday.

Miss Emma Brehm spent Chautauqua week with her sister, Mrs. Henry McIntosh.

Mr. Burkholderes have been breaking for Mr. F. Hull and Mr. Hull has begun seeding.

Miss Jean Dickson closed a successful term of school on Thursday. Both parents and pupils are glad to hear that she will arrive in the fall to take up duties again.

BARBO

Born—To Mr. and Mrs. Geo. Hendrickson at Sonstelle on June 27th, a son.

Mrs. Lars Halstead is in the hospital at Camrose. The baby is being cared for by Mrs. T. B. Anderson home, and little Kenneth is staying with his aunt Mrs Iver Moen.

Several car loads of ladies motored to the Halstead home 9 miles north of Ryley for their last meeting in June. All enjoyed meeting with this retiring lady whom we miss from our midst.

Mrs. Geo. Lawson and children attended the young people meeting at the Luther on church Sunday evening There was a very good programme, a vocal solo by Miss Stein and Ole Bartness was very much enjoyed.

Mr. Parker and Mrs. H. Lawson attended the Aid meeting at Ketchamont last week.

On Sunday Mr. and Mrs. W. E. Parker, Hazel, Mr Halstead and Geo Moen, went to Camrose to see Mrs. Halstad. They found her very much improved. She is hoping to be able to return home this week.

Those who were able to attend chautauqua from here reported a very good programme.

Mr. and Mrs. P. B. Anderson visited their daughter and new grandson in Vermilion last week.

Barbo and Grand Forks school closed on Friday.

FOUND—Auto license plate No. 7 238. Owner can have same by proving property. Mercury Office Tofield.

"Divorce Coupons"
A tale of the Sixth blended with life in New York. The best dressed woman of the screen in new creations that will appeal to the women. A drama of heart interest that will appeal to all.
She went to the woman who loved her husband and asked that woman to help her win back his love. The man had gone astray because he had lost faith in his wife. She had foolishly written a letter before marriage that told she was marrying the man for money. There was a tragedy and then the dawn of a new day.

THE TOFIELD MERCURY

VOL. IV. NO. 16 TOFIELD, ALBERTA, THURSDAY, JULY 12, 1923 SUBSCRIPTION IN CANADA $1.50 a year

D. W. Warner, M.P. Gives 'Mercury Interview

Mr. D. W. Warner, M. P. was a visitor at the Dodds and Warner houses this week and being requested by a representative of the Mercury kindly consented to give an interview for the benefit of our readers.

Mr. Warner's interview referred mostly to the last session of the federal house. He stated in part that the western members had presented the western view point at Ottawa better than it had been presented before. He regretted that the senate turned down the branch line programme and believed they played politics. Parliament wanted to help the country, also national railway by providing feeders to main line. The house felt that could not taken too much responsibility. Alberta has anthracite coal but no means of shipping it out. People in the east were pleased with Alberta soft coal, but he did not hope for the $6.00 rate. Government doing all they can to have Ontario a market for Alberta coal, but mine owners

Tofield Win From Vegreville and Chipman

Two league games were played by the local team this week, the first on Friday with Vegreville and the second on Tuesday with Chipman, the locals winning both games.

VEGREVILLE vs TOFIELD

The Vegreville game on Friday was only won by a one run margin but Tofield seemed the better team of the two throughout. Scott as pitcher, did excellent work and although Vegreville changed their pitcher, they were unable to cut close our youthful twirler. First inning, Vegreville in bat, three men out, no score. Tofield batting, one run, lasing closed with a splendid catch by Vegreville. Second inning no runs, play very close. Third inning, Vegreville to bat, one run, good catch by McGuire closed inning and put out two men. Tofield batting, Frank Bell sends out a dandy but was caught out. Fourth inning Vegreville bat ting, no runs. Tofield batting, Hetland, Mellgaard and Scott all make home runs putting Tofield well in the lead. Fifth inning Vegreville batting, one run. Tofield batting, no runs. No further runs were made until first half of the ninth when two men scored for Vegreville, making the score 4 in favor of Tofield. The line up for Tofield was, Scott Lee, pitcher, C. Rude, F. Ball, Calderr, Lawson, Oxford, McGugan and Jack Lee, Umpire, George Agnew.

CHIPMAN vs TOFIELD

This game played on Tuesday was of a more spectacular nature. Chipman players and supporters were looking desperate

(continued on back page)

were expected to do a little in bringing the pairs down. Only last, coal should be shipped, however, no poor coal would not stand the long journey. Progressives believe they have done something towards reduction freight rates, opening the western grain route by appropriations to construct terminal elevators at Edmonton and the $5,000,000 loan to the Hudson Bay Railroad at Vancouver for elevator construction. This will greatly help western grain market. Some progress has been made in the bank act and though the interest rates have not been reduced it will cost less to do business with the banks. The banks will do all they can to give relief. Progressives on the whole did good work, advocating the extension of encouragement, on this matter Mr. Warner spoke at some length in the house.

A Journey Through The Maritimes

Ekerna's Note—Our report of the Canadian Weekly Newspaper Association Tour of the Maritime provinces is too lengthy for us to insert in one issue. However, in order to give the reader a comprehensive idea of the whole journey, we are appending an outline of the entire trip. Leaving Toronto at 3 p.m. Thursday a route was taken that passed through Montreal on to Fredericton, thence to St. John. From St. John across the Bay of Fundy to Digby, thence to Halifax. Leaving Halifax Tuesday evening, a run to Sydney was taken, thence to Ioan by boat through the Bras d'Or Lakes and on to New Glasgow, thence to Truro, Amerst, Sackville, Borden, and across the straits to Prince Edward Island, visiting Summerside and Charlottetown Back to Borden and on to Moncton, New castle, Campbelton, Quebec, Montreal and Toronto.

On Thursday, June 14th, a party numbering over 150 news paper people entrained at Toronto enroute for Halifax. At Montreal a further number joined the train at Montreal, the whole group comprising nearly 200 people. The train a C. P. R one, was all that could be desired in the way of comfort and the staff were most attentive.

The first stop was at Fredericton the capital city of New Brunswick. Here a reception committee were ready with cars and immediately drove the party to the basement of a splendid church where a banquet was all in readiness, and to which the newspaper men and ladies did full justice Following the banquet addresses of welcome were given by Fredericton's deputy mayor and responded to by the President of the C.W.N.A. The party were then driven around the city across the river to Marysville and returning, afterwards attended a reception by Premier Veniot and his government, at the Parliament building, this being followed by dance. Fredericton is a city both beautiful and historical The ancient elm tree combined with handsome and solid street ares were a delight to the western members especially. In the St. John river, Fredericton has both beauty and utility combined. The city did not appear to be a hive of industry, but rather a beautiful spot to reside in providing one could arrange the problem of existence satisfactorily with the grocer. The maritime provinces as a whole claim they are suffering under an injustice due to the refusal of the government to reinstate freight privileges that were granted them at confederation and in consideration of which they joined confederation These privileges were voluntarily relinquished as a war measure. Rapidly the distance from Ontario, manufacturing centres is a great disadvantage, as freight charges on coal and raw products makes it next to impossible for them to sell in competition with the Americans cities by side-water but their products are barred by a high tariff. While there is some talk of secession, where conjecture will undoubtedly prevail. Nevertheless, their geographical location demand that they should receive every consideration possible at the hands of the Dominion government. The people of Fredericton were kind and courteous to the nth degree and this beautiful city will long be remembered by those who were fortunate enough to visit it on June 15th 1923.

Gas Bylaw Given Two Readings

A regular meeting of the Tofield Council was held at the town hall on Monday evening there being present, Mayor McCauley, Councillors Bruce, Chapman, North, Swift and Worton.

D. B. Ball interviewed council re quarantine conditions, the matter being referred to the Medical Health Officer.

Mr. Garrett was present and the bylaw giving the North Western Utilities Ltd a ten year franchise to supply gas to the town and its inhabitants was read a first and second time To a bylaw along with the mem orandum of agreement is published in this issue, and at time of writing has been passed by the Public Utilities Commission at Edmonton.

The resignation of Councillor Dixon which was handed in some months ago, was accepted, and the secretary authorized to arrange for a nomination and election to fill the vacant position.

It was announced that C. B. Ellis had suggested studying main street by public enterprise and voluntary effort. The council readily fell in with the suggestion and authorized J. Chapman to make the necessary arrangements.

Automobile races meting out their usual thrills and sensations are scheduled to open the big Edmonton Exhibition at Edmonton again this year. Secretary Stark has just completed negotiations with the International Motor Contest Association for an official sanction and the races this year will sign a big closed as championship Points will be awarded to the winners of the events which will go to the award deciding the champion of Canada and of the world for this season.

James Isbercund and Louie, who will appear at the Variety Theatre next week, as formerly Winnipeg's leading burlesque and vocal teacher.

A Budget of Local and Interesting Items

We may call attention to the advertisement in our last issue by the Federal Department of Agriculture. It is more than an advertisement, it is a call to united and cheerful effort, a summons to the Canadian spirit of the "will to win" which has burned so brightly throughout Canada's history, a spirit which is no less well shown in a message received in Ottawa only a few days ago from one of the four most farmers of the Province of Alberta. He says: It started to rain the last part of the week, and this coming after the record heavy rains has put the soil in such a condition that it has not been in at this time of the year since 1916. He farms a large area, consequently very jubilant and if optimism could pay debts the farmers of Southern Alberta could by next fall rid of our Nats and Bugs.

Some time ago the question of rendering Main street was discussed by council, and at that time it was felt that the cost was more than the council could afford to spend. The suggestion has been made and adopted that the street be rendered by public enterprise and voluntary effort. The ratepayers are asked to turn out on Tuesday after noon next armed with a shovel and help improve the street

Doctor of the Bank of Montreal staff and Dr. Simpson are mentoring through the north country. They will visit Davies house at McLeod

Intelligent & Persistent Advertising Assuredly Pays. This Space for Sale for a Short Period

Gas Bylaw to be Voted on August 3rd

The by law empowering the council to give a ten years franchise to the Northwestern Utilities, Ltd. will be presented to the ratepayers, on August 3rd A two thirds majority is required to pass the measure. Present indications are that it will be very favorably received

Work on the pipe line that will bring the gas from the Viking field to Edmonton will be under way in the very near future As the pipe line will pass through Tofield or in the near proximity of the town, the citizens of Tofield are very much interested in the progress of the construction. The contractors of the section which is from Viking to Edmonton have been let. Williams Brothers pipe line contractors of long experience, who will work under the direct supervision of the Northwestern Utilities Ltd

The pressure of the gas wells is about 740 pounds to the square inch, which is a great deal more than is required to force it through the high pressure line which will bring the gas to Edmonton

HAIL INSURANCE

THE RECENT rains have created a spirit of optimism as well as saving the crop from damage by drought.

FARMERS SHOULD further protect their crop by insuring it against loss by hail.

SUMMER EXCURSION FARES EAST

ROUND TRIP FARES TO POINTS IN EASTERN CANADA VIA C.P.R.

The Canadian Pacific Railway have announced a reduction in the summer excursion fares to points in Eastern Canada. These fares have a limit of return to Jan. 31, 1923. The improvement and are applicable all rail [illegible] Lakes steamers from Port William or Port Arthur to Port McNicoll or Owen Sound on payment of additional charge in cover meals and berth while on the boat.

The trip East via the lakes is delightful one for the time, offering all the comforts of ocean travel at a saving of its discomforts, the fresh lake breezes being charging, very appetizing so that of your bo boat days, and per cent full parlor being done to the appointing meals.

To those preferring travel by train, the Canadian Pacific offer three trains daily, including the fast All Canada Car Trains the Trans Canada Limited

Ask the Canadian Pacific Agent for illustrated travel folders and rates Canada literature, and plan your trip now. 16-23

Exports of Wheat

Total exports of wheat from Canada during the nine months ending May 31, 1922, were 187,760,766 bushels, valued at $207,312,321, as compared with 125,715,822 bushels, valued at $152,529,307, during the similar nine months a year ago. The total exports of wheat flour for the nine months were 6,732,161 barrels value $40,111,522, compared with 6,026,615 barrels, valued at $38,726,264 in the nine months a year ago.

Helpful to Settlers

To assist in the movement of settlers to Western Canada, a reduction of approximately one-third in the freight rates on settlers' effects to both Canadian Pacific and Canadian National Railways has been announced.

Will Erect Oil Refinery

Faith in the ultimate discovery of a commercial oil flow in Southern Alberta is further indicated in the action of a city at Lethbridge for an oil refinery which is to be established to handle Montana crude oil until there are Southern Alberta producing wells.

Stinnes's Lieutenant for Dandruff

OFFICER COULD HARDLY STAND UP

Arthur Taylor, 424 Euclid St., Montreal, a soldier who served overseas, says: "I have suffered immensely with rheumatism in another way, and have tried many remedies without relief.

"My experience with Tanlac has been such a great surprise that I feel I owe it to my fellow sufferers to tell them about it. For a time, the rheumatism has left me practically helpless. I suffered from inflammation in my joints and muscles and was in such bad shape that I could hardly stand on my own feet.

"A friend told me about Tanlac and decided I must experiment from so many people praising it that I finally agreed to try the medicine myself. In a few days, the treatment has rid me of rheumatism completely and has me feeling perfectly well in every way now. Yes, Tanlac has been an even greater blessing to me than I had expected, and I am glad to give it my highest endorsement."

Tanlac is for sale by all good drug stores. Accept no substitute. Over a million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale at all drug stores.

Sweater Jackets

The vogue for sweater jackets is exploiting many unique and novel ideas. This one is most attractive in orchid with deep violet silk ribbing through combined with a white Cardigan stripe knitted silk. The ball is fastened by the fringed end of the sash. Nothing could be more chic than this ensemble.

Whether for every day wear or for growth, it must yield to Holloway's Corn Remover.

A Forest Conservationist

Jack Miner Helps Other Things As Well As Geese

"I am a forest conservationist first last and all the time" said Jack Miner the noted wild fowl adherent in a recent interview. "I was couldn't eat fast enough to give me a home where I could live unmolested. I want it given me with a home where I can live unmolested. I want it given me with a home where I can live unmolested. I want it given me with a home where I can

Local and General

Mr. and Mrs. Hannan and Bud arrived home from a months visit to the Pacific coast. They travelled by auto and report a splendid holiday.

Dr. and Mrs. Hills and family of Moosejaw Park visited at the Donald Lamont on Tuesday. Mr. Hills is Mr. Foreman's sister Mrs. F. D. Foster of Hardisty accompanied them.

Donald McLaughlin the young son of Mr. and Mrs. Geo. McLaughlin, met with a painful and serious accident on Monday night. The lad was playing on the judges box at the fair grounds when he fell breaking his arm. Dr. Hain was called and set the broken limb and the following morning took the patient to an Edmonton hospital. Last reports are that he was progressing as well as can be expected.

The Misses Minnie and Mabel Wood are holidaying at Calahoo Alta.

C. Smith, formerly Dominion Bank manager here, is visiting at the McClurg home.

Miss May Abbott of Foam Lake, Sask., was a guest at the McCauley house, this week.

Al Innes left on Wednesday night enroute for California.

Miss Marjorie Mahaffey visited this week with her friend Mrs. Church, at Wainwright.

Mrs. Parkin wishes to inform the ladies of Tofield and district that she has accepted the agency for the California Perfume Co., of Montreal. Mrs. Parkin will be pleased to show her samples of perfumes, toilet articles etc, and to accept orders.

Baseball

Continued from front page

to win and apparently feeling keenly any reverses received during the progress of the game. The teams were well matched and it was nip and tuck until near the close of the game. Arriving at the second half of the ninth inning, reporter finds Tofield batting, from which innings Tofield chalks up three runs, Scott Lee, Bert Calvert and ——— getting home. There was no further score until the first of the eighth when Chipman ran in three. There was no more scoring the final result being 5-3 in favor of Tofield. A feature of the game was the splendid catches out in the field. Fielders of both teams catching several. The Chipman pitcher caught two bullet like balls right from the bat, earning the plaudits of the crowd. F. Ball pitched the last half of the game. Frank is a good sport, and steps in anywhere on the team and makes good, always coming up smiling. The line-up was as follows, Pitchers, Lee and Ball; Rude, Lawson, Seal, Calvert, Okland, Lerbekmo, Jack Lee and Redshaugh. Umpire, Irving Agnew.

Accuracy Essential

Perhaps in no other line of endeavor is accuracy brought to such perfection as in the making of watches. When they break as they occasionally do, only experienced workmen should be allowed to repair them. We are thoroughly experienced and competent to repair all classes of watches and clocks and guarantee satisfactory work.

BY-LAW NO. 190 OF THE TOWN OF TOFIELD

By-Law To Grant Northwestern Utilities, Limited, a Special Franchise For The Supply of Natural Gas to The Town of Tofield and the Inhabitants Thereof.

WHEREAS Northwestern Utilities, Limited, has requested the Council of the Town of Tofield to grant it the right to supply natural gas for the use of the inhabitants thereof;

AND WHEREAS for the purpose aforesaid the Council of the Town of Tofield deems it expedient to enter into an agreement with the said Company as set forth in the Memorandum of Agreement hereto annexed and called "Schedule A";

AND WHEREAS the said Council deems it expedient to pass this BY-LAW for the purpose aforesaid;

NOW THEREFORE the Council of the Town of Tofield duly assembled enacts as follows:—

1. That the Corporation of the Town of Tofield hereby grants to the Northwestern Utilities, Limited, a special franchise to supply natural gas for the term and subject to the terms and conditions in the said Memorandum of Agreement (a copy of which is hereto annexed) pursuant to the said Northwestern Utilities, Limited, subject to all the covenants, conditions, provisions, restrictions, penalties and other terms fully set forth in the said Memorandum.

2. After the final passing of this By-Law the Mayor and Secretary-Treasurer of the Town are hereby authorized and empowered to execute the Memorandum of Agreement in the terms of the said Schedule A" hereto, and on behalf of the said Town of Tofield.

3. This By-Law shall take effect on the final passing thereof.

4. John W. Chapman of the Town of Tofield, Secretary-Treasurer is hereby appointed Returning Officer for the purpose of taking the votes of the ratepayers on this By-Law.

5. The votes of the Ratepayers for and against this By-Law shall be taken at the Town Hall, Tofield, on Friday the Third day of August A.D. 1923, from the hour of nine o'clock a.m. until the hour of seven o'clock p.m.

6. The Council Chamber, at the hour of twelve o'clock noon, on Saturday the Fourth day of August 1923, is hereby fixed as the time when and the place where the Returning Officer shall sum up the number of votes given for and against this By-Law.

Read the first time this 9th day of July A.D. 1923.

Read the second time this 9th day of July A.D. 1923.

"Schedule A." to By-Law No. 190 of The Town of Tofield

This Memorandum of Agreement Between: The Town of Tofield, in the Province of Alberta, hereinafter called "The Town,"

Of the First Part.

—and—

Northwestern Utilities, Limited, hereinafter called "The Company,"

Of the Second Part.

WITNESSETH that the parties hereto mutually covenant and agree each with each other as follows:—

1. The Town hereby grants to the Company, its successors and assigns, subject to the terms and conditions hereinafter contained, A SPECIAL FRANCHISE with the full power, right and liberty to put down, take up, re-lay, connect, disconnect, repair, maintain, and operate gas pipe lines along, through or under the streets, highways, lanes, alleys and other public places within the limits of the Town, as the same may be from time to time extended, as may be necessary or convenient for the purpose of supplying and selling natural gas to consumers thereof within the Town, and the Company is to that end authorized to enter upon any and all the said places and to break up their own expense the surface thereof to make the necessary excavations thereon when and where the same may be required for the purposes aforesaid and to do all such things reasonably necessary or convenient for the supplying of natural gas to the inhabitants of the Town, and laying down, taking up, repairing and maintaining its gas pipe lines as aforesaid.

2. The Company agrees with the Town that it will do as little damage as may be in the execution of the powers hereby granted, and will cause as little obstructions as possible during the progress of the work and at all other times, and will restore the streets, highways, lanes, alleys and other places within the limits of the Town to their proper condition and will protect and indemnify the Town against any damages or expenses in connection therewith. The Company further agrees that it will follow all such reasonable directions as may from time to time be given by the Council of the Town as to the location of its pipe lines and the manner in which its work shall be carried on.

3. Should the Company fail to construct the said pipe lines and be ready to commence the sale of natural gas within the Town before the first day of January A.D. 1924, all the rights and privileges hereby granted shall cease and determine; Provided that the Council of the Town may extend the time for the construction of the said lines. The Company shall supply as much gas as may be required within the limits of the Town and subject to prior claims if any of the City of Edmonton at the property line where the places or buildings to be supplied with natural gas are situated on land lying along the line of any street main of the Company, and the cost of the necessary connections from the main to the property line shall be borne by the Company, and the Company shall furnish free of charge to each consumer a gas meter to accurately measure all natural gas consumed, and the property line shall be the place of delivery of all natural gas supplied to the Town and all expense and risk in utilizing and using such gas after delivery at the property line shall be borne by the consumer.

4. The price to be charged by the Company for natural gas within the Town shall be the sum of fifty cents (50c) per 1000 cubic feet for natural gas used for domestic purposes and thirty-three cents (33c) per 1000 cubic feet for gas used for any other purpose. Provided, however, that there shall be a rebate of three cents (3c) per one thousand cubic feet for gas supplied

for any other purposes in the event of the bill for same being paid within twenty days after the mailing thereof. Provided further that the prices and rates to be charged by the Company shall be subject to revision from time to time by the Board of Public Utility Commissioners but in no event shall the price after deduction of rebate be less than the price charged after deduction of rebate in the City of Edmonton for similar service.

5. The Town agrees that it will not for a period of ten (10) years grant to any other person, firm or corporation the right to lay pipe in its streets, highways, lanes, alleys and other public places for the purpose of supplying natural gas in the Town for any purpose, so long as the Company supplies the reasonable requirements of the inhabitants of the Town with natural gas.

6. It is further agreed that at the expiration of the term hereof, this contract may be renewed for a period not exceeding ten years and so on from time to time; with such alterations, if any, as may be agreed upon by the parties and approved by the Board of Public Utility Commissioners, and that, if either party refuses to renew such contract, or if the parties fail to agree as to the conditions of such renewal, then the Town may purchase all the rights of the Company in all matters and things under the contract and in all apparatus and property used for the purpose of supplying gas to the inhabitants of the Town for such price and on such terms as may be agreed upon with the Company, or, failing such agreement, then for such price and on such terms as may be fixed and settled by the Board of Public Utility Commissioners, on the application of either of the parties hereof.

7. This agreement is intended to operate as a consent by the Town to the exercise by the Company of powers, rights, liberties and franchises herein contained according to the terms hereof, and of the powers which may be exercised by the Company under and by virtue of "The Water, Gas, Electric, and Telephone Companies Act" being Chaper 168 of the Revised Statutes of Alberta, and any amendments thereto, or any other or similar Statute.

8. This agreement shall be binding upon and shall enure to the benefit of the successors and assigns of each of the parties hereto.

PUBLIC NOTICE

NOTICE is hereby given that the above is a true copy of a proposed By-Law which has been introduced and which will be finally passed by the Council within four weeks from the assent of the burgesses thereto, and that upon the day, namely, the 3rd day of August 1923, and at the place, namely, The Town Hall of the Town of Tofield, fixed for taking the vote of the burgesses thereon, the poll will be open for such purpose between the hours of ten o'clock in the forenoon and seven o'clock in the afternoon.

Can Girls Fight?

You'll say they can after you see

Alice Calhoun

IN

"A Girl's Desire"

As poor little Elizabeth Browne, the girl without ancestors, she finds it hard going through an exclusive boarding school. Then dad finds a crust and Lizzie starts a fight and things commence to move swiftly until the Browne girl collars a real, honest to goodness Lord and then there's more trouble.

The girl was horrified. She had been lured into the belief that her fiance was a nobleman. Who was her father's secretary that he should know the truth? Where did the family portraits and heirlooms come come from and who was who in her household?

THE TOFIELD MERCURY

JUL 23 1923

VOL. IV. NO.537 TOFIELD, ALBERTA, THURSDAY, JULY 19 1923 SUBSCRIPTION IN CANADA $1.50 U.S. $2.50

In The Land of Evangeline

Leaving Fredericton at night a.m. and passing through some lovely scenery by the side of the St. John River, Saturday, the next stop was at St. John city, where we arrived about eleven o'clock. Here the party were welcomed by officials of the city and taken in special street cars to a public park, and from there to a banqueting hall where lunch was served. After lunch a drive to the city's points of interest was taken, the ladies being guests at the residence of Mayor and Mayoress Fisher for afternoon tea. The drive included some beautiful residential sections and a visit to a very large new dry dock that is now under construction and when completed it will be 1150 feet in length and one of the largest in the world. There is also planned by a large breakwater 7670 feet long now being completed. In the evening there was a theatre party followed by a dance at the "Venetian Gardens."

Our impressions of St. John were that it is an old time city still going strong. It is one of Canada's eastern doors and one that is never closed. The St. John harbor is open all the year round and is Canada's premier winter port. It is a magnificent body of water stretching seawards to the horizon. Millions have been about in erecting piers, elevators and other equipment for passenger and freight ocean service. During the winter ships are regularly plying between St. John and ports all over the world. The train was stationary at St. John over night and on Sunday morning while taking a short walk with an Ontario newspaper man, the music of the city's church bells were greatly enjoyed. It is a long time since the writer heard church bells like these, and the chimes of the various churches mingling and blending, recalled days when he too played by the water and watched ships sail past on their way to the distant seas.

On Sunday morning we left St. John embarking upon a steamer that was to take us to Digby, Nova Scotia. The Bay of Fundy, unfortunately or fortunately did not live up to its reputation as a rough piece of water, the crossing being a smooth one, there was also some fog. On the way over a church service was held in the saloon. The boat berthed at Digby at 12 o'clock noon the actual act of "making fast" being done while the party sang "O Canada." On shore Nova Scotia government and Digby officials were there with warm greetings of welcome and in a few minutes the party were escorted to cars and treated to a thirty minute drive around the town and district. At one o'clock the train left enroute for Halifax through the famous Annapolis valley, and the immortalized "Land of Evangeline". The first stop was at Annapolis Royal where we were shown scenes of historic interest as well as treated to an excellent address relating the history of the place. The journey through the valley was one that will be long remembered. The apple raising industry is supreme here and acres and acres of apple blossom were a sight to behold. At Kentville a stop was made the party going to Grand Pre by auto, picking up the train again at this point. This was done so as to see the apple blossoms in all their beauty. This drive took us through Wolfville the former home of Mrs. Ralph Dalton. This section of the country is a veritable tourists' paradise, land and water mingling in a perfect delight.

The Misses Bertha and Nettie Neal returned on Monday from Calgary, after spending two weeks there with relatives.

Local News of Interest

Miss Minnie Wood of the telephone office staff is spending her vacation at Calgary. Miss Wood is the guest of Miss Mae Woodman, a former telegraph operator here.

Miss Della Stiles of Leduc is a guest of Miss Anna Watt this week.

The Misses Marjorie and Madeline MacAuley are visiting at Forkstook with Mrs. Lacoun.

Mr. W. Webb spent the week end in Edmonton.

Miss E. Elliot of Edmonton is visiting with her brother O. S. Elliott.

Mrs. Mitchell, Mrs. Todd's mother returned to her home in Arrow River, Manitoba, on Monday.

Jack and Mabel Younnie of Edmonton are visiting with their Grandmother, Mrs. Mitchell.

Miss Elsie Kendall, who has been teaching at Kinsella is home for her holidays.

BORN - To Mr and Mrs. Albert Hay on Wednesday July 18th, a son.

Women's Institute Notes

The Women's Institute celebrated their last meeting with a picnic at the home of Mrs. J. H. Warner. After the business part of the meeting was finished we partook of a splendid supper under the trees. Plenty of hot tea and cake, sandwiches, salads, cookies, pickles, pie, even pork beans they provided. Mrs. Simmons and after dinner mints.

Thirty-two twenty eight present including three visitors, Mrs Warner Sr., Mrs. Simmons, and Miss Chilman.

Our next meeting will be held at Mrs. Hobbs, a general picnic. Watch the Mercury for further notice

Mrs. H. Martin left for Victoria, B. C. on July 13th.

J. Reynolds has accepted a position with the party laying the pipe line, as assistant welder.

Mr. H. Howell of the Bank of Montreal is having a two week's vacation.

The local baseball aggregation met Chipman twice this week and were compelled to take the small score of both games. At Ross Creek on Monday in an exhibition game Chipman mowed up strong by defeating Tofield by a score of 10-2. On Wednesday, at Chipman in a league game they again won by a score of 3-0.

A public meeting will be held at the town hall on Monday evening commencing at 8.00 p.m. Mr. Bassett of the Northern Utilities will be present and will address the meeting on the gas question. Mr. Bassett will no doubt come prepared to answer questions relating to the installation of gas, cost, rates, etc. A goodly number will no doubt be present at the meeting.

Wedding Bells

On Wednesday, July the eighteenth, a pretty wedding was solemnized at the home of Mr. and Mrs. James R. Sweet of Tofield, when their daughter Katherine Marguerite became the bride of Dr. Charles G. Bain, son of Mr. and Mrs. Bain of Bridgewater, Nova Scotia, the Rev. R. G. Watt conducting the ceremony.

The bride, who was given away by her father, in a charming gown of French grey silk crepe with hat to match and carried a sheaf of Ophelia roses. After a dainty buffet breakfast the happy couple left on the 9.15 train for Halifax and other eastern points.

Under the auspices of the United Church Ladies Aid, Jas. Isherwood rendered a song recital at the Variety Theatre on Monday night last. One may be pardoned for having doubts as to the ability of one individual to continue of such to entertain for an entire evening, but the proof of Mr. Isherwood's ability lies in the fact that after nearly two hours program the audience were loth to let him go. Mr. Isherwood accompanied on the pianoforte by his wife, sang twenty five numbers and delighted the audience with every one of them. They included Modern ballads, Scottish ballads, English folk songs, Irish ballads, and a second number.

Mr and Mrs J. D. Hannan and Bud arrived home last week from an automobile trip to California. They had a splendid time, stopping at a fresh town each night. The oil fields of California are wonderful, they say, but apart from this there seem to be no evidence of great industrial or agricultural activity. California to a great extent seems to be flourishing upon the money taken in there from other parts, rather than that produced right at home. The scenery enroute especially through the mountains was gorgeous, but it was a nice welcome to return once more and look upon Alberta's agricultural and pastoral fields.

Doctor Bain left on Wednesday for a trip to his home in Nova Scotia and will return to resume his practice the first of September. While he is away and until he can secure a locum tenens, Dr. Sprague of Edmonton will be in Tofield every Wednesday morning and will see any of Dr. Bain's patients who wish medical advice.

Edmonton fair is being held this week and a large number of Tofieldites have visited the "annual event." Owing to the weather, travelling by auto has not been popular though not impossible, most of the visitors travelling by train. Among those to go at time of writing are Mr. and Mrs. Bertram, Mr. and Mrs. Hay and daughter, Mr. and Mrs. J. Law, junr., Mrs. J. H. Murray, Mr. Abbott, Mr. Hingley, Mrs. Tancred and son, Mrs. A. Innes, Mr. E. Rogers, Mrs. M. Howells, Mrs. J. McMullen, Mrs. Hewlett, Mrs. Mc. Bratney and sons, Mr. McLaugh lin and children, the Misses Helen and Thelma Jacob, Lillian and Bertha Lee and Alma Lee, Messrs. J. W. Ferguson, Jacobs, Leffler, McLaughlin, Burns and Gladue.

Boost The Fair

Time goes fast and we are now within a month of the Fourteenth Annual Exhibition and Fair of the Tofield Agricultural Society, which will be held on FRIDAY, AUGUST 17th, there has been arrangements made for school work and calf feeding contests the same as last year. With the good farming season we are having it should be a banner year for Livestock and vegetable exhibits, the success of this years fair rests with every citizen of this district in entering every exhibit possible and attending the Fair. THE PRIZE LISTS ARE PRINTED and we ask you to call for your prize list as soon as possible and help to put this fair over with a bang. The earlier the entries are in the better and every possible service will be given the public in taking their entries, but if everyone waits until the last day for asking entries it will be impossible to give you the service that you would receive otherwise. We are fortunate in the cattle Judge this year, having obtained Mr. J. A. Clarke, a noted Purebred cattle breeder who is noted for his fairness and impartiality. We would like to see the Cattle classes and all other classes filled. LETS GO, GET YOUR PRIZE LIST AT D. E. BALL'S OFFICE

Yours truly
D. E. BALL
Sec Treas. Tofield Agricultural Society.

No business is so small or none so large but that intelligent publicity will materally help it.

The printed message whether through the medium of a newspaper advertisement or a piece of job printing has brought success to more business houses than could be listed on this page.

On the Main Street of Annapolis Royal, N. S., where the Canadian Weekly Newspaper Associations spent a few hours while touring the Maritime Provinces.

The Most Important Question

Of the hour is, "Have you insured your standing fields of grain against hail?"

The crops this year have a value greater than ever before, because through them the country will be helped from adversity to, we hope, prosperity.

The cost is slight according to the benefits received. Insure now and be safe.

I represent the best of companies.

The Senate Hold-Up

...ch by the Senate of the whole branch have contraction ... Canadian National Railways is one of the worst boons ... has ever imposed on the country. ... It is a hotbed of inefficiency and ... by the drag our present population, not to speak of the direct burden of ... subsidization and the future expense of the national system of railways ... now so big as the Senate in the present or probable need of the men who ... have ever addressed the C.N.R. programme were responsible to the people and ... way to them, or to reject it. It is safe to say that the people of these ... would have voted exactly the opposite way, and in accordance with the wishes ... of the majority.

It is small wonder that the Governments of all four Western Provinces ... opposition protesting the action of the Senate that Boards of Trade, farm ... organizations and business interests generally are clamoring for public ... ownership in the country's development being retarded and its future jeopardized ... by an irresponsible and autocratic body.

The decision of the Senate does not mean a saving of expense to Canada. ... record expenditure and consequently increased taxation. Many of the ... railroad branch lines are already graded and the money saved by the Senate ... at least, can be used to better them and their early operation can ... but result in deterioration of the work already done.

If extended a section will be a game into districts and constructed ... ting and used instead of existing agencies must stop because it is ... that every village cannot be marketed, or if the case of having long ... to railway are greater than the price that can be realized for ... the farmers in these people unanimously wanting for railway facilities, and ... the heads in reporting of their construction, are now losing ... time because of an irresponsible Senate which had on 1923 it was prepared ... subsequent years. The movement of home services away from their land ... and into cities and towns, or out of the country altogether, has already ... And every home in the rather more away and most patterns which it ... their children denied schools and an education and most look in ... a better existence and possibly being forced to accept relief from ... charity as a veritable organization.

Immigration is bound to be checked, both by people rather be induced ... Canada and settle on its vacant land at present rental terms when ... can be given a guarantee by the responsible Government of a ... transportation needs will be met owing to a reactionary and free ... policy.

And what is the effect on the Canadian National Railway system? This ... is now being operated at an enormous cost to the people of Canada. ... is impossible as a national system in that it has extensively long main lines ... sections of country settled parts of the Dominion. It must have ... same prosperity in the form of branch lines into productive districts, in ... for its revenue and provide a sufficiently large volume of traffic to make those ... lines pay. A responsible railway directorate decides that certain ... branch lines are needed and will add to the earning power of the whole sys... A responsible Government and a representative House of Commons ... approve the railway directorate's programme. Then our reactionary and ... irresponsible senate steps in and vetoes it and puts an end to all C.N.R. branch ... construction for a year when the country is faced with the largest ... in its history.

In the meantime the Canadian Pacific Railway is free to go ahead with ... its entire programme of branch lines construction. ... And it is proceeding ... to do so with the vigor, vision and business like administration which characterizes that great Company. Every Canadian welcomes every ... shown by the C.P.R. The lines it is building are all needed. But it is a ... fact that some of these extensions are into territory from which the Canadian ... Northern now draws the bulk of its traffic. However, competition is a good ... factor and is hereby welcomed. The C.N.R. cannot be given a monopoly; in ... fact, it cannot be given any monopoly. Therefore there is but one thing to ... do, namely, the repeal of C.P.R. activity in branch lines construction.

But what is to be the future of the Canadian National? Within its ... it is in a most business like manner surveying its branch lines and de... developing new business for its main arteries, even to some extent at the ... expense of the C.N.R. But nationality stepped in and the legislation was ... by the senate. There can be but one outcome, and that is the failure ... the national system. The piling up of still larger deficits until the public is ... brought where the people must bear the burden no longer, and, in disgust and ... despair, say "let the whole system go to some private corporation."

Is that what the senate is striving to accomplish? Many on the back... that the senate would register at such an outcome. The majority of Sena... have been opposed to public ownership and would like to see railways ... experimental end in failure. The question is are the people of Canada going ... to permit the senate to do this? If not the people must locate them... and take it upon a emergency and radical remedy at the constitution and ... pack it with others.

THE WHEAT POOL

President Wood of the U. F. A. at the same time says, according to press despatches, advocated the formation of a Wheat Pool. Mr. Sapiro is a marketing expert who has proved his ability in the cause of co-operation. In the meantime it is read Mr. Sapiro will have been consulted, press despatches now reading that important officials of the government have started for California to interview him and consider the report that he is on his way here. In any event Western farmers have the assurance that he will be interviewed and his advice sought.

The discussion stirred up around the wheat board, wheat pool and co-operative systems of marketing has gone on unceasingly for a long time, and it is safe to say with profit in knowledge to all. This much is assured if there is a better system the western farmer is determined to find it. In the regard "necessity is, as before, the mother of invention." For western farmer needs a marketing system whereby the returns for his labor and investment are more closely related to the prices he has to pay for the products of factory and machine shop. Mr. Magino has a man-size job ahead of him if he is successful he will be the most popular man in Western Canada. In any event, if he commences the task it will be with every good wish of ours.

THE GAS BY-LAW

The gas by-law, which will be voted upon August 3rd, requires little sponsoring on the part of the Mercury. Previous by-laws that have been presented to the burgesses have almost without exception, been an appeal for economy to the ratepayers along an unpopular line of action. This by-law sets the town nothing, and only empowers the council to grant to the Northern Utilities Ltd. a ten years franchise by pipe and supply gas to the citizens of Tofield. For many years Tofield has desired gas—the opportunity of procuring it is now here. Voting in favor of the by-law means a good supply at the same rates as ruling currently in Edmonton, and at once to the municipality.

This being so there is little doubt as to the passing of the by-law by the required two-thirds majority.

One feature of this election is that only burgesses or ratepayers are entitled to vote. In other words only actual owners of property. In an election for instance the ratepayer, wife, husband and daughters over the age of 21 years, residing in the same house may vote, but on a money or franchise by-law only the actual resident owner of property is eligible.

"Is this a public lake, sir?"

"Yes."

"Then it won't be a crime if I land a fish?"

"No, it would be a miracle."

BY THE SAGE

Character is wealth whether accompanied by cash or not.

A man may have noble aims and yet be a very poor shot.

When deception enters the front door, love breaks the window tying to get out.

The most trouble is produced by those who do not produce anything.

There is always room at the top, because many who get there go to sleep and roll off.

If things do not go to suit you, don't kwell; enter in and try to reform them

If absence makes the heart grow fonder, how some people must love the church.

Bank of Montreal Crop Report

GENERAL Threats of practically all crops throughout the Dominion is exceptionally good, In the three prairie provinces good growing weather continues and the wheat is heading out. Damage by hail has not been above the average, and no serious damage is reported from insect pest. Average prospects are reported for Quebec Province and a good all round crop for Ontario. In the Maritime provinces, hay will be below the average. Estimates are for a large crop of apples. Crops in British Columbia are doing well

PRAIRIE PROVINCES—Edmonton District: Excellent growing weather, wheat heading out Slight hail damage in some parts, heavier near Ponoka, Calgary district: Conditions are favorable for all crops making rapid growth, wheat headed out; warm dry weather now needed." Weeds prevalent in some sections; no serious losses from hail or pests; hay and pasture good.

The new British Premier Mr. Stanley Baldwin, is a first cousin of Mr. Rudyard Kipling's. Mr. Kipling's mother was a sister of Mr. Baldwin's mother.

Here and There

Shipments over the T and N. O. Railway during the month of May amounted to 23,13 tons of silver ore.

The movements of the mackerel schools will, when observed, be broadcasted from the government vessel for the purpose by the Commander Martin Jenson.

Mrs. Dan Otis, of Stratford, Ont., set 33 eggs and hatched 24 chickens from which she reared 22 and brought of the double pullet variety and both pullets were laid.

A new direct passenger service between Canada and northern Ireland has been established by the Canadian Pacific Steamships, Ltd. Three steamers have been chartered for the service.

Thomas Edwards, of Port Robinson, declares he has a chicken out of this year's hatch which has three sets of chicks freaks. The one has four legs and two bodies, the next has two legs and two bodies but only one head. It has two heads and two bodies.

One hundred and fifty families are to be brought into British Columbia this year by the colonization enterprise in the valleys east and west of Prince George, B.C. The Lewis estate announced, following his return from England recently.

A Swedish scientist claims to have perfected a process for the manufacture of rubber substitute from 50 per cent. sawdust and the rest from coal tar products. The sawdust is treated with caustic soda, pressed, sieved, boiled, salted, pressed, sieved, boiled, salted, pressed, sieved, boiled. It will not deteriorate in water.

A start as the actual work of electrifying the section of the Canadian Pacific Railway's main line between Fort William and Kenora will be made next year. E. C. Coleman, vice-president of the company, says that traffic demands and financial conditions would determine when a start would be made.

The decision of the Government of Saskatchewan to distribute in grant a bonus of $4 per acre for land cleared and put under crop in accordance with the provisions of the Act, involves an expenditure of $250,000. Chairman of the Land Settlement Board has intimated to approximately 40,000 annually, but the total that may be required to be eligible or more.

Speaking at the Canadian Club in London, Eng., recently, E. W. Beatty, President of the Canadian Pacific Railway, contrasted the "irritating restrictions in force" in Canada's population policy with Australia's progressive policy. "We Canadians would be wise to keep our gates open for brains as well as brawn," he said.

One hundred and fifty delegates of the Canadian Weekly Newspapers Association will tour the British Isles next summer, and hold their annual convention in London, according to decisions reached at the final meeting of the convention here. The party will have aboard the first of June, and will attend the British Empire Exhibition. The tour will last about six weeks.

Up to the end of 1922 dividends paid by the gold and silver mines of Northern Ontario amounted to over $152,151,000. Cobalt camp was discovered late in 1903 and shortly began producing until 1905. Dividends declared out of Cobalt's production to $92,863,726, which represents nearly 60 per cent. of the gross value of production. Porcupine mines have paid $28,472,288.

George E. Buchanan, of Detroit, head of the "On to Alaska with Buchanan" movement, will have 60 boys and 24 adults or members of the boys' families when he personally conducts his party from Vancouver July 18 on Canadian Pacific "Princess" steamer. Buchanan claims, with these members, to make a trip to Alaska in a liberal manner, and to have any boy who likes to, pay up one-third of the expense, the rest some one else and the boy's parents put up the remaining third.

AGREEMENT

THIS AGREEMENT made the 3rd day of July A.D. 1923.

BETWEEN:

The Town of Tofield

Of the First Part

—and—

Northern Utilities, Limited, hereinafter called "The Company."

Of the Second Part

WITNESSETH that the parties hereto mutually covenant and agree each with each other as follows:—

1. The Town hereby grants to the Company, its successors and assigns, subject to the terms hereinafter contained, A SPECIAL FRANCHISE, with the full power, right and liberty to put down, take up, re-lay, connect, disconnect, repair, maintain, and operate pipes in, under, along, through or under the streets, highways, lanes, alleys and other public places within the limits of the Town, as the same may be from time to time extended, as may be necessary or convenient for the purpose of supplying and conducting natural gas to consumers thereof within the Town, and the Company is to that end authorized to enter upon any and all the said places and to break up at their own expense the surface and to make the necessary excavations thereon when and where the same may be required for the purposes aforesaid and to do all other things reasonably necessary or convenient for the supplying of natural gas to the inhabitants of the Town, and laying down, taking up, repairing and maintaining its gas pipe lines as aforesaid.

2. The Company agrees with the Town that it will do as little damage as may be in the execution of the powers hereby granted, and will cause as little obstruction as possible during the progress of the work and at all other times, and will restore the streets, highways, lanes, alleys and other places within the limits of the Town to their proper condition and will protect and indemnify the Town against any damages or expenses in connection therewith. The Company further agrees that it will follow all such reasonable directions as may from time to time be given by the Council of the Town as to the location of its pipe lines and the manner in which its work shall be carried on.

3. Should the Company fail to construct the said pipe lines and al gas for the use of the inhabitants as aforesaid.

AND WHEREAS for the purpose aforesaid the Council of the Town of Tofield deem it expedient to enter into an agreement in the words and figures set forth in the Memorandum of Agreement hereunto annexed and called "Schedule A";

AND WHEREAS the said Council deem it expedient to pass this BY-LAW for the purpose aforesaid.

NOW THEREFORE the Council of the Town of Tofield duly assembled enacts as follows:

1. The Corporation of the Town of Tofield hereby grants to the Northwestern Utilities, Limited, the special franchise which the said agreement (a copy of which is hereto annexed) purports to grant to the said Northwestern Utilities. Limited, subject to all the covenants, conditions, provisions, restrictions, penalties and other terms fully set forth in the said agreement.

2. After the final passing of this By-Law the Mayor and Secretary-Treasurer of the Town are hereby authorized and empowered to execute for and on behalf of Agreement in the terms of the said Schedule A by, and on behalf of the Town of Tofield.

3. This By-Law shall take effect on the final passing thereof.

4. John W. Chapman of the Town of Tofield, Secretary-Treasurer of the Town is hereby appointing Officer for the purpose of taking the votes of burgesses voting on this By-Law.

5. The votes of the burgesses for and against this By-Law shall be taken at the Town Hall, Tofield on the Third day of August A.D. 1923, from the hour of ten o'clock a.m. until the hour of seven o'clock p.m.

6. The Council Chamber, at the Town Hall, Tofield this noon, on Saturday the Fourth day of August A.D. 1923 at the hour of ten o'clock in the forenoon, is the time when and the place where the Returning Officer shall sum up the number of votes given for and against this By-Law.

7. This By-Law shall take effect from and after the 9th day of July A.D. 1923.

Read the second time this 9th day of July A.D. 1923.

Read the third time this 9th day of July A.D. 1923.

"Schedule A" to By-Law No. 199 of the Town of Tofield

This Memorandum of Agreement Between: The Town of Tofield, in the Province of Alberta, hereinafter called "The Town,"

Of the First Part,

—and—

Northern Utilities, Limited, hereinafter called "The Company."

Of the Second Part

WITNESSETH that the parties hereto mutually covenant and agree each with each other as follows:—

1. The Town hereby grants to the Company, its successors and assigns, subject to the terms hereinafter contained, A SPECIAL FRANCHISE, with the full power, right and liberty to put down, take up, re-lay, connect, disconnect, repair, maintain, and operate pipes in, under, along, through or under the streets, highways, lanes, alleys and other public places within the limits of the Town, as the same may be from time to time extended, as may be necessary or convenient for the purpose of supplying and conducting natural gas to consumers thereof within the Town, and the Company is to that end authorized to enter upon any and all the said places and to break up at their own expense the surface and to make the necessary excavations thereon when and where the same may be required for the purposes aforesaid and to do all other things reasonably necessary or convenient for the supplying of natural gas to the inhabitants of the Town, and laying down, taking up, repairing and maintaining its gas pipe lines as aforesaid.

2. The Company agrees with the Town that it will do as little damage as may be in the execution of the powers hereby granted, and will cause as little obstruction as possible during the progress of the work and at all other times, and will restore the streets, highways, lanes, alleys and other places within the limits of the Town to their proper condition and will protect and indemnify the Town against any damages or expenses in connection therewith. The Company further agrees that it will follow all such reasonable directions as may from time to time be given by the Council of the Town as to the location of its pipe lines and the manner in which its work shall be carried on.

3. Should the Company fail to construct the said pipe lines and be ready to commence the sale of natural gas within the Town before the first day of January A.D. 1925, all the rights and privileges hereby granted shall cease and determine: Provided that the Council of the Town may extend the time for the construction of the said lines. The Company shall supply as much gas as may be required within the limits of the Town and the Company shall furnish free of charge to each consumer a gas meter to accurately measure all natural gas consumed, and the property line shall be the place of delivery of all natural gas supplied in the Town, and all expenses and risk in utilizing and using such gas after delivery at the property line shall be borne by the consumer.

4. The price to be charged by the Company for natural gas within the Town shall be the sum of fifty cents (50c) per 1000 cubic feet for natural gas used for domestic purposes and thirty-three cents (33c) per 1000 cubic feet for gas used for any other purpose: Provided, however, that there shall be a rebate of three and one half (3½c) cents per 1000 cubic feet in the case of domestic consumers and a rebate of three cents (3c) per 1000 cubic feet for gas supplied for any other purposes in the event of twelve dollars being paid within twenty days after the rendering of the bill therefor, time to be the Board of Public Utilities Commissioners, but in no event shall the price after deduction of rebate be less than the price charged for the consumption of rebate in the City of Edmonton for similar service.

5. The Town agrees that it will not for a period of ten (10) years grant to any other person, firm or corporation the right to lay pipes in its streets, highways, lanes, alleys and other public places for the purpose of supplying natural gas in the Town for any purpose, so long as the Company supplies the reasonable requirements of the inhabitants of the Town with natural gas.

6. It is further agreed that at the expiration of the term hereof, the contract may be renewed for a period not exceeding ten years (and so on from time to time) with such alterations, if any, as may be agreed upon by the parties hereto and approved by the Board of Public Utility Commissioners, and that, if either party refuses to renew such contract, or if the parties fail to agree as to the conditions of such renewal, then the Town may purchase all the rights of the Company in all matters and things under the contract and in all apparatus and property used for the purpose of supplying gas to the inhabitants of the Town for such price and on such terms as may be agreed upon by and between the parties hereof, or failing such agreement, then for such price and on such terms as may be fixed and settled by the Board of Public Utility Commissioners, on the application of either of the parties hereof.

7. This agreement is intended to operate as a consent by the Town to the exercise by the Company of powers, rights, liberties and privileges herein contained according to the terms hereof, and of the powers which may be exercised by the Company under and by virtue of "The Water, Gas, Electric, and Telephone Companies Act" being Chapter 168 of the Revised Statutes of Alberta, and any amendments thereto, or any other or similar Statute.

8. This agreement shall be binding upon and shall enure to the benefit of the successors and assigns of each of the parties hereto.

PUBLIC NOTICE

NOTICE is hereby given that the above is a true copy of a proposed By-Law which has been introduced and which will be finally dealt with by the Council within four weeks from the assent of the burgesses thereto, and that upon the day, namely, the 3rd day of August 1923, and at the place, namely, The Town Hall of the Town of Tofield, fixed for taking the vote of the burgesses thereon, the poll will be open for such purpose between the hours of ten o'clock in the forenoon and seven o'clock in the afternoon.

JOHN WILLIAM CHAPMAN,
Returning Officer

Saskatchewan Clay Deposits Are At The Present Time Attracting Wide Attention

Southern Saskatchewan's natural resources are at the present time attracting international attention to Western Canada. Recent deposits of valuable coal and kindred clay are now being investigated by interested parties to see if there is a commercial proposition in the deposits and their potential values. Indications at the present moment, show that the valuable coal deposit in the largest field on the North American continent, while the kindred clay deposit is the only known one in America.

Development of the Kindersley clay field will result in a reduction of $4 million imported annually into Canada, it is estimated. Estimates submitted by outstanding Canadian mineral experts and technical experts indicate that there are 18,000,000 tons in the clay in the Kindersley field, while the other experts, after an investigation declared there is sufficient clay in Canada for the development of the industry. The Rebels have discovered two veins one but active and the other dormant are now being undertaken for the Brit time. Several experts, including Professor J. D. Mickle, Mineral Technologist from the Department of Mines visited the district during the past fortnight from Lumsden to Kindersley and Swift Current and Dr. H. Bowling, Chief Geologist of the Provincial Government, also visited the fields while he had four weeks and a part of the next, with water data equipment, which shortly be placed at work to discover the underground water supply in the district.

Valuable salt is used, commercially, for curing purposes such as fish, in paints, calcium powders soaps cleansers and other staple articles. Only thing, who has been known to the Kindersley clay, has been used for domestic purposes, as a food for domestic farming, crumbles absolute soapy, medicine being used for the latter purposes. Its good points and adaptation purposes and to the manufacture of building materials and imitation stone because no other deposits so throughout clay have been discovered on the American continent and all samples of the Kindersley clay have proved both in Canada and United States. Some samples were sent to the Imperial Institute at Kinsington, Eng. and the products examined. It is $1,000,000 on the investigation of Dr. Walker's deposits can be gauged to some this fact.

Professor Lee Stevens, who has already made wide investigations in the deposits, stated he believed 10,000,000 tons of the clay are available.

Dr. Harmon stated that, according to an estimate, there is sufficient material in the Walsh field to last for many years. In Prince of Wales alone that there are 27 feet of coal under one square mile. The Kindersley deposit is known to be 16 feet deep.

Federal and provincial governments are taking an interest in the find, and the Natural Resource Department of the Canadian Pacific Railway is also assisting in the exploitation of the fields. Analyses of the clay have been made by authorities in the United Canada and United States, and as always have declared the value of the clay to seem better material than that which is now being imported from Germany and France.

A Valuable Collection

The Canadian Government Museum, Ottawa, has gained a valuable collection of fossils, which was made by the late Sir Thomas Phillips, Bart., of Cheltenham, who died half a century ago. The fossils are in excellent ruin. Wallis's rival on the Plains of Abraham, of Levis, Beauport, Quebec and Lansdowne are said to be in no small interest. There are also Cretaceous fossils from Vancouver Island.

Western Exhibits at Relief Mops

Exhibits of the new farm of either clay prepared by the Dominion Experimental Farms at Lacombe, Alta., will be made at the Brandon, Regina, Saskatoon and Edmonton exhibitions this summer. Each of the Experimental Farms has been established by the Canadian Government, being awarded a diploma on account of their efficiency and usefulness.

Settler Makes Good

Starting with a borrowed capital of $16 in the Saskatoon district Al berta, fifteen years ago, John E. Lowe now has a fine farm of 500 acres, well stocked with cattle. Last year although drought prevailed, his wheat average was 35 bushels to the acre and in the year previous it was 47 bushels.

Some Facts About Rubber

Its Real Value Was Discovered Only By Accident

Many of the things which boys and girls talk about every day have derived their names in peculiar and interesting ways. Some of the commonest words we use have a very queer history.

For example, take the word rubber the word which is used for anything that rubs and a thousand other things. When it was first brought to England from India a little piece of it was given to an artist, who happened to rub over a pencil line to one of his drawings. He noticed that it erased the line, and said, "Why, then, how well it rubs." For many years after that "rubbing" our pencil marks was the only use for rubber.

Among about 1817 a Scotchman discovered that rubber was waterproof. He next made what is Macintosh, or waterproof of the original rubber substance, which is called a macintosh to this day.

It was not until Goodyear made his discovery that the real value of rubber was understood. Goodyear was a hardware merchant in Connecticut, U.S.A., and he was very fortunate in discovering the destruction of rubber when he was trying to perfect a process for preventing the rubber from becoming sticky in hot weather. He noticed that if he mixed sulphur with the rubber and heated it, the rubber would not melt. For many years after that "rubbing" our pencil marks was the only use for rubber.

Dismissive Talks a More Conspicuous Place in Dealing With Foreign Countries

During this fifty six years there has been no revolution, or even an approach to a revolution in the relations of Canada and other businesses to the Empire. Through a gradual and by no means rapid process of evolution, the Dominions have taken a more conspicuous place in dealings with foreign countries, though it we look back to the early days of the Dominion we shall find that in actual practice they were in commercial relations almost as independent as they are now. The greatest change in external relations is shown in the non-existence and later existence of those restrictions are now worked out by the respective legislatures and now be only surrender of any theory by ethnological British to the Dominions. Yet it goes without saying that in the development of closer relations within the Empire there must be on the part of each nation a real knowledge and appreciation of the rest. While the business of Canada develops a national consciousness so also fully shares in the consciousness of Empire.—The Vancouver Province.

An Everlasting Friendship

Forget Past Disagreements and Cele brate Together

Thirty thousand people heard President Harding speak at Portland on Friday, June 29th, at the Rose Festival there. Among that 30,000 was a group of British sailors and British officers.

CHEEKS COVERED WITH PIMPLES
Also Chin. Large and Red. Caticura Healed.

"About a year ago a few small pimples broke out on my face. I would tear my cheeks and chin were always covered with large, red pimples that festered and scaled over, and frequently caused irritation. I tried different remedies without success. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I could see an improvement so purchased more, and after using two boxes of Cuticura Ointment, together with the Cuticura Soap, I was healed." (Signed) Mrs. Clarence Lessard, Hospital, St. Pays, Quebec.

Use Cuticura Soap, Ointment and Talcum for all toilet purposes.

Cuticura Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Cuticura Soap shaves without mug.

Where the King Cannot Go

House of Commons is Taboo to the British Sovereign

There is no place in the British dominions which the King cannot go, with the exception of the House of Commons. The members of his subjects may enter the House of Lords, and may be seen in the public gallery and listen to the debates, but the sovereign himself has not entered the latter, and has no right to enter the Commons. Should he wish to do so, he must first obtain the consent of the House, and then he must stand at the bar of the House and ask permission to enter. Should this be granted, the Speaker will leave the chair, and the King will enter and take a seat at the extreme left of the Speaker's chair.

The Commons, however, being ill the more than a gift when she entered the building, stood on, imagine the feelings of her royal husband, who had been accustomed to be treated with the greatest deference by all his subjects.

Queen Victoria, however, being ill the more than a gift when she entered the building, stood on, imagine the feelings of her royal husband, who had been accustomed to be treated with the greatest deference by all his subjects.

Because He Was Black

White Men Would Not Mother Dark Colored Chick

I had purchased setters a coop-reluctant, that hens sometimes prevent chickens of their own color until they themselves when we had a white hen running at large with a flock of Rhode Island Reds. She hatched a light, but some of which was black. For two or three days I was disturbed by the mother hen's persistent efforts to drive one of the little pests away. Finally I concluded that the mother would not have it around. I removed the chicken and put it in a coop by itself. The mother hen was then perfectly content with the remaining chicks.

The King a Farmer

King George at the International Institute of Agriculture.

It was a reversal and active interest out in the turnips and mangel-wurzels when the King of Italy visited the country and the British Commissioner went through the exhibits with him, in addition to the usual exhibits of all other interest in agriculture, there were a number of special difficulties, owing to the foreign tariffs in getting everything from the great war upheaval. My enquiry goes out to me before agricultural matters, but I do not despair, believing that the International Institute and cooperation will again carry them triumphantly through the present crisis.

Oldest Doctor in England

Dr. George Attfield Graduated From St. George's Hospital in 1845

Still vigorous and in good health, Dr. George Cowie Attfield, of Hove, Sussex, who is in his 95th year, is probably the oldest doctor in England and Wales. Dr. Attfield was born at Bishop's Auckland, Co. Durham, on January 27, 1825, qualified at the University of Edinburgh in 1845. "When I was a boy," he says, "there were only 300 beds, and operations were performed on Saturday only. Operations were performed in their shirt sleeves and only the most extraordinary precautions were taken. Students were not allowed to wear gloves, and the most I ever saw of the operating theatre was the floor and the sawdust which covered it. Anæsthetics were unknown, and the only way to keep the patient under was to hold him down by the wrists. The remedies of Edward II's reign were not more severe than those in use when I was a boy. I used to see an acquaintance be prescribed more, and after using two bottles of Quinine Bitters, together with the Calcium Soap, I was healed." (Signed) Dr. Clarence Lessard, Hospital, St. Pays, Quebec.

Money in Strawberries

H. Dinnes of Raymond Al berta, had been making a success of small acre of strawberries, from which he had netted as high as $400 in one season. Strawberries are now raised in considerable rivalry in various parts of the province of Alberta.

Powerful Aero Engine

Britain is exhibiting the world's most powerful aero engine—the 1,000 horsepower Napier "Cub"—at the Jubilee Exhibition at Oolchenburg, this summer. A composite exhibit of all British aircraft will also be seen.

Destroyed By the Sea

Important City of Early Ages at England Swept Away

Dunwich was one of the great cities of the early ages of England. The Romans settled there, and in Saxon times it rose to eminence, as that it certainly became the seat of a bishopric. Kings were pleased to grant land and charters to it, and it even had a royal palace. It enjoyed the privileges of coining its own money. Within the memory of man the town had 52 churches and religious houses, all on a part it formed great ships and small ships.

Its destruction came not from conventional rivalry but from the all-destroying sea. The low cliffs of loam and sand on which the ignorant city stood were bit by bit worn down by the waves. The remembers of Edward II's reign show that one houses were swept away in a single year February 1545 and 1590 four houses disappeared. In 1677 the sea moved the way for the destruction of 1182 St Philip's was exterminated, and the churchyard went too.

Testing World's Best Clocks

France, England, Denmark and Holland Entered Competition

One hundred and forty-four chronometers have been deposited at the Observatory at Neuchatel to undergo the International Besançon chronometer competition test.

Thirty-one of them are to be tested for marine service and 113 for land. Four countries have supplied the entries for the test. France, England, Denmark and Switzerland, represented by 20 competing from, 1 French, 3 English and 1 Danish clock.

The results of the test will be made known in September at a public gathering to commemorate the centenary of A. L. Breguet, the famous Swiss clock and watch maker.

Build Many Elevators

Mining and Elevator Company Have American Programme for This Year

The greatest elevator building programme for Western Canada in years is contemplated this summer, according to milling and elevator companies. If the present programme is carried out, building is carried out there will be 172 to 200 additional elevators erected in the prairie provinces before this year's crop begins to move from the farms, at least if is to the number now on the programme as laid out by the different companies.

Harvest Excursions

Arrangements have been made for harvester excursions from the east and from British Columbia on practically the same lines as last year, according to J. W. Ward, Secretary of the Canadian Council of Agriculture. It is expected that a large number of harvesters will be required this year than last.

WORLD HAPPENINGS BRIEFLY TOLD

The German Counter-General of the Rhine provinces has passed a pre-attention strongly condemning naked rags.

The Rumanian Jews Fair detective officials has been renewed for three years in a proposal signed at Bucharest.

Mrs. Bertha Hirschen, aviatrix, Summit, Kansas, established a new altitude record for women by ascending 18,500 feet.

It is said the province of Ontario expenditure of $20 for each vote polled at House Factory in the recent election.

C. A. Magrath, head of the Government Soldiers' Land Settlement Board, is leading a warning to "speculators in land in west where a rural at once."

Paper manufacturers in the United States are becoming alarmed over the bill passed by the Canadian Parliament which empowers the Government to prohibit the exports of pulpwood.

The German Government fourth is responsible for the catastrophic depreciation of Germany's currency in the Reichstag's Chief Minister of Imperial.

The Canadian Northern Ontario Company, $1,500,000 building under construction since 1912, will be closed to subscribers on August 15, and deliveries everything but will take place on August 19.

A recommendation that industrial workers be established at Montreal was embodied in a resolution passed at the convention of Canadian Brotherhood railway employees.

The bill approving the commercial convention between France and Canada signed December 15 1922 was adopted without debate by the Senate of Deputies Paris.

Wages must show increase of 10 per cent. in Great Britain, thousands of miners, people believed the latter shops, compelling the dealers to sell meat at 20 cents marks per pound instead of 60 cents.

Sailor Pardi, 31, who for more than thirty years occupied the post of chief lighthouse the local government, Ushant, has resigned from the service and Paris. Queen Victoria often received to Pardi on the "keeper of royalty."

The average cost of the household budget for a family of five at the beginning of June was $12.23 compared with $10.34 for May; $10.16 for June 1922, $11.16 for June 1921, $10.97 for June 1920, the push, and $7.05 for June 1914.

Proposed Sugar Factory

Farmers in Southern Alberta are again interested in sugar beets. A number of rail plots are being grown this year in the vicinity of Cardston and Raymond. If the crops turn out satisfactorily, it is expected that a sugar factory will be put up and the growing of beets become a regular industry.

No man or woman should hobble painfully about because of corns when an outside a relief is at hand as Hollaway's Corn Remover.

Nothing to Worry About

A society reporter on the Blue town being scuffled at in entrance" has been started. The Hindu has been scuffled at the shins, from years back in Ind out a college and still remains the International best writer." Winnipeg Tribune.

Human Sacrifices in India

Many Slaves Burned to Naga Hills Every Year

Slavery and human sacrifices are still going on in some of the mountain districts of Northern Burma, according to the annual report of the commissioner of the northeastern frontier, published by the Government at Rangoon. It is in the northern known as the Naga Hills that the sacrifices take place.

Attempts by the Government to eradicate these practices have not entirely succeeded. The redemption of slaves intended for sacrifice has only resulted in the use of money saved for a longer and "more expensive sacrifice later on.

By a recent Government investigation, it was discovered that the number of human sacrifices in the Naga Hills in no less than three an 50 ten a year. Sometimes when feasts are generated, the number in a year amounts to 20 or 30. The most common victims are Indian children.

Send Written Messages By Wire

New Invention May Revolutionize Sending and Receiving By Telegraph

A new selective apparatus has been designed and patented by Irving Maclennan, a young Winnipeg electrical engineer, who is employed at the present time as operator of the Canadian Pacific Railway telegraphs at Moose Jaw Sask., which, it is stated by professional men to whom it has been shown, is a revolutionary apparatus and will greatly increase the speed of telegraphy over the ordinary telephone connections.

The apparatus consists of a new design in perforator, electrically controlled and operated on the perforated tape principle. The sender will address as his machine and type off a letter or message in the usual form. The invention is already protected by five patents recorded at the Patent Office and applications have also been made for patents in all other countries. Mr. Maclennan has graduated from Harvard and take for a degree at the next convocation.

Moving Model By Rail

Complete Building Taken From Cage to Longview, Wash.

One large complete room furniture and kitchen sink to have curtains and kitchen cupboard, and the roller towel. Chairs over the western province and mountains to Longview, Wash.

The building was built as specimen of what is for occupancy, or what can be done in the building line. The room was used quite recently I was already I looked out over the Grays Harbor country and decided to stay with it for awhile. Finally my wife and I decided we would like a new home in the Longview district. We purchased a lot and had this building moved to it. Mr. Williams Bros. Elks did for her. Mr. Williams was a veritable sufferer from dyspepsia, indigestion I certainly I am glad to say that I am entirely well. I had a pain around my heart and could not sleep properly I was afraid I would not get up at all, and directly I medicine was taken I began to improve. In this serious condition Mr. Williams Pink Pills were recommended and I decided to try them, according to Major John Burnett, Chairman of the Soldiers' Settlement Board, who in a recent address told of the great and successful activities of that organization "some 20,000 men representing a farm community of 120,000 people, have been located, and 85 per cent. of them are making good.

Over 50 per cent. of the soldiers had no land to speak of when they went on them as it was due and the country is conferring the money as a return for between two and three million dollars a year. The Soldiers' Settlement Board has over 250 inspectors who are located at various centres throughout the Dominion constantly traversing their farm to keep in touch with the troubles of the soldiers, offering help where possible and doing everything in their power to further the success of the undertaking

Amazing Translations

A missionary home from the Congo has been confessing to some amusing blunders in the translation of gospel hymns into the native language. One was puzzled by the extreme popularity of "Wonderful Words of Life" among all classes of natives until he discovered that the word rendered for "life" in the translation of the hymn was "fish." Equally puzzling was the aversion to singing "Let Us Break Bread Together" which appeared to mean that the translator had rendered it "Let Us Break Each Other's Heads."

KENDALL'S SPAVIN TREATMENT

Household Hints

Valuable Recipes For the Busy Housewife

Yorkshire Pudding

2 egg yolks, ½ teaspoon salt, 2 tablespoons sugar, 1 cup hot milk, ½ teaspoon lemon extract

Beat egg yolks and add sugar and salt. Add hot milk and cook in double boiler until mixture thickens. Cool and add flavoring

Fruit Cream Filling

6 cup heavy cream, 1 ½ cup figs, 1 ½ cup powdered sugar, 1-2 cup pecans

1-2 cup Sea Mold seeded raisins. Few grains salt, 2 teaspoons lemon juice

2 tablespoons chopped walnut meats.

Beat cream until stiff and add sugar, salt, nutmeats, figs, prunes and raisins, cut in very small pieces, and add lemon juice

Walnut Used in Many Ways

The walnut in Ontario is almost indispensable in the kitchen, and the nut's place in the raw state and used for producing a cooking oil. The nuts are pulled in the green and then pressed with a rolling pin Jam made from the green walnuts and large quantities are used in the production of a very potent brandy.

WEAK DIGESTION DUE TO POOR BLOOD

Perfect Digestion Will Come If the Blood is Made Rich and Red

The blood is the tonic that makes all tissue and a tonic for every other part of the body. Make the blood rich and good, as does every other organ, and health will be established.

There can be no perfect digestion without plenty of good blood. The blood is also directly true. The way, then, to tone the stomach is to make the blood rich and red. Any person who is in doubt as to whether his blood is rich and pure has only to look at the nails and the whites of the eyes. If these are pale and white the blood is thin and watery. Nothing will make rich, red blood so surely as Dr. Williams' Pink Pills. They actually make new blood, and in this way reach every part of the body. Mrs. Thos. Lessard, Hospital, St. Pays, Quebec, is one of many who have found health in Dr. Williams' Pink Pills. She says: "I was in a very weak condition and was troubled with dizziness and headaches. I was also very pale and had no appetite. I was induced to try Dr. Williams' Pink Pills and after using two boxes of Cuticura Ointment, together with the Cuticura Soap, I was healed." (Signed) Mrs. Clarence Lessard, Hospital, St. Pays, Quebec.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A French scientist has succeeded in making gasoline at the rate of 2,000 gallons a second.

Use Miller's Worm Powders and the baby against worms is won. These powders correct the unhealthy conditions in the stomach which nourish worms, and these destructive pests are then easy exist after they cause in contact with the powders. The worms are speedily removed with other refuse from the bowels. Concentrated as imparted to the organs and the health of the child steadily improves.

The Languages

A good authority say there are 3,064 spoken languages. Of these 587 are distributed as follows North and South America, 142; Asia, 377; Europe, 64; Africa, 120; Australia, 77. The native language is spoken by more than 15,000,000 people: German by 75,000,000; Russian by 50,000,000; French, 40,000,000; Spanish 12,000,000; Italian 40,000,000; and Portuguese, 10,000,000.

Mrs Hoban (to guest who has just refused a cake)

"Now, Mr. Smith, I know in a mild sense when I do the job.

Healthy babies mean good citizens of the future. When mother's milk fails use Borden's EAGLE BRAND

Hundreds of books have been written on economy, but what we want is a yorkshiren that will render economy unnecessary.

History Of Tea

Industry Was Established in the Fourth Century, B.C

The history of the tea-growing industry is said to have commenced in Assam, but it is a native product of the China Christ, and to have reached Japan more than 1,000 years later. Tea was unknown to Europeans until the fifteenth century. When Mallet, a Portuguese navigator, in his life in "the Indies" as a product of China and Japan was until 1615 however that tea was introduced to England. During that century small quantities found their way as presents to wealthy Londoners, or later into the markets. The first direct importation from Japan came from Yokohama to San Francisco in 1869

In successful greenhouses tea is often grown as an ornamental plant and as an object of interest. The plants are managed just they grow relatives the camellias but are to be more larger and more limited in their own especially because their flowers are equal tare, and hence less useful for the fruit those of the camellias

Soldier Settlers' Success

Eighty-Five Per Cent. of Ex-Soldiers Are Making Good

More than $100,000,000 has been expended since 1919 in settling ex-soldiers on the land in different parts of Canada, according to Major John Burnett, Chairman of the Soldiers' Settlement Board, who in a recent address told of the great and successful activities of that organization. Some 20,000 men representing a farm community of 120,000 people, have been located, and 85 per cent. of them are making good.

Over 50 per cent. of the soldiers had no land to speak of when they went on them as it was due and the country is conferring the money as a return for between two and three million dollars a year. The Soldiers' Settlement Board has over 250 inspectors who are located at various centres throughout the Dominion constantly traversing their farm to keep in touch with the troubles of the soldiers, offering help where possible and doing everything in their power to further the success of the undertaking

The delegates from here were the Misses Betsy Ness, Borghild Fandang, Nora Hanson, Emma Anderson and Ruby Horem.

Rev. Illy a return Missionary addressed the Lutheran Young People at their meeting on Sunday.

BORN To Mr. and Mrs. Benoir Anderson on July 16th, a son.

Mr. Milo Stainmo and family have returned to Alberta after an extended stay in Nebraska

Mr and Mrs. John L. Stauffer returned on Friday from their Nebraska trip. They attended the Conference at High River on the return trip.

The road north from the Grand Forks school house is being graded

Mr McHeffey of Tofield is helping the Rude and Finseth Brothers fix their brooking plows.

Frank Lowis was calling on old friends here last week.

On Tuesday afternoon, due to the temporarily of the Canadian National Railway and the gratuitous energy of over two dozen citizens mule street from the depot office to the theatre was covered with a layer of cinders. The improvement is most marked and will be more in evidence when traffic has packed the cinders hard. Quite a number have commented on their labor but nothing back and blistered hands were the only casualties reported.

Mr. Paridis wishes to inform the ladies of Tofield and district that she has accepted the agency for the California Perfume Co., of Montreal. Mrs. Paridis will be pleased to show her samples of perfumes, toilet articles etc, and to accept orders

THE TOFIELD MERCURY

VOL. IV. NO. 16 TOFIELD, ALBERTA, THURSDAY, JULY 26 1923 SUBSCRIPTION IN CANADA $1.50 U.S. $2.00

Natural Gas By October 1st

MR. VON PIEL GIVES INTERESTING ADDRESS

Immediately following a short session of Council on Monday evening, Mr. William Von Piel, Jr. gave a very interesting discription of different matters connected with the installation of gas. Mr. Von Piel's remarks were more of a conversational nature, many of them being answers to direct questions from members of the audience He stated that there are nine wells in the Viking field ready to supply gas and a tenth one being made ready. At Viking there is a pressure of 750 lbs to the square inch which is reduced so that upon reaching Edmonton it is 75 lbs to the square inch. This in turn is reduced so that the house pressure would be two ounces per square inch This gives a nice flame about 11 inches high The gas is clean to use, there being no smoke, soot or other dirt. Ranges and stoves are however all connected with chimneys so as to provide escape for a small percentage of dangerous that is left after the gas has been burned. Unlike coal gas it is not poisonous, that is a small quantity of the gas in the air would not hurt a persons lungs, but of course, one could not breathe pure gas.

The majority of present heating appliances could be easily transformed into gas burners, without injuring them for further coal use. The cost of changing a cooking range from a coal to a gas burner is about fifteen dollars. Furnaces and heating stoves can be equally well transformed. The cost of piping complete from the property line to basement will would be 25c. a foot, inside the house about 25c. a foot.

Gas will be turned on about October 1st. There are now four outfits digging ditches and pipe will be laid with all possible despatch. The piping of the house and the using of gas does not increase the insurance rates.

Mr. Bassett of the company will be at Tofield in the near future with a number of appliances of various types, and will take applications for gas. At Viking out of a possible 80 users 73 had signed contracts.

Lindbrook News Budget

A dance was given by Mr. H. Rogers at the School house on Friday evening the 13th in honor of his sister Miss Lily Rogers who is on her vacation from the General hospital Edmonton. Mr. Chas Morden took on the job of M. C. and ably fulfilled his duties. The music was supplied by the Smith Foss Orchestra and everyone thoroughly enjoyed themselves. There were quite a number present and the dance went well, especially coming as it did in the interval between spring work and haying. The weather also was fine for the occasion and everything went to make it a very successful and jolly affair and all present state that it was A.1. in all respects.

Quite a number of our residents made their pilgrimage to the Edmonton fair this week.

Mr. E. W. Hooper went to the city on business on Monday

Mr. Wilson Senr., was a visitor to Edmonton this week.

Miss Grace Lepine has gone to stay with her grandmother at Camrose for awhile to help her, the old lady having been ill.

Mrs. Goulmuit and child were also visitors to the city this week.

Miss Lily Rogers returned to her duties at the General Hospital, in Edmonton this week.

Some traders may wonder why we Lindbrook men appear so sad last week, well folks its like this. We're mean acres of a good crop and ye ken fine what that means, especially this wet weather, eh! eh!

Jury Disagree

MONTREAL, July 24—Ten citizens of Montreal, called to decide whether Roy Adelard Dolome was guilty of having murdered his half brother, Raoul, decided after hearing evidence, addresses by counsel for defense and the crown, and the summing up by Chief Justice Sir Francois Lemieux, in the court of kings bench, that he was guilty of murder.

Two citizens, the remaining members of the jury, refused to agree with their fellows, and the disagreement being reported in the jury was discharged this afternoon by His Honor.

It was not until it was very clear that there was no hope of agreement that His Lordship reluctantly dismissed the jury. The dismissal followed the second report of disagreement reported during the day.

The Most Important Question

Of the hour is, "Have you insured your standing fields of grain against hail?"

The crops this year have a value greater than ever before, because through them the country will be changed from adversity to, we hope, prosperity.

The rest is slight according to the benefits received. Insure now and be safe.

I represent the best of companies.

THE WISE MAN INSURES

Office Phone 24, Residence Phone 44, TOFIELD, ALTA.

Local News of Interest

A movement is on foot to hold a combined Tofield—Ryley civic picnic. The idea originated in one of the fraternal lodges and has seemingly met with great favor. Date, place and time are still undecided and will probably be announced by those in charge in ample time for all to participate.

Additional local visitors to the fair at Edmonton were Mr. and Mrs. McKerrol and Marjorie Mr. and Mrs. W. Bowick, R. W. Pinnell, D. H. Todd, J. W. Carter, J. Wentherill, H. T. Ward and others.

Mr and Mrs. H. Rogers visited Edmonton on Tuesday.

M. C. Allen, local agent for the Imperial Oil visited the capital city on Monday.

Mesdames John Lee and Jack Bell left on Friday to visit Mrs. Johnson at Battleford and Mrs. Beatty at Fort Pitt, sisters of the ladies.

Colin and Evelyn Allen returned home on Saturday after camping at Gull Lake for two weeks.

The Trail Rangers left on Thursday morning for Hastings Lake, where they will camp for a week. Rev. Watt and W. Swift are in charge of the group. Visitors are cordially invited to camp. Bring your own rations. Many thanks.

Mr. Bell spent the week end at her home in Edmonton.

The editor took at the Mercury Office has been beautified for over a week by a large bouquet of Sweet Williams, the gift of Mrs. Bates from her garden. Many thanks.

On Tuesday the scholars and teachers of the United Church Sunday school held their annual picnic. The site chosen was just north west of town in a delightful grove The usual races, sports and games followed, after which the big event picnic supper which everyone enjoyed was held.

Mrs. Lott and son Kenny are visiting with Mr. and Mrs. W. Bowick for a few days.

Mr. Johnson and Miss Johnson of Calgary have been visiting the past week at the home of Mr. and Mrs. McLaughlin.

Mrs. McLaughlin, Ruth and Donald left on Monday morning for Calgary, where they will visit for a week.

Mr. R George Watt, principal of the School at Jasper Park arrived home on Saturday evening to spend the vacation in Tofield

BORN—To Mr. and Mrs. Best McIntosh on Friday, July 20th at Edmonton, a son.

Mr. and Mrs. H. Rogers visited Edmonton on Tuesday.

Mr. Pinnell is manager of the Imperial Oil Co. at Tofield and has been quite possible at all times.

It started in South America it came to a climax at a recent [illegible]. It ended on board a boat What was it? Rev. You Never know but don't let the secret get away, at the Scouts Theatre on Saturday, July 28th

On Monday evening a baseball game took place on the local diamond when Tofield Twins boys clashed with Ketchamoot. The game was keenly contested the winners winning by a 8-6 score Glenn Woods and H. Lewis pitched for Tofield and Albert Sears and Earl Owens pitched for Ketchamoot.

WEDDING

BONAGHY—LEITCH

At the manse, Tofield, on Saturday, July 21st, 1923 Gordon Sargent Bonaghy of Leduc to Alice Mary Bache Leitch of Tofield Rev. R. G Watt, pastor of the United Church officiated

While at Duke, N. W., the members of the Canadian Weekly Newspaper Association were much interested in the gathering of grasses by farmers for fertilization.

In Old Halifax

Before boarding the train at Grand Pre the party had the privilege of seeing the statue and church erected to the memory of Evangeline, the heroine of Longfellow's immortal poem depicting the expulsion of the Acadians from this section during the war with the French in

The next stop was at Windsor where an automobile driver was taken for about thirty minutes From Windsor we run into Halifax arriving there at 8.45 Sunday evening

Monday and Tuesday were sensation days The sessions were packed full of interest before the equipment and business was got through with the special of an express train Consolidation time is given to the considering of business of different subjects, led by the chairmen of the committee covering their subject, such as editorial, newsgathering, advertising etc The emphasis was always for better papers, better papers

At the first session the association were heartily welcomed by Mayor Murphy of Halifax and Premier Armstrong of Nova Scotia. At the close of the sessions at four o'clock on Monday) special street cars conveyed the delegates and ladies to Bedford Basin where afternoon tea was served They were shown through a new and splendid building, now being completed, Sherriff Hall, which will be occupied by 1,000 student for the evening the Mayor and the Mayoress entertained at the Wanderlie Club, a beautiful place on the South west Arm. At 1 o'clock a band discoursed music while those who desired could ride the waters of the sem either on a single canoe or a motor boat Inside the club house a dance was held Early Tuesday morning many visited St. Paul's the oldest protestant church in Canada attended a session at ten and in the north of Dartmouth visited the pulp and paper mills and at three o'clock the whole party were taken by a tug around the harbor, the north west arm and the spacious Bedford Basin. One boat trip took us past the spot where the terrible explosion occured in 1918. The harbor at Halifax is splendid one, the largest unless affected by ice, able to find good anchorage there

Promptly 9 o'clock on Sunday the special train party left Halifax aboard the Canadian National special At the straight of Canso on the whole we had a delightful trip on board and I can assure you while the company usually slept in their berths Wednesday

RHEUMATISM OVER SAYS CONTRACTOR

Thousands of people everywhere have learned of Tanlac through the statements of others and have taken the treatment with such splendid results that they in turn down it easy for a while their experience for the benefit of suffering humanity. Such is the case with L. Dannemora, well known Electrical Contractor, living at 1466 Bert St., Montreal, who says

"I wouldn't do what else than publicize my experience Tanlac for I was lucky to find out about the medicine the same way myself. For nearly a year I suffered from lumbago, sciatica and rheumatism in my legs. About a month ago I was laid up in bed for two weeks with this rheumatism and I had some of grippe. I lost about eight pounds and felt miserable.

"Three bottles of the Tanlac treatment completely improving my rheumatism has made my eating and sleeping better than they ever were I have regained my lost weight, and am feeling universally well Tanlac is great."

Tanlac is for sale by all good drug stores everywhere. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

Town Council Meeting

A regular meeting of the Tofield Town Council was held at the town hall on Monday evening. There were present Mayor McCauley, Councillors Bruce Chapman, North, Reith, and Worton.

Councillor Bruce requested that the suggestion had been made that the town hasn a civic half-holiday, on the second day of a joint picnic of the Tofield and Ryley I O O F Lodges and the Tofield Masonic Lodge. It was resolved that the Mayor should proclaim a civic half holiday on the day chosen for the event.

A communication was read from Mr J. Story offering to cut the weeds in the G. T. P. town site for $5.00. His offer was accepted. A number of accounts were passed for payment, after which the Council adjourned in order to hear Mr. Van Pleal, K.C. speak on gas matters.

[illegible] here

[illegible]

With a population which is over 70 per cent rural Saskatchewan has a larger automobile registration than any other province. One in every 15 people owns a car.

One of the largest fish caught in the history of Lake Temagami was recently caught by E. S. Rankin, with a small hand line. A light steel rod landed a salmon trout weighing 24 pounds and measuring three feet in length.

In 1920 there were cut in Canada 4,661,626 cords of pulpwood. This would, if piled four feet high and four feet wide, make a wall 4 inches thick over 9,000 miles, or 4 times more than from Montreal to Halifax, and not over the Atlantic to Queenstown, Ireland.

Trees to the number of 14,500 were distributed among Saskatoon school children by the Parks Officials and Dominion Forestry Branch on the occasion of Arbor Day. Each child received one maple and one ash. Last year only 8,000 trees were distributed.

The Empress of France, of the Canadian Pacific fleet, now on the trans-Atlantic service between Hamburg, Southampton and Cherbourg to Quebec, holds the record for the fastest journey between Quebec and Liverpool, having crossed in 5 days, 22 hours and 33 minutes, just two hours less than the Empress of Britain.

General Sir Arthur Currie will unveil a memorial cairn at Sault Ste. Marie to Etienne Brule and his companion Grenoble, the first white men to bath, who found the Sault and discovered Lake Superior in 1622. The unveiling will take place August 7th during Discovery Week, when the Ojibways will produce "Hiawatha" on two afternoons.

Notwithstanding that there will be an increase this year in Canadian Pacific steamship traffic on the St. Lawrence, with 17 more sailings than in 1922, Canadian Pacific officials report that ships are being well booked and that according to present indications the 1923 season will show improvement in coast trade from both Montreal and Quebec.

Whales are reported early and plentiful this season and despatches from Victoria state that residents surrounding the inauguration of the deepsea hunt this year are the most promising in more than a decade. The demand for canned whale meat has become so pronounced that the Consolidated Whaling Co., the only producers in Canada, fitted out East head will be the distributing market for canned whale meat this year.

A replica of an old time Hudson's Bay fort, such as once was, the centres of the western parts of the great company, and which still exist in the far north, will be erected at the Calgary Exhibition grounds, July 9 to 14, as a part of the big Stampede feature. Special arrangements are also being made to provide a commodious camping ground for the Old Timers who will attend with the old-fashioned chuck wagons and cowboy equipment.

Running on schedule the Canadian Pacific Steamship's liner "Empress of Canada," Captain A. J. Hallet again demonstrated her right to the claim of "Queen of the Pacific." The Canadian vessel left Vancouver twenty-four hours behind the American liner "President McKinley" bound for Yokohama recently. The "Empress of Canada" docked about 5 A.M., and the "President McKinley" arrived at 8 A.M.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How is it Done?

Poverty and [illegible] carry us [illegible] a wonder. Something more is needed. Two sisters "patient industry is made with "dull persistence" and "good thought and methods."

Farmers today more than ever, must plan ahead as well as "plug along" [illegible] one operation, if they want to succeed. Co-operation, [illegible] hand will [illegible]. Farming in Canada has [illegible] now — so many [illegible] to be able to pay a dividend every farm. Canadians [illegible] know through how [illegible] in the past and can do so again.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa, [illegible] crops and crop feeding in 1922 as compared with Ontario average [illegible] Ontario figures are in brackets:

	Crop per acre	Profit per acre
Hay	$21.11 ($13.50)	$11.21 ($4.09)
Corn for Forage	$47.30 ($13.73)	$10.30 ($2.06)
Oats	$26.4[illegible] ($[illegible])	$ 7.13 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments however show that increased cropping costs wisely applied up to a reasonable point always increase the profits. This is true on the Experimental Farms and can be [illegible] every farm.

With the increased cost of production, the highest standard of living now prevailing cannot be maintained by poor methods. Permanent, "boarder" farmers, scrub bovines, poor quality hogs or unprofitable hens.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "live and let more" and "pay as you go," rather than speed, with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more highly priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 75% in the last ten years. Her ten cents readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, seed, breed.

To do better feeding means heavy manures and more generous supplies of palatable roughage. Short rotations including clean cultivated crops (corn, roots, sunflowers) and clover will provide feed in abundance for both summer and winter. The experimentary and investigations which the Dominion Department of Agriculture have carried on prove that farming economically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

As our growing crops, so production and so interested in fruit. We can give you information [illegible] and how to [illegible] Are you interested in [illegible] Are you interested in [illegible] of bees? Ask us for information. We have some that will help you.

We shall be glad to have you write us for bulletins and other literature, free, home and elsewhere dealing with questions of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

EMPRESS OF CANADA ESTABLISHES NEW RECORD

EMPRESS OF CANADA QUEEN OF THE PACIFIC

FOLLOWING the announcement that the Canadian Pacific liner "Empress of Canada" has been chosen to show the world to 500 tourists in a 20,000 mile Round the World cruise, leaving New York in January next, comes the news that the majestic two set has added to her laurels by establishing a new trans-Pacific record. On her last eastward voyage the "Empress of Canada" made the run from Yokohama to Vancouver in 8 days, 10 hours and [illegible] minutes, nearly eight hours less than the previous record which was established in 1914, and held since by the "Empress of Russia," a sister ship. The average speed of the "Canada" on her record trip was 23.4 knots per hour.

As with all Canadian Pacific liners the speed attained was no more than was compatible with safety in the opinion of the Commander of the vessel, and comfort for the passengers.

The "Empress of Canada" with a gross tonnage of 21,500 tons has accommodation for [illegible] passengers of all classes and a crew of 640. She [illegible] sister ship of the Pacific.

A large portion has been fitted for the carriage of [illegible] and refrigerated cargo.

The first class accommodation is indeed of the most luxurious description, including [illegible] rooms with [illegible] bathrooms in addition to the single, double and family rooms. The staterooms are of the most modern type, a telephone system between all rooms and offices affording an additional attraction to travellers.

There is even a well appointed swimming pool on board with a gymnasium adjoining. The large lounge and [illegible] rooms for concerts and the serving [illegible] which are a special feature of the Canadian Pacific liners. It was remembered when designing the interior of the Empress of Canada that she was to [illegible] the Pacific and the rooms are large and airy and the last word in marine architecture.

Captain Hailey, R.N.R., who is well and favorably known on both the Atlantic and Pacific, having been the Canadian Pacific as junior officer on the "Empress of Japan" in 1908, and he is the recipient of many [illegible] honours in his distinction as Commander of the fastest and best appointed ship of all [illegible] Pacific.

Resume of Events and Legislation Enactments by Recent Parliament During the Past Year as They Affect Agriculture

BY THE HON W. R. MOTHERWELL

An effort has been made, by not altogether disinterested parties, to belittle the net results of the recent session of Parliament.

Speaking more particularly with respect to agriculture, I may say that I thought myself any Session of Parliament since Confederation that passed more beneficial legislation on behalf of agriculture than the one recently prorogued. True, five months was a long time to spend in performing the work but that is one of the prices we must pay for groups in Parliament, all of whom have to have their say.

A number of Acts have been passed such as An act to amend and consolidate the Act respecting Live Stock and Stock Foods, to regulate the sale and inspection of Fruit and Fruit Containers, which can be merely referred to here as containing very important and up-to-date legislation in their respective fields. The same may be said of the amendments to Feeding Stuffs Act and the Dairy Industry Act, the latter of which provides for the prohibition of the manufacture and importation of filled butter, filled milk and filled cream—three pernicious practices that were quietly but persistently entrenched in this country in the advanced stage in which they were when the Dairy Industry Act was passed in 1914.

Another Act of importance is An Act to amend the Agricultural Instruction Act, which provides for the establishment of Agricultural Schools, Colleges and Experimental Farms, and for the co-operation with the provinces in connection therewith. Under this Act the Dominion Government has undertaken to establish a Dominion Experimental Farm at Beaverlodge in the Province of Alberta, and has also undertaken to co-operate with the Province of Alberta in the establishment of a Provincial Experimental Farm in the Peace River District

CO-OPERATIVE MARKETING

IF THE farmers of western Canada are to have a wheat pool for this years crop, somebody has to do some hard hustling. The general opinion seems to be that it is not possible [illegible] even if it is not possible [illegible] it would require an [illegible] number undreamed of by the average person. If the [illegible] for co-operative [illegible] whether a pool [illegible] this year, it is [illegible] that a large number of people will lose faith in the prospect of ever having a pool and [illegible] the conclusion that it is something more to be talked about than something of a tangible nature to be put to [illegible]. The experience of the [illegible] recently passed will partly [illegible] them to arrive at this conclusion. If these [illegible] number thinking that the [illegible] cery believes they [illegible]. In spite of the [illegible] wheat pool became a [illegible] the night of the [illegible] cery is of the opinion [illegible] and how to go [illegible] something that is bound to come. Those who read the address of Mr. Aspinall given before the Minneapolis Board of Trade and recently published in the U.F.A. supplement cannot help but realize that there is more than mere talk connected [illegible] co-operative marketing.

There are several [illegible] points in his address that strikes the reader forcibly. [illegible] that the farmer is not [illegible] partly surrender [illegible] Mr. Aspinall's idea is to [illegible] large company of wheat producers with a profit [illegible] plan. The contracting farmer is both employer and partner. His labor is given in the form of wheat and his salary is what his wheat realizes, less [illegible] operating expenses. If [illegible] occurred [illegible] year or that [illegible] considerably from [illegible] must be shared [illegible] by the laborer, as in the [illegible] labor cannot jump to Canadian [illegible] and how to go [illegible] body at present known. A co-operative marketing scheme will, so it is claimed, result in prosperity for whole states or provinces. This being so it would appear that the banks and capital in general would be glad to do all in their power to assist the prosperous rural population [illegible] prosperous banking institutions.

Mr. Aspinall says he knows all the objections generally quoted, viz: that we only supply about one fifth of the world's wheat; that we sell in a world market, that wheat is being harvested somewhere every day of the year, and that co-operative selling, [illegible] is in some way [illegible] different to the co-operative selling of oranges, lemons and raisins. Nevertheless, while he claims commodity control is [illegible] to be desired it is absolutely necessary. If [illegible] quite right, saying California can sell eggs in New York at better prices than Rhode Island.

Our view point is, every one pulling one way, the scheme is assured of a certain degree of success. If the farmers themselves fail to support it heartily, the benefits will be small. If [illegible] pool develops from any specific [illegible] will be a [illegible] more difficult but [illegible] scheme will eventually be [illegible]

Seven Stalence Sermons

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural product.

Canadian farmers who have earned the capital invested in their farms out of poverty in farming are numbered in thousands. Those successful farmers have paid off their mortgages, stocked their farms and stables, bought the machinery, made a good living and brought up their families. It never has been [illegible] to buy they are independent.

We Must Cut Production Costs

Canada is meeting with the keenest competition in the world's markets for [illegible] products. [illegible] Canadian farmers [illegible] to meet [illegible] grain [illegible] world [illegible] The quantity and the quality of the products and the cost of production in competitive areas [illegible] are controlled [illegible] agricultural products [illegible] the world [illegible] By increasing production we will not help the Canadian farmer.

Money in Mixed Farming

In recent years, at different points on the prairies, cattle fed in stalls have brought from 70c to $1.00 against the Fort William price of 65c per bushel, while barley used for [illegible] exports has brought [illegible] Fort William price [illegible] Farmers marketing their [illegible] in this way lower [illegible] a ready market and [illegible] their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and ranchers to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying for feed, labor, interest and depreciation, the net profit per pig was still $4.83.

Profits from Sheep

As sweeping orders, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are to-day many flocks returning generous profits to their owners.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island marketed co-operatively in 1924 poultry and eggs to the annual value of nine million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving common glut in their local market.

There is a market for good Canadian horses, whether light or draught.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it in the south. Canada produces potatoes, but imports other seeds. Give her the opportunity to grow seeds for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our bacon and hams, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us in the British market. Eventually she will herself be an importer of many other food staffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Have Faith in Canada

Announcement on Wheat Pool Expected

Wether or not Premier Greenfield will, during his address on the subject of trade luncheon Wednesday noon, come out openly and declare that a sentiment what pool canst it in his opinion be organized in time to handle this year s crop, it is now fairly well established that the provincial government will not allow itself to be drawn into a scheme of this kind

Naturally Premier Greenfield will not admit that this is the conclusion of the government but all indications bear out this deduction. President H. W. Wood of the U. F. A., who spent the week-end with Mr. Greenfield states that in his opinion a wheat pool cannot be launched this fall. The Premier himself stated as much in an unofficial manner Monday, and it is known that other ministers of the cabinet are strongly urging the Premier to keep out of any entanglement of a hastily organized pool this year.

Without divulging authorities it may be stated further that a wheat pool can be successfully organized even with ample time for preparation in the west It is understood that Aaron Sapiro at the request of the late Drury government attempted to organize a marketing pool for cheese producers in Ontario and Failed It is pointed out that wheat is much more of a world commodity than cheese and therefore marketing control even under co-operation of the majority of the farmers of the west would be difficult to establish

In any event considerable interest is being manifested in the address of Premier Greenfield Wednesday at being expected that he will come out openly and discuss the government s attitude toward the proposed pool

Here and There

Over a thousand moose just representative species were collected by the headquarters branch of the Department of Marine and Fisheries during 1922.

Inbound ships from the United Kingdom are averaging 5,000 tons of freight for discharge at Vancouver harbor, they take about 9,000 tons per vessel. Last year the average outbound tonnage was practically the same while the inbound was only about one tenth of what it now is.

Announcement has been made that a Government wireless station is to be erected on St. Paul's Island, which stands s the entrance to the Gulf of St. Lawrence, off the most northeasterly point of Nova Scotia. The Government engineers engineers have arrived there and are making arrangements for the erection of the station.

One hundred and forty thousand Canadian school boys have been banded into an army of guards to watch the forest during the present fire hazard season of 1923, according to an announcement just issued by the Canadian Forestry Association. The new organization, which is known as the Young Canadians' Forest League will, it is expected, save several million dollars worth of timber from fire ravages.

That prospects for increased immigration into Canada are very bright was one of the most important statements made by E. W. Beatty, K.C. upon his return from an extended tour of England and Europe recently. The president of the Canadian Pacific Railway became quite enthusiastic over the future of Canada s progress as the matter of immigration is concerned, he considers, to offset erroneous impressions abroad that Canada does not require new settlers.

A record run between Winnipeg and Quebec was recently made by a special Canadian Pacific train which, excepting from the Orient, [illegible] delay caused by landslides, consisted of among other cars, [illegible] with the C.P.R. "Empress" [illegible] and the Pacific [illegible] covered the 1,275 miles [illegible] over 56 hours [illegible] Prior to the [illegible] the C.P.R. [illegible] Quebec to Winnipeg [illegible] [illegible] [illegible]

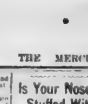
Is Your Nose Stuffed With Cold?



Head and throat stuffed with cold? Snuffle and sneeze? Then use Vicks VapoRub. Just rub it on. Its medicated vapors are released with every breath. Thus it carries direct to the seat of trouble. Stimulates a warm, soothing flow of healing nature to the affected parts. Relieves miserable distress. Helps break up a cold. Try it tonight. Use as directed. Also fine for sore throat, bronchial coughs, croup, tight chest due to colds. Vicks VapoRub

Coming Of Wireless Age

Mar. Direct Path of Everything Moving Across the Surface of the Earth

Marconi's startling message of the New Age: A British scientist confirms his claim and tells how a London newspaper in Canada has proved it. Wireless will be used in the near future to guide airplanes and ships through fog and storm, and all other forms of transportation will be affected. [illegible] be possible to steer the path of everything moving across the surface of the earth, by wireless energy beamed hither and thither from the air.

The belief crept in [illegible] that wireless waves were [illegible] and could not be directed. Then came the discovery that they could be reflected, and the wireless big beam on its height. In the [illegible] ships can [illegible] their course by the reflection of these waves. [illegible] is the possibility of their being used for sending a message [illegible] to the direct the path of everything moving across the surface of the earth, by such energies beamed hither and thither from the air.

A letter dated in Montreal, Nov. 1, 1922, from Mr. Marconi to the London Board of Trade [illegible] that wireless waves [illegible] the same laws as light waves [illegible] in the direction of the source of energy [illegible] the big parabolic reflector [illegible] the direction of the energy [illegible] the [illegible] of the [illegible] [illegible] [illegible]

Vancouver As Grain Port

With Increased Facilities, Will Soon Be In Position to Handle Vast Amount of Grain

Vancouver, B.C., has shipped about 75,000,000 bushels of grain from the crop of 1921-22 down to a date that is considered according to statistics handed out by the Vancouver Merchants' Exchange during the previous crop year, or about 5,000,000 bushels of grain more than was shipped from the port in the same period last year. It is expected that the export trade will be increased to handle a vast amount of grain.

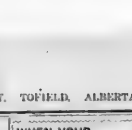
WHEN YOUR THROAT IS SORE



It may be only a slight cold, but a moment's thought will tell you that little colds soon grow large and dangerous. Often they become chronic, slowly developing catarrh and throat weakness.

Let us remember in the moment's delay in taking action at the symptoms of a cold we invite disease. Before the cough gets out the phlegm, soothe the inflamed parts, and prevent the cold from settling in the mucous lining of the throat and lungs.

Nothing CATARRHOZONE will do it LESS and more and again you keep the passages free from germs, and thereby prevent coughs and colds. The Dollar outfit, by lasts two months; small size, 50c, and by druggists. Ratton & Co., Manufacturers, Kingston, Ont. Send for free booklet—C.A. Medical.

CHAPTER XII

The Storm Breaks

The vigilantes had entered Dead Ox Butte at about the time Jack was saluting and gambling joints were in full swing. Blind songs and curses from the various saloons and dance halls mingled with the tinkle of pianos and the hum of voices. Here and there a cowboy spree or brawl—perhaps even a shot—would add its note to the general confusion, but on the whole Dead Ox Butte was behaving itself.

Not until the troop reached Monte Jew's place, which was the most imposing on them all, was real opposition encountered. Here a number of the bolder spirits from the Horseshoe had assembled and barricaded the building, spurred on by the knowledge that a rope with a running noose at one end of it would probably be their lot if they surrendered. The gang at Monte Jew's place, then, were in no humor to be trifled with. They had nothing to lose, and they knew it. Their only chance was to fight, and fight they would.

Before the first of the dozen or more horses had reached the door, a rifle had been fired from within, and the leader of the band, Bill Hanson, fell to the ground, shot through the body.

Monte Jew, who had taken from the start the position of commander, was the only man to remain unmoved by the sight of the fallen leader. He merely turned to his followers and said, in a voice that was perfectly audible to the defenders of the house:

"Well, there you are, boys. That's the way it goes. Who's next?"

Monte Jew's challenge was not long in being answered. Three men, who had been standing in the doorway, fell back into the room, and the next moment a volley of shots was fired into the crowd of horsemen. Two more men fell, and the rest, with a yell of rage, turned their horses and rode back to the shelter of the buildings on the other side of the street.

Then began a fusillade that lasted for fully ten minutes. Bullets whistled through the air in all directions, and the windows of the house were shattered to fragments. Not a shot was fired from within, however, and the vigilantes began to think that the defenders had all been killed or wounded.

Suddenly a man on horseback dashed out from the shelter of a building on the opposite side of the street and rode at full speed toward the house. He was armed with a rifle, and as he rode he fired shot after shot into the building. Then, when he was within a few yards of the door, he threw himself from the saddle and, with a mighty effort, burst open the door and disappeared within.

Almost at the same moment a man appeared at one of the windows and fired at the vigilantes. Then he, too, disappeared, and the next instant a dense cloud of smoke began to pour out of the window.

The house was on fire!

Those of the vigilantes who were still mounted wheeled their horses and rode back to the shelter of the buildings. Then, when they were sure that the fire was well under way, they began to shout and cheer.

Within a few minutes the whole building was in flames, and the fire was leaping high into the air. Nearly all the inmates had been killed or wounded by the fusillade of bullets, and those who were still alive were driven by the flames to the doors and windows, where they were shot down as they appeared.

Monte Jew was the last to die. He had been shot in the leg, and he dragged himself painfully to the door of the burning house and fell headlong into the street. Then he turned on his back and looked up at the sky, which was now lighted by the flames.

"Well, I've had a good run for my money," he said, "and I'm not sorry it's over. Good-by, boys!"

Those were his last words. He died with a curse on his lips.

Jack Hanson, who had been left in charge of the horses, was the only member of the band who escaped. He had seen the fight from a distance, and when he saw that the vigilantes were victorious he had ridden off as fast as he could go. He was not pursued.

The vigilantes had entered Dead Ox Butte at about the time Jack was saluting and gambling joints were in full swing. PUTS HEALTH AND VIM INTO WOMEN

So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and had a constant headache. I was at first a nurse girl, and then I had a position as a waitress, but I had to give up my work. I was so nervous that I could not stand the noise of the dishes. I got so I could not sleep. I had a bearing-down pain, and was nervous all the time. I was home, but I thought I would be better without my children, so I went to work. I was in a store for a while. I read in the papers about Lydia E. Pinkham's Vegetable Compound and had done for me. I began to take it. With the first bottle I felt brighter and got so I could walk better and every month helped me to more. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I am glad to say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. James H. MacPherson, 369 Greenwich St., Brantford, Ont.

If you are suffering from a displacement, inflammation, backache, or any other form of female weakness, write to the Lydia E. Pinkham Medicine Co., Cobourg, Ontario, for Lydia E. Pinkham's Private Text Book upon "Ailments Peculiar to Women."

A GOOD MAN GONE

CANADIANS 10 a man will greatly sympathize with their friends across the border in the loss by death of their noble chief. Illness and death following so closely upon a visit to his country, is additional cause for mutual grief and sorrow

DRAINAGE VOTE

IT IS rarely that one hears of a public election being unanimous. From the most beneficient of bylaws generally have one or two persons opposed to them. In fact in the majority of small towns there are a few people that delight in being contrary.

The result of the gas by-law vote on Friday last must have been very gratifying to the gas company. While of course their expenditure in piping the town is made strictly as an investment, it is nevertheless an expenditure and the buildings in town are scattered. Probably preparing it no superstructure of municipal funds, what the town spent thousands of dollars on and failed to get, was responsible for the unanimous vote. There was an excellent turnout too, 98 per cent of the eligible voters voting.

GAS—HOW WATER

AFTER YEARS of waiting Tofield will shortly be served with natural gas. In the business section will stand electric current for light and power has been delivered for a year or two. Both of these commodities are of far reaching importance and are a long step forward in the modernizing of our town. There is, however, one other thing needed, and needed badly, viz: a good supply of running water. Here at Tofield are the makings of an ideal country centre with the or a great essential lacking. Thus, coupled with mechanical ingenuity and business acumen have solved the light, heat and power problem. Who will, and how long will it take to solve the water problem? Nobody at present knows.

It has been stated that it is possible and feasible for Tofield to obtain water from Hastings Lake. From the lake to Tofield there is a natural fall and a creek running from it to within a mile of town. The idea is to dredge the creek deep enough so that there would be running water there all the year round. Perhaps a filtration plant could be installed in the creek, which would give enough power for distribution to the towns. This is really the germ of the idea, but like all germs, put in a favorable environment it is likely to grow. The cost, capital expenditure and upkeep we cannot even guess at, but suffice to say that if the cost is within reason, there are few ratepayers who would oppose the working out of a scheme of this kind.

TEACHERS' CONTRACTS

ANY TEACHER accepting a position with a school board to teach school, is under the educational act required to sign a contract, either for a school term or one year. Those contracts are properly worded and explain in the conditions contained therein. A condition of the contract is that either party can by thirty days written notice make the contract null and void. At the close of the school year, June 30th, a great many teachers enter their connection with the school they have been teaching in for the purpose your and immediately proceed to endeavour to procure another position. In their efforts to procure another school they have of quite a number and choose what in their opinion best suits their individual taste. The result is a contract is signed by teacher and board and one would naturally feel that for that year or term at least, the matter is at hand, the teacher getting a school and the school a teacher, settled.

Unfortunately, this is not always so. In the process of applying for positions, during the months of the present year quite a few hundred per cent increase in inauguration from the British Isles over the figures for the same period of last year

The 1923 apple crop of the Okanagan Valley will amount to 6,000 cars according to the estimate of J. W. Jones, provincial horticulturist. This is an increase of 20 per cent over last year and a record crop. Prices are quite satisfactory to growers and boundary districts will approximate $30,000 bonus.

A new high record of production in the Canadian automobile industry was established during May with 19,278 cars, an increase of nearly 10,000 cars over the month of April and 13,516 over May of last year. The daily production in May was 1,000 cars, the highest in the history of the Canadian industry.

Following the opening of the Banff-Windermere Motor Highway, a motor tour of the Rocky Mountain National Parks of Canada will leave here entered by the Kootenay Indians who are to form an honorary chief and full chieftain of their tribe respectively. The location celebrations were held at Invermere on the beautiful Windermere Valley.

Several motorists on route to the special in camp at Edmonton on the tour future for the purpose of extending the time limit on log pulp mills by airplanes. A base is to be established at Grand Lake near Sudbury, and from this point all Ontario fires will radiate. Operations being carried on at Orient Bay, Rene Lake and Lake Nipigon, other subsidiaries not yet announced.

If the Canadian census reports of flour are considered as 100, the Danish cow's milk product held between 1921 and 1921 can be considered as 207 per cent, whereas reports of the United States being rated at 147. This index gives the per capita export is at the rate of 147. The index gives the per capita export is at the rate of 147. This index gives the per capita export is at the rate of 147. This index gives the per capita export is at the rate of 147.

Mr. Georges Debrie, one of the most important passengers of France arrived in Montreal by the S.S. "Montcalm" to take up residence at St. Johns, Que. Georges is two and a half years old and has spent most of his life with his grand parents in Tourcoing, a small town on the border line of Belgium and France. The journey to Canada delighted the little lad and he was all agog with excitement at the sight of the watchful eyes of the officials and servants of the company.

Major General Lord Lovett, a passenger on the Canadian Pacific liner "Montclare," and delegate to the British Empire Forestry Conference, which is now in session at Ottawa, for investigations into Canadian forestry methods and applied science. "England has lost a great forest area in comparison to Canada, nevertheless, her forests are depleted two-thirds to meet the emergencies of the War, and now we are determined to restore this loss by practical reforestation. We have been working at this for the last three years and expect to make a completion of our work in say other year."

composed of farmers and business men, assumes that the teacher "means business." That is, they place as much confidence in his or her signature as they would the signature of one of their neighbors. A contract legally bound unto is not their idea if one or both parties to it. More than this it is the practice of school boards where another application is received, second and sometimes third choice, and when one teacher accepts and then withdraws it creates a hardship on both the board and the second choice of the board

The remedy can come from three sources. Firstly the teachers association can spread the idea that a contract is a contract." Secondly teachers and boards can refuse to sign agreements for less than thirty days of teaching date and thirdly engage bona fide teachers, on their merits only

The Strength Of A Bank

OVER one hundred and five years ago the Bank of Montreal was established with a single office and a capital of $350,000.

Today, after more than a century of conservative progress, the combined capital and reserve of the Bank amount to $34,500,000, its total assets are in excess of $650,000,000, its six hundred Branches extend to all parts of Canada, and it has its own offices in financial centres throughout the world.

The full resources of the Bank are behind every Branch

WORLD HAPPENINGS BRIEFLY TOLD

Royal assent was given to Lady Astor's bill, while prohibits the sale of intoxicating liquor to any person on any 18 years

Lieut. R. Irvin flying a Naval Curtiss seaplane at Port Washington, established a new speed record for any planes of 173.3 miles an hour

Lord Haldane addressing the 60th annual conference at London protested against the expenditure of £18,000,000 on Singapore as a naval base as proposed by the Government

Ismet Pasha has informed the Allied Near Eastern conference at Lausanne on nothing for the United States to participate in protection of Christian populations in Turkey who are Ottoman subjects.

Lord Curzon has notified the League of Nations that it has ratified the peace treaty notwithstanding the permanent court of international justice in the Hague, with certain slight reservations which are not of any sort of importance.

The restoration of the privileges attended to returned soldiers to support like a homestead-pre-emption land grant under the Soldier Settlement Board has been announced by the Dominion Command, G.W.V.A.

Lord Curzon, replying in the House of Lords to a question, said the first reverses to alleged Abyssinian slavery declared there was a good deal of slave raiding in British territory. It had been effectively checked, he said.

Twenty-five prisoners have been released from Moscow prisons through the efforts of special commissions appointed to investigate the severe sentences of Moscow courts and more releases in the prisons.

A conference of transcontinental railway executives at Winnipeg, to determine whether further funds should be appropriated for the use of the Hudson Bay Railroad to carry on freight moving train at Churchill, Bank adjourn and without any decision having been reached.

The Aftermath Of War

Ten Million Great War Veterans Drawing Pensions

The number of casualties among the combatants of the great war who are drawing pensions is estimated at 10,000,000 in a report communicated by the international labor bureau to a conference of experts being held in study methods of placing all of these men at work. Details given by several countries make a total of 7,324,000 and the bureau has computed for the three countries which did not submit figures

Germany has 1,537,000 pensioned men; Australia, 76,800; Austria, 164,000; Belgium, 100,000; Canada, 60,000; United States, 167,000; Finland, 16,000; France, 1,500,000; Great Britain, 1,500,000; Italy, 600,000; Poland, 270,000; Rumania, 100,000; Jugo-Slavia (former Servia) 225,000; Czecho-Slovakia, 262,000; New Zealand, 9,000.

Statistics are lacking for Turkey, Bulgaria, the Baltic states, Portugal, Hungary and Japan.

Something like 30,000 horses are killed in fast fights in Spain every year.

German Saved French Soldiers

Plunged into Rhine and Rescued Two From Drowning

Forgetting the general hatred felt by Germans toward the French a man by saw his endangered, Max Fiedl, an inn keeper at Kehl, plunged into the Rhine and saved two French soldiers from drowning.

Whom he was thanked personally by the French General commanding this area and asked if he desired anything as a reward, Fiedl pleaded for the lives of the seven Germans recently sentenced to death on charges of sabotage. The General promised he would forward his petition to the French Government

VICTIMS OF CANCER

No Explanation As to Why Some Are Immune

No one knows whether cancer is infectious, though a few years ago Sir Thomas Oliver in a famous inaugural address which seemed to prove that it is. Nothing is known as to why some are immune. Not much is known way the Thames valley should be particularly cancer haunted, or why among various occupations lawyers should be more liable to it than doctors and clergymen. Nor can it yet be explained why chimney sweeps should be prone to the disease, while coal miners, who also live in an atmosphere of dust, are comparatively exempt. Nor why any of those things there should be an increase in any appetite a better digestion and a feeling of strength and vigor when you can get these pills through any dealer in medicine or by mail, postpaid at 50c a box from The Dr Williams' Medicine Co., Brockville, Ont.

Asthma Can Be Cured. Its sufferers need not be as it is needless to endure. After 35 many years of relief of the most stubborn cases no sufferer can doubt the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with the use and nights of sound sleep come back for good. Ask your druggist. he can supply you.

Natural Resources Bulletin

Growth of the Province of Manitoba Since 1870

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa

On May 15, 1876, the Hudson's Bay Company ceded to Canada the territory known as Rupert's Land, which included the province of Manitoba, Saskatchewan and Alberta. For the transfer of this large area Canada paid £300,000. The first province formed was Manitoba, which entered Confederation in 1870. Fifty years later, in 1920, the value of the assessed taxable property for purposes of taxation in Manitoba was $1,198,611 by the Census Bureau. Farm buildings are valued at $111,811,195, implements and machinery, $67,817,000; and livestock, $77,120,656. In 1870 the population of Manitoba was 25,228, while in 1921 it was 610,118, 346 569 being rural and 263,616 urban

Compiled in Ksoff, Mother Grows' Work Visitmaker shows the progress of the conference of healthiness one end of the time was drawn up to England and the other direction to Halifax

Today at Halifax the wire joins the telegraph system which extends from Halifax across Canada to Vancouver and thence under the sea to Fiji, Norfolk Island, Australia and New Zealand

In a recent newspaper can pave between London to the Antipodes in 20 days. Thus are the far flung parts of the British Empire held together.

Baby Cutting Teeth Was Very Sick With Diarrhoea

When the baby starts to cut his teeth, especially during the hot weather, look to him that your baby's bowels are under the stress and strain of teething.

There is no remedy so safe and effectual for the teething complaints of infants, as Dr. Fowler's Extract of Wild Strawberry, so remedy that has had the endorsement of so many children mothers during the past 70 years. It has been on the market

Mrs. C. W. Myrtle, Carberville, Man., writes —"My baby girl was very sick with diarrhoea when she was cutting her teeth. I tried several different remedies, but nothing did her any good. She was growing worse when my mother sent me out a bottle of Dr. Fowler's Extract of Wild Strawberry. I gave her a few doses and the next day she was much better and in a couple more days she was as well as ever

Now, I always keep Dr. Fowler's in the house and recommend it to all those troubled with diarrhoea."

Price 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

To Prevent Adulteration

Supervision Of Canadian Grain Through the U.S.

The recommendation of the United States Federal Trade Commission for supervision of Canadian grain passing in bond through the United States to prevent adulteration drew an open comment in Government circles at Ottawa.

It is known that the matter has been engaging the attention of the Department of Trade and Commerce for some time.

The chairman of the board of commissioners, Mr. W. H. Hood, K.C., and the chief grain inspector of the board, went to the United Kingdom this summer to investigate the matter and their report is expected very shortly.

SYMPTOMS OF DEBILITY

How to Tell Whether Your Blood Needs Revitalizing

The symptoms of general debility vary according to the cause, but weakness, lack of appetite, a tendency to perspire and fatigue easily, ringing in the ears, headache, heart palpitation, dizziness, shortness of breath, backache, sleeplessness, rheumatic pains, twitching of the muscles and nervousness are symptoms that should be particularly noted because they usually indicate that the blood is thin and watery. Such blood cannot nourish the nerves properly, and consequently the nerves become starved and irritable. Nature has provided a remedy for this condition in the blood itself. Nature has provided a remedy for this condition in the blood itself. Nature has provided a remedy for this condition in the blood itself

Ketchamoot News

Everybody has been picking saskatoons the past two weeks. For miles around there seemed to be no end of them. Enough out the Beaver Hills and their pots and then to [illegible] to bushes fell, but enough are no more.

Miss Bertha Neal of Lake Shore visited a few days with her grandmother Mrs. Richner.

Mr. and Mrs. Stang of Victoria [illegible] night for a visit at the home of Mr. and Mrs. [illegible] Mr. Mitchell and Mrs. Stang are sisters.

Miss Ada Turner and Miss Annie Brown were passengers [illegible] city on Monday. Annie

friend Miss Bessie Owen.

Miss Ethel Ferguson [illegible] spent the past week with [illegible]

returned in the evening. Miss Turner staying the remainder of the week under the Doctor's care.

Mrs. G. H. Owen returned on Saturday from her trip to Edmonton.

The Ward Bros. are drilling a well for Mrs. Vera Hall.

Mrs. Fenech of Edmonton is taking charge of the housework at the Schultz home.

Mr. and Mrs. D. H. Mitchell and Mr. and Mrs. Stang motored to Clyde on Sunday and spent the day.

Ketchamoot friends join in wishing Mr. and Mrs. Roger Hay much happiness on the sea of matrimony.

Mrs. Martin and daughter are visiting with Mrs. G. McConnell.

Lindbrook News

The continued showery weather has not been conducive for haying, but during the last two weeks several gangs have been at work on the roads and much improvement is noted on same.

Mr. Jas. Garrett of Bevillon-Freres Edmonton was a week end visitor at Mr. and Mrs. J. Lemley's. He was accompanied by his daughter Lorna.

Mr. J. Pruden made a business trip to Edmonton this week.

Mr. F. Bedford who has been staying with J. Peck left this week for the prairies to take in the harvesting season there.

A slight frost was evident here during the last week and shows up considerably on the corn crops.

Messrs. Leon and Louis Lepine are away on a visit to their grandparents and other relatives in the Camrose district.

On Tuesday evening, July 31st Mr. Chas. Morden gave a dance in his hay loft over the barn. A large crowd assembled and all state that everything was fine. The floor, (just newly laid) being home-made and the music provided by almost all the local talent was up to scratch, so it was a pleasant time and a successful. The dance finished about three o'clock in the morning, but most people could have kept it going longer only, you know, there's those heavy eyes, etc., still to be done, would be without the wood-box, no one knows, so preference had to finish. Business first as usual and no kicks for the genial host.

Messrs. Thomas and Reggie Hooper of Edmonton returned home this week after spending a few days with their cousins, aunt and cousins, the Hooper family of this district.

Bardo Budget

The Rude and Finseth Bros. are breaking for C. J. Rude.

A number of people from here went to Camrose on Saturday night to hear Mr. Sapiro speak.

John R. Stauffer who has charge of the road work finished grading last week, from the bridge south of Grand Forks to Rood house, two miles north and east to the creek. Mr. Stauffer is a good workman and makes a fine road.

Mrs. Andrew Berg who has been in Camrose several days so as to be near her little son Donald, who underwent an operation in the hospital there, was able to bring him back home on Monday.

Mr. T. Rorem and Bernard Anderson motored to Banff last week. Bernard expects to go to the coast.

Mrs. Noss and Miss Betzy entertained the Ladies Aid and the Thimble Club on Wednesday

Alberta Co-Operative Wheat Producers Ltd.

OFFICIAL NAME OF WHEAT POOL

Calgary, Aug. 10th Alberta Co-operative Wheat Producers Limited, will be the official name of the organized wheat pool, it became known tonight In the first official statement concerning general outline of organization it is stated that the company organized under the Co-operative associations act will be an absolutely non-profit making company.

The organization will build around the division of the province into seven districts which will each represent as nearly as an equal wheat producing area as it is possible to mark out.

Contract signers in each of the seven districts will elect ten delegates, who in turn will name a trustee That seven trustees will hold office for a period of one year and he must be a wheat producer and must reside within the district he represents. Seven trustees will comprise the board of management.

Big Doings for Fair Day

Heralded and commenced by grand parade of decorated vehicles, including cars and floats, Tofield's fourteenth annual Agricultural Fair and sports day will be held tomorrow (Friday). Entries for the fair are piling up fast and there are all indications of a successful fair. The weather too upon which so much depends at least promises to be fine. In addition to exhibits of all kinds there has been arranged a good sports programme including baseball games, baseball and basketball.

There will be a picture show and dance in the evening.

The following sports are carded for this week:

1:30 Baseball game
2:00 Horse races
3:00 Baseball game
4:00 Basketball game
5:00 Baseball game
7:00 Dance
7:30 Basketball game

At time of writing draws for the baseball games had not been made. The teams competing will be Camrose, Chipman Ryley and Tofield. There will be a basketball tie for the final baseball game.

Basketball teams playing will be Ryley-Innisfree, Holden, and Tofield.

10 - INFANTS vs. TOMCATS

A baseball game between the Tomcats and the Bearcats was held on Tuesday evening. Some grey in the bleachers hearing the names said "these are scratch teams." However, while the Mercury representative did not see anything, they were certainly worth teams. The home team was divided up and with the addition of some local players a very fast second nine was [illegible] Hargrave and Lawson pitched and Lee pitched and Ruel caught for the Infants. While there was a very fair amount of fun the game of baseball was quite good. The line up was: Lemay, p; Lawson, p; Hargrave, c; Ruel, c; Lee, 1b; Soule, 2b; Calvert, 3b; Radalaugh, ss; Ball, lf; Harlson and J. Murray, rf. The line up for the Bear Cats: H. Lee, p; F. Ball, c; M. Lee, 1b; Chell, 2b; Carlisle, 3b; Wood, ss; C. Lee, lf; Scott and Al. Ball, rf.

Mr. J. A. Lafferty and F. W. Wright, Bank of Montreal inspectors are making an annual inspection of the local branch of the bank.

Mr. Wellhauer was an Edmonton visitor on Thursday.

WHEAT POOL

Sign-Up Week, August 20th to 25th

Alberta has decided to have a voluntary Wheat Pool. The government, the U.F.A. farmers outside the U.F.A., the business men in towns and cities, all classes are united in favoring a Wheat Pool as the surest method of improving marketing conditions—of helping the farmer—of increasing the general prosperity of everybody in this Province.

A Provincial Wheat Pool Committee has been named and has been working out the details of operation, including contract, financing and so forth.

This committee is confident about the outcome, provided that the farmers themselves show now that they have the chance to get it that they really want a Wheat Pool and are ready to go into one.

How can that be shown? In one way only. By signing up with the Pool. By signing the contract.

Contract Sign up Week has been fixed to begin August 20th. In that week it is hoped to reach every farmer in Alberta. Unless proper arrangements for contacts, there will be no Pool. It [illegible] you can, the Pool, sign the contract. If [illegible] the Pool cannot succeed. The Pool will be on. Pool. There is no halfway about [illegible] signing means success. No signing means [illegible] is been going.

Contract forms and all information are being sent to the I.F.A. Secretary in your district, who [illegible] M.L.A., Board of Trade and town office. Give us your name as a worker. Find out what you [illegible] here in Fast week is required now to get into operation this year. Cover your district thoroughly.

Here is your chance to get a real Wheat Pool. Sense it.

THE PROVINCIAL WHEAT POOL COMMITTEE.
H. W. Wood, Chairman
S. [illegible] Chairman
W. J. [illegible], General Secretary.
[illegible] [illegible]
[illegible] [illegible]
[illegible] [illegible]

Committee Is Chosen To Form Wheat Pool For Saskatchewan

Regina—By unanimous resolution, a large conference in the Metropolitan Methodist Church agreed upon the appointment of a committee to organize a board of control whose mandate will be a pool for Saskatchewan, at the conclusion of an address by Aaron Sapiro of the California co-operative marketing expert.

The committee is to consist of five representatives of the Saskatchewan Grain Growers' Association, five representatives of the Farmers' Union of Canada, five unorganized farmers also representable by the Provincial Government to be named by Premier Dunning, one bank, one journalist, one representative of the Saskatchewan Co-operative Elevator Company, one representative of the private elevator companies, and two merchants one to be the nominee part of the province and one in the outer part.

The representatives of various organizations on this committee of 22 are to be named by their executive bodies while the others will be named by a committee consisting of Hon. J. A. Maharg President of the S.G.G.A.; J. McPhail General Secretary of the S.G.G.A., W. N. Tarnaher, or Tessaner, L. C. Brouillette, of Lashburn, Vice-President of the Farmers' Union and Hon. Chas. M. Hamilton.

The proposals were submitted to the meeting by Premier Dunning, in opening who announced that it had been hoped to bring the Premiers of Alberta and Manitoba to the conference. They moved and seconded from the south were by a Brown, of Regina and J. Lamb of Germa as shown at Indian demonstrated that the meeting was unprecedented city gathering with a speaking of interest.

The text of Mr. Sapiro's address was similar to that which he delivered in Saskatoon dealing with the principles of co-operative marketing and the long term contract basis and not fixing the minimum which he contended should be adopted if the farmers are to succeed. He handled thoroughly the subject of the co-operative movement in the United States, pointing out the benefits which had resulted to the farmers of that country as a result of co-operative marketing. He urged the audience to take the initial steps towards the formation of a pool of this character.

Africans Should Not Be Taken Into Army

Mandates Commission Holds They Are For Home Defense

Geneva—General approval of the mandate given by the League of Nations was revealed by the permanent mandates commission at a public session closing its three weeks hearing on the reports submitted by the mandatory powers.

The commission found that the mandatory powers have fully protected the rights of the native populations. As outlined, the measures taken by the mandatory powers against the abuse of alcohol in the mandatory countries was considered satisfactory but the commission decided to recommend to the council of the League an act prohibiting the importation of alcohol into the African territories under British mandate.

The commission held that the spirit if not the letter of the mandates would be violated if the natives were recruited for the army, as it was intended they should be utilized only for defense and the maintenance of order in Togo and French Kamerun.

President's Body Taken Home

Thousands of Citizens Bid Farewell to Chief Executive

Washington—Stirring revived national grief spoke the nation's farewell as the funeral train bearing the body of President Harding drew out A throng of several men stood silent and solemn at the white Great folk and small in thousands stood silent with heads bared and the dusk fell as the day was gone But behind him impressive memories of the man he loved to know lying men's minds as they thought of him

Canada was officially represented at the funeral services Hon Arthur B. Copp Canadian Secretary of State came here at the instance of the Canadian Government He paid his respects to Secretary of State Hughes, who made it plain that his presence was that of a representative of the United States Government

Seeks Support For League

Toronto—A formal effort to secure the support of the people of Canada to support the League of Nations is to be made by Hon. Sir George Foster in the course of a lecture tour which he is commencing immediately the Toronto Star says. Sir George appeared on behalf of the League Union of Canada

Doctor Resigns For Manitoba Dead

Winnipeg—Dr. Gordon Bell, Provincial Bacteriologist and Professor of Bacteriology at the University, has quit at the General Hospital here He has been at Pembroke Ont., May 22 1862 He received his education at Pembroke Collegiate Institute, The Royal Edinburgh and Manitoba Medical College

Immigration in July

Ottawa, Ont.—The total number of immigrants who entered Canada during the month of July was above thirteen thousand Immigration from the United States was about normal

Government May Have A Purchasing Board

Consider Continuing Modified Form of War-Time Commission

Ottawa—A new system of purchasing for the Government, or, more properly, a revision of the old system, is under consideration by the Government

During the war a purchasing commission was appointed and this continued for many but not for all of its departments Wing the larger Government sought by legislation to make the commission permanent opposition within and without its ranks defeated two successive attempts Meanwhile the commission has existed in name only but latterly one commissioner, Lieut. Colonel LaPierre has been on the job and he also is provided for in the estimates this year

What is now proposed is purchasing by each department of its own needs with review by a committee of the Chamber of Supply and Services would act as secretary The sale and salvage of Government property is being placed in the hands of Lieut Colonel Bore of the commission staff

Withdraw Trans-Canada After September 30

Trains Leave Vancouver and Montreal On That Date

Regina—Dates of the withdrawal and service of the Trans-Canada Limited and the Mount-Royal trains a period of the year, were announced by G. D. Brophy, District Passenger Agent of the C.P.R. here

Now in and 6 these Trans-Canada Limited will make their last trip for the season leaving Montreal, Toronto and Vancouver, September 30 last Trans-Canada Limited in both directions and part through Regina October 2

The Mount-Royal, Nos 12 and 14 between Ottawa and Vancouver will be discontinued west of Moose Jaw on and after September 15 for the westbound train and September 19 for the eastbound train Trains will continue to operate on present schedule between Chicago and Moose Jaw, and Montreal and Vancouver The Montreal-Montreal section of train 11 Montreal-Toronto will be discontinued on and after September 19 Trains 1 and 2 the Imperial

Germans Mark Not Used

Merchants Are Now Using Dotor and British Pound

New York—Germany's depreciated pulp to the mark since the Ruhr invasion has ceased to pass where it is no longer used in business, even in foreign accounts, in favor of the British pound sterling, according to a statement issued in Hoboken by the North German Lloyd Steamship Company. Before they go, were using the dollar and the French pound, serving in both domestic and foreign business.

Insurance in securities paying interest has nearly ceased among the business houses of Germany, the statement of the mark the returns from such investments have reached a microscopic point At the same time prices of commodities rise as much as five hundred per cent overnight and the boom comes

Many Harvesters From England

London—During the first month of August 2,500 farm laborers have sailed by Canadian Pacific steamships for Canada in charge of the harvest operations in the western provinces, and 1,000 more who were booked for the same line have been transferred to other steamship lines. The total sailings for this period will be 3,000 than have been available to handle and

Resources Conference Deferred

Winnipeg—The conference with the Federal Government on the natural resources dispute has been postponed indefinitely Premier Bracken announced The meeting was postponed owing to the inability of western premiers to attend at this time, it is understood, as important negotiations were in progress

Chancellor Cuno Says German People Will Continue Resistance

Berlin—Passive resistance will be continued with all the strength of the German people, "free from mad acts of violence and terror," and the people in the unoccupied territory will "support actively" those in the occupied region Chancellor Cuno asserted in addressing the Reichstag when it convened for a short extraordinary session

Wiping his handkerchief over his big bald address he was prevented from speaking for some time by the clamorous applause which followed Communist deputy got very excited when the Chancellor and was called to order twice Quiet was restored to continue his scrupulous during his speech, which was received some what coldly by the house

If there is no right on the horizon which promises to speedily help, then it is for us to keep alive by means of our own iron determination," said the Chancellor in his peroration, "and to make every sacrifice; in this we must rely solely on ourselves We stand alone and must, and will, help ourselves

The Chancellor asserted that France was resisting only on-fifth of the total sum which the Germans had received and declared she would for hope for better facilities as the others and emphasized that Germany took "at the point of the bayonet for the benefit of the reparations

He counseled his hearers to have nothing to do with civil war and remarked that the Government would suppress with the strongest hand any civil disorder or rioting He pleaded for open discussion as a means of saving the nation and said that no himself was ready to resign when it was felt the people had lost confidence in him

THE LADIES STORE
The Store Where You Always Shop to Advantage

AS A BUSINESS month August is conceded to be slow. The hot sunshine beating upon ripening grain and vegetation creates a languor that is not conducive to active business conditions.

Then there is the waiting for the crop to be safely garnered so as to be absolutely sure one is to be recompensed for the labors of the season.

But the business world or an individual business can never be allowed to cease functioning. To make our August receipts come at least near other months we are offering special inducements to customers in the way of price reduction, even to the extent of sacrificing on some lines. The reason is obvious. We do not desire to carry goods to next season, but it is equally obvious that

Those who buy here in August buy at a substantial saving.

Wheat Pool Meeting

A well attended meeting of Tofield farmers was held at the Variety Theatre on Monday night. Called for the purpose of hearing an address by A. M. Matheson, M.P.P. and the discussion of the proposed wheat pool, there was a tense and expectant atmosphere rarely seen at Tofield public meetings. On the motion of Johnstone Ferguson, J. D. Hannan was elected chairman of the meeting.

Mr. Hannan said that as the meeting was called to consider the contract, he would ask some one to read the contract through. Mr. Fincut was asked to read the contract which he also afterwards acting as secretary to the meeting.

Mr. A. M. Matheson, M.P.P. gave an interesting and somewhat lengthy address on the proposed wheat pool. He said in part, that he did not think to be an expert in ... marketing, neither was he in a political sense. He had given the last night or ten days in order to study in this matter and believed that not 50 per ... [illegible]

THE FARMER FIRST

THIS WEEK from Monday to Saturday, will go down in history as an epoch making week for Alberta. During this week practically every farmer in Alberta will have an opportunity of signing a contract, that unless our judgement is at fault is going to mean dollars in his pocket. Up to time of writing the progress of the wheat pool at head quarters has been against head winds. Difficulties unsurmountable according to accepted business standards or otherwise seem to have been tackled and overcome. It is unusual for a joint stock company to ask for a hard and fast contract for the delivery of any product unless the necessary provisions for the handling of the product have been made. But there is the other side inasmuch as the Alberta Wheat Producers Ltd is in Alberta will have an opportunity of signing a contract, but must remain in that stage until sufficient contracts are signed, so they might possibly have no use for elevators. Without half or more of the wheat acreage under contract, the pool committee will have no use for elevators, nor is the question of elevator facilities to accepted business standards, to be acquired, something that could be tackled and overcome. It is unusual for a joint stock company to ask for a hard and fast contract for the delivery of any product unless the necessary provisions for the handling of the product have been made. But there is the other side inasmuch as the Alberta Wheat Producers Ltd is in Alberta will have an opportunity of signing a contract, but must remain in that stage until sufficient contracts are signed, so they might possibly have no use for elevators. Without half or more of the wheat acreage under contract, the pool committee will have no use for elevators, nor is the question of elevator facilities to accepted business standards, to be acquired, something that could be tackled and overcome.

If, say, seventy five per cent of the wheat acreage of the province is signed up to the pool, in all probability the present elevator companies will by desire one of selling. Persons desiring to sell, generally speaking, are easier to do business with than those desirous of holding.

One of Inspiro's earliest statements was that in order to procure the maximum benefits from a wheat pool, persons engaged businesses other than farming as well as the farmers themselves should be in favor of it. To be sure, this is no new secret.

To us it appears that even if it is unusual to request signatures to a contract before storage facilities have been provided, as long as those storage facilities are in existence and available for lease or purchase, there is no great harm done. In other words as between the elevator companies wanting to arrange for elevator space more instead of after the drive and the farmers desiring to arrange for elevator space after the drive instead of now, our sympathies are with the farmers. The farmer is the man who produces the wheat, taking all the risks as to whether he gets a crop or not. His wife is the woman who toils in order that the farm might produce reasonable financial returns, and in the matter of the Wheat Pool and the grain interests we unhesitatingly say — the farmers first

Seven Scatsee Sermons

BY THE SAGE

It is good to begin the day with a smile.

Argument makes three quarrel to one friendship.

A kind word is the purest gold to a struggler.

"Prayer is the key of the day and the lock of the night." —Phillip Brooks.

The person who is idle merely because he does not like to work is simply a respectable hobo.

The most profitless things to manufacture are excuses.

It never does a smile any harm to crack it.

Agricultural Opportunities Of Western Canada Are In Sound Position As Ever

(By G. H. Hutton, Supt. Agriculture and Animal Industry, Canadian Pacific Railway, Calgary, Alberta.)

I consider the present position appears to me to be in some respects as to the future of agriculture and as a business prospect in general in the West.

Extreme pessimism is a disease, and a review of the opportunities afforded in agriculture in the West may serve as a needed tonic to farmers and business men alike. In the farmers' case, we have been treated to a long series of articles on "those wonderful farm lands" and it is to have monthly visits to the business men's clubs of the present distressing mass psychosis again increasing low wonder, since the pessimistic view we see in agriculture and here elsewhere, is based on errors in that department of economic thought which never should have been.

I should like to consider briefly, the agricultural opportunities having in mind what has been accomplished and what still remains to be done by making the number of successful farmers a much larger proportion of a much larger population. Success is measured by which was best expressed by the late settler Dr. Seward when he termed the opportunity as one for the acquisition of wealth quickly and easily. In the years that followed the balance of life in some other business, as I see it.

I submit that there is no reason why the business men should not be as successful as the farmers. Indeed, the business men should be more successful, for their success depends largely upon the success of the farmers. Their success depends largely upon the success of the farmers. Their success depends largely upon the success of the farmers.

Here and There

Nearly four thousand men were employed by the Canadian Pacific Railway agents in England for work in the harvest fields of the Canadian West.

The increasing demand for wheat in Scandinavian markets has caused considerable activity in the movement of grain through Vancouver. Four boats left with bulk wheat for ports of Norway and Sweden, marking the first direct grain shipments from the Canadian Pacific route to Scandinavia.

The rapid increase in the export butter trade of Saskatchewan during the past year or two has been the outstanding feature of the province's agricultural activity, according to the Saskatchewan Co-operative Creameries which has exported of 19,000 lbs. of butter to China.

The export of gold bullion, gold dust, silver, and fine gold coin, besides, except as deemed advisable by the Minister of Finance, and as licensed by him, is prohibited until April 1, 1922, by proclamation issued by the current issue of the Canada Gazette.

Breaking all 1923 passenger traffic records, the Canadian Pacific S.S. "Montcalm," southbound from Glasgow to Quebec, docked recently at Quebec, and Montreal the same day, with a total passenger list of 502 cabin and 1,076 third-class passengers.

"There are hundreds of first class farm workers in Scotland anxious to come to Canada, and the Dominion and Canada could wish for, but their savings are not sufficient to barely support them and they are unable to accumulate funds for the passage." This is the opinion of Thomas Bowlzer, of the Canadian Pacific Railway Colonization and Development office in Glasgow, who recently arrived in Canada with a party of Scotch immigrants bound for the western provinces.

To J. E. C. Ross, director of the Canadian Pacific Railway, goes the credit of catching the world's record fish with rod and reel. At St. Andrew's Bay, N. B., he landed a tuna weighing 712 pounds in length, 9 feet 2 inches, girth, 5 feet. Commander Ross used a Vom Hofe tuna rod and reel, No. 30 thread line, with mackerel for bait. His catch took him one and a quarter hours to land.

The world's wheat crop this year is estimated at 2,210,000,000 bushels, as compared with 2,166,000,000 bushels last year, an increase of 2½%. Figures according to the Bureau of Statistics carefully compiled by the International Institute of Agriculture at Rome. The estimated shipments from supply countries for the season of 1921-22 are 500,000,000 bushels, of which Canada is expected to supply 200,000,000 bushels, or about one-third.

Canadian trade with Australia in the year, amounting to returns for the first six months ending with June, was $19,284,320 as compared with $12,000,000 for the corresponding period ending June 1920. Canada's imports from the Commonwealth have also increased. The imports from Australia for the last twelve months were $1,548,899, as compared with $1,371,071 for the year previous.

Okanagan and Fruit Conservation

The view is that of a Fruitdale new fruit district in the Okanagan Valley near which Mrs. Smith (insert) has created a fruit empire.

THE fruit products industry of Mrs. R. B. Smith of Naramata, Okanagan Valley, is a story of Canadian initiative that has assumed large proportions. After extensive research work and experimenting on a small scale, Mrs. Smith is this year rearing up a large plant for the dehydration of fruit at Fairview Grove, between Naramata and Penticton, where surplus fruit products will be prepared instead of canned for this year is 800,000,000 bushels, of which Canada is expected to supply 200,000,000 bushels, or about one-third.

The size of the new factory is a point in the very heart of the fruit district and convenient to the railway. A siding of the Kettle Valley Railway will be run into the premises.

The most important factor of the enlarged scope of the work is that the new industry will obtain such cheap and perishable fruit that would otherwise go to waste. Most of the fruit must be in a tree-ripened condition for dehydration and therefore much too ripe to ship.

Mrs. Smith was visiting on the prairies in the early stages of the war when conservation of food was beginning to be a vital question. She saw dried fruit in the grocery stores and said it had been to dwell on the possibilities of the dehydration of other fruits and vegetables. Later, visiting in the Okanagan Valley, she was much concerned over the large quantity of fruit and vegetables that could not be shipped so, with broad vision and patriotic idea, she began the evaporation of fruit. Mrs. Smith made an extensive study of the work and personal, despite the fact that men of experience declared that she could not do it. Then, other than crops that lie in the unique position of being the Last one in Canada she has dried fruit, other than apples, on commercial basis. Her dried peach is the only dried peach on the market, either in Canada or the United States.

Mrs. Smith, being very much interested in movements to promote the practical usefulness of women, declares that there is a large opportunity for women in this work, offering as drifts to keep a monopoly of the new industry, of which she may well be to be the founder, she hopes that all women in fruit growing districts may start a small evaporating plants to care for their surplus fruits, not only for their own households but also for others.

By dehydration a large part of the fruit and vegetables which otherwise would be wasted. The products are so reduced in weight and bulk that one railway car or one ship will carry as much dehydrated fruit as ten of fresh.

Mrs. Smith, in continuing to make a study of conditions, is opening up a new field and demonstrating that women are not natural homemakers of the men

Canada's Inland Fisheries Are Shown To Be Of Considerable Importance

The summer the Dominion Government Lands Department is undertaking a work of improvement and expansion of the interior fisheries of the Canadian lakes and rivers, where there are at present no fish, in order to preserve the immense, the more desirable varieties in the larger bodies of water in the direct vicinity of commercial fishing and those waters nowhere and other reserve fish. Lake and river fishing is profitable to the fishers, and attention has been directed to waterfish and other undesirable varieties, to the result that the one has become extensively depleted and the other increased tremendously, with the situation aggravated to the next that the members work year now and some years quantities of whitefish erga.

The Government is taking early precautions to safeguard the inland fisheries of the country. Nature, however, has to only permitted in certain seasons of the year and such laws as at settled in terms of fish to be caught, along with various companies engaged in the fishing industry, which is carried on on the lakes of Manitoba has been the most extensive. The catch of whitefish proportions. In the year 1920 Lake Winnipeg alone gave a total catch of 20,000,000 whitefish in addition to large quantities of pickerel and other species. Lake Winnipeg is the largest single inland waterway in the world, and it is estimated that it has a possible annual yield of 100,000,000 pounds of fish. Another large inland lake is Lake Manitoba, which has also been regarded thousands of miles as how from Chicago. There is also a large fishery in Lake Winnipegosis, which also takes, and the most of the fish thereon is brought to Winnipeg for consumption at the present time, the fishing industry in Manitoba is carried on by about 1,000 fishermen.

Curing Hay in Damp Weather

Artificial May Drying Is Success In Great Britain

Musing hay while the sun shines is a maxim. Has is now being practiced on a large scale in England by methods, some which the weather every has no control.

In these advanced sections, the hay is gathered green and cured as soon as cut and removed to a rack in the stack yard.

The artificial sun does the rest.

When the rick is built a metal cylinder is inserted so that an air current is formed. The rick will settle a 20 per cent. to insure the safety of the curing and sweating process. A fan is placed in the cavity and drives out the green and keeps it from heating.

It is claimed that not only do the farmers save the possible loss or serious crops through bad weather but also the claim that hay dried in the rick has a higher percentage of albuminoids and carbo-hydrates, and therefore increased feeding value.

The new method has been tried and approved by the Ministry of Agriculture and the ricks are appearing in all sections of England and Scotland.

Tending in Ice

Ice was first imported into England in 1822. The various officials were alarmed when they heard of it, much as they did upon the large importations and by the time that the dealers began to up as "ice grade" about the trade conveyors had moved. A Boston merchant who had made a fortune in the neighbor of the ice trade, and during the winter of 1805 he sent a cargo to Calcutta. Another to the West Indies in 1806 and by 1833 had established a regular trade in that article.

Turning to Dairying

Western Farmer Beginning to Realize That the Dairy Brings a Constant Revenue

That the west is fast coming to dairying was never more strongly evidenced than at the recent campaign into interior countries for dairy cows were bound for the interior of the country. Many of the dairy brings a constant and sure revenue. Although the price of butter fat was running lower than for other years, yet there was a remunerative return for the labor expended. Then, too, it is considered that dairying will bring greater prosperity and after more permanent, in forming it to the west and this will a great contribution to build up on solid lines.

Many a farmer went to the west a few years ago finds of the opinion that he could make more money going into grain than fishing cattle. He had no difficulty in selling some stock at all prices but now a strong. It was, good by dairy, but now he can see that he thought. But experience is a great teacher and those who have been dairying for years think one thing. Just that the prairie country.

Dairying communities have received the farmer on the new points. When passing by says has become with the new a trade's one going to a dairy town. In some localities in these to the dairy cows. The best cows are of all breeds, but some are better than others. A cow may not give more milk than another, but she will contain a more rich cream. Mr. Scotch has a record many of the producers have no idea that they are keeping boarders. Some cows are boarders. Some cows are boarders. Some cows are

Straight Talk On Danger Of Colds

Let your cold rain heedless, and you can't escape it. Don't neglect a cold. A slight cough, sneeze or sniffle in the same place is a danger signal. Don't let the trouble run and ruin your health. Don't gamble with your life. Don't risk pneumonia, grippe, other out of your system while you have the chance.

Fight home by inhaling CATARRHOZONE, which instantly reaches the seat of the trouble and gets right where the living germs of Catarrh are waiting.

CATARRHOZONE is full of healing balsams, and evaporates as you breathe it. Soon your cold disappears.

I am not cured," she insisted, at which he smiled shrewdly.

I'm not asking you if you're cured by taking the cure you are. Those cheeks of yours are jumping now with the pulse you pulsated to outside and you can look after him—dress! I'm a—

Yes, oh, yes!" she murmured, and then went and raised a simple fingertip. I'll explain what you've to do then. After that you better lie down and try to sleep. Wade won't need nurse for some days, except good nursing."

I'm not tired," she insisted at which he smiled shrewdly.

I'm not asking you if you're tired by taking the cure you are. Those cheeks of yours are jumping now with the pulse you pulsated to outside and you can look after him—dress! I'm a—

Protecting Our Resources

Speed Show On Forest Protection. Florence Lyons Offering Written for Sir Enough Fireside Men's

That we the Canadian people pay one eighty-five per cent of all our forest fires, almost upon the same ratio to international forest destruction is a spectacle quite unworthy of a nation that lays claim to farsightedness and foresight.

Unfortunately, most of us don't stand under the belief that the forests of Canada are perpetual growth. This is not true. The governments are now alone the owners of the bulk of forest wealth, but also shouldering the burden of protection. As long as we look to private companies or lumbermen and paper makers we are missing the main point. The people themselves must take on the job of protecting and preserving a resource that belongs to the next generation quite as much as to the people of 1923.

Do we fully realize that every million of timber we could find in Canada is rising market and that vandalism or careworld is bound to invest from centuries a higher penalty today than at any previous time? We cannot carry on the logging of Canada with our forests. Let us face that fact and all that it connotes. There is hardly any price that we cannot afford to pay for the enforcement of forest protection. I do not think it is at all unreasonable to say that no govern ment has the right to extract any more from the forests to be spent on roadways until provision exists every of tree has been made, and effective, spent, that will make the forest secure and self perpetuating.

Education and Health

Seventy Boys City Homes Have Best Time

Some urban communities, in spite of the crowds, are Lusitany places for children than many rural districts, according to the Infant Welfare Society of Chicago. Here are some striking charts for cities and for the countries where that lobber born in crowd ed cities have a better chance to live than children in the country, the no ban cities have a lower infant mortality because of the crowds, but be cause of them," says the report, "and the education of the mothers even more to be lauded."

"It is owing to the fact that we find it necessary to educate the infant Welfare Society fighting a battle against ignorance, which has sent a heavy toll in infant lives in cities such as Chicago, and that we find health depart ments in rural districts that are so unfamiliar that in spite of tre mendous records and hot waves, through educational campaigns and organization, we have not reduced the old idea that the country is a healthful place, with the idea that ed ucation may be made almost as effective in the country as in the city."

Makers Of Violins

Bavarian Village Turns Out Quite of World's Supply

In the Alps of Bavaria, in the heart of the Bavarian highlands, live those who manufacture the greater part of the violins of the world. Mittenwald has taken the place of Cremona, of the Lombardian city of the village, over 100 are exclusively occupied with the manufacture of violins, and the output reaches 70,000 violins per annum. They are exported to all the countries of the world. Each family of violin makers has its own model, handed down from father to son, but for general instruction in violin making an interesting school is carried on in the village.

What He Wanted to Know

A Scottish farmer met his minister one day and said: "I've got a boy back from the Holy Land, Mr. John." was the reply; "he's sane, safe and sound, as you see." "Hoo, I've often thocht," said the farmer, "I would like to hear o' that place frae one who has seen the country." "Well," was the reply, "I saw Lebanon, Jerusalem, Jericho, and the Jordan, and was up Mount——" "Eh, man me interrupted your host, said the farmer; "but if it's a fair occasion, hoo were the tarnips lookin' about the Jordan and the Dead Sea?"

British Empire a Babel

There are spoken in the British Empire today more tongues than people in the world. According to the statistician of the Tower of Babel, according to Professor Daniel Jones, an authority on languages.

In the entire empire, he says, there are from 500 to 1,000 distinct languages, India alone has 500.

Selfishness is the only thing that stands between some people and happiness.

The speech of the aborigines of Africa changes with almost every generation.

Keep it ready to serve at home

When it is needed, nothing else is so sure to please—so welcome, so delicious. Keep it ready in the home for the unexpected guest, and nothing is more convenient to serve—ordered by the case from your grocer or druggist, and a few bottles kept on hand in your refrigerator.

Know and quote a favorite every year for 22 years—since the first Canadian plant was established in Toronto in 1903.

Choicest products from secure sources. Modern methods. Our sanitary plant, with purified bottles, makes it pure.

Japs Object to Private Radio

Military Officials Fear Confidential Messages Would Be Deciphered

Efforts of a private wireless corporation to promote radio in Japan are being met by the opposition of Japanese military authorities.

Officials of the military department fear that should a private wireless system be erected official messages of a strictly confidential nature would be picked up and deciphered. The opposition has ruined somewhat, however, following the undertaking of the company to insure its operators to make no effort to raise in on the government radio and to dismantle its plant and valuable equipment should this agreement be broken.

The promoters of the radio in Japan believe they can overcome the objection that such a project as they contemplate would be dangerous to the Japanese people in the form of subversive subscriptions and propaganda, and that for this reason their plans should be allowed to progress without interruption.

Says Georgia Convicts Tortured

Charging that convicts in certain counties in Georgia are being suspended by their thumbs for hours, or bound to trees with heavy chains, or placed in torture boxes, Representative Bennett of Dekalb county, started the system of punishment now in use in county camps at a hearing before a committee of the Georgia Legislature. The committee voted against a bill to remove the use of the strap on county convicts.

Gin takes its name from Geneva, where it was first distilled.

Great Soldier and Hero

Justice and Courage Were Qualities of Sir John Moore

A statue of General Sir John Moore was recently set up in the town of Shorncliffe, Kent, England. It will remind Britishers of a fine man and a hero, but it is an emblem of something more, or something that has made British generalship goodness, justice and courage—qualities which rest in the heart and soul of the great and die. The story of his deeds at Corunna, however set in our minds by the fine poem, "The Burial of Sir John Moore"

It is not alone for his war record however that he is enshrined in the hearts of his countrymen. He is remembered above all things as a reformer of the army, one who swept away wrongdoing, injustice and brutality from the regiment with which he had fought and won—who, in his own life, was a model of the discipline he desired.

Go On We

The guests at a dinner party were being bored by a man with a loud voice who wanted everyone to know that his family belonged to the aristocracy. At last an old gentleman asked him what he meant by aristocracy.

"Well," replied the snob, "I should describe the aristocracy as those who do not work for a living."

"I'm surprise me," said the old gentleman—"I always thought people like that were called 'dreams.'"

Don't wait until tomorrow to pay last today.

A hero is a man who has nothing to say and insists upon saying it

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

New British Bagged 13 German U-Boats

Vice-Admiral Keyes Has Revealed Another War Secret

A war secret involving the destruction of thirteen German submarines was revealed at Folkestone by Vice-Admiral Sir Roger Keyes, when he was presented with the freedom of the borough. He said that in the October, 1917, a German submarine which had been blown up in Water Lead Harbor, was raised, with a most valuable mine-mine was found on her. There were details as to how German submarines put under or near the mine barrage across the Straits of Dover. The Admiralty then established a long line of small craft, manned by 150 fishing crews. The result was that thirteen German submarines never went living at the bottom of the channel between Folkestone and Cape Gris Nez.

Previously the losses of British merchant vessels had amounted to 2,000 tons per week per week, but as a result of this operation that was reduced by five or six thousand tons per week

Sealed in Its Purity Package

WRIGLEY'S DOUBLEMINT CHEWING GUM

An Example for Europe

Pan and homemade dwelling—that is the secret of peace and friendship between the United States and Canada. There is no necessity of coming or watching guns or huge battleships to guard the border against each other by either of the two countries. Building establishes the most peaceful barrier of defense. Could such a barrier be builded between countries of the old world? Can there be fair and honorable dealing between nations that for hundreds of years have been steeped in greed and intrigue, each looking with suspicious eyes upon the other in the game of greed and selfishness? Can old days be taught new truths?

Canada and the United States have the simple faith of childhood. They have never learned to suspect neighbors. It is a good thing to remember that they travel together along the path of destiny, each bent upon its own particular goal, but wishing the other luck the while. Can the older countries of Europe do as much?—Edmonton Times.

For Asthma, Pain

The Safe Home Remedy

NERVILINE

When sudden sickness comes, when the kiddies are in pain, when Asthma, Neuralgia, Rheumatism or Aches and Pains from exposure or overwork make you suffer, you want relief that is safe, sure and speedy. Nerviline is a family remedy that has been in use for over 50 years. Nerviline Penetrates to the seat of pain and drives out the cause. Nerviline is a powerful, penetrating liniment that is safe for all ages.

Coal for Ontario

Alberta Coal Goes to Ontario for Government Purposes

Shipment has begun to Ontario of 6,000 tons of Alberta coal under the contract which has been arranged by the Canadian National Railways for the purpose of conducting a demonstration in the use of western fuel in eastern power houses. The distribution of this coal will be undertaken by Howard Shanbary, Provincial Trade Commissioner, who is now in Ontario for that purpose. The coal is being shipped from mines in the Drumheller district, and from the Crow's Nest Pro hibita and Yellowhead Pass districts.

Big Shipments of Ore

Iron Ore is Moving Freely From Lake Superior District

Movement of iron ore from Lake Superior ports has begun in earnest and the largest attained since 1916. Shipments since the opening of navigation up to July 31, aggregate 10,884,731 tons as compared with 17,295,513 tons up to the corresponding date last year. The mounting of mining companies are now engaging that the tonnage shipped to the coal this season will approximate 40,000,000 tons and some expect that the record figure of 62,011,000 tons attained during the war period will be equalled.

Change of Water Change of Diet Change of Climate Cause DIARRHOEA

Mr. Fred Palmer, 217 Dalhousie St., Brantford, Ont., writes:—"When I first went out to the North-West the change of water, with my new bowels, and being in a remote spot I could not get medicine to give me relief for any length of time.

I wrote and told my wife about this and how I was suffering, and sent me a bottle of Dr. Fowler's Extract of Wild Strawberry, and I cannot speak too highly of it for what it did for me.

Whenever the children have any bowel trouble I always give them this drinking strange water, which they like, and it soon puts them right. I am living in the country, the only remedy we use is Dr. Fowler's, and nobody should be without it as it cannot be beat for instant relief."

Dr. Fowler's Extract of Wild Strawberry has been on the market for the past 70 years, you don't experiment with new and untried remedies when you buy it, but be sure and get "Dr. Fowler's" when you ask for it as a substitute may be dangerous to your health.

Price 50c a bottle; put up only by The T. Milburn Co. Limited, Toronto, Ont.

Third Smokestack at Dunsmuir

The tall smokestack of the Dunsmuir Mine is nearly a 1,347 gallon water tank, said to be the largest in Canada. Many schemes of the Middle Ages have been pushed to the fore that the rear stack never poured forth smoke.

Twenty Years' Growth

During the quarter of a century from 1901 to 1921 the population of Alberta increased from 73,000 to 587,846, of which sixty per cent are of British origin

More Trees On Prairies

Will Make Great Difference to Welfare Of People

Remarkable progress is being made by the tree line in its natural advance upon the prairies in the clearing away of the settlers' settlers' lands, the settlement of Mr Arch Mitchell in charge of the Canadian Forestry service in Saskatchewan.

In the Edmonton Bulletin, Mr Mitchell said. "The tree line of Saskatchewan has advanced from 60 to 100 miles in the last dozen years, and the general effect on the welfare of the farm—they always do good. The Tablets are sold by medicine dealers, or by mail at 50c a box from The Dr Williams Medicine Co., Brockville, Ont.

Ardenna Climb Brings Party To Summit of Mt. Mary Vaux

Quartet From Jasper Ranch Climbs of Camping Trip When They Make Supposedly Impossible Ascent

Two men from Jasper and two women from Chile, have just reached Jasper and report that after a six weeks' camping journey almost treacherous ride they have been successful in reaching the peak of Mount Mary Vaux, hitherto considered inaccessible. The tour was made the newest snow peak Reverential, Secretary of the Chile Federation of Chicago; Don Hershberg, Chicago; Miss Emily J. Widdecomb, of Kent, Ohio; Miss Mary Blakelow, of Medina, Ohio.

When the party set out from Jasper early in July, accompanied by Percy Unna, a well known guide here, they were told that they could never make

"The summit of Mary Vaux is unreachable," old-timers told them.

But the party had the experience and the courage to climb. "But all of the party had old Swiss alpenstocks and ice axes, and they attempted the ascent during the rush hour, ascending the mountain climbing. So they were used to hardship

They reached the top after six and a half hours of arduous climbing. The summit is 10,000 feet above sea level and affords a superb view of the Canadian National Rockies for miles around

Tobacco Grown in England

The cultivation of tobacco in England was officially forbidden until 1918. Many farmers then began to experiment, and in 1913 about 150 acres were under cultivation. Since the war the industry has had a hard struggle, but reports are now that things are improving, and many people expect British tobacco to take a prominent place in the world's markets.

Indians' Valuable Fur Catch

A very valuable parcel of seal skins for catch of the Indians on the reserve of Vancouver Island during the spring of this year was shipped to Vancouver for marketing. The catch was valued at

Immigration Figures Increased

Immigration for the first five months of this year was subject to a considerable increase in the number of new settlers coming to Canada from Great Britain United States and European countries.

Make it an every morning habit to shine with 2 IN 1 Shoe Polishes

A New Street Cleaner

Winnipeg to Test City to Use Suctions Sweeper

Winnipeg is the first city to adopt the dry, dustless system of street cleaning, according to Mr. Blakey, formerly a Winnipeg man, in the designer, has been purchased after the tests made before the city's representatives. It was proved conclusively that the application of water or sweeping after sprinkling with water, was not the proper solution of the dirt problem. For after the street has been swept a given area and then has been watered for the street to dry, the dustless sweeper passed over the same surface and left it not licked

Stop the Cough

Stopping is easy for old by Irritants in the throat. Pectoral Balsam and be the short cut to relief. Full directions in each package. Sold by dealers everywhere. Manufactured by The Thomas Eclectric Oil Co., Ltd., Hamilton, Ont.

Asks For Incorporation

Big River Bank, Will Be Furthest North Village

Application for incorporation as a village of Big River, Sask., has been made to the provincial department of municipal affairs by settlers at Big River Bank, about 30 miles west of the village, when incorporated, will be the furthest north of all the villages in the province. The settlement was almost seven years ago of lumbering interests, which have subsequently brought out locally and have drying and sawing mills. The natural resources of the district are varied, and the town is fast taking on a prosperous appearance.

American Flag to be Smaller

The Stars and Stripes is to be altered and all over the United States and in the embassies and consulates abroad new flags will have to be prepared.

The change, however, is not a very drastic one. It is not a change of design, but only one of proportion. There is to be a reduction of twelve and one-tenth per cent in the length of the flag, the ratio of length to breadth being in future 1.9 to 1 instead of 1.90 to 1 as in the past

Memorial to Columbus

It has been proposed that the bay at the mouth of the Ozama river be named as Santo Domingo as a memorial to Christopher Columbus, to be paid for and supported by the 21 republics of the western hemisphere.

THE TOFIELD MERCURY

VOL. IV. NO. 44 TOFIELD, ALBERTA, THURSDAY, SEPTEMBER 6 1923 SUBSCRIPTION IN CANADA $1.50 U.S. $1.00

Rural Council Meeting

A regular meeting of the Cornhill Municipal Council was held on Saturday afternoon. Those were present Messrs Thompson in the chair and Councillors Abernethy, Lee, H. E. Williams and Alf Williams.

Councillor Williams reported that there had been some new working of taxes in his district but no notion was taken.

The secretary reported that he had been approached re the installation of gas A discussion ensued on the probable cost, during which the Mercury representative was asked to give his opinion, he replying that the Gas Company had given on the assurance that connecting Edmonton Coal at 36.50 a ton and gas at 40 1.2 c a thousand cubic feet, the gas would be cheapest. On the motion of Councillor Abernethy the reeve and secretary were authorized to sign contracts for gas.

An application from Mrs E. Mitchell of North Cooking Lake for a restaurant license for that place was granted.

A number of communications were read among which were.

From an Edmonton hospital re account for attendance to Mr McDonald. There was some question as to whether Mr. McDonald was a resident of the municipality and the account was laid over.

From a government department stating that the weed drainage facilities of the Hay Lake Creamery were unsuitable. The creamery it was understood is not yet operating, but was owned by a local company and would be operated by the Edmonton City Dairy. It was resolved to let and a map of the section from the E. T. D.

From the Department of Municipal Affairs stating that there was nothing in the Arrears of Taxes Act to compel the immediate transfer of forfeited lands to the municipality. The letter suggested that advances had been made which the period of redemption expired could be given every opportunity to redeem and that legal transfer of the land to the municipality should be held over until the year ended.

From the C N R asking for a description of the location where the municipality desires a crossing at Cooking Lake Councillor H. E. Williams stated that the present crossing is very dangerous as an approaching train cannot be seen. He quoted the very prevalent accident some of a party. A good place would be near the whistling post just east of the station.

From the Hudson's Bay re Weed Control Act some land owned by them, the fees were waived.

From Edmonton hospital re account for attendance on Mrs Philipp Land Claim.

From Canora hospital re [illegible] account for attendance on Mrs Kitchen Land Claim.

The secretary reported that the culvert near the municipal building was blocked and in the spring, and during wet weather there is no means of water to run through the property. On the motion of Reeve Thompson the secretary was instructed to communicate with the town authorities re having the culvert repaired.

Some sale and land deals were then read and collected These chiefly referred to in arrears where road diversions [illegible] were and the rate payer got land in exchange for same. Among those there [illegible] were W. Daniels, J. Donald, and P. H. Albers.

Bardo Budget

The sound of the harvester is heard in the land.

Considerable damage was done to the home of H. O. Cuzy one morning last week, when the heat from a stove started a fire in the wall. It had gained considerable headway and had reached the second floor before it was discovered. Fortunately Mr. Curry and the boys were at home and a big tank of water handy so the fire was soon extinguished.

Bardo school began Tuesday, Miss Marjory Mahaffey of Tofield teaching the higher grades and Miss Hazel Fleming the primary room.

In giving the names of the pupils who passed the departmental exams, we missed one, and Mabel Jennings of the Bar do school who successfully passed the ninth grade.

Lightning struck the house of Mr. Morton Friday evening, and followed the rod into the ground with no more damage than a severe shock to the family.

The Ladies Aid and Thimble Bee met with Mrs. Andrew Berg last Wednesday

On Friday Mrs. C. Wallace entertained the Methodist Ladies Aid. Mr. and Miss Williams of Tofield attended. —

Mr. and Mrs. P. Haugen, Mr. and Mrs. P. Lechelaus, Mr. and Mrs. John Yoder, Mr. and Mrs. H. E. Beaucamp, Mrs. J. Lechelaus and Miss C. E. Hills were dinner guests on Sunday of Mr. and Mrs. Jose Stauffer

The Misses Hazel Parker and Carrie Beecken went to Tofield on Monday to continue their work in the school there

Rev. Williams held communion service at Bardo on Sunday.

Local News Budget

Tofield Beats Ryley

After two years hard trying our baseball team have succeeded at last in bringing the McCallum Challenge Cup to town.

Last Friday Tofield travelled to Ryley and beat their rivals by the score of 6 to 0. It was a case of Tofield being on and Ryley off. Scott Lee pitched a great game, having 14 strikeouts and only two safe but made off him, while Happy Osband the Ryley pitcher who was out at his best, had Tofield outs and 10 safe hits made off him Lawrence Scott again helped Tofield out on 3rd base and as usual played a good [illegible]

"On The High Seas"

An exciting love melodrama of the sea. With **Dorothy Dalton** as a pampered society beauty and **Jack Holt** as the rough stoker she falls in love with. A story packed with wild adventure in storm and shipwreck, but blent with love scenes in luxurious settings.
Her old selfish life went down in a sinking ship, her new life was born in an open boat adrift on the storm swept Pacific

Residents of Tofield who are having gas installed in their building should procure prices for the installation work from us. We operate a shop containing all the necessary tools and equipment to expeditiously do all classes of gas fitting whether for furnace, range, heater or lights.

M. C. HAMMOND

Ford

Do you desire a Ford Car or Truck?

If you have not the full cash price, would you like to have the use of the car while you are paying for it?

To those who desire to purchase a Ford Car or Truck and cannot completely pay for it at once, we are able to quote the following terms:

Down Payment consists of—

For a Runabout (Non-Starter)	$	Balance of $	In 12 equal payments
For a Runabout (Starter Equipped)	$	" $	" " "
For a Touring Car (Non-Starter)	$	" $	" " "
For a Touring Car (Starter Equipped)	$	" $	" " "
For a Truck (Non-Starter)	$	" $	" " "
For a Truck (Starter Equipped)	$	" $	" " "
For a Coupe	$	" $	" " "
For a Sedan	$	" $	" " "

This deferred payment price, the amount of the down payment and all the terms of the transaction have the approval of the Ford Motor Company of Canada, Limited, so that those who buy Ford products on deferred payments may have the protection of a standard deferred payment price throughout all of Canada in the same manner as those who buy Ford Products for full cash.

The low price is possible because the Traders Finance Corporation, Limited, who finance the transactions extend this financing opportunity only to Ford Dealers and only on Ford Cars.

McLaughlin Hardware Co., Tofield

FORD MOTOR COMPANY OF CANADA, LIMITED, FORD, ONTARIO

Settlers For Western Canada Expected In Increasing Numbers From Britain And U. S.

Farming establishments in the Western provinces are now in a healthier condition than for many years, according to the Canadian Pacific Railway Company's annual report. Increased acreage under cultivation, and a large yield per acre, are given as the principal reasons for the improvement.

While in the east Mr. Beatty said a visit to Prince Albert by a delegation to get in touch with the wishes of the farmers on the middle west was a step in the right direction. He denied that the agricultural population was receiving more than its share of the country's wealth. The cause in Canada, he said, was that the entire country is determined to make its other citizens as prosperous as those in the fourth west again as new surroundings, and that there existed every reason to believe that the Canadian west would come into the western provinces in more than its former numbers. The railway company has established branch premises from that part of the country.

Commenting upon the work of the Canadian Pacific Colonization Department, Mr. Beatty said that the activities of this organization had not by the present time been directed to any extent towards securing settlers from the United States, but rather towards securing settlers from the British Isles. Canada had some pioneer work that could be carried on among the people of the United States, and those activities of the organization pertaining to peoples and countries were washing amongst, but that the non-existing population had not been sought after in any large degree.

Land sales during the year, Mr. Beatty explained, had been somewhat disappointing. Mr. Black explained $20 was added to the duty owing up here and during the year $10 was collected from the land of land being imported into the country. The money advanced for the passage in the case of settlers coming from the United States. Under the third class prospectus immigrants were introduced by relatives in Canada. It was stipulated that the money advanced for passage to new settlers should be repaid to the Government by the settlers themselves. Harvest hands in the Government's employment were used. There was no improvement in some sections, he felt, but in other districts there was a decided improvement. Last year 30,000 harvest hands were employed, but this year the number was 40,000. Mr. Beatty said that the Canadian Pacific Railway Company had been paying out $1,000,000 more in wages than in the previous year.

A Growing Port

Prince Rupert, B.C. Has Most Promising Future

Although situated in the shadow of Prince Rupert as a rich metallic port received last month when the Canadian Northern Railway opened a line from Prince Rupert to Hazelton, a centre of lumber, fishing and mining. This was the first step in road access to Prince Rupert and close to the Orient. It is hoped that the improvement of this direct route will develop into a permanent connection for trade traffic.

The British Columbia Government has appropriated $50,000 for a survey for a proposed railway from Prince George, Central British Columbia, to Port Essington, on Observatory Inlet. It is proposed to make connections with an Alberta railway.

Canada's Religious Bodies

The number of members of the Methodist Church, Canada, is 1,125,894. The Presbyterians have 1,409,132 members, the Baptists 382,666, the Lutherans 225,387, the Anglicans 1,211,112, the Roman Catholics 2,833,041, the Presbyterians 1,409,132 and the Congregationalists 29,349.

Manitoba's Honey Crop

L. V. Floyd, provincial apiarist for Manitoba, states that honey crop prospects in the province were never better than they are today. Nearly every locality reports sufficient moisture with sweet clover yielding a crop.

The first evidences of a belief in a material silver dearth appeared in the New Rhine Age some 50,000 years ago.

W. N. U. 1108

Output of Minerals

Remarkable Tendency of Mineral Production in the Dominion

The improvement in the mining all across Canada and in the metal industries of the south is reflected in the remarkable progress of mineral production in the Dominion during the year 1922. Preliminary figures compiled by the Bureau of Statistics indicate the extent to which the Canadian mining industry has recovered from its market readjustments of 1920 and 1921. The value of mineral produced in the Dominion establishments, amounted to $182,000,000 an increase of $11,000,000 over 1921. The year's output was made up as follows: Metallics $62,000,000, non-metallics $63,500,000, structural materials and clay products, $20,500,000. In connection with preceding years the 1922 note must be considered as incomplete and to only exceeded by the records established in 1918 of $211,203 and in 1920, when the value of $205,000,000 was reached. The increase in the value of metals produced which was $2.9 per cent greater than the previous year was large responsible for the improved showing of the year, which was 17 per cent in 1922.

The feature of the increase in the year last year was the gain made in the output of gold by the two great producing provinces Ontario and Province Columbia. On the total of 1,262,364 ounces valued at $26,116,800 produced in Canada, Ontario alone yielded 1,000,360 ounces or 79.18 per cent, and Quebec contributed 159,276 ounces or 16.17 per cent. Ontario recorded a substantial increase in both quantity, and value over 1921, reducing from 75 per cent and Quebec increased its output 50 per cent. Lead showed such higher upward in the production of the year being 52 per cent as the record of 1921.

Refused to Leave Dangerous Island

Missionary Menaced by Mad Hunting Blacks Sticks to Post

The news of the peril of a lone missionary on one of the uncivilized islands in the Solomon group who was rescued from the hands of head-hunting natives, but refused to be taken away from Mr. Johnson station, has just been brought to Sydney by an island schooner. Men aboard the schooner, touring the island, saw a number of natives in war paint dancing around a fire preparatory to attacking a white man.

The captain, fearing that some person might be in danger armed the crew and went ashore. They found a valley over the heads of the natives and ran into the European built house and found a white man in the act of preparing his dinner. The call of the Wild was made to him and he was born on the island for a year.

Natives had broken into among the native and he had been warned by the natives. The Sydney had sent a steamboat into the bush and rescued a war dance. As that was a ship on its way trouble he had packed up and left.

The missionary was impatient to rejoin aboard the vessel but safely. He refused however and the ship had to leave him as he knew all the natives personally.

Famed Over Production Of Fish

Other Closed Lesser Slave Lake For One Week

The Lesser Slave Lake was opened July 15th for commercial fishing with the following firms operating on it: Hudson Bay Co., Hudson Fish Company, Menzies Fish Company, Lesser Slave Lake Co., Chipman and Clark, & Jamieson. The operations have been extensive as their catches each week will indicate, but the possibilities of the lake are not yet fully developed. In the end of July the fishing operations on average from the port exceed 3 tonnes per day and 6 tons per week. A very heavy catch was reported on the 27th of July, when the fishermen ordered the boats to stop fishing as the product was more than could be handled at the time. The catch was from July 15th to 30th.

Many Farmers in Bulgaria

The farm labor is an important industry in Bulgaria, according to Stephan Panaretoff, Bulgarian Minister to the United States. Eighty-two per cent of the entire population live on the land, 75 per cent are farmers, and by far the greatest part of this group own their own land.

In Japan a woman is regarded as the inferior sex, and when the parents die the wife usually carries the pall.

Advice on Marketing Potatoes

Wash Too Large a Proportion And Graded Canada C. Ungraded Quality

Slightly less per cent of last year's potato crop was of merchantable quality according to the Dominion Bureau of Statistics, under Mr. W. J. Allard. Judging from some of the Chippewa and Markets Branch. The same authority gives 82 per cent of the net crop and 84 per cent of the wheat crop as merchantable also. On this basis 16 per cent more of our wheat crop was in a merchantable condition than was the case with potatoes. The latter containing 18 per cent of an unmarketable quality. Where we take the quantity of potatoes that we have for to market and again subdivide into grades, we find judging by the shipments which reached the market last fall and winter and again this spring, that a large proportion fall into group C, which is officially known as "Canada C ungraded quality," and that is not very satisfactory.

The Federal Fruit and Vegetable Inspector offers the following suggestions to those interested in the potato trade and who desire to sell in the larger markets of this province:

Sell grade "Canadian A" potatoes and not the commoner.

Use only good, dry bags.

Weigh the potatoes into the bags, preferably of two pounds, so that the bags are of even weight; allow a few pounds for shrinking or bulky shipping a long distance.

Figure out what the percentage below grade allowed for Grades A and B is.

The bags securely and thread the tags on the tying string.

Write distinctly on the tag if no stamp is available.

Demand For Canned Whale Meat

The whaling industry is very prominent in Norway. Whales are regarded as rich and plentiful on the grounds. The whole market is on the climb, and the demand for canned whale meat has become so pronounced that the prospective pack of the British Columbia whalers is already disposed of. The canned whale meat is most delicious, resembling beef.

Social life was much simpler in Wapiscogo then than it is now. Even wealthy people sent their children to the public school quite as a matter of course and many of the women who are now leaders in the younger set had not been "finished" anywhere. And, quite frankly I believe that they will bear comparison with those of a later generation who are the product of private schools.

I do not mean to say that twenty years ago Wapiscogo was in the Golden Age of absolutely social equality but it had undoubtedly more of the pioneer spirit than it has today. If we then had not the culture and refinement, nor, one doubts and our offshoots, but we had more liberty and more privacy and nothing of nature was held to be unclean. Perhaps therefore as it is quite natural, I remember it more as less in the way of social distinctions than it is now. Everybody visited with everybody and as material benefits had then declared it, there was no the opportunity for materialistic prejudice that there is now.

Some confirmed snobs it possible for Mr. Lee and me to associate with most of the men with whom she had to do, and I am sure I was humbled, at that the ways seldom handicapped socially by the fact that we had to make our own way in the world. I went to school until I was much too old. Then I took a course in stenography and in a few months was one of an office position Mother I think, had hoped I would be as a teacher. I had no inclination to follow in Aunt Patricia's footsteps in that way. Margaret had very clearly set while a teacher was the only profession that there is open to women and I had thought about every other member of the family. I was to be a writer.

Whenever I returned "Sis, but I had rather ruined my work of her own" and "Mother, when she discovered the sun

THE MOTHERS ALLOWANCE ACT

This ACT was framed and brought into operation to prevent undue hardship falling upon children whose bread-winner of that father. As the father of a family in small, the bread winner it was recognized that in addition to the natural grief at losing a husband by death by the mother was added the additional care of providing the necessities of life for the children. To remain healthy, to grow into normally efficient adults, children must be properly clothed and cared for. Neglect of any kind and from any cause is productive of harmful results. The mother with children dependent upon her is faced with a double difficulty. If she stays at home to look after the children there comes no money wherewith to buy them the necessary food and clothing. To get out to work and earn money almost inevitably result in a certain degree of neglect of the family.

To overcome this the Mother's Allowance Act was brought in to power. This provides for the payment to the mother of a certain sum monthly. The amount is governed according to the number of children in the family. The provincial government assumes one half of the liability and the municipality is charged to assume the other half. Both provincial and municipal authorities are beginning to feel the drain upon their treasuries that this act entails, and a general paring down of allowances is underway by the government. Of course this means an equal reduction to be paid out by the municipality.

Among local authorities there is a feeling that the act could be better administered. That while under the act money can be paid out to avoid distress, actually money is being paid out where there is no distress. The inference seems to be that a mother should be almost an indigent before the taxpayers money should be paid out to help support her children. Also where there are relatives that more responsibility rests upon them than the average ratepayer. Our opinion is that the act is a good one. While it is abused, modern and progressive laws are designed to meet it and that is met in other countries by another method, viz. child-to-business which the taxpayers there have to pay for. The act is designed to keep the family together, which is a worthy motive. Nevertheless great care must be taken in its administration. The applicant should be informed that his money is to be paid out where absolutely needed and not simply because unfortunate circumstances puts one in the position to collect it.

RINK MATTERS

WITH GRAIN still standing in the fields and duck and chicken shooting season still to come, it may be a little early to talk of rink matters. Nevertheless while the rink will not be used until winter there are necessary arrangements to be made that due and proper consideration could not possibly be hurt. The rink is owned by the town and is considered by them to be something in the nature of a white elephant. Different methods have been tried in operating the rink during different seasons. The town itself has operated the rink for the season, employing a caretaker, but this method invariably cost the town any thing between three and five hundred dollars before the season was over. Of late years the plan has been to rent the rink to a caretaker for a nominal sum of about enough to cover taxes, etc., the idea being that while the town did not desire to gain any money through the peoples winter sport, they also were not desirous of losing any.

The rink is used for skating and curling—two separate sections. The curling club pays the caretaker a salary and the town a nominal rental. Two years ago the curling club constructed an addition for their own use and for this were allowed some concession of rent by the town. The rink itself, to be made more attractive needs considerable fixing. The heating arrangements in the skating waiting rooms as well as the floors and benches are in poor repair. The lighting of both curling and skating ought to be overhauled, while an excellent example of labor and patience we say nothing but satisfactory. The installation of gas will be a large extent eliminate heating and lighting troubles, though it must be remembered that so far nothing has been done beyond contracting for meter connections. To get light and heat the council or some person has to spend money.

There is no question that during nights when months the rink is the centre of amusement for young and old. Even the wee youngsters on the skating ice to the grand dads on the curling sheets, everyone is there and a good many from the country take some enjoyment there. And it could be made more popular still if it were made more attractive. The problem to be solved is how to do this in a fitting and well made attractive. The town owns it and when running it loses money. On the other hand the ratepayers generally would be able to go to the expense of fixing it up for one year—certainly not longer—and would be in great accounting to the return.

Our opinion is that inasmuch as the town owns it, the town should put it in repair as regards heating, lighting and floors, then call for tenders from prospective lessees on one, three and five year basis. Of course with gas heating and lighting systems installed, more than just enough to cover lessees would be expected. For the lessee these would mean less work and a more attractive rink which in turn would produce more revenue. If no suitable lessee was forthcoming the town could engage a caretaker at a salary, and by various ways and means increase the revenue as much as possible. We certainly do not relish the prospects of a deficit and fail to see just why there should be one, but should there be a loss, the ratepayers would understand that it was a community pleasure enterprise under the wing of the council.

Food Value Of Vegetables Lies Largely From The Fact That They Contain Vitamines

(By L. F. Burrows, Secretary, Canadian Horticultural Council)

A comparatively recent is the addition of the word "Vitamin" to our vocabulary, and even though the use of the word is now common, its meaning is not yet understood. Physicians have long recognized the value of vegetables in the daily diet and we are now told that this value lies largely in the fact that they contain vitamines, and that vitamines are necessary to life. Some vegetables contain greater quantities and of different kinds than others. Three different kinds of vitamines have been named "A," "B" and "C."

Vitamin "A" is a mysterious element in food, without which children cannot grow, but which grown folks also need. Shortage of vitamin "A" leads to disease of the eye, ears and kidneys, and may cause bad blood, rickets, pellagra and other ailments. As a rule, seeds of all kinds are rather deficient in vitamin "A," but when green peas contain appreciable amounts. Leafy plants on the other hand, are valuable foods in this regards. Spinach and chard are good, also the ribbon of the common leafy foods in this element; lettuce ranks next with cabbage holding third place.

The roots and tubers, like carrots, potatoes and turnips are fairly rich while celery and Irish potatoes contain but a small amount. Milk and cream, if boric, rutabagas and parsnips contain appreciable quantities. Tomatoes, however, are very rich in vitamin "A," and thickened stewed fruits also a valuable source. Little work has been done on the fruits but there is evidence that apples, pineapple and oranges contain small amounts of this vitamin.

Vitamin "B" is guardian of good appetite and healthy nerves and of the liver and other glands. This vitamin is found in the germ and bran portion of cereals. In the milling of wheat, however, this vitamin is to some extent lost, and the best grades of flour are entirely lacking. This does not mean that we should condemn the white breads, starchy foods, white rice, etc., for these contain much energy value, but our foods intelligently and eat more vegetables.

Potatoes, sweet and white, contain appreciable amounts of vitamin "B," although the sweet potato is much more valuable in this regard. The dessert potatoes is fair source of vitamin "B" though its bulkiness appear to be much richer. This vitamin is also found in the tomato, cabbage, spinach, asparagus and the leafy dandelion, the latter being especially valuable.

While many fruits have not been studied, it is probably safe to state that most fruits contain appreciable amounts of vitamin "B." It is likewise probably true that nuts are a valuable sources of this vitamin. Incidentally we all note that have been studied but contain appreciable amounts.

Vitamin "C" prevents disease and promotes the general health. Lack of it gives the skin a bad color and makes the heart weak. It has been [illegible] known [illegible] [illegible] [illegible]

Natural Resources Bulletin

Estimating the Value of Sodium and Potassium Deposits in Western Canada.

The Natural Resources Intelligence Service of the Department of the Interior (Ottawa) says:

Recognition of the small value of Western Canada considered that the Mines Branch of the Department of Mines is continuing this year its investigations with a view to determining the value of these deposits and estimating the quantities at hand. Experiments are being made to produce sodium sulphate, sodium carbonate and caustic soda from sulphur found in the deposits, and also to produce potassium sulphate and muriate from sulphate in the salt which occurs in larger quantity in Canada. It is hoped that at the time the Canadian kraft paper industry is important, the sodium salts may be produced at this product, and the glass manufacturers may also bring considerable interest.

It is probable that in the near future paper manufacturers will form an important industry in Western Canada, and the production of soda pulp will become of great value. A number of cargoes of raw resources in these lakes and also in the Mackenzie River basin, and the Mine Branch is taking action to ensure this information.

Advising Appetites

How the Habit Was to Gorge Wrong Ruptured Was to Power

Railroad Man Gives Out Surprising Facts

"If any in my family were ever sick with stomach trouble or run-down condition, I would rather have one bottle of Tanlac than all the other medicines I ever tasted," is the positive statement of F. A. Bercaw, 8 Locomotive St., Hamilton, Ont., well known railroad man and fraternal worker.

"My wife's health was restored by the Tanlac treatment in such short order it was astonishing, for she suffered so terribly with nervousness, headaches, sleeplessness and loss of appetite that I thought for awhile her health down completely. She went on with Tanlac and is still looking and acts like a new woman.

"After her first few doses of Tanlac my wife was like an entirely different person and hasn't had a sick spell since she quit taking the medicine six months ago. Tanlac has certainly been a blessing in our home, and we are glad to recommend it."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For moral after use without using, and also everywhere.

WORLD HAPPENINGS BRIEFLY TOLD

A grant of $16,000 to the Salvation Army to aid in the Canadian emigrant work in Great Britain has been authorized.

At the end of June expenditure in connection with the British Empire Exhibition amounted to over £6 000 000.

What is claimed to be a world's record for loading cattle aboard a steamer was established when 2 to 1 head of cattle were loaded aboard the Canadian Victor at Montreal.

Burning at sea in wireless motor broadcast from London is being enjoyed daily by passengers on board from Brighton to Isle of Wight in the steamer Queen of the South.

The train which runs the first to all stops will from lower to other dark yards will be provided with red marks the end or lower as a tail lamp.

Letter mail now be posted at 11 pm each by trench air mail from London to Bremen, Hamburg and Berlin at an air fee of 50 per ounce Par rate either at present to cent.

Participation in the United States at the permanent court of International Justice at The Hague was endorsed by the Senate by a vote of 76 to 1 the closing at its annual convention at Minneapolis.

An Australian defense expert in pessimistic to England to carry out an investigation in connection with the proposal to every taxpayer in Australia for the production of guns, ammunition and that explosives.

China has a population of 426,000,000, according to the Bureau report of the Chinese post office. The figure is only a rough guess compiled from reports of provincial offices, no nor authentic method of census taking is followed.

For the first time in the history of Alberta harvesting, a number of large gangs of men went into the Peace River and Grande Prairie country by the Government Employment Service. Help rushe in the north this year necessitated outside by the way of harvesting

A Reuter dispatch from Moscow says a Russian volunteer fleet has been formed by the White star Red Star, Hamburg American and North German Lloyd Companies for the development and exploitation of overseas emigration, the shipping companies concerned acting as joint associations.

A GOOD MEDICINE FOR THE BABY

Nothing can equal Baby-s-ving Tab lets for little ones under two years. They are a laxative, mild but thorough in action and safe. Also for the stomach constipation, colic colds and simple fevers. Mothers who have used them say they are delightful. Sold by druggists or by mail at 25 c box from The Dr. Williams' Medicine Co., Brockville, Ont.

Electrical Apparatus Imported From States

Country Supplies Bulk of Material Used by Canadian Concerns

Canada buys electrical apparatus almost entirely in the United States according to a statement giving the import of articles of this nature in July, published by the Dominion Bureau of Statistics.

The total imports of electrical apparatus in that month were valued at $1,212,115, and of this a value of $1,079,962 came from the United States. The United Kingdom sent $92,000 worth, while Japan, with a value of about $9,000, stands third.

Nearly all children are subject to worms, and many are born with them. Spare them the suffering by using Mother Graves' Worm Exterminator as every test proved.

He who reigns within himself and rules passions desires and fears, is more than a king.

The ubiquitous partner is working his way around the world. It leaves Alaska during last spring

Cause of Earthquakes

Contention of Geo Under Earth's Crust Results in Explosion

What causes earthquakes. Untold ages, back, our Earth consisted of a mass of burning fiery gas. As this gradually cooled, a crust formed on the outside, and this crust is what we are living on.

Under the coating (which is still cooling on) cracks and weak spots were formed in the uneven crust, and it is these lines of weakness that we get sidewaves (the name, by the way, is taken from Typhoon, the god of fire).

Inside the crust of the earth is a mass of gas at a temperature higher than anything we can ever conceive. Whether the head is at the core, or round the core, or even distributed in "pockets," we don't know, but we are certain that there is a simply enormous heat somewhere under our earthly crust.

Any water that percolates through this enormous heat turns immediately into steam, and has to find an exit somewhere—generally through the crater of a volcano. Then, of course, the crust further cools and contracts, in consequence the gas inside until it has to explode somewhere

Showing Interest In Others

Including Yourself As One of Human Race Makes Outlook Different

When you begin to take an interest in other people you notice, of course, that their lives are not like yours not so important nor interesting, not personally, but in their drabness. You are all extremely alike, they all with the same ideas, the same hopes, up fall in love according to their lights, marry, earn their living, grow old and die. This is the uniformity which bores the man who has no interest in others. You are admitted, how ever reluctantly, that the single individual is like a unit of human race, and that life is still simple and uniform and that you are less peculiar than you believe—then you begin to see yourself at last as one of the human family. The Literary Digest.

Predicts Doctors Will Teach Health

Instead of Disease Being Cured It Will Be Prevented

Dr J. C. Lawson, of Los Angeles, has the prediction that the world is not far away from the time when the doctors will be teachers on health instead of dispensers of drugs. He contends that disease was not as much an abnormal condition as Poor and pessimism in civic and physical life were destructive and have to be overcome if there is to be a well prevention and knowledge of the laws of health are to be learned and how it could be maintained, there would be no need for fear. He in the future we would be taught how to live sane and how they all had one common aim.

Creamery Butter Production

Production Last Year Excellent that of Any Previous Year

The total production of creamery but ter made in Canada in 1922 was 167, 752,271 pounds valued at $47,000,000, an increase in quantity over the previous year of 13,806,184 pounds, or 11 per cent, and in value of $2,383,151, or 7 per cent. The production of creamery butter last year exceeded that of any previous year.

The total quantity of cheese made in Canada last year was 134,337,- 903 pounds valued at $22,467,106, compared with 162,117,134 pounds valued at $24,710,040 for the previous year.

Huge Bell in U.S. Church

A church in Cincinnati, it, claims to have the largest bell in the United States shall, next to the one at Moscow, the largest in the world. This bell is 10 feet in diameter and 12 feet high and weighs 20,000 pounds. When it was hung a number of years ago it- was cast in sections and drawn up by buildings and thrust-ned to shaking the supporting timbers to pieces. Now it is bounded only by tapping it with a hammer.

Obeying Young Man

CUTICURA HEALS LARGE PIMPLES

On Face, Itched and Burned. Caused Loss of Sleep.

"I was troubled awfully with pimples on my face. Little white pimples formed at first which later broke out in large, red pimples that festered and scaled over. They itched and burned causing loss of sleep, and my face was disfigured.

"Other remedies were used without success. A friend recommended Cuticura Soap and Ointment so I purchased some, and after using them about a week I got relief. I continued using them and in a month was completely healed." (Signed) Miss Lilian Werner, Wilhelmina, Ontario.

Daily use of Cuticura Soap, Ointment and Talcum helps to prevent skin troubles

Cuticura Soap (25c.) and Ointment (25c. and 50c.) are sold throughout the Dominion. Canadian Depot: "Cuticura Laboratories, Montreal." For free sample address post-card: "Cuticura, Dept. L, Montreal."

Reasons For Queer Habits

Japanese Have Logical Explanation For Doing Things Backwards

When I first went to Japan a foreign American resident of that country told me that the Japanese Mote Magazine as saying they acted to do everything the wrong way. "Let's get wrong wood by drawing the saw toward them. They barked their knees when they sat down, and our books are striking one their wood with." The Blacksmiths stand to work down and when they wanted to rest they stood up. Pupils in Japanese schools, the writer declared, for years were taught to write backwards. The grandparents of Japanese children, he declared, still use fans in the winter and stoves in the summer. Japanese, he declared, ride horses with their tails and shoe them on their heads. Japanese, he declared, eat their meals at the end instead of the beginning. Japanese, he declared, put on their clothes backwards, and so on.

Bounties of Canada

New Postord Depicting Scenes of Great Beauty Issued by C. N. Railways

Combining the best work of artists and photographers and printing the beauties of Canada in a manner which appeals instantly to the eye, a new set of postcards is being issued by the Canadian National Railways and are now being placed on display in the offices of the station and elsewhere in the Canadian system.

The grandeur of the Rockies, typified by Mount Robson is depicted in an artistic manner on the first card. Other cards show a magnificent view of Moraine Lake, Lake Louise and Lac Beauvert, all of which are on the Rockies.

The artistic and colorful scenes of Canada's eastern provinces are also well represented. Peggy's Cove, Nova Scotia, is shown on the 5 cent card. Another card shows the Citadel at Quebec.

Protecting Elk Herds

The elk herds on Vancouver Island, north of Cowichan Lake, are the last preservation of forty square miles, and the British Columbia Game Board is now engaged in making surveys preparatory to the establishment of a game preserve. There are said to be about 200 head of elk in the Intermediate vicinity of North Cowichan Lake.

A Substantial Profit

On a turnover of $1,947,220 the co-operative association of Saskatchewan wheat-growers has netted a net profit of $119,000 during the fiscal year ending April 30th 1923, according to the annual report of the co-operation and Markets branch of the Provincial Department of Agriculture.

There are some 230 000 Japanese vessels engaged in the fishing industry.

Minard's Liniment for Sprains

Demand For Paper

On Ocean Liners Management Has Found It Necessary To Install Paper Presses

Because, according to the management "the demand has been longer than could have been predicted" new and larger printing presses will shortly be installed on the Canard liners to print the Daily Mail Atlantic Edition. This paper is set in type, printed and published each day that the liners are at sea. The offer each day the Daily Mail Atlantic Edition are the Berengaria, Aquitania, Montreale Carmania, Franconia, Tyrrhenia, Lancastria, Cameria, Samaria and Scythia.

Installation of linotype machines on the first three ships listed above in the inland forward step in this new branch of journalism. Unless a day in accordance with the Radio Communication Company important arrangements are now in progress for the installation of linotype machines on the Atlantic. The subscription price is one shilling and the purchaser for that same single copies are sold at the newspapers

Headaches In 2nd Degree

Using a razor had stiff but many people find it painful and severe. Remedy due to pulling and agony to the skin. Dr. Chase's Ointment has been found to be a soothing, healing relief. Before a shaving for comfort and ease. 60 cents a box.

Canada Foremost Wheat Grower

A publication received at Ottawa from the International Institute of Agriculture at Rome, dealing with the world's wheat conditions places Canada in the foremost position as a wheat producing country. The area of wheat cultivated in Canada is 23,000,000 acres, United States 57,000,000 acres, Argentina 19,000,000 acres, India 30,000,000 acres, Russia 32 millions, Australia 7 millions.

A Power of its Own

—Dr. Thomas Cotterill has a subtle power of influencing his patients to get well and keep it by those as the most vain table illustrations of the value of imaginative and mental power in the healing profession.

Advance In Fur Prices

Rises to one rotor of $250,000, as per cent of which went to New York London and Leipzig. Many furs are at the opening of the season at Winnipeg. Lowest prices are the highest in demand, beaver advancing 20 per cent, silver fox 10 per cent, mink 5 per cent.

Butterfly Farm

World Raw Insects — Cocoons for Color and Decorations

In applications of entomology nature taught a practical business paper the Canadian Under Insect Industry has been started in Los Angeles, by Lucy Hoyt Lowe, a well known entomologist.

It is said stated that 7 persons are grafted to this enterprise, and that the world's insects will supply the raw material for the industry and dozens more.

Cow-Testing Progress

Five Provinces Show Considerable Increase in Number of Herds Tested

There were 541 cow testing associations in operation in Canada during 1922, an increase of 74 over the previous year, according to the annual report of the Dominion Live Stock Branch of the Department of Agriculture. Of the total number of associations, 207 were in Ontario, 107 in Quebec, 101 in Alberta, 74 in Nova Scotia, 29 in Prince Edward Island, 15 in New Brunswick, 7 in Manitoba, 1 in Saskatchewan and 1 in British Columbia.

The number of cows tested in 1922 was 19,000, an increase of 3,000 over the previous year. Of the total number of cows tested, 6,000 were pure-bred animals. Five of the provinces show a considerable increase in the number of herds tested, Saskatchewan coming in the large at percentage of increase with New Brunswick next in line and Alberta at least third. The Dominion Live Stock Branch is largely due to the efficient work of the district officials in charge of the associations, many of whom have been appointed to the positions after successful association supervisor, namely two thousand cows are tested each month.

PILES

LINDBROOK

A new confection has been "discovered" in this district It is called on the menus "Beans a la creme du barbe. It seems that a well known couple of this district partook of some beans at a meal and noticed a peculiar flavor and it possessed quite a bouquet as well Wondering what was being used the beans there were they investigated and, lo and behold! reposing snugly amongst the beans lay an empty shaving tube that once contained shaving cream hence the "creamy little aroma.

Mrs. Leahy had quite an experience the other day Mr Leahy being custom undergoing medical treatment, Mrs. Leahy then undertook to deliver some goods to his clientele in the northern route not being very familiar with the countryside up there, she inquired the way of a boy that it was some feet to a place and was told to turn left to the left, this Mrs Leahy did, but too soon and after an hour or so found herself nearer home than when she started Mrs Leahy being at school this week the northern round was swung by Mrs W Glean accompanied by Miss A. Hooper and no mishaps occured this time. Mr Leahy returned home and we are glad to say that the pain and swelling in the face is some what better

The sympathy of the neighborhood is extended to Mr. and Mrs. Chas. Lindberg of Hastings Lake on the loss of their 2 year old daughter who died this week. The funeral was held at Hastings Lake Church (R.C.) on Saturday Sept. 8th

A regular old time picnic was held at Hastings Lake on Sunday on the grounds of Mr. and Mrs. N Ellis. There was probably the largest crowd of the season present. The day was fine but a chilly wind made bathing somewhat of a chore still a few "intrepid spirits" went in and most of them belonged to the fair sex too. The men folk seemed content to sit and smoke and chew and digest the gorgeous spread of which they had partaken and up there, she inquired the way of a boy that it was some feet to a place and was told to turn left to the left, this Mrs Leahy did, but too soon and after an hour or so found herself nearer home than when she started Mrs Leahy being at school this week the northern round was swung by Mrs W Glean accompanied by Miss A. Hooper and no mishaps occured this time. Mr

daughter Mrs. N Ellis of Hastings Lake.

We hear that Eddie Ingram is going away for awhile. The Ingram family have rented their farm for three years, but Mrs. Ingram and Miss Vie will still reside there.

Mrs Geo Weatherill returned last week from a visit to relatives in the St. Paul de Metis district

A new place to get lost in has arrived, to wit, the sunflower field. We hear of a young lad who went in to see how tall they were and had quite a job to find his way out. Another funny thing, a well known farmer here was cutting his sunflowers and thought he would after some to one of his neighbors see how he liked it, the horse seeing the gigantic "slab thought he was due for a feed and commenced off. And they call it "succulent fodder for dairy cows.

Additional Locals

Mrs Mary A. Cross of Montreal is a visitor at the Manse for a few days this week, coming from Victoria and other Coast cities, where she has been visiting for the past two months.

Miss Marion Forman left last week for New Norway, where she will teach this term.

1600 Cars of Coal Loaded at Tofield This Year

Tofield is more than doubly blessed, it has both minerals and agriculture. Watching the farmers leave well filled cans of cream out of their cars or wagons at the Tofield Creamery —seeing wagon load following wagon load of golden grain passing down main street en route to the freight car or elevator - and watching Jim Hyman wrestle with and load stock at the stock yards, one is apt to forget that south of the track there is an industry that brings into the district well it'er one hundred thousand dollars a year We are now in Septem ber with three good coal months to come and so far there has been 1600 cars of coal loaded at Tofield Call them all thirty cars, spelling that be will pay to the town the sum of $14.37 the amount of taxes owing on the Tofield Park Property the lots in the G. T. P. town site to be transferred clear of taxes to December 31st 1923. Carried

H C Monumental Works - Re setting up a headstone at the grave of Pte V. Goodsell. The secretary was authorized to have this headstone set as requested and to forward the account of the expenses incurred to the H. C. Monumental Works for payment as per instructions in their letter.

Cornhill Municipal District No 187 He broken culvert near Municipal Office. The Public Works Committee was instructed by Council to inspect the culvert and make such repairs as is thought fit.

Mayor McCauley informed Council that the Northwestern Utilities Ltd, had requested that the town grant them an easement to lay gas pipe through eleven lots in Block 40 Rosedale Subdivision. The Secretary stated that the town could, through Tax Enforcement Proceedings, take Title to nine of the lots in question and that the other lots were in arrears of taxes so that Tax Recovery Proceedings could be commenced immediately and providing the lots were not redeemed by the owner. Title could be secured in about a year's time. Moved by Councillor Bruce, seconded by Councillor Chapman, that as considerable expense is incurred in securing Title to these lots in order to grant an easement, Northwestern Utilities Ltd be informed that the town will immediately take title to the lots under tax enforcement proceedings and will immediately grant an easement in regard to those lots providing they will reimburse the Town in the sum of $100.00 and that the town will also immediately commence Tax Recovery Proceedings against the other lots and on securing Title will grant an easement respecting these lots. Carried.

Some accounts were presented, passed and ordered paid.

Moved by Councillor Chapman, seconded by Councillor Bruce that the Mayor and Secretary be authorized to transfer Lot 12 in Block 2 plan 2240 R to the Northwestern Utilities Ltd the sum of $150.00. Carried

The fire, water and light committee were authorized to make an exchange of trucks, the truck now being used for carrying the water tank being too heavy for the purpose.

A committee was appointed to prepare a report re equiping the curling and skating rinks with gas lighting and heating.

Town Council Meeting

Regular meeting of the Municipal council of the Town of Tofield, held in the Town Hall, Tofield on Monday, Sept. 17th, 1923 at 8 p.m. There were members present, Mayor McCauley and Councillors Bruce, Chapman, North, Swift and Wootton.

The following communications were read and considered.

Oldfield, Kirby & Gardiner re lots in Tofield Park Subdivision owned by Mr. J. B. Walker for which the town had offered lots in the G T P Townsite in exchange. Moved by Council lor Chapman, seconded by Councillor North that the Secretary write Oldfield, Kirby and Gardiner stating that the town will transfer to Mr Walker the 13 lots specified in a previous letter written by the Secretary in exchange for the 13 lots owned by the said Walker, providing that he will pay to the town the sum of $144.37 the amount of taxes owing on the Tofield Park Property the lots in the G. T. P. town site to be transferred clear of taxes to December 31st 1923. Carried

During Sept. 22nd Rev. Watt will hold communion service at Ketchamont at 3 p. m. and at Tofield at the close of the regular evening service.

Mrs. and Miss Emery motored to the city on Saturday and spent the week end.

Born To Mr. and Mrs. Gordon Schucker, on Thursday, September 13th, a son.

Among city visitors from Tofield during the past week were Mrs. Jobb and daughter, Mrs. McLaughlin, Mrs. Bowman and daughter, Mrs. Al Grinnell, Mr. J. H. Henderson, Mr. Barkhold er, Mr. Polsky, Mr. Young, and Jimmy Cunningham.

Mr Morrison visited the city on Saturday, returning in the evening accompanied by Mrs. Morrison and daughter.

Mr. Miller and daughter Mrs. Tarbet of Battleford, Sask. are guests at the J. Lee home this week.

W. Swift is lecturing at gatherings of Tofield Boys' Groups at Wainwright, Edgerton and Irma this week.

There will be Holy Communion celebrated at Holy Trinity Church on Sept. 23rd at 11.00 a. m. also afternoon service at Shelburne School, south of Round Hill, at 3:00 p.m.

Accident at Ketchamont

The monthly meeting of the Missionary Aid Society will be held next Wednesday, Sept 26 at the home of Mrs. R. G. Watt in town. A cordial invite is extended to all

Mr. and Mrs. Archie Bruce and family of Bawlf visited at the home of Mrs. Brown's brother, Chester Coombes and family last Sunday.

Miss J. Dickson went to the city on Friday night to spend the week end with home folks.

Mr August Campbell returned home on Thursday after helping his son in law Roy Fleming two weeks in the harvest field.

Accidents seem contagious in our district the last few weeks On Sunday evening when Albert Sutton and Jimmie Webb were returning home on horseback, Albert's horse became frightened, throwing Albert on his head and rendering him unconscious. Jimmie managed to get Albert and the horses home. While nothing serious resulted from the accident, it has been very painful and kept Albert out of the harvest field the past week, which is quite a serious thing this early in the fall.

Rev and Mrs. Wilson and son of the residential home for girls, were with us on Sunday last. Wilson took charge of the service during the absence of Rev R G Watt.

Mrs. N. Bickner and Marvon, Mr. and Mrs. J. Appleby and Mrs. J. Munro motored to New Norway and spent Sunday visiting relatives.

Barbs News

Mr Olaf Severing, who paid a flying visit to relatives here, left for his home in Bellingham Wash., on Tuesday. Mr Severing is a brother to J. Severing and Mrs. Arnold Steen and is related to several families here

On Sunday there was a family reunion at F. B. Anderson's in his home. About forty guests were present Mr. and Mrs. Geo Hendrickson and little son of Scandia came up for the occasion

Mr and Mrs. Finsetlef Ryley are busy assisting their children during the busy season Mr Ilnseth who is 76 years old drives the reaper for his sons

Mrs Rude was hostess on Wednesday for the Ladies Aid, Thimble Bee and Cemetery Society. Rev H H Brooker was present and gave an interesting missionary reading

The Misses Anna Mikkelt and Ingeliell Hoekstad, two young ladies who recently arrived here from Norway, are making their homes with Mrs Lars Halsted and Mrs Oliver Berg

Provincial Weekly News Bulletin

There is an erroneous impression abroad that the Provincial Government has changed all dates for opening of the shooting season.

The only date which has been changed is for opening of the duck season, which was moved forward from September 1st, to Sept. 15th

The opening season for partridge is as it has always been, the entire month of October, the only change to this respect being an order prohibiting shooting of partridge north of the Battle River The open season for prairie chicken is unchanged, being from October 1st to October 31

The Princes of Wales, travelling as Lord Renfrew, reaches Edmonton this week-end for his months stay on his ranch near High River. His visit is entirely unofficial, and there will be no formal functions.

Now Map To Be Had Free

A revised edition of the Land Settlers' National Railways map of the three prairie provinces has just been issued and is now ready for circulation This map is issued by the Colonization and Immigration Department and, though primarily intended for use in connection with land settlement work, it has been in great demand for general office purposes, shippers, commercial travellers, and other business men finding it most useful for reference with respect to railway lines and connections and geographical relations. It shows prominently all lines of the C. N. R. now in operation, those under construction and those projected in Manitoba, Saskatchewan and Alberta, and has been brought right up to date in all details of interest. A copy of the map will be sent free on application to the general agent of the C. N. R. Colonization and Development Department at Winnipeg or Edmonton

THE COMING REFERENDUM

EVERY WEEK is increasingly Moving Albertans will more than ever be concerning themselves with the coming referendum on the Liquor question. The Alberta Prohibition League and committee are actively preparing for the campaign of propaganda in upholding the present system, by holding meetings and spending out literature etc., while the Moderation League of Alberta is just as actively campaigning in the interests of clause D, which allows for "government sale of all liquors. Every person to be consulted on the second question."

The question of control of the sale of intoxicating beverages is a complex one. No matter which way one looks at it one is confronted with difficult problems. Of course it would be quite easy to allow one's judgement to be swayed by one's inclinations. Then to the individual that does not use intoxicating beverages there is the temptation to uphold the prohibition law, while the individual that has been accustomed to the moderate use of intoxicating beverages, finding the supply cut off, condemns the law wholesale. As a matter of fact the question goes deeper than that. It is a question of a personal question, it is a vitally important economic and moral question. Both the Moderation League and the Prohibitionists have assembled data to prove that their system is the best for the individual and country at large and that evils abound in each other's system. Singularly enough the evils ascribed by each to the other's system spring from the same source, viz the consumption of alcoholic liquors, legislated or otherwise. Therefore one is forced to the conclusion that to what ever system alcoholic beverages are distributed there is little "call for good emanating from them. Now while this is most likely true, it does not alter the fact that there are thousands and thousands of citizens moderate drinkers, that are the equal intellectually, morally and physically, to the best from the ranks of the prohibitionists, who will not, it another way, the evils of the liquor traffic are only evident when the liquor is drank by a certain type of person. This would seem to be an argument in favor of education. But the prohibitionists say education is too slow, prohibitory laws are quicker and being quicker are better. To which the moderationist replies, prohibitory laws create the illicit sale of liquor with all its worldliness. And so the arguments goes on. To me the crux of the question seems to be whether the respectable moderate drinker is being treated fairly by being deprived of the means of purchase. Whether he is "Hi Jinks Heathers Keeper" idea is something to be forced by law upon an individual regarding a beverage that he drinks and which according to him, does neither himself or his neighbor any harm

Seven Sentence Sermons

Every life is a mirror - what are you reflecting?

The story of the Christian religion is a tale of one personality influenced by another personality.

The German Jew Borne said: "Christianity is the religion of all poor devils."

So long as self will rules here must take second place.

Great things are never easy faith can never grip the world

Christian character speaks for itself but character that is insincere will never speak very clearly.

Canada's Achievements In Industry And Finance Is Subject Of Comment

A decade is quite a period of time as a road traffic. Just what has happened since 1913 is difficult to appreciate. Even now some business men are still living in the past, and are not fully aware of the changes that have taken place in the interval. Some of the changes are obvious, and are the result of the war, but others are not so apparent, and are the result of the natural growth of the country. Take for instance the question of transportation. Ten years ago the railroads were taxed to the limit to move the crops, and the cry was for more cars. Now the cry is for more business. Ten years ago the railroads were taxed to the limit to move the crops, and the cry was for more cars. Now the cry is for more business.

Rising From Ruin

Japanese Have Undaunted Faith in Their Own Nation

Among the spectacular incidents of the Japanese calamity there will remain the heroic record of the unconquerable and first meeting of the new Yamamoto cabinet on a lawn in the midst of burning buildings, only the lifetime of earthquake and fire is short. In that hour the ruins took their first measures as a cabinet for the mitigation of suffering the readjustment of the capital and of the nation. It is a task far heavier, illegally the Japanese are not a people easily thrown into a panic. What ever may be their individual faith in other directions they have sustained faith in their own nation and its destiny. Outwardly they are the most optimistic of all people.

With one hundred square miles of the population of territory laid waste, with the capital demolished, the chief export strictly destroyed the Japanese already cherishing the idea of a new capital and a new national port, are more enthusiastic than ever about Modern cities like to take the place of those of the past, but the nation itself will have a permanence. Much that is best can never be restored and the people feel the nature of their own Japan will not wish to reproduce

The Vancouver Province

Sheer With High Heels

Warning From British Scientist That Women Will Soon Have Less Toes

A London biological predicts that, in the course of the next few high heels, they will find themselves eventually with only one toe. However originally they had five toes like we have now, he warns this scientist who adds that the change probably will be brought about by the efforts of horses in the wild state to raise themselves a little higher to get at the tops and leaves of trees. The fingers of the dog have been reduced to two and those of many horse to three.

Women with very high heels have only one toe, and birds, he says, are actually walking on their middle toes. Not altogether a warning was not to be heeded for smart women have no more cramming their American sisters and dressing shoes with heels only about an inch in height.

Hat Dropping Claim

Status that Britain Has Not Unincorporated Claims to Wrangel Island

Referring to a statement published in Canadian newspapers to the effect that the British Foreign Office or that of the Russian Foreign Office that it had never considered Eskimo arctic ocean Wrangel Island the London correspondent of the Manchester Guardian says he understands that the statement that the Foreign Office has described the British claim to the island is unfounded

The Guardian's own opinion adds I am told there has been no change in the attitude of the Foreign Office or in the British claim to Wrangel Island.

A summons of violence is being conducted in Berlin wherein the 10 magistrates known will be kept on record.

Few men have the ability to run their business at a pleasure.

First Icelandic Settlers

Large Number Located on Shoreline in Manitoba in 1875

Still first Icelandic settlers arrived in Canada in the summer of 1875. The nucleus of the British colonies are in a matter of particular interest to the people of Manitoba, where they located most largely. The Icelanders have been among the most desirable people to come to Manitoba since the Winnipeg Free Press. They were not severely seized by the climate, but they had the natural qualities to make successful settlers, and the desire to become thorough Canadians and associate the full citizenship of the country by the ballot. The imported university has sth. faculties and over 1,000 students. The city has suffered several times before from severe earthquakes.

Yokohama, the chief seaport and largest port of the empire, is on the Bay of Tokyo, about 18 miles south west of Tokio, of which it is the port. It had a population of about 120,000 in 1913, a city of marked contrast, the foreign quarters and business district being well built, while the native section is poor. There were many handsome business structures in the city.

No sign is the city of Yokohama Honda and has a population of approximately 60,000. It is the birth of the Chief cities of Japan Nagoya is well known as one of the great seats of the pottery trade, in the manufacture of porcelain it rapidly being added. It lies at the head of the shallow Ise Bay, about 20 miles from the Port of Yokohama with which it communicates by rail and light draught steamers. Nagoya is a great centre of export for all of the surrounding district. Cotton mills have been established there and an extensive embroidery business is carried on. It is further distinguished as the birthplace of ieyasu, founding in Japan

Saved Settlers From Starvation

Monument to Memory of Birds Erected in Utah

In Salt Lake City, Utah, is one of the two monuments in the world -the other is in Italy - erected to the memory of birds. This monument commemorates the fact that during the year 1856 the original settlers in Utah were saved from starvation by seagulls.

A few days after their arrival the white settlers were alarmed to observe that their crops were being devoured by myriads of crickets and grasshoppers, which are on the rampage until it was as if it had been scorched by fire.

Prayer was resorted to, and next day, as if in answer to their appeals, there appeared a great flock of seagulls, which preceded to devour the pests, and it was not until the "crickets had been completely annihilated that the gulls took to their wings and disappeared

The monument commemorating the event was unveiled in 1913.

Saved

Ian Hay: My son, when I was your age I carried water for a gang of bricklayers.

Son: I'm proud of you father. If it hadn't been for your pluck and hard work I might have had to do something for a living.

SCANDAL

GOETHE EMINENT the man poet and dramatist wrote. "There is nothing more fearful than imagination without taste." As to the date of 1872 it is a fair guess that the above quotation was written. It would be interesting to us to forget to explain why he was so fond exactly what he meant. Does it ever have been taught in schools that brought forth the remark and it is possible that as a community changes but little through the ages he looked out upon the world, saw its imperfections and wrote. Whatever the reason although he coined the quotation to be written, its truthfulness cannot be gainsaid.

It seems of late years that imagination without taste" exemplified in the form of scandal has come in for marked attention. In a number of the ex changes that come to this office there has been mention of scandal and it would seem that, while its possibilities were never absent, like the flu and financial stringency it is a product of the war. Be that as it may, the fact remains that upon slightest provocation, tongues, or perhaps it should be written some tongues, begin to wag scandal regarding something or somebody. That the delectable subject under discussion loses anything in the telling is unlikely, and of course it is always "just between you and I."

When this world was created, variety seems to have been the ruling desire. Everywhere one looks is variety. On the earth, in the earth, in the realms above the earth, in the ocean and under the ocean, in the animal and vegetable kingdoms there are things of exquisite beauty and things according to human conception of terrible ugliness. In this respect is the world of thought akin to the material world. That even among the best of us, scandal is listened to with interest if not relish and is the object of humor or tragedy according to one's nature, training or environment.

The Ku Klux Klan has been styled "the invisible empire," scandal could be styled "the invisible host" for remaining as strangers who does you some good turn, without giving you your daily bread. Think it over next time you eat.

Fun and Fancy

North Dakota has a league for the elimination of the middle man. Recently a member fell ill and sent for the undertaker.

The craftsman came at once; but on entering the sickroom and observing the patient, remaid: "Why man you don't want us. You need a doctor."

"Or I don't," said the sick man, faintly. "No middleman."

"Your wife has such a soft liquid voice."

"Yes, but it is hard to stop the flow."

Mamma: "Yes, dear, the angels can hear everything; they know all your prayers last night."

Ellie: "Then I'm sorry, I didn't say them."

Boss: "I can't imagine how you get so much money out of your husband."

Tom: "Oh, I simply say I am going back to mother," and he immediately hands me the fare."

May: "How did you chance to meet your second husband?"

Ray: "Oh, just by accident. He ran over my first husband with his car."

Gas Turned On By Second Week In October

We have been informed by representatives of the Northwestern Utilities, Ltd., that barring bad weather, gas will be turned on at Tofield during the second week in October. Those who are going to have the service piped are urged to make arrangements now. A little later everyone will want their work done at once.

We are procuring a fully qualified tradesman to assist us in installing heating and lighting systems and can guarantee you a first class job at a fair price. The main point is to have your buildings ready when the gas is turned on.

Gas Fields Of Alberta May Be Utilized For Production Of Carbon Black On Large Scale

But the use of the gas known as natural carbon black finds quite adequate market for it in rubber and other and automobile tire industry would be severely handicapped. The best black a product of the incomplete combustion of natural gas but not yet been manufactured in Canada, but the Mines Branch of the Department of Mines, through Mr R. T. Elworthy of the Chemical Division is this season making a field study and chemical investigation of natural gas in Western Canada with particular regard to the possibilities of the compounds which enter and gasoline content of those gases. At present natural gas contributes carbon and other hydrocarbons in gross demand for the manufacture as above black.

Carbon black is a soft, dark, sooty amorphous similar to the soot produced by a smoking kerosene lamp. It is however a product of the burning of natural gas. The flame is trapped and against a metal surface which keeps cool by running water and the deposit accumulates it is subsequently removed. The chief producing area of these carbon black is in the Ohio, Virginia and Louisiana where there are two hundred companies of natural gas. Much of these companies are subject to certain legislation governing the use of the gas. In Louisiana for instance they may be used for the manufacture of carbon black the gasoline content must be extracted, and in certain portions but enough gas must be delivered for each boiler. Under these conditions all possible efforts must be made to avoid waste. In the use of the natural gas. How important the industry is in Louisiana may be gathered from the fact that one company's plant consists of 120 burning boxes, 11 by 12 feet.

Canada has long had large deposits of them situated at points distant from possible domestic utilization and it is likely, as a result of the Mines Branch's investigations, that some of these may be found valuable for the commercial production of carbon black. The mining and fuels Branch of the Department of the Interior is at present engaged in fuels and registrations for the production of carbon black from waste situated on Dominion lands.

The Ontario Government, it is reported has recently given permission for the natural gas from a small area in the Sarnia district to be used for the production of carbon black. It is likely—and that development will take place at once. The initial plant will be of but limited size, and will depend on reliance must as the opportunities offer.

The Canadian consumption of carbon black stems from one-quarter to two pounds per 1,000 rubber feet of gas used in the tire industry. Canada's consumption of rubber tires for special grades. The black is packed in paper sacks for shipment.

The uses of carbon black are numerous and innumerable. One of the chief uses is in the preparation of printing inks, such as this paper is printed with. By admixture with oils of different qualities and consistencies a wide range of inks may be made, from that which is termed newsink, to a grade suitable for the printing of the finest lithographs.

It is also used as a pigment in the manufacture of paints, in which case it is finely ground in oily vehicles, usually linseed. In the making of black patent leather carbon black very finely divided, while for lithographic records, typewriter ribbons, carbon paper, black enamel leathercloth etc., it finds many uses.

In the preparation of the rubber compounding of substances with the other rubber stands the greatest consumption of carbon black, the second being in the linseed oil. It is estimated that fully 85 per cent of the engine production is used in this industry. Owing to the fact that its use of substitutes it is a very valuable ingredient in automobile tire compositions, it must, however, be used in combination with other substances as a rubber pigment is by not particularly valuable.

Canada is a very large user of carbon black and, while as yet, production none, by the year ending March 31 last, imported of lamp, lamp, lamp and carbon black, 2,743,099 pounds of a value of $166,512 and it cheap Canada duty free.

Should the Mines Branch be able to demonstrate the commercial possibilities of the utilization of the Alberta gas fields for the production of carbon black it will add considerable to the industry of Canada and make one of another of our great natural resources.

A boycott on now in Japan is that to Hop Sing one should sleep with the head pointing due north

Natural Resources Bulletin

The Cost of Power Carried by the General Public

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says

Fire is the greatest enemy natural resources but is universal with that only since this apply to the destruction caused by forest fires but in the treeless areas. Mr. Watt in our cities, towns and countryside. The loads of old building material and accumulated goods in our natural resources and the products thereof. When we burn these up they must be replaced, and this replacement causes just so many additional calls upon the supply of materials to new development.

The cost of these fires must be carried by the general public, and, as all manufactured material is insured in any process, the insurance companies collect since from the consumer of the products of the forest. Thus the public pays in the end for the fires. Insurance companies and individuals make an important item in their annual expenditure, and the place where he pays his dollar, and see that all fire dangers are removed.

For the first eight months of 1923 the fire loss in Canada was over $14,000,000. Let us try and materially reduce this large sum during the coming year.

Dairymen Pure Seed

Shipments From Saskatchewan Go to Many Points

The Saskatchewan University Field Husbandry Department sent out over 112,000 pounds of seed this spring. Not only the farmers of Saskatchewan, but those of the largest proportion of the seed, but farmers of neighboring provinces and states. Twenty-two recipients this shipment was sent in Kansas, there it will be shown on the Experimental farm. Of the total amount sent out over 94,000 pounds were alsike clover. Peoples are encouraged to have products registered with the Canadian Seed Growers Association. Registration is also managed by the office at Ottawa, but the Provincial Field Crops Branch carries on the inspection work. In addition to the "elite stock" seed, 578 pounds of first generation Arctic clover were sent out also 1,700 pounds of brome grass. The crop was cut in accordance of the Saskatchewan Field Husbandry Association, a lot will conduct variety tests in nearly all the settled parts of Saskatchewan.

Bronson Coal Is Easy Of Access

Unique Cost of Steel with Steam Shovels and Loaded on Cars

In the foothills of the Rocky Mountains, southwest of Edmonton, Alberta, on the Canadian National Railways, there are some remarkable deposits of coal bituminous coal. These deposits lie in great hills, the seams being from 30 to 150 feet deep and the coal is loaded out to the railway cars with steam shovels after being loosened by means of powder. The co-workers at Cardiff, four to twenty feet in depth, is first removed, exposing the great beds of coal for the mining operations. Two of the mines are now able to ship one 50 carloads every eight hours, but this can easily be doubled. The cars are run straight to the bunker within of coal the loading. These mines are in the Brazeau field, one of the largest coal areas in Alberta.

Curious Information

In London Blue Book

Some Queer Occupations Are Shown in Sanderson Volume

The London Blue Book is a popular one today, but remarkable some curious information London has a solitary fisherwoman who lives in a suburb at Barnes. Another curiosity woman black is a "mudlark" and there is one woman who is a "bone-grubber."

Hobby-collecting seems to be a favorite occupation with many Londoners. Among the queer trades are "fleabite" producers, "pot-hooks," "tooth-pick" makers, "plaster" makers, "stick-brushers," "peacock" keepers.

Hobby-collecting seems to be a favorite occupation with many Londoners. Among the queer trades are "fleabite" producers, "pot-hooks," "tooth-pick" makers, "plaster" makers, "stick-brushers," "peacock" keepers.

Claim Esperanto Is Becoming Popular

Books and Newspapers Being Published in New Language

Original poetry in Esperanto, the universal language, has begun to appear in periodic centers where Esperanto is popular. Many translations of customs books have also been given out. Esperanto text and published with the words and music.

In pointing out the advancement made in Esperanto toward popularity in nearly all parts of the world, advocates contend that Esperanto short hand writing has been taken up by a great many young persons as a by-profession and they predict that even really thick language will be taught in schools.

According to Esperantists there are more than 2,000 persons in Dresden alone who read, write and speak the language. There are many Esperantic clubs in London where an Esperanto institute was founded not over a year ago.

The headquarters of the Esperanto world centre is in Geneva, with branches in all the cities and printed publications of most countries. The Esperanto Monthly Review, a London paper, with subscribers throughout the world. Translations of famous authors and original books may be published in Esperanto, one of the latest publications issued in London being one department devoted to geometrics of this language.

The total membership number of Esperantists was by L. Zamenhof, a Russian physician born in 1859.

Boys Being Trained For Canadian Farms

Training Centre Has Been Opened Near Vandhy, Saskatchewan

The farm at Craigielaw, near Pinkney, has been opened as a training centre for city boys who desire to go on land in the over seas dominions. Two hundred and seventy boys have come from the farm to Canada.

Dr Canaw, who has taken a special interest in the enterprise, said at the opening that the idea was that also boys from Craigielaw farm would go to Canada where he had purchased another farm with the view to their continuing their agricultural training and where also the opportunities would arise to equip the boys for farm work in the Dominion.

Many boys who could not make good in their lothian were successful in Canada. Dr. Canaw said. It was marvellous how boys taken from unhappy conditions in cities in this country prospered in Canada. One boy paid $2 000 for a farm and was talking to his new home his mother and a brother and sister.

Canadian Naval Cruise

Royal Naval Canadian Volunteer Reserves in Southern Waters

The cruise of the Royal Naval Canadian Volunteer Reserves, who with 15 M.P. light cruiser Curlew to Falmouth and other Pacific islands, is now drawing to a close. The party of Canadian reservists joined the Curlew in the latter week of July and have since been engaged in naval training on an up-to-date cruiser. The Curlew and Patrician will steam one of San Francisco and will cruise for a short time together when they will be training in naval gunnery. After the completion of this training the Patrician will return to Esquimalt bringing the Canadian reservists, and the Curlew will continue her cruise down the Pacific coast calling at Santa Barbara and San Diego, returning through the Panama Canal to Bermuda.

Yet, the date of a woman's birth has nothing to do with her age.

Change your opinions once in a while if you would improve them.

Rapid Shipment Of Cattle

Many Cattle Shipments From the West Now Go By Quebec Route

Shipping weeks earlier by the Quebec route is proving a great boon to the Canadian cattle export industry and it is only a matter of time until all cattle from the west for export will be shipped by that port L. Jarvis traffic manager of the Quebec Harbor Commission, predicts. "The Quebec route," says Mr Jarvis, "has proved to demand the method of cattle export and factors in Western Canada are here benefitting by a saving of about $15 a head in shrinkage alone. It has eliminated one handling and this being shipped to the old Country can now be placed on board ship twenty-four hours sooner than form erly. Arrangements at Quebec for handling are the most modern in the world. The loading yard is built right at the ocean side. Cattle from the west are unloaded from the cars on one side, watered, fed and roped for shipping and then passed direct to the boats on the other side." The Canadian National Railways recently received a new record for rapid hauling of livestock from Western Canada to the seaport.

World's Phalarous Supply

Chief Source in the Choice Deposit of Tennessee

The world's chief source of phalarous is the Choice district of Colorado Florida, which yielded 1772 tons of phosphate of fertilizer ago, and has several been eroded out and commercial ed in the same district, the remaining stream from which it is obtained by washing. Some deposit yield gold. The crude phalarous produced in Tennessee was about 25,000 tons, and the exports in 1920 have reached at about $15,000,000. The Florida deposits have been developed since 1888 and have been estimated at 700,000 tonnes. which they stand in the very world's hardly recognize them

The average farm women of today goes to market over good roads in a car fashions does she ride in a horse? Horses are getting to be as much a curiosity as in the city. She has learned to drive a car and take a spin to town whenever she likes. In the shopping, visit a friend or attend her club meeting.

Nor does she go to town garbed in a calico frock. Her dress is fashionably made. Her hat is not a result of home millinery, but was purchased at a real millinery store and is in keeping with the season.

Her state of mind is no longer one of loneliness and thought-going She has gone far beyond that narrow circle in many cases in her home. She goes there when the spirit moves. She attends weekly meetings of her literary or political club and frequently entertains in her rural home.

She is a graduate of the consolidated school at least the township high school, and in many instances the state agricultural school. Her sons and daughters are meeting the right on young men. Her home is ideal. She has a piano, she is up-to-date in the latest fashions, she is a regular reader of the best magazines and many of the best books and papers. She has a telephone in her home, she has a car, she has a radio. She is well informed on the questions of the day. She is a real helpmeet to her husband. She is a real mother to her children. She is a real home maker. She is a real farmer's wife.

Sons Are Saved

The chartered banks of Canada, to day are sound, general business is good, and the outlook is bright.

The farmer has a large share in the basic and irresponsible who have got what they will stop rocking the boat we shall soon emerge into true and unless and be calling again on the credit side of prosperity.—Kingston Standard.

Last year 11,366,000 fresh eggs came to the United States from China.

Some of the charity that begins at home makes a lousy getaway.

Bovril makes you feel a new man

Animals and Birds Found in Australia

Would Take a Lifetime to Study Great Variety

The fauna of Western Australia is so diversified that a million of study can give but an imperfect idea of it, declares a writer in the London Daily Mail. The kangaroo, as widely known, long-eared bandicoot and pale pedaroo-up to kangaroo and its flesh tasted as the venison of Argyllia. The emu, of its nerves feed full, is a bird that moves fast, though it may run with the speed of the fastest horse. There are two species of crocodiles in the extreme north, each abound in the coastal, and turtles are fairly abundant on the northwest coast. Many species of snakes than the kangaroo, infest the districts. The native cat, a handsome little mammal, half as large as the ordinary tabby, is spotted, very fierce when captured, and a great nuisance on account of robbing hens' nests and destroying chickens. The banded ant-eater is a squirrel-like mammal, remarkable for having 43 or 50 teeth in the point of the muzzle. They are native dog, which is cunning, shy and savage, and a dreaded destroyer of sheep. The north territory of parts of Kimberley is one of the strangest and most hideous sounds of the world. In the extreme north the variety of birds is great and includes pheasants, parrots, cockatoos, cockatiels, pigeons, ducks, quail, and a host of other—all songless. The native companion, the dancing bird of Australia, curiously collects in groups of from 40 to 50 and indulges in elaborate performances. The ground is alive with crabs, the great robber crab—the—not dangerous being some three—14 feet long.

A Heroine in the North

Rare Record of Courage and Fortitude Shown by Eskimo Women

The list of heroines famed in story must now be added the name of Ada Blackjack, the Eskimo woman only known survivor of the Crawford party who occupied Wrangel Island and claimed it for the British Empire. This woman who went with the party as cook, was left behind by their clothes, became the protector and nurse of the last of her male companions. She saved their lives, and tended him in his last moments. While Ada Blackjack, the Eskimo woman, built her own igloo and made tailored habits in that cold-it for many months.

Her courage and fortitude in preparing to pass another winter at the last possible moment, when the last of the expedition, and her own are said to also at destitute, compare, both epic and picturesque, with any told by man or woman. The Literary Digest.

The more a woman knows the easier it is for her to hold her temper.

Scientist Says Earth Does Not Rotate

Some Facts Move Relative to Other Parts, According to Professor

Dr. Dinsmore Alter, head of the astronomical department of the Griffith observatory, has asked the members of the Los Angeles astronomical society to attend the meeting of that organization in Toronto next year, will be entertained at the camp there as guests of the Alpine Club.

Putting a Letter

Perhaps it was a new way of posting a simple every-day letter, several ing to one town observer. For in Chicago, one of Miss Vassar's who were watched at a street letter-box in the residential section on a large city. It withdrew the letter before quite let ting go of it, to scan both sides of the envelope, to be certain the letter was securely sealed, properly addressed, and stamped. Then, and only then, could look through the envelope to read the contents.

Alberta Butter Wins More Honors

Provincial dairy products from Alberta ve history, won the championship, spe cial prizes, and all first prizes at the Toronto Exhibition, according to word received by C. Marker, Dairy Commissioner. The provinces competing were Alberta, Nova Scotia, Quebec, Ontario, Manitoba and Saskatchewan This is one of the best records ever made by butter exhibits from this province.

Edison's Brain Worth Fifteen Million Dollars

Influence of Ideas on World Cannot be Calculated

There is one human brain that has a hard cash market value today. In the business and industrial world, at $14,000,000. Millions to support, not millions That is within 20 per cent of equaling the value of all the gold dug from the mines of the north above America was discovered.

The brain is that of Thomas Alva Edison who many a time has said to his cronies: "Well it seems easier to invent. I've got a good idea, I can always make $75 a month as a laboratory assistant and I can live comfortably on that."

The $15,000,000 now represents the personal investment in Edisonian whims in industries which are entirely based on the Edisonian mind. Edison could have been a materially stimulated by his inventions. Several of the creations of his genius have made millionaires of other men.

All in all, Edison has taken out more patents than any other individual. His "Edison, His Life and Inventions," by Frank L. Dyer and Thomas C. Martin, is for many years a household patents, complete to 1909, covers two-score pages, aside from 1,328 foreign patents. By 1917, the total had passed the 1,500 mark even though in late years Edison devoted himself chiefly to perfecting his work. Money value was invented. And, due to tradition, Edisonia talked first and foremost in terms of the commercial. It was merely her echo.

When there were two years old and again the next summer I took them to see Mr. Maltine, where a colored man named Mr. Maltine, where a colored man named Mr. Maltine lived. I have for a month and he and his wife and children lived in a little house on the farm. My Campbell was never on the farm. Mr. Maltine was a "nice fellow," and I'm a tenderer to me that I ever had. He

Lindbrook

Messrs A Scutt and N. Ellis shipped a carload of horses from here to Edmonton. Mr. Scutt accompanied the shipment and it is said that the prices obtained were very good.

The crops are being cut and gathered in and we know that some threshing is started. Some farmers would have been started in the autumn but sunflower binder also an excuse cutter and we hear that it is in great demand.

Some farmers worked Monday 7th district also shipped a load from here this week.

A card of thanks appears [illegible] Mrs. Ansley Hooper [illegible] sincere sympathy [illegible] sudden death of her husband.

Mr. Jas Rogers has started the big job he has on place and is getting well until the stone came, now it will be a week or more before he can commence operations again

Mr. Dan Matheson who has been ill with rheumatism and has been staying at Mr. L. Point's, is some but better now we are glad to say. Dan has been working on the pipe line and has got 34 out on the job quite a bit and this has caused a revival or rheumatic conditions caused by the first plunge by such an overdose.

Mrs. W. C. Lancaster and Miss Audrey Hooper were the guests of the Brown family of Ketchamstown Sunday.

Beware of fires, the winter and one start with a match thrown down, as it is not Indian summer it is getting drier in every way, etc, etc.

Lakeshore News Items

Rev. J. Bowell from Monday September 17th for Vancouver to visit his sister for one return trip to five weeks in Toronto. He will conduct divine service at Lakeshore school on September 20th at 8 p. m. A cordial invitation is extended to all to attend.

There was an enjoyable gathering of relatives at the home of Mr. and Mrs. Ferguson on Sunday last. It was a genuine surprise that Mrs. Ferguson sprung on all present, it was his birthday. Among those present were Mr. and Mrs. H. D. Smith, Mr. and Mrs. A.N. Booth, M. W. Ferguson and Elgin Smith. After a very enjoyable dinner all left for their respective homes after wishing Mr. Ferguson many more happy birthdays. Ask Johnson if he likes birthday cake?

Miss Alma Bethel spent Sunday at her home.

Nettie Noel and Keely Ferguson visited at the Booth home on Sunday last.

The farmers are having lots of trouble with their binders this fall. We saw lots of binders when the snow was falling but the sun is shining once more and every one looks happy again.

Mamma: "Yes, dear, the angels can hear everything they heard your prayers last night."

Elsie: "That's funny. I didn't say them."

Lost A small cane grip was picked in the Evening Post or outside Alexander hotel on Tuesday night of last week. Will finder please return grip to Mercury Office, or Mrs. Albert Roberge.

Any person that wishes to purchase dairy butter packed or in prints communicate with H. Ettico, R & H, Tofield.

Left at the local telephone office a stock whip. Owner can have same by applying at Mercury office and paying for this ad.

Risk Matters Discussed at Council

A regular town council meeting was held on Monday evening. There were present Mayor McCauley and Councillors Bellamy, Bruce, Chapman, North, Swift and Worton.

With the exception of road ing the minutes and the passing of a few accounts, the evening was entirely taken up with the discussion of risk matters

The committee appointed to report regarding the advisability of lighting the rink with natural gas reported that in their opinion the amount of money involved would be around $400. This amount includes both skating and curling departments. Unofficially, the curlers had expressed a willingness to light their departments themselves and a motion was passed allowing them two seasons rental, labor season and this, for equipping the rink with gas lighting facilities, the equipment to become the property of the town.

This left the skating side to be dealt with. Here it was reported an expenditure of $2,000 would be necessary. It was explained that if the rink was equipped for gas lighting the trouble of the loose would be greatly lessened and therefore the risk should bring a larger rental. That the expenditure was in the nature of an investment, as in five years the increase in rental should wipe out both capital and interest charges on the lighting fixtures. It was also mentioned that we had given the Board of Utilities our estimated expenditures for the year and that insurance rates had been very insistent regarding school board economies the council should notify them of the intended expenditure. A motion by the chairman of the finance committee was made that this be done, but it was defeated. It was then moved and carried that the same committees Councillor Chapman and Worton continue to act as a risk committee. Council was then pressed for an opinion as to whether they were in favor of lighting the rink and most of the councillors felt that it should be done. Leasing the rink received some attention but was left to the committee

The meeting then adjourned

The Tofield creamery is announcing that its about two weeks it will ship a car load of poultry. This method will procure best prices. If you have any poultry to sell speak to them about it.

YOUR TOWN AND DISTRICT

ALBERTA 18 now harvesting the greatest crop as regards volume in its history. The threshing machines as this is written, are now literally humming all over the land. Into many districts cars are being loaded as fast after shock from a continually illimitable source, and from their sprouts are flowing streams that create wealth and power and we hope happiness to many. Not that this is all make a Utopia of the ... farmer far from it ... he is money easily earned. But this season as nature has ... and, growth has been a ... and and men made much ... to human happiness and ... may never be ... a better ... What this district is and ... lishment upon the fall business as straight grain growing districts are, even here during ... the months ... the year ... ing to the logical and ... the summer season ... end of the hum of the ... and the whir of the ... the farmer will be ... ... and will be doing ... In the very nature of ... things, the farmer gets ... money he will spend during ... and ... and as long as he ... to pass reasonable ... it is no other person's business how and when. But at the time, we would like to suggest that the home merchant, in whatever line, be given first consideration. The mail order houses of big cities by ... tack of modern trade will ... tempt to induce farmers of ... here to spend the money ... them, and often when no ... vantage whatsoever is gained ... money goes to the large cities that could just as profitably be kept at home. We attended calling for the lo me implicit any thing more than what your individual judgement calls for, but we are asking that business and stick be given ... full inspection. During the summer, but summer, and the summer is on that, the small town merchant is on the spot and generally speaking handles our fairest to all and nearly. More all, the ... and ... deliver ... the place though ... ever so attractive, should have just the same appeal to your purse or to your pocket. This is home ... Towns as well as nations that are great, have to a great extent become so by exercising a national or civic pride in the merits of trade.

Fun and Fancy

There are several distinctly good stories in the recently published "Reminiscences" of Enoch H. Hoe. Here is one of them. He underwent a serious operation, and on losing consciousness his last thought was "Hoe's eternity." When I recovered from the effect of the opiate, I had myself in a darkened room, and wondered what I was and what it was all about. The kindly featured nurse quickly discerned that my consciousness had returned, and came to my bedside, and then I remembered everything. But why this dark room? It was early morning, when they operated on me, but now it can't be night. No, it isn't; she seriously responded, but we were afraid of the shock you might get. Why, what shock? "Well, the room a big fire just across the street, and we were afraid if you awoke, and saw it, you might think that the operation hadn't been successful."

He, waiting. "How slippery the floor is. I used to keep ... in my feet."

She. "Oh, you're really trying ... and you say you feel are you? I thought it was merely me!"

The Prohibition Tree
Its Sweet Fruits

1. The forcing of not only the use but the MANUFACTURE of alcoholic liquors into the home in the shape of home brew. This to us the worst. See Report of the Commissioner of the Alberta Provincial Police for 1922, quoted by the Liquor Commissioner in his Bulletin, No. 3, page 1.

2. The undermining of the general respect for law and order by a statutory attempt to legislate tastes and custom. This statute is impossible of enforcement, see Report of Supt. Bryan of the A. P. P. 1920 page 46. The reasons is that public sentiment is not behind it, see Report of 1920, page 46, confirmed by similar remarks in Report of 1922.

3. The sapping of the foundations of society by the appeal to citizens to become spies, tattle-tales, and informers, with the profession of secrecy for those who give their names, and the encouragement of approval for the rewards who will not. See Liquor Bulletin, No. 2 pages 1 and 5, and No. 8 pages 1 and 2. Our life is poisoned as well by the free employment of "spotters and "stool pigeons" whose methods of manufacturing evidence are a public scandal throughout Alberta.

And then the Prohibitionists talk about "improving social conditions."

Throw out King Hypocrisy on November 5 by registering your vote on the ballot with a figure 1 opposite clause D5.

Wheat Producing Powers Of Canada Of Great Importance To The British Empire

(By C. P. McLennan, London England)

Canada's great producing power are of great importance to the British Empire. Where these powers are questioned as they have been recently, an investigation is not out of place for the purpose of determining whether Canada's claim as a great and prosperous country, with country has ably said somewhere in fact, I have thrown new information, from a Canadian authority, which goes to substantiate the Dominion's claim to prominence as a wheat producing country. There is evidence which suggests that Canada will, in time, produce more wheat per acre than any other country in the world.

That Canada is entitled to be rated the "granary of the Empire" is borne out by the following figures, which show the wheat production of the principal producing countries of the Empire for the year 1921 (or 1923 ...):

	Bushels
Canada	300,956,100
India	356,000,000
Australia	146,396,000
Great Britain and Ireland	71,000,000
South Africa	16,000,000
New Zealand	6,000,000

That Canada has great possibilities in this title is evidenced by the fact that one more than 15 per cent of her wheat land is now under crop. The production in 1922 amounted to 399,744,000 bushels, an increase of over 100 bushels over the 1921 figures given above. While actually India is a more extensive producer, she is far behind. Inasmuch as Canada produced about 57 bushels per head in 1921, as compared with India's less than one bushel per head.

There is another question in dispute it has been declared that there is room in the British Empire for wheat in Canada has been a failure. If that were so the future of the Empire, so a wheat producer would still be of first-rate importance, as the rest of Canada, about which there is no question is capable of an enormous annual production. But, as a matter of fact, production is largely grown in those northern districts. The extension of the wheat belt northward in Canada is by no means a failure, but, on the contrary, has been a decided success. From the Peace River to Battle River, in Alberta, took the first page at the World's Canadian hard wheat in 1923, and the area of wheat grown in that district is rapidly increasing. In those northern districts barley and five grains to the climate are found, as against five or three in the United States or more southern countries, those of Canada are superior to those of other Britain for the production of wheat. The British Isles have too much moisture to produce the hard wheat grown in Canada. Experts of moisture produces wheat lacking in protein content and baking strength.

Owing to the large amount of British capital invested in wheat lands, elevators, railways, steamships and other allied assets in the northwestern provinces of Canada, it becomes a matter of the utmost importance as to whether Canada is to go forward or backward in the work of feeding the American and European countries. The popular impression has been, and still is, that Canada, if developed and enlarged, can produce enough wheat to make once the world's supply at bread, for a great many years to come. An impression which is founded on irrefutable data. As to whether the Dominion of Canada is likely to be the greatest wheat growing country in the world, there can only be one answer. That country is now the second large wheat producer at wheat, and will undoubtedly become the greatest producer and exporter within a very few years. With but 15 per cent of her available wheat areas under crop, and a rapid increasing area being brought under cultivation annually, the Dominion should before long out distance the United States in wheat production.

In view of the attitude of the Labor party in this country in opposition to Canada. It is an interesting question whether English farmers, acting on such suggestions, will go ... raising, or whether the Canadian product, especially in connection that English farmers who have suffered ... cause to remember Western Canada can, undoubtedly, engage profitably in wheat growing. Together the price of wheat at the present time is at rather a low level. But, even under the present conditions, the skilled farmer who is comparatively free of debt and in a position to give personal attention to his farm, should certainly succeed in growing wheat at a profit.

Business Good In West

Railways Show Evidence of Greatly Improved Conditions

If railroad traffic can be accepted as an index of local conditions on the prairies of Western Canada the spirit of optimism is warranted. For two months the freight traffic on the rail ways has been largely in excess of last year and forty per cent. heavier than in 1921 at this season. In the general ... department and the shops every place is employed, some more than ... The eastbound traffic can be accounted ... to in the movement of cattle, wheat, coal and grain, but the westbound traffic has been equally heavy. Large quantities of merchandise have been shipped from Eastern Canada this summer, including implements, dairy ... utensils, ... furniture and a largely increased quantity of windmill equipment.

These shipments represent the purchases of many small manufacturers ... and some large ones all over Ontario ... and Quebec. Usually the trend of freight movements on the prairies is eastward, eighty five per cent. of traffic on the prairies is eastbound. This percentage has been largely reduced this summer.

In passenger traffic, there has not been since the war such a stimulated business. This has not been confined to the big through trains but the "feeders," show an increase. The tourist traffic has been enormous. There isn't a hotel in the mountains that has not been crowded to the limit for two months and ... to this heavy railway movement must be recorded the huge number of autos passing over the prairies. There has never been anything like it. The roads are in splendid shape as to the small towns and trail garages has been doubled in July and August, over the same period last year. Chiefly, has been foreign business, people from the United States passing through the Winnipeg gateway and ... on to the coast on the Canadian ...

Of special significance is the trend ... any on the prairies to purchase ... threshing machinery from Canadian ... factories.

Russian Butter for England

Russian butter is about to enter the English market as a competitor of the Canadian product. Four wagon loads of Siberian butter recently arrived at Riga from Soviet Russia, and are the first of a total of 150 wagon loads which Russia proposes to export to England during the current year.—From the Farmers' Sun.

With the aid of a small machine, blind stenographers can take down dictation which they afterwards transcribe on ordinary typewriters.

A fire truck has been invented which has an individual motor on each wheel.

Will Show Their Best

Saskatchewan Livestock Men to Exhibit Extras at Toronto Winter Fair

The executive of the Saskatchewan Live Stock Board have definitely decided to send an exhibit of their best and ... to the Toronto Royal Winter Fair and to the Chicago International Live-stock Exposition, and plans are definitely under way to secure a good representation at the best animals in the province.

The Saskatchewan Live Stock Association has announced that the breeders propose to take advantage of the assistance offered by the Dominion and Provincial Governments to pay for transportation on show stock from Saskatchewan to Toronto and Saskatoon in arranging and managing the exhibit and in transporting to the International and home again. Mr. Robertson states that selection committees have been appointed to prepare the best in horses, cattle sheep, swine and poultry, and anyone in the province who has stock that he wishes to have considered, should write in at once to the Livestock Branch, Regina Entries for these shows should be in the hands of Mr. Robertson not later than October 20. It is proposed to assemble the exhibit at Regina at the time of the sheep and swine shows in that city which is being held on Nov. 6, 7 and 8. The exhibit will leave Regina for Toronto a day or two later in order to be there in good time and get a rest before the judging starts. The two months and odd ... ral championships at the first Royal ... will have been worth while. Whatever the result, we will have brought about a more ... responsible in Prairie cattle circles, and ... reputation and it is expected that a strong exhibit of horses and sheep will go forward as well as some excellent individuals in the other classes.

C. of E. Motor Van Passes Through Tofield

A motor van driven by Miss Hamill who was accompanied by Miss Nesmes passed through Tofield and the surrounding country last week. These English ladies who have had considerable experience in teaching and missionary work are doing their best to further the Church of England's good cause. Twenty four thousand (24,000) Newsies the son Tuns children each contributed two cents (1c) Home weeks which finally amounted to and cents each. This money purchased the caravan and part of the equipment. The above mentioned ladies paid their own passage to Canada and also bore their own expenses while engaged in spreading the gospel. Their chief purpose is to visit the rural homes and schools in places where church or Sunday school is seldom or possibly never held, and to arrange for Sunday school by post. This means a great deal to settlers who have not the opportunity of worshipping God at church or Sunday-school. Lessons, prayers, etc., graded according to the ages of the children are sent free to all scholars enrolled. These Sunday school lessons are issued by the General Board of Religious Education of the church of England in Canada, 135 Confederation Life Building, Toronto.

These self sacrificing ladies who give so much of their time and strength in furthering this cause, deserve all the encouragement and support possible. During the winter these ladies will lecture in England to raise funds to help provide missionaries for Saskatchewan and Manitoba.

While camping at the writers one overnight until 4 p.m. the following day it was possible to secure much information concerning their splendid work and during their ...

Underwear and Woolen Goods

We have now in a new lot of Boys Sweaters in all sizes, small size $1.20

At The Variety

On Saturday night at the Variety there will be shown Sherlock Holmes, picture adapted for the stage play of that name. Originated by Sir Conan Doyle in detective fiction, Sherlock Holmes and his friend Watson have thrilled the hearts of millions and the name Sherlock Holmes has become the apex of detective work. John Barrymore takes the leading role and the entire nine reels is full of thrills, with just the right touch of humor. Owing to increased expense the admission will be 50c including tax.

For next Wednesday there is a lovely Paramount attraction "Making A Man." Jack Holt well known screen star takes the leading role and Eva Novak is the girl. It is a picture of out door life and is well worth seeing.

New Invention

Members of the officials of the provincial government headed by Hon. Geo. Hoadley, minister of agriculture, paid a visit to the farm of J. H. Hauser of Killam, this week, where Mr. Hauser is performing a combination of inventions to harvest grain without the necessity of binding or stooking. Mr. Hauser has successfully established a method of reaping grain without use of binder, canvas or twine. He uses an ordinary push binder with a 12 foot swath cutting to five or six inch stubble and laying the grain in windrows on this stubble. An extension attachment to the machine is dropped to the second round of the field to the level of the machine table thus running the grain from the second round out 24 feet laying it on top of the first windrow. The grain dries perfectly by lying on top of the stubble. In threshing Mr. Hauser has been using a loader with an elevator which runs along under the windrow and lifts the grain into the loader. By an patent arrangement the grain is unloaded from the loader at the separator in neat stacks. Mr. Hauser plan is to perfect a combination of the loader and thresher. So interested is the government in Mr. Hauser's efforts to perfect his ideas and solve to a great extent the problem of harvest labor, that it is considering steps to assist him, and to procure the full benefit of his operations for the farmers of the province.

A BIG SNAP—Tamarac posts only a few hundred. This is a chance in a great while. Order now and haul and settle later. R. W. Pincott.

FOR SALE—At a snap—Quarter cut solid oak dining room suite in A condition, also large rug, 12x15. Call telephone 11. T-6-tf.

Men's New Fall Overcoats

The first showing of latest models for fall 1923 is now on the racks. The three piece belt is featured, but some are half and some are full belted. All have Raglan sleeves and heather shades predominate. The heavy check back materials are only half lined with striped satin, others are three-quarter lined with checked polo cloth. No smarter coats are shown anywhere in Canada and they are reasonably priced from

$30.00 to $35.00

Leather Vests

And Leather Lined Mackinaws. Our leather vests have these features different from the ordinary kind. They are three inches longer, they have a four inch deep back and they have four pockets in place of two. All sizes $11.00

Mackinaw coats, three quarter lined with leather and with sleeve lining of heavy frieze are sure to be a popular line at $18.75

A similar coat with full leather lining, including sleeves, and with fur collar, is moderately priced at $19.00

Mackinaw Coats

Smart Norfolk Style Coats in a wide variety of attractive dark checks and plaids. One line in a dark green plaid is an especially good value at $7.95

Other models are $10.00 to $12.00

We are showing for the first time the extra long mackinaw in an unusually heavy cloth at $14.50

The double mackinaw which was so popular last season comes in a dark brown plaid at $15.50

Our double mackinaw shirt is the ideal garment for out door work. Comes at a popular price of $7.00

Rogers Bros., - Tofield, Alta.

Change of Water Change of Diet Change of Climate Cause DIARRHOEA

Mr. Fred Palmer, 217 Dalhousie St., Brantford, Ont., writes: "When I first came out to the North-West the water played such havoc with my bowels, and to-day in a remote spot I could not get anything to keep me right for any length of time.

"A friend told me to use Minard's Liniment and take a dose of it. I did so, and before I had finished the bottle my bowels were quite normal."

Whatever the climate, whatever the bowel trouble from eating fruit or drinking strange water, which they have done for the past few years, living in the country, the only remedy we use is Dr. Fowler's and nobody should be without it as it cannot be beat for instant relief.

Dr. Fowler's Extract of Wild Straw berry has been on the market for the past 70 years, and there is nothing else with new and untried remedies when you buy it, but be sure and get "Dr. Fowler's" and see that no one tries to substitute one by dangerous to your health.

KU KLUX KLAN

CANADIANS IN general and Tofield in particular, are not people to be easily swayed by the passions of mob rule. Even in the case of negroes being discriminated against, and conditions existing in the southern states which no northern people could tolerate, we do not believe that the Ku Klux Klan, or any other secret society, could gain a foothold sufficiently strong to overthrow the government of the country. We have a government which is capable of handling any situation that may arise, and which has the confidence of the people. We have a police force which is capable of handling any situation that may arise, and which has the confidence of the people. We have a judiciary which is capable of handling any situation that may arise, and which has the confidence of the people. We have a press which is capable of handling any situation that may arise, and which has the confidence of the people. We have a public which is capable of handling any situation that may arise, and which has the confidence of the people.

The Ku Klux Klan was originally founded in Tennessee in 1866. Founded at first for pleasure, the power and prestige of the organization soon attracted the attention of unscrupulous men who used the name and the power of the organization for their own selfish ends. The Ku Klux Klan was finally suppressed by the United States government in 1871, after it had become a menace to the peace and order of the country. The Ku Klux Klan was finally suppressed by the United States government in 1871, after it had become a menace to the peace and order of the country.

WHAT IS AUTHORITY?

NOT SO very long ago the Pope gave five reasons as being responsible for the restlessness and discontent of the world. They are:

The unprecedented challenge to all authority

The unprecedented hatred between man and man—internationally and in industry.

The abnormal aversion to work that is to be observed on every hand.

The excessive thirst for pleasure as the chief aim in life.

A gross materialism that ignores the reality of the spirit.

Certainly in this list, the world has known a longer list but not touched upon to the last of the reasons given, but the first ten, at least, stand out prominently among the literature of the day.

Authority is illegal power, rule, control, a lifeless enough thing certainly. To many people something to be obeyed at one's peril and something the disadvantage of which is to invite punishment for the thing that is not fully understood and the obeyance of which is looked upon as a matter of course. Is this authority?

Or should it be described as a human force generated for the common good, the basic substance of which is home and public service. With all the power of a Cæsar, authority is not functioning properly, unless there is genuine respect for those administering justice and otherwise attending to the affairs of state. The got rich quick spirit, and get while the getting is good idea may be quite proper providing the individual does not depart from the accepted principles of common honesty and retain at least some semblance of consideration for the other fellow's interests. But tricky evasions of common law and misrepresentation of any kind is a direct challenge to authority, such challenge having the effect of weakening the power that should receive respect. The flouting of authority works something like a boomerang, one flouts the law in one matter and lessens the chances of obtaining pure justice in another.

Authority is not mere power, such as a dictatorship or a military command but a force developed by civilization for its own protection, and which places equal responsibility upon governors and governed.

GOING, GOING, GONE

In the midst of the auction a man came forward and whispered a few words to the auctioneer. Then he went back and mingled with the crowd. The auctioneer rapped on the table and announced:

"A pocketbook containing two thousand dollars in bills has been lost. If it is returned to the owner he will pay fifty dollars reward and no questions asked."

There was a moment's silence, and then a voice floated from the back of the crowd and bawled: "I'll double it."

Seven Sentence Sermon

(On Courtship)

BY A. WILLENS

Be not a flirt or a heartbreaker. Broken hearts means broken lives, and you may sometimes be a victim caught in your own net.

Do not go with a person because of looks. A butterfly's wings are soon broken—character wears.

If you quarrel before marriage you may fight afterwards.

Long courtships seldom end in marriage—make it short and snappy.

Only court where you are willing to marry—you might fall in love and not be able to break away.

Do not expect the person you are courting to be any better than yourself.

"Too many cooks spoil the broth" so don't have too many strings to your bow at one time.

You are cordially invited to attend a series of

Free Demonstrations of Baking

conducted by practical and experienced Domestic Science experts, and members of the Educational Department of E. W. Gillett Company Limited, manufacturers of

Magic Baking Powder,

under whose auspices these demonstrations are held,

At the following store
From Oct 15th to Oct 20th
ROGERS BROS., Tofield, Alberta

Prohibitionists Convicted of Insincerity

"There is not now 5 per cent of the citizens who would vote to bring back the open bar."

Quotation from pamphlet No. 1 of Social Service Council of Alberta, Jan 1st, 1921.

What are they saying now?

"Clause "D" means the return of the bar."

Let them answer these two questions.

1. Do they suppose the Moderation League of Alberta would waste time and energy working for a proposition that couldn't command 5 per cent of the electorate?

2. Do they suppose that a Government, dependent on the votes of the people for support, would be likely, because of certain peculiarities of expression in the ballot, to attempt to bring in a system which doesn't command 5 per cent of the electorate?

They know, and we know, and you know, that the return of the bar is as dead as old King Tut, but in desperation they are trying to resurrect the corpse.

"Don't be Fooled"

Vote I opposite Clause "D" on Nov. 5th

Issued by the Publicity Committee

Edmonton Branch, Moderation League of Alberta.

Agency Building, Edmonton.

Canada's Last And Best Fur Reserve In Arctic Being Depleted By American Whalers

This year, a famous whaler from San Francisco with auxiliary engines in addition to her sails is being outfitted over especially to trade with the Eskimos in the Canadian Arctic, writes the Edmonton correspondent of the Toronto Times. In addition to the boat three other American schooners will operate in the Arctic ocean trading all the way from Herschel Island, at the mouth of the Mackenzie River on the Yukon Land and Victoria Land, to Coronation Gulf in the east.

In Herschel Island alone the outgoing American traders said last year in the Eskimo trade, with private parties of thirty ships and an unknown number that they will not attempt in trade goods at more than a hundred thousand dollars. Besides the Canadian trade which must come in the investigation of the Eskimo and Indians are not disposed to bring their furs to the Canadian trader who has been with them for years, but will offer them to the American trader who has been with them for the first time.

Although there may be some truth in the statement that the Eskimo and Indians are not disposed to bring their furs to the Canadian trader who has been with them for years, but will offer them to the American trader who has been with them for the first time, it is not the whole truth.

Cars Are Designed

To Please Loiterers

Boudoir Mirrors and Chairs Features Of C.N.R. New Sleeping Cars

What boudoir mirrors for the ladies, upper berths and lower berths, and the luxurious features in which many cars for long runs abound are controlled extract fame designed to gratify the old, radiant buttons on the bells and electric light controls so that they can be operated with ease by the dark, these are just a few of the features of the new type of Montreal-built sleeping cars which, to the number of thirty, are being constructed for the Canadian National Railways and which are being placed in service with the first transcontinental train on the date of one year a day. The first of the new pullmans left Montreal last Saturday and every day thereafter one will be added until about two dozen are in use. They have been attached to the "Canadian Limited." All who have travelled in unexpected the new car declare it to be the last word in cozy but not ostentatious and comfortable.

These cars having been built for transcontinental service, particular attention has been paid to the comfort of the travelling man and lady. Each section of the sleeping car is provided with a private toilet having hot and cold water, and there is also a separately constructed lavatory for the use of ladies. Above each bed is a reading lamp, and there is also a lamp in the head room for the use of the porter who has been selected for the position because of his courteous manner to passengers. In ladies in all its comforts while back and forth across the continent.

Sweeping arrangements have been made whereby the berths are made up in a separate set of curtains for the lower and lower berths. This prevents any possibility of the occupant of the upper berth around a her bunkie it impossible for children or any occupying the lower.

Particular attention has been paid to the ventilation of the cars, and in addition to the automatic ventilation on the top of the car, there is an electrical fan connected with each section which the body of the car as well as when the weather, thus avoiding the illness of air at all times. Heating arrangements have been carried out in installation of comfort devices per mitting the heat to pass through two three or four radiators.

Everything possible to ensure the safety of the travelling public has been taken. The cars weigh 140 tons pounds and are backed on the trucks. The pass ages will be provided with fire extinguishers, double-sided and carbon fan which will be operated by a push ing device which provides the maximum of safety in the event of an accident. The cars are heavily upholstered in green English mock plush and the floor coverings have been carefully selected and the windows have been equipped with weather strips. They are also equipped with improvements designed to make as comfortable as possible the journey of the traveller who has to spend a number of days on board train.

The cars are being constructed by the Canadian Car and Foundry Company, of Montreal and one part of the equipment order placed last spring. They are named after the cities along the system, the following: Algonquin, Allandale, Amherst, Barrie-on-the-Lake, Brantford, Chatham, Clifton, Dorval, Goderich, Hamilton, Ingersoll, Jubilee, Kitchener, Lachine, Lindsay, London, Marguerite, Wellington, Oshawa, Pembroke, Regina, Rosedale, Sarnia, Stratford, St. Thomas, St. James, Walkerville, Warwick, Windsor and Woodstock.

The Algonquin was the name of the first car to arrive in the west and it will be followed by Allandale and Amherst in addition along "The National Way."

Yes, They Have No Bones

"I have just thought of an easy way to get rich quick," said the president of the music publishing firm.

"Fire," replied the vice-president. "What's the idea?"

"Let's pick out some rural hustle song, and get the theatre to sing songs for it."—Baltimore American.

Navain's Lake of Fire

Motor Lava Always Disappears When An Earthquake Occurs

According to messages received at Washington from Superintendent of the National Park Service, the new's Lake of Living Fire has made its usual appearance at the time of disturbance, the surface of the lake of lasted lava having dropped one foot when the rim. The vast end of the earthquake is also being followed by earthquakes, the crowds emitting gas clouds as flame and lava.

In May, 1912, as a result of similar disturbance, the Lake of Living Fire disappeared but in September of the same year the crater began to fill again. In May of this year the surface of the lake had risen to within three feet of the rim.

The Lake of Living Fire is situated on the Island of Navain, which is in the Pacific ocean, about 2,000 miles from the coast of Mexico. It is 2,000 feet above the level of the sea and is about 1,000 feet in diameter. The lake is filled with molten lava, which is constantly in motion, and which sometimes rises to a height of 200 feet above the surface of the lake. The lava is of a dark color, and is very hot, giving it a bright red appearance.

The Lake of Living Fire is the largest lake of molten lava in the world, and is the only one which is known to be in existence. The lake is surrounded by a wall of rock, which is about 100 feet high, and which is composed of lava that has cooled and hardened.

The Lake of Living Fire is the only one which is known to be in existence. The lake is surrounded by a wall of rock, which is about 100 feet high, and which is composed of lava that has cooled and hardened.

Feeling the Hen

Clock Regulates Lights and Adds to Working Day

An invention for the use of the hen in egg production has been developed by the Wisconsin experiment station. This is a clock equipped with an ordinary alarm clock by means of which the electric lights in the hen house will be automatically turned on at dark or early in the morning and turned off when the workers in the house of hens have been added to the hen's working day.—Utility Bulletin.

Oldest Plant in World

Was Preserved for Centuries in Illinois Coal Mine

The Field Museum of Chicago has received a specimen of the oldest plant ever discovered in America or the rest of the world according to Dr. Aleph C. Noe, curator of botany.

The plant, which has been preserved for centuries in all its minutiæ was discovered in a coal mine near Harrisburg, Illinois. Coal mines are round lumps of limestone which form in a coal seam and usually preserve plants from carbonizing.

While all the vegetable matter about the 3 ft. forms a shapeless black mud, the forms of life within the coal ball are perfectly preserved they whole knowledge of the ancient plants which lived in the coal swamps of the world. Dr. Noe says from these lumps found in coal fields.

Mr. Rockefeller's motor visited the country has been a great experience. Indeed returned the guest. Some delightful days I suppose."—Boston Transcript.

For the first time a missionary in Japan for the Methodist Church and a graduate of Mount Allison, 1911 Miss Margaret Crisp, of Sackville, left here Oct. 1.

Out 3 matched the one hundred and sixty fifth anniversary of the meeting on October 2, 1758, at Halifax, of the first representatives of British North America.

An official dispatch to the Amsterdam Weekblad says there are now embers in the earthquake-zone of 162 men, the dead number at 123 000, and the missing at 223,000.

By a decree of the Minister of the Interior the Land Settlement Board of Canada has been established. The German comic newspaper, has been forbidden in all Prussia, and the police have received orders to refer copies already in circulation.

The Bank of Hochelaga and Telegraph, at the entrance to the Dardanelles, were blown away by Greece to the Turkish authorities. The Greeks occupy the last portion of Turkey in territory occupied by them, which had to be returned to Turkey in consequence with the Lausanne peace treaty.

WELL-MERITED SUCCESS

A distinguished citizen, honored politically and professionally, Dr. L. V. Pierce, whose picture appears above, needs a answer for here republic. His pure herbal remedies which have stood the test for fifty years are as strong as the "Iron-clads." Dr. Pierce's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and purifies and regulates stomach and liver. Twenty to 1st size drop and good blood is beneath both. Let your blood be good, your stomach must be in condition, your liver active. This Discovery of Doctor Pierce's puts you in fine condition, with all the organs active. Ask your neighborhood druggist for Doctor Pierce's Golden Medical Discovery, in tablet or liquid form, or send 50 cents for trial package of tablets to Dr. Pierce's Laboratory in Bridgeburg, Ontario.

History of Electric Light

World-Wide Monument Made Possible By Years of Research

"History of Electric Light" is the title of a pamphlet just issued by the Westinghouse Instruction dealing with a subject of almost universal interest. Many of the methods described in it have been exhibited in the United States National Museum in the shape of minute and mechanical technology and the numerous illustrations are largely taken from photographs of these. At the present time, there are about 250 million incandescent and about 2,000,000 magnetic are lamps in use in the United States alone and about an equal number of incandescent lamps in use in other countries. This world-wide use of electricity as an illuminant was made possible by patient research and experiment extending through a period of one hundred and twenty years by many men of many nationalities, each approaching the problem from his individual viewpoints and each with widely different ideas to be accomplished by his particular line of research. Only recently has it been possible to demonstrate the existence of certain physical laws, the practical application taking up the track of the pioneers and applying it to many of the problems which are the delight of science and business. The various steps in the development of the present well-known forms of the incandescent electric light are clearly and interestingly presented in this pamphlet.

Old Folks Need A Mild Bowel Tonic

Constipation Best Overcome By the Occasional Use of Dr. Hamilton's Pills

DR. HAMILTON'S PILLS

Because Active, Yet Very Mild, Old Folks Prefer Dr. Hamilton's

Thousand of people, young and old, enjoy health and vigor, and this is largely due to their occasional use of Dr. Hamilton's Pills. This mild, yet positive laxative tonic is especially prosperous in restoring the bowels to their normal, where they have become sluggish or disorderly. Dr. Hamilton's Pills are a combination of simple herbs, roots, barks, gums and other vegetable extracts, some with fruit as large as a good sized rolling pin. The most active vegetable laxative tonic known, yet become of their rapid deterioration.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Too Much Entertainment

Dominion Premiers Cannot Accept All Hospitality Show

With great tact the Dominion premiers who are in London for the imperial conference are minimizing the hospitality that has been showered upon them and are confining during the conference it to expressions of the genuine hospitality that has been shown them and are confining themselves to the business of the conference.

A consequence of this genuine hospitality is that the prospective hosts of the visiting premiers do not expect them to attend more than a small percentage of the banquets to which they have arrived and have intimated that the hosts at the several functions will be made less formidable than at first intended.

Sir Wilfrid Laurier, the only premier who has been in London before, recalls the Imperial Conference of 1897, when Premier Seddon of New Zealand, the late Premier Botha of South Africa, and the late Sir Leonard Tilley, Dominion Premier, were in attendance. Premier Seddon was at one time a strong opponent of Imperial Federation, but in his last days he was a strong supporter of the movement.

The Man With Asthma

Almost Loses Hope Until He Finds Relief in Dr. Chase's Nerve Food

The man with asthma almost loses his hope until he finds relief in Dr. Chase's Nerve Food. Many a man has been cured of asthma by the use of this great food cure, and has gone on to perfect health and strength. Dr. Chase's Nerve Food is a blood builder and nerve restorative, and the long period of treatment which is usually required to cure asthma gives it the opportunity to thoroughly enrich the blood and restore the nerves to perfect health. Thousands of testimonials prove the value of this treatment. Mrs. Wm. Hall, Bridgetown, N.S., writes: "I was troubled with asthma for a number of years, and could get no relief. I was induced to try Dr. Chase's Nerve Food, and after using a few boxes I was entirely cured. I am pleased to recommend this treatment to all sufferers from asthma." 50 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.

Colds Stopped In Ten Minutes

Its equal for colds, coughs or catarrh. Composed of medicinal pine extracts, a remedy of nature, that's what "CATARRHOZONE" is, and you'll find it mighty quick to act and certain to stop your cold.

Don't drug your stomach with cough mixtures — use "CATARRHOZONE," which is selective and certain. It will not quickly. Two months' treatment guaranteed, costs $1.00, small trial size 50c. Sold by druggists everywhere. By mail from The Catarrhozone Co., Montreal.

Bananas As Food

Form Complete Diet of One-Fourth of Human Race

America should have some bananas because it can hardly also to not get them now there is a shortage in the production of the world. The banana is the most prolific food plant known and forms the complete diet of one-fourth of the human race, says the Milwaukee Sentinel.

It is a native of the East Indies, but is cultivated in all tropical countries. Humboldt first called attention from the natives, and he almost a week in the vicinity of the banana plant. When a plantation is started, all that is necessary for its prosperity is the control of the many rose stalks which the plant sends out. The plants mature in a few months, and produce a single bunch at fruit each.

Bananas do not grow on the plant like they hang from the trees, but each small end of the fruit pointing upward. A standard of the bunch has also "hands," with from 16 to 12 bananas to a "hand." The annual exports of bananas are reported large distances from the tropical countries. Where they are grown they are used in a variety of ways, some with fruit as large as a good sized rolling pin. The most delicious variety is the small finger banana, because of their rapid deterioration.

Holloway's Corn Remover

Takes the corn out by the roots. Try it and prove it.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mothers' Friend—Castoria has been in use for over 30 years by millions of mothers for their children, Flatulency, Wind Colic, Constipation, Sour Stomach, Diarrhoea, allaying Fever, allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, giving natural sleep without opiates.

Canada Exports Autos

British Empire to Best Market For Export Cars

A growth in the automobile export trade of Canada during the past year is amazing is indicated in trade figures of the industry but made public today by the census and statistics office.

Canada in point of fact, now leads every other British country in exports of cars. This is attributed in large measure to the preferential tariff accorded to United States cars, which enables Canada to ship cars to the British Empire at a lower rate than the United States can ship them. The total exportation in cars, parts and accessories for the nine months ended in June was $11,000,000, as compared with $4,345,000 for the corresponding period of last year. The Canadian output was 8,000 cars over a year ago.

Of these cars, Ontario at last year's census had 1,341 valued at $1,746,000 in Australia 324 valued at $421,200 in New Zealand and 90 in South Africa.

The British Empire is the best market for Canadian cars, the United States second.

The Rink To Be Lighted With Gas

Regular meeting of the Municipal Council of the town of Tofield, held in Town Hall, Tofield, on Monday Oct. 15th 1923 at 8 p.m.

Members present: Deputy Mayor Councillors Bruce, Chapman, North, Swift and Worton.

The minutes of the previous meeting were read and adopted.

A letter from the Department of Municipal Affairs was read stating that if the town desired a copy of the 1923 Statutes it would have to be purchased from the Kings Printer, as copies were no longer supplied free of charge.

Moved by councillor Worton, seconded by councillor Swift that the secretary be authorized to purchase a copy of the Statutes of 1923. carried

A letter from Geo. E. Amyot re payment of Debentures was read and filed.

Tenders which had been called for by the Rink Committee for piping the Skating Rink were read from M. C. Hammond, J. Chapman, and W. H. Webb.

M. C. Hammond tendered at $117.15

W. H. Webb tendered at $139.00

John Chapman tendered at $115.00

In addition M. C. Hammond submitted a tender for supplying Arc lamps and burners for the stoves for an additional amount of $140.00 installed.

After some discussion it was decided to defer the matter of purchasing lamps and burners until more information as to the cost of new lamps was available; the lamps Mr. Hammond proposed to supply having been used before

The matter of acceptance of tenders was laid on the table until the other regular business of council had been attended to.

Moved by councillor Worton, seconded by councillor Swift that the following accounts be paid:—

G. J. Ferguson	$4.00
Alta Govt. Phones	7.50
R. Parsliffe	3.35
McLaughlin Hardware	1.60

carried

The matter of leasing the skating rink was considered and the secretary stated that Mr. E. Dean had intimated that he would be willing to pay the town the sum of $100.00 for the lease for the season After some discussion it was decided to take up the consideration of this matter at a future meeting.

The tenders re piping the skating rink were again brought forward for discussion, and councillor Chapman vacated his chair.

Moved by councillor Worton seconded by councillor Swift that the tender of M. C. Hammond to pipe the rink for the sum $117.15 be accepted carried

The matter of installing gas fixtures at the Town Hall was discussed

Moved by councillor North, seconded by councillor Worton that J. Chapman be employed by the town to install gas fixtures for heating and lighting purposes in the Town Hall —carried

Meeting adjourned

Marvin Rickner Passes Away

We deeply regret the death on Wednesday morning of Mr Marvin Rickner of the Ketchikanost district. Mr. Rickner has been ill for about two weeks and a week ago went to Edmonton for hospital treatment. At first his friends were of the opinion that he was progressing nicely and it was a severe shock to hear of his death.

TOFIELD . . . ALBERTA

Local News of Interest.

The public school held their first field day on Friday afternoon last and from beginning to end it was a complete success. The programme consisted in games and races of all kinds and for all ages. The awards were ribbons which the youngsters seemed to appreciate just as much as money prizes. The principal and staff entered into the spirit of the event and deserve considerable credit for their enterprise.

A district convention of the Alberta Women's Institutes was held at Holden on Saturday last. The following delegates from Tofield were in attendance Mesdames Hoggard, Mahaffey Noland and Simmons

Mrs. Monroe McMath of New Castle, Indiana, and her sister Mrs. Johnson of Edmonton, motored from the city on Tuesday of last week to spend the day with Mrs. C. Plants of Wood Lawn. Mrs. McMath before her marriage was Miss Edna Cole of Edmonton and at one time taught school at Woodbend School.

The picture show on Friday and Saturday last was well attended the Friday a special show for children was put on, over fifty youngsters attending to see their favorite horse Black Beauty, pictured on the screen. Black Beauty is an absorbing story to read though a difficult one to screen but it can be said that the screening was admirably done During Saturday afternoon Fern Lewis and Florence Kendall riding on a Black Bear secured considerable entertainment to the prizewinners.

Tofield visitors to Edmonton on Tuesday included Mrs Lane Mr. and Mrs. McMath, Mr and Mrs. C. Glover, and Mr and Mrs. Williamson

Mr. O. Mahaffey of Edmonton visited with relatives in Tofield on Tuesday and Wednesday

Mr. J. Parkins from Ketchikan is now grader at the Tofield Creamery.

Mrs. Abbott, senior, met with a painful accident on Friday morning, last, when she fell through the open cellar door thus breaking her collar bone. She was taken to Edmonton on the evening train and under went an X-ray examination on Saturday night She is now doing nicely

Mr. J. Elliott visited King, Mundare, on Monday.

Rev Watt visited Edmonton on Monday.

Mr. and Mrs Polsky and family left for Bashaw Centre the early part of this week. Mr Polsky will open up a general store business there.

F. Jones of the Royal Alexandra Hotel staff visited Edmonton on Friday

Miss Minnie Wood spent the week end at Edmonton.

Mr Beach and Mr. and Mrs. Todd motored to Edmonton on Sunday.

Rev. Stuart former minister of the Tofield Presbyterian church was a Tofield visitor last week, being the guest of Rev. Watt

A bad accident occurred on Wednesday morning, when Mrs. Calvert was thrown from her buggy and seriously injured. As she was driving from the Tofield Mercantile on the shaft horse which frightened the horse, causing it to start. It ran into the pole on the post heading to the home where Mr. Urquhart was. After [illegible] to [illegible] Mr. Wilson who was at work conveyed to the home of her mother, Mr J. Noland, where she received medical attention. At last report is that she is getting well but [illegible] severe nervous shock but no bones broken but severe shock

Mrs. Logan, who has just returned to Banff visited with Mrs. Pinnock a week.

Those who take for best use of a [illegible] bottle, manufactured and sold by Chamberlain Medicine Co. Des Moines, Iowa and this [illegible] that she has recently seen a stray cherry plant bearing ripe wild fruit

Bert McIntosh spent Thursday and Friday in Edmonton last week.

Thursday and Friday of this week is a holiday of the local schools, the teachers attending a teachers convention at Edmonton. Such action was on these days

The United Ladies Aid held a very successful tea at the Manse on Thursday afternoon last. Mrs. Joseph Rogers, Mrs. Dobb, Mrs. Evans and Mrs. Sherlock were the refreshment committee and also served the guests A substantial sum was added to the treasury.

The provincial convention of the W. C. T. U. was held in Edmonton on Thursday and Friday of last week, Mrs. Pinnock, Mrs. Dobb, Mrs. Evans and Mrs. Sherlock were the refreshment committee and also served the guests A substantial sum was added to the treasury.

The provincial convention of the W. C. T. U. was held in Edmonton on Thursday and Friday of last week, Mrs. Pinnock, Mrs. Dobb, Mrs. Evans and Mrs. Sherlock were the delegates from the local union.

TOFIELD, ALBERTA

Lindbrook

Threshing is nearing completion here now and most of us are busy recralling those hands or bunches of hay that have been out "curing" for a while, and as one resident puts it "It smells like tobacco" not saying much for the class of tobacco sold in this country is it?

Mr and Mrs. W. Hooper, Mrs. Chaster, Mrs. Leahy, and Mr. F. Holland were visitors to Edmonton Friday evening to attend Farewell party held at Mr. E. Hooper's home there in honor of Mrs. N. Sinclair and daughter Nancy who are returning to their home in Antwerp, N.Y.

Miss Audrey Hooper spent the week end with Dr and Mrs McClure of Tofield, as the guest of Miss Margaret Smith.

The morning of the 15th was opened by a few desultory shots presumably at chickens but there was no hurry time, such as heralded the approach of the duck season of 1923. We hear that one man got [illegible] Coal Nine six, Stanley Smith [illegible] Charley Lewis [illegible] over the [illegible] field. Be careful lads but don't cut [illegible] the other

Mr A Scott is on a visit to Calgary, and rumor says that [illegible] young lady of this district also boarded the same train, and he didn't want folks to think they were eloping, but we know them both too well to think that, so there will be no news for the yellow press [illegible] quite.

Mr W. H. Lancaster is busy, as well bored at his place and we hear that water has been struck, but no details as to depth and quantity yet.

GOVERNMENT ELEVATOR AT EDMONTON

Preparations are now being all [illegible] [illegible] to be established at Edmonton, the National Railway line

ONE TON PAYS FOR FARM

With low priced farm lands and heavy yields of grain as Alberta this year, some farmers have been able to accomplish wonders in the way of financing the farm. Within one year, one man purchased a farm in the fall of 1924, which they prepared for crop last year and sold on the 1st of May. They paid the crop they have taken off has fully paid the expenses and the per cleaner piece of the land in addition

Tenders Awarded To Install Gas At Schools

The Tofield Public School Board met after adjournment at the town hall on Tuesday evening to consider tenders for the installation of gas fixtures at both schools. There were present Chairman J. Lee, Trustees W. Chapman, J. Cookson, J. Lee, Mrs. McCauley and W. Worton.

There were two tenders one from M.C. Hammond for $172.00 and one from J. Chapman for $139.40. On the motion of trustee Cookson the contract was awarded to J. Chapman

Prior to the tenders being opened Mr Hammond was present and explained to the Board a new type of furnace burner that burns gas and coal at the same time or separately. The Board was of the opinion however that the Lee burners should prove satisfactory.

TO REPRESENT CANADA

Alberta has won additional honors through the medium of the Alumni-Grads basketball team champions of the world, who have been granted permission by the American council of Canada to represent the Dominion in Paris France in 1924, during the Olympic games

CLEAN GRAIN MEANS HIGHER GRADE, NO DOCKAGE, FEED KEPT AT HOME, AND MORE MONEY.

The Carter Disc Separator.

Is an absolutely dependable machine that will clean your grain perfectly Made entirely of iron and steel, there are no fans or blowers, no sieves to clog or break, only two moving parts nothing to get out of order. It is in use on every continent of the globe, and will remove oats, wild oats, barley, weeds, wild buckwheat, mustard and all other small seeds from your wheat at the rate of twenty to twenty five bushels per hour.

A machine is now on our floor Bring in a bag of wheat and test it out for yourself. Whether you buy or not it is good business for the farmer to see this machine work.

WOMEN FROM FORTY TO FIFTY

Will Be Interested in Mrs. Thomas' Recovery by Use of Lydia E. Pinkham's Vegetable Compound

Winnipeg, Man. — "Lydia E. Pinkham's Vegetable Compound has done me a world of good. I was very weak and run-down and had certain female troubles. I suffered from what I likely be know. I did not like to go to bed because I knew the Vegetable Compound and am still taking it right along. I recommend it to any friend who is not feeling well." — Mrs. Thomas, 203 Lilac St., Winnipeg, Man.

When women who are between the ages of forty five and fifty-three have nervous, irritating symptoms as nervousness, irritability, melancholia and head flashes, when they have backache, dizziness, or a sense of suffocation they should take Lydia E. Pinkham's Vegetable Compound. It is especially adapted to help women through this crisis. It is prepared from roots and herbs and contains no harmful drugs or narcotics.

This fact—namely, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved its value in such cases. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." G

Enormous Wheat Yields

Stories of Surprising Yields of Wheat in Southern Alberta

[illegible] 73 bu. to the acre. He has [illegible] whole crop is going well over 60 bu. to the acre.

Neil Nelson tells Mr. Chew [illegible] a yield of 60½ bushels to the acre from Stirling.

In the same district J. S. Hewitt had an average of 42 bushels to the acre on 320 acres of summer-fallow.

All steamfarmers in the district that we have talked to remarked on the splendid crop of wheat.

Live-stock and dairy-farming are also very much in evidence in this district. Many carloads of cattle have been shipped from Stirling this year.

Two hundred and five bushels of oats were threshed off one acre on the farm of Mr. Hrabinski, near Arrow, a couple miles west of Magrath. Two hundred and seventy bushels of barley were threshed off one acre on the farm of Mr. Hrabinski.

Mr. Hrabinski is a Bohemian farmer who came here some years ago with practically no capital. He has a couple of good sections under cultivation, and has two sons who are in the army of occupation in Germany.

Mr. Hrabinski is a member of the Magrath Agricultural Society, and a couple miles west of Magrath. He was growing oats on this same land when it was broken last September.

Criminal, Fools and Canadian Forests

A member stops in the logging district, one which a Canadian Pacific Empress Loop has been around. Imagine the smell if this were four should be replanted.
Below—Canadian Pacific look out tower on the coast.
Left—Showing the stumps and how they leave a stump high over a 50 foot tower.

LOOK at the boards at your feet, the walls which surround you, the roof over your head, the chair in which you sit, and your furniture. All are products of the Canadian forests, and practically everything you come into contact with in the day depends on the forest for one or more of its component parts. Then take the fourth you eat, the paper you read by the wood fire at night, the fuel produced by Canadian coal, by oil or gasoline, on the forest for a regular crop of moisture, the paper is composed largely of wood pulp. It is almost beyond comprehension—the amount of lumber used by Canadian industries each day, and the amount used in construction and in the development of the country each year. Canada's prosperity, her whole future, is one with that of her forests.

Ontario alone gives employment to 17,000 men in the bush; pulp and paper mills in the same province employ 8,966 men, and the amount of capital invested in the two industries amounts to over $150,000,000 or, for every tree that is felled, for every log that helps to keep the wheels of industry moving, for every thousand that is used in construction, twelve are destroyed in the forest by fire. This means that forest fires consume twelve times the amount of the lumber which is the life of Canadian industries, and that each year fire is depleting the forests which should hold the rain fall so as to ensure throughout the year the moisture which is the life of the farm. Five hundred thousand acres of forest are burned over in Ontario each year, and the government of this province is increased in a very few instances organization which costs $1,000 a day.

Because there are no means of segregating the criminal fools and carnival. Take the fire which in October last took forty-four lives, rendered thousands homeless, and destroyed property valued at eight million dollars in the vicinity of Haileybury, the interests of the lumbermen, the settlers, the prospectors, the miners, the sportsmen, the tourists, the trappers, the Indians, the whole province demanded that the forests be protected from fire. In 1916 around Melheson, and in 1911 around Cochrane. These, like the majority of other fires, were the result of criminal carelessness. Only where there has been a fire ranger system in control, the spectacular fire has rarely flared up, and the ranger's organization has been such that a lighted cigarette or match is thrown away carelessly and ignited a small blaze which may soon develop into a holocaust beyond control of man.

There are the railroads even, perhaps, responsible for many conflagrations, but not so today. Although one half of the Canadian Pacific Railway right-of-way line is forest areas in the east and in Ontario by forests for hundreds of miles in both Ontario and British Columbia, this railway has long since ceased to be a factor in the destruction of the forests. In order to eliminate the possibility of fires being started by passing trains, all Canadian Pacific locomotives are examined at the end of each trip and great care is taken to see that ash pans and front ends are in perfect condition. Engineers and firemen are given explicit instructions not to dump live coals or to throw waste from the right of way, and should an engine crew notice a fire by a series of watches the section men and fire patrol are notified, and the nearest despatcher takes steps to secure whatever additional men are required.

The Canadian Pacific maintains a regular and efficient fire patrol while passing of trains and which forest areas after the passing of trains and which Dominion, Provincial and other governments co-operate on the fullest extent. Also at various points along the line are kept a number of fire tools in readiness, and every string of two task cars, each of 2,000-gallon capacity equipped with powerful pumps, and approximately one mile of hose. This equipment has proved valuable not only in fighting forest fires but in fighting fires which have occurred in forest and call sub-towns.

SAVE THE FORESTS.

Fall Time is Subscription Time

In the course of a few days we will be mailing out subscription notices to all our subscribers whose subscriptions expire before December 31st of this year.

It is easier and more convenient for us if we can collect the majority of subscriptions in the fall, and as this is to a large extent the most convenient time for our subscribers to renew we are hoping for a generous response to our notices.

If it is at all possible will you please renew—it will assist us—you will be paid up—and we will be free to give our full attention to publishing instead of collecting.

Order Your Christmas Cards Early

If there is one thing we do appreciate in this world, it is our friends, and to find a charming, sincere way in which to tell them so is a problem that is not easy to solve.

There is, however, one season of the year when expression of appreciation and friendliness is appropriate—the Christmas season.

It is a fact that Greeting Cards do solve the problem in a striking and delightful manner but these seemed to lack the true sterling ring of sincerity until the Personal Greeting Card was conceived.

No token of friendship is more effective or sincere than Personal Greeting Cards, with their kindly intimate appeal. Send one to your every friend this Christmas.

Our large range of samples will interest you. The beautiful creations, work of master craftsmen, are fascinating gems of Christmas Art. The sentiments will express the Christmas spirit and renew fond friendship as nothing else can do.

Our sample book at the Mercury Office is open for inspection at any time. Reserve your order until you have seen our samples.

HUSKY PUPS BORN AT CHATEAU FRONTENAC

1 and 2—"Are the fags." 3—Miserable. As like pup pointing over his tail. 4—"Angels" way back in spirit and in appearance. 5—Mischief personified. Pup at the left is one of the twins. It will be seen that well filled coats already in his case.

THE Hudson Bay dog team which has been such a popular feature in connection with the winter sports activities inaugurated by the Chateau Frontenac at Quebec three years ago, shows promise of future teams of exceptional merit. Two very fine litters have been produced on the morning of April 15th, the Indian who is taking care of them was delighted to find that Wokaka, a beautiful white female husky, had presented as her contribution to Quebec winter sports, three pups which very much resemble wolf whelps. One very fine pup developed rapidly and was named Regis. Wokaka was jealous of the attention showed the family of her team mate and, not to be outdone, presented the Indian with a litter of eight. Great hopes are entertained for the future of this litter, as well blood runs strongly in the veins of Wokaka, the sire, a splendid beast of some 100 lbs. with shaggy grey coat, long vulpine muzzle, pointed ears and pale amber eyes glinting through canyon

Wokaka was born in the wilderness north of Lake Superior.

The Indian is already making plans for the training of this last litter and expects to have them pacing broken to harness the first snow. This is usually done by taking a trained leader and placing her in harness with the pups. At first, traces are attached to a light birch log and the initial try out usually results in a wild scramble, the pups going in various directions with the leader turning around with a pained look as much as to say "what's it all about." The tangle is straightened out to the accompaniment of a chorus of yaps but gradually the young ones come to understand what is expected of them, and as the team becomes more proficient the weight of the log is increased. By the time a sleigh can be used they are able to draw heavy loads. In the North Country they can draw with ease on a broken trail and pass under any glinting through canyon a loaded [illegible] per day.

THE MARCH OF PROGRESS

Reliable information is now to hand that in a few days natural gas for heating and lighting will be available to Tofield's citizens—thus another step in the march of progress will have been taken. In some countries progress is so slow as to be almost imperceptible, but here in the west it is not too much to say that the march of progress goes forward at the "double." To old timers reference to the progress of the west in general and of this district in particular is quite superfluous, but to the new comer and the rising generation here it should be of absorbing interest to learn that less than a score of years ago there were no telephones and few of the things that to-day are commonly used in the belief that one could not get along without them.

Alberta has, with a few possible exceptions, outgrown the pioneer stage. There are few things necessary to the welfare of man but what can be fairly easily procured here now. Only a few years ago if one desired fish in summer, it either had to come out of a sea or out of the nearest lake. Now in the small towns at least once a week and in the cities every day one can purchase fresh fish at will. Fish that was caught hundreds of miles away in the Pacific ocean. There are numerous other things that could be cited that one is apt to take for granted but which are of recent origin and each one of which is a milestone in the progress march. Electricity for small towns and farms, an automobile on almost every quarter section, moving pictures theatres in small towns these things suggested to the pioneer of a quarter of a century ago would have astounded him and it is reasonable to assume that the old time westerner would have had grave doubts about these things coming to pass. But they have come, and now locally we will soon be chronicling the coming of gas that will it is expected further lighten the labors of existence.

Seven Sentence Sermons

(In Marriage)

(BY A. WILLARD)

Puppy love often leads to a dog's life. True love is the foundation of human relationship.

If you marry a person physically or morally unfit you should be willing to start a hospital or work house.

You must give as well as take or do not marry unless you can adapt yourself to the other person's ways and circumstances.

Do not marry unless you are willing to bear a full share of the responsibilities. If you are going to be a boarder stay single.

Do not marry to reform him. If you cannot do it before you will not afterward.

Do not marry in haste. A life partner is not like a car or

Here and There

A grant of $25,000 to the Salvation Army to aid Canadian emigrants who went to Great Britain has been distributed by a Canadian Order in Council.

According to information received by the Canadian Pacific Railway at Winnipeg, sixty-three bushels of wheat to the acre has been harvested on the farm of T. M. Bollestyne, nine miles north of Lacombe, Alberta. The wheat graded No. 1 Northern. Seventy-four acres of land

Weighing 3,170 pounds, a steer said to be the largest ever received in Winnipeg, arrived at the union stockyards from Wainwright, Alberta. It was sold for $116, the highest selling price of any steer in Winnipeg since the war.

The Canadian Pacific S.S. "Scotia," recently aflood in Liverpool on September 30th, put up what is considered to be a record for the speedy discharge of cargo when she sailed the following day, Sept. 8th, at 5 p.m. having discharged over 2,000 tons of cargo.

It is announced that the Canadian Pacific Railway on 1 increase the number of its operating stations at Kimball, in southern Alberta, by 50 per cent. This is the outcome of an increase in area of 40,000 acres in the Kimball district. Water will be turned into the ditches of the Lethbridge Northern project, it is announced, some time this fall.

Buffalo steak will be abundant at the Royal Show in June of 1934 when surplus Buffalo wandering on the range in Wood National Park of Wainwright will be slaughtered by an Edmonton concern, and the meat and skins sold. For several years the Dominion Government has paid special attention to the preservation of the Buffalo and the work has been so successful that the National Parks have now overstocked.

At a dinner given in his honor by the Vancouver Board of Trade, E. W. Beatty, President of the Canadian Pacific Railway, announced that the Company proposed immediately to add two large modern steamers to its coast fleet in order to take care of its increasing transit traffic over the Company's Pacific Coastal lines. He also announced the early completion of a new pier at Vancouver at a cost of several millions.

There have been large increases in the number of pure bred animals in Canada during the decade between the last two censuses. The increase in the number of pure bred horses between 1921 and 1931 was 36 per cent; of cattle, 120 per cent; of sheep, 15 per cent, and of swine, nearly 44 per cent. The number of pure bred horses in Canada in 1921 was 46,792; cattle, 720,886; sheep, 93,655, and of swine, 51,148.

A conservative estimate of the amount of money brought to Quebec by tourists reaches $2,5,6,780 from the beginning of May until the 30th of September. 13,000 motor tourists had called for information at the offices of the Quebec Auto Union. Taking an average of four persons to each car, this meant that at least 50,000 people had come to the city by automobile. Of the number there were approximately 8,000 camping parties, or 17,000 people.

At the Chateau Frontenac, Quebec, recently, Colonel J. B. Perrault, Chief Commissioner of Colonization of the Canadian Pacific Railway, outlined in a detailed speech existing conditions in the Canada and prospects for the future. He emphatically stated that there was no reason for discouragement, but, on the contrary, every prospect of a renewal of rapid development, including an increase in our population and the development of our latent natural resources in such a way as to insure, in the comparatively near future, that we should be out of the woods, and progressing rapidly to a large population and favorable business and financial conditions.

A Private Greeting Card Combines Economy With Dignity

GIVE YOUR RED CROSS A BUSHEL OF WHEAT

IN the midst of your plenty this year, do not forget your Red Cross, which needs your membership and needs your subscription. The annual drive for membership and finance starts this week. Your Red Cross stand ready to help you in your need now it is your turn.

Here is the plan! Will you do your bit.

You will never miss a few bushels of grain, when you haul your next load to the elevator just tell the elevator man and you wish to donate some grain to the RED CROSS. He will give you a cheque immediately for the cash value of the number of bushels you wish to give. In addition to this he will add five cents per bushel as the donation of the cheque payable to the Red Cross. You endorse the cheque payable to the Red Cross and hand it back to him; he will then send it in to PROVINCIAL RED CROSS HEADQUARTERS, and you will receive an acknowledgement in the form of a membership certificate and button direct from us.

It is estimated that if each farmer with 1-4 section gives 2 bushels, with 1 2 section gives 4 bushels

That, with the cash donations from the towns and cities, the Alberta Division quota of $65,000 will be reached easily. This plan has the endorsation and recommendation of

The Lieutenant-Governor of the Province
The Committee of the Alberta Wheat Pool
The Alberta Elevator Companies

YOU RE NEED A HORSE rally. Join again in the name of humanity to give from your plenty for the benefit of those less fortunate. 82 per cent of all monies collected will be spent on RED CROSS ACTIVITIES IN THE PROVINCE OF ALBERTA such as rural hospitals, nursing service, etc. 18 per cent will be Alberta's share for Japanese Disaster Relief.

Do Your Bit and Do It Now

Canadian Red Cross Society

Alberta Division

If you prefer to make your donation in cash, mail your cheque to The Honorary Secretary, Red Cross Society, Alberta Division, 208 Beveridge Building, Calgary.

MODERATIONISTS Attention! Referendum of Nov. 5.

Are You Registered? Remember!

No Registration. No Vote.

Enumerators will be at work shortly. The basis for their work is the list used in the Provincial Election of 1921.

If you voted then and have not changed your residency, you should be on the list for the Referendum. If you have changed your residence since 1921, the enumerator should find you and enter your name on the list as either a voter who is up to you to note that your name actually is on the list by getting in touch with your enumerator before Oct. 27.

On Saturday Oct 27th, two copies of the list must be posted in two of the most public places within the polling subdivision. One copy must be posted at the Post Office nearest to the Poll. **Examine the list for yourself**

Friday, Nov 2 from ten to four the Enumerator must be present at the place mentioned on the lists to add or strike off names. **This is your chance** to get on the list without uncertainty or trouble of being sworn in at the Polls on Polling Day.

Don't procrastinate, get it done by your enrolment so Make sure of your chance to

Vote "D" 1 and make it Fifty Thousand Majority

Bardo Budget

On Sunday evening, Oct. 21st a Temperance Rally will be held at the Lutheran Church in Bardo under the auspices of the Young Peoples Society. Rev. Arthur Wilms and other speakers will discuss the question that is to be decided at the election Nov. 5th. One that is of vital interest to us all and one in which every one should be interested. All are cordially invited. Remember 19 - date 7:0 p. m. the 21st.

During the storm on Monday evening the barn on Mr. Lehman's farm, two miles southwest of Duddy was burned to the ground. No one is living on the place and the origin of the fire is unknown.

Mrs. J. Lethbridge expects to leave for Washington the last of the week where she will spend the winter. On Sunday afternoon a large company of neighbors and friends called on her to bid her good bye and "Bon Voyage." Mrs. Lethbridge is one of the first settlers having lived here twenty nine years.

EDITOR WHITE TRIES SOME-THING NEW FOR PRISON LIFE in Kansas.

Emporia, Kas., Oct. 8 (United Press.—Woman Allen White commenting editorially today in his Emporia Gazette on the fact that more than 2,000 persons were killed by poison liquor in the country this year, said, "When a lot of old souks stuff their supper lined intestines with silent bootch, in violation of the eighteenth amendment, and get killed in the process, it is supposed to call for tears. There is just one way to keep from death by illicit bootch in this country. Obey the law. If a man defies it he takes his chance, and if he does see if we care."

For Home and Country

We, the undersigned, herewith submit our report on the judging of gards for the season of 1923. Three inspections were made, one in the month of May one in July, and the final in September. The yards, in general, present a most satisfactory appearance, and it has been with considerable deliberation and careful comparisons that the following decisions have been made.

Best Single Lot - Mr. Richardson.

Second Best Single Lot - Mrs Abbott.

Best Double Lot - A.E. H. McCauley.

Honorable mention - Mrs. R J McKerrel, Mr Watt, Mrs. Emery, Mrs. Tofield and H. Rogers.

F. C. Wallen Passes Away

We regret to have to report the death of Mr. F. C. Wallen which occured at his home near Tofield on Tuesday morning. Mr. Wallen had been ill for the previous four days the immediate cause of death being a stroke. He was born in eastern Canada 60 years ago but spent the greater part of his life in the west He leaves to mourn his loss a wife and three young children, also three brothers and two sisters. The sisters are both residents of Vancouver, while one brother resides at Winnipeg, one at Minneapolis, U. S. A. and one at Hanna. Also Mr. Wallen of Hanna came on to Tofield to assist Mrs Wallen in her sad bereavement. Interment will be made in the Tofield cemetery on Friday.

The Tofield Women's Institute business meeting will be held in their rooms on Tuesday Oct. 30th, instead of Nov. 6th, to transact special business. A full attendance is requested.

AT THE
VARIETY
Antonio Moreno
IN
"The Secret of the Hills"
Baffling Mystery!
Is unraveled in the intensely dramatic story of "The Secret of the Hills," a photoplay based on the famous novel by William Garett, published by Jarrolds, London.
The action is laid in London and Scotland and the scenic backgrounds provided by Chester Bennett, who directed the production, are of an unusual nature. A cave unequalled for picturesque beauty and natural wonders plays an important part in the narrative.
Saturday, October 27th
2 Reel "Jimmy Aubrey" Comedy
"Making A Man"
The story of a rich man who always got what he wanted till he fell in love. And how he had to lose everything else to win the girl. Big, virile drama bristling with dramatic punches. Eva Novak is the girl
Starring
Jack Holt
This picture was advertised for Oct. 13, but was not shown.
Wednesday, October 31st.

W. I. Fall Convention Held at Holden

The Fall Conference of the Women Institutes of the Vegreville constituency was held in Holden, Oct. 15th 1923. Over 40 delegates were present representing Ryley, Tofield, Holden and Vegreville.

Mrs. J. Goodall, constituency convener was in the chair. Mrs. Gates of Stony Plain, Supt. of District No. 2 addressed the Conference on matters relating to Women's Institute Constitution, Duties of Provincial and Constituency conveners, Member ship Fees and Provincial and Constituency Funds. Problems etc.

Reports from various Institutes showed all alive and working hard. Holden excelled in household economics and reeds very much. Ryley in variety of program and School Fair work. Tofield in Agricultural and Educational work. Vegreville in Canadianization and relief work.

Officers for 1923 are—
Constituency Convener—Mrs. J Goodall, Ryley. Sec Treas Mrs. A. J. Thessley, Ryley.
Convenors of Departments
Child Welfare & Public Health —Mrs. E. A. Fobes, Ryley. Legislation Mrs. Hailburt, Vegreville Agriculture Mrs. Andrew Olsen, Holden. Household Economics—Mrs. H. B. Nichols, Holden. Immigration Mrs. Goodwin, Vegreville. Education—Mrs. Templet, Tofield. Organization—Mrs. R. H. McPherson, Ryley.

A vote of thanks was given to the Holden ladies hospitality.
Conference for 1924 to be held in Vegreville.

Dr. Morrison, formerly veterinary surgeon, returned from Outlook on Sunday.

Mrs. Swain has returned home from her visit to Edmonton.

Don't forget Nov. 5th, that's the day to say what you want it to be "wet or dry" so get out and vote and don't grouse after if you didn't.

Mrs. Hole spent the week end with her daughter Mrs. J. McLeod, Edmonton.

Mrs. Cleveland will give a Temperance lecture in the church Sunday evening at 7.30 Mrs. Cleveland is a splendid speaker. Come and hear her.

CARD OF THANKS

We wish to thank all those kind friends for their kind assistance during our sad bereavement due to the loss of our dear son and brother, Martin Hickner. Mrs. N. Hickner and family.

The Liquor Plebiscite and The Transferable Vote

Issued by the authority of the Alberta Government

For the first time in Alberta, the preferential ballot, or in other words, the transferable vote system, is to be used in a province-wide election, on the occasion of the referendum on liquor question on Monday, November 5.

As is well known, there are four questions on the ballot paper. The voter must not use the X mark, but should place the figure 1 opposite the progress of his choice in second choice, the figure 2 opposite the third choice, and so on. Though a voter is entitled to "plump" for one question, or to vote less than the full number of choices, the government urges them to vote their full number of choices. Only in this way can the voters obtain a full expression of opinion.

The following statement is given as an explanation of the use of the transferable vote.

The experience in our cities (from remarks in "The Wall of the Mosque") shall function in the will of the majority. That the voters be assured that their votes will not be counted, or the other of the questions will be likely to have exercise. half of the ballot to cast and will be declared void as expressing the will of the majority which will stand solid out to

The present method of counting the ballot without X's and quote for the purpose of showing the voters choice out of two only. Any other mark, letter or figure would answer the purpose equally well. So long as the votes cast at an election are to be assembled in two piles, one of the other column for each contain more than one half of all the votes cast and the will be that of the majority in the most

MOTHER OF LARGE FAMILY

Recommends Lydia E. Pinkham's Vegetable Compound to Other Mothers

Hereford, N. S.—"I am the mother of four children and I was a sufferer for a long time from female weakness and suffered for months at a time. I had tried doctors and patent medicines without benefit when I began taking the vegetable remedy, Lydia E. Pinkham's Vegetable Compound. After using a few bottles I felt like a new woman. I have recommended it to many women friends and it has always done them good. You may use my name." — Mrs. Cecilia I. Church, Hereford.

My First Child

Glen Alder, Alabama—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound. For nearly six months before my baby was born I suffered from nervousness and a weak back. I had taken Lydia E. Pinkham's Vegetable Compound before my first child was born and I was in good health during that time. I shall always recommend it to my friends as a splendid medicine." — Mrs. Cecilia I. Church, Hereford.

Miss Boissineau Tells How Cuticura Healed Pimples

"About three years ago I was bothered with pimples on my face. The pimples were hard and red in small and large sizes and my face was disfigured. The pimples caused me to be self-conscious as a girl as the attention was to great.

"I tried different remedies but without any relief, I began using Cuticura Soap and Ointment and after the first application I could see an improvement. I continued using them and was completely healed after using three cakes of Cuticura Soap and two boxes of Cuticura Ointment." (Signed) Miss Rose Boissineau, 12 Bellevue Ave., Scotia Jct., Marie, Ont.

Cuticura Soap and Ointment are for sale everywhere. Cuticura Soap shaves without mug.

The Liquor Plebiscite and the Transferable Vote

Issued by the authority of the Alberta Government

(Continued from front page)

If all the electors were called together into one large hall to decide by a show of hands which of three questions should be adopted as the will of the majority, the electors might have to vote twice before reaching a decision. On the first vote each elector would hold up his hand for his first choice. The result would probably be that no question would have a clear majority of all the votes cast. But one of the questions would be almost certain to have fewer first choices than either of the others. The chairman of the meeting would declare this question defeated, leaving only two in the running. A show of hands would next be called for between the two remaining questions. Now the electors who had as their first choice the defeated question would still have a right to vote for their second choice of the remaining two. The result would be two piles of ballots with a clear majority for one of the questions.

The same result could be obtained by holding two elections under the X vote method. At the first election each elector would vote for his choice of the three. At the second election the question receiving the fewest votes in the first election would be dropped and all the voters would be given a chance to vote for their choice of the remaining two, thus giving one or the other the necessary majority.

Such a method would be cumbersome and inevitably subject, for a third consecutive election, might be necessary to select a winner where the questions were sufficiently numerous. Moreover the same result can be obtained in a very simple and inexpensive manner. Note what the electors did in the elections referred to. In the first they voted their choice, that is their first choice. In the second election those who had voted for their first choice for the defeated question, voted their second choice for one of the two remaining questions, and those ballots went into one or other of the two piles and took part in the final result in expressing the will of the majority.

Now this result can be secured by each elector marking his first choice 1, his second 2 and so on for the number of questions, and having the consecutive elections all over at once, so far as you park is concerned. The officials will simply count the 1's, then the 2's, according to the instructions given on the ballot. If the elector's first preference question is dropped as having fewest votes, his second preference shows which one of the remaining questions he desires his ballot counted for. If his second preference question is dropped his third preference shows what one of the then remaining questions he desires his ballot counted for. The counting official keeps transferring the ballots from one pile to another as indicated until there are only two piles left, one of which is almost certain to contain more than half of all the votes cast and it is thus the expressed will of the majority.

At the coming plebiscite there are four questions and each elector is urged to mark his preferences to the limit. The system of choice develops intelligence, knowledge and judgement, and as this form of ballot is likely to come into general use the sooner the elector learns to use his right to vote to its fullest extent the better it will be for the electors and for the country.

Canadian National Railway

Addressing a recent meeting of the Vancouver Board of Trade, President E. W. Beatty, of the Canadian Pacific Railway, announced that the company proposed immediately to add two large modern steamers to its coast fleet in order to relieve the congestion of incoming traffic over the company's coastal lines. He also announced the early acquisition of a new pier at this harbor at a cost of several millions, which has been made necessary by the steady development of Canada's trans-Pacific trade.

Prohibition That Does Not Prohibit

A VERDICT WHERE CITY AND COUNTRY MEET

We know what the Towns and Cities of Alberta think of the effectiveness of prohibition; one word covers it FAILURE.

What is the verdict of the country?

Grain Growers Guide, Oct. 3rd, 1923, editorial page 5:

"For three years the prairie provinces have had as complete a system of prohibition as it seems possible to get at this time, and it has to be regretfully admitted that it has not given satisfaction as an enforceable law."

The whole editorial is Prohibitionist in sentiment, but frankly admits the failure of prohibition. It hurts the editor to say it, but he sees the facts and he is honest in admitting them.

There is just one sane alternative—Choose D and government control.

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes:

"I had trouble with my kidneys for a very frequent urination. I followed by pains which ... were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I objected, and began using Dr. Chase's Kidney-Liver Pills. From the first dose I felt the benefit. The pains left, my sleep was undisturbed, and I have had no recurrence of these ailments."

Will Ask Government To Recoup Depositors In Home Bank Collapse

Toronto Plans to protect the savings of 50,000 depositors in the Home Bank of Canada, now in liquidation, were made at a meeting of the committee of 15 appointed by the general meeting of depositors here recently.

According to J. E. Weldon, K.C., counsel for the depositors, the formation of a holding company to take over the assets of the Home Bank with a view to reducing the cost of liquidation, was recommended, and the proposal will be put before the depositors for consideration at their meeting in Toronto on December 6.

"As the Home Bank has built up no big large amounts in the interests of Canada in the way of business profits, when, as a matter of fact, there were no profits being made by the bank the Government of Canada will be due to [illegible] the depositors," Mr. Weldon stated.

"I was very glad," said Mr. Weldon "to say on behalf of the depositors that the Government had done everything possible to help the depositors to have protected the path in its power."

The committee also dealt with another application which is to be made to Parliament next week by Mr. Weldon and not to reveal.

The meeting extended with a great deal of sympathy to Mr. Weldon, the announcement that while no bond has agreed to be [illegible] the depositors have established by 50 on the pound as against 25 per cent. of the total deposits as soon as the legal formalities can be completed.

Says Culture Not Needed

Horse Sense is Main Essential in Opinion of Senator Johnston

St. Paul, Minn.—"You don't need to have any culture, all you've got to do is [illegible] horse sense," was Senator Magnus Johnson's advice to University or Minnesota Agricultural College students.

"Maybe I don't speak perfect English," the senator added, "but that be my grammar don't just right. The people don't care about that. Look at all the culture that man down in Mexico [illegible] has got. Lodge I talk to my own people there they are [illegible] to forget culture. Lodge only was re-elected by 1,500 votes. I got [illegible] more than that."

The Senate farmer-labor member urged the students that he had attended the Lloyd George luncheon in Winnipeg.

"I talked to [illegible] and do you know what Lloyd George told me? He told me I should forget my college."

Interested in British Preference

Rand Interest Being Taken in Question at Washington

Washington—Keen interest is being taken in the working out of the preferential tariff plans within the British Empire which has been under discussion by the Imperial Conference. At [illegible] the British Cabinet has made it plain their government recognizes the full right of the British Colonies to make such trade arrangements as they may deem proper and there is no thought of retaliation from the United States if there [illegible] the high tariff bear [illegible] Congress and the country will [illegible] see the British tariff preferences as reasons for keeping up a high level of duties in this country.

Proposed Visit of Duke of York

May Visit Canada Early Next Year to Open U. S. Loyalist Celebration

Buffalo, Oct.—The Duke of York may be coming [illegible] to visit Canada early next year and W. C. Mitchell, K.C., hopes to have the Prince of Wales and the Right Honorable Lord [illegible] here for a visit.

It is by the promoters of the celebration [illegible] the Duke of York and Mr. Mitchell [illegible] that the prospect [illegible] the royal visit [illegible] and with Canadian history.

Interest in Government Annuities

Increase 1931 Increasing Interest [illegible] Canada in the Immediate Government Annuities is indicated by a large increase in applications for this form of investment made during the last six months, as compared with the corresponding period last year.

Increase Two Small

Kamsack, Poland—Upper Sclesia miners have resumed the government's offer of a 130 per cent increase in wages and are demanding an advance of 200 per cent.

Subsidies to Air Patrols

Idea is to Encourage Forestry Protection Work

Ottawa—The Canadian Government has under consideration the recent recommendations made by British Empire Forestry conferences that the use of aeroplanes in forestry protection work should be encouraged by the granting of subsidies to them. E. H. MacDonald, Minister of National Defence stated that on the return of Major General [illegible] H. MacBrien, chief of the general staff, from the Imperial conference the whole question would be entered into.

Forestry protection, however, explained Mr MacDonald, was a question for the provincial governments, and, [illegible] for the Dominion Territories, the forests were under provincial control.

Flood in Oklahoma Causes Great Damage

Property Loss Estimated at $2,500,000 and Thousand Homeless

Oklahoma City—Oklahoma is recovering from its most disastrous flood as the North Canadian River receded to its ordinary narrow bank, leaving a thousand persons homeless, property damage estimated at $2,500,000, railroad and highway service paralyzed and public utility service demoralized. Oklahoma City bore the brunt of the debacle, but virtually the entire southwest, southeast and the central parts of the state were engulfed by streams [illegible] as recent torrential rains.

Two are known to be dead here and many persons are in hospitals suffering from exposure.

Linking Lakes With Pacific

Steamer Leaves Toronto Nov. 20 For Vancouver via Panama Canal

Toronto—Charles Dupuy will be [illegible] by water route with the British Columbia metropolis this fall as a result of the inauguration of the first direct steamship service between Toronto and Vancouver by the Kitwood Line of this city. On November 20 the steel freighter, J. H. Pugsley, will steam out of Toronto's harbor with a cargo of Ontario merchandise, bound for Canada's Pacific coast ports. It will sail via the Panama Canal and the trip one way will take 55 days.

Officers Murder Each Other

End of Quarrel Between U.S. Deputy and Constable

Marshall—The sheriff of Marion county and the constable of Jefferson met on the main street here and without a word shot each other to death. Both men, R. B. Rogers, the sheriff, and W. B. Proctor the constable, were at least 55 years old, and had families.

According to police, the trouble arose possibly through court property [illegible] the constable was being served and in a fine being imposed on the sheriff subsequently.

Finance Plan For Hungary

Re-organization Being Carried Out By League of Nations

Paris—Re-organization of the Hungarian finances by the League of Nations upon the same general plan as applied to Austria was advanced a good deal this week when the three allied reparation commissioners unanimously adopted a resolution requesting the league to draw up such a plan.

The tentative plan is to issue a loan of $24,000,000 on the Hungarian bourses.

Car Loading Record

Winnipeg—Exceeding the 3,000 mark for the first time this season cars loaded on the prairies by the Canadian National and the Canadian Pacific Railways, that 17 numbered 3,001 cars, compared with 1,869 for the same day last season, while grain [illegible] for the day aggregated 1,000,000 bushels, against 2,122,077 last week.

Opposes Foreign Loan for Japan

PROHIBITION AND TIME

THERE MAY be questions as perplexing as the liquor or prohibition question but for the most part they do not crop up so frequently. Alberta has had seven years of prohibition and is getting a new system of education. The two questions are linked together in some respects. Prohibition and time will be factors eventually work out to the benefit of all

IDEALISM IN EDUCATION

AN ILLINOIS superintendent of schools has been interested in getting a new system of education. The two questions are linked together in some respects. Prohibition and time will be factors eventually work out to the benefit of all

Those set forth their aim as being to help boys and girls to develop character and the right development of individuality.

By

children began at six with a specific teacher, but as they grew older they chose their own teachers. There are no grades, no regular classes or promotions. The children supply most of the school and there for five or six hours a day, with their teachers

They talk freely, make freely about the building and work on what interests them. They ask questions and the teachers are there to answer them. They want to learn to read or to write or to do something in arithmetic and the teacher is there to help them. If they do not want to learn these things no one forces them or even urges them, to learn In time every child does want to read or to write, the teachers say, and they wait until this desire appears, for here of reading and knowledge can not be forced. After several years the child is said to have made great progress."

The children are apparently to grow up an admired profession like the old Dutch in the fence each letting them be civilized and loose repression and uniformity like the crops in the field It is a very attractive picture to think that we can all disagreement with which the German people of the present moment are shocked their universe to the exact the order a most needed reform, a surprised discovery of the great fact which has always lain largely dormant in the word education, which means drawing out what is in the child, not crramming in what is foreign to him, and what his nature rejects But while we greatly deplore the thrift of necessity which has prevailed in the ages past, we cannot but ask for more assurance than we get from the above report that any discipline of mind would evolve from the disregard of training or any stability of character, the thing sought from the happy-go-lucky absence of regulation.

But what about the teachers? The machine teacher can be turned out to any extent that a community will pay for. But the teacher able to be a fountain of intellectual inspiration and a model for character, where is he or she to be got? By what standard can such be tested? The responsibility of such a teacher will be immeasurable To mould character and inspire souls is a noble conception of education that must never enter into our upbringing of youth if the world's social system is to be rendered immune from the ill senses which blight it to-day. The promoters of this radical system are probably of the of the socialistic trend of thought which lives in ideal [illegible]

a generation brought up with freed souls and the habit of personal responsibility will be able to see what teachers and pedagogues [illegible] to do what no nation has done so far. Instead of assuming in born depravity, it assumes a natural preference for what is good

[illegible] in what is th[illegible] of black sand. He sat near until the candle burned low. Never it got to the black sand sooner and nearer until the flame reached the black sand And so it was nothing but black sand nothing happened.

A Private Greeting Card Combines Economy With Dignity

Seven Sentence Sermon

(On Marriage)

(BY A. WILLARD)

Your better half is not perfect. Perfection is only for Angels and you couldn't live comfortably with one

Do not allow trivial matters to become mountains—mountains are too hard to climb.

Do not nag—small drops of water will wear holes in the hardest stones.

Enough is plenty. Be sure you are much of each other—but not too much.

We live in a democratic age so don't try to dominate. Many monarchs have recently lost their thrones—and you may lose yours if you are not careful

Invite your relatives to visit but to stay. Visitors sometimes mean divorce laws.

Be yourselves one toward another politeness is one grand lubricator

What Prohibitionists Think About Government Control

In 1923, when the prohibitionists wanted us to abolish further importations of liquor into the provinces, so as to give a better chance for their experiments to work out, this is the "ad" they ran:

The Bootlegger

"The enormous prices he blends his victims for, makes it worth while for him to take the risks, and bring law and order into disrespect.

The Remedy.

Vote control of the Liquor Traffic under our own Provincial Government. Have our own Vendors only, handle all intoxicants, dispensing Pure Liquor in sealed packages at fair prices that will take the profit out of the bootlegger's business and he will fade away.

Let's do this. Vote "Yes" and do it right.

They are all for "D"

or else

They are convicted of slippery tactics and extraordinary lawlessness.

Don't be fooled this time by them.

Vote "D" 1 and make it Fifty Thousand Majority

ELECTION DAY, MONDAY, NOVEMBER 5th.

Order Your Christmas Cards Early

If there is one thing we do appreciate in this world, it is our friends, and to find a charming, sincere way in which to tell them so is a problem that is not easy to solve.

There is, however, one season of the year when expression of appreciation and friendliness is appropriate—the Christmas season.

It is a fact that Greeting Cards do solve the problem in a striking and delightful manner—but these seemed to lack the true sterling ring of sincerity until the Personal Greeting Card was conceived.

No token of friendship is more effective or sincere than Personal Greeting Cards, with their kindly intimate appeal. Send one to your every friend this Christmas.

Our large range of samples will interest you. The beautiful creations, work of master craftsmen, are fascinating gems of Christmas Art. The sentiments will express the Christmas spirit and renew fond friendship as nothing else can do.

Our sample book at the Mercury Office is open for inspection at any time. Reserve your order until you have seen our samples.

The Tofield Mercury

Here and There

The world's record for grain trains was shattered by the Canadian Pacific Railway on October 16th when the Company hauled 783 cars, representing at least 1,000,000 bushels. If these cars were placed together they would make up a freight train about six miles in length, and a baker's dozen of these trains would extend from Calgary to Banff, a distance of 78 miles.

A record in western railroad construction was established on the Canadian Pacific Lacombe-Hardisty line recently, when the last mile of track between Lacombe and Ponnichaka was completed in one day. D. A. Livingstone, engineer in charge, reports that seventy per cent of his crew of 25 were British harvesters.

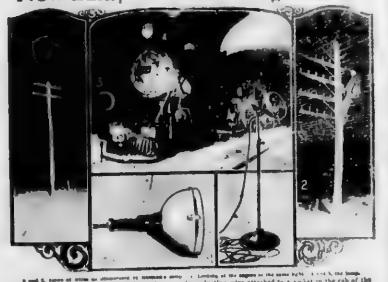
Federal and Provincial Departments of Agriculture co-operated in the purchase in the British Isles of a large stock of horses, cattle and sheep, including sheep owned by His Majesty the King, which arrived here recently. This is the second shipment of cattle to Canada through the co-operation of the agricultural departments with sheep and horse breeders throughout the Dominion

T. E. Doherty, the Canadian Commissioner in the International Institute of Agriculture, estimates Canada's production of wheat during the year at 300 million bushels, as against 136 millions from the United States, 110 from Argentina, 80 from Australia, and 15 from Russia. Canada, in fact, may be expected to supply nearly half the wheat exports of the whole world—300 out of 674 million bushels.

E. W. Beatty, K.C., President of the Canadian Pacific Railway, speaking at a recent reception on his return from a tour through the Province of Quebec, declared that the enormous increase in the agricultural improvements in Canada, the new opportunities for trade and the accompanying growing premium on labor, especially throughout the need for a vigorous, intensive immigration policy by the government, he put forward as suggestions that the department of immigration and colonization should issue a general statement through Great Britain, the United States and certain Continental countries, for settlers, and that greater advantage should be taken of the favorable policies towards emigration to Canada adopted by the governments of Great Britain and other countries.

Eighty per cent of Canada's national debt is owned by Canadian Banks deposits in the country at the close of the last fiscal year, March 31st, 1923, totalled $1,213,000,000, an increase in ten years of $720,000,000. The year's trade records for Canada's forty per trade to be $1,050,000,000, an increase of $221,000,000 over last year, and Canada's exports to exceed her imports by $107,000,000. Forty-five per cent of these exports being finished products.

New Lamp Facilitates Night Work



[illegible] and 5, shows an arrow to indicate the [illegible] Looking at the figure in the same light, 4 and 5, the lamp-conducting wire attached to a socket on the cab of the locomotive is of sufficient length to enable the operator to work any place within the car length of the locomotive [illegible] stand to which the lamp can be attached for the convenience of men working at a bridge or, in fact anywhere that requires a steady flow of light. The lamp can also be used at points along the line where there is a domestic current but [illegible] with good effect.

As there is so much that can affect the telegraph system, such as fire damage, lightning, storms, wind and rain, the advantage of being able to locate the source of trouble cannot be overestimated and a test like that once again, when the lines have been severely damaged during the night, it has been found that the electric hand lamp, which is now used throughout the System, has been of great benefit. During the past winter when the service experienced a considerable number of interruptions the lamp was often made use of and other storms and not be able to [illegible] by having failed to meet all service that is known. There is no doubt that the perfection of this lamp has been a decided progressive step in telegraph maintenance at night.

DOMINION OF CANADA VICTORY LOAN BONDS

MATURING 1st NOVEMBER, 1923

THE BANK OF MONTREAL, under authority of the Minister of Finance, is prepared to redeem the above bonds in full at maturity, without charge, at any of its Branches in Canada

For the convenience of owners of the bonds, the Bank of Montreal will accept the bonds at any time prior to November 1st, and will make payment in each case on November 1st, either by issuing a cheque or by placing the amount to the owner's credit in the books of the Bank, as the owner may desire.

LIQUOR REFERENDUM

NOTICE TO VOTERS

Instructions to Voters as to Method of Marking the Preferential Ballot to be used in the Liquor Referendum in Alberta on Monday, Nov. 5th, 1923

Issued Under Authority of the Government of Alberta.

THE BALLOT

(a) Prohibition—

Meaning thereby, a continuance and development of the present Liquor Legislation, that is, meaning the Abolition of the Sale of all Liquors excepting for strictly Medicinal, Sacramental, Manufacturing and Scientific Purposes

(b) Licensed Sale of Beer—

Meaning thereby, the Sale of Beer in Licensed Hotels and other Premises, as provided in the proposed Temperance Act.

[c] Government Sale of Beer—

Meaning thereby, the Sale of Beer by or through Government Vendors for consumption in Private Residences under Government Control and Regulation; other Liquors to be sold through Doctor's or Druggist's Prescription for Medicinal Purposes.

[d] Government Sale of Liquors—

Meaning thereby, the Sale of all Liquors by or through Government Vendors. Beer to be consumed on Licensed Premises and in Private dwellings. Wines and Spirits to be purchased in limited quantities under permit issued by the Government, under Government Control and Regulations

INSTRUCTIONS TO VOTERS

The Voter MUST NOT use the X mark He should mark the figure 1 opposite the question he wishes to be number 1. He should then mark the figure 2 opposite the question he would select as second choice, the figure 3 opposite his third choice, the figure 4 opposite his fourth choice. He must make no other mark on the ballot The voter may "plump" for one question alone, using the figure 1, without spoiling his ballot, or he may vote for only two or only three choices.

Voters are urged however, to vote the full extent of their four choices. There is always the possibility that the question of his first choice will not carry. In that case he should have a second choice, and a third choice, and a fourth choice. Only by marking the full number of choices does the voter obtain the full benefit of the preferential ballot, and the government obtain a complete expression of the opinion of the people.

FIRE

TWICE WITHIN a week the fire alarm has been rung. For twenty in both instances the flames were extinguished before any real damage was done. Three times in succession should, however, prove a better warning than any amount of reading matter, even though the suggestions contained therein were timely and worth while. Winter is the time of fires. With the air outside snapping to the tune of forty or fifty below there is every excuse for piling on fuel to the utmost limits of the stove in order that the house may be kept comfortable. Last winter especially through out this province and back in Saskatchewan, fires were quite frequent. Quite a number of farm buildings were burned to the ground, in some instances should, to property. Fortunately for the past year or so Tofield has been singularly free from serious conflagrations and the fact is a tribute to the carefulness of its citizens. It should not, however, have the effect of lulling residents into a sense of false security. As long as our buildings are of wood and need considerable heat in winter the danger from fire is there, at this time it would be well to take a look at all stovepipes, give the furnace an inspection, see that all is clear where pipes pass through partitions and generally put things as regards heating arrangements in a shipshape manner for the coming winter season.

THE VERDICT

MONDAY'S vote over the province leaves no doubt as to what the people now want in the way of liquor administration. After seven years of prohibition, a period brought in with great hopes and no little rejoicing on the part of prohibition workers, enough people have reversed their judgement of seven years ago to bring about the legal sale of liquor. From our conversation with different people both before and after the election, it would seem that this was widespread non observance of the prohibition law more than the law itself which led to its downfall. The man who has been accustomed to drinking alcoholic beverages moderately, cannot see that it is a crime to do so. Law or no law, and while someone is around with the equipment and inclination to make whisky, it is drank. Fully accepting it may only thought that if liquor is to be drunk or sold it may as well be drank openly. Just what effect time and a continued enforcement of the prohibition act would have had no person can say; one can only surmise. Whether conditions regarding illicit drinking would have got better or worse was evidently too much of a poser for the majority of voters, they preferred the quicker and more easily understood system of government control.

It is now the duty of the government to bring about a liquor sales system as soon as possible.

THANKSGIVING

MONDAY, NOVEMBER 12th has been officially set as Thanksgiving day. The setting apart of a Sunday and a Monday as Thanksgiving days is the official act of homage to a bountiful Providence by the representatives of a much blessed people. It would seem that since the first cloud came up on the horizon in far off Europe in 1914 conditions in this old world of ours have gone awry. Beset with perils from sea, land and air, and for the time we were engaged struggled therein, itself on the throes of economic statesmen, the world is facing the most baffling times in the history to find a way out. While the present troubles of Europe do not leave Canada altogether free, still, compared with the lot of many peoples our lot is a happy one.

The growing season just past was a good one, and to render thanks for the fruits of nature is the real import of Thanksgiving. This district too has enjoyed an excellent growing season, and whatever blunders from perfect happiness, this season at least, is outside the realm of nature. It is years since such stands of grain were seen or such yields reported. Feeling thankful is laudable enough, but actually the expression of thankfulness could be made more than a condition of thought. One is thankful to Providence for tangible results from labors performed and perhaps it would please Providence most. If, by an expression of thankfulness, a portion of the results of those labors were passed on to those less fortunate, always of course, using wisdom with your giving.

Order Your Christmas Cards Early

If there is one thing we do appreciate in this world, it is our friends, and to find a charming, sincere way in which to tell them so is a problem that is not easy to solve.

There is, however, one season of the year when expression of appreciation and friendliness is appropriate—the Christmas season.

It is a fact that Greeting Cards do solve the problem in a striking and delightful manner—but these seemed to lack the true sterling ring of sincerity until the Personal Greeting Card was conceived.

No token of friendship is more effective or sincere than Personal Greeting Cards, with their kindly intimate appeal. Send one to your every friend this Christmas.

Our large range of samples will interest you. The beautiful creations, work of master craftsmen, are fascinating gems of Christmas Art. The sentiments will express the Christmas spirit and renew fond friendship as nothing else can do.

Our sample book at the Mercury Office is open for inspection at any time. Reserve your order until you have seen our samples.

The Tofield Mercury

LINDBROOK

The weather having been glorious, most of the work here is completed or nearly so.

A radio party who held at the Hooper home last week. Mr Ernest Hooper of Edmonton who was here on a visit with his son Dick to his brother W Hooper, brought his outfit with him. The clarity and modulation were perfect and many stations as far distant as New York and San Francisco and the Journal and Calgary broadcasts might have emanated from the same room as the receiver so clear were they.

A case of many are called and few are chosen was enacted last week when Messrs N. Ellis and L. Pointer tried to entice an obstreperous cow into the stock yards for shipping purposes. The said animal ought to have been a horse and a Galway Hunter at that, the ease with which it cleared such trivial things as fences etc. well fitting it for same. They finally got her into the 1 mile east of Lindbrook and wonder of wonders just then the freight arrived, so only the two that were in the yards went while the rest and the "shoo-ya" were both over, but they've gone now and we expect the N. Ellis and L. Pointer were glad to see her go.

Something really must be in the wind, we've had an other undertaker out drumming up trade. Cheerful isn't exactly when everyone you meet has a dreadful cold and the coughing is too, but there's up folks it may not be for long, and in any case if you are persuaded into investing in anything new shiny coffin, you will only be emanating the great, to wit the division South had her coffin for years before she needed it, besides they make a dandy junk box for old junk until you need them yourselves, rather expensive, but you what it means, no bills for your executors to pay and no end of solicitation.

We are glad to welcome Mr. Dan Matheson back from the hospital and are pleased to state that he is much better in health and we hope he continues in such.

Here and There

The season for moose hunting opened in New Brunswick October 15th, and the chief game warden reports one of the best seasons in the history of the province. Game is reported plentiful in all sections.

The drydock at St. John, New Brunswick, is now in an advanced state of work. It was opened October 30th. The largest drydock in North America, it is capable of accommodating the largest ships of the British Navy.

Speaking in London, England, on October 19th, Sir Lomer Gouin, Canadian Minister of Justice, stated that Canada's exports per capita were three times more than those of the United States and her imports per capita four times more. The British Empire was Canada's best customer.

There are more telephones in Canada per 100 population than in any other country except the United States. This is shown in a report issued by the Dominion Bureau of Statistics, in which the proportion of telephones per 100 population is set at 10.32.

A dispatch from London states that a number of cattle from the Province of Alberta have been included in a large consignment of Canadian cattle which the Cardiff recently. The shipment is here demonstrated with the Canadian Pacific Railway from Calgary to Montreal, a total of 1,200 miles, and 150 head were loaded on to Scotch farmers at Montreal.

Members of the Bread and Cake Bakers' Association of Canada, at the annual convention of their Toronto [illegible] pledged subscriptions [illegible] $10,000 towards the launching [illegible] a permanent institute of baking in connection with the Ontario Agricultural College, Guelph. It is expected that the school will be opened early in 1924.

Canadian Pacific Railway figures for a remarkable increase in the amount of grain for the ten week [illegible] ended with October 31st. Over the [illegible] 14,150,000 bushels [illegible] 2,200,000 bushels [illegible] 1,200,000 bushels [illegible] a total last year.

It [illegible] the end of the [illegible] tracks saying an [illegible] wood and Pacific [illegible] from here to the Gopher [illegible] on the Quesnel River, a distance of 60 miles, with [illegible] from Quesnel to Ville Marie, a distance of 8 miles, will be completed and the track laid of November [illegible] engine will be ready for [illegible]

A [illegible] of education by mail for [illegible] a remote rural [illegible] type of rural schools being [illegible] Hon. Perren [illegible] for Alberta [illegible] at the south. The [illegible] work has already been [illegible] up to run through the winter [illegible] end of the year. It is [illegible] that from 20 to 40 lessons [illegible] in the case of each [illegible] year.

[illegible] brought to Saskatchewan [illegible] a farmer's middle [illegible] Ile [illegible] Ile [illegible] Ile

Perfect Manhood Is Found In Australia

Bushfighting Says People Developing Physically and Intellectually

Archbishop Duffy in a public address delivered on his return to Sydney from a visit to the United States said that a record of very powerful character was found and on the part of men whose duties he valued very highly, and he emphatically declared that the youths was really developing physically and intellectually a race of men.

To those who saw him on his departure from Australia, the words at this statement might not be apparent but it was quite apparent to those who visited the country...and the youth and manhood of Australia presented a fine and intellectually, growing big and brawny on the broad acres which were their native habitat, breathing the pure fresh air of an athletic life and with that mentality which in a...

Emotional Winner of Schenectady Could Have Had Millions Dreaming Big Life to Salvage

It was learned that the late Dr. Charles Steinmetz, the world famous NY prosteis, left an estate consisting of only a 1912 electric automobile and a few thousand dollars in bonds and the same as issued to all veteran who were of foreign birth. Dr. Steinmetz was the controlling electrical stock, probably could have made millions if he had cared to do so. But he...

Candu's Invisible Position

Confidence is Restored and a Steady Return to Prosperity is Looked For

This is every reason why Canadians people should be hopeful for the future.

The war has bequeathed, perhaps the largest army in its history, and Canada is generally prosperous. The burden of debt imposed by the war expenditure, the material betterment obligations, war and victory loans notwithstanding the imposition of new taxes, must be borne but good progress has been made. Confidence has been restored and there is a steady return to prosperity in every department of industry. At such a juncture nothing could be more detrimental than the abolition of public confidence. Montreal Expositor

Bella—"Do you believe in love at first sight, doctor?"

Doctor—"I certainly don't. The first time I saw Jack Morton was in a shell from-hole and I fell desperately in love with him. I wound out later he had only bloved the one."

Praise For Lloyd George

President Coolidge Pays Tribute to Efforts of Little Welshman

The visit of Mr. Lloyd George to the United States has been "a piece of good fortune for both his country and our own, and for the cause of international peace," President Coolidge said in a letter read at a dinner given by a group of writers in honor of the British premier.

President Coolidge wrote it has been a fine thing for our people to become better acquainted with this eminent leader in statesman's struggle to maintain itself and I hope he will feel, when he leaves us a few days hence, that his effort to bringing his message to us has not been entirely a vain one."

A Severe Attack Of Heart Trouble Was Relieved By MILBURN'S Heart and Nerve Pills

Mr. A. E. Barnes, Athens, Ont., writes: "Four years ago I had a very severe attack of heart trouble. I could not do the simplest kind of work. I only seemed to be getting worse. I finally went to my druggist and purchased three bottles of Milburn's Heart and Nerve Pills and derived immediate benefit from them, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel all right again."

Milburn's Heart and Nerve Pills are for a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

The Unions Sex

Poincare's Four Points

World Looks Hopes of the Reparations Inquiry

Paris—President Poincare made a speech at Nevers in which, as more portrayed by the French Foreign Office, he commended four points as within the jurisdiction of the committee of experts which is to be appointed in accordance with the proposal of the French government. These points are:

First—Germany's present capacity to pay.

Second—New methods of payments.

Third—The transfusion of German finances.

Fourth—A new monetary system.

This programme, the Foreign Office maintains, is in line with that indicated by the allied premiers at their London conference. Poincare, it is declared, considers that Germany's debt to the allies is fixed and certain and that only questions to be changed are more time for payment and the method of payment.

Customs Revenue Increased

Use of Excess Storage Deposits Income From Post Office

Ottawa—Customs and excise revenue increased $22,382,821 during the seven months which ended with January last as compared with the corresponding period last year, according to figures issued by the department of customs and excise. In this increase $12,317,105 is accounted for by excise taxes.

It is understood that the obligatory expenditures for the current fiscal year, which are chiefly for interest, sinking fund and other purposes which become effective on capital account, will be considerably reduced as revenue which normally would be due in the post office depart ment on account of the war will not be...

Capital figures for the seven months which ended with October 31 were $179,281,962, as compared with $127,...

Total revenue for the seven months of the last fiscal year...

British Refuse to Recognize Rhineland

Independent State Will Be Ignored by German Agent

London—Great Britain has formally declined France and Belgium that it cannot recognize the separatist movement in the Rhineland or the establishment of an independent state in Cologne or other parts of the occupied area.

Paris—The British Government, the Havas news agency understands, has instructed its ambassadors in the capitals of the French and Belgian governments that it does not recognize the action of the provisional government of the Rhineland headed by Dr. Dorten and Joseph Matthes, and will regard any attempt at a separatist ruling in the British zone of occupation.

Hong Kong Inundated By Heavy Rainstorm

Scene of Water Lifted Up Parts of Macdonnell Road

Hong Kong—One of the heaviest rainstorms in the history of Hong Kong, 11 inches falling from 11 o'clock on the morning of March 8, has done great damage, causing considerable damage. The Public Works Office and the Harbor Department suggests how building began, completely flooding nearly roads and streets. The water lifted up large portions of the macdonnell road and tore away the...

Tribes of earth and sand were washed down from the hillside and deposited on the pavements. The second floors of many city offices were flooded. Many householders have been compelled to remove their furniture to the...

Hamilton Liable to Sales Tax

May Possibly Be Exempted By Order-in-Council

Ottawa—The ruling that insulin, the lifesaving diabetes remedy, should be subject to the additional 10 per cent to the sales tax is explained at the finance department as being due to the fact that insulin is not included in the list of exemptions, under the Act. Such drugs in the case it is treated as an ordinary drug.

Now that attention has been directed to the matter it is possible that an order in council an exemption may be made because this is done it is said there is no alternative but to collect the tax.

May Return to Germany

Former Crown Prince Will Be Permitted to Go and Reside

Berlin—With regard to rumors that the former Crown Prince Frederick William of Prussia would be permitted to return to Germany, it was learned today that no request to that effect has been made to the German government. Informal inquiries showed the fact that the German Government is not unwilling to permit the former Crown Prince to come back to Germany, subject to the strict condition that he will live quietly on his estate in Silesia.

Mine Workers Secretary Sentenced

Halifax—James B MacLachlan, for 15 years secretary of the United Mine Workers of District 26, has been sentenced to two years in penitentiary at Lawrenceton on a charge of seditious libel arising out of the recent miners' and steel workers' strikes in Nova Scotia.

Mothers to Visit Battlefields

Melbourne—At a mass meeting held Lord Lore a scheme was launched whereby fields will be raised by a military...

GERMAN MARK TAKES ANOTHER SLIP DOWNWARD

Berlin. The decline rate, which has been stationary for a week at 130 billion marks, has taken a spectacular leap to one hundred and thirty billion, not only creating havoc on the exchanges but also seriously disheartening the bond situation. Since the price levels are single commodities have risen astonishing rapidity, for the average wage earner

As virtually no aid is coming from outside of Germany, or is expected from foreign sources, the inevitable result is approaching a dollar for one and clothing the cable to reduce it to the largest in a position to finance relief work.

FRANCE IS NOW SATISFIED WITH ALLIED PROPOSAL

Paris The British move regarding the moratorium by the reparation commission of the international commission of experts which in turn will study Germany's capacity for payment was received at the French Foreign office.

The fact, it was declared, shows the British and French Governments to be in perfect accord on the subject and so far as they are concerned the proposals are to be the subject of a...

The first note drew the French Foreign office attention to the special consequences which might be entailed by the separation of Germany's economic unity and the fact that provinces were one signatories of the Treaty of Versailles had an equal and directly have assumed obligations hold upon the Reich by this treaty.

The second note contained a proposal to the French Government to be represented on the Rhineland and Ruhr commission by the Belgian invitation to the United States to be represented on the commission of experts which will make an economic investigation into the country's capacity for the payment of reparations and the means Germany possesses to fulfill her obligations.

The joint invitation will express thanks to the United States for its collaboration and for the fact that it has not to appoint delegates, though be observer, on the commissions now...

The French note however makes clear how the French Government to specify its intentions, as has been reported from London.

While Bayer manufacture of Aspirin has been proved, the public against imitations, the Bayer Company will be assisted with their general trade mark, the "Bayer Cross."

Diseases Amongst British Cattle

Mystic and Outbreaks Cause Quarantine to Be Established

London—The Board of Agriculture has issued a statement dealing with the outbreaks of foot and mouth disease which have occurred in various parts of the country during the past few weeks. It says that the outbreak in Lincolnshire has been traced to imported animals, and that the outbreak in Surrey is due to the importation of animals from Ireland. Restrictions have been imposed on the movement of animals in the infected areas, and the Board is taking every precaution to prevent the spread of the disease.

Heavy Loss From Prairie Fires

Winnipeg—Reports received by the Manitoba Department of Agriculture indicate a heavy loss from prairie fires in the province during the past week. Many settlers have lost their entire crops of hay and grain, and in addition to this loss, many have had their buildings destroyed. Reports received indicate that the fires have been most severe in the districts of Swan River, Dauphin, Minnedosa and Russell. Many settlers have had to move their cattle to other districts where feed is available.

A GREAT STORY YEAR

A golden school of stories is in preparation for 1924 readers of The Youth's Companion. There will be stories of Western ranch life and thrilling adventure, stories of gumption in getting a job and making a success at it, stories of lively schoolmates on the athletic field foot-ball, baseball stories of girls in school and college and working their way in the world of business, stories of the old farm folks down in Maine, told inimitably by C. A. Stephens, stories of Caleb Peaslee's three shrewd nephews, stories of mountain adventure and pluck in situations of danger and extremity, stories of the sea and of the mountains, stories to please every fancy of old readers and young, for readers to be into the story of their letter and for those who like best the story of swift action. It will be a great year in the history of The Youth's Companion.

The 52 issues of 1924 will be enriched with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now

SHERIFF'S SALE
OF FARM PROPERTY

[illegible] will sell at public auction at the [illegible] on Saturday, the 15th day of November, 1924, at the hour of 2 o'clock in the afternoon of that day, the following described lands and premises, namely:

[illegible] Section Twenty-seven (27), Township Thirty-two (32), Range Two (2), West of the Fifth Meridian, containing One Hundred and Sixty (160) acres, more or less, except thereout all mines and minerals, as reserved thereout by the Crown, and as exhibited in certificate of title No. 72 R 145.

The above will pay all taxes and seed grain lien on the said lands to December 31st, 1923.

The vendor is informed that the said lands be conveniently [illegible] miles from Derville Railway station, and that the greater part of said lands have been under cultivation, the improvements are a dwelling house, [illegible] and a granary.

The purchaser will be required to enter into an agreement for the purchase of the said lands, and to pay ten per cent. of the purchase money at the time of the sale, and the balance of the purchase money within thirty days thereafter, and the purchaser will be required to execute a mortgage of the said lands to secure the payment of the balance of the purchase money, and interest thereon at the rate of seven per cent. per annum, and will be required to insure the buildings on the said lands for the sum of $1,000.00 during the currency of the said mortgage.

Further particulars may be obtained at the office of the undersigned, Solicitor for the Vendor, Derville, Alberta.

Dated this 1st day of October, A.D. 1924.

Approved: J. L. CRAWFORD, Judge
JOHN RAY, Sheriff.

Two Country Fires

BARN BURNS AND HORSES LOST

On Wednesday November 7th, an unfortunate fire occured on the farm of Elgin Beale and he lost his barn, some green feed and harness. The barn which is situated in the Rose Creek district, not far from the McKenzie school, caught fire from some unknown cause and though the teacher and pupils of McKenzie school did all they could to save it, it was a total loss. At the time of the fire Mr. Beale was away from the place.

Another fire, a more disastrous one occured on the Billman farm on last Friday morning. Five horses and a cow were burned as well as the winters feed, harness saddle, etc. The cause of the fire is unknowns. The occupants of the farm, Mr. Abbott, along with

AT THE
VARIETY

'The Prodigal Judge'
Starring
Jane Paige

"The Prodigal Judge" brings to the screen a new character who has long lived in fiction and has become endeared to the hearts of fiction lovers. Eloquent at every bar, Falstaffian in capacity of appetite and intellect, the judge is a man of contrasts. Confronted with the third-degree struggles for mastery with the sublime. The spectator laughs over him, then loves him and in the end rises to a point of delighted admiration for the vagabond who still remains the high-minded great hearted gentleman.

Monday, November 17th.

'The Old Homestead'
Featuring
Theodore Roberts

A picture that enthralls, delights and captivates the hearts of every person that sees it. The characters are human—very human and though only flowing shadows on the silver sheet, seem to breathe into the audience the atmosphere of home and the love thereof that delights all people, regardless of age or clime. There is Uncle Josh and Ann, Happy Jack and Tildy, Cy, Seth and Reuben and others in a characteristic story of homes that grips the heart strings yet in the very next second creates a laugh born of clear wholesome humor.

Wednesday November 21st.

Communication

Mr. Editor:
Dear Sir:

In the last issue of your paper I note your Ketchamont correspondent, in referring to the Sunday threshing now in vogue, "we feel they are justified." I cannot allow such a statement to go unchallenged, as I, for one, do not consider it right to use the sabbath either to thresh or in any other way to take care of the bountiful crop which the good Lord has been pleased to bestow upon us this year.

All down through the ages God has punished peoples and nations for disobedience of His commands, one of which is: "Remember the Sabbath Day to keep it holy. Six days shalt thou labor and do all thy work; but the seventh day is the Sabbath of the Lord thy God, in it thou shalt not do any work."

Can we expect to escape His displeasure, when we desecrate His holy day in order to add to our material wealth. How many threshermen, think you, would give their own time, wear and tear on their machines and necessary fuel, free gratis on Sundays, to see that the poor farmer had his grain threshed? No, he works on Sunday for the money there is in it. And how many farmers would turn out on Sunday to help at a threshing and not expect men and teams in return to pay for that day's work? Not many, I'll venture to say.

"And what shall it profit a man if he gains the whole world and loses his own soul."

The Good Book says: "Judge not, that ye be not judged," and I write, not in a spirit of criticism, but in the spirit expressed in the following lines:

"Why should I sit in the scorner's seat,
Or hurl the cynic's bane?
Let me live in a house by the side of the road
And be a friend to man."

Mr. and Mrs. W. O. Glover visited their son Charlie who has been in the Edmonton general hospital for the past two weeks. A short time ago he received an injury to the spine and was taken to the hospital to undergo treatment.

His household were awakened by the noise and glare but the building was then on the verge of collapsing. The loss is a very unfortunate one to Mr. Abbott as we understand no insurance was carried on stock or contents. A little insurance was carried by Mr. Billman on the barn.

British Labor Situation

British Government Will Spend Large Sums in Providing Work

London—Though there are 1,256,000 unemployed persons in this country Sir Montague Barlow, Minister of Labor, confirmed that these figures were not as bad as at one time expected. The government, he said, this winter was expending £100,000 on development schemes and the Clyde navigation trustees were spending £1,000,000 on reconstruction work in charge of the largest railways were embarking on heavy capital expenditure calculated to find work for many thousands. The seasonally industry in Scotland, was kept alive mainly through foreign orders.

Four-Foot Drop in Earth

Honolulu—Another shock in the vicinity of Yokohama, caused by the recent earthquake in Japan, was due to a drop of four feet in the surface of the earth, which may have resulted from activity of the volcano on the island of Oshima, southwest of Yokohama, in the opinion of Thomas A. Jaggar Jr., volcanologist in charge of the Hawaiian volcano observatory who has returned to Hawaii from Japan where he made a survey of the damage wrought by the tremors.

Remove Immigration Bars

Montreal Speaker Says Restrictions Are to Be Lifted

Moderate What restrictions now remain upon immigration to Canada will be removed before next spring very probably within three months declared Hebert M. Marler, M.P., for Lanark and [illegible] George, in an address before the United Empire Club of Canada here. Mr. Marler said he would make this statement with authority.

Following removal of these restrictions, the only qualifications an immigrant would need to give in order to enter the country would be a sound mind and body and good moral character. In other words, the door would be open to all immigrants who were sound.

He declared that Colonel Harrop was an admirable Irish Free State [illegible] and he wished to contrast his views in that respect with those expressed at a meeting here recently by Senator Pope, who, he claimed, had referred to immigrants from that part of Europe as "spotted animals."

Make Denial of Ruthless Slaughter of Buffalo

Officials Claim Shot Animals Were Killed by Expert Rifleman

Winnipeg—Emphatic denial of reports of a ruthless slaughter of buffalo on the Wainwright Park reserve, was made here by W. M. Graham, of Regina, Indian Commissioner for Western Canada, and by Hon. Charles Stewart, Minister of the Interior.

The two officials declared the animals were not killed by Indians with bow and arrow, but by expert riflemen.

The order of the department was obey said, that the Indians could not take part in the slaughter, and this order was obeyed. There were 81 men in the park, mounted and [illegible] with bows and arrows for the benefit of a battery of movie cameramen, but they did not kill or wound any of the herd.

The reports of the slaughter of the animals are unwarranted," Mr. Graham said. "Only about 15 [illegible] were killed altogether, and these disposed of in a humane manner in the discretion of the department to [illegible] the herd thinned. The herd will, but this will not be done until they have grown their winter coats and when it is done it will be the work of marksmen picked by the department."

NOVEMBER 11th.

THIS IS more than a national day—it is an international day. It is a red letter number on the calendar of nations, not there by the blood of the flower of mankind. Five years have passed since that fateful morn when the sun arose upon a weary world bringing peace and hope, but though the period should be five times five, Canada among the nations will not and can not forget the sacrifices of those that are lying and need Memories of those gone will be treasured in many a home, while Canada's duty to those with us will not be forgotten

THE RED CROSS

The Alberta division of the Canadian Red Cross Society, is appealing to farmers of Alberta to donate wheat to the cause of suffering humanity. Peace hath its battles as well as war, and the fight against disease and suffering that has been undertaken by the Red Cross is enormous. The sick mother in the lonely shack in the districts now being opened up to settlement, the frail youngster from the emigrant family of the city, both have cause to bless the tender, though exceedingly useful ministrations of the sisters of the society. It may not be possible to trace the use to which the proceeds of your wheat will be put, but one is assured that every cent will be made to do its full duty. The cause is a worthy one

PUBLIC OPINION.

EVERY PUBLIC man will tell you that the most fickle thing they know of is public opinion. All the world over, one day a man or theme is accorded the plaudits of the crowd and the next plunged into oblivion—or worse. It is probably unfair to ascribe any special fickleness to the present generation. Human nature is pretty much the same all through the ages, but it does seem of late years that there is a violent swinging of the pendulum that gives rise to the belief that the whole world is catching it strawe. Russia in such a condition that the very despatches that come out of that country are doubted. Germany, formerly the acme of economic government, seeing its currency treated as rubbish. The toppling over of age old kingdoms. The rising up from unexpected places of leaders of thought and action. New theories, creeds, and beliefs propounded, in fact from the front pages of the daily newspaper one can imagine the world to be like an old time church bazaar where every stall was a surprise and the whole event planned for one night only. Here in Alberta we have seen two elections, seven years apart it is true, but which showed a complete reversal of opinion on the part of the majority of people. We also saw in 1920, an almost complete wiping out of the libs majority, in spite of the fact that five months ago all would tell you that the Stewart Government was a good government. This is written with absolutely no political bias. The chiefs are now crying out for people to fill their pews, while a man comes to Edmonton and with demonstrations of "divine healing fills the largest building there and closing the doors, leaves others and eager people outside.

It would take a volume to try and explain these things, one can only observe and comment upon them.

Village doctor (to the old cleaner who is paying a call) But surely, Saunders, you will have a drop of something before you go?

Saunders No thank ye, doctor. I've three gude reasons for refusing hospitality. First, I'm the chairman of the local temperance society, second, I'm just gaein' to a kirk meeting, and third I've just had one

---

Miss Knox Yes, he actually said your cheeks were like roses

Miss Spots (secretly delighted) That's saying it on pretty thick, Miss Knox

Miss Knox Yes, he is noted for about that too.

Have You A Dollar's Worth of Confidence in Your Red Cross.

Your Red Cross is once more calling upon you in the name of suffering humanity to give from your plenty so that others less fortunate may benefit. The annual drive for membership and finance is now on. Can you see in your district will call upon you soon. Be ready for them and do your bit once more

Give a Bushel of Grain if you prefer to give that way Your elevator man will tell you how

It is estimated that if each farmer with 1 section gives 2 bushels, with 4 section gives 4 bushels, that, with the cash donations from the towns and cities, the Alberta Division quota of $5,000 will be reached easily. This plan has the endorsation and recommendation of the Lieut-Governor of the province, the committee of the Alberta Wheat Pool, the Alberta Elevator Companies.

Many new Red Cross activities in rural districts are planned for 1924

Greater rural hospital and nursing service facilities and in addition a special course of home nursing classes will be conducted throughout the length and breadth of Alberta under the direction of qualified nursing experts which everyone will have a chance to attend. Send 25 cents for the manual on home nursing. It is a most complete book filled with information essential to health.

Canadian Red Cross Society

Alberta Division

If you prefer to make your donation in cash, mail your cheque to: The Honorary Secretary, Canadian Red Cross Society, Alberta Division, 908 Beveridge Building, Calgary

Interesting Stories For Young Folks

Published By Presbyterian Thomas Allen, Publisher

SELFISHNESS

My chief at a ninety thrive now." If it an Englishman was waiting to see the gave him some goods it would spoil it. doctor.

Not that you and I are to have no fun either. That kind of a person is an empty, silly, shallow body. You want the hearty sort you can depend on and need to care for yourself. Put it you be sure, you will have to put it with which to care for anyone else.

Yes, you will have to have, but it can stop truly being unselfish, you will soon be also nothing with which to have anyone else.

Selfishness means you realize now not body else but yourself.

Selfishness means letting yourself to the entire and expecting everybody else everything to cater to your needs.

A little boy said to his sister, "Mary there would be more room in the car if this sofa if one of us was to get off" Mary looked at him and said, "I guess I would want to have that one child around. that expects the home to cater to him and of his wish can he could know himself."

Some one tells a story of the street boys of the one-thick Dee of a little ragged beetchark, who said his job to get a quarter-to pay for a matter in the pages of the desks of his little brother When the kind newspaper man asked if it was his little brother with a strong eying chin he said, "I had to sell my hit to do it. I had to haul him arms around my neck when he d'died."

The story went round and that same day at evening, he found his hit on the doorstep, with a bunch of flowers, bought with pennies by his chums. It will never be touched by selfishness.

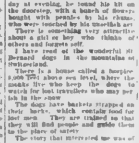
There is something very attractive about a girl on the streets who is not ashen and forgets self.

There is one wonderful st Bernard dogs in the mountains of Switzerland.

There is a house called a hospice (both ZZZs) above sea level, where the Alpine dogs are kept. They are wayside for lost travellers who may perish in the snow.

The dogs have barrels strapped on their backs, which contain food for lost men. They are trained so that they will find people and guide them to the place of safety.

The story that mirrored me was of



R. N. U. 1408

To Discover Cause of Colds

Cause of Colds is Subject of Medical Inquiries in States

Dr. John F. Norton and Dr. Edward I. Jordan of the department of hygiene and bacteriology of the University of Chicago, have begun an investigation into the cause of colds and have sent about 2,500 questionnaires to students concerning their chronic conditions, underwear and other matters bearing upon colds. No stone, says every boy has been bound to be thrown at colds Dr Norton said adding that while numerous germs have been found to be contributory causes, no thing—nor one boon found to be sure-cure

In the cold season he said, there is no more chance to catch a cold in a sidewalk as in Chicago and that colds have no relation to the weather—rain or hotweather

His Overdrawn Account

A bank manager rang up one or his low customers to inform him his account was overdrawn "Tell you of ye! Will you look up and tell us how we, Salmon was on April 30?" Presently came the answer "You had a credit balance of £157." "Well said I ring you up to tell you that" said the low rang off

In 1916, 13 of the other cities of Germany had a combined debt of $1,000,000

What Draws Popular

On Thursday last the Catholic Women's League held a whist drive at the W. I. rooms. There was an excellent attendance nine tables being filled The highest score was made by A. Chatterton while Mrs. Chatterton carried off the booby prize. At midnight a splendid lunch was served at which pressed chicken was an important item on the menu. A Mercury representative missed no much chicken that there has been evening in the office ever since. The event was highly successful.

The Womens Institute held their first whist drive of the season at their rooms on Tuesday last. This event had all of last season's popularity there being nine tables filled. Mrs. Bilmer was high lady with a score of 178 and Mr. Weatherill high gent with a score of 173. Low gent was Mrs Parsloe with a score of 121 and low lady Mrs Baptist with a score of 121. A very nice lunch was served during the evening.

The next institute whist drive will be Tuesday, Nov 27 in their rooms at 8 o'clock.

Local News Gleanings

Born—To Mr. and Mrs. Norman Smith on Sunday, Nov. 11th, a son.

Mr. Geo. Rowland left on Thursday morning for Prince Albert, Sask., where he will spend the winter with his uncle.

Mr. Reynold's of Carrollton, Illinois, have been visiting with the Kalisl Bros. during the past week. Mr. Reynolds appeals to him so much that there is every possibility of him buying here. He is an auctioneer and assisted D. E. Ball at the Dodd's sale.

The directors of The Dominion Bank at their meeting to-day, Nov. 16th, declared the usual dividend of 3 per cent for quarter ending Dec. 31st, 1923 together with a bonus of one per cent making a total distribution to the shareholders for the morning year of 13 per cent.

The Holy Trinity Ladies Aid will meet at the home of Mrs. Parfels on Wednesday, Nov 28th at 2.30.

There will be evening service this coming Sunday at 8 o'clock December 2nd at 7.30 p.m. and at Logan at 8 p.m.

The United Ladies Aid are holding a bazaar on Saturday, Dec. 1st in the Institute rooms. Chicken supper served at 6 p.m.

Mrs. T. Herndon is visiting in town and the other at the Ranch farm. The two a good attendance at the Dodd's sale and prices good The Ranch sale being only cattle didn't draw such a large crowd and prices were not average

Lindbrook

Everyone here is delighted with the continued fine weath which is conducive to fall work on the farm and last

Mr Lindgren shipped a car of stock from here this week.

Mrs. Swain was a visitor to Lindbrook this week

Mr. Dyer and Miss Krosel, two residents of this district were residing in Edmonton were here on a short call to Mrs. W. Hooper, and while here also called on their old friends, the Westlake family of this district.

A surprise party which usually a surprise was sprung on Miss Audrey Hooper on Friday evening the 16th, the occasion being the 22nd birthday. The surprise party was met by appointment at J. Leahy's store and was announced at the Mrs. W. Hooper home by the jangling of iron bells which caused one of the family who was outgoing grain to journey down to the stack yards to see if the cows had broken into the oats. Games and dancing formed the amusements and a dainty supper was served at mid-night. Those present were Mr. and Mrs. Leahy, Mrs. Cleaver, Mr. Semple Miles M and C. Rogers, A. Ternat, V. Ingram, and M. Smith and Messrs. R. and L. Rogers, J. Brown, R Smith and D. Dyer Miss Hooper was the recipient of many useful presents from her friends. The party broke up about 2 o'clock preparing a good time and threatening more surprises at the last opportunity.

Mr. Ernest Hooper, Mrs. E. Hooper and family and Mr. and Mrs F. Huntley all of Edmonton motored out to spend the week end with the Hooper family here On Saturday evening they were the guests of Mr. and Mrs J. Leahy and a pleasant musical evening was enjoyed. Mr. E. Hooper also brought his car out till down and many fun of stunts were indulged from our ranch in Hanna, Utah, was local items and very distantly too, so far as we know very few have picked up this far off station Whilst there were here, Messrs. Hooper and Huntley visited Mr. A. Scott and were greatly interested in his sheep. Mr. E. Hooper being an old sheep farmer himself at one time

You all have no doubt heard the piggies story about the one that went to market, etc., but this particular pig went somewhere else, for further particulars see Mrs. W. Atkinson who's doubtless will be delighted to oblige

Mr. J. Leahy is getting a cut of road south of Lindbrook, and prob ly be in this week

News wanted from outlying points Please leave at store or ring 11 - come to Mr. J. Leahy on his 'phone.

And now, when do the dances start? — are we all dead?

Communication

Mr Editor

I read in your paper of November 15th, a communication, which I have been accused of writing, but let me say right here that I never write anything that I cannot sign my name to.

I wondered if the person writing it had any threshing to do, or if they had their's done. I know of a person who thought it was a terrible thing to thresh on Sunday but the same person was out looking for some of his stray cattle, and the bible says, "If you break one commandment you are guilty of all." How many is there that keeps them all at all times. "Those that live in glass houses should not throw stones." I am not in favor of working on Sunday, but I think at this time of the year when we do not know what to harvest will be, as is so justified in threshing or any thing to save the crop "that the Good Lord has given us". Now I could say a lot more but this item ugh to let you know that I am not guilty.

MRS. FRANK HULL.

For Sale

A few coal and wood cooking ranges for sale. M. C Hammond

Perfect Soft Coal Burner Discovered

Self-feeding, built especially for Cheap Soft Coal

This marvellous self-feeding invention is now placed on the market and will be the means of REDUCING COAL BILLS TO A MINIMUM. This device has been under test for 12 months and has proven to be the only stove on the market that utilizes all the gases from the coal and thus WILL BURN THE CHEAPEST SOFT COAL economically and give utmost satisfaction. Owing to it burning of all gases from coal requires practically NO ATTENTION Once fixing per day, all that is necessary and will burn for SEVERAL HOURS at even temperature when slightly checked; when drafts completely checked will burn for SEVERAL DAYS and not go out. With oven attached you have combined cooker and heater.

A GOOD SPORT

THE EXPRESSION is not easily defined, but in a general way we know its meaning explicitly enough. It has no necessary connection with the playing of games, unless life it self be looked upon as a game. The good sport is the man who can win without being offensive or boastful, who can lose with without whining or apology who can take his full share of the knocks and kicks of life, faces the music when he has to without fainching, never tries to get out of trifolds by going back on a friend, and does it all not in grim determination, but with a disarming smile on his face no though he really enjoys it.

The good sport always gives the other fellow a chance to win his laurels, and never begs the game. He sees life as a big bound, generous place with room and opportunity in it for every man, woman and child, and one of the real sources of his joy and happiness in the prosperity and happiness of other people. He doesn't believe in putting fences around too many plots, and has a theory that the things he should hoard up for himself at home are very few indeed. To give another man a chance to get on, even by forgetting his own selfish interests, is one of the deep rooted instincts of his life.

But the thing I like most about the good sport is that he puts the burden out of life, makes no parade of humanity, and successfully hides the fact that there is anything wonderful about himself. He follows the good advice of the Good Master and when he has been fasting makes himself look as if he was just coming from a wedding; when he has done specially hard or self sacrificing thing he just laughs and says it was nothing. He doesn't take himself too seriously, he doesn't make his good-ness offensive by selling special attention to it, he does a whole host of good deeds under the cover of darkness. And somehow his good deeds have spies in them; they are not the cloying, sweet kind that he or she who looks for them. He is in fact he is a real good sport, and I wish that I could be more like him. Christian Guardian.

Women! Dye Faded Things New Again

Dye or Tint any Worn Shabby Garment or Drapery

Each 15-cent package of "Diamond Dyes" contains directions so simple that any woman can dye or tint her worn, faded things new, even if she has never dyed before. Choose any color at drug store.

Don't buy poor, weak, imitation dyes which to-day's best dyes make unnecessary. Don't risk your material, your time, your disappointment. Don't streak, fade, spot, or run. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is cotton or linen, or a mixture of several kinds. He knows. Druggist has Diamond Dye Direction Book and Color Card.

Diamond Dyes are guaranteed to give perfect results, even if you have never dyed before. Choose any color at drug store.

Electrical Wizard Had No Relatives

Adopted Son of Man Who Frost Befriended Him

Charles P. Steinmetz, the electrical wizard, who died promptly at his heredity, it's never married. The little bachelor's who became the president of the General Electric Company died and reached 24 years in the United States, following his cruelty from Germany. He attained his greatest prominence during the latter years. There were only a few people at the "wizard's" house but he did. His only close relatives in this country were adopted ones. When he landed in America, a fugitive from Germany, he went to speak English but he was befriended by a man he'd studied in engineering and he adopted Hayden's son, J. Lewis Hayden, now a man of about forty years of age, who children of his own. Everyone regarded Hayden as his son, and when Steinmetz died Hayden was given grand children first. Next was one of the few men in the world that a wizard's name is known. The lawsuit which he actually had in his employ was in Schenectady. He simply took what he needed or wanted. He wanted large sums for his inventions and he got them. He died for him. A few lawsuits in which artificial lightning was being built for him at the time of his death. Personal property he left to his adopted wife and take it to the Supreme Court. He depended on her not having to create an estate.

And probably there are more than a few critics of present-day Americans who'd have willingly adopted Steinmetz.

A Short Wait

He was unaware of the event—to be found in the Wild West—when he met two men in the main hotel in the place—Dawson City, I think it was. "Let's have a drink," he said. "I'll buy a strange a glass a bottle of whisky," he ordered. "Will you have some?"

No I never eat em," the guests replied.

In that case," said the waiter "dinner is over."

Blind Maud's Revenge

The Principality of Andorra

World has Little Knowledge of Country and People

The Emir of Andorra is dead, has been a ruler in his capital at Sahin, and is succeeded by his son. The western world did not learn of the death of the ruler until it happened.

The passing of the old ruler or a ruler in that probably not one per cent. of the people of the world. Andorra is the world's smallest country with the fact word in equipment and appurtenances in a commercial possession of its rural reefs and hovels and automobile. And yet on the principality boasting whatever it has in the repair, and even in this knowledge of it is

Among The Red Sea in Asir is a people lawlessly twenty to thirty years behind the times. Asir is in the Red and interrelation. In up to date it is not within the reach of Pacific Coast of Southern California. Even in April the temperature registers as high as it the shade in the "interior," and the commonness it is almost as hot as the Sahara Desert.

Asir, the capital of Asir, is in the Red Sea. Lighthouse. Just outside the town. It is described by a British Indian medical officer who visited the country during the World War as a village

Oil Geyser in Baku

Has probably to shifting strata in the Caspian Sea, an unusual phenomenon in oil wells was noticed recently near Baku. A geyser suddenly began erupting from the sea, rising 150 feet off the coast and during two hours of activity spouted at a height of 30 ft., throwing off stones as well as oil. The eruption was accompanied by a loud subterranean sound which terrified the people, who fled down

The Restless Age

Discussing the transfers on the boundaries of railroads north of the Rio Grande and the thousands who travel to and fro over it, will be found that a good proportion of the 113,000,000 persons who live in the United States and Canada are "on the move" all the time. This is indeed a restless age

IMPURITY

times in California I visited one of the beautiful gardens of San Francisco and was taken by the flower guide.

Its petals were white, and when you brought the blue flame to them the very centre was a shape made to look like a face. It was a flower with a face on it. But I saw that it was pulled it. The ugly fellow! pale as the flower.

It is a fine thing when a girl or boy grows healthy pale as the flower.

There is no sin that leaves a blacker mark than to sin secretly.

It comes to various thoughts, and evil deeds, and when it comes it is next to impossible to wash it out. A mark once branded on a dirty paper and never after be bad but to throw it away. I mean that is a "no good fellow."

It is almost like putting nails in a post you may draw the nail but the hole is left. So all sin, the hole is left. A grieving life may fill them with a growing life, but they are always a sore spot where the nail entered.

Some one like to tell bad stories and wish that is no harm in it. But while people they should turn from it with loathing, as they would from drinking poison!

It is said the war is a dirty, nasty affair. It is hard to get rid of the memory. It is like the dirt left by the man who when you want some water to wash.

Boys, we keep the site clean, and in a true direction?

Have you ever heard the story of Ulysses and the Sirens—how he kept himself and the sailors from the influences of the enticing music when the sirens played on the other dangerous parts to lull and their ears with wax; and having stopped their ears they had heard nothing?

That is the way—the way of self steep duty and obedience to law But there is a better way.

A boy once was trying to make a slingshot that he might kill a bird. did. While the other boys left sitting marks, his powerful shot hit the when they asked him how he did it he said he fixed his eye on a tree on the other side of the field and walked to the tree without looking to right or left. That is the way always to make a straight mark. Look at something ahead and go to it.

And, boys, that is a shadow for life! It is a splendid text for a girl or boy—a motto for some. Run with patience the race set before us, looking unto Jesus."

The eye fixed on Him and the feet moving toward Him will help make a straight life.

Mother Gives Facts In Case of Daughter

"From the way Tablet helped Mary, my little eleven-year-old girl, was eating, I think it is perfectly wonderful," said Mrs. J. H. McIlroy, residing on Macdonald de Lisle Terrace, Lasalle.

"Mary was rooting almost to bite and every time she suffered from indigestion. She got so run-down that she complained of having tired all in time and did not have energy to run and play like children do who are feeling right.

"Before I had Mary take Tablet she's like a different child. It gave her a good appetite, and away with indigestion and gave her plenty of energy and strength. She has been nearly a year now and I can truthfully say that Tablet It was just what Mary needed."

Tablet is for sale by all good druggists. Accept no substitute. Over 12 million bottles sold.

The Cow The Mother of Prosperity

"Where the cow is kept and cared for, civilization advances, lands grow richer, homes grow better, debts grow fewer."

The above is an extract from the preface of a book entitled "The Cow, the Mother of Prosperity", copies of which are being distributed by the Bank of Montreal. This book is gotten out by the most popular routine on dairy farming which has ever been published. It has been written with a view not only to guiding the farmer in the selection and breeding of the best and most profitable types of dairy cows in every condition of climate and soil in the richest portion of North America. The author, Mr. Ralph A. Hoyer, of the Agricultural Extension Department, Iowa State College, Ames, Iowa, has written the book in a very interesting manner, and has given us the benefit of his many years of experience in dairying. The book is profusely illustrated with pictures of dairy cows and dairy farms, and is a very valuable addition to the literature on dairying. Mr. Hoyer has had a wide experience in dairying, having been connected with the Agricultural Extension Department of Iowa State College for the past fifteen years. He has also been engaged in the dairy business on his own account for a number of years. He is a graduate of the Iowa State College, and has specialized in dairying. He has been a frequent contributor to the agricultural press, and is well known as a writer on dairy subjects.

The book is divided into twenty-four chapters, and covers the following subjects: The Cow, the Mother of Prosperity; Dairying Pays; Dairying Builds Up Land; Dairying Makes Work Easy; Dairying Makes Steady Employment; Dairying Makes Good Citizens; Dairying Makes Happy Homes; Dairying Makes Healthful Living; Dairying Makes Clean Living; Dairying Makes Beautiful Farms; Dairying Makes Good Roads; Dairying Makes Good Schools; Dairying Makes Good Churches; Dairying Makes Good Communities; Dairying Makes Good Markets; Dairying Makes Good Prices; Dairying Makes Good Profits; Dairying Makes Good Investments; Dairying Makes Good Insurance; Dairying Makes Good Savings; Dairying Makes Good Banking; Dairying Makes Good Credit; Dairying Makes Good Reputation; Dairying Makes Good Character; Dairying Makes Good Men and Women.

Every chapter is full of interesting and valuable information, and the book is well worth reading by every farmer in the country. Copies may be obtained free of charge at any branch of the Bank of Montreal.

the production of coal, methods of mining, and the care of dairy utensils, the use of manure and the best breeds for varying conditions and the treatment of diseases are all dealt with and in plain language that anyone can understand.

A valuable feature of the book is the fact that every point dealt with is illustrated by photographs specially taken for the purpose or by diagrams. Over 250 photographs are reproduced. The Bank of Montreal is doing a splendid work for farmers by having a special edition of many thousands of this valuable book printed for free distribution. Application for the book should be made to the local branch of the Bank of Montreal.

J. Reynolds, who has been working on the gas line during the summer, has returned home and will stay with Mr. Helmy during the winter.

Harold Smith of the station staff is spending a two week's vacation at Vegreville.

Mr and Mrs. D. E. Ball visited Edmonton on Thursday.

Rev. Watt visited Edmonton this week.

Long after the time of receiving, the jewelry gift is, together with happy memories, remembered and treasured.

Hockey Club Looks Forward To Successful Season

The Tofield Hockey club was reorganized for the season at an enthusiastic meeting held in D. E. Ball's office on Friday Officers were elected as follows: Hon. president, James Hannan, president, A. E. Calvert; secretary-treasurer, G. A. Agnew; manager, H. F. Lane; captain, Bert McIntosh; executive committee, H. N. Lane, George McLaughlin, H. A. Doak, J. D. Hannan. Press representative W. Werton

Prospects are bright for a real nifty aggregation of puckhawkers this season, as all the members of last year's team are still in town, as well as several newcomers who have a fine reputation of being first-class players.

A new business venture is being commenced by Mr. Holstine, to be known as the White Lunch. The premises adjoining the butcher shop will be used and Mr. Hale will be in charge.

Out of the Shadows a Figure Crept

It passed as instant and then the story is told by

William Duncan

and

Edith Johnson

—in—

'The Fighting Guide'

Wednesday

December 5th

Mary Miles Minter

and

Tom Moore

The story tells of a wife who remains faithful to her end of a husband until fidelity points the way to a finer love. Jessica Westrop, widowed by her husband's scandalous, goes to her ranch in Wyoming. Reluctantly, her husband accompanies her. Out there, however, he has an affair with another woman, while a neighboring and gentlemanly rancher, Teddy North, falls in love with Jessica. Interesting developments follow, and there is a murder mystery which threatens to shatter the happiness of all concerned. But at the last moment justice and happiness prevail.

"The Cowboy and the Lady"

Town Council Meeting

A regular meeting of the Town Council was held on Monday night.

There were present: Mayor McCauley, Councillors Bruce, North, Swift, and Werton.

A communication from the Board of the Public Utility Commissioners approving of the financial statement of the town as prepared by the secretary, showing the finances of the town on Oct. 31st.

From the Tax Commissioner, Canadian National Railways, asking for a refund of $81.00 business tax paid in 1923, claiming that the town could not legally assess a railway company for business tax. The matter was laid over for further consideration.

From the Secretary of the Union of Alberta Municipalities stating that the annual convention would be held in Calgary on Nov. 29th and 30th.

From the Provincial Board of Health together with a report on the town by a Provincial Sanitary Inspector. The report dealt particularly with the matter of scavenging and the disposal of rubbish and refuse.

A number of accounts were paid.

An application to transfer the license of James Mahaffey to A. L. Beach and A. R. Calvert was approved.

An application by Mrs. Ethel Holstine for a provincial restaurant licence was endorsed by council.

A selling price of $50.00 was set on 1 1-3 acres located in the S. W. 1/4 30-49-18 W 4th., adjoining Mr. C. J. Kellah property.

Moved by Councillor North, seconded by Councillor Bruce that the town make application to the Board of Public Utility Commissioners on the local rate not exceeding 25 mills levied upon all acreage within town limits where such acreage exceeds 20 acres in area. Carried

The rink committee reported the progress made re lighting rink and leasing same.

What A Vancouver Paper Says of Laura Scott

Laurie Scott is all set for Nanay at centre. This Scott person need but to have a few more rough spots knocked off him and he will be one of the best in the program today. This is the opinion of all coast critics of him. Lloyd Cook, the veteran defence star of the Vancouver Maroons says, "he is the best looking prospect I've seen for years. Under the tutorship of Lalonde I think this boy will set up a reputation in a few years that will eclipse that of the great Newsy himself."

Insurance -- Lands

Mrs. F. McIntosh is in Edmonton at the Royal Alexandra Hospital. She was operated on Thursday of last week and is doing nicely.

The monthly meeting of the Anglican Ladies Aid will be held on Wednesday, December 5 at 2.30.

Communication

Dear Sirs:

Your correspondent in your last issue had not the courage or decency to sign his name like a man at the bottom of his screed, but I notice every opportunity to harvest his crop. He brings to bear on the Pentateuch, but Mr. Editor I do not believe your correspondent knows that there is such a book as the Pentateuch or the Old Testament and consult something a little more to date. He will find in the New Testament that Jesus was not a strict observer of the Sabbath. Most of his good works were done on that day, contrary to the teachings of the rising rabbis of his day. He himself said in an argument with the Pharisees, "the Sabbath was made for man, not man for the Sabbath." Good guides and books, as well as a good soul and we were all saved."

But so long as we get such one day to be holy, the world will be full of hypocrites the remaining six. All days are alike and the day alone in which the most good has been accomplished should be considered the holiest. I think your correspondent came to the conclusion opening for throughout re-

Bardo News Budget

At 11 o'clock on Nov 25th, at the Mennonite Church, a large crowd witnessed the marriage of Miss Pearl Roth to Mr. Joe Lemmar. The bride was attended by Miss Ibsen Smith and Miss Anna Barkhuller. All wore cocoanbagon blue silk messaline. The groom was accompanied by his brother Alvin and Earl Roth, twin brother of the bride. Bishop Roth, father of the bride was the officiating clergyman. After the ceremony guests to the number of 150 repaired to the Roth home where a bountiful dinner was served.

Frank Lewis is the new mail carrier on R R 1

Mr. and Mrs. Will Stouffer left this week for Oakland, Cal. where they will stay for several months in hopes of Mrs. Stouffer being benefited by the change. Mrs. Bendir and children have moved on their farm and will occupy it during their absence

Emil Bode has moved to the Ingmar Olson farm and will care for it during the absence of the family. They expect to spend the winter in California.

Mr. and Mrs. P. Haugen left for the coast the last of the week.

Mr. and Mrs. Jacob Brenneman were able to bring their youngest daughter Nettie home on Saturday, from the Hospital at Camrose, where she had been several days receiving treatment for appendicitis. On Sunday they took little Paul to Dr. Nordlee at Camrose. A serious case of sudden bowel trouble developed into an abscess of the bowel. Grave fears are entertained of his recovering.

Quite a number went to Bardo to attend the Harold Lane sale near Round Hill on Monday.

The young folks have organized skating, a few evenings the past week on one of Charley Wallen's farms.

Elections to be cast upon those, He thinks that no farmer would help our industry unless those wanted a card. I know of one instance and there were double those outside who, a threshing remain threshed for nothing because the man had been sick No, let us hold a no merchant able view of mankind, let us hold broader and higher ideas, and make every day a day in which some good deed done by us can be recorded.

Japan Becoming Industrialized

Wants to Exchange Manufactured Goods for Children

Inability to produce sufficient food for its rapidly increasing numbers to feed a population of 56,000,000 is the reason why Japan is eager to change from an agricultural to an industrial country, Masaharu Hoshikawa, Ambassador to the United States from Japan, said a large group of Philadelphia business men and bankers during an address at the Bellevue-Stratford Hotel. The Ambassador Hoshikawa was the guest of honor at the luncheon, at which he was introduced and spoke on the commercial relations of his country with the United States. "This change, of course involves the export of such material for her industries, and the importation of others for the sale of her products," Ambassador Hoshikawa pointed out, "and it is the importance of America to Japan to become apparent.

"The problem simple from today in Japan's export is how with and in which to pay for the 30 per cent of the total export of that product amounting to over $150,000,000," the ambassador continued. "At the same time it is interesting to note that the Japanese people are now buying more than half as much of our goods as they did before the war. Japan is the fourth largest customer of the United States, and the United States is the largest distributor of Japan. A healthy trend for both countries.

Grows 2,000 Kinds of Apples

Experimental Station at Ottawa Makes New Records

More than 2,000 new varieties of apples have been produced at Central Experimental Farm, Ottawa, according to W. T. Macoun, Dominion horticulturist.

Among the new apples named are the Melba and the Lobo, the latter the first time in Canada to be named after a city.

It takes 60 years to produce a apples, Macoun says. Most of the time is occupied in watching the trees and in the intervening years.

Aromic in Vegetables

Also Found in Nuts and Several Kinds Of Fruit

It has long been known that traces of arsenic are to be found not only in tobacco and animal organisms, but in certain plants such as the cabbage, and turnip, and potato and in wheat. Jodin and Astros, members of the French Academy of Sciences, found that arsenic is to be encountered in rice, peas, beans, lettuce, celery, asparagus, parsnips, and in most vegetables used as food by man, as well as in apples, pears, pineapple oranges and nuts. Minute photic undoubtedly the elements from the soil, arsenic must never by mere trickery in manure and was at one time suspected.

Florence Nightingale was born in Derbyshire, England, in the year 1820

Sahara Railway May Be Built

Plan is to be Submitted to French Parliament

A railroad across the Sahara from the Mediterranean coast into Central Africa, which has often been projected under consideration by France, Italy and Great Britain, is apparently to be built at last. The Paris bureau of the New York Herald says that an agreement for the construction of such a railway has been reached between the French Ministry and the Paris, Lyons and Mediterranean Railway. When the most important march and south route, and that a bill approving the concession will be submitted to the French Parliament. The French have long believed a Saharan railroad the only practical way of developing the resources of their rich East Africa possessions and of bringing their splendid ivory in less than a month.

Courteous Expectations

"How do you like your new laundry?"

"Very well, indeed. I send a dozen collars last week, and every one of the buttonholes came back [illegible]."

"Why, I thought a wash [illegible] was recently filled when she received an ordinary electric light bulb

BEFORE MY BABY CAME

I Was Greatly Benefitted by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont. — "I took your medicine before my baby came and found it was a great help to me as I was very much run down and nervous. I had a good [illegible] and my baby weighed nine pounds. I took Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman who is going to have a baby to take your medicine. I will also tell them how much it helped me."—Mrs. Harvey Bell, R.R. No. 4, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are pulled down, worn and pale, into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be "given in safety by the nursing mother."

Interesting Stories For Young Folks

Published By Pemmican Thomas Allen, Publisher

"I CAN'T"

No girl or boy ever says this about anything they have to do!

No matter how hard it is, if they like it, they try at least to do it. In fact, the harder it is, the more they try.

When ever you have many lessons to learn when learning an object?

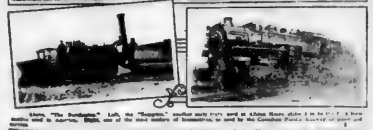
I saw a roller once who was trying to climb over a pole. His theme [illegible] and bowed. "You can't," said the pole. "You can't," said the [illegible] stopped." No! He kept right at it until he did.

Lillian, the wizard of electricity, stopped to get a pencil point [illegible] enough to be the right kind of an end for a phonograph needle. When it was suggested he could use one [illegible] he just looked at the one he had and went right on and found it.

Every girl and boy should be like the man who refused to let that word appear in his dictionary.

When I was a little boy, I was known as a coward. Where other would not sing anything but patriotic songs, I sang "Home, Sweet Home." Where others would not [illegible] I would [illegible] and [illegible] [illegible] [illegible]

An Interesting Bit of Railway History.



Above, "The Bucephalus," another early train used at Alden Haute, plies it to-day as a boom-boat, owned by Augustus Bright, one of the pioneers of Innisfail, and used by the Canadian Pacific Railway in river and harbor service.

THERE has been considerable speculation as to what the first railway train to be run in Canada really looked like. People have exercised their imagination considerably in drawing what they thought it looked like but the most authentic and reliable picture that has been preserved is the one reproduced above. The original is the property of Mrs. A. J. Wright, of St. Johns, Que., who has kindly permitted it to be photographed and reproduced. It was drawn from careful sketches of the original engine and cars, and can be depended upon as giving an exact outline of Canada's first train.

Interest centers in the engine which was named the "The Dorchester." It is described as follows in Watkins's "Railways of Great Britain and Ireland" — Cylinders, 9 in. in diameter, 14 in. stroke. Driving wheels, two pair coupled, 60 in. diameter. Length of boiler, 12 feet, and 97 ins. in diameter. Length of fire-box 10½ ins., width 42 ins., depth 38 ins. Total weight of machine in working order 12,344 lbs. The cost of the engine was £1,600.

The Dorchester was built in Stephenson's Works, Newcastle-on-Tyne, and came to her destination via New York City, the Hudson River Lake Champlain and the Richelieu River, being transported on a flat boat to Laprairie, on the east bank of the St. Lawrence, and hauled her days in the service of the Laprairie and St. Johns Railway, running between Laprairie and Isaacs Cove, and when the railroad was absorbed by another line the Dorchester was rechristened, broken up for scrap.

With this engine the first railway in Canada, the Champlain and St. Lawrence Railway running between St. Johns and Laprairie, Que., a distance of 14½ miles, began operations on July 21st 1836, when it was formally opened by His Excellency the Earl of Gosford. Owing to an accident to the engine a few days prior to the opening, it was thought safest to use only two cars in it for the opening run that is, to those more distinguished guests who were invited to participate in the ceremony. The train was composed of the Dorchester, the "Hercules," another early train used at Alden Haute, plies it to-day as a boom-boat, owned by Augustus Bright, one of the pioneers of Innisfail, and used by the Canadian Pacific Railway in river and harbor service.

Exceptional Kills in Quebec and Ontario

A good bag from Northern Ontario hunting grounds.

Reports from the Trout Lake Country, Trois Pistoles, Matane, Mistassini, Northern Quebec, Hazlewood, Nipissing, Algoma, Pigeon Lake, Parry Sound, Muskoka, Haliburton, Temagami and Kipawa districts, during the past month, indicate that sportsmen have been logging for the return of the season. And to-day the season in Quebec, Ontario, New Brunswick, Nova Scotia, Anticosti, Nova Scotia and British Columbia is in full swing. Once more the modest woods are to echo with the crack of the hunter's rifle, and the red blood of Canada and the United States is pitting itself against the monarchs of our native wilds.

In Quebec, good chances for deer are reported from Lake Megantic, the Laurentians, the Gatineau Valley, along the Williams branch line of the Canadian Pacific, Timiskaming, Rupert's district and other points, while, in Ontario, Parry Sound, Byng Inlet, Pakesley, French River, at Sic Jerlie, to Big Devil's Lake, hand off your rifle!

LITTLE ADVTS—BIG RESULTS

CO-OPERATIVE MARKETING

THROUGH a co-operative arrangement with the E. H. Heath Co. Limited, publishers of the Canadian Power Farmer, we are enabled to offer that farm magazine and this weekly for one whole year for the price of this weekly alone. This applies to either new or renewal subscribers.

The editorial programme of the Canadian Power Farmer for 1926 includes:

1. A series of articles on the power and its proper use.
2. Belt jointing and weatherseals, or how to securely do same and prevent it.
3. What is the most economical method of developing and its actual harness.
4. Is the tractor a permanent part of a farmer's outfit—owned and operated by the individual farmer?
5. Co-operative purchasing—can it be successfully applied to a district using tractors?
6. Suggested ideas for the improvement of farming conditions in Western Canada.
7. How best to co-operate in the harvest problem in keeping the weather and the harvest hands—can both be satisfied?

In addition to the above, each issue will contain live, responsible, general articles, short stories, household and boys' and girls' departments, etc.

As this is a special offer, we would advise that you take advantage of it as soon as possible.

Send all subscriptions to this paper.

Legal and Municipal advertising, 12c per count line for first insertion and 10c each subsequent insertion.

Subscription Rates, $1.50 per year in Canada; $2.00 per year to the United States.

CASH VS. CREDIT

FOR MANY years, in fact ever since farm auction sales were commenced in this province, there has generally been provision made for credit. The average farmer knows the sale advertisement terms just about as well as he does the days of the week or the months of the year. He knows that no matter what date the sale is held or even whether in the fall or spring, if his credit is good, he will have until Nov. 1st to pay for his purchases. Credit until Nov. 1st on good joint line bank-able notes have been the rule heretofore. There has, however, developed a feeling among farmers, especially those considering holding a sale that the cash sale is a better proposition all round. While the credit sale still predominates, there are an increasing number of sales that are advertised "terms cash." In this immediate district, so far this season, there has been over will be two sales calling for cash one of them making an exception in regard to horses. No doubt edly the cash sale is "better business" if there is enough cash available to create reasonable prices for articles sold. Where there is no credit it is a clean cut proposition. An individual bids, and buys an article, pays for it and takes it home and the transaction ends. The buyer has the article and the seller the money. Buying on credit means that there is eight per cent interest to be paid and rounding the five per cent discount list, means that at last the buyer is paying thirteen per cent for the accommodation given. From the seller's view point a credit sale means at least one or more months difficult to realize on when due and at the best almost a year's time in getting "things straightened up."

Not that the cash sale has all the advantages, but by any means. Many a man, now not to do, will be grateful to a country and a system that enables him to obtain credit on articles needed by him in order that he could "carry on" until time and a beneficient nature made it possible for him to pay for his purchases. There will always be some credit sales but the present tendency towards cash sales, whether it will become general remains to be seen.

NEWS AND ADVERTISING

THE FUNCTIONS of the modern newspaper are manifold and embrace the spreading of information of every conceivable nature. There is, however, one distinct modes of spreading information, one by the means commonly known as news and one by the means commonly known as advertising. It is the duty of the newspaper to collect and assemble all the news available and present it to the readers, the duties of which being borne by the newspaper. It is for this service that the subscriber pays the price of the subscription. The assembling, printing and selling news alone is, under present conditions, unprofitable. The cost of white paper alone, is very often as much as the subscription price asked. Then there are of course such charges as wages, rent or taxes, lighting, power and numerous incidentals that go to make up a formidable expense sheet. Selling news by itself is under present conditions very unprofitable, so much so that the inclined money-making newspaper has almost passed out of the realms of consideration.

News is not published with the intention of benefitting any individuals or body of individuals, and in this respect lies the chief difference from advertising, because the sole purpose of advertising is to benefit the advertiser in some way, financially or otherwise. Now, it can be easily understood that if the subscription end of a newspaper is not a profitable department, the advertising end MUST be. In other words the space in his newspaper which a newspaper man can devote to advertising is his only stock in trade, and corresponds to the suits on a clothier's rack or the sugar in a grocer's bin. To give either newspaper space, clothes or sugar away promiscuously would spell ruin to the giver, because no one person will buy what they can get for nothing.

Newspaper men, super ally those in small towns are frequently asked to insert "readers" regarding a coming event for which a charge for admission is being made. The request generally comes from worthy organizations, in which a lot of voluntary work is being done. Quite frequently there is a feeling that owing to the nature of the event the notice should go in free. Now, taking country newspaper editors throughout the west, there is no class of individuals more loyal to their own community, than they. A part from a newspaper man's personality, his very business tends to bring about an intense loyalty to his town and district. Therefore it is always a matter of regret on his part when local organizations and himself cannot see eye to eye on this question.

Perhaps the easiest way to consider it is in this light. That inasmuch as advertising is all a newspaper man sells at a price, and inasmuch as advertising rates, at out a direct financial benefit to the advertiser (if it does not there is no borderline case) it is published or run for reason why it should be the newspaper is entitled to some remuneration for services rendered.

Lindbrook

The continued fine weather is the joy of all here and people are taking advantage of same, some by work and some by sport. The ice is ideal for skating, and several people who have not yet learnt to make an effort learning Lindbrook skating rink one of its natural resources is a pretty busy place these bright moonlight nights and is seldom unoccupied, and much pleasure is derived by young and old upon its wizard surface also a few bumps, at intervals as soon as not.

We are all very sorry to hear of Mr Drake's accident, and hope soon to see him out of hospital and back in his rounds. In the meanwhile his duties are being undertaken by Mr Leslie Rogers.

Mrs. W. Glenn is spending a short holiday in Edmonton probably to escape the deluge of questions relating to the poggies bedtime story. A good digestant always has we where to disappear, as in it a politician would be unable to shine. Mrs Glenn returns, if we dare well all!

Mr. Norman Ellis of Hastings Lake had them of return to his theatre much regretted from the effects of poisoned meat. It is thought the extremely warm warm weather of the past few weeks had short a more growth in the poisonous weed which he ate and found with the above results. It is extremely evident waste to say it was a week or two ago Mr. Ellis had all his beef and shipped the cattle, retaining the best.

The sale at Mr. Marsh's on Friday November 23rd was extremely well attended and it is said that the auctioneer Mr Carter touched all by his persuasive eloquence especially with regard to some "subject of art."

A dance is to be given at the home of Mr and Mrs Geo Westlake on Friday Dec 28th, in honor of their daughter Miss Dolly Westlake whose birthday appears to fall on that date. Everybody is welcome and some will be prepared for a real good time.

Mr Lester Hayes returned on Monday week from visiting his many friends in the Alliance district.

Mr. Prosper Lapin has returned from the U.S. a wiser and sadder but as jolly as ever man.

Mr and Mrs. A. J. Brown and son Leigh motored down from Edmonton to spend the week end with their friends the Hoopers family.

Teams were busy hauling coal from the car ordered by Mr. Leslie, at the station here this week. This is we believe the last car of coal ordered here for some considerable time, and lets hope it isn't the last!

Mr. Reggie Glenn is on a visit for here this week from the front. No, he is not in Glenrose, meet he belongs there, but from played on the Walker farm.

Mr. Glenn Lapins returned home this week from Wetaskiwin where she has been spending a few weeks.

Ketchamont

Messrs Albert Sutton and Jimmie Welsh left Monday evening for Portland, Oregon, where they expect to spend the winter.

Mrs Henderson entertained the M.A.S. at her home on Tuesday afternoon.

Mr and Mrs Watt were guests at Mr Frank H Hume on Friday night.

Mrs G Dunn, daughter and sister visited Mrs Dunn Hardware here from Kingman on Wednesday afternoon.

Edith and Hugh Neal have been staying with the grand mother, Mrs. Hickson the past week.

Mr. and Mrs A Vaughtin were passengers to Tofield on Saturday. Mrs. Vaughtin has been very poorly all fall, we hope that now that the stormy weather she will soon be strong again.

We all regret to hear of the serious accident befalling Mr Drake and I spe he will be able to deliver our mail once again.

Mr. Jack Henderson and Miss Pearl Sutton pleasantly surprised their relatives and friends by going to Edmonton on Wednesday and being married at that place the same day by Mr Dobbs Methodist minister. Their many friends wish them a long happy married life.

The first real nasty jibitter [illegible] the season took place on Thursday evening when friends and neighbors gathered to congratulate the bride and groom at the Henry Sutton home. Dogs barking, guns shooting, bells ringing etc was heard two miles away. After the noise a very pleasant evening was spent. Candy and cigars were passed around and Mrs. Sutton furnished lunch for the crowd.

Mr. and Mrs Paul McMullin and family moved the first of the week to Mr McMullen's father's home where they will reside for the winter.

The dinner and sale of goods under the auspices of the M.A.S. was held on Friday evening at the A. V. Ball and was in every way a success. The tables were prettily decorated with plants and lunch paper and was loaded with such good things to eat. After satisfying these appetites the young folks were skating while the older ones went on with the usual order of things. D.E. Ball kindly auctioned off the pieces of work from the corner and sale amounted to $60.00

Mr. Ferguson [illegible] Mr. Shaughnessy [illegible] Rev. Keating of Tofield.

The Rev. A. Wallis will conduct church services at the Lake Shore school on Monday evening 3rd inst.

It is reported that a certain gentleman living in the Lake Shore district has bought a motor cycle for his eating. Of course he is one!

THE TOFIELD MERCURY

VOL. VI NO. 3 TOFIELD, ALBERTA, THURSDAY, DECEMBER 6, 1923. SUBSCRIPTION IN CANADA $1.50 U.S. $2.00

Lindbrook

The dance given by Mr. John Brown in the school house here on Friday last was a decided success and the reason was opened in great style, "a goodly crowd was there" (N. B. We have recently had the pleasure of listening to a recitation of that well known poem "The Face on the Bar room floor") hence the above allusion to the crowd, alike no liquor was there. Well to go on with the music was supplied by the Smith and Foss orchestra, and the catering was attended to by Messrs J. Leahy and Co. Ltd. Lindbrook. The dance finished at 3 p. m. in accordance with the regulations governing same the most of the crowd enjoyed it so much that they would have liked a few more hours.

Messrs Joe and John Fruden, and J. Lindberg came down for the dance, and Mr. J. Lindberg is staying with his father on a visit.

Mrs. W. Glenn has returned home from Edmonton, and we're still alive, but - we haven't seen her yet.

Mr. Lindgren and Mrs Scanberg were visitors to Edmonton last week.

Mrs. Swain's new house is completed and the furnishings are being moved in. Say, did we hear that Mrs. Swain intends giving a dance there as a housewarmer? Anyway if not, we may spring a surprise party on her, if the weather keeps warm.

Don't forget the dance at Wanlake's on Friday evening, Dec. 7th.

The many friends of Miss Clara Pinkim will be very sorry to hear that she is very ill and we hope Miss Pinkim is wishing her a speedy recovery.

Mr. Earl Wilson is shipping a car load of grain from the siding here.

A skating party was held at the "Lindbrook Rink" on the Hooper-Holland farm on Monday evening, Dec. 3rd. The "rink" was lighted by lanterns and a bonfire, and the ice was as smooth as could be desired. Quite a big crowd gathered to enjoy the fun and not many bumps were heard, but lots of laughter. Messieurs Chester Glenn and Hooper were in charge of the supper of coffee, sandwiches and cakes which was served on the ice; the coffee having brought in a cream can from the house only a 100 yards distant. Everyone enjoyed themselves both young and old and all look for lots of these parties to follow. The "Gunderland" was furnished by J. Leahy & Co. Ltd. Lindbrook.

Mrs. H. Ingram and Miss Leila Ingram were the unlucky victims of a buggy smash this week. It seems that the horses they were driving shied at a load of furniture being hauled by Peter McMullen. The buggy was smashed but luckily neither occupants were badly hurt.

Origin of the Christian Rosary

The origin of the Christian Rosary, is shrouded in ancient legendary, but it is known that in the fourth century, Peter the Hermit used pebbles to help concentrate his thoughts, stringing them aside one by one until his prayers were said.

From this crude pebble rosary came that which is used today, the string of beads ending with the cross—the symbol of merit first.

Because she had been identified with roles of similar character, Jane Novak has been chosen to create the girl of spiritual nobility in "The Rosary," the screen adaptation of the famous play and song, produced by Selig and Rork, and to be shown at the Variety Theatre on Saturday, Dec. 8th

AT THE

VARIETY

If Only We Could Tell You—

—of the glorious love of one woman, the bitter love of another, the sacrificing love of a mother;

—of the rush of action, of drama, the choice of emotions, the thrill of real thrills;

—of the real people who reflect real humanity;

—of the appeal that reaches out to place warm fingers on your heart!

But We Can! The Screen Alone Has That Power

'The Rosary'

Saturday, December 8th.
Starring
Jane Novak

'While Satan Sleeps'

A picture full of dram atic incidents, showing the mastery of right over wrong and the victory of good over bad.

Appeals to the mind and heart alike. A picture that sends you home thinking.

Starring
Jack Holt

Wednesday, December 12

Local News Gleanings

D. E. Ball To Sell in City

D. E. Ball of Tofield has been instructed to sell at the Edmonton Stock Yards on Friday, Dec 14th, a herd of pure bred Aberdeen Angus Cattle, owned by John Barber and Sons of Viking. This herd of high class cattle is comprised of 45 head, varying ages. This is a sale out of the ordinary. The cattle will be taken in from the farm at Viking to Edmonton to sell. And the engagement of D E Ball to try the sale is a fostner in his auctioneer cap.

Chicago, Ills., Dec. 5th.(Canadian Press).—The grand championship for oats at the International hay and grain show was awarded late this afternoon to J. W. Biglands, of Lacombe, Alta. Competition from southern regions was the strongest it has ever been. J. W. Lucas, of Cayley, Alta., was second for oats.

This is the second time in two years that Biglands has won the grand sweepstakes in oats for the dominion.

We Are Now in a Position to Supply You With Gas Ranges and Heaters. Heaters from $12.00 Up.

FOR SALE

Several second hand coal and wood ranges One high oven range with nickle and white enamel trimmings with two large warming closets. Price reasonable. Call in and see them

M. C. HAMMOND

Winter Milking

In one way in which man's ingenuity can beat the forces of nature. While the ground lies barren and frozen awaiting the spring sunshine, old man sir, if properly fed, will give a steady supply of milk which in turn means added wealth to the family exchequer. Winter milking means little but time—every month productive of a pay cheque and as any body happy.

Bring your cream to us and get immediate attention, highest prevailing price, correct grading, test, weight and cheque same day as cream brought in

Upset Theory Of Scientists

Can Use Peroxide to Drop From Fast Airplane

Theory and conjecture on how to stop tumbling when a young woman - Miss Elsie Mackay - falls from an airplane flying 1,000 feet or more above the heads of the onlookers on the ground where fortune-tellers work on friends were awaiting to accompany her to a hospital.

In another to be seen, how quickly and why Miss Mackay fell from the plane, parachutists scientists have responded - but a parachute employed by a person tumbling from a fast airplane would open with such a tremendous shock as to probably leave the bones of the unfortunate in pieces. The force of this shock was compared at between ten and fifty times that of an automobile colliding head-on with a wall.

Theories of how to stop tumbling in mid-air, and counteract the natural tendency to fall head first, were many. Some suggested that a parachute be attached to the feet, others that it be attached to the hands, while others suggested that it be attached to the body. Another suggestion was that a small parachute be attached to the head, and that a large one be attached to the feet.

Still another suggestion was that a small parachute be attached to the head, and that a large one be attached to the feet, and that a small parachute be attached to the body.

Another suggestion was that a small parachute be attached to the head, and that a large one be attached to the feet, and that a small parachute be attached to the body, and that a small parachute be attached to the head.

Another suggestion was that a small parachute be attached to the head, and that a large one be attached to the feet, and that a small parachute be attached to the body, and that a small parachute be attached to the head, and that a small parachute be attached to the body.

Another suggestion was that a small parachute be attached to the head, and that a large one be attached to the feet, and that a small parachute be attached to the body, and that a small parachute be attached to the head, and that a small parachute be attached to the body, and that a small parachute be attached to the head

"WHAT IS THERE IN IT?"

A FARMER came to our office the other day and after transacting the business for which he came, there commenced a discussion of regarding the problems of the western farmer. This is a custom and a rather pleasing one to us, that some of our subscribers have. The conversation included the good crop and centred on the opportunities for the financial success of western farmers to-day. This farmer was optimistic. He plainly stated that as far as he was concerned he was satisfied with the present outlook and said so. He said that if he was a young man he would be willing to start with nothing and in ten or twenty years would have a fair competence. Quite often, however, we hear the other side and a common combination of statement and question is "What is there in it?"

To the farmer the lot of the professional and business man seems easy. He is apt to contrast his laborious labors with the seemingly more easy tasks of the townsman. He remembers that on the farm there is stock to feed in the early hours of the morning and at the end of a hard days toil in the field or elsewhere, calves to be fed after evening shadows have fallen. One day is much the same as the other with little to mark their passing. He has a deep rooted opinion that of the many varied tasks in life, his is the hardest and the least appreciated.

Perhaps if he could occupy the professional man's office or the merchant's desk and be compelled to shoulder the worries and cares of business life, some of the roots at least of his opinion would be severed. If he could realize that professional men often sit in empty offices waiting for much needed clients and that the easy money of the merchant is made in fierce competition with other merchants. That the public is exacting, fickle and wont to judge by appearances, that many a well meaning effort is lost upon a skeptical people, and that the vigorous health and hearty appetite of the farmer is almost unknown where men work in closed premises, he might at least modify his opinion.

Actually, any task becomes monotonous by repetition unless one can become inspired with the spirit of the old time craftsmen. This to a large extent, machines human and mechanical have swept away. But attempting to answer the question "What is there in it." The farmers calling is an honourable one. By that we mean that it is not built up at the expense of any other. It is a necessary industry and despite the artificial exaltation given to some other professions, no up-to date intelligent farmer need feel anything but pride in regard to good agriculture. There is a fund of interest regarding experimental work that no other industry possesses and with the Creator's green earth beneath, blue sky above and wild life abundant all around, there should be few dull moments for the observant farmer. In a business way the farmer is an independent agent. Rarely does there fail to be a market for his products. Not always at satisfactory prices, certainly, but his product can always be sold. In this respect he differs from the merchant who is often confronted with goods on his shelves that nothing short of plain giving away would move. But what appeals to us most is the opportunity given to the farmer to accomplish something really worth while. This is almost an inherent trait in man, and in these western lands at least can be realized to the full. In the rich virgin prairie of his farm the homesteader can plow the first furrow and as the years go by and he plows field after field and adds building by building, in the declining years of his life he can see concrete evidence of his life's labors. Should he be blessed with a worthy helpmeet and a family grown beyond the cares of parenthood, what more can mortal man wish for?

Seven Sentence Sermons

BY A. WILLANS

Humility reaps advantage; pride invites loss.

Plants, animals and humans all seem to need a set-back now and then for vigorous life.

Socialism will be possible only when all men are perfect and then it will not be needed.

Are you giving God a square deal?

Words are nothing to your children unless backed up by your example.

The past is a bank where an unlimited number of ideas have been deposited to our credit.

It is a magnificent faith that puts a nickle on the collection plate every week and expects a crown of glory in heaven.

Our Two In One System
In simple terms, we say that you, as producer, receive a regular TWO inches of good flour by GRISTING your own wheat to one you buy otherwise you will have a year's supply of Flour (bake of it) at once.
This is one of the greatest Co-Operative systems known today, that is direct to the producer.
Our rolls are sharp, which means the largest yields of the best flour, that you want will make.
The Mill's production capacity is equal to over one carload per day which means fast work and no long waits and where only good flour is made and where everyone gets a square deal.
Better drive a few miles further and have your good wheat made into real flour—not a bun. Our mother in law's bake our flour.
Grinding 25c per bus. Flour and feed sacks on hand, part cash, part trade. Phone us at our expense.

Had A Weak Heart Was Very Nervous For Three Years

Miss Jessie Peterson Zealandia North, Sask., writes: "I wish to let you know how much good Milburn's Heart and Nerve Pills have done for me.

For nearly three years I was troubled with dizzy spells, smothering feelings and was so nervous that sometimes I could hardly sit still.

I heard of many people who had been benefited by Milburn's Heart and Nerve Pills, so I decided to give them a trial after I had used two boxes I found they had done me good, and after having taken five boxes more I was completely relieved.

I cannot recommend them too highly, and I would advise anyone who is troubled with a weak heart or nervousness to use them."

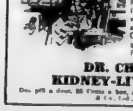
"I Had Bilious Attacks and Stomach Weakness"



Mrs. Wm. Robinson, Yorkton, Sask., writes: I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman.

Canadian Bacon For Britain

Exports of bacon from Canada to Great Britain increased almost 2,000,000 pounds during the first nine months of the current calendar year. For this period during 1922 there were 78,995,000 pounds of Canadian bacon exported to Great Britain, while this year the corresponding figure rose to 77,251,000 pounds.

CUTICURA HEALS RASH ON BACK

Spread To Neck and Arms. Itched and Burned. Lasted 3 Months.

"My trouble began with a rash breaking out on my back. My clothes aggravated it, and it kept spreading to my neck and arms. It started like pimples and then I spent many a sleepless night because the itching and burning drove me mad. I tried different remedies without success, and then I sent for Cuticura Soap and Ointment and sent for a free sample which helped me. I bought more and in three weeks was healed." (Signed) H. M. Kreiser, 346 Hazel Ave., Buffalo, N. Y., Jan. 24, 1923.

Cuticura Soap to cleanse and purify, Cuticura Ointment to soothe and heal and Cuticura Talcum to powder and perfume are ideal for daily toilet purposes.

Cuticura Soap shaves without mug.

SAY GERMANY IS RECRUITING AND RE-ARMING

London. — Disturbing information concerning the extent to which they secretly are recruiting and re-arming has been received by the British Government, says a Reuter news item.

Although the time be taken official is that this information reveals potential military risks beyond danger, the British authorities are frankly concerned as to the situation and its bearing on the peace of Europe.

The newspapers are devoting considerable attention to the news from the foreign office. In a statement, however, says the interrogation affair not thought not be attributed to any official authority.

"It is known that rapid military training of large numbers of men in excess of the agreeable treaty establishment has been proceeding," says the statement article. "This, it is declared, is known to have been the case since the allied military control ceased nearly a year ago. Recruiting has been especially active in Bavaria circles, where the Security police have been created to work hand in hand with the army. The kind of rifle drills also is, in constant progress behind the scenes, and officers of the regular army are in positions to command the people's militia. A boast has been made that the strength of the German army will be given moments of inception with the number of the regular established has been almost trebled."

THE TOFIELD MERCURY

VOL. VI NO. 6 — TOFIELD, ALBERTA, THURSDAY, DECEMBER 15, 1923 — SUBSCRIPTION IN CANADA $1.50 U.S. $2.00

Rural Council Meeting

Regular meeting of Cornhill Municipality held at the Council building, on Wednesday, December 5th. There were present: Reeve Thompson, Councillors Abernathy, H. R. Williams, Holmberg, A. J. Williams and Lee.

Mr. Francis was present and was heard regarding the collection of the arrears of taxes on some lands north of Cooking Lake transferred in 1916 to Strathcona municipality, the taxes of Ucona and Douglas school districts shown by the auditors report of the year 1922. The council instructed the secretary to make every effort to collect taxes in question and it is unnecessary to place accounts in hands of solicitor for collection.

Mr. Monrett wrote council re the line of survey winding through his property instead of following a straight line. The matter was laid over for investigation.

Mrs. H. B. Noble wrote council claiming exemption on taxes up to the first day of September 1922. The council considered that the taxes and arrears before the title was issued should be collected on the land.

From an Edmonton solicitor for the Alexandra Hospital re the account of Robert Mitchell, claiming the widow is not legally liable. The council were of the opinion that the account should be paid out of the estate.

The Department of Municipal affairs wrote council recommending that council defer taking title to property under tax sale held in the fall of 1922. Council decided to further postpone the date of redemption to April 1st, 1924.

Department of Public Health wrote Council stating that accounts for supplies furnished to Mrs. Burgler from orders from the constable and one of the councillors had not been paid. Council stated that accounts authorized by them had been paid, but that they did not consider themselves responsible for any accounts not authorized by them.

Petition was presented from F. Carlstrom and sixteen others to open a public road in the blind line between sections six and seven tp. 49, rg. 20. Moved by Councillor Abernathy that Councillor Holmberg be authorized to look over the proposed road and report. Carried.

The wild land tax on n w 3-49-19 w 4 was protested by Peter Jensen as some of the land had been cropped. The council refused the tax.

Edward Peterson was appointed pound keeper for the Hay Lake district.

B. F. Wildman was appointed returning officer for the municipal election.

The following deputy returning officers were appointed. Division 1, C. L. Simonsen, Kingman, Wm. Sears, Ketchamont. Div. 3 John Morrow, Deville, Robt. Seabey, Minitrik Lake school; Geo. Perkins, Hastings Lake; Div. 6, Elgin Beals, Johnson Ferguson.

A by law prohibiting animals running at large was read a first and second time. The third reading was left over until after the vote of the ratepayers was taken at the forthcoming municipal elections.

The next meeting will be held on Wednesday, Jan. 9th.

NEW YEAR'S DANCE

There will be a Dance in the Variety Theatre on New Years Night, Leap Year Dance. "A good Orchestra will be in attendance." Ladies bring lunch or the Gentlemen 1.00. Ladies select partners until supper.

CARD OF THANKS

We wish to extend our sincere thanks to all our friends for their kind expressions of sympathy upon the death of our sister, Clara.

McKelley Brothers & Sister

Local News Gleanings

We notice Charlie Morden is the proud possessor of a Ford car. Just watch Charlie travel from now on

Miss Mabel and Mr. Fred Miller are visiting at the Carter home this week

There will be Evening Service at Holy Trinity Church on Dec. 16th at 7.30 p.m. also at Bethgate School at 8 p.m.

Mr. M. W. Urquhart left for Seattle, Wash., on Monday.

M. Mecklenburg, the long experienced optician, office Edmonton, Hodge Block, will be at Alexander Hotel, Tofield, on Monday, December 17th. Consult him about your eye sight troubles. Charges are moderate

W. C. Swift paid a business visit to the capital city on Friday last.

With a dazzling whiteness reminiscent of Broadway, the White Lunch opened its doors to the public last week. Under the management of J. Holstine and the culinary duties looked after by a professional chef of Edmonton, this new business venture is off to a splendid start. The interior of the building has been remodeled and redecorated and with shining white appointments has a real classy appearance. A special feature for this week and is the serving of buffalo.

Early Morning Fire

Early Monday morning, about three o'clock, a member of the Leighton household awoke to find the house full of smoke. Quickly giving the alarm to the other members of the family, they barely escaped serious injury or worse. The fire had started near the roof near the chimney and despite all efforts to save the property it was totally destroyed.

Immediately the family were safely outside the general alarm was given and volunteers took charge of the chemicals on the scene. The fire had up that time however, got so advanced that the chemicals were of little avail.

Most of the valuable articles of the house were saved but it was impossible to get a quantity of the larger furniture out in time

Miss McKelley Dies

We regret to announce the death at Blue Island, Alberta, of Miss Clara McKelley. Miss McKelley was for a number of years a resident of Tofield and was well known here. Some time ago she suffered a stroke of paralysis and was taken to the hospital at Tofield.

Death occurred at Blue Islands on Sunday, December 9th at the age of 50 years. Deceased had been a chronic sufferer from rheumatism for a long time, some thirty years, and all classes of remedies had been employed to no avail.

Left to mourn are two brothers and one sister, Mr. Robert McKelley of Tofield, Mr. Wm. McKelley of Tofield and Mrs. Mary Keating, all of Tofield. The funeral was held from the residence of Mr. Robert McKelley on Wednesday, Dec. 12th, at 2 p.m. Rev. Watts officiating, interment taking place at Tofield cemetery.

WATCH FOR BILLS

We have bills out on a number of good sales of complete farm equipments. If you contemplate having a sale see me at once.

Miss Dickson and school children are very busy preparing for the Christmas entertainment which will be given Friday evening December 21st.

Mr. and Mrs. F. Hull, ... and Mrs. O. Barnes visited in the Hooker home last Sunday.

Messrs. W. A. Mitchell and D. W. Sears are loading a car load of barley to Kingman.

Mr. and Mrs. C. A. Ingram and Mrs. Medine Sr. spent Friday at the home of Mr. and Mrs. P. G. Muller.

Mr. and Mrs. J. Appleby and Mr. A. F. Schultz went to Holden on Thursday to attend the funeral of Mr. Appleby's mother, who passed away Wednesday morning. Mrs. Appleby had been visiting at the Schultz home so she made many friends in our district, who sympathize with the family in their bereavement.

Mrs. Richter's sale on Tuesday was well attended and everything sold satisfactorily.

Mrs. Pane has returned from the city the first of the week.

Mrs. R. Hazelhurst and two children, George and Ada, of Slave Lake, B.C., came on Tuesday evening for an extended visit with Mrs. Hickner and other relatives. Mrs. Hazelhurst will be remembered by old friends as Miss Lily Hickner.

BARDO.

Mr. and Mrs. John Johnson left on Sunday for their home in Grande Prairie, after spending several weeks here.

The teaching people of the Lethbridge district are to Ryley on Monday evening to put in their Xmas vacation there. The executive of both churches will put on a Christmas Cantata at Ryley and Bardo sometime during the Christmas week.

BORN To Mr. and Mrs. Bonnelle at Ryley on Sunday, Dec. 9th, a daughter. Mrs. Johnson is caring for Mrs. Bonnelle.

On Friday evening the Bardo ladies met Mrs. Nels Hansen at a ... over Mr. Hansen's ... Mrs. Neil Bayley on the ... Mrs. Hansen ... She received a ... useful and dainty gifts. Lunch was served and a very enjoyable evening was spent.

Bardo and Grand Forks Schools are preparing Christmas Programmes.

Grand Forks will have their programme on Thursday evening, Dec. 20th at Sunset. An admission fee of 10c. will be charged to defray expenses.

112 Cars Wheat Shipped

Tofield is to be considered to be in the straight grain growing area by any means. This is a mixed farming district where the farmer does not either by inclination or opinion have to put all his eggs in one crop for his annual returns. Nevertheless, the wheat grown in this district is assuming larger proportions every year, and it will be of interest to readers to learn that to date there have been 112 cars of wheat shipped from this point. Adding to this from Bardo and Shantz the figure would be very close to the 200 mark.

The dance put on by the Ladies' Curling Club in the Variety Theatre on Friday night last was in every way a complete success. The hall was filled to capacity while the music was all that could be desired. The ladies gave the event "curling atmosphere" by decorating the hall with brooms, rocks and the curling colors. A special feature was the curlers' quadrille was exceptionally received.

At 80 Years Of Age Was Troubled With Shortness Of Breath Palpitation Of The Heart And Fainting Spells

Mr. H. Latimer Watts, one of the earlier residents of Bowmanville, Ont., has been troubled for many years with a weak heart and palpitation of the heart and fainting spells. He has suffered a great deal from Shortness of Breath and Nervousness and he thought his days were numbered. He says:

"I have been troubled for many years with a weak heart and palpitation of the heart and fainting spells. I was suffering a great deal from Shortness of Breath and Nervousness and I thought my days were numbered. I was afraid to go to bed at night for fear I would not get up in the morning. I was induced to try Milburn's Heart and Nerve Pills and I am glad I did so, for they have done me a world of good. I am now 80 years of age and I have never had a better appetite than I have since I commenced to use Milburn's Heart and Nerve Pills. I can recommend them to all who are troubled with Heart Trouble or Nervousness."

Price 50 cents per box, 3 boxes for $1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

Clear Your Skin Restore Your Hair With Cuticura

Canada's Great Future

Sir John Willison Says Canada Due For Period of Expansion

Faulty metropolitan of Canada a great future, fostered by a political system which had taught that this country was a possession upon the United States, had been in a great measure responsible for the exodus from Canada of so many men. Sir John Willison said members of the Young Men's Canadian Club in Toronto at a luncheon in his honor.

He did not foresee Canadians who had gone to the United States as ever materially establishing permanent residences there. He believed they had with them a touch of old Canada which would be to the best and the Canadian but man or man. "I and I have not had a single bad spell since

I began to use Dr. Chase's Nerve Food. It has done me a world of good. I always recommend it to my friends when I hear them suffering from heart trouble. Dr. Chase's Nerve Food is the best remedy for the heart and nerves I have ever used."

Dr. Chase's Nerve Food, 50 cents a box, at all dealers or Edmanson, Bates & Co., Toronto.

LITTLE ADVTS—BIG RESULTS

Our Two In One System

In simple terms, means that you, as producer, receive a round 1360 sacks of good flour by CHRISTINE your own wheat To use you buy, otherwise you will have a year's supply of Flour (lots of it) at cost.
This is one of the greatest Co Operative systems known today, that is direct to the producer.
Our rolls are sharp, which means the largest yields of the best flour, that your wheat will make.
The Mill's production capacity is equal to over one carload per day which means fast work and no long waits and where only good flour is made and where everyone gets a square deal.
Better drive a few miles further and have your good wheat made into real flour. (attn boy!) Our mother-in-laws bake our flour.
Grinding 35c per bag. Flour and feed sacks on hand, practically at cost. Phone us at our expense.
Once a customer – always a customer, who will always "hurry back."

Mother! Give Sick Child "California Fig Syrup"

Harmless Laxative for a Bilious, Constipated Baby or Child

Constipated, bilious, feverish, sick, cross Babies—Don't scold! Mother! Look at baby's tongue. If coated, it's a sure sign that the little bowels, stomach and liver need cleaning at once.

When your little one's tongue is coated, breath bad, eats not, sleeps poorly, is cranky, out of sorts, has colic, stomach-ache, indigestion, diarrhoea, sore throat, or fever, give a teaspoonful of "California Fig Syrup of Senna" and in a few hours all the constipated waste, sour bile and fermenting food gently moves on and out of the bowels, and you have a well, playful child again.

"California Fig Syrup of Senna" is the only laxative prescription for babies, children of all ages and grown-ups. Ask your druggist for genuine "California Fig Syrup of Senna," which has directions for babies, children of all ages and grown-ups plainly printed on the bottle. Mother! You must say "California" or you may get an imitation fig syrup. Refuse any other kind with contempt.

Constipation

Because they contain mercury and mineral salts, many pills are harsh. The easiest and safest laxative is Dr. Hamilton's Pills of Mandrake and Butternut. They clean stomach, intestines and bowels—drive out waste matter, tone the kidneys, and forever cure constipation.

Dr. Hamilton's Pills Instant Relief

Eczema Covered Arms of This Healthy Child

Mrs. Alex. Marshall, Sproudale, Ont., writes—

Baby Marshall

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

DR. CHASE'S OINTMENT

60 cents a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

For Invalids

A Severe Attack Of Heart Trouble

Was Relieved By MILBURN'S Heart and Nerve Pills

Mr. A. E. Barnes, Vibank, Sask., writes:—"Four years ago I had a very severe attack of heart trouble. I consulted my doctor, he treated me for some time, but I only seemed to be getting worse. I finally went to a new druggist and purchased three bottles of Milburn's Heart and Nerve Pills and decided to immediately send them for me, and I can truthfully say they are a wonderful medicine. I always keep a box on hand, and if I feel out of sorts I take a few pills and feel all right again."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Minden, Ont., writes:—

"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends. They are a wonderful medicine."

(Mr. J. W. Vance, Druggist, of Minden, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

First Tooth Are Important

Children Should Eat Considerable Hard Food Says British Doctor

The personality for proper attention to children's first teeth is not pe.-ti-ly understood. This is needful for several reasons. First, the nutrition of the child, as children cannot properly assimilate their food with defective teeth. Second, it is essential to keep bare the second set of teeth as long as possible in the jaws as opportunities of nurturing. Third, unless the first set are preserved the child's jaw is not properly developed, and the contracted space leads to a confused and irregular second set, likely to trouble the individual for life. That great British authority, Sir Jas. Mackenzie has done a notable work in pointing out the brave lig for giving children's teeth a chance by feeding them on hard food.

The CAUSE of SICKNESS

Almost Always Due to Weak and Impoverished Blood

Apart from accident or disease due to infection, almost all health troubles come from poor or thin removes. The little pimples, boils, eczema, rashes, headaches, backaches and other forms of skin disease are the result of poor blood. It is useless to attempt to cure these troubles with outward applications and local remedies. The only way to health is through the blood. If you are pale—suffering from headaches and backaches—you need a transfusion of the blood, your appetite is poor, your digestion bad, and you feel tired all the time—you need new blood. It you have these symptoms, or if you have pimples, boils and other skin troubles, the reason is, the blood is poor. The fact that these troubles are also a result of poor blood, on that account, are the same

In your health is gone; if you are pale or careworn or haggard, you should, after the first dose, feel a decided change for the better. If you don't, you have taken home Pink Pills a full trial and you should not waste time and money in taking them further. Dr. Williams' Pink Pills for Pale People are sold by all medicine dealers or may be had by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

French and Germans Fraternize

Engage in Football Match and Cheer Each Other Enthusiasm of Game

We are glad to meet in a spot non [illegible] publish a letter from the front, especially as it is from a correspondent who is a Canadian by birth and has been on the staff of one of the leading papers in this country. This correspondent visited the battlefield of Neuve Chapelle a few days after the British had taken it, and he has written a most interesting account of what he saw. He says:

"I was assigned to meet a party of French journalists who were coming to the front, and to act as their guide, philosopher and friend. I was to be responsible for their safety, for their comfort, for their passports, for their meals, for their transport, for their introductions to the right officers, for their permits to see this and that, for their permits to photograph this and that, for their permits to write this and that, for their permits to send their letters and telegrams, for their permits to return to Paris, for their permits to come back again, for their permits to go anywhere else they wished to go, and for their permits to do anything they wished to do. I was to be responsible for their behaviour, for their manners, for their language, for their politics, for their religion, for their morals, for their health, for their appetites, for their thirsts, for their lives, for their deaths, for their burials, for their resurrections, for their damnations, for their souls, for their everything. I was to be their universal provider, their universal purveyor, their universal father confessor, their universal scapegoat, their universal goat. I was to be their universal nuisance, their universal pest, their universal plague, their universal curse, their universal everything that is universally detestable. I was to be their universal slave, their universal drudge, their universal dog, their universal worm, their universal cipher, their universal zero, their universal nothing. And I was to be all these universal things to them for the space of one day, and I was to be all these things to them for nothing. And I was to be all these things to them for nothing, and I was to be all these things to them for nothing, and I was to be all these things to them for nothing, and

CLAUSE "D"

THOSE RESPONSIBLE for the wording of clause D must have had many a silent chuckle since it was first set into type, printed and presented to the public. The expression "government control" and the expression "time to be considered in licensed premises in calling forth somewhat different opinions as to cause the originator of the clause to stagger with surprise at what he or she ever looked. Whatever one's opinion regarding the matter may be, clause D was given a 30,000 majority as it was written and printed. That means that the government will have to distribute liquor through government vendors and license at least one place in which beer may be consumed—or break faith with the public. In actual practice of course, more than one place will have to be licensed and it is hard to see the logic of licensing a place for the consumption of beer unless the sale of beer is also included.

The Vegreville Observer is sorry, and rightfully so, of being one of the few papers in Alberta to endorse Clause D. Nevertheless it would appear that "government control" without "licensed premises for the consumption of beer" is what the Observer is in favor of. We are of the opinion that a government store where intoxicating beverages could be sold to moderate drinkers in sealed packages to be consumed at home, would satisfy most of those who voted for clause D. At the same time, in this age of generation of responsible government, when a certain clause carries by a huge majority it is naturally expected that it will become law.

Seven Sentence Sermons

BY A WILLANS

CHRISTMAS 1923 "

For unto you is born this day in the city of David a Saviour, which is Christ the Lord.

And this shall be a sign unto you: Ye shall find the babe wrapped in swaddling clothes lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host praising God and saying,

Glory to God in the highest and on earth, peace, goodwill toward men.

For unto us a child is born, unto us a son is given: and the government shall be upon his shoulder and his name shall be called Wonderful, Counsellor, The mighty God, the everlasting Father, The Prince of Peace.

Those are worthy O Lord to receive glory and honour and power: for thou hast created all things and for thy pleasure they are and were created.

And every creature which is in heaven, and on the earth, and under the earth, and such as are in the sea, and all that are in them, heard I saying, Blessing, and honour and glory and power, be unto him that sitteth upon the throne, and unto the Lamb for ever and ever.

(Taken from Luke 2: 11-14. Isa. 9:6, Rev. 4:11, and 5:13)

THE PRINTERS DEVIL

A printer's devil was the name formerly given to the boy who took the printed sheets from the hands of the press. They got themselves so bedaubed with black that the workmen jokingly called them the devil.

Printing itself, 28 lbs rolled the Block Art, and the boys who assisted processes were called imps.

According to a legend, Aldus Manutius, a printer of Venice, had a little negro boy, who was left behind by a merchant vessel, to assist him in his business.

It soon got about that Manutius had a black imp to assist him and to dispel the rumour he showed the boy to the assembled crowd, and said "Be it known in Venice, that I, Aldus Manutius, printer to the Holy Church and the doges, have this day made a public exposure of the printers devil." All who think he is not flesh and blood may come and pinch him."

The people were satisfied, and no longer mistooked the negro lad.—Montreal Star.

Our Two In One System

In simple terms, means that you, as producer, receive a round TWO sacks of good flour by GRISTING your own wheat to one you buy otherwise—you will have a year's supply of Flour (lots of it) at cost.

This is one of the greatest Co Operative systems known today, that is direct to the producer.

Our rolls are sharp, which means the largest yields of the best flour, that your wheat will make.

The Mill's production capacity is equal to over one carload per day which means fast work and no long waits and where only good flour is made and where everyone gets a square deal.

Better drive a few miles farther and have your good wheat made into real flour. (Nitts boy!) Our mother insists take our flour.

Grinding 25c per bag. Flour and feed seeks on hand, practically at cost. Phone us at our expense.

Once a customer always a customer, who will always "Hurry back."

PROBLEMS OF WESTERN CANADA CAN BE SOLVED

Victoria, B.C., economy without profligacy was one not worth living in, and few on the prosperity of Western Canada there were signs, hope and youth abundantly available for their solution, said O. H. Stevens in his address to the delegates of the Western Canada Liberation Union.

"In this we hold as a moment the agricultural conditions of the west this year it was unfortunate that we do not find the industry wholly pressing. Large crops of corn in Manitoba and South-ern Saskatchewan gave promise of a large yield of grain, but there was many rust. The prime necessity now seems to be a good account of themselves in the matter of both fodder crops and grain, which were of the usual high quality. But even now where good crops have been taken off the net returns are distinctly small, owing to high cost of operation, especially the high cost of labor during the busy season. The situation in this respect is serious and no underestimate of the problem is apparent at present.

"There are, however, some favourable aspects of the situation.

"The enlargement of our markets seem to be the only avenue open for present development in that route of production as far as labor is concerned. There is no danger of their reduction. There are other markets of production which are not at present involved in giving the utmost attention.

"The outlook is not based as it from diversification. We have been reckless but no country peopled as sparsely as Western Canada, though with a vigorous population, rates of but to cultivate large areas of land per individual unit in order that they could be without profit. A country without producers, wants produce a people without purpose, remains a corpse."

Jury's Verdict In Favor of Churchill

Former First Lord of Admiralty Won Suit

London Lord Alfred Douglas, son of the late Marquis of Queensberry, was found guilty by a jury in the High Court of criminal libel upon Winston Spencer Churchill, former First Lord of the Admiralty, by his publication of the statement that Mr. Churchill secured a false commission after the battle of Jutland for the purpose of influencing the court martial.

Lord Alfred was sentenced to six months in prison, at the conclusion of which he must find security to keep the peace particularly toward Mr. Churchill. Failing to find security he must undergo another six months' imprisonment.

WILL WAIT FOR A SOLUTION OF POLITICAL CRISIS

London The solution of the existing complex political crisis has gone very much farther than the government's decision to meet parliament when it reassembles, the latest development was that the Labor party, by the official announcement of its executive committee, has decided its position to be that it will withhold any decision for the present whatever called upon to do so.

That the present government has no real hope or being able to retain office for any length of time is known in its decision to do nothing either to replace or to meet the wishes of the ministers developed in the recent elections. The bye-lining space allowed by the government position to meet parliament is probably welcome to all three parties as permitting opportunity for consideration and to take breathings without the necessity of committing themselves to immediate action.

Through the leaders of all parties regardless any intention to seek any coalition, there will doubtless be attempts in the interim upon the part of the ministerialists to secure a period of benevolent neutrality on the part of the Liberals towards the Conservative administration, and as the Liberals are almost as anxious as the Conservatives to keep the Labourites out of office, it would not be surprising to see some unofficial understanding of this kind arranged, especially as there is a general desire to avoid absolutely partial elections in the near future.

In the meantime, however, the Labor party is tabling the chances and has instructed its electoral machine London to prepare for any emergency at any moment.

Premier of Australia Will Go To Ottawa

Ottawa Premier Bruce of Australia, has cabled here that he will arrive in Ottawa on January 31 and leave February 3. He is to visit Ioma Vancouver on Feb. 3. It is intimated officially that the coming of the Australian premier to Ottawa is particularly in advance with the Government arrangements for a reciprocal preferential treaty. Last winter, Hon. J. A. Robb visited Australia with that end in view, but owing to domestic political conditions in Australia little came of the mission. The outlook now is considered to be more favorable, particularly in view of the rejection by Great Britain of the wider imperial preferential ideas.

Greater Menace Than War

Appalling Wastage of Life Through Tuberculosis Says Winnipeg Doctor

Montreal "Within 50,000 Canadians died overseas during the war 50,000 Canadians died needlessly and needlessly of tuberculosis at home and no attitudes or treaty has put an end to that wastage of life Tuberculosis, after all, kills at the prime of life. Those who are bearing the burden and heat of the day, those upon whom rests the business and industrial and family responsibility rest."

The above was the declaration of Dr. D. A. Stewart, of Winnipeg in an address before the Rotary Club here in Montreal, he said, one thousand persons die every year from tuberculosis while in the province of Quebec the death rate from this disease is over 2 000 yearly. In Quebec also every year 2,000 people die, most of the children each year die death rate being 150 per 100,000 inhabitants. the speaker stated the death rate is 42 and in various other

Britain Fighting Cattle Disease

Twenty Counties Affected and Daily Loss is $300,000

London The slaughter of animals on a wholesale scale because of foot and mouth disease goes on steadily and animals to the value of at least £70,000 are being dispatched daily by the effort to stamp out the epidemic. A statement in this office and handed by Sir William Jarmon Hicks, minister of health, in a speech Although 29 counties are affected the worst centres are Shropshire and Cheshire especially the latter, where more than 100 new cases are developing daily, thus necessitating the virtual destruction of entire farms in the counties where there is infection.

The officials of the ministry are experiencing difficulty in coping with the situation which is threatening to destroy Cheshire. A special cabinet committee has been appointed to deal with the contagion

U.S. Is Buying More Wheat From Canada

Large Increase Registered During Past Three Months

Ottawa—Exports of Canadian wheat last month showed an increase over those of November of 1922, but there is what was shipped out of Canada for the past three months than during the similar period a year ago. For both periods, however, a large increase was registered in wheat taken by the United States. The United States bought 2,012,141 bushels of Canadian wheat last month compared with 2,666,178 bushels in November, 1922. While there was not much difference between the amounts of wheat shipped to the United Kingdom in November, as compared with November a year ago, the exports for the corresponding three months showed a falling off from 82,165,756 to 68,222,421 bushels

New Elevator For Vancouver

Will Be of Reinforced Concrete and Cost About $2,000,000

Vancouver, B.C.—Returned from an extensive trip to England, where he went to raise additional capital for the Terminal Grain Company, Limited, of which he is president, H. H. Gibbs stated that he succeeded in completing arrangements for the construction here of a 2 000 000 bushel reinforced concrete grain elevator to cost approximately $2,000,000

Construction has and would begin at the earliest possible date and the plans will be rushed to completion as rapidly as possible by the end of March next

Trying to Fund France's Debt

Washington, D.C. Every possible effort will be made by the United States to aid the reparations negotiations of Premier Poincare's debt to this government, Secretary of the Treasury Mellon declared in a letter to Senator Borah Idaho

Premier Wm. Stevens Will Go To Ottawa

Victoria, B.C. Premier Wm. Stevens will go to Ottawa to attend the meeting of the Dominion Council of Health, which will be held in the capital city on January 7th, it was announced here today by Premier Stevens himself. The premier will be accompanied by Dr. G. M. Weir, provincial health officer.

Alberta Pool Making Satisfactory Progress

Yeomans Wins Elevator Commerce Are Being Gradually Eliminated

Regina More than one thousand customers of wheat are being handled by the Alberta Co-operative Wheat Producers' Limited, and the business of the pool is progressing satisfactorily, according to information recently received by George W. Robertson, secretary of the Saskatchewan Wheat Producers' Limited.

"The troubles of the Alberta pool with the elevator companies are gradually being smoothed out," said Mr. Robertson, "and at present the Alberta authorities have practically all the larger elevator companies working under agreement with them and practically every elevator point in the province is covered by at least one pool elevator In the case of points not covered the contractors in Edmonton are mostly within hauling distance of some other point, where there is a pool elevator

May The Joyous Christmas Spirit Grip Every Heart

MUST PIN FAITH ON LEAGUE SAYS HON. G. P. GRAHAM

Toronto Canada will do well to affirm her belief in the principle and action of the League of Nations for lack on this constitution that may arise to meet crisis, and for the re-union of bloodshed declared Hon. George P. Graham, Minister of Railways and Canals, at a complimentary banquet tendered him here by the Liberals of Ontario on his return from Europe where he sat as a delegate from Canada in the council of the League of Nations and the Imperial and Economic conferences in England

"My attitude in the Lausanne matter," said Mr. Graham, who is endowed the "sitting" in on the conference at Lausanne, "was one of assistance."

THE MERCURY, TOFIELD, ALBERTA

Bardo Budget

The Lutheran young people will give their Christmas Cantata at the Bardo church on Thursday evening, Dec. 27th beginning at 7.30. Everybody cordially invited.

Mr. Axel Kindley and Miss Nata Hanson will be married in the Lutheran church at Bardo at noon, Thursday Dec. 20th.

Arnold Stevens and little daughter Ellen leave Friday for Bellingham, Wash., to spend the holiday season with his parents.

John Yoder has installed a Radio, which helps to shorten those long evenings.

At their last meeting which was held at Mrs. T. R. Anderson's the ladies of the Lutheran Ladies Aid, decided to have their dinner and sale on Friday Dec. 28th. A Norwegian dinner will be served at noon, in the basement of the church. Followed by a sale of useful and fancy articles. Everybody invited, dinner 50c

KETCHAMOOT

Merry Christmas and a Happy and Prosperous New Year to the Editor and all readers of the Mercury.

Rev. Stevenson and Mr Fairbourne held divine service at the home of Mr and Mrs. Henry Sutton on Monday evening with a good crowd present.

Dr. Morrison was an over Sunday guest at the W. A. Mitchell home last Sunday.

The Misses Violet Taylor and Nora Wood, Frank Wood and and Percy Reynolds were entertained at the Green home last Sunday evening.

Mr Miller of Waterloo, Iowa, and Mr Howard of Glendell, Sask. arrived on Friday evening for a visit at the Carlisle home. Mr Miller is a cousin of Mrs. Carlisle.

Messrs J. Henderson and Fred Hutton motored to Edmonton a week ago Friday, returning home on Sunday. They were accompanied home by Earl and Clarence Welsh

The Ingram, Sears, Turner and Brown families and several outside our district shipped turkeys to Victoria B. C. on Thursday.

Miss Jean Dickson spent the week end with her parents in the City

Mrs. C. A Ingram and mother Mrs. Malone leave on Tuesday for Post Falls, Idaho, to spend Xmas with relatives. Mrs. Malone will remain the rest of the winter.

Friends of Mr. and Mrs. Vaughton are very sorry they are compelled to give up farming in our neighborhood on account of Mrs. Vaughton's health. They will leave soon for the coast.

The annual meeting of the Missionary Aid Society was held at the home of Mrs. J. McGinnis last Wednesday afternoon, with a very good attendance. The Christmas stockings were made and filled all ready for St. Nicholas, after which re-electing of officers took place with a slight change in the officers. The officers elected for the following year are, Pres. Mrs. G. Lawson; Vice president, Mrs. C. Ingram Secretary, Mrs. A. McMurray, a son.

Dr. Bains office is now located above Rogers Bros. store.

We are pleased to see Mr. Hannan around the bank again. Mr. Hannan has just recovered from a rather severe illness

Mrs. Henderson visited Edmonton Thursday

Seven Sentence Sermons

BY A. WILLANS

CHRISTMAS 1923

For unto you is born this day in the city of David a Saviour, which is Christ the Lord.

And this shall be a sign unto you; Ye shall find the babe wrapped in swaddling clothes lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host praising God and saying,

Glory to God in the highest and on earth, peace, good will toward men.

For unto us a child is born, unto us a son is given: and the government shall be upon his shoulder: and his name shall be called Wonderful, Counsellor, The mighty God, the everlasting Father, The Prince of Peace.

Thou art worthy O Lord to receive glory and honour and power: for thou hast created all things and for thy pleasure they are and were created.

And every creature which is in heaven, and on the earth, and under the earth and such as are in the sea, and all that are in them, heard I saying, Blessing, and honour and glory and power, be unto him that sitteth upon the throne, and unto the Lamb for ever and ever.

(Taken from Luke 2: 11-14, Isa 9:6, Rev. 4-11, and 5:13)

SMALL ADVTS DO BIG THINGS

Additional Locals

On Saturday night, if you are late for the show it will be repeated until everyone has seen the full show 2 Reels of fun at the usual price, Friday night, Saturday afternoon at 3 o'clock and Saturday night.

Mr. H. Paulson left for Noisville, Man., U. S. A. on Wednesday.

Mr. Rufus Wilson left for Rivers, Man. on Wednesday.

Mr. D. R. Mitchell returned for Biggar, Sask. on Thursday

Mrs. Ward visited Edmonton on Thursday.

An appetizer in the way of hockey was accorded the home team on Tuesday night. Accepting the invitation of Hanlon they travelled there by auto and met the "Friendly" kids the puck chasers of the eastern town. The game while not of senior calibre was well contested both teams wanting their first game to be a victory Tofield won by a 5-3 score.

Mr. and Mrs. Ingram, December 15th, to Mr. and Mrs. T. R. Murray, a son.

Dr. Bains office is now located above Rogers Bros. store.

We are pleased to see Mr. Hannan around the bank again. Mr. Hannan has just recovered from a rather severe illness

THE TOFIELD MERCURY

VOL. VI. NO. 5 — TOFIELD, ALBERTA, THURSDAY, DECEMBER 27, 1923. — SUBSCRIPTION IN CANADA $1.50; U.S. $2.00

Christmas Concert The Best Yet!

One of the largest crowds ever assembled within the Variety Theatre, on Thursday last, was present at the Christmas concert of the Tofield Public School and the Tofield Union Church Sunday School. As an event it was one of the most pleasing, clever and successful held here. The programme was well balanced, the numbers following each other in rapid succession, and there was no tiresome waiting. All grades did splendidly while the work of the High School was famous. Unfortunately the full program was taken out of town and is not available for this issue, but will be published in next week's Mercury.

Mr. and Mrs. Wesley Ingram entertained a few friends at their home on Tuesday evening. Those present were Mr. Duncan, Mr. and Mrs. J. Barnes and Mr. and Mrs. O. Barnes and Mr. and Mrs. H. Mitchell and families.

AT THE

VARIETY

Saturday Only, Dec. 29th

There will be presented a picturization of Allen Sullivan's famous story.

"THE RAPIDS"

This picture which is first class in every respect, will appeal to a Tofield audience as it is a Canadian story filmed by Canadians in Canada.

The story is one of the development of Canada's leading industrial centres from a struggling struggling village to a pulsating virile city and is told with a striking fidelity. The picture was filmed last summer at Sault St. Marie by Ernest Shipman and his associates.

Don't fail to see "The Rapids"

Also a 1 reel rollicking comedy.

SPECIAL NOTE

Change in Programme re Dance for New Year's Day. "Extra Ladies 25c" "Gents 1.50 including lady." We have decided not to serve supper at the Theatre. Ladies to choose partners for three dances before supper and three after supper.

Upright's Orchestra

Bardo Budget

An usual the people of Bardo are enjoying a week of holiday activities. Peace and good will are in the air. We are reminded of the words of an old Christmas carol.

"Oh! don't you think that giving is
Just the best of living.
When everybody thinks of all his friends
If kindness all kept doing.
Each others good pursuing we would
Have a Christmas time that that never ends"

Mrs. John L. Stauffer was unfortunate as to fall one day last week, and although no bones were broken she is suffering from some painful bruises.

Mr. Dunbar, who had a sale on the 13th, left last Wednesday with his family for Ill. U. S. A. where they will make their future home. We are very sorry to lose them from our community. Rev Yoder has moved onto the Stauffer farm.

Quite a large crowd witnessed the marriage of Axel Kindley and Nita Hanson at the Lutheran church on Thursday. The ring ceremony was used by Rev. Blomelie. The bride was given away by her uncle, Arnold Sisco. She wore a gown of pearl grey Moravian Crepe trimmed in pink with a bridal bouquet of pink and green. She was attended by her sister Emma Anderson, and by Nora Beals, who dressed in black gingham. Raymond Nordhouse and Edward Sisco accompanied the groom. After the ceremony dinner was served at the Store home to about fifty relatives and near friends. Miss Hanson who is a orphan, has grown up in the home of her aunt, Mrs. Arnold Sisco. They will make their home on the farm of Peter Hanson Sr. which the groom has rented. When they returned from Edmonton Saturday evening they found a party of young people who had gathered to give them a house warming. Lunch was served and a very enjoyable evening spent.

OFFICE WANTED — for the rental of S. E. 23 49-19 w 4th for 1924 season. Apply to R. W. Pincott.

Messrs Howard and Miller left on Wednesday for Seattle. Mr. and Mrs. Carlisle accompanied them as far as Edmonton.

SUPERSTITION

IT WILL make little difference to your fortunes during the coming year whether the first person that you meet on New Year's morn is fat or lean. The like many another half serious half jocular superstitions

belief is held by many. Belief in signs and omens is as old as humanity itself and in spite of the advanced stage of civilization to day superstition has not by any means departed out of our lives. It is not such a long cry to the time when English bishops watched the burning of Joan of Arc and like fatuous behavior upon old women who could do no harm even if they so desired. To day these things are scoffed at, while killing old men for causing storms at sea is considered both cruel and foolish, yet in days gone by these customs were frequently practiced. While the superstitious fear of the middle ages have happily passed away, to the observer of human nature there seems to be evidence of a superstitious trait in all persons, so much so that if one overlooked a number of other things there is justification for the belief that superstition is part and parcel of our make-up. Superstition could be described as a combination of credulity, fear and lack of knowledge with these emotions proportioned according to the temperament of the individual or subject of interest. There are lucky and bad luck signs galore, but the sign itself matters little, for we find that on one side of the Atlantic a black cat is considered an omen of good fortune while on the other side it is considered an omen of bad fortune.

Ball players and athletes as a class are superstitious as also are fishermen, sailors and followers of the sea. This would lead one to the belief that where men are compelled to exert to the limit their physical powers there is a mental desire for something beyond their own selves to guide them to victory or success.

Omitting belief in the fundamentals of Christianity, belief in anything that is not manifest is certainly not wise while pronounced credulous goes to the hundred and one signs and portents is pure foolishness.

NOTICE

In the estate of Thomas Sword, late of Tofield, Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Thomas Sword, who died on the 7th day of July, 1923, will require to file with Emery, Newell, Ford and Lindsay, Barristers, Canada Permanent Building, Edmonton, Alberta, by the 4th day of February, 1924, a full statement duly verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated at Edmonton, in the Province of Alberta, this 18th day of December 1923.

The New Ford Coupe

An entirely new body design of remarkable beauty as well as practical utility, is the distinguishing feature of the new Ford Coupe.

The body lines follow in one graceful sweep line, the new high radiator to the "turtle-back" corner of the rear deck, which has been enlarged to conveniently accommodate bulky grips and packages.

Upholstering is luxuriously deep both in the seat and back, the covering being of rich brown broadcloth with nobby gray stripe. A rayon shell is provided behind the seat, for parcels.

Interior fittings include two sun visor regulators, and door locks and handles finished in nickel. The large rear window is fitted with silk poplin shade to shut off cool mornings.

The windshield is surrounded by a broad sun visor which protects the eyes from glare.

As a handsome and practical all-weather car for town or country, the new Ford Coupe cannot be surpassed.

New Ford Prices

Let Your Christmas Gift Be a Willis Piano
Manufactured by Canadian experts with the greatest skill and care in the largest and most up-to-date piano factory in the Dominion.
Our Motto is "CANADA'S BEST," and we try to deserve it. The AMPICO, the most wonderful of all re-enneting and reproducing pianos is installed in WILLIS PIANOS, also in the KNABE and CHICKERING, and in these three only.
The discriminating public are cordially invited to inspect our large Christmas stock.
HILL & SCOTT
10020—100th St. Edmonton

Our Two In One System
In simple terms, means that you, as producer, receive a round TWO sacks of good flour by GRISTING your own wheat to one you buy otherwise—you will have a year's supply of Flour (lots of it) at cost.
This is one of the greatest Co-Operative systems known today, this is direct to the producer.
Our rolls are sharp, which means the largest yields of the best flour, that your wheat will make.
The Mill's production capacity is equal to over one carload per day which means fast work and no long waits and where only good flour is made and where everyone gets a square deal.
Better drive a few miles further and have your good wheat manufactured to flour you "gotta buy" Our mother-in-laws bake our flour.
Grinding 25c per bus. Flour and feed sacks on hand, practically at cost. Phone us, we'll not charge you.
Once a customer—always a customer, who will always say "Hurry back."

Rust-Resisting Wheat Varieties Will Be Developed Soon As Result of Experimental Work

Times Change in London

The Old Order of Owing Business Has Passed Away

In the London Daily Mail a contributor on commercial conditions and most British business methods says: Business methods are the opposite of what the Archbishop of College believes the Royal Grain Exchange practices. The objects were: First, U. R. Hedges, local particulars; and Four, W. G. H. Wilson, country.

In Hedges said one was ushered by cashier and met by members in small groups. Selected. If cash was needed a little collection in the trade as soon as the child.

Hard, said he thinks one hears always more Biblical things. The account books have been in various persons on Manitoba as they had been in England one had notes and receipts of things but in the last forty little had been experienced.

Dr. Hedges stated that the system of monthly brakes would be a boon to the cultivators of the prairie lands, he said, could be spread by wind. The system had come to Manitoba either through being shown in from the south or some brotherly brakes in existence in the province from which they had obtained more economical uses the system, which, about three months he has experienced.

Wilson said was the best remedy as an Canadian west, for India was rational. The remedy will be found before, said in the production of a variety of wheat which is resistant to rust.

In Hedge said the weather was a factor in developing rust. In warm, damp weather, it developed more rapidly and in cold weather it ceased into the people the idea that weather was the factor of rust. It was the variety, hotness, and the plant develops of quickly in a high temperature.

Hard, in spoke of respect more in the hybridization of wheat varieties.

Prof. Wetter said that varieties with marked rust-resisting qualities had been developed already in Ingo-Selected. The problem now was to transfer the rust-resisting qualities of Iowa wheat to Marquis. There was every prospect of the problem being solved, he said. In Minnesota the rust-resisting qualities of Iowa had been transferred to Marquis wheat, and a type is being developed which, while showing rust-resisting qualities, preserved the characteristics of Marquis.

Asked how long it would take to develop a type of wheat that would be absolutely rust-resisting, Prof. Wetter declared that, in view of the volume of experimental work being done by universities in certain wheat areas in the south and in Canada, it was possible that in the next five years a wheat would be developed that would be highly rust-resisting.

Wood Own Agricultural Products

Good Market in Great Britain For Canadian Produce

Canadian agricultural products will in future command more and more the attention of the British consumer, Dr. J. H. Grisdale, deputy minister of agriculture, of Ottawa, told the convention of the Western Canada Livestock Union at Victoria.

"Canada is quite evidently giving more attention to the requirements of the British consumer than is any other of the Dominions, speaking in a general way," said Dr. Grisdale. "We must not, however, hesitate in our efforts for a moment if we would hold our place, and improve the same, in these British markets. The British consumer likes what he likes evidence of who will furnish it to him, and any failure on quality or quality very quickly reacts upon the country affected.

Youngest Immigrant

Arthur Dudley, believed to be the youngest immigrant who ever reached Toronto Canada unattended, arrived from Scotland. He is three years old. He has travelled across the Atlantic and a portion of the Canadian continent to Canada as destination and he was the pupils took all courtesy on board ship.

Believes in Publicity

Mabel, Florida, spends $275,000 a year on trade advertising.

Decrease Emigration

Department of Agriculture Spent a Period of Meeting in London

Overseas emigration was discussed at a meeting of the Royal Society of Arts in London, when Agricultural W. C. Nixon, of Ontario pointed out that up to the end of October last about 75,000 people had been given a passage this year at a cost to the British government of £300,000.

This statement and J. Lloyd Stuart, Canadian Agent of Immigration, explained that according to statistics the advantages spoke from the other side of ocean. Miss Mcphedo which kept from at home, brought out, when work was waiting overseas. Before the end of two to do in Commissioner Lutah, of the Salvation Army, declared that the Army was sending 5,000 overseas weekly, and would guarantee to find employment for Mr. Boston he could speak from and Canada could absorb them.

Mr. Jones made a comparison that the British governmental should demonstrate the money spent in Canada by employers on housing those interests of immediately lines.

For Supreme Court to Decide

Question of Whether or Not the Grain Futures Taxation Act is Ultra Vires

The Supreme Court of Canada will decide whether or not the Grain Futures Taxation Act is ultra vires.

The decision of the Federal Government embodied in an order-in-council to issue notice, and in that "the following questions be referred to the Supreme Court of Canada for hearing and determination:

1. Had the Legislature of Manitoba authority to enact chapter 12 of its statutes of 1922, entitled "an act to provide for the collection of a tax upon options dealing in grain for future delivery?

2. If so as said act be, in the opinion of the court, ultra vires in part only, then as what particulars is it ultra vires?

"As the questions time at issue depends upon the interpretation of the British North America Act, the minister of Manitoba under the British North America Act, the minister of justice considers it desirable that Your Excellency's government should be advised by the Supreme Court of Canada as to the enacting authority of the province of Manitoba," states the order in council.

Cattle Sales Fall Off

Outlook for the Future, However, is Said to be Promising

For the 11 months ended November 30, public sale and commercial cattle sales show approximately 26,000 less for or than during the same period last year, according to a report issued by the Dominion Livestock Branch of the Department of Agriculture. The statement deals with the situation as it affects the domestic market.

It is shown that during the month of November there was a falling of 10,812 as compared with November, 1922. This almost accounts for the total drop in recorded during the 11 months under review.

The extraordinary openness and mildness of the weather," says the report, by way of explanation, "has acted as a welcome restraint in the sale of cattle, but it is nevertheless apparent that there are fewer cattle in market, more feed available and a much more favorable, relatively speaking, than at this period of 1922."

West Government Assistance

A reimbursement of the financial assistance rendered to the Saskatchewan Co-operative Creameries Limited by the Saskatchewan Government was sought when F. M. Logan, general manager of the company, and Dr. F. J. Ball, one of the directors, waited upon Premier Dunning and Hon. J. A. Merkley, minister of municipalities, during the recent session to the Directors of a statement showing a loss of more than $200,000 during the past three years on the cold storage and produce departments.

Two bird dealers of New York City paid more than 1,000 English sparrows yellow and sold them to rural dealers in the Bronx for Horn Mountain canaries.

Approximately 30,000 tractors are expected by farmers in the three prairie provinces of Canada. Their value is estimated at $15,000,000.

W. N. U. 1564

Corn Growing in Manitoba

Extraction Has Prominence Received Most from Southwest Section

The possibilities in corn growing in Saskatchewan were discussed at a recent meeting of the Regina Board of Trade when C. F. Wilson said that Canada was authorized to appoint a commission to examine the question and make for the encouragement of the industries not to subsist to the only grain crop, but of cattle. Miss Mcphedo which kept from at home, brought out, when work was waiting overseas. Before the end of two to do in Commissioner Lutah, of the Salvation Army, declared that the Army was sending 5,000 overseas weekly, and would guarantee to find employment for Mr. Boston he could speak from and Canada could absorb them.

Mr. Jones made a comparison that the British governmental should demonstrate the money spent in Canada by employers on housing those interests of immediately lines.

Says Canada Needs More Cash Money

May be Danger of Over-Production of Raw Materials

"Canada imported $60,000 worth of cash money last year and there is no reason why we should not have that business," said H. G. Bibbald, addressing the annual meeting of the Canadian Bankers' Association in Toronto.

"There is danger of over-production of extracted money, but little danger of running certain money because of the time and care demanded," he added.

Winning Fight Against Tuberculosis

The battle against tuberculosis in United States is being won gradually. Certain bitman statistics show the number of deaths per 100,000 population in the registration area of the United States, comprising 85 per cent of the total inhabitants, declined from 150 in 1910 to 97.4 last year.

Essentials in Education

The standard body of Canadian citizenship has been unduly in favor of the abolition of examinations. The best step will probably be the abolition of studies, and then there will be time and opportunity for the real business of student life.—Montreal Herald.

Ten-elevenths of the world's population live north of the equator.

Need More Population

Claims the West Should Have Ten Million People

The three western provinces, Manitoba, Alberta, and Saskatchewan, require ten million people before it can be said that they are fully settled and the land is under full cultivation, asserted H. H. Rowe, special commissioner representative of the Canadian Pacific Railways in an interview in Montreal.

At the present time in Saskatchewan there are only seven persons to the square mile. There was a fine crop in Saskatchewan this season, and the people there were satisfied.

The land of the mineral Rockies was almost exhibitedly charmed. This was learned by seven years, mining grubs or fish, and gave employment local for living rooms and banks.

French Airplanes Brought Down On German Territory By New and Mysterious Agency

Britain Wants Breeding Stock

Would Import Heifers From Canada Under Government Certificate

Livestock officials and representatives of public bodies and associations from all parts of the United Kingdom, together with representatives from Canada, Australia and South Africa, meeting at the Royal Sanitary Institute passed a resolution declaring it desirable to allow importation of breeding heifers from Canada into Great Britain, subject to government certificates that they are free from tuberculosis.

The London cattle inspector, according to the wholesale slaughter of cattle prevalent in England as a result of the foot and mouth disease, was not satisfied that if Canadian heifers were inspected as a temporary measure, importation would become permanent when farmers here realized the quality of the Canadian cattle.

Ukrainian Co-Operation

Will Assist Immigration Authorities in Bringing Settlers to Canada

Ukrainian flooding co-operation with the immigration authorities in bringing Ukrainian farm settlers to Canada; creating a central Ukrainian committee of Canada, which will study the general policy of Ukrainian farming in Canada, and establishing of established scholarships for Ukrainian youths, which will enable them to take up the study of domestic science, were passed at the first Ukrainian co-operative and economical congress held in Winnipeg recently. Ukrainians from all parts of Canada were in attendance.

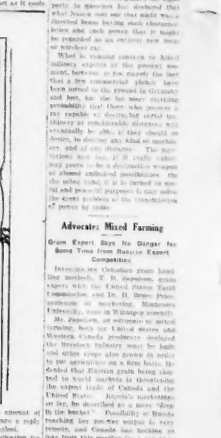
Commercial Travellers Elect Officers

John Perry, president; J. F. Boland, vice-president, and Maxwell Bucknell, treasurer, were elected by acclamation at the annual meeting of the Dominion Commercial Travellers' Association held in Montreal.

Water Warm Near Iceberg

Men refreshing in the surf on large icebergs find the water has a temperature of seventy-two degrees, even close to the berg, the water has contact with ice sinks as fast as it cools

Sunny Skies Have Strong Appeal



Advocates Mixed Farming

Grain Expert Says No Danger for Some Time to Come Russian Export Competition

Interests the Canadian grain board, including the leading grain experts with the United States Tariff Commission and Dr. H. Brace Price, professor of economics at Princeton University, were in Winnipeg recently. Dr. Price, who is an expert on grain matters for United states and Western Canada producers declared that Russian exports would not be a serious factor for some time to come. He detailed that Russian grain being shipped to world markets is threatening the export trade of Canada and the United States. Russia's marketing, he described as a process "deep in the bottom." Possibility of Russia reaching her pre-war output is very remote, and Russian exportable surplus for this quarter for a considerable time, he declared, said.

Saving the Wrinkles.

New owners of an estate in Sweden who paid $1,000,000 a year seem to regard the expense of operating locomotive whistles by having the whistles blocked higher and heated properly. No men for forward inspecting his train.—Penn. Railroad Transcript.

Little Woman in Lapland

The women of Lapland are among the smallest in the world, averaging only 4 feet 9 inches in height.

CHAPTER XXIII—Eileen

Sammy and Bobsman went to sabbath, with their hair looking like big cakes and their manner like dukes. Two or three times Sammy insisted on my giving him a dime, and when we parted with a shout that we had not gone for the cars for the week—it seems that the strikers that we would enjoy with little enthusiasm from the outside—I had one million interesting experiences which I kept for the next day to tell her a word, so that Gwen might be in Winnipeg for the enjoyment of her darkest secrets. I was sensible of the Gwen element—the Gwen who was not Winnipeg, but who was not Gwen as we knew her. I was not sure that I wanted to see that Gwen. I had learned how much Judy and Gwen would appreciate each other and the difficulties there might be in the way of that.

I think I was right. A week of his own crushing had a salutary effect on Jack. I am sure, and Gwen came home so much to see him and the children and on full so many ideas that she was a different woman. She had settled with soldiers' wives from her and home in England, had been entertained in one of the finest houses in Winnipeg, had gone to see the Governor's wife, who could scarcely be more democratic, had received the felicitations of the Soldiers' and Sailors' Society and the Daughters of the Empire, and brought home three new hats purchased with her full of economy.

"I guess I needed a bit of a change," she informed me innocently when she came to get the children. "I do get so fed up with everything here sometimes. But I won't leave you all the women talk." I had a vital time home to be living where there isn't a man in sight, and her husband thought she should have entered a letter in stead of running off on a mood time to herself. And four children with the interference, poor thing!"

The baths and I had a wonderful time with the children. Gerald was four and Molly almost two, and, for between ourselves, they were a handful. Gerald is spoiled—it is a shame—he is really a nice child—and Molly is the most unbearable little minx I have ever had to look after. Between them they kept me busy. I believe she is now seven. At least so Gerald says, and he knows the latest as to last to birth, and so funny and breaks with it all that I could never see fallibus with her.

One afternoon and the Secretary for my quarrelled for mine, and that was when Gerald elected Bobsy and Sammy his lieutenants to give him what Mac described as a tempting holiday tea. Molly came to Gerald's aid also, and I watched the conflict with joy. I had Sammy and Gerald both on my side, and the two Macs and Molly ranks changed in respect of one or two Trade Unionist moves—not a bit because Molly was elected vociferously and a no business leave Molly was elected on on a visit by the kitchen table, planning the blockade by a system of raid and dares in a mixture of Scots and English that left me quite at sea. Gerald, however, all three children a lot.

I really missed the children when Gwen took them away, and I think I must be crazier like Mrs. Newbery.

The first exception to that feeling I experienced when Mrs. Newbery, I did not give the Bobsy and Sammy that Mac had not been sending to see me as usual, but every week or so I would be a point or call on her. She was very well and very happy, and she was not the woman to talk about what she felt most deeply about—except that she was almost overcome with gratitude.

"I am not at all nervous," she told me once. "No sooner I know that I have to endure me but then I would be strong and healthy and I know how to take care of myself."

Mr. Newbery and I thought that, too, but I was not sure that I could be as sure as she was. Mac's self-reliance was the kind that would be likely to defy fate, so to speak, and not worry much about it. But

Lindbrook Notes

The dance given by Messrs R. Rogers and E. Lindberg was well attended despite the short notice given of its inception, and all enjoyed themselves very much. Mr. Chas. Morden was M.C. and the Smith-Fons Orchestra supplied the music.

On Tuesday evening, Dec 18th a skating party was held on the "Lindbrook Rink" on the Hooper Holland farm here. Quite a large crowd assembled, and the "rink" resounded with the click of skates and the mirth of the skaters, everyone having a real good time. Coffee, sandwiches and cakes were supplied during the evening, the ladies all bringing their own cakes the same as is customary at dances. "Lonnie" supplied the illumination and the weather man was kind too for the weather was quite warm. We hope to see just a few more of these affairs in the near future.

Lindbrook's school teacher and children attending the school gave their annual tea and concert last Friday evening at 6 p. m. After a feed of sandwiches, cake and tea, the concert commenced, and all of it was first class, we won't start in to enumerate or praise all its special features, but it was all good and Mrs. Leahy and the ladies who helped her with the costumes and nuts, and the child-actors and actresses are all to be complimented on their work which must have entailed great effort on their parts and a lot of hard work as well. The school was tastefully decorated in the usual Christmassy style, and during the course of the evening toy balloons and candy walking sticks were distributed by Mr. Leahy to both young and old and some fun ensued over that. After the concert finished and the young dramatic talent had left to keep appointment with the "Dustman," the grown ups staged a dance which was much enjoyed by all.

Mr. and Mrs. Norman Ellis left here last Saturday on a visit to Mr. and Mrs. J. Ellis at Victoria B. C. They expect to be away for 6 weeks at least.

Mr. J. Worsencroft, is undertaking to look after their farm and stock whilst they are away.

Divine Service was held at 2.30 p.m. on Dec. 23rd in the School house. The service was conducted by the Rev. Arthur Williams, Christmas hymns were sung, and the sermon dwelt upon the birth of Christ and its relation to humanity. Quite a number attended, but we would like to see more, so don't forget that the next Service is to be held on Jan. 6th at 2.30 p.m. so try and be there.

NOTICE

To whom it may concern and particularly to Blackfoot Stock Association and the owners of the cattle hereon described.

Take notice that the cattle hereunder described herded to me for feed and herding by Blackfoot Stock Association have been seized and will be sold for the feed bill and the cost of this advertisement unless before the date and time of such sale they are redeemed.

The charges for feed and herding are 10c per day per head from November 15th to December 24th and thereafter 8½c per day per head.

Such sale will be held on Tuesday January 8th 1924 at 1.30 p. m. on the S. W. 12-52-19 w. 4th M. And further take notice that in addition to the feed charges above named and advertising charges there shall be paid by the owners of the cattle represented by the following brands the amount set opposite each being service fees demanded by Blackfoot Stock Association which I have guaranteed.

1 head branded PC with half diamond below, left hip, service fees $6.50

4 head branded J5 with inverted half circle above, right shoulder, service fees $27.50

1 head branded Y, right hip, service fees, $6.50

3 head branded F8 with half diamond above, right hip, service fees $9.00.

For feed bill only the following:

1 head branded AU right hip.

2 head branded HB right thigh.

1 small roan yearling heifer indistinct brand right ribs.

1 3 year old steer, red with white face and white back down.

1 red cow white face.

V. J. MOES
R. R. No. 4, Tofield.

LITTLE ADVTS—BIG RESULTS

Here and There

Sixty per cent of Hamilton's population own their own homes, a fact revealed by the figures of the 1923 assessment for the Ontario city, which, according to those figures, has 38,500 dwellings and 437 apartments.

The great floor movement over the wharves at Port William and Port Arthur this season has been unprecedented, according to reports of the Canadian Pacific Railway, which, by the end of October, had shipped 220,000 tons of F. o. b. to lower Lake ports.

Port Arthur's building permits for the last months ending October showed a total of $2,633,350, which is the biggest building year in the history of this Ontario city, exceeding even the total for 1921, one of the real estate boom years.

Canada exports $4,775,000 worth of cheese to various countries during the month of October, an increase of $1,251,000, over the total value of cheese exported in October, 1922. The United Kingdom was by far the largest consumer, taking 215,000 cwt., valued at $4,464,000.

According to an announcement of Hon. E. H. Armstrong, Premier of Nova Scotia and Minister of Mines, the coal production of his province for this year will reach at least 4,200,000 tons, an increase over last year's production of 4,642,196 tons of more than 1,300,000 tons. The outlook for 1924 is encouraging.

The Prince of Wales, un.ess interfered with by affairs of state, intends to make annual visits to his Alberta ranch. William Carlyle, superintendent of the E. P. Ranch, told the members of the Canadian Society of Technical Agriculturists in addressing them at Toronto recently.

For traders in the distant parts of Alberta, Saskatchewan and British Columbia, ordinarily weeks and months from mail service, are now getting regular quotations on furs from the Calgary Herald's radio broadcasting service.

The annual winter carnival at Banff, which is yearly becoming more popular and is attracting sporting enthusiasts from all parts of the continent, will be held February 2-5, 1924, while the Banff annual bonspiel will take place February 4-6.

According to estimates made by the Rt. Rev. Dr. G. Exton Lloyd, Bishop of Saskatchewan, that province has room for another empire north of Prince Albert and North Battleford. The bishop has just completed a six weeks' tour of the limits of settlement in his diocese, covering 2,400 miles, and estimates that homes and livings for 250,000 could be provided in the country referred to.

The adverse balance of grain shipments through Canadian as against United States ports is being steadily reduced, according to statistics compiled by the Marine Department. In 1916 only 81,062,796 bushels of Canadian grain were shipped through Dominion ports, while as 166,340,000 bushels were shipped through the States. The figures for 1923, up to September 1st, on the other hand, show that Canada now ships nearly half her grain through her own ports. During this period the amount registered has been 108,540,035 bushels despatched via Canadian ports and 118,623,438 via those of the United States.

STRAYED— Some time during October two roan calves and some red calves, have tuberculosis test tags in ears. Finder please communicate with J. Vaughlen or D. L. Yoder, Phones 206 207

STRAYED—From N. W. qr. 7 50-19, 2 yearling steers, red with white face; one yearling steer, red and white; one yearling heifer, red and white; one yearling heifer, red with white face, all branded ZY with half circle on right hip. Notify L. B. Fleming, Ringwan, Alta.

Gifts That Last

The jewelry gift is for ever valued. We have a splendid stock of dandy gifts to suit all purses and we will be pleased to show you them.

Wong Jewelry Co. Tofield

1923—1924

IN THE previous fifty-one issues of the Mercury during 1923, we have used this space to give publicity to the merchandise we have offered the public.

We cannot allow the year to end without expressing our appreciation of the pleasant relationship existing between the store and its customers, which in very many instances has existed during the thirteen and one half years since we commenced business.

We extend to one and all our Best Wishes for a Happy and Prosperous New Year.

Rogers Bros., Tofield, Alta.

The Season's Greetings

We desire to thank our many friends for their patronage during the year 1923 and extend to all our heartiest greetings and sincere good wishes for their health and happiness at Christmastide and throughout the coming year.

Tofield Farmers' Supply Co.

APPRECIATION—GREETING

UPON the commencement of the second New Year of this store's history, we wish to extend our hearty thanks for the business given to us. We are pleased to be able to say that our expectations have been fully realized and the policy of this Store during 1924 will be Progress.

We sincerely wish all a Happy and Prosperous New Year.

A. HINGLEY & CO.
